

SGA Clubs	Description
A Coopella	A Coopella is an audition-based a cappella singing group. We come together a few times per month to rehearse songs of varying genres and perform at CMSRU/Cooper events. We are proud to be an organization that offers both stress relief and a social outlet during medical school.
American Red Cross at CMSRU	The purpose of our club is mainly to provide basic resources (such as food, fire alarms, healthy lifestyle education, blood pressure readings, natural disaster education to children in schools, etc) to the people of Camden. We are a partner with the American Red Cross chapter in Camden County. We try to have a project brown bag event approximately every month. Our Project Brown Bag events provide about 100 sandwiches, drinks and snacks to people on the streets each time we go out. Our club members help to bring food items, make the lunches and deliver them. We also attend health fairs whenever we are invited. Other events include installation of fire alarms into houses of Camden, Pillowcase Project presentations about safety in natural disasters to school children in Camden, and volunteering at the local food bank.
Bioethics Club	The CMSRU Bioethics Society is a medical student run organization that was established to increase student understanding about past and present topics in the bioethics field, with a focus on medical issues. Our goal is to prepare students to think through these issues and apply them to their practice of medicine. Our organization holds regular meetings, discusses journal articles, and holds debates on relevant issues. Additionally, we hope to host guest speakers on topics based on the interest of our members. Overall, the CMSRU Bioethics Society is dedicated to raising bioethics awareness within the medical field. Along with the CMSRU mission statement, we believe that students with a greater awareness on these issues will be able to enhance the way they choose to practice medicine in their respective fields.
Clinical Nutrition Club	
CMSRU Health Policy Interest Group	The CMSRU Policy Forum provides extracurricular exposure to topics in health policy.

<p>CMSRU Institute of Healthcare Improvement</p>	<p>The Cooper Medical School of Rowan University Institute for Healthcare Improvement (IHI) Chapter seeks to be a resource for medical students. The IHI CMSRU Chapter will employ a variety of methods to educate students in aspects of patient safety, quality of care and performance improvement. The goal of this chapter is to give students the knowledge and resources to practice as well as be leaders in improvement of healthcare. Practice safely and recognize changes that they can make to improve the care that they provide. The CMSRU IHI Chapter in partnership with CMSRU will strive to develop students who understand and practice and teach the principles of patient safety, quality and performance improvement to others. They will have the knowledge and skills to impact the medical environment that they are working in. Students will have knowledge, resources and ability to take the lead in QI healthcare.</p>
<p>CMSRU Running Club</p>	<p>CMSRU Running Club is a student-run group which encourages health, fitness and wellness on the CMSRU campus. Our membership includes medical students and CMSRU faculty members and is welcome to runners with all levels of experience. We have weekly social runs across the bridge to Philly, in Cooper River Park., and we participate in local and regional races. We are a fun group of people who love to run! We hope you'll come out and run with us!</p>
<p>CRC Student Advisory Committee</p>	<p>The mission of the CRC clinic board is to help develop and sustain a high-functioning student-run clinic in which uninsured patients in the Camden Community receive quality, longitudinal, coordinated care that acknowledges and addresses their complex medical, mental and social needs. The clinic will afford students equal opportunities to develop clinical, leadership, care management and coordination skills, and interdisciplinary team-work in an innovative clinic environment. The clinic board is receptive to the changing needs of the patients and students.</p>
<p>Disability Awareness Association at Cooper</p>	<p>We are medical students who identify as being disabled, physically or mentally, and students who wish to support the demonstration of disability awareness. Our goals are the following: Encourage self-advocates to teach us, Spread awareness and destigmatize disability, Find and make available tools to better connect with patients with disabilities, Facilitate mentorship opportunities between students and healthcare professionals, Reinforce the dignity of patients with disabilities</p>

Global Health Interest Group	1. International awareness & keeping up-to-date with public health and medical methods on a global level; 2. Integrating new ideas from global health into our curriculum; 3. Identifying areas at home and abroad with similar health care issues; 4. Recognizing and implementing internationally developed health innovations applicable in Camden; 5. Develop our own literacy in national and international health; 6. Educate our community about global health
Knitting/Crocheting Club	Knitting and Crocheting is a service organization/stress relief club at heart. We make baby hats, booties, blankets and more for preemies and children at the hospital. We want to expand to other projects (cancer patients, homeless, etc). We also work on personal projects as a stress reliever. Friends and family are welcome!
Medical Humanities	CMSRU's Medical Humanities aims to provide an open space for broad consideration of humanities disciplines and to explore their many intersections with medical practice.
Medical Spanish Club	
Medical Students for Choice	Medical Students for Choice Chapter at CMSRU is part of an international non-profit whose goals are to destigmatize abortion provision among medical students and residents, and to persuade medical schools and residency programs to include abortion as a part of the reproductive health services curriculum. Today one of the greatest obstacles to safe and legal abortion around the world is the absence of trained providers. Medical Students for Choice, a network of over 10,000 medical students and residents, is dedicated to ensuring that women receive the full range of reproductive healthcare choices. At CMSRU, we are working to make sure that all students have the knowledge and skills they need to counsel patients on pregnancy options and family planning methods through workshops, clinician panels, and events with other medical schools, and increase access to early and high quality abortion training for students who are interested in this work.
Medical Students for Life	We seek to foster respect for the dignity of all human life from conception to natural death. We wish to encourage members of the university to reflect on moral questions that affect the practice of medicine. We seek to restore the physician patient relationship with care for all irrespective of race, socioeconomic status, developmental stage, or special needs.
Medical Student Journal Club	We will meet twice a month to discuss notable scholarly articles across all medical specialties. We will try to have the authors of articles come discuss with us. This club will provide an opportunity for students to remain current with the literature in an effort to provide cutting edge care for our patients.

Simulation Society	The CMSRU Simulation Society brings together students interested in improving their clinical skills through simulation. We take a multi-discipline, multi-module approach to learning that allows for practice in a low-stakes setting.
Social Medicine and Justice	Social Medicine is a group founded on the principle that social, economic, and policy conditions profoundly impact health, disease, and the practice of medicine, and should therefore be a concern of physicians. We believe that physicians should be advocates for patients, on both an individual and population level. Our goals are to promote discussion of the ways social, economic and policy factors influence health and disease; to provide educational opportunities that promote a holistic vision of health; and to offer training and engagement in advocacy and activism.
Sports Medicine Club	CMSRU's Sports and Sports Medicine provides a relaxed and inclusive environment for students to both engage in recreational sports and to cultivate interest in the field of Sports Medicine. Currently, we have over 20 members and regularly play touch football games in Fairmount Park on Saturday's in Philadelphia as a part of the Philly Sports and Social Club (PSSC).
Students for a National Health Program	
Wilderness Medicine Group	The Wilderness Club's mission is to offer students a way to combine their love for the outdoors, adventures, and awe-inspiring yet sometimes inhospitable environments of the world with their skills and love of medicine. We want to become skilled in the art of survival and caring for others in such source-limited environments. The club is also open to those who don't want to explore this field of medicine specifically, but who simply enjoy the outdoors and want to get involved on hikes, rock-climbing, etc- just for fun! We are very open for people to get involved and start their own projects or help with current projects.
Careers IN Medicine Interest Groups	Description
Anesthesiology Interest Group	The Anesthesiology Interest Group is an organization created to stimulate interest and stay abreast of current information in the field of anesthesiology and the subspecialties within.

Cardiology Interest Group	CMSRU's Cardiology Interest Group (CIG) is a student-run organization charged with exposing CMSRU students to the field of cardiology. CIG will introduce student members to the specialties and subspecialties that can be pursued by a residency or fellowship program in cardiology, and provide educational enrichment opportunities to members through the review of key topics and literature in cardiology and presentations by key leaders in the field of cardiology.
Dermatology Interest Group	The Dermatology Interest Group was created to provide a support group for students considering a career in dermatology and provide opportunities for students to interact with other students and members in the field of dermatology.
Emergency Medicine Interest Group	The CMSRU Emergency Medicine Interest Group (EMIG) will serve to inform and introduce students to the specialty of Emergency Medicine. The EMIG will discuss relevant articles, ethics, research, and current issues in the field of Emergency Medicine. It will also arrange for faculty demonstrations of different procedures performed in the Emergency Department. There will be guest speakers to come and talk about the specialty, its lifestyle, the pros/cons, current issues, etc. Every meeting or event held/sponsored by the EMIG will be conducted with the intention of providing more information about the specialty and promote it as a career path for medical students.
Family Medicine Interest Group	<p>The FMIG of CMSRU seeks to:</p> <ul style="list-style-type: none"> - Inspire commitment to community centered medicine in Camden, NJ - Educate peers about primary care and opportunities in family medicine - Promote and foster involvement in the various primary care, public health, and community service projects in camden - Nurture professional development in family practice and medicine at large

GI Interest Group	<p>The GI Interest Group is a newly established group at CMSRU dedicated to learning more about the field of gastroenterology. Medical students of all class years, faculty, and clinicians at Cooper Hospital are involved in our interest group and we welcome new members! We are planning GI-related presentations over the course of the school year, which will cover topics such as career paths, research, and innovations in this area of medicine. We will tailor these events to explore students' interests. In addition, the GI Interest Group would like to participate in community events and local educational programs that raise awareness of digestive diseases and promote colon cancer screenings as part of national colon cancer awareness month in March.</p>
Hematology/Oncology Group of Interest (HOGI)	<p>The Hematology/Oncology Group of Interest aims to foster interests in careers in Hematology, Oncology, or any related field. We intend to hold somewhat regular journal clubs on developing topics in the field, discussions/panels with practicing physicians regarding everything from their lifestyles to their career paths to their research, and volunteering/philanthropic events.</p>
Internal Medicine Interest Group	<p>The Internal Medicine Group fosters and develops students' curiosity regarding and knowledge of physical diagnosis, clinical reasoning, and interactions with patients. Our group offers collaborative opportunities for students to cultivate practical skills and formulate their career aspirations, including teaching rounds in the hospital, evening sessions in the Simulation Lab, the Resident "Buddy" Program, and discussion sessions with physicians. Through these and other experiences, the Internal Medicine Group helps students establish and expand their skills and understanding of essential aspects of practicing medicine that they can apply now and in the future.</p>
Interventional Radiology Interest Group	
Med-Peds Interest Group	
Neurological Surgery Interest Group	<p>The Neurological Surgery Interest Group (NSIG) is committed to creating exposure to the fast-paced field of neurosurgery. We direct students to resources like networking opportunities, ongoing research & conferences, and shadowing times. Those interested in attending lectures and Q&A sessions by residents from Cooper Hospital along with other guest speakers are encouraged to participate."</p>

OB/GYN Interest Group	The goal of the Obstetrics and Gynecology Interest Group is to explore Ob/Gyn fields, connect students with mentors, and provide shadowing opportunities. We are in close contact with various members of the Ob/Gyn department at Cooper University Hospital. We network with them frequently and attend department events such as Grand Rounds and journal clubs. We collaborate with various other student groups at CMSRU, especially with the American Medical Women's Association, Medical Students for Choice, and the Family Medicine Interest Group.
Orthopaedic Interest Group	The Orthopaedic Interest Group is dedicated to providing mentorship, research opportunities, shadowing, board review, and journal clubs to CMSRU medical students interested in the Orthopaedic specialty.
Pediatric Interest Group	The CMSRU Pediatric Interest Group aims to: aid its student members in the pursuit of professional goals; expand our current knowledge about pediatrics and its subspecialties; improve the health and wellness of the children in Camden, NJ. Our meetings range in content from pediatric faculty Q&A panels to planning service opportunities for Camden's children. Our resources include faculty shadowing opportunities and pediatric-friendly service opportunities, among others.
Physical Medicine and Rehabilitation Interest Group	
Plastic Surgery Interest Group	The CMSRU Plastic Surgery Interest Group serves to connect students with mentors in the plastic surgery field at Cooper Hospital and beyond. The group aims to educate peers about the diversity of plastic surgery and its applications to various pathologies. It offers surgical skill workshops and research opportunities to create competitive residency applicants who fully appreciate everything plastic surgery has to offer.

<p>Psychiatry Interest Group</p>	<p>The students of Cooper Medical School of Rowan University who share a common interest in mental health and the psychosocial well-being of patients, physicians, and the community join to form the Psychiatry IN Medicine interest group at CMSRU.</p> <p>The Psychiatry IN Medicine (PIM) interest group is not solely for medical students wishing to pursue a psychiatry residency. Rather, it is designed to appeal to all students regardless of specific career interests because we recognize that the psychosocial aspects of disease manifest in all fields of medicine.</p> <p>We will expand current knowledge about Psychiatry and its subspecialties to inspire future generations of psychiatrists, as well as all physicians who value the importance of the psychosocial practice of medicine and its role in every medical specialty.</p> <p>Through educational awareness, we aspire to diminish the stigmas associated with mental illness and with seeking psychotherapeutic intervention. We hope that this will have a positive impact on the lives of our patients, as well as on the lives of our colleagues in the healthcare profession who struggle with mental illness.</p> <p>We will promote awareness of mental health and wellness during our undergraduate medical education at CMSRU to instill lifelong values that will persist throughout our future training and careers.</p> <p>We are committed to promoting mental health in the Camden community. Through educational outreach, we hope to expand mental health literacy through knowledge about the resources, treatments, and realities of mental illness and psychological well-being.</p>
<p>Radiology Interest Group</p>	<p>The CMSRU Radiology Interest Group aims to: aid its student members in the pursuit of professional goals; expand our current knowledge about radiology and its what it means to be a radiologist.</p>

Surgery Interest Group	The General Surgery Interest Group (GSIG) endeavors to provide mentoring and career guidance to students who want to gain a greater exposure to the breadth of surgical fields. The GSIG works to establish access to shadowing and research opportunities for medical students through coordination with CUH residents and attending physicians. The group also organizes surgical skills workshops throughout the year, including suturing, anatomy reviews, and imaging labs. The GSIG also engages in numerous outreach and community service projects to inspire Camden youth.
Urology Interest Group	Urology has always been an intriguing and growing field; whether it be the current debate on PSA, rising rates of sexual dysfunction, or simple urinary incontinence issues, urology presents a wide range of clinical conditions that many future physicians will encounter (regardless of what kind of medicine they practice). This group will serve as an opportunity for CMSRU students to explore the plethora of engaging topics that define this branch of medicine. This group will strive to include both those interested in potentially pursuing a career in urology, as well as those simply interested in learning more about urologic topics that they are certain to encounter in their clinical practice. By including both types of students, the hope is to spur discussion that yields a basic understanding of this particular branch of medicine, while also providing a forum for those interested in this as a career to expand on that basic knowledge.
Diversity Clubs/Organizations	Description
American Medical Student Association (AMSA)	
American Medical Women's Association (AMWA)	The Cooper Medical School of Rowan University branch of the American Medical Women's Association is dedicated to upholding the mission presented by the national organization through community service, leadership, advocacy and education. We strive to bring together those in medicine and health-related fields to promote women's health and gender equality in medicine, to create a forum addressing issues facing women in today's society and to support members' professional and personal development.

<p>APAMSA</p>	<p>The Asian Pacific American Medical Students Association (APAMSA) is a national organization of medical and pre-medical students committed to addressing the unique health challenges of Asian and Pacific Islander American (APIA) communities. APAMSA serves as a forum for student leaders to engage these health issues and develop initiatives and projects addressing those needs. In particular, the CMSRU APAMSA Chapter aims to promote the health of the APIA community of the Camden area and to help CMSRU students and healthcare workers in the Camden community understand how to care for APIA patients in a culturally sensitive manner. Finally, our chapter also seeks to provide an important venue for medical students to meet, exchange experiences, and develop personally and professionally through leadership and service.</p>
<p>Association of Women Surgeons (AWS)</p>	<p>The Association of Women Surgeons is an international organization dedicated to inspiring, encouraging, and enabling women surgeons to realize their professional and personal goals.</p>
<p>Christian Medical Students Association (CMSA)</p>	<p>Christian Medical Students Association motivates, educates and equips Christian students at CMSRU to glorify God by serving with professional excellence as witnesses of Christ's love and compassion to all peoples. We will strive to be Christ-like, compassionate, courageous, and culturally relevant in our interactions with fellow students, faculty, and patients. We emphasize acceptance of other belief systems and values while standing strong in our own beliefs and values. As a student group, our goal is to promote fellowship within the group, to demonstrate Christ-like love in our daily interactions with others, and to encourage exploration of Christian-related issues in health care.</p>

Cooper Med LGBTQ+ Ally	Cooper Medical School of Rowan University is committed to fostering an environment in which diversity is celebrated amongst students, faculty, staff and the Camden community. As such, we recognize the need for allies of the lesbian, gay, bisexual, transgender, and questioning (LGBTQ) community amongst medical professionals. The mission of the Cooper LGBTQ+ Ally group is to strive to continually and thoroughly educate ourselves and our peers regarding the unique challenges faced by members of this community. We are committed to providing opportunities to benefit members as well as the entire CMSRU community including Cooper Hospital. These opportunities include, but are not limited to, professional development, monthly literature review, and social networking events with surrounding medical and graduate schools. We pride ourselves on providing a safe place for all voices to be heard, and we welcome anyone interested in LGBTQ issues whether you identify with this community or are an ally.
Jewish Medical Student Association (JMSA)	Jewish Medical Student Association (JMSA) - The JMSA is a student-run organization that promotes Jewish awareness through social events for the holidays and also through perspectives in the health fields. Some of our events include Jewish bio-medical ethics series, Shabbat dinners and holiday programming for all CMSRU students. As we grow we hope to coordinate events with other medical schools in the South Jersey/Philly area.
Latino Medical Student Association (LMSA)	The Latino Medical Student Association is a Latino student group representing health professions students. Its mission is to recruit Latinos into higher education, educate the public and one another about Latino health issues, advocate for increased Latino representation in health related areas, and promote awareness about social, political and economic issues as they relate to Latino health. It also serves to create a support network for Latino students.
Muslim Medical Students Association (MMSA)	The Muslim Medical Students Association at CMSRU will provide a system of spiritual support, social activity, fellowship, and advocacy for Muslim students and non-Muslim students with an interest in Islam. Additionally, the MMSA will provide educational events for all students with a focus on the relationship between Islam and medicine, as well as interfaith activities with other spiritual organizations.

<p>Secular Students in Medicine</p>	<p>Secular Students in Medicine (SSIM) is a group for medical students who identify as secular, humanist, atheist, or agnostic, and welcomes all open-minded individuals. We choose to live our lives based on scientific knowledge, and do not accept supernatural or unscientific claims as fact. SSIM hopes to create a safe environment that will encourage discourse based on reason, where discussion among secular-minded individuals can thrive. Additionally, we desire to serve those in need out of honor for our common humanity. Secular Students in Medicine hopes to increase awareness of and create a community for secular individuals in the medical profession. We find joy and purpose in our interactions with the world; the brief moment we spend on Earth motivates us to provide the best care for our patients.</p>
<p>Student National Medical Association (SNMA)</p>	<p>The Cooper Medical School of Rowan University (CMSRU) Student National Medical Association (SNMA) chapter is committed to supporting current and future underrepresented minority medical students, addressing the needs of underserved communities, and increasing the number of clinically excellent, culturally competent, and socially conscious physicians. In addition, we strive to uphold the core values of CMSRU which include: diversity, personal mentorship, professionalism, collaboration, mutual respect, civic responsibility, patient advocacy, and lifelong learning. SNMA is committed to the empowerment of its members to take proactive steps to address minority health issues through advocacy and community service. SNMA membership is open to all who wish to make a difference regarding the medical education and health concerns of underserved communities.</p>
<p>Service Learning Clubs/Organizations</p>	<p>Description</p>
<p>BRIMM Medical Arts High School</p>	<p>Brimm High School is a magnet school that focuses on preparing its students for careers in the local healthcare field. The school offers a comprehensive curriculum that combines starte core content with health related hands-on experiences and exposure to various career fields within the health industry. At Brimm, CMSRU students are involved in assisting students for science fairs, teaching special program modules, and teaching a bi-weekly health education class to 11th graders</p>

Camden Academic K-12 Enrichment	Program addresses disparities in children's math and reading skills between actual skills and current grade level. Twice weekly, the program matches tutors to small groups of participating kids to teach a curriculum to build these skills.
Camden Green and Clean	Cooper's Ferry Student Collaborative is a service learning opportunity whose goal is to connect students as volunteers with neighborhood cleanups, community garden startups, municipal festivals and block parties, and most notably, a handful of exciting tree planting events organized by the New Jersey Tree Foundation. Ask anyone, and they will tell you these events are unbelievable outdoor fun; they are a great way to meet out neighbors and add richness and color to our city. All are welcome!
Camden Youth Soccer Club	The CYSC provides organized soccer instruction and games for Camden kids aged 4-14. CMSRU students serve as coaches for the 4-6 age group, teaching basic soccer skills, teamwork, self-esteem, fitness and social skills
CAMP	CAMP serves to provide high schoolers in Camden and the surrounding area with tutoring in all major subjects, SAT and college/career counseling and most importantly a medical school mentor. Mentors are charged with guiding their students towards the successful completion of high school and challenging them to create career goals they can achieve in the future.
Cathedral Kitchen	Cathedral Kitchen provides hot meals to the poor and hungry of Camden and beyond. Its meal program provides prepared meals M-F (dinner) and Sat (lunch) to hundreds of guests each day. Since 2009, Cathedral Kitchen also operates a culinary arts training program to help prepare students for a career in food services. CMSRU students are called on a few evenings of each month to help seat guests, plate and serve meals to tables, and clean up after the service is finished. The opportunity allows students to meet and interact with the program's guests, most of whom are homeless, welfare recipients, disabled or the working poor.

Care Coordination	<p>Students who participate in this service learning experience will work directly alongside social workers at Cooper Hospital Emergency Department, a busy, urban center for emergent care. Here, students will learn to address the social needs of patients who come seeking treatment for acute issues. You will become familiar with the extended social service agencies in and around Camden, while directly providing help to patients dealing with issues relating to housing, food access, addictions, lack of social support, lack of consistent medical care, behavioral health, or other challenges that can impede health</p>
Community Gardening	<p>The mission of the Community Gardening Club at CMSRU is to help rebuild and restore the Camden community from the ground up and to improve the health and well-being of its residents from the inside out. In affiliation with an organization established by ms. Sheila Roberts, we participate in planting, maintaining, harvesting and distributing fresh produce at no cost to Cooper Plaza and Lanning Square neighborhood residents. The goals of our service learning project include providing our neighbors with better access to fresh, local, health food options, offering basic education on dietary choices for disease prevention, and reaching out on behalf of the Camden Collaborative Community Clinic with information about its free health care services for eligible individuals</p>
Cooper Youth Arts Program (YAP)	<p>The Youth Arts Program (YAP) was started in 2013 by CMSRU students with backgrounds in music, dance, and the visual arts, and an interest in bringing arts programming to Camden youth. With arts education becoming less existent in public schools, the program focuses on providing workshops that gives youth (ages 8-12) an outlet for self-expression, empowerment, creativity, building confidence and an alternative to violence.</p>
ESL Class	<p>Started in 2013 by CMSRU students, this program teaches English as a Second Language to Spanish-speaking Camden residents with limited or basic English ability. Using a specifically developed curriculum of language building tools and conversational English exercises and practice, the class works with students to allow them to communicate and interact with their children's teachers, their healthcare providers, and people they come across every day in the community</p>

Girls on the Run	Girls on the Run is a physical activity based positive youth development program for girls in 3rd-8th grade. A nationally run nonprofit organization, the program teach life skills through dynamic, interactive lessons and running games. The program culminates with the girls being physically and emotionally prepared to complete a celebratory 5k running event. The goal of the program is to unleash confidence through accomplishment while establishing a lifetime appreciation of health and fitness. CMSRU's program operates in partnership with Wiggins Elementary and works with participating 5th grade girls.
JUMP High Academy	The Junior Urban Medical Pioneers (JUMP) High School Academy is a CMSRU-run program for high school students from underrepresented or financially disadvantaged backgrounds who have a strong interest in math and science. Students are nominated for the program by their guidance counselors and/or science department and are provided hands-on activities and interactive learning sessions that exposes them to applied science, and provide an overview of a variety of science-related and healthcare careers. Medical students participate in the program by teaching medicine/science topics sessions, leading discussion and assisting in workshops
KIPP Norcross	KIPP Reading Buddies pairs medical students with first and second grade students at KIPP Cooper Norcross Academy in one-on-one or small group relationships, where we mentor and tutor students in reading once weekly. We are a reliable, consistent, and fun presence in the classroom they look forward to week after week.
Lifting Up Camden's Youth (LUCY)	
PlayPals	Playpals is a hospital based outreach program for hospitalized kids and their families, especially to those who are alone. The goal of the program is to supplement existing services, such as Child Life and hospital volunteers to help and support pediatric patients whose caregivers are restricted from the bedside. In addition, the program helps caregivers that are hesitant to leave their child alone in the hospital, but could benefit from a break.

Primary Urban Partnership (PUP)	The Primary Urban Partnership (PUP) is CMSRU's partnership with Wiggins Elementary School and its students. Every other week, a group of CMSRU students head over to the school to work with 5th graders in learning activities and small group reading. On the alternate weeks, med students coordinate CMSRU faculty as guest speakers to present to the 5th grade group on health professions, anatomy, health sciences, and other topics using a fun and interactive approach.
Project Parenthood	Project Parenthood is a course that teaches prenatal care and early childhood parenting to new mothers in the Camden
Sidekicks at CMSRU	Sidekicks at Cooper Medical School of Rowan University works to create longitudinal connections between medical students at CMSRU and pediatric patients who have life threatening or chronic health conditions. Sidekicks at CMSRU is a branch of the original Sidekicks founded at University of Massachusetts Medical School, with a particular focus on Camden's health disparities and socioeconomic issues. The organization seeks to pair student Sidekicks with pediatric patients and their families for at least a year. Students will be expected to learn about their patient's condition to facilitate patient advocacy and community activism, explore the socioeconomic and health disparities of patients in Camden, and observe the complexity of care required by pediatric patients with life threatening or chronic illnesses. Students will attend monthly meetings at CMSRU to discuss their experiences with the group, present their family's case, or learn about pediatric care through physician driven discussion.
Steve's Club Heart of Camden	"Steve's Club and its participating members provide a national network of programs through which at-risk or underserved youth of any socioeconomic background can join in the CrossFit Community at a reduced, low or no cost structure."
Street Medicine Outreach	Street Medicine Outreach provides outreach to the homeless population of Camden. Providing engagement, referral to services, as well as basic necessities, such as socks and toiletries, the group teaches medical students the social complexities of homelessness and how to provide care to the city's most vulnerable residents.

Tutor Time	TutorTime is a student mentoring program that takes place in the Ferry Avenue Library, the last public library open in the city. Twice a week, kids from the surrounding neighborhood come to the library for homework tutoring, healthy snacks, and relationship building/mentoring with CMSRU students
Upward Bound for English Language Learners	Upward Bound is a federally supported program that provides opportunities for students from low-income families and/or is first generation college bound to succeed in the college environment. The Upward Bound program at Rowan Camden is designated specifically for English Language Learners- students from Camden high schools who participate in their school's bilingual or ESL program. CMSRU students provide support to the Saturday academic classes, teaching science to students in the program.
