Diana Martinez
Darren Boehning (ex officio)

Meeting Dates

September 15th, 2023
December 8th, 2023
February 9th, 2024

2023-2024 Highlights of Committee Work

After many years of service to the CMSRU community, Dr. Harry Mazurek transitioned away from his role as the Associate Dean for Research. We are grateful to Dr. Mazurek for his work to advance the research enterprise at CMSRU and Cooper. Dr. Darren Boehning took Dr. Mazurek's place as the Associate Dean for Research, and we thank him for stepping into this role.

The Capstone Speed Dating event in September 2023 gave more than 100 CMSRU students the opportunity to speak with over 30 representatives from numerous departments to identify Capstone Project mentors.

The Camden Scholar's Forum was held in April, 2024, and provided students and trainees from CMSRU and Cooper the opportunity to showcase their research activities. The Forum featured 245 submissions from medical students, residents, fellows, and nurses.

2024-2025 Future Goals and Plans

The Committee continues to engage with the Dean's Office at CMSRU to develop a plan for utilization and allotment of research space.

The 2024 Capstone Speed Dating event is scheduled for September 24 from 5:30-7:30 in the CMSRU multipurpose room; anyone with an interest in mentoring CMSRU students through a research project is invited to attend.
