

## 2025 “Scholarly Products” Cumulative Data Promotion on Academic Pathway

“Scholarly products” include original publications, books, book chapters, review articles, and editorials/other invited articles. Abstracts are not counted in the “scholarly products” calculations.

Below are the number of promotions granted on the **academic pathway** in the past five years at a given rank and the average number of **lifetime** scholarly products for approved candidates. The CMSRU A&P Committee also will consider the quality and impact of scholarly publications.

### **Cumulative Promotions to Professor**

Number of promotions 2020-2025: 15

Average (mean) number of scholarly products per faculty member: **48**

Median # of scholarly products: 41

### **Cumulative Promotions to Associate Professor**

Number of promotions in 2020-2025: 42

Average (mean) number of scholarly products per faculty member: **25**

Median # of scholarly products: 20

### **Cumulative Promotions to Assistant Professor**

Number of promotions in 2020-2025: 15

Average (mean) number of scholarly products per faculty member: **2**

Median # of scholarly products: 1

### **Scholarship of Practice and Teaching (SPT) Pathway:**

The Scholarship of Practice and Teaching pathway is designed for faculty candidates at CMSRU who dedicate themselves totally to the efforts of superlative teaching, clinical care and program development. Although traditional scholarly productivity is not required for clinical faculty in this pathway, it is encouraged. Cumulative scholarly activity data is not tracked for this pathway.
