**2023-2024 Highlights of Committee Work**

- Review of all Phase I and II courses
- Implementation of Racism in Medicine MEPOs in all course syllabi
- Continued discussion and implementation of DEI and climate health in our curriculum
- Implementation of the new curriculum sequence for the M1 year
- Introduction of several new electives for M3 and M4 years
- Introduction of many new clinical sites for Phase II
- Updates on multiple assessment rubrics and evaluation forms as part of the quality improvement process
- Approval of the CBSE exam at the end of M2 prior to Step 1
- Review of thousands of new and existing multiple-choice questions

- Approval of the flexible curriculum to ensure the success of all CMSRU students, regardless of their educational or personal backgrounds
- Creation of eight different scholarly concentrations and successful enrollment of students in all scholarly concentrations

### **2024-2025 Future Goals and Plans**

- Implement a new curriculum sequence for the M-2 year.
- Review the current exam review process to identify areas for improvement and efficiency.
- Encourage course directors to develop new ALG cases to expand the repertoire.
- Continuously evaluate the curriculum to add flexibility that enhances student success.
- Expand the diversity and scale of scholarly concentrations available to students.
- Conduct faculty development sessions to enhance the skills and preparedness of CMSRU faculty.
