The policies and procedures appearing in the Cooper Medical School of Rowan University (CMSRU) Student Handbook reflect the most current policies and procedures of CMSRU and Rowan University (where applicable). CMSRU policies and procedures are subject to amendment and change without prior notice. Minor changes will be posted directly to the Student Handbook. When major changes occur, a notification will be sent to all students.

Mission Statement

Cooper Medical School of Rowan University is committed to providing humanistic education in the art and science of medicine within a scientific and scholarly community in which excellence in patient care, inclusivity, innovative teaching, scholarly activity, and service to our community are valued.

Our core values include a commitment to: inclusion and diversity, equity and inclusion, mentorship, professionalism, patient advocacy, wellness, the communities we serve, and scholarship.

Vision

Cooper Medical School of Rowan University will distinguish itself as an innovator in medical education and biomedical research that will lead to the transformation of healthcare.
A Message from Dean Reboli

Welcome to Cooper Medical School of Rowan University! This is an important journey that you will find challenging, interesting and sometimes arduous, but one that I believe you will find extremely rewarding.

Since our official launch in 2012, CMSRU has been leading an evolution of medical education across the United States. Our innovative curriculum -- including small group, self-directed learning; early exposure to patient care through the student-run clinic and Week on the Wards; and mandatory service learning -- have set CMSRU apart and raised the bar for new and legacy medical schools, alike. CMSRU’s graduates are achieving tremendous success as residents, fellows, and practicing physicians at programs across the country where they’ve been recognized not just for their clinical skills, but for their professionalism and humanism as well.

CMSRU has more than 700 faculty members who are actively involved in cutting-edge research and/or clinical care. And while they are leaders in their professions, our faculty is also deeply committed to educating and preparing YOU. They will provide all the learning opportunities and tools you will need to succeed in medical school. I advise you to get to know these brilliant women and men, and value the knowledge, wisdom and experiences they are willing share with you.

As a member of the CMSRU community, it’s imperative that you understand your rights and responsibilities as a student. I’m pleased to present you with CMSRU’s updated Medical Student Handbook, which offers a detailed guide to academic policies and procedures, as well as resources and opportunities available to you. I urge you to familiarize yourself with these policies early in the year.

I wish you much success this academic year.

With warmest regards,

Annette C. Reboli, M.D.

Annette C. Reboli, MD
Dean and Professor of Medicine
The Origins of Cooper Medical School of Rowan University

Cooper Medical School of Rowan University (CMSRU) was conceptually created by the executive order of Governor Jon Corzine, on June 25, 2009. This act was the culmination of a more than 30-year effort by Cooper University Hospital to become the hospital partner of a four-year allopathic medical school in southern New Jersey. CMSRU linked two institutions that continue to experience a meteoric rise in prestige in the Delaware Valley. Rowan University and The Cooper Health System both share a commitment to education and research and to enriching the lives if the citizens of our region. A formal affiliation agreement between Cooper and Rowan University was entered into on September 21, 2010, to support a program of classroom, laboratory, and clinical education meeting the highest academic standards of the Liaison Committee on Medical Education (LCME).
About Rowan University

Rowan University is a Carnegie-classified national doctoral research institution dedicated to excellence in undergraduate education. It offers bachelor’s through doctoral and professional programs to 19,500 students through its campuses in Glassboro, Camden and Stratford, New Jersey. Home to Cooper Medical School of Rowan University and the School of Osteopathic Medicine, it also comprises the William G. Rohrer College of Business; the Henry M. Rowan College of Engineering; the colleges of Communication & Creative Arts, Education, Humanities & Social Sciences, Performing Arts, and Science & Mathematics; the schools of Health Professions and Earth & Environment; the Graduate School of Biomedical Sciences; and a multidisciplinary honors college. Rowan is collaborating with regional leaders to create research and academic programs in health sciences. The University has earned national recognition for innovation; commitment to high-quality, affordable education; and developing public-private partnerships.

More information about Rowan University can be found on the About Rowan page of the Rowan University website.
About the Cooper Health System

Cooper University Health Care is a leading academic medical center and the only state-designated Level 1 Trauma Center in South Jersey. With a network of more than 100 medical offices and four urgent care centers throughout the region, Cooper is home to MD Anderson Cancer Center at Cooper and the Children’s Regional Hospital at Cooper. Cooper offers signature programs in cardiology, critical care, neurosciences, pediatrics, orthopaedics, and surgical specialties.

More information about the Cooper Health System can be found on the About Us page of the Cooper University Health Care website.

Our Locations

Our Medical Education Facility

It is in the spirit of and driven by the CMSRU mission that the educational facilities for undergraduate medical education have been designed and built. Completed in July of 2012, the primary Medical Education Building (MEB), is a 200,000 sq. ft., six-story building designed to support the innovative curriculum.

There is one large auditorium with a seating capacity of 250. This will is used for lectures and panel discussions that include the entire class or, occasionally, multiple classes. There is also a large multi-purpose room that seats 120 and can be divided into two separate smaller classrooms. On the 4th floor of the MEB is a large, multi-purpose lab (MPL) that is used for didactic and wet-lab sessions.

Integral to the curriculum design are twenty-five active learning rooms (ALRs) which seat ten to twelve and are the “home” for each group of roughly eight or nine students and two faculty facilitators for the first two years of medical education. These rooms are on the 2nd, 3rd, and 4th floors of the MEB.

Outside each ALR are ten lockers for the students and faculty assigned to the space. Inside there are additional cabinets for use by the students. These rooms are used for formal educational sessions, small group discussion, and, when formal classes are not scheduled, for quiet individual or small group study.

In addition to the educational spaces, the MEB houses the Dean’s offices and other medical school administrative space on the 3rd floor. The 4th and 5th floors are dedicated research space, with faculty offices, core laboratory and bench research space for CMSRU researchers. Additional teaching and research support facilities are located on the 6th floor.

The Learning Commons is located on the first floor, and provides a casual space for studying, collaboration, and relaxation for students, faculty, and staff. Food service is located immediately adjacent to this area, providing beverages and food. The CMSRU Learning Commons Food and Beverage policy permits the bringing in and consumption of beverages from containers with lids and dry snack food items only. Any other food and beverages are not permitted in the Learning Commons. If a utensil is needed to consume the food it is not permitted in the library. Students may possess closed, concealed lunch bags/containers while utilizing the Learning Commons area, but are encouraged to eat on the second floor breezeway.
Examples of Acceptable Items:

- Beverage containers with lids, including pop-top cans. Lids should be kept on bottles and containers except when drinking.
- Individual “snack size” containers of chips, cookies, candy, and other snack foods; small amounts of finger foods (e.g., pretzels, chips, dried fruits and nuts); candy bars, granola bars, muffins), power bars, etc.; and other non-messy, individual snack foods.

Examples of Unacceptable Items:

- Beverage containers without lids, such as open topped coffee mugs, disposable coffee cups without lids, and soda cups without lids.
- Food items such as hot entrees, burgers, French fries, pizza, noodles, subs/hoagies, sandwiches, wraps, burritos, tacos, salads, soup, and other hot, fragrant or messy items.
- Any wet food items (such as yogurt, fruit, oatmeal) or strongly scented food items (such as hard boiled eggs, some cheeses).
- As is with all NJ state educational institutions, no alcohol of any type is permitted.

The CMSRU Simulation and Clinical Skills Center is a state of the art facility housed on the second and third floors of the Joint Health Sciences Center, which is located at the intersection of Broadway and Martin Luther King Boulevard. CMSRU medical students, Cooper residents, Cooper nursing staff, pre-hospital emergency medical services/paramedics and practicing physicians all utilize the Sim Center for a wide variety of educational activities. The Sim Center includes 12 simulated outpatient exam rooms, 5 high fidelity simulated inpatient rooms, a virtual reality lab, multiple classrooms and the Sim Center staff offices.

The Sim Center faculty, staff, simulated/standardized patients (SPs) are all committed to helping our medical students develop their critical clinical skills. Students begin working in the Sim Center within the first few weeks of their M1 year and continue participating in simulation and clinical skills activities through their M4 year. The educational programs include, but are not limited to physical exam and communication skills teaching sessions, formative and summative assessments with SPs and procedural teaching sessions and critical patient management case scenarios utilizing high fidelity simulation. A Simulation Society offers students interested in simulation the opportunity to further explore the field.
Camden Campus
**Medical Education Building**

The CMSRU Medical Education Building is located at South Broadway and Benson Streets in Camden, NJ. This 200,000 square-foot, six-story building house contains state-of-the-art educational and research space, as well as student support services and medical school administration.

**Address:**
Cooper Medical School of Rowan University
401 South Broadway
Camden, NJ 08103

---

**Cooper University Hospital**

Cooper University Hospital (CUH) is the main teaching hospital for CMSRU. The facility includes a new state-of-the-art 312,000 square foot, 10 story patient care center with 60 private patient rooms, 30 state-of-the-art critical care beds, an expanded emergency department and 12 operating suites. Cooper now has 660 licensed beds. It is the home of the only South Jersey Level 1 Trauma Center and is well known for its innovative programs in cardiology, cancer, critical care, orthopedics and neurosciences.

**Address:**
1 Cooper Plaza
Camden, NJ 08103

---

**Joint Health Sciences Building**

Located at the intersection of Martin Luther King, Jr. Boulevard and Broadway, the Joint Health Sciences Center is the site of Cooper Medical School of Rowan University’s advanced Simulation and Clinical Skills Center. The 60,000 square-foot, $70 million building opened in 2019 and also houses several other Rowan University programs, as well as initiatives from Rutgers-Camden and Camden County College. CMSRU’s Sim Center is located on the 2nd and 3rd floors of the four-story facility.

**Address:**
201 Broadway
Camden, NJ 08103
The Glassboro Campus of Rowan University

Rowan University is located in the southern New Jersey town of Glassboro, 18 miles southeast of Philadelphia. The campus is easily reached from the N.J. Turnpike, the Atlantic City Expressway or any of the Delaware River Bridges.

Address:
Rowan University Welcome Gate
57 Mullica Hill Road
Glassboro, NJ 08028
Student Life

On-Campus Dining

In the CMSRU Medical Education Building, food service is available in the STAT Café adjacent to the Library Learning Commons on the first floor. This café offers soups, salads, sandwiches, snacks, and beverages throughout the day. * Due to the pandemic, the Stat Café is currently closed.

The Cooper Hospital Cafeteria is located in the Kelemen Building on the second floor. It offers both hot and cold meal options, including a salad bar. Full service dining is available at the Oasis Restaurant located on the first floor of the Pavilion building. The Pavilion also houses a small café which offers specialty coffee, salads, pre-made sandwiches and more. A large vending area is also available on the first floor for after-hours food selection.

ID/Access Cards

Students will be issued a RowanCard (CMSRU ID badge) during orientation week. The RowanCard (CMSRU ID badge) serves as the official University identification and must be worn at all times when on school or hospital property. The RowanCard (CMSRU ID badge) provides access to hospital and medical school buildings and entrance to and privileges at the library facilities, as well as access to reserved educational spaces. For security purposes, individuals without an official RowanCard (CMSRU ID badge) should be reported to the security office.

Medical Education Building Lockers

Assigned and temporary lockers are available for first and second year students.

M-1 and M-2 students will each be assigned a CMSRU locker located near their Active Learning Group (ALG) room. Lockers will be assigned prior to the start of the academic year to M1 and M2 students.

The contents of a student’s locker must be emptied at the close of each school year. Locks not claimed by the end of the school year will be removed by the school facilities department and personal belongings will be emptied. Unclaimed personal belongings will be donated to local community outreach programs.

Temporary lockers for fitness classes and wellness programs are available for students in the hallway outside of the Wellness spaces on the 4th floor of CMSRU. Students may secure their belongings with a personal combination or keyed lock for the hallway locker. Locks should not remain on lockers after a student has used the wellness space. Personal belongings must not remain in wellness lockers overnight. It is recommended that your personal belongings be kept secured at all times. Cooper Medical School of Rowan University is not responsible for lost or stolen items.

An additional locker adjacent to the anatomy lab will be provided once students begin anatomy.

Cooper University HealthCare Lockers

In 2019, Cooper (CUHC) installed 228 new lockers on the 4th floor of the CUHC Dorrance Building (exit left from 4th floor elevators), to provide an individual locker to M3 and M4 students to store personal belongings while on site for clinical duties. Each M3 and M4 student is assigned a CMSRU locker prior to the start of the academic year. Students will supply a combination or keyed lock for their assigned locker. It is recommended lockers be kept secured at all times.
The contents of a student’s locker must be emptied at the close of a student’s fourth year, prior to graduation. Locks not claimed following graduation, will be removed by the Cooper Facilities department and personal belongings will be emptied. Unclaimed personal belongings will be donated to local community outreach programs. CMSRU and CUHC are not responsible for lost or stolen items.

The Medical Student Lounge located at Cooper

The Medical Student Lounge, located at Cooper University HealthCare (CUHC), is accessible to CMSRU third and fourth year students. The addition of the medical student lounge, aligns with CMSRU’s commitment to promote and sustain a culture of wellness and well-being, by providing a private space for M3 and M4 students to relax and enjoy, when participating clinically at Cooper.

The student lounge, located in CUHC Pavilion 1st floor, room 132, is a 550 square ft. area space, with counter seating for 10, a coffee bar, and refrigerator. An on-site community work area includes several computers and printer workstation. The lounge space also includes a soft seating area, more than 30 storage cubicles and coat hooks available for short term use, and is equipped with multiple perimeter electrical outlets to support laptop and other mobile device use.

To access the medical student lounge while located inside Cooper, using an in-house phone, enter 108-CMSRU. If you are calling the medical student lounge from outside of Cooper, please dial 856-342-2000 and enter 108-CMSRU when prompted for an extension.

Wellness at CMSRU

CMSRU OSA, in collaboration with staff, faculty, and student leadership, has created a comprehensive system of programming to support students’ well-being and adjustment to the physical and emotional demands of medical school.

The OSA has adopted a culture of wellness that supplements students’ classroom learning and contributes to their personal development through an array of programs, advisory college resources, and clubs/organizations designed to promote and sustain the wellbeing of our students. The OSA incorporates the Substance Abuse and Mental Health Services Administration (SAMHSA) eight dimensions of wellness (social, intellectual, physical, spiritual, environmental, emotional, financial, and occupational) to offer programs and resources that align with each dimension of wellness, to best meet the needs of the student when providing supplemental information and facilitating wellness.

The CMSRU Wellness Center is located on the fourth floor of the MEB, as well as a convenient location for students to exercise and expend energy. The 1,508 square foot wellness center includes one large exercise room with hand weights and fitness equipment. In addition to certified instructor-led classes, students participate in group workouts using fitness audiotapes available in the wellness space. The cardio room is outfitted with a treadmill, a rowing machine, and stationary bicycles. The fourth-floor private meditation room offers this space to be utilized as a lactation room, quiet meditation or prayer room. A changing room with showers is located across from the wellness exercise room.
In addition to the wellness center, students participate in many other wellness activities. CMSRU offers activities including: Yoga, Pilates, fitness classes, wellness days, trivia games, pet therapy events, messages of positivity, stair challenges, study snack breaks, trivia events, ping-pong, interactive sessions on stress and well-being, and Koru mindfulness, among others. CMSRU encourages students to collaborate with the Advisory College Learning Communities and Wellness Specialist to facilitate other wellness activities and programming. *Due to COVID-19 restrictions, fitness activities are currently facilitated virtually, as available.

**Rutgers University Athletics and Fitness Center**

As an external community partner with Rutgers University, 301 Linden St, Camden, NJ, CMSRU students may access the Rutgers Athletics and Fitness Center for a membership fee. See the [Rutgers Fitness Center Membership Application](#) for more information.

A full range of sports amenities and gym equipment are available daily. The use of specific courts (basketball, racquetball, etc.) are scheduled on a daily basis. It is recommended to call (856) 225-6200 prior to arrival to determine if courts are available or to schedule use.

**Important Note:** when completing the [Rutgers Fitness Center Membership Application](#), be certain to check the External Community Partnerships category and write CMSRU within the Organization Name field. CMSRU students must have a valid Cooper Medical School of Rowan University Student ID available when purchasing the membership AND when accessing the Fitness Center each day.

Please contact Rutgers University Athletics and Fitness Center at (856) 225-6200 for further information surrounding COVID-19 guidelines.

**Public Safety**

Rowan’s Department of Public Safety operates 365 days a year and is available 24 hours a day. Administrative offices are located on the Glassboro Campus, phone number 856-256-4922, and on the CMSRU campus at 856-361-2880. Rowan security officers patrol the inside of the Medical Education Building throughout the day and night, and are available to take students to the parking garage, to public transportation, and to service learning and clinical sites as requested.

On the Camden Campus, the Camden County Police Department/Metro Division and EMS services are part of the 911 system. In an emergency, dial 911 from any in-house phone.

In addition to the above staffing, CMSRU contracts with the Camden County Sheriff’s Department to provide augmented foot and vehicle patrols throughout the health sciences campus 24 hours per day, seven days per week.
Student Selection

Cooper Medical School of Rowan University (CMSRU) seeks students who demonstrate academic readiness, who resonate with our mission, and who possess the special personal attributes required of physicians. More specifically, we are committed to selecting students who demonstrate a record of academic excellence, the ability to deliver competent and compassionate care, a passion for lifelong learning, intellectual curiosity, personal and professional integrity and ethical conduct, inclusivity and tolerance, and community-oriented service. Student selection is based on a holistic review of a candidate’s application and is not influenced by political or financial factors. The final responsibility for selection of students for admission resides with the Admissions Committee, a standing committee of faculty.

CMSRU is seeking to recruit a diverse student body that will add value to our school and contribute to the education of all students. This diversity may include, but is not limited to, groups under-represented in medicine, first-generation college graduates, students raised in Camden, individuals with unique service or professional experiences, and those who may be financially disadvantaged.

Requirements

To be eligible for admission, an applicant must be a citizen or permanent resident of the United States of America. Verifying documents of status must be provided at time of application.

A verified AMCAS application is required for consideration of an applicant.

Applicants must take the MCAT and MCAT scores must be submitted through AMCAS. Test scores may not be more than 3 years old (at the time of application) and only MCAT 2015 results will be accepted. The “highest” MCAT score will be based on the aggregate best performance on an individual examination. The Admissions Committee will not compile a composite “highest” score by considering best performance on individual sections from multiple examinations.

Required and Recommended Coursework

CMSRU welcomes applicants with a wide-range of academic interests. All majors are welcome to apply to CMSRU, as long as minimum academic requirements are met. All applicants are required to complete a bachelor’s degree from an accredited four-year college or university in the United States or Canada prior to enrollment in the MD Program. Applicants to CMSRU must take the following required courses from an accredited four-year college or university in the United States or Canada. Advanced Placement (AP) credit or on-line courses will not be accepted to satisfy these basic requirements. For applicants with credits obtained by advanced placement or through a community or junior college, it is acceptable to satisfy this requirement by taking advanced level courses, in the disciplines specified, at their degree-granting institution. In addition to the required course work, several recommended courses are listed below. These recommended (but not required) courses have been identified as being beneficial to students enrolled at CMSRU. Students are encouraged to take a broad array of courses as undergraduates.

Required Courses

- Biology (any two courses with lab), 8 credits total
- Chemistry (any two courses with lab), 8 credits total
- English or Composition, 3 credits total

Recommended Courses

- Physics (any two courses with lab)
• Organic Chemistry (any two courses with lab)
• Biochemistry

• Spanish
The Admissions Process

AMCAS Application

Candidates for admission to CMSRU are required to complete an application through the online American Medical College Application Service (AMCAS) at www.aamc.org. Applicants are required to complete this application and submit an application fee. This initial process requires letters of recommendation submitted through the candidate’s AMCAS application. Letters of recommendation may be obtained from: 1) Undergraduate Pre-medical Committees (preferred); and/or 2) individuals, such as faculty and supervisors, who are well-acquainted with the candidate. At least two letters should be from academic faculty. Additional information about this service can be found on the Applying to Medical School: Understanding the Process page of the AAMC website. CMSRU will not consider incomplete AMCAS applications and only students with verified AMCAS applications will be considered for secondary applications and interviews. No transcripts or supplementary materials should be forwarded to CMSRU, as admission decisions are based only on the candidate’s verified AMCAS file and the results of the candidate’s interview.

Secondary Application

Upon receipt of verified AMCAS applications, the Office of Admissions will invite selected applicants, based on preliminary screening, to complete a CMSRU-specific secondary application. Preliminary screening of applicants includes an evaluation of academic readiness. Indicators of academic readiness are determined by data analysis from the Office of Assessment, which is annually presented to and approved by the Admissions Committee. Secondary applications are sent only to applicants who demonstrate a high likelihood of success at CMSRU. This screening step was developed to ensure that applicants who fail to meet academic qualifications can be notified of rejection prior to remitting additional application fees. The secondary application includes responses to short-answer questions to help further determine a candidate's match to the CMSRU mission and community. The secondary application also includes several attestations from the candidate, indicating that they meet the academic requirements described previously, as well as the technical standards developed by CMSRU. The secondary application fee is $100, which may be waived upon submission of the AMCAS Fee Assistance Program (FAP) waiver documents. Applicants not selected to receive a secondary application will be notified of this decision.

Screening for Interview

All candidates who submit a completed secondary application will have their entire application screened manually, by specially-trained individuals, under the authority of the Admissions Committee, to decide which applicants will be invited for an interview. This screening includes a holistic review of the primary and secondary applications to determine academic readiness and mission match. The holistic review includes an assessment of personal qualities, activities, and experiences that will positively contribute to the culture and diversity of CMSRU. In this regard, there are no absolute criteria and each applicant is considered individually. Interview selection criteria will be annually reviewed and approved by the Admissions Committee. Each year, individuals involved in screening of applications will be formally charged by the Dean, so that a consistent approach to screening can be ensured. Because of the volume of applications received, this process may take several weeks to months to complete. Applications will be screened in the chronological order in which they are received.

Interview

Interviews are scheduled on an invitation-only basis. Following screening of their primary and secondary applications, selected students will be invited for an in-person interview at CMSRU in Camden, New Jersey (please
note: for the 2021 admissions cycle, interviews will be conducted virtually). The admissions process is highly competitive and the likelihood of being invited to interview depends on the overall size and qualifications of the applicant pool. Upon completion of the interview cycle for the current application year, unsuccessful applicants will be notified that they will not be offered an interview (rejection). Once invited, candidates may schedule their own interview date, but must receive authorization from the admissions office to reschedule their interview date. Applicants interviewing are responsible for making their own travel arrangements.

The interview day consists of an introductory orientation session with the Dean, informational sessions presented by the Offices of Medical Education and Student Affairs, a traditional interview jointly conducted by a member of the Admissions Committee and a “blinded” faculty or student member. The interview day will also include a student-led tour of CMSRU and a demonstration in our simulation center. Upon completion of the formal interview day program, applicants will have an opportunity to informally meet with CMSRU students (please note: for the 2021 admissions cycle, portions of the interview day may be modified for a virtual format).

Admission Committee Presentation and Voting

Generally, in the week following each interview date, all interviewed applicants are presented to the Admissions Committee for consideration and vote. The presentation to the Admissions Committee is made by the committee member who interviewed the applicant. Following presentation of the applicant, there is an opportunity for further discussion of the candidate by all members of the Admissions Committee. Performance during the actual interview, in conjunction with the candidate’s overall application, are significant factors considered by committee members in the evaluation of each applicant. Following any discussion, an anonymous vote is taken by the full voting membership of the Admissions Committee. Based on the results of this vote, one of the following decisions is applied: 1) Immediate Acceptance, 2) Priority Waitlist, 3) Regular Waitlist, or 4) Rejection. All interviewed applicants will be notified of their updated status, either via telephone call or email, in a timely fashion. As specified by Liaison Committee on Medical Education (LCME) standards, the authority for selection of prospective students rests in the hands of the faculty, under the auspices of the Admissions Committee. All decisions of the Admissions Committee are final.

Acceptance Offers

Selected applicants will be offered admission by the Admissions Committee, based on committee vote, on a rolling basis. Possible admissions actions, as described above, are defined and approved annually by the Admissions Committee. A vote of “Immediate Acceptance” indicates that the candidate will receive immediate notification of acceptance to CMSRU. A vote of “Priority or Regular Waitlist” indicates that the candidate is approved for admission and will receive notice of acceptance only if a seat in the class becomes available due to withdrawals from the candidates accepted previously (i.e. delayed acceptance). As indicated, applicants with priority waitlist status will be considered first among those candidates eligible for delayed acceptance. Guidelines for ranking of waitlisted candidates will be developed annually by the Waitlist Subcommittee (see below) of the Admissions Committee. A vote of “Rejection” indicates that a student will receive immediate notification that the Admission Committee will not offer them a seat in the class. The Dean will be notified of the decision of the Admission Committee on each candidate, but the Dean will have no role in admissions decisions.

The Waitlist Subcommittee of the Admissions Committee is composed of faculty members selected from the full Admissions Committee and is chaired by either the Chair or Vice Chair of the Admissions Committee. Up to one-third of the membership of the Admissions Committee can serve on the Waitlist Subcommittee. The Waitlist Subcommittee is responsible for development of criteria for ranking of waitlisted applicants. These criteria are developed and presented to the full Admissions Committee annually for approval. The ranking criteria will be applied to all waitlisted candidates by the Office of Admissions. The full Admissions committee grants authority to the Office of Admissions to extend all new offers of acceptance in accordance with approved criteria. The full
committee will receive a final report at the close of the admissions cycle to inform them of the outcome of the waitlist process.

Admitted students must submit an acceptance deposit within two weeks of receipt of an acceptance offer. The deposit will be applied to first semester tuition and is refundable prior to May 1st, if the applicant chooses to withdraw their acceptance. A decision to withdraw after May 1st may result in forfeiture of the $100 deposit. Deposit requirements may be waived in cases of extreme financial disadvantage. Failure to submit an acceptance deposit in a timely fashion may result in rescindment of the original acceptance offer.

**Early Decision Program**

CMSRU participates in the Early Decision Program (EDP). Eligibility requirements to be considered as an early decision candidate include: an overall undergraduate GPA of 3.5 or higher, an overall undergraduate science GPA of 3.6 or higher, and an MCAT score of 507 or higher.
Diversity

Diversity Statement

Cooper Medical School of Rowan University (CMSRU) is committed to providing an academic and work environment that respects the contributions, talent, and diverse experiences of all of our students, faculty, and staff. Our core values include a commitment to diversity, equity, and inclusion; patient advocacy; and the care of the underserved. We embrace the philosophy that excellence in medical education, research, and clinical practice is best achieved through promoting diversity in its broadest definition and maintaining an academic and work environment free of discrimination. We pledge to build and sustain a learning community where diversity is celebrated, and to foster access to medical education to learners from all segments of society. We consider inclusivity to be a responsibility of everyone in our learning environment.

It is the goal of CMSRU to increase the number of students from those groups underrepresented in medicine (URM) (Black/African American, Hispanic/Latino), Asian students, and students who are disadvantaged based on their financial or educational background. In addition, CMSRU is committed to increasing the number of URM faculty (Black/African American, Hispanic/Latino). We are also committed to increasing persons who are Black/African American, Hispanic/Latino, and women among the senior administrative staff at CMSRU. It is our goal to create an academic environment that is welcoming and respectful of diversity of all.

Diversity Policy

PURPOSE:
Diversity is essential to fulfilling the CMSRU mission of improving the health of our community and in achieving our vision of being a leader in medical education, research, and clinical practice with an emphasis on healthcare for underserved populations. CMSRU is committed to recruiting students, staff and faculty from diverse backgrounds with experiences that best match our mission to serve the needs of our community. Furthermore, CMSRU is invested in providing a learning environment that is enhanced by the exchange of varied viewpoints that increase awareness of health care disparities and increase interest in service and civic responsibility.

POLICY:
CMSRU provides opportunities for learners from disadvantaged backgrounds and those who are underrepresented in medicine to gain information about health careers and programming to advance their knowledge/skillset to pursue those professions; these educational programs are inclusive in nature and extend beyond CMSRU. Included are “pipeline” programs that span elementary school through undergraduate years. In addition to traditional entry pathways to medical school, CMSRU provides alternate routes for individuals from underrepresented in medicine/disadvantaged backgrounds (see definition below) to gain acceptance to CMSRU through partnering institutions and pipeline programs. CMSRU is equally committed to the recruitment, development and retention of qualified faculty/staff from underrepresented backgrounds.
CMSRU is dedicated to providing an academic and work environment that respects the contributions, talent, and diverse experiences of all of our students, faculty and staff. Our core values include a commitment to: mentorship, diversity, equity, and inclusion, professionalism, patient advocacy, personal wellness, the underserved and scholarship.

SCOPE:
This policy applies to all applicants, students, faculty and staff of CMSRU.

DEFINITIONS:
The following groups are the focus of CMSRU’s recruitment and retention efforts to achieve mission-appropriate diversity outcomes among students, faculty, and senior administrative staff.

- Students: Hispanic/Latino; Black/African American; financially or educationally disadvantaged; and Asian. Although not underrepresented in medicine, an additional focus group for CMSRU is Asian. This reflects the changing demographics in New Jersey and the United States in general.
- Faculty: Hispanic/Latino; Black/African American.
- Senior Administrative Staff (Defined as Deans, Departmental Chairs and Directors): Black/African American, Hispanic/Latino and women.

PROCEDURE:
CMSRU incorporates social justice and diversity in all of its functions including admissions, student affairs, faculty affairs, academic affairs, clinical practices, curriculum, research, and community service.

The Office of Diversity and Community Affairs (ODCA) engages faculty, students, and staff to develop and maintain an environment which embraces and respects the diverse educational and larger community. It creates partnerships to establish priorities and ensures that social justice, inclusion, and cultural competence are promoted within the institution and our larger community. The ODCA collaborates with hospitals, physician practices, universities, community colleges, elementary, middle and secondary schools, nongovernmental organizations, regional and community organizations to develop initiatives that will further improve the healthcare experience for disadvantaged communities, such as the creation of a pipeline to medical professions and community service programs. In addition, collaborations are sought to further our commitment to diversity and decrease health disparities in the community and surrounding region. The ODCA works with the Office of Faculty Affairs to broaden recruitment and retention efforts of diverse faculty members. The Committee for Diversity in the Learning Environment supports the efforts of the ODCA in monitoring achievement of diversity initiatives and contributes information and programming recommendations to guide the diversity strategic planning process.

To ensure diversity, the following are monitored on a regular basis as part of the CMSRU strategic planning process and continuous quality improvement:

- Progress of pipeline participants to graduation/health professions
- Recruitment, acceptances and retention of students/staff/faculty as defined above
- Support for diversity programs
- Faculty engagement in diversity and mentoring programs
- Diversity efforts of departmental chairs (resident recruitment, faculty recruitment and retention, faculty promotions)
- Cultural content in curriculum
The Medical Education Program

The educational program at CMSRU was designed to provide each student with a solid foundation in the science of medicine while providing an early and continuous clinical experience. Courses were created to meet CMSRU’s mission and to allow our students to develop skills necessary to practice medicine in the 21st century. This section of the handbook presents an overview of years one and two, known as Phase 1: “Foundation and Integration” and years three and four, known as Phase 2 – the “Application, Exploration and Advancement” of the curriculum.

All courses are built to provide the student with the knowledge and skills needed to become a competent physician and scientist. We have developed nine Institutional Learning Objectives that serve to focus our curriculum and form the basis upon which our system of assessment is built.

Note:
This handbook is not intended to present a complete description of each course. The course directors provide complete syllabi prior to the start of each class that includes specific learning objectives, expectations and assessment tools.
## CMSRU Medical Education Program Objectives

### General Competency: Medical Knowledge

Students will demonstrate knowledge of existing and evolving scientific information and its application to patient care.

<table>
<thead>
<tr>
<th>Medical Education Program Objective(s)</th>
<th>Outcome Measure(s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Demonstrate a strong basic science foundation in the understanding of health and disease (MK1)</td>
<td>Faculty Developed Examination Questions, Formative Quizzes, Life Stages TWA Assessment, M3 Summative Assessment, M3 Preceptor's Attainment of Program Objectives (Narrative Assessment), CMSRU M4 Summative Assessment, Summative Narrative Assessment, NBME Subject Examination, Practical Examinations, Scholars Workshop Independent Capstone Project, TBL Scores (IRAT/GRAT), Weekly ALG Student Assessments, M4 Resuscitation and Basics of Critical Care Oral Examination, Video Review (Psychiatry), Phase 2 Mid-Clerkship Formative Feedback Certification with Comments, POPs Scores, Jigsaw Scores, Virtual Critical Care Rounds-I (VCCR-I) Post Test, Student Presentations, Formative NBME Examinations</td>

</table>
Curriculum Overview

At CMSRU, we believe that medical education should be a seamless continuum over four years, integrating knowledge of basic scientific concepts, early clinical experience and patient care, self-directed learning, teamwork, and medical and non-medical activities for the greater community’s benefit. The curriculum reflects the mission and vision of CMSRU, preparing students to be physicians, educators, and positive contributors to society.

Over the four years, students are exposed to various cases and clinical settings designed to connect clinical practice with basic science knowledge – beginning within the first few weeks of school, and continuing throughout the four years. Similarly, basic science knowledge is reinforced in the clinical clerkships. In order to establish these critical linkages, clinical faculty participate early in the medical school curriculum, working closely with basic science educators to tie basic tenets of scientific study to actual clinical scenarios.

Coursework is divided into two phases: the “Foundation and Integration” (Phase 1) that would then allow for “Application, Exploration and Advancement” (Phase 2). Phase 1 consists of two years in which students develop the scientific background, knowledge, skills, and behaviors to immediately begin integrating that information into clinical practice. Phase 2 consists of the third and fourth years of the curriculum, during which students are supported in the advancement of knowledge and the application to the clinical, social, and ethical aspects of care.

Phase 1: Foundation and Integration – Years 1 and 2

Ambulatory Clerkship

Scholar’s Workshop

Foundations of Medical Practice

Selectives - Fall Semester Only

Phase 1 Course Overview

Courses Spanning Multiple Curricular Years

The Scholar’s Workshop (M1 – M4)

The design of the course is based on the recognition that, in order to thrive in 21st Century medicine, two attributes are necessary: (1) the skills of critical thinking, and (2) proficiency with an enduring set of tools. The tools help students interact with information and systems.

In the Scholar’s Workshop kit are the tools of:

- Evidence-based medicine
- Data collection and analysis
- Epidemiology
- Systems theory / engineering
- Healthcare delivery and financing
- Performance and quality improvement / patient safety
- The scientific method, including the ethics of scientific inquiry

The curriculum of The Scholar’s Workshop is designed to help students develop habits of critical thinking. Faculty will guide students – working in teams – through a series of projects aimed at developing their proficiency with the toolkit, as well as their team-building, teamwork, management and leadership skills. The course is designed to cover these domains in bundles. The projects that correlate with the bundles will correlate temporally and substantively with the remainder of the school curriculum if and when possible. Through the Scholar’s Workshop, we intend to endow students with the enduring skills and mindset to lay the foundation for fruitful, rewarding, high quality practice in a vast sea of information and ever-changing systems of care.

Scholars Workshop emphasizes the competencies of Medical Knowledge, Practice Based Learning, and Systems Based Practice. In addition, it will include the CMSRU competencies of Scholarly Inquiry, Health Partnerships and Working in Teams.
**Ambulatory Clerkship (M1 – M3)**

The Ambulatory Clerkship is a 3-year progressive and continual course that provides students with supervised clinical experiences in the Cooper Rowan Clinic, a student-run clinic that allows them to assume increased patient care responsibility as their medical education advances. The course incorporates all 9 student competencies that are at the core of the CMSRU educational mission. The course has been designed around four competency domains: a) humanistic patient–centered care, b) learning about health disparities in real time, c) the science of delivery of care, and d) interprofessional collaborative practice. The course provides the foundation for the practice of medicine, in any specialty or subspecialty.

The central element of the Ambulatory Clerkship is the student-run Cooper Rowan Clinic. The clinic is designed to provide healthcare for members of the Camden community through a coordinated, interprofessional team delivery system. This clinic is organized and staffed by the students, and closely supervised by physician educators. It allows the students to become increasingly proficient with the team-based model of primary care delivery. First-, second- and third-year students, along with pharmacy, physical therapy, and social work students work in teams to care for patients in continuity. In addition to providing care at the clinic, the students coordinate care for their patients by accompanying them to hospital visits and consultant appointments.

**Foundations of Medical Practice (M1 and M2)**

Foundations of Medical Practice (FMP) is a two-year course that assists students in attaining the knowledge, skills, and attributes necessary to serve as health care professionals who will provide compassionate, high-quality care for individuals with acute and chronic diseases. Core components of the course include: Clinical Communication and Interpersonal Skills, Ethical Issues in Health Care, Professionalism and Humanism in Medical Profession, the Student as a Teacher and Learner, and Clinical Practice: Excellence in Clinic.

The course meets twice per week throughout the entire Phase 1 curriculum. It is integrated longitudinally and horizontally with other concurrently running medical school courses. The course is taught via a combination of didactic lectures, small group discussions and standardized patient learning. Upon completion of this course, it is expected that students will be able to communicate effectively with patients, families and other health care professionals, make appropriate clinical judgments, and provide care that is safe, effective and comprehensive. Another primary goal of Foundations of Medical Practice is to instill in students the principle that learning and maintaining medical competence are lifelong processes.
Week on the Wards 1 and 2 (WOW 1 and WOW 2) (M1 and M2)

*Week on the Wards 1* course consists of clinical experiences intended to provide students with an early exposure to the practice of medicine as it occurs in the hospital setting. It complements the students’ prior exposure to the ambulatory patient (Ambulatory Clerkship) and allows observation of various inpatient clinical areas. The experience provides students with an early exposure to medical specialties, an additional context setting for the practice of medicine, an understanding of the concept of the team approach to care in various hospital based settings, and a reflective exchange of ideas about their experiences. The first-year rotations consist of experiences on the following four inpatient services: Medicine, Surgery/Perioperative care, Emergency Room/Trauma/Intensive Care Unit, and Pediatrics/Obstetrics and Gynecology. In addition, *WOW 1* contains a second week of Lean Six Sigma Yellow Belt training, which is designed to provide students with an understanding of the process improvement tools that can be applied in patient safety and quality control measures in the health care environment. Students learn how to identify key issues in clinical venues and operations, managing the important aspects of the initiative, measuring and maximizing financial impact, and sustaining change over time. Upon successful completion, students receive Lean Six Sigma Yellow Belt certification.

The *Week on the Wards 2* course experience occurs after the *Urology-Renal* course in the M2 year and allows for direct clinical application of basic science knowledge learned to date. The second year rotation consists of a weeklong immersion experience in a medical specialty or subspecialty, which is selected by students based on areas of interest.

**Selectives (M1 and M2)**

*Selectives* in the Medical Humanities consist of semester-long experiences in which students are able to explore various course offerings relating the humanities to the practice of medicine. Individual *Selectives* courses meet six times per semester and sessions are designed to be interactive in nature. Students are required to take two *Selectives* courses during Phase 1. These courses are designed to enrich the educational experience and provide a more well-rounded background to medical students, balancing the art and the science of medicine.

Current individual Selectives courses include the following:

- A Biopsychosocial Approach to Death
- Applied Medical Ethics
- The Art of Observation
- Emotional Intelligence
- Medical Improvisation
- Narrative Medicine
- Observational Drawing
- Theater and the Role of Role-Playing
- The Social Mission of Medical Schools
- Medical Cineforum
- Opera and Disease
- Exploring Medicine through Composition
- Photography and Medicine
- Social Determinants of Health
- Dance and Medicine
- Applied Medical Ethics
- Writing to Persuade and Convince
- The Physician Personality
- Mindfulness Meditation
**Fundamentals (M1)**

*Fundamentals* is a 16-week integrated course that provides students with a foundation in the traditional basic science disciplines: anatomy, physiology, biochemistry/cell biology, genetics, immunology, histology, embryology, neuroscience, pathology, microbiology and pharmacology. The course focuses on the normal structure, function and development of the human body, ranging from the cellular/sub-cellular level through tissues/organ systems, to the body as a whole. Discussion of cellular mechanisms of disease, including comparison of normal versus abnormal structure and function, infectious causes of disease, and basic therapeutic intervention is provided by introduction of concepts in pathology, microbiology and pharmacology/therapeutics, respectively. The goal of *Fundamentals* is to provide a comprehensive framework upon which advanced knowledge can be added during the remainder of the student’s medical school experience and subsequent clinical practice.

The course focuses on the clinical relevance of basic scientific knowledge and is presented in a multidisciplinary format to foster integration. Diverse educational modalities are used throughout the course, including lectures, small-group sessions, tutorials/self-assessment sessions, student presentations and clinical case discussions, as well as practical learning with laboratory experiences in the related core sciences. Student presentations provide an opportunity to develop communication skills. Student small-group learning experiences develop skills in self-directed and lifelong learning and encourage professional behavior and teamwork in a context that promotes use of resources such as the library and information technology. Patient case discussions provide an opportunity for students to apply the information learned and gain clinical perspective.

**Life Stages (M1)**

*Life Stages* is a four-week course designed to provide a clinical context to the basic aspects of human development and aging. The course targets specific health issues and describes the associated challenges related to these issues for the various stages of life (pediatric, adolescent, adulthood, and geriatric). The curriculum includes topics such as: Growth and Aging, Cognitive and Emotional Development, Sexuality and Hormonal Changes, Reaction to Stresses, Injuries and Safety, Ethical and Moral Issues, Domestic and Institutional Abuse, and Suffering and End of Life. The psychological, economic and socio-cultural dimensions of these life stages and their impact on health are discussed. Since people function in complex and dynamic social units, the course emphasizes the relationships between the life stages.

*Life Stages* is presented through a variety of formats, including lectures, case studies, active learning groups, laboratory exercises, and self-directed learning. Case vignettes introduce the student to the medical fields of pediatrics, adolescent medicine, internal medicine and geriatrics.
Infectious Diseases (M1)

Infectious Diseases (ID) is a four-week course that allows students to develop a broad-based understanding of microbiological agents and infectious disease processes. The course advances the general principles of microbiology, immunology, and pharmacology that were previously introduced in the Fundamentals course. The Infectious Diseases course introduces techniques of diagnostic testing for infectious diseases, advanced study of anti-infective therapy, multi-system infectious processes (such as HIV and Tuberculosis), and infections in special populations and circumstances. Organ system-specific infectious diseases are integrated within each subsequent organ system block to demonstrate the role various infections play in the disruption of the normal anatomy and physiology of that system. The major concepts of infection prevention in local and global systems is developed within the public health modules of Foundations of Medical Practice and Scholar’s Workshop.

Infectious Diseases is presented through a variety of formats, including lectures, case studies, active learning groups, laboratory exercises, simulation, clinical experiences, and self-directed learning.

Hematology and Oncology (M1)

Hematology and Oncology is a five-week course designed to provide comprehensive and multidisciplinary instruction to medical students in the disciplines of Hematology and Oncology. Initially, there is an introduction of the normal structure and function (anatomy and physiology) of the hematopoietic and lymphoreticular systems with advancement of basic concepts previously presented in the Fundamentals course. Building on this foundation, students learn about the clinical manifestations and pathophysiology of hematologic disorders that may develop secondary to genetic, metabolic, infectious/inflammatory, idiopathic, or neoplastic etiologies. Application of basic science knowledge and correlation with the clinical presentation of hematologic disorders allows students to solve patient case studies and formulate appropriate treatment regimens. The Oncology component of the module similarly advances basic concepts related to neoplasia previously introduced in the Fundamentals course. Discussion of the pathophysiology, clinical manifestations, and treatment of specific types of neoplasia are integrated into the subsequent organ system courses, to which they correspond.

Hematology and Oncology is delivered through a variety of formats, including lectures, case studies, active learning groups, laboratory exercises, simulation, clinical experiences, and self-directed learning. This course introduces the student to the humanistic approach to patients with chronic debilitating or life-threatening diseases, emphasizing empathy, respect, and a code of medical ethics as it relates to clinical research trials.
**Skin and Musculoskeletal System (M1)**

*Skin and Musculoskeletal System (SMS)* is an eight-week course designed to provide comprehensive and multidisciplinary instruction to medical students related to the integumentary and musculoskeletal systems. Initially, there is an introduction of the normal structure and function (anatomy and physiology) of these systems with integration of basic science concepts of embryology, genetics and cell/molecular biology. Building on this foundation, students learn about basic repair mechanisms and the clinical manifestations and pathophysiology of common dermatologic and orthopedic problems that may develop secondary to degenerative, metabolic, infectious, traumatic, inflammatory, or neoplastic etiologies. Application of basic science knowledge and correlation with the clinical presentation of dermatologic and musculoskeletal disorders allows students to solve patient case studies and formulate appropriate treatment regimens.

The *Skin and Musculoskeletal System* course is multidisciplinary and includes faculty participation from the departments of Biomedical Sciences, Orthopedic Surgery, Rheumatology, Physical Medicine and Rehabilitation, and Dermatology. The subject material is presented through a variety of formats, including lectures, case studies, active learning groups, laboratory exercises, simulation, clinical experiences, and self-directed learning. Students begin instruction in the gross anatomy laboratory during the SMS course.
Year 2 Block Courses

Cardiovascular System (M2)

The Cardiovascular System course is a five-week course that allows students to develop an understanding of normal and abnormal structure and function of the Cardiovascular system. Students learn normal anatomy, histology, embryology, genetics, physiology, and biochemistry related to the Cardiovascular system. With this foundation, they explore the pathology and pathophysiology of a variety of system diseases in children and adults, using a case-based approach. Students understand the applicability of, and gain proficiency with, a variety of diagnostic methods including imaging studies, invasive and non-invasive testing, and blood tests. Students learn relevant therapeutics, including pharmacology.

Learning formats include lectures, laboratory exercises, simulation, active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.

Pulmonary System (M2)

The Pulmonary System course is a four-week course that allows students to develop an understanding of normal and abnormal structure and function of the Pulmonary system. Students learn normal anatomy, histology, embryology, genetics, physiology, and biochemistry related to the respiratory system. With this foundation, they explore the pathology and pathophysiology of a variety of system diseases in children and adults, using a case-based approach. Students understand the applicability of, and gain proficiency with, a variety of diagnostic methods, including imaging studies, invasive and non-invasive testing, and blood tests. Students learn relevant therapeutics, including pharmacology.

Learning formats include lectures, laboratory exercises, simulation, active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.

Endocrine System (M2)

The Endocrine System course is a three-week course and involves reinforcement and advancement of relevant content from the Fundamentals course, particularly metabolism, receptor biochemistry and physiology, and principles of homeostasis. The remainder of the module focuses on the pathophysiology, clinical manifestations, diagnosis and management of patients with endocrine disorders. Particular emphasis is given to diabetes mellitus.

Learning formats include lectures, laboratory exercises, simulation, case-based active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.

Gastroenterology (GI) (M2)

The Gastroenterology (GI) course is a four-week course. The approach for instruction in this course is to understand the progression from the normal development, structure and function of the cell/tissue/organ to the pathology and pathophysiology of the system diseases. The pathophysiology is related to the clinical manifestations which, in turn, informs the diagnostic approach. Students become familiar with the relevant therapeutics, including pharmacology, interventional endoscopy and transplantation.
Learning formats include lectures, laboratory exercises, simulation, case-based active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.

**Urology and Renal Systems (M2)**

*Urology and Renal Systems (Uro-Renal)* is a five-week course designed to introduce students to the normal structure and function, as well as dysfunction, of these related systems. In a variety of instructional formats, students’ knowledge is reinforced and advanced in the relevant concepts of anatomy, histology, embryology, immunology, genetics, physiology, and biochemistry introduced in the *Fundamentals* course. With that as a foundation, students come to understand the role of the kidney in maintaining the homeostasis of the internal environment, by exploring its role in water and electrolyte metabolism, acid-base regulation, bone and mineral metabolism, blood pressure regulation and hematopoiesis.

Students discover, through carefully designed cases, the pathophysiology of a variety of important renal diseases, both renal-limited and those associated with systemic conditions. Similarly, they become familiar with the pathology and pathophysiology of disorders of the lower urinary and genital tract, and the impact of those disorders on excretory and sexual function. They have an opportunity to discuss and explore the psychosocial and economic impact of urologic and renal disorders. Students develop an understanding of the applicability and interpretation of the variety of relevant diagnostic methods, including blood and urine biochemistry and microscopy, biopsy, endoscopic procedures and imaging modalities. They become familiar with the range of specific therapeutic options, including medications, surgery, dialysis, transplantation, and prosthetic devices, among others.

Learning formats include lectures, laboratory exercises, simulation, case-based active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.

**Women’s Health (M2)**

*Women’s Health* is a four-week course that allows medical students to explore the care of the female patient utilizing a multidisciplinary approach. With the conclusion of this 4-week curriculum, the student is able to manage common women’s health issues with minimal supervision, and understand the appropriate need for the interaction of multiple disciplines to achieve these goals.

The early part of the course is devoted to reinforcement and advancement of relevant content in anatomy, histology, embryology, immunology, genetics, physiology, and biochemistry introduced in the *Fundamentals* course. Particular emphasis is placed on normal sexual development and reproduction. Students become familiar with the range of relevant diagnostic and therapeutic modalities.

Learning formats include lectures, laboratory exercises, simulation, case-based active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.
Allergy and Otolaryngology (ENT) (M2)

The Allergy-ENT course is a four-week course. The main goal of the course is to ensure that all medical school graduates have a sound understanding of basic principles related to otolaryngology and allergy. The allergy module focuses on reinforcing and advancing the basic science taught in Fundamentals by placing this information in clinical context.

Students become familiar with the skills of history taking and examination of patients as they relate to the specialties of ENT and Allergy. Students learn the indications for, and interpretation of, various relevant diagnostic methods, including blood tests, skin testing, laryngoscopy, tympanometry and audiometry. They become familiar with relevant therapeutics, including pharmacology.

Learning formats include lectures, simulation, case-based active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.

Neurology-Psychiatry (M2)

The neurology-Psychiatry course is a six-week course, which provides students with an introduction to the interrelated fields of Neurology and Psychiatry. Students gain knowledge of neurological and psychiatric disorders and how they impact patients and their support systems. This course introduces students to the humanistic approach to patients with chronic debilitating or life-threatening diseases, emphasizing empathy, respect, and a code of medical ethics.

The foundation is set for exploration of these fields by reinforcing and advancing the relevant anatomy, histology, embryology, immunology, genetics, physiology, and biochemistry introduced in the Fundamentals course. Students learn the pathology and pathophysiology of the spectrum of neurologic and psychiatric diseases, and their clinical manifestations. They have an opportunity to become familiar with the range of applicable diagnostic methods – including specific history-taking and physical exam skills and imaging modalities – and therapeutics. Students learn to formulate a thorough biopsychosocial diagnostic and treatment plan.

Emphasis in the Neurology module is on identification, functional significance and connectivity within the neural system to develop a thorough understanding of the complexity of the nervous system. This is used as a platform to examine the variety of pathology found in the nervous system and reason for its resulting impairment.

Learning formats include lectures, laboratory exercises, simulation, case-based active-learning group discussion and self-directed learning using print and electronic texts, and other electronic and internet-based resources.

Phase 2: Application, Exploration and Advancement – Years 3 and 4

Year 3

Courses in the M3 Year

- Scholar’s Workshop
- Ambulatory Clerkship
- Healer’s Art (elective)
- M3 Electives

Clerkship Rotations in the M3 Year

- Internal Medicine
- Family Medicine
- Cooper Longitudinal Integrated Clerkship (CLIC)
- Surgery
- Pediatrics
- Obstetrics/Gynecology
- Neurology Psychiatry

A full diagram of all components in the M3 year is provided below:

Note: Students are divided into three cohorts at the beginning of the M3 academic year. Assignments are varied so that all students experience CLIC at different times in the block.

Students complete seven inpatient blocks over the course of the M3 year. Each inpatient block is six weeks in duration. Four of the six weeks are largely based in the inpatient setting within traditional disciplines (Internal medicine, Surgery, Obstetrics/Gynecology, Pediatrics, Neurology, and Psychiatry). The seventh block is comprised of a two week dedicated family medicine ambulatory rotation followed by an additional two weeks in internal medicine. Two weeks in every block are dedicated to the ambulatory Cooper Longitudinal Integrated Clerkship (CLIC). Students are scheduled in cohorts and matriculate through their blocks and CLIC over the course of the academic year. A didactic curriculum is required as part of each inpatient block, supplemented with a Friday afternoon series of transdisciplinary sessions devoted to topics that cross core clerkships. Time is devoted in these Friday afternoon sessions for student case presentations. There are two longitudinal courses in the M3 year that continue from the preclinical curriculum: Scholar’s Workshop and Ambulatory Clerkship. The
focus of the Scholar’s Workshop course is to have students spend time with their mentors completing their capstone research projects. Ambulatory Clerkship requires students to spend one day per month in the CRC, where they provide leadership for M1 and M2 students as they work in interprofessional teams with students from the PharmD program at the University of the Sciences and Physical Therapy and Social Work students from Rutgers University in Camden. Lastly, students continue their commitment to service learning via service learning projects connected to the ambulatory clerkship. Students spend at least 30 hours per year in service learning activities during the M3 year. Students can elect to participate in Healer’s Art during the fall semester of the M3 year. In addition, students take three one-week electives to support career decision making and expand their personal interests. Study weeks, examination weeks, and winter break are built into the schedule for each cohort.

The 35% CLIC ambulatory component of each block permits students to see patients in each core discipline over the course of the clerkship year, providing continuity of care for patients, greater exposure to seasonal conditions, and continuity of experience with attending preceptors. Telehealth was added to this clerkship in 2019-2020. There are fourteen CLIC weeks over the course of the M3 year. Weekly CLIC schedules for each student includes clinic time in each of the core disciplines, an optional half day in the operating room with their surgery preceptor, and time for Ambulatory Clerkship, Scholar’s Workshop, service learning, weekly transdisciplinary plenary sessions, and self-directed learning (SDL) time. SDL may be used to follow patients to subspecialist appointments or procedures, exploration of career interests, or other learning activities specific to each student.

- Vascular Surgery

**Phase 2 Course Overview**

**Year 3 - Clerkships**

Year 3 of medical school has traditionally consisted of a sequence of individual core clerkships, largely inpatient, within different departments. In designing the M3 curriculum for CMSRU, the Curriculum Committee determined that the curriculum needed to prepare students for the team-based, heavily outpatient practice of health care delivery of the 21st century. The CMSRU M3 curriculum emphasizes continuity of care, continuity of supervision, and integration of content across disciplines.

In the M3 year there is a balance between inpatient block rotations in each of the core clinical disciplines (internal medicine, neurology, obstetrics-gynecology, surgery, pediatrics, and psychiatry) and a fully integrated, year-long, outpatient experience: the Cooper Longitudinal Integrated Clerkship (CLIC). In the CLIC, students are paired with a faculty preceptor in each discipline (adult primary care, neurology, obstetrics-gynecology, surgery, and pediatrics). During each six week block, students spend two weeks in CLIC, establishing a cohort of patients they will care for in continuity. Students follow their CLIC patients to consultations with specialists, inpatient admissions for acute care, surgical procedures, child birth, and acute and subacute rehabilitation services. In addition, all students rotate through a concentrated 2-week outpatient block of Family Medicine during the M3 year.

During inpatient rotations, each student admits acutely-ill patients to the hospital. Students follow these patients during their hospitalization and into the ambulatory setting after discharge. Inpatient teaching rounds incorporate learning in medical imaging and pathology. The didactic curriculum in each discipline is delivered in block rotations. These are supplemented by Transdisciplinary Sessions every Friday afternoon in which each M3 student presents a patient that they have cared for; the student leads a discussion with selected faculty experts on issues germane to the case. These issues may encompass the clinical medicine, underlying biomedical science, social determinants of health or medical ethics.

Clinical faculty preceptors and clerkship directors provide students with regular formative feedback throughout the year. Learners complete a mid-year formative Objective Structured Clinical Examination (OSCE) to help them assess and develop their clinical skills, and an end-year summative OSCE to evaluate those skills. Students sit for formative NBME subject examinations at the midpoint of each block to assess the medical knowledge they are attaining in each discipline and to prepare them for the NBME subject summative exams at the end of each block.

Students maintain an electronic log of their patient encounters and procedures from both the inpatient and outpatient settings to document fulfillment of their required patient encounters and procedural experiences. The Office of Medical Education reviews each student’s patient encounter and procedure logs on a regular basis throughout the year and provide guidance on fulfilling the requirements. A mid-year formative CLIC preceptor assessment provides the student with key information for improvement.
Grades for each inpatient clerkship are based on students' work with their preceptor(s) and their subject examination score. CLIC summative assessments are based on students' work with their CLIC preceptors, their score on the summative OSCE and their scores on their patient presentations. Both the CLIC and the inpatient block rotations prepare students well for their USMLE Step 2 CS and CK examinations.

**Electives (M3)**

Medical students have three one-week electives in their third-year. These are offered in a variety of specialties and sub-specialties. This offers students the opportunity to sample areas of interest in preparation for their M4 year.

**Healer’s Art (M3)**

Healer’s Art is a five-session M3 elective course, designed to provide support for third year medical students by enabling them to appreciate and preserve the human dimension of health care. It encourages students and faculty to experience a collegial relationship that is nonjudgmental and non-competitive and offers a unique professional support and healing community. Topics for individual sessions include: Learning to Remember Our Wholeness, Sharing Grief and Healing Loss, Beyond Analysis: Allowing Awe in Medicine, and The Care of the Soul: Service as a Way of Life. The Healer’s Art course encourages self-reflection through its highly interactive small and large group formats.

**Year 4**

**Sub-internship (M4)**

Students are required to have an experience as sub-interns in the discipline of their choice: Internal Medicine, Surgery, Vascular Surgery, Urology, Orthopaedic Surgery, Pediatrics, Psychiatry, Obstetrics and Gynecology, or Family Medicine. In sub-internships, students serve in the role of a first-year resident, providing patient care under the direct supervision of senior residents and faculty physicians. The sub-internships are four weeks long. They include the following learning objectives:

- Gain sufficient understanding of the evaluation and management of patients [specialty-specific] diseases to enable comprehensive primary management of these conditions.
- Delineate relevant findings in obtaining the history and physical examination of patients with [specialty-specific] disease.
- Deliver relevant, accurate, and succinct oral case presentations.
- Prepare organized, timely, and accurate patient progress notes, including results and interpretation of diagnostic studies.
- Articulate an appropriate differential diagnosis for patients with acute and chronic [specialty-specific] conditions.

**Emergency Medicine Clerkship (M4)**

Emergency Medicine is a required Phase 2 clerkship spanning four weeks. The students’ clinical encounters are in the Emergency Department (ED) at CUHC, where they see patients presenting with conditions such as abdominal pain, altered mental status, chest pain, dyspnea and headache. Among the objectives for the clerkship are the following:
• Demonstrate skill in completing an appropriately tailored, chief complaint driven history and physical exam in the emergent setting.

• Demonstrate the ability to synthesize an appropriate differential diagnosis for some of the most common Emergency Department complaints (chest pain, shortness of breath, abdominal pain, blunt trauma, atraumatic back pain, laceration repair, and altered mental status).

• Present cases in a clear and concise fashion.

• Demonstrate an understanding of the use and interpretation of commonly ordered diagnostic studies.

• Develop appropriate case management plans and assist with their implementation.

• Demonstrate a basic understanding of the role of emergency ultrasonography in patient care.

• Use ED patient care experiences along with appropriate educational resources to improve understanding of Emergency Medicine.

• Work in a multidisciplinary team-based setting to provide timely, efficient, and safe care to patients.

**Clerkship in Critical Care Medicine, Pediatrics or Surgery (M4)**

This required clerkship is a four-week experience. It introduces the student to the systematic resuscitation, evaluation and management of the critically-ill patient. Students may choose among the Clerkship in Critical Care Medicine, the Clerkship in Critical Care Surgery or the Clerkship in Pediatric Critical Care. These clerkships provide the student with the opportunity to apply knowledge gained in the third year to the clinical management of acutely ill patients in a critical care environment. The student is a member of a critical care team, working with faculty and other care providers. The educational experience includes supervised clinical encounters, didactic lectures, case based learning and self-study.

**Interprofessional Care of Patients with Chronic Conditions (M4)**

Research has shown that the typical medical student graduates without understanding the needs of the patient with chronic conditions. In order to ensure that CMSRU graduates are prepared to provide high-quality, compassionate care to individuals with chronic diseases, we require this 4-week clerkship. Through this clerkship, students identify the common essential elements of high quality care of patients with chronic conditions. Of particular importance in this regard is an appreciation for the multidisciplinary, interprofessional nature of care in a variety of settings. The students spend time in one of several pillars: Geriatrics, Physical Medicine and Rehabilitation, Urban/Chronic care, Collaborative Care/Transitions in Care, Inpatient Consultative Hematology/Oncology, and Bariatric Surgery.

Some of the overarching goals of this clerkship are:

• Acquire knowledge about the types and cultural context of chronic illness, the cultural factors affecting world view and health care system factors.

• Articulate the roles of the interprofessional team members in the evaluation and management of patients with chronic conditions.
• Acquire the technical skills required to provide care for patients with chronic conditions and identify/differentiate acute illness from “acute-on-chronic” exacerbation in patients with chronic morbidity.

• Act as an interprofessional health care team member for patients, reviewing the care plan with them, and identifying appropriate resources in their follow up care plan.

• Develop the attitudes and values that will foster and support well-coordinated, compassionate, interprofessional, patient-centered care.

• Obtain the foundation for high quality interprofessional care of chronic conditions for advanced study during post-graduate training.

**Leadership in Community Health (M4)**

Leadership in Community Health is a required course that may be taken as either a week-long intensive or year-long course during the M4 year. This course builds on the foundations of experiential learning via the Ambulatory Clerkship (service learning + the ambulatory clinic) of the M1 to M3 years. It gives attention to the recognition and analysis of social qualities and characteristics of individual and community environments that can affect health status, health maintenance, treatment, and healing. Through this course, students continue to engage in community-based service as their fieldwork practicum. This service heightens students’ understanding of community need, broadens their awareness of the impact of social complexities on patient care, and encourages them to practice solution-based care to help patients address these issues within the context of their acute or chronic care needs. Analysis in this course considers the student’s cumulative experience across clinical disciplines and settings, patient populations, geography, and health systems.

**Electives (M4)**

All students are required to complete 20 weeks of electives in the fourth year. There are a variety of electives and formats available at CMSRU for students to pursue their personal interests. A catalog of CMSRU offerings is available for student scheduling on the CMSRU Students website (click the link for Elective Catalog).

Up to 16 of the 20 elective weeks may be taken at “away” locations. A majority of medical schools subscribe to the AAMC’s Visiting Student Learning Opportunities (VSLO) site, and CMSRU students are given access to this service prior to the start of the 4th year. For medical schools that do not use VSLO, CMSRU students must contact the school directly to see the requirements for a visiting rotation. The registrar’s office, M4 coordinator, and M4 curriculum director guide students during this process.
Three Year Primary Care Track (PC3)

Cooper Medical School of Rowan University offers an accelerated three-year track (PC3) for motivated students planning a career in Primary Care Internal Medicine or Pediatrics. Students will complete their training at one of the respective Cooper University Hospital residency programs.

The program was developed to train the next generation of primary care physicians who will be providing patient-centered, humanistic and culturally-sensitive care for patients and families in New Jersey and beyond. Cooper’s 125+ year commitment to Camden, and CMSRU’s commitment to patient advocacy, civic responsibility and diversity make us uniquely positioned to train future primary care providers, especially for medically-underserved communities. Our program fosters students eager to join this special physician community, one which has the privilege of enduring and meaningful involvement in their patients’ lives.

![Diagram of PC3 program](image_url)
PC3 Program Structure

First Year (M1)

The course starts five weeks before the M1 year begins, with a unique course called Introduction to Basic Clinical Skills. This course is designed to provide the fundamental concepts in medical communication, history-taking and physical diagnosis.

Students enrolled in the PC3 program spend a half-day every month at an NCQA-recognized Patient Centered Medical Home Clinic, specializing in one of two disciplines (Pediatrics in Camden or Internal Medicine in Willingboro). Students work directly with a primary care faculty preceptor to engage in coordinated patient-centered care as part of a multidisciplinary team. Additionally, PC3 students spend time in this clinic in M1 and M2, and then in M3 as part of your CLIC (Cooper Longitudinal Integrated Clerkship) rotation.

At the end of the M1 year, after a short break, PC3 students participate in a five-week course called Transforming Healthcare in an Urban Environment. This is a course intended to provide fundamental knowledge and experience delivering healthcare in underserved urban communities like Camden. The building blocks of this course are designed to explore and address barriers to care using innovative models of healthcare delivery. Through experiential learning, students build their knowledge of social determinants of health and healthcare disparities, public health advocacy, and policies impacting urban health, healthcare for the homeless, trauma-informed care and more. Students learn how teams at Cooper and in the Camden community are transforming healthcare in diverse communities with complex medical and psychosocial needs.

Second Year (M2)

Students continue to participate monthly in the Patient Centered Medical Home clerkship, with increased responsibilities and independence, as well as additional exposure to population health management and behavioral health resources within primary care.

Students will take the USMLE Step 1 examination at the end of their 2nd year along with their four-year colleagues.

Third Year (M3)

The 3rd year has been redesigned for the PC3 track.

During the fall, students will have four-week clerkship blocks (Surgery, Internal Medicine, Neurology, etc.). Some blocks will have additional outpatient time built in, but overall the experience will be the same as their four-year colleagues. All PC3 track members will be in the same rotations at the same time.
During the spring, students spend 13 continuous weeks in the CLIC (Cooper Longitudinal Integrated Clerkship) rotation honing their clinical skills. Students spend one half-day a week with attending physicians in each of six areas: Neurology, Adult Primary Care, Pediatrics, Surgery, Obstetrics-Gynecology and Psychiatry.

Students will spend their CLIC time in their respective chosen specialty (Internal Medicine or Pediatrics) at their Patient Centered Medical Home site.

The Step 2 CS and CK will be taken in the middle of the M3 year, after the clerkships. Special faculty-led review sessions will help prepare the PC3 track students.

The year will end with a four-week sub-internship in the student’s respective discipline (Internal Medicine or Pediatrics), prior to entering residency. This ensures that the student’s clinical skills are at peak performance prior to starting residency.
Honor Societies

Gold Humanism Honor Society

The mission of the Gold Humanism Honor Society (GHHS) is to recognize individuals who are exemplars of humanistic patient care and who will serve as role models, mentors, and leaders in medicine.

All students are requested to complete the GHHS Peer Nomination Survey during their third year of study. The GHHS Peer Nomination Survey asks each M3 student to provide the names of three students in their class who they consider as exemplars in providing compassionate patient care and who serve as humanistic role models in medicine.

Students ranked in the top 25% of the GHHS survey results will first be evaluated for academic standing. Only students in good academic standing will be eligible for CMSRU GHHS membership. The GHHS Selection Committee reviews, discusses, and selects candidates for membership from among the nominees. The total number of GHHS student members selected will be no more than 15% of the medical school class.

Chiron Honor Society

The Chiron Society each year inducts the top 25% of students in the rising M4 class based on cumulative academic performance throughout the M1-M3 years. The society is so-named because in Greek mythology, Chiron was a centaur who was very skilled in the medical arts and was the teacher of Asclepius, the Greek God of Medicine. An image of Chiron adorns the CMSRU gonfalon. Election into the Chiron Society then forms the basis for consideration of induction into AOA.

Alpha Omega Alpha Medical Honor Society

AOA is a national honor medical society which was initially established in 1902. Students in the top 25% of the class academically (i.e. those in the Chiron Honor Society) are eligible for consideration for AOA. Of the eligible students only one-sixth of the class (16%) can subsequently be elected into AOA. The numbers are specified by the AOA national constitution. Election into AOA is further based on an eligible student’s entire portfolio, including leadership, service, teaching, research, and professionalism experiences, along with overall contributions to CMSRU. Election is determined at a yearly meeting of AOA faculty at Cooper, who review all eligible candidates and then vote. This process normally takes place in August, after all of the third-year grades are available.
Policies Related to Student Affairs

Academic and Career Counseling Policy

POLICY:
Academic and Career Counseling

PURPOSE:
This policy delineates the activities and processes of the CMSRU academic and career counseling systems. CMSRU is committed to assisting students in achieving their academic, personal and career goals.

SCOPE:
This policy applies to all medical students

DEFINITIONS:

**MSPE** – The Medical School Performance Evaluation (MSPE) is an evaluative tool indicative of a residency program applicant’s entire medical school career created by the applicant’s medical school.

**Advisory Colleges** – The four academic and career counseling units of CMSRU made up of directors and assigned medical students.

**Advisory college directors** – A CMSRU faculty member who provides advising to students and is not a departmental chair, an associate dean, a course director, or small group facilitator.

PROCEDURE:

A. Advisory Colleges

1. Upon acceptance to CMSRU, students will be assigned to one of the four advisory colleges for their four years of school.
2. The four advisory colleges are overseen by the Office of Student Affairs.
3. The advisory college system gives students appropriate guidance depending on the nature of the issue.
4. Each advisory college will be assigned an approximately equal number of admitted students.
5. Each student will have an advisory college director who is responsible for overseeing issues related to their assigned advisees and will make appropriate referrals to other faculty mentors and staff. In addition, the advisory college directors will connect students with resources to support social and emotional well-being as necessary (e.g. stress management, anxiety counseling/management, situational or grief counseling and prevention of burnout.)
6. The areas covered by the advisory college directors include:
   - General academic advisement
     - Identification of students in need of tutoring/specific academic counseling or intervention
     - Career counseling
   - Specialty academic advisement
     - Residency guidance
   - Student oriented non-academic activities
   - Mentoring
     - Facilitating contact with specialty specific faculty mentors
     - Peer Advisory Liaison (PAL)

7. Career navigators assist first and second year students with choosing a medical specialty.
8. Subspecialty faculty advisors are available for students who show interest in a specific specialty.

9. Guidance in choosing intramural and extramural electives will be given by the student’s advisory college director and their specialty advisor.

10. Students are paired with a Peer Advisory Liaison (PAL) (M2 student) during orientation who can provide support during transition into each curriculum year; provide insight into career choices; assist with time management and overall attention to physical and mental well-being.

11. All student PALS are assigned within the same advisory college and serve as student mentors throughout all four years creating “families” within each college. In this system, M1 students may have the guidance of M4 students as well.

B. Academic Counseling

1. Advisory college directors will review course grades with their students during their fall and spring semester meetings and make referrals to the appropriate faculty and staff, (e.g. learning specialists) for those students with substandard academic performance.

2. Students may be enrolled in the Proactive Advising for Student Support (PASS) Program where they will meet with the Student Support Service Specialist to discuss their academic and personal progress and wellness. They will receive assistance with coping skills, time management, test anxiety, boundary setting and link to other appropriate resources. Students may be referred to this program by their college advisor, faculty member, learning specialist, or by self-referral. Students will automatically qualify for the PASS program based on pre-determined academic thresholds for academic performance.

3. Learning Support Specialists provide academic support through counseling related to study strategies and enhancing individual learning styles. Students may make appointments for their assistance or may be referred by CMSRU faculty or staff.

C. Residency and Career Counseling

1. Multiple opportunities for students to receive counseling regarding residency and career choices will be provided by the school throughout the students’ medical school experience.

   1st and 2nd year (Phase I)

2. Students can explore different career paths during Phase 1 through the Careers in Medicine program, which includes panel presentations featuring physicians from different specialties and those working in other areas of medicine.
   • Students will be introduced to the AAMC Careers in Medicine program in year one and will be guided through this throughout all four years by their advisory college director.
   • Career navigators will help students define their specialty interests and provide opportunities to explore the stated career.

   3rd and 4th year (Phase II)

3. Students will work with their advisory college directors to narrow down their career interests and ensure their elective selection is appropriate for the residency they wish to pursue. Their advisor will also facilitate referral to the appropriate subspecialty mentor.

4. Advisory college directors will also work closely with their students to provide education on how to solicit letters of recommendation and help with selection of residency programs to which they apply.
5. Advisory college directors and subspecialty mentors will review the CV and personal statements used for residency application for the students to whom they are assigned.

6. Advisory colleges learning communities will arrange for educational sessions provided by experts on the interview process for residency and will hold mock interview sessions with immediate feedback to assist students with their interviewing skills.

7. The respective deans for medical education and for student affairs will hold 4th year planning meetings throughout the spring term of the M3 year.

8. Advisory college directors and the subspecialty mentors will advise on the selection of residencies and guide the student in evaluating individual programs.

9. The Registrar, Assistant Dean for Student Affairs, Administrative Director of the Advisory Colleges Learning Communities, Director of Student Affairs, and advisory college directors will assist students in navigating the ERAS system or other residency application services, where applicable.

10. All who advise students will counsel students to consider a sufficient number of residency programs to which to apply based on established data and assist in reevaluation of that number based on interviews granted.

11. The MSPE will conform to AAMC Guidelines and NRMP requirements. (see MSPE Policy)

12. The advisory college directors (ACD’s) Assistant Dean for Student Affairs, Administrative Director of the Advisory Colleges Learning Communities, and Director of Student Affairs will guide students in applying to residency programs through MATCH and other services, Supplemental Offer and Acceptance Program (SOAP) and post-SOAP.

13. A resource guide will be provided to all students who do not match to residency and the Office of Student Affairs and advisory college directors will assist the student with career planning.
Honor Code Policy

POLICY: Honor Code

PURPOSE: This code of behavior is designed to assist in the personal, intellectual and professional development of the medical student on the journey to becoming a physician and member of the medical community. All members of the medical community must be accountable to themselves and others.

SCOPE: This policy applies to all CMSRU medical students and visiting medical students.

DEFINITIONS: The objective of the Honor Code is to foster an environment of trust, responsibility, and professionalism among students and between students and faculty. Its fundamental goals are to promote ethical behavior, to ensure the integrity of the academic enterprise, and to develop in students a sense of responsibility to maintain the honor of the medical profession.

PROCEDURE: Students will abide by the CMSRU Honor Code which aims to foster an atmosphere of ethical and responsible behavior and to reinforce the importance of honesty and integrity in the examination process and throughout the medical school experience.

Student Responsibilities

Students will not:

- Give or receive aid during an examination.
- Give or receive unpermitted aid in assignments.
- Plagiarize any source in the preparation of academic papers or clinical presentations.
- Falsify any clinical report or experimental results.
- Infringe upon the rights of any other students to fair and equal access to educational materials.
- Violate any other commonly understood principles of academic honesty.
- Lie

No code can explicitly enumerate all conceivable instances of prohibited conduct. In situations where the boundaries of proper conduct are unclear, the student has the responsibility to seek clarification from the Office of Student Affairs and/or the Office of Medical Education.

Each student has the responsibility to participate in the enforcement of this Code. Failure to take appropriate action is in itself a violation of the Code.

The student must agree to participate in the enforcement of this Honor Code, and prior to matriculation, must sign a statement agreeing to uphold its principles while enrolled at Cooper Medical School of Rowan University.
Professional Appearance Policy

POLICY:
Professional Appearance Policy

PURPOSE:
This policy is part of the overall emphasis on the importance of professionalism and defines appropriate attire and appearance within that context.

SCOPE:
This policy applies to all CMSRU medical students and visiting medical students.

PROCEDURE:
This policy is based upon safety, concern for the patient, respect for others, an awareness of cultural competence, and the central importance of professionalism in medicine. Recent trends in clothing, body art, and body piercing may not be generally accepted by your patients. Students must adhere to guidelines surrounding professional appearance, as outlined. Clothing should be clean and neatly pressed. Note that CMSRU ID badges are to be worn at all times.

The following will outline the expectations of CMSRU in matters of professional appearance:

Phase I - During the majority of the first two years of the curriculum, students will spend time in lectures and small group activities where attire should be comfortable, neat and not distracting. Avoid dress or attire that could be perceived as offensive to others. During the WOW weeks, Ambulatory Clerkship, and when interfacing with patients at any Cooper University Health Care (CUHC) facility students must follow the Dress Code Policy of CUHC stated below.

Phase II - During the last two years, all students will adhere to the Dress Code Policy of Cooper University Health Care (8.604 Employee Relations-Employee Dress Code):

I. POLICY:
   A. It is the policy of Cooper University Health Care to establish standards of dress, grooming and personal appearance. Personal appearance should reflect a neat, professional, businesslike image and should be appropriate for the employee's work situation. While Cooper understands that dress and appearance are often a matter of personal taste, Cooper must be mindful of patient and employee safety as well as Cooper’s professional image. Therefore, Cooper maintains the right to establish and enforce standards of dress, grooming and appearance as dictated by business need, interactions with patients and other visitors. In addition to the traditional work setting, this policy applies to work related functions and events.

II. PURPOSE:
   A. To set forth the standards of appropriate dress, grooming, and appearance for employees and medical students.

III. PROCEDURE:
   Dress code guidelines may vary by department, job function and location. Department dress codes may be more restrictive. Cooper recognizes three (3) types of dress: business, business casual and uniforms. Management at all times reserves the right to take appropriate action toward any employee whose grooming or dress violates the letter or the spirit of this policy. Employees that appear for work inappropriately dressed will be sent home and directed to return to work in proper attire. Under such circumstances, employees will not be compensated for time away from work and disciplinary action may be taken.

   A. General Guidelines
1. The Cooper identification badge is required to be worn at collar level with employee name and photo facing forward and clearly visible at all times while working at any Cooper location. Badges must be free of obstacles so patients and others can view the employee’s picture, name and job title. Lanyards should not be used unless they have a mechanism to “break” in the back in the case of a safety issue. Lanyards must hang to allow visibility of the badge in the upper chest area. Lanyards that are longer than upper chest area are not permitted. When off duty, the ID badge cannot be worn at any Cooper location unless the employee is in compliance with the dress code.

2. All clothing should fit properly. Garments cannot be transparent, low cut at the neckline, or form fitting. Clothing should not be unduly revealing or cause distracting or disruptive attention or reaction on the part of others.

3. Dresses and skirts cannot be excessively short, no more than 4 inches above the knee. Dress/skirt slits must not be excessive.

4. Shirts/Blouses with lettering or graphics that advertise or promote a product or service or causes distracting attention or reaction on the part of others will not be permitted. Only shirts/blouses with Cooper logo or approved graphics or lettering are permitted.

5. Shoes must conform to safety and infection control standards by providing safe footing, protection against hazards, and be quiet for the comfort of patients. Examples of inappropriate footwear: canvas tennis shoes, sandals (i.e. open shoes with straps including heels and flats), swim or beachwear, and shoe covers. Leather sneakers may be worn only in direct patient care areas. Socks or stockings must be worn in areas where we deliver direct patient care. Footwear must be clean, polished and in good repair. Color and style of the shoes should be professional (neutral and/or in coordination with clothing). In patient care areas, including ambulatory sites, open-toe shoes are not acceptable. In non-patient care business areas, open-toe business style shoes are acceptable.

6. Hair, including facial hair, must be clean, neat, professional, and maintained in a manner that does not interfere with patient safety, infection prevention or equipment operation. Hair that is extreme or unnatural in appearance, style or color shall not be permitted. For purposes of safety, infection control, operation of equipment and personal protective equipment, facial hair must be of a reasonable length to enable the performance of job functions.

7. Fingernails must be clean and professional, and maintained. For purposes of safety, infection prevention, and operation of equipment, fingernails must be of a reasonable length for the performance of job functions. Employees having direct and indirect patient contact or come into contact with the patient environment may not have fingernails in excess of ¼ inch in length and may not wear artificial fingernails, which is inclusive of gel nail polish, wraps, acrylics, silks, etc. (Refer to 10.103 – Hand Hygiene Policy)

8. Tattoos must be modest and may need to be covered while at work in a manner that does not interfere with patient safety, infection control or equipment operation. Tattoos shall be prohibited if they contain nudity, foul language, gang symbols, convey an expression of hate, violate Cooper’s Harassment-Free Workplace Policy (See 8.615 Employee Relations - Workplace Harassment and/or are inconsistent with a professional environment.

9. Earrings can be worn on the ears and generally should be no larger than one inch in diameter. Ear piercing will be limited to a maximum of three (3) earrings per ear. Nose jewelry is discouraged and if worn, must be limited to one small stud no larger than three (3) millimeters in diameter. Pierced jewelry and rings are not permitted on any other visible body part (including but not limited to, eyebrows, lip and tongue). No ear gauges/expanders permitted.
10. Jewelry will be professional and kept to a minimum. Loose fitting jewelry that potentially poses safety issues is not permitted.

11. The wearing of Cooper issued buttons or pins on a uniform is to be kept to a minimum and cannot be attached to or conceal the Cooper identification badge.

12. Fragrances, perfumes, colognes, hair sprays, etc. should be kept to a minimum and may be prohibited if they pose a health concern to others.

13. Head coverings (hats, caps, scarves, etc.) may be worn as part of the uniform when authorized or when required by specific department standards or when required for safety or hygienic conditions. Employees whose religious, cultural or ethnic beliefs require head covering, or employees who have special needs, may request an exemption and such request will be given consideration for reasonable accommodation.

14. Sunglasses may not be worn indoors unless medically necessary.

15. The following are not considered appropriate dress:
   a. Denim clothing of all colors
   b. All types of shorts
   c. Leggings/Spandex pants (unless worn under an appropriate dress)
   d. Sweat jacket, pants, hoodie
   e. Sweat shirts
   f. Fleece jackets
   g. Athletic clothing
   h. Miniskirts
   i. Beachwear
   j. T-shirts
   k. Tank tops or spaghetti strap shirts
   l. Flashy, “loud” clothing
   m. Lingerie-like clothing
   n. Flip-flops/thong shoes
   o. Pool shoes

16. Employees who require accommodation for medical or religious reasons should contact Human Resources.

B. Guidelines for employees who provide direct patient care, have direct patient contact or who work in patient care areas:

1. Open toe shoes are not permitted. Heels must be of a reasonable height to perform assigned duties. Footwear is of sturdy construction, well fitted and maintained in good repair. Flexible, non-slip soles are recommended in work locations where use of liquids may increase the risk of falls.

2. Sleeveless shirts, blouses, and dresses are not permitted unless covered by a jacket or sweater.

3. Stockings or socks must be worn.

4. The length of pants/trousers must extend to the ankle.

5. When clothing is soiled with blood or body fluids, the clothes must be changed as soon as possible.

C. Guidelines for employees who do not provide direct patient care or do not have direct patient contact but may meet with or be seen by patients/visitors.
1. Open toe shoes are permitted. Heels must be of a reasonable height to perform assigned duties. Footwear is of sturdy construction, well fitted and maintained in good repair.

2. Sleeveless blouses and dresses are permitted.

3. Stockings or socks are optional.

4. The length of pants/trousers cannot be shorter than mid-calf.

D. Types of dress

1. Business Attire
   a. In order to meet the expectations of patients and their families, Cooper must project a professional, business-like image. Therefore, business attire is expected to be worn except where department specific dress requirements, casual business attire or uniforms apply as outlined in sections 2 and 3 below. Business attire includes such clothing as suits, ties, dresses, dress skirts and dress pants.

2. Business Casual Attire
   a. A more casual or relaxed dress code will be permitted during the summer and on Fridays. Business casual attire must still follow the guidelines outlined above and must be appropriate.

3. Uniforms
   a. Uniforms may be required in specific areas. They will constitute regular business attire when approved by management. Employees should consult with their individual Direct Supervisor for specific guidelines on uniforms. Scrub uniforms may be worn with Departmental approval. Denim like scrubs are not permitted. Uniforms owned by Cooper must be returned upon separation of employment.

V. RELATED POLICIES
   10.103– Hand Hygiene Policy
Professional Conduct Policy

POLICY:
Professional Conduct Policy

PURPOSE:
This policy is applied to student conduct relating to professional behavior while a student is enrolled at CMSRU. It is expected that every student will follow the tenets of professional behavior both in and out of the classroom. Professionalism is one of the CMSRU Core Competencies for students. It is also a code of behavior.

SCOPE:
Candidates for the Doctor of Medicine degree

DEFINITIONS:
Professionalism is broadly defined. It is expected that the tenets of professionalism will be applied beyond the elements of the curriculum. It is expected to be a way of life for the health care professional. Student behavior and actions that are considered unethical, unprofessional, or illegal will be considered by CMSRU in the overall evaluation and promotion of a student.

Core Competency: Professionalism: (as addressed and assessed within the curriculum) Students will demonstrate a commitment to the profession of medicine and its ethical principles.

- Demonstrate humanism, compassion, integrity, and respect for others
- Demonstrate a respect for patient confidentiality and autonomy
- Show responsiveness and personal accountability to patients, society and the practice of medicine
- Demonstrate the ability to respond to patient needs superseding self-interest
- Demonstrate sensitivity to broadly diverse patient populations
- Demonstrate the ability to recognize personal limitations and biases; know when and how to ask for help and do so effectively
- Demonstrate the ability to effectively advocate for the health and the needs of the patient
- Show an understanding of the principles of medical ethics
- Demonstrate the ability to recognize and address disparities in health care

Professionalism Intervention Reports
Professionalism is assessed in all four years of the medical education program. Accordingly, course and clerkship directors will evaluate each student’s professional attitudes and behaviors. Anyone may submit a written report describing any incident that might reflect either unprofessional action(s) or behavior or exceptional professionalism. The Professionalism Intervention Report forms are available in the student handbook and can also be accessed on CMSRU Blackboard, in the Student Resources/Student Affairs section.

Professionalism Report for Exemplary Behavior
This form may be filed by anyone, including another student, when an incident of exemplary professional behavior is noted involving a CMSRU student.

Retaliation
No student, faculty, resident, or staff member shall be subject to retaliation for filing a CMSRU Professionalism Intervention Report or participating in an investigation regarding a report of unprofessional behavior. CMSRU prohibits retaliation against a person who files a professionalism report or participates in the investigation of a professionalism complaint or has assisted others who raised a complaint of professionalism.
Hearing Body for Student Rights (HBSR)

The Hearing Body for Student Rights shall have the responsibility for hearing allegations of matters of professionalism for students, not related to a course or a clerkship, upon referral from the Director of Professionalism. The Hearing Body for Student Rights recommends whether or not to uphold the decision of the Director of Professionalism. Their recommendation goes to the executive cabinet, whose decision is binding. In addition, the Hearing Body for Student Rights shall hear appeals of decisions impacting individual students made by committees working under the supervision of the Office of Student Affairs. Their recommendation goes to the executive cabinet, whose decision is binding.

The Hearing Body for Student Rights shall consist of eleven members. Six members shall be from the faculty (three members elected and three members appointed by the Dean); two phase 2 students at the M3 level shall be elected by their peers; the M4 president of student government shall serve as a member; the CMSRU Ombudsman and one member of the Office of Student Affairs administration shall serve as ex-officio members. The term of office shall be three years, except where the member serves as an ex-officio member. Phase 2 students will serve a term of two years; the M4 SGA president shall serve one year. All student members must be in good academic standing as outlined in the Student Activities Policy. Meetings shall be convened by the Chair or on request of the Dean or any member of the Committee. The Hearing Body shall conduct all hearings and all deliberations in accordance with the policies of CMSRU.

GUIDELINES:

- By enrolling in CMSRU, a student accepts the professional standards of the school at all times.
- Each student must demonstrate appropriate standards of professional and ethical conduct, attitudes, and moral and personal attributes deemed necessary for the practice of medicine.
- These behavior traits include, but are not limited to: honesty; integrity; willingness to assume responsibility; strong interpersonal skills; compassion; good judgment; the absence of chemical dependency; and appropriate social, moral, and personal behavior.
- Failure to meet these standards and requirements may cause CMSRU to impose sanctions that may include, but are not limited to mandatory counseling, expulsion, disciplinary suspension, or lesser sanctions.
- Students may face disciplinary action by CMSRU if they abuse alcohol or drugs, consume illegal substances, or possess, distribute, or sell illegal substances.
- Students involved in criminal matters before local, state, or federal courts may be found to be unfit for the medical profession and be expelled by CMSRU or face lesser disciplinary sanctions.
- Students are expected to comply with the laws of the United States, the State of New Jersey, county, and city ordinances and the lawful direction and orders of the officers, faculty, and staff of CMSRU who are charged with the administration of institutional affairs.

PROCEDURE:

- Issues related to professionalism that relate to a course or clerkship are managed as per the Grading, Promotions and Appeals Policy (GPA).
- Issues related to professionalism that occur outside of the curriculum that are unrelated to a course or clerkship include, but are not limited to:
  - Unprofessional behavior at a CMSRU sponsored social event or activity;
  - Student to student mistreatment at social events or outside of CMSRU; and
  - Vandalism or theft of CMSRU/Cooper University Health Care (CUHC) property or at an affiliate hospital, physician practice, or ambulatory clinic.
- Issues related to professionalism that occur outside of the curriculum, including the filing of a Professionalism Intervention Report for Breach of Professional Conduct that is unrelated to a course or clerkship, will be managed as follows:
  - All matters will be reported to the Chief Student Affairs Officer (CSAO);
  - The CSAO will counsel the student and may refer the issue to the Director of Professionalism;
  - If the issue is referred to the Director of Professionalism, the student will be notified and a meeting will be scheduled with the student by the Director of Professionalism;
  - The Director of Professionalism will investigate the issue and may provide a
decision/remediation plan to the student directly. Remediation plans of the Director of Professionalism are not appealable;

- The Director of Professionalism may recommend to the Dean or designee that a student be placed on immediate leave for an issue related to professional behavior pending further investigation; and
- Depending on the severity and nature of the issue, the issue may be referred to the Academic Standing Committee (ASC) (Refer to GPA Policy: Probation – Non-Academic).

- If a student objects to the decision of the Director of Professionalism surrounding an issue that has been determined as not rectifiable by a remediation plan, or that has not been referred to the ASC, the student may appeal the decision to the Hearing Body for Student Rights. This request is made through the Director of Professionalism.
  - The Hearing Body for Student Rights will be convened at the request of the Director of Professionalism;
  - The student shall be given up to three business days’ notice of the time and place of the committee’s hearing;
  - At the discretion of the student making the appeal, one individual may accompany the student during the hearing in the capacity of advisor and/or advocate. The advisor/advocate does not have a “voice” at the hearing;
  - All other advocacy efforts must be in the form of written communications to the committee, and must be received by the committee no later than 24 hours preceding the time scheduled for the start of the appeals hearing;
  - The Chair will communicate the recommendation of the Hearing Body for Student Rights to the CMSRU Executive Cabinet within ten (10) business days. Decisions of the CMSRU Executive Cabinet are considered as final and are not subject to appeal. If a recommendation of the HBSR is dismissal, the executive cabinet will review and determine if the dismissal recommendation is appropriate. If appropriate, the student will be referred to the ASC; and
  - The Director of Professionalism will communicate the decision of the executive cabinet to the student.

- In addition, the Hearing Body for Student Rights shall hear appeals of decisions impacting individual students made by ad hoc committees working under their supervision of the Office of Student Affairs. Their recommendation is sent to the CMSRU Executive Cabinet for final decision.
  - The Hearing Body for Student Rights will be convened at the request of the Asst. Dean for Student Affairs (ADSA) or the Chief Student Affairs Officer (CSAO);
  - The student shall be given advance notice, up to three business (3) days, of the time and place of the committee’s hearing;
  - At the discretion of the student making the appeal, one individual may accompany the student during the hearing in the capacity of advisor and/or advocate. The advisor/advocate does not have a “voice” at the hearing;
  - All other advocacy efforts must be in the form of written communications to the committee, and must be received by the committee no later than 24 hours preceding the time scheduled for the start of the appeals hearing;
  - The chairperson will communicate the recommendation of the Hearing Body for Student Rights to the CMSRU Executive Cabinet and the Dean within ten (10) business days. Decisions of the CMSRU Executive Cabinet are final and not subject to appeal;
  - The decision of the executive cabinet shall be communicated verbally and in writing to the ADSA/CSAO within ten (10) business days; and
  - The ADSA/CSAO shall communicate the final decision to the student.
Statement of Principles

CMSRU Adheres to the Rowan University Statement of Principles

POLICY:
Statement of Principles

PURPOSE:
To articulate in one place the principles to which all parts of the University (CMSRU) - its trustees, administration, faculty, staff, students, employees, volunteers, and contractors – should aspire in their daily interactions. The Statement of Principles expresses our shared commitment to integrity in all of our actions while pursuing the University’s (CMSRU’s) mission – excellence in teaching, patient care, research, and public service through ethical conduct in the discharge of one's duties, responsibilities, and all other University (CMSRU) activities. All members of the University (CMSRU) community owe it to each other to adhere to these principles as well as applicable laws, regulations, and University (CMSRU) policies. This Statement does not address every possible situation; rather, it expresses in one place the core principles that we expect will guide the conduct of every member of the University (CMSRU) Community.

ACCOUNTABILITY:
Under the direction of the Chairperson of the Board of Trustees, the President, Provost, Executive Vice President for Administration and Strategic Advancement, Ethics Liaison Officer, Chief Compliance and Privacy Officer, and General Counsel, shall implement and encourage support for the Statement of Principles.

SCOPE:
These principles are intended to be observed by all members of the Board of Trustees, Officers (President and Vice Presidents), Deans, Academic Department Heads and Chairs, Faculty, Staff, Student Employees, and Volunteers (collectively, "University personnel") and to any contractor performing work or services on any Rowan campus or in any Rowan facility. For the purpose of this Statement, the term "University" applies to Rowan University (CMSRU) and all of its campuses, locations and operations.

Whenever a question arises concerning the relevance of this Statement for a particular action or situation, the advice of a direct supervisor, the General Counsel, Ethics Liaison Officer, and/or Chief Compliance and Privacy Officer should be sought as appropriate.

POLICY:

1. Basic Tenets:

The core values of Rowan are: Quality Education, Student Centeredness, Leadership, Engagement, Accountability, Team Work, Customer Focus, Inclusiveness, and Entrepreneurship. Accordingly, all parts of the University (CMSRU) community call on each of us to do our utmost to support, protect and defend that environment. In particular, the University (CMSRU) community encourages support for the following basic tenets:

- Commitment to the Student
- Respect for Academic Freedom
- Respect for Educational Mission
- Respect for Research Mission
- Individual Integrity, Responsibility, and Accountability
- Respect for Others and Preservation of a Respectful Workplace
- Respect for University (CMSRU) and State Resources
- Compliance with University (CMSRU), Federal and State Laws, Rules, Policies, and Regulations
- Compliance with New Jersey Conflict of Interest Laws and State Ethics Code
- Protection of Confidentiality and Privacy of Records
- Accuracy in Reporting
- Adherence to Internal Controls
- Fair Dealings in Agreements
- Protection from Retaliation

Commitment to the Student – University (CMSRU) personnel will encourage free pursuit of learning while respecting both the students' rights to form their own views, and the diversity of cultures, backgrounds, and perspectives of our students. University (CMSRU) personnel will deal justly and considerately with each student. University (CMSRU) personnel will avoid exploitation of students for private advantage while respecting the confidential nature of the relationship between the professor/staff member and student. University (CMSRU) personnel will provide recognition and acknowledgement of significant contributions by students. When necessary, University (CMSRU) personnel will share information about students' educational needs with appropriate individuals within the parameters of applicable privacy laws and policies.

Respect for Academic Freedom – The free exchange of ideas on campus is essential to quality education and research. To achieve its potential, the University (CMSRU) must provide academic freedom and a 'safe haven' to all, allowing inquiry and ensuring spaces where students and scholars can create new knowledge and challenge conventional wisdom in any field—art, science, religion, politics and others—without fear of reprisal.

Respect for Educational Mission – The University (CMSRU) must remain committed to providing high quality academic services in accordance with all laws, regulations, program requirements and academic accreditation standards, and to the accurate representation of credentials and requirements for admission and graduation.

Respect for Research Mission – Affiliated researchers shall conduct their research with integrity, intellectual honesty, and appropriate respect for human and animal subjects. All research involving human subjects is subject to approval by an Institutional Review Board. All research involving non-human vertebrate animal subjects must be approved by the Institutional Animal Care and Use Committees. All such research shall remain in compliance with all conditions imposed by the respective committee. Research must be conducted for the advancement of knowledge while meeting the highest standards of honesty, accuracy, and objectivity. Researchers are obligated to demonstrate accountability for the funds of sponsors and payers while remaining in total compliance with specific terms and conditions of contracts and grants.
Individual Integrity, Responsibility and Accountability – The relationship between students and University (CMSRU) personnel shall reflect an environment that focuses on education, professionalism, integrity, honor, and ethical conduct. To that end, the University (CMSRU) will not permit behavior that improperly interferes with the learning environment, including harassment, discrimination and violence, including but not limited to arrangements having real or perceived power (e.g., faculty/coach-student, supervisor-supervisee, healthcare provider/patient). With respect to confidentiality, University (CMSRU) personnel must follow all rules and regulations as outlined in the Family Educational Rights and Privacy Act (FERPA).

Respect for Others and Preservation of a Respectful Workplace – The University (CMSRU) is committed to maintaining an environment of respect and inclusivity. Our community must and will have zero tolerance for illegal discrimination. All University (CMSRU) personnel should adhere to the basic principles of honesty, professionalism, integrity, and ethical standards, and must adhere to the maintenance of a workplace devoid of hostility and harassment.

Rowan University (CMSRU) promotes a diverse community that begins with students, faculty, administration and staff who respect each other and value each other's dignity. By identifying and removing barriers and fostering individual potential, Rowan will cultivate a community where all members can learn and grow. The Rowan University (CMSRU) community is committed to a safe environment that encourages intellectual, academic, and social interaction and engagement across multiple intersections of identities. At Rowan University (CMSRU), creating and maintaining a caring community that embraces diversity in its broadest sense is among the highest priorities.

Respect for University (CMSRU) and State Resources – University (CMSRU) personnel shall use all University (CMSRU) equipment and facilities efficiently, economically, and for authorized University (CMSRU) purposes only in accordance with University (CMSRU) policy and State law.

Compliance with University (CMSRU), Federal and State Laws, Rules, Policies and Regulations – All University (CMSRU) personnel should do their best to act in compliance with all applicable federal and state laws, rules, and regulations as well as University (CMSRU) policies, procedures, agreements, and guidelines.

Compliance with New Jersey Conflict of Interest Laws and State Ethics Code – All University (CMSRU) personnel must comply with the State of New Jersey Conflict of Interest Laws, State of New Jersey Ethics Guidelines, and University (CMSRU) policies to avoid actual or perceived conflicts (including their personal and/or financial interests) and, in situations where they might arise or do exist, to disclose them immediately and to participate no further in them unless and until approved by the appropriate Rowan New Jersey Ethics Liaison Officer or his/her designee.

Protection of Confidentiality and Privacy of Records – University (CMSRU) personnel with access to confidential information, including but not limited to Protected Health Information under the Health Insurance Portability and Accountability Act (HIPAA) as well as confidential student information under the Family Educational Rights and Privacy Act (FERPA), shall maintain the confidentiality and privacy of that information to protect all parties, to include written and oral communication.

Accuracy of Reporting – All University (CMSRU) records, including student records, accounting and financial records, expense reports, medical records, time sheets and effort reports, admission, retention, and graduation data, and other documents, including any submitted to or subject to possible review by government agencies, must be accurate, clear and complete in accordance with generally acceptable accounting principles, government entities, bond covenant agreements, and other requirements.

Adherence to Internal Controls – Internal control comprises the plans, methods, and procedures used to meet the University’s (CMSRU’s) mission, goals, and objectives. To this end, all business units or department heads are specifically responsible for ensuring that internal controls are established, properly documented, and maintained for
activities within their jurisdiction and followed. Any person entrusted with funds, including principal investigators, is responsible for ensuring that adequate internal controls exist over the use and accountability of such funds.

**Fair Dealings in Agreements** – University (CMSRU) policies governing procurement, including public bidding requirements and New Jersey laws where applicable, must be followed insofar as vendors, potential vendors, excluded individuals or companies when obtaining goods and/or services. At all times federal and state laws must be followed relating to anti-referral and anti-kickback arrangements while adhering to the highest ethical standards in regards to business arrangements for selection, negotiation, determination of awards, and the administration of all purchasing activities. Persons affiliated with the University (CMSRU) have an obligation to be honest and consistent in all marketing and advertising practices, must adhere to fair business practices, and must honor the spirit as well as the specific language of these laws.

**Protection from Retaliation** – People who make reports of suspected violations of this Statement, or of any policy, regulation, rule, or law, in good faith and in the ways expected of them, are acting to protect our special community. As such, we all owe them the commitment that we will not punish them in any way for doing so, and will comply with all policies protecting them from retaliation.

2. **Tenets Specific to RowanSOM and CMSRU**
   In addition to the tenets expressed above, we also are committed to these tenets in the context of providing health care:
   - Respect for Clinical Mission
   - Compliance with all State and Federal Healthcare Program Statutes, Regulations, directives, and guidelines

   **Respect for Clinical Mission** – The RowanSOM and CMSRU Clinical Communities must remain committed to providing high quality health care in a manner that is appropriate, medically necessary, and efficient, in accordance with current medical and ethical standards to include the obligation to provide medical screening exams or emergency care consistent with all applicable laws while displaying total respect for patient rights regarding choice of care and/or refusal of treatment.

   **Full Compliance with all state and federal healthcare program statutes, regulations, directives and guidelines** – Federal and State health care programs, Medicare, and Medicaid require RowanSOM and CMSRU to comply with all applicable statutes, regulations, directives, and guidelines. This also includes the rules of Medicare fiscal intermediaries or carriers, RowanSOM and CMSRU policies and procedures, and any agreements that RowanSOM and CMSRU may enter into with state or federal organizations or regulatory agencies. Persons affiliated with RowanSOM and CMSRU may be required to attest to their compliance with federal and state rules and regulations as failure to fully comply could jeopardize participation in said healthcare programs. RowanSOM and CMSRU will not conduct business with any individual or entity currently excluded by the Office of Inspector General (OIG) and/or General Service Administration (GSA) and, to this end, persons affiliated with RowanSOM and who perform healthcare services (including administrative services) are subject to periodic background checks.

3. The University (CMSRU) community shall always strive to create and sustain a culture in which ethical conduct is recognized, respected, and promoted on all levels. University (CMSRU) core values include a commitment to diversity, personal mentorship, professionalism, collaboration and mutual respect, civic responsibility, patient advocacy, and life-long learning.

   **Note:** The foregoing Statement of Principles is expressly intended to be aspirational. It is not intended to be enforceable by the University (CMSRU) through any adverse personnel action.
Student Activities Policy

POLICY:
Student Activities Policy

PURPOSE:
To establish guidelines for school-associated extracurricular activities that students will engage in. CMSRU recognizes the importance of extra-curricular involvement. Student participation in CMSRU clubs and organizations and other school sanctioned activities, can aid in career choices, as well assist in achieving personal goals. Participation in the clubs, organizations, and activities should not be such that the time spent interferes with the academic success of a student.

SCOPE:
This policy only applies to the academic year and is not meant to direct activities during vacation periods. For the purposes of this policy, a full-time student is defined as one who is enrolled in traditional curricular sequence or in an Independent Study Plan (ISP). Students taking a leave of absence are not permitted to participate in student activities. CMSRU reserves the right to determine student eligibility for all student activities.

DEFINITIONS:
1. Activity - This would include physician shadowing, research, and related experiences that are generally such that one student is involved.
2. Clubs/Organizations - This includes current groups organized through Rowan University and Cooper University Hospital that CMSRU students may elect to become members of, as well as the development of new clubs and organizations by students in association with CMSRU faculty and/or the house staff of Cooper University Hospital.

PROCEDURE:
1. First year students may participate in clubs and activities beginning in November of M1 year.
2. A student may participate in leadership positions of clubs/organizations and be eligible for SGA elections and CMSRU committees only if the student:
   a. is in good academic standing; and
   b. is making satisfactory academic progress;
   c. has not failed any course or clerkship in the current academic year, irrespective of remediation;
   d. is not currently remediating a USMLE failure; and
   e. has not been sanctioned by the Academic Standing Committee (ASC) for a Professionalism violation in the current academic year; and
   f. has not completed their required professionalism remediation, as per the Director of Professionalism or the Executive Cabinet.
3. If you are seeking an elected position, you must receive prior approval from the Assistant Dean for Student Affairs or the Chief Student Affairs Officer (CSAO).
4. The Office of Student Affairs and the Office of Diversity and Community Affairs will offer:
   a. their resources when possible to support the development of clubs and organizations, especially those linked to national organizations;
b. all meetings and activities of clubs and organizations will be scheduled through appropriate processes. Club
officers shall take into consideration dates of religious observances when scheduling meetings and activities;

c. all materials presented by a club/organization must be approved by the respective faculty advisor of the
organization. Students must also complete an event request form to request permission to participate in a
school sponsored event. (Student Event Request Form); and

d. CMSRU may approve, deny or reschedule any student activity due to unforeseen scheduling conflicts,
CMSRU educational programming requirements or CMSRU facilities and/or physical space needs. All efforts
will be made to minimize disruptions to previously scheduled student activities.

NOTE: Activities such as physician shadowing that involves patient care or contact must be at an approved site and with a
member of our faculty.
Student Code of Conduct

CMSRU Adheres to the Rowan University Student Code of Conduct

POLICY:
Student Code of Conduct

PURPOSE:
The Student Code of Conduct exists to notify students, faculty, and staff of the specific expectations Rowan University (CMSRU) holds related to student behavior and the rights and responsibilities that accompany being a student and participating in student clubs or organizations.

ACCOUNTABILITY:
Under the direction of the President, the Vice President for Student Affairs shall implement and ensure compliance with this policy.

SCOPE:
This policy is applicable to all students of Rowan University (CMSRU).

DEFINITIONS:
See Attachment 1 – Definitions

REFERENCES
1. RowanSOM Student Responsibilities, Rights and Disciplinary Procedures
2. Honor Code and Professional Conduct sections of the [Cooper Medical School of Rowan University] Student Handbook
3. Student Handbook [Graduate School of Biomedical Sciences]

POLICY:
Rowan University (CMSRU) is an academic community and as such the University (CMSRU) has instituted a Student Code of Conduct to set forth the standards and expectations that are consistent with its purpose as an educational institution. The University (CMSRU) reaffirms the principle of student freedom, coupled with an acceptance of full responsibility for one's behavior and the consequences of such behavior. Rowan University (CMSRU) recognizes the rights of its students guaranteed by the Constitutions of the United States and the State of New Jersey, which include a student's rights within the institution to freedom of speech, expression, inquiry, assembly, peaceful pursuit of an education, reasonable use of services and facilities of the University (CMSRU) and the presumption of innocence.

This Code of Conduct applies equally to all Rowan (CMSRU) students regardless of their race, color, age, physical/mental disability, veteran status, religion or creed, citizenship, national origin or ancestry, sex, gender identity, gender expression, affectional or sexual orientation. This Code of Conduct covers all female, male, gender non-conforming, and transgender students.

Rowan University (CMSRU) promotes a diverse community that begins with students, faculty, staff and administration who respect each other and value each other’s dignity. By identifying and removing barriers and fostering individual potential, Rowan will cultivate a community where all members can learn and grow. The Rowan University (CMSRU) community is committed to a safe environment that encourages intellectual, academic, and social interaction and engagement across multiple intersections of identities. At Rowan University (CMSRU), creating and maintaining a caring community that embraces diversity in its broadest sense is among the highest priorities.

Rowan University (CMSRU) is committed to addressing persistent issues related to diversity, equity and inclusion that result in positive outcomes for students, faculty, and staff.
While it is the goal of the disciplinary process to educate students as to the purpose and importance of abiding by the Student Code of Conduct, the University (CMSRU) will also issue sanctions as are appropriate and necessary to ensure continued and/or future adherence to this Code, and to protect the University (CMSRU) community from disruptive behavior.

In addition to the Code, students must also recognize and comply with the standards of classroom behavior as stated in their individual course syllabi. This document and supporting materials have been developed to guarantee procedural fairness to students when there has been an alleged failure to abide by Rowan University’s (CMSRU’s) policies and regulations. Procedures may vary in formality given the gravity and nature of the offense and the sanctions that may be applied. Each student is responsible for reading and complying with the Student Code of Conduct.

1. Authority
   a. The Associate Vice President for Student Affairs and Dean of Students and his/her designees have the responsibility for maintaining and implementing the Student Code of Conduct. In a situation where a student's health or safety is/was seriously endangered the Associate Vice President for Student Affairs and Dean of Students or his/her designees will make every attempt to notify the student's parent/guardian (as appropriate) as soon as possible.

2. Violation of Law and University (CMSRU) Discipline
   a. Students may be accountable to both the University (CMSRU) and to civil authorities for acts which violate the Student Code of Conduct. Disciplinary action at the University (CMSRU) will normally proceed during the pendency of criminal proceedings. The University (CMSRU) reserves the right to reach its own determination on violations of this Code independently of the outcome of any civil or criminal proceedings.

3. Conduct Rules
   a. Individual students and student organizations are expected to abide by the Conduct Rules and Regulations (see Attachment 3), and administrators are expected to enforce them. Additional rules and regulations may be promulgated during the year; announcements will be made upon adoption of the changes or additions. Attempting, abetting, or being an accessory to any act prohibited by the Student Code of Conduct will be considered the same as a completed violation.

4. Rowan Global Students
   a. Rowan students in online or hybrid courses must also meet the "conduct" expectations as listed at www.rowanonline.com. Students participating in off-site Rowan Global Extension programs will also be expected to follow the guidelines provided by that facility. Questions should be directed to the Office of the Associate Director, Office of Graduate Studies, Division of Global Learning & Partnerships at global@rowan.edu.

5. Violation Levels
   a. Violations of the Student Code of Conduct are generally grouped into three levels based upon their magnitude or seriousness. Multiple violations or the severity of a single violation may increase the given sanction. Some acts of misconduct may fall within two or more standards of the Student Code of Conduct. In such cases, the University (CMSRU) has the right to impose all of the sanctions available for all of the violations.
   i. Level One violations are generally a breach of the Student Code of Conduct which adversely affect a smaller community.
   ii. Level Two violations generally are breaches of the Student Code of Conduct which are more serious and adversely affect the Rowan (CMSRU) community at-large (including repeated Level One violations).
   iii. Level Three violations generally are breaches of the Student Code of Conduct which include threatening statements and/or behavior and unwanted contact that may compromise the health and safety of the Rowan University (CMSRU) community at large or individuals, specifically (including repeated Level Two violations).

6. Appeals
a. Upon receiving notification of the outcome of a case, the accused student, Complainant, victim (in cases of "sex offenses" or "crimes of violence) or the Associate Vice President for Student Affairs and Dean of Students or designee (in Campus Hearing Board cases) may file an appeal as outlined in Attachment 9. The appeals process described will be the final step in the discipline process and constitutes final agency action.

7. Procedures for Interim Suspension of Course participation, presence on Campus or Residence Areas and participation in University (CMSRU) Related Activities

   a. A student may be suspended from continuing participation in coursework, being present on the campus or in campus residence areas or from participation in University (CMSRU) related activities for an interim period pending a disciplinary hearing; the interim suspension is effective immediately without prior notice whenever there is evidence that the continued presence of the student on the campus may pose a substantial threat to others in the University (CMSRU) or to the stability and/or continuance of normal University (CMSRU) functions. (Refer to Attachment 10)

8. Conduct Code Violations' Effect upon Graduation

   a. A student found responsible for violations of the Code, which could have led to expulsion or suspension had s/he remained a registered student at the University (CMSRU) and who has otherwise satisfied the University’s (CMSRU’s) published requirements for graduation, may have the awarding of his/her degree postponed to a future date or permanently withheld. A student whose graduation is postponed or permanently withheld may also be refused a copy of his/her official transcript and cannot have it sent to others during the period of his/her sanction. In cases where graduation is delayed due to pending charges, cases normally will be adjudicated within as short a period of time as is practicable.

9. Release of Disciplinary Record Information

   a. In accordance with current guidelines established in the Family Educational Rights and Privacy Act (FERPA) and implemented by Rowan University (CMSRU), the record of most disciplinary proceeding's findings is not open to the public or disclosure to a third party without the consent of the individual student.

      i. The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, the N.J. Sexual Assault Victim's Bill of Rights, and/or 34 CFR 668.47(a)(12) (vi) and the Violence Against Women Act of 1994 (42 U.S.C 13925 (a)) does permit the disclosure of campus discipline system findings to victims of "sex offenses" (including non-forcible ones) or "crimes of violence." In addition, FERPA permits, once all appeals are exhausted, the final results of campus disciplinary hearings for crimes of violence and forcible and non-forcible sex offenses to be publicly disclosed, including the name of the accused held responsible and the nature of the offense.

      ii. Parents or guardians may be notified for cases involving crimes of violence and forcible and non-forcible sex offenses and in certain cases involving violations of campus drug or alcohol regulations, when the student is a dependent (as defined in Section 152 of the Internal Revenue Code of 1986) or when the Associate Vice President for Student Affairs and Dean of Students or designee deems the matter to have been a health or safety emergency. Complainants in other kinds of cases will be notified about case adjudication and sanctions imposed if, in the Associate Vice President for Student Affairs and Dean of Students’ or designee's opinion, such disclosure is necessary to protect the safety of the complainant or of other members of the University (CMSRU) community.

      iii. If FERPA or other pertinent regulations change, the students involved will be notified before a hearing is held. Information regarding FERPA and the disclosure of information can be found on the Office of the University Registrar website at rowan.edu/provost/registrar/ferpa.html (CMSRU registrar website: https://cmsru.rowan.edu/students/registrar/)

      iv. The Office of Community Standards does not maintain or release police reports. Any request for a police report associated with a disciplinary case must be made to the issuing police department.

10. Record Keeping

   a. The Office of Community Standards will maintain student disciplinary files, which contain all necessary and appropriate correspondence, Hearing Officer, Campus Hearing Board, and appeal decisions as well as other documentation pertinent to any cases for which a student was found responsible for a violation of the Student
Code of Conduct. Records of cases that are designated as "pending" will also be maintained. Student disciplinary files will be maintained as follows:

i. Disciplinary records will normally be maintained for a period of seven years after the last year of the student's attendance at the University (CMSRU); and

ii. The disciplinary records of students who were Suspended or Expelled will be maintained indefinitely.

11. Timelines
   a. All times set in the Student Code of Conduct may be extended by the University (CMSRU), for good cause. Reasonable extensions will be determined by the Associate Vice President for Student Affairs and Dean of Students or designee.

12. Interpretation and Revision
   a. Any question of interpretation regarding the Student Code of Conduct will be referred to the Associate Vice President for Student Affairs and Dean of Students or designee for final determination. The Student Code of Conduct may be periodically reviewed and amended as necessary under the direction of the Associate Vice President for Student Affairs and Dean of Students or designee.

ATTACHMENTS

1. Attachment 1 - Definitions
2. Attachment 2 - Complaints Against Students, Student Groups and Non-Students
3. Attachment 3 - Conduct Rules
4. Attachment 4 - Disciplinary Procedures
5. Attachment 5 - Campus Hearing Board
6. Attachment 6 - Rights In All Disciplinary Hearings
7. Attachment 7 - Sanctions
8. Attachment 8 - Application of Standard Sanctions
9. Attachment 9 - Appeals
10. Attachment 10 - Procedures for Interim Suspension of Course participation, presence on Campus or Residence Areas and participation in University Related Activities
Attachment 1 - Definitions

1. **Administrative Hearing Officer** refers to a University official designated by the Associate Vice President for Student Affairs and Dean of Students (or designee) to hold a hearing to determine whether a student has violated the Student Code of Conduct and, if so, to impose sanctions.

2. **Campus Appeals Officer/Board/Sexual Misconduct Appeals Board** refers to the person or groups of persons authorized by the Associate Vice President for Student Affairs and Dean of Students to consider an appeal from a hearing officer/hearing board’s determination that a student has violated the Student Code of Conduct or from the sanctions imposed.

3. **Campus Hearing Board/Sexual Misconduct Hearing Board** refers to groups of persons designated by the Associate Vice President for Student Affairs and Dean of Students (or designee) to determine whether a student has violated the Student Code of Conduct and, if so, to impose sanctions.

4. **Crimes of Violence** refers to a set of crimes which includes arson, aggravated assault, simple assault, intimidation), burglary, negligent manslaughter, non-negligent manslaughter, destruction of property, kidnapping, robbery domestic violence, dating violence, and stalking.

5. **Faculty Member** means any person hired by the University (CMSRU) to conduct classroom or teaching activities or who is otherwise considered by the University (CMSRU) to be a member of its faculty.

6. **May** is to be deemed permissive, imparting a choice.

7. **Member of the University (CMSRU) Community** includes any person who is a student, faculty member, University (CMSRU) official, or any other person employed by the University (CMSRU). A person’s status in a particular situation will be determined by the Associate Vice President for Student Affairs and Dean of Students.

8. **Organization** means any number of persons who have complied with the formal requirements for University (CMSRU) recognition. This term also applies to persons involved in petitioning for recognition. (Greek Letter Organizations are also subject to the disciplinary procedures outlined in the Greek Handbook.)

9. **Sex Offenses** refers to a set of crimes which includes forcible rape, forcible sodomy, sexual assault with an object, forcible fondling, incest, and statutory rape.

10. **Special Interim Hearing Board** refers to a group of persons designated by the Associate Vice President for Student Affairs and Dean of Students (or designee) to determine whether a student has violated the Student Code of Conduct and, if so, to impose sanctions when a Campus Hearing Board cannot convene.

11. **Student** includes all persons enrolled in courses at Rowan University (CMSRU), both full-time and part-time, pursuing undergraduate or graduate studies, and those who live in campus living units. Persons who are not officially enrolled for a particular term but who have a continuing relationship with the University (CMSRU), such as students who were previously enrolled, withdraw/take a leave of absence, persons participating in University (CMSRU) sponsored academic programs and students who are serving a period of suspension, are considered "students."

12. **University (CMSRU)** means Rowan University (CMSRU).

13. **University (CMSRU) Official** includes any person employed by Rowan University (CMSRU), performing assigned administrative or professional responsibilities.

14. **University (CMSRU) Premises** includes all land, buildings, facilities, and other property in the possession of or owned, used, or controlled by Rowan University (CMSRU), including adjacent streets and sidewalks.

15. **University (CMSRU)-Sponsored/Affiliated Event** means any activity on or off campus, which is initiated, aided, funded, or supervised by the University (CMSRU) or the Student Government Association.
16. *Will* is to be used in the imperative sense, not imparting a choice.

17. *Witness* refers to a person who has personal knowledge of the incident in question.
Attachment 2 - Complaints Against Students, Student Groups and Non-Students

1. Complaints Against Students
   a. The Student Code of Conduct applies to all undergraduate and graduate students from the time they accept admission to Rowan University (CMSRU) through the date of their graduation. This includes, but is not limited to: new students at Orientation and the Pre-College Institute, persons not currently enrolled but who are still seeking a degree from Rowan, and any other person enrolled in a credit earning course offered by Rowan University (CMSRU).
   b. The Student Code of Conduct also applies to any person who has graduated if the University (CMSRU) determines that his/her graduation or receipt of credit may involve misconduct while he/she was working toward a degree (in such cases, degree revocation may be a sanction).
   c. Adjudication of any alleged violation will continue even if a student takes a leave of absence or withdraws. Discipline may be imposed on students for conduct which occurs on University (CMSRU) premises, in or out of the classroom setting, while using University (CMSRU) technology, at off-campus University (CMSRU) affiliated events where students are representing the University (CMSRU). A University (CMSRU) affiliated event is defined as an off-campus gathering of members of the Rowan University (CMSRU) community (and/or their guests) which is sponsored or funded in whole or in part by Rowan University (CMSRU).
   d. Private off-campus events which are not sponsored or funded by Rowan University (CMSRU) will also be subject to the University (CMSRU) discipline system if the conduct violates University (CMSRU) regulations or local, state, or federal law, or when the University (CMSRU) determines that the conduct has a direct impact on the educational mission and interests of the University (CMSRU) and/or the safety and welfare of the University (CMSRU) community.
   e. The University (CMSRU) reserves the right to hold a student responsible for actions at their residence even if they were not present at the time of the incident. In such a case, the student would be required to produce confirming evidence that s/he was not involved.
   f. The Student Code of Conduct may also be applied to conduct online and via email or other electronic media. Students/Organizations should be aware that online postings such as blogs, web postings, chats and social networking sites are in the public sphere and are not Online postings that indicate possible misconduct may subject a student and/or organization to allegations of conduct violations except for cases in which a member of the University (CMSRU) community is legally exercising their First Amendment rights.

2. Complaints Against Student Groups
   a. Members of recognized and unrecognized student organizations, groups and teams may be charged as an organization and/or individually with violation(s) of the Student Code of Conduct. The organization/group/team will be represented by the president or identifiable spokesperson in any disciplinary hearing. (Greek Organizations charged with a violation of the Code are also subject to the procedures outlined in the Greek Handbook.)

3. Complaints Against Non-Students
   a. Persons who are not students but who violate Federal, State, or local laws, or University (CMSRU) regulations while on campus may be subject to arrest, immediately banned and/or may have their campus visitation privileges limited or revoked. University (CMSRU) officials may file criminal charges against guests or other visitors who violate laws while on campus. Campus hosts may be held responsible for their guests' behavior. Non-students who are banned from the campus have the right to appeal that determination by writing to the Assistant Vice President for Public Safety & Emergency Management.
Attachment 3 - Conduct Rules

Individual students and student organizations are expected to abide by the following rules and regulations, and administrators are expected to enforce them. Additional rules and regulations may be promulgated during the year; announcements will be made upon adoption of the changes or additions. Attempting, abetting, or being an accessory to any act prohibited by the Student Code of Conduct will be considered the same as a completed violation.

1. Violating promulgated University (CMSRU) rules, regulations and policies, whether on or off campus.

2. Engaging in academic dishonesty including cheating (including the use of unacknowledged academic sources), fabrication, facilitating academic dishonesty, and plagiarism. (Students charged with a violation of this section of the Code are subject to the procedures outlined in the Academic Integrity Policy.

3. Furnishing false information to any University (CMSRU) Official or Faculty member.

4. Forging, altering, or misusing University (CMSRU) documents, records, identification cards, other official University (CMSRU) database files, or other misuse or abuse of the University’s (CMSRU's) computerized systems (See also "Acceptable Use of Network and System Services policy").

5. Engaging in disruptive activity which substantially disrupts or poses a tenable threat of disrupting teaching, research, administration, disciplinary procedures, public service functions, or other University (CMSRU)-authorized activities, or which substantially interferes with the rights of others, on University (CMSRU) premises (See also "Free Speech and Peaceful Assembly policy").

6. Obtaining property under false pretenses, knowingly possessing or receiving stolen property, destroying, damaging, or threatening to destroy or damage property of the state, a member of the University (CMSRU) community, or any person on the campus.

7. Engaging in physical violence, threats, harassment, intimidation, bullying, stalking, coercion, and/or other conduct which threatens or endangers the health or safety of any person (See also "Hazing policy"). Harassment, intimidation, or bullying include any gesture, any written, verbal or physical act, or any electronic communication, whether it be a single incident or a series of incidents, that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical, or sensory disability, or by any other distinguishing characteristic, or any other class protected under the New Jersey Law Against Discrimination, N.J.S.A. 10:5-1 et. seq. that takes place on Rowan University (CMSRU) property or at any function affiliated/sponsored by Rowan University (CMSRU) that substantially disrupts or interferes with the orderly operation of the University (CMSRU) or the rights of other students and is not otherwise protected by the Constitutions of the United States and the State of New Jersey and that:

a. reasonable person should know, under the circumstances, what will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his person or damage to his property;

b. has the effect of insulting or demeaning any student or group of students in such a way as to cause disruption in, or interference with, the orderly operation of the University (CMSRU); or

c. creates a hostile educational environment for the student at the University (CMSRU); or

d. infringes on the rights of the student at the University (CMSRU) by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

8. Committing any act of sexual misconduct or committing any act of sexual contact under circumstances of physical force, intimidation or any other nonconsensual circumstance (See also "Student Sexual Misconduct and Harassment Policy").
9. Behaving in a manner that constitutes an invasion or violation of an individual's rights to privacy. Examples of prohibited behaviors that might be found to violate this provision include, but are not limited to: harassing or terroristic threats, stalking, unauthorized surveillance, imposing physical or mental restraints on another person, or engaging in obscene verbal or written communications, or verbally confronting a person using obscenities or fighting words likely to incite immediate physical altercation.

10. Possessing, consuming, and/or distributing, or attempting to distribute alcoholic beverages in contravention of federal, state or local laws, or University (CMSRU) regulations, or knowingly being present at the time of the prohibited conduct (See also Alcohol and Other Drugs Policy).

11. Possessing, using, manufacturing, distributing, or attempting to distribute narcotics, dangerous drugs, controlled dangerous substances, or drug paraphernalia that are prohibited by federal, state or local laws, or University (CMSRU) policies, or knowingly being present at the time of the prohibited conduct (See also Alcohol and Other Drugs Policy).

12. Possessing or using a firearm, explosive, dangerous chemical, or other dangerous weapon in contravention of federal, state or local laws, or University (CMSRU) policies and procedures.

13. Causing noise or a disturbance. Exhibiting disorderly, lewd, indecent, or obscene conduct or exhibitionism.

14. Using the University’s (CMSRU's) name, logo, finances, materials, and supplies (including letter templates or stationery bearing the University’s/CMSRU’s letterhead), or facilities (including computer facilities) for commercial, personal or political purposes without authorization.

15. Refusing or failing to comply with a request, directive, or order from a University (CMSRU) official, including Public Safety officers, members of the University (CMSRU) administrative staff or other authorized persons acting in the performance of their official duties and responsibilities.

16. Entering into and/or using of University (CMSRU) facilities/equipment, including but not limited to the residential facilities, library, athletic facilities and equipment, galleries, classrooms, computers, or confidential files without authorization.

17. Engaging in off-campus actions and/or behaviors that violate laws and regulations of federal, state, and local agencies, as well as policies of the University (CMSRU).

18. Abusing the Student Discipline system, including but not limited to, noncompliance with a disciplinary sanction, falsification of information, and disruption of a hearing.

19. Using information and communication technologies including, e-mail, voicemail, telephones, cell phones, text or electronic messaging, web- cameras, or websites to engage in harassment, intimidation, bullying (as defined in #7 above), stalking (as defined in the Student Sexual Misconduct and Harassment Policy), or in any behavior which violates the law, University (CMSRU) policies or the Student Code of Conduct.

20. Initiating behavior that violates the law, University (CMSRU) policies, or the Student Code of Conduct and placing evidence of that behavior on a public website or other public medium.
Attachment 4 - Disciplinary Procedures

Each campus will establish its student disciplinary procedures.

Rowan University School of Osteopathic Medicine.
Disciplinary procedures are found in the Student Rights, Responsibilities and Disciplinary Procedures section of the Education Handbook. Please consult the Rowan University School of Osteopathic Medicine website (http://www.rowan.edu/som/education/student_affairs/).

Cooper Medical School of Rowan University
Disciplinary procedures are found in the Honor Code and Professional Conduct sections of the [Cooper Medical School of Rowan University] Student Handbook. Please consult the Cooper Medical School of Rowan University website (http://www.rowan.edu/coopermed/students/student_affairs/).

Rowan University Graduate School of Biomedical Sciences
Disciplinary procedures are found in the Student Rights, Responsibilities and Disciplinary Procedures section of the Student Handbook. Please consult the Rowan University Graduate School of Biomedical Sciences website (https://www.rowan.edu/gsbs/current/handbook.php)

Rowan University - Glassboro Campus

1. Filing a Complaint –
Complaints against students/organizations may be made by any student, employee, or guest of the University who feels the Student Code of Conduct has been violated. A complaint must be made in writing to the Office of Community Standards, (Chamberlain Student Center, Suite 210) within a reasonable amount of time after the occurrence. This will normally be construed to mean within 30 calendar days, unless unusual circumstances exist or it is an alleged crime that the University must report under the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The “Community Standards Referral Form” can be accessed at https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=6. The complaint should include as much detail concerning the alleged violation as possible and include the specific reference to the part of the Student Code of Conduct the complainant feels has been violated. The University reserves the right to investigate any reported incident, including those alleging biased behavior. Perceived criminal activity should be reported immediately to Public Safety, which will submit its report of a student violation to the Office of Community Standards. Whenever a complaint provides evidence that the continued presence of the accused student on the campus may pose a substantial threat to herself/himself, others in the University, or to the stability and/or continuance of normal University functions the University reserves the right to impose an interim suspension from classes, residence areas, or the entire campus pending a disciplinary hearing (refer to Attachment 10 for a complete description of procedures).

The following guidelines will be used to determine if a Student Organization/Group/Team would be charged with a violation of the Student Code of Conduct:

a. When one or more officers/authorized representatives/captains acting in the scope of their capacities committed the violation.

b. When one or more members committed the violation after the action that constitutes the violation was approved by a vote of the organization/group/team or was part of a committee assignment of the organization/group/team.

c. When the violation was committed at an activity funded by the organization/group/team.

d. When the violation occurred as a result of an event sponsored by the organization/group/team.
e. When one or more members of an organization/group/team or its officers/authorized representatives/captains permitted, encouraged, aided, or assisted in committing a violation.

f. When a reasonable person would construe the violation as being associated with the organization/group/team

2. Adjudication of Complaints

a. The Assistant Vice President for Civic Involvement or designee will review the complaint and determine whether it should be adjudicated by the student discipline system, and, if so, the appropriate adjudicator will be determined. The review of the complaint may not require meeting with all parties; The Assistant Vice President for Civic Involvement or designee will determine what meetings are necessary. For any disciplinary action for which sanctions may be imposed, the accused student/organization will have his/her case heard before one of the following adjudicators

b. *Administrative Hearing Officer* - If the alleged violation is one for which the student/organization could not be suspended or expelled from the University, the complaint will be heard by an Administrative Hearing Officer.

c. *Campus Hearing Board* - If the alleged violation is one for which the student/organization could likely be suspended or expelled from the University, the complaint will be heard by the Campus Hearing Board. (refer to Attachment 5 for additional information concerning the Campus Hearing Board) A hold and a transcript notation indicating “Pending Discipline” will also be placed on the accused student’s transcript.

d. *Special Interim Hearing Board* - If the Campus Hearing Board cannot meet, a Special Interim Hearing Board will be appointed at the discretion of the Office of Community Standards to expedite adjudication of student disciplinary cases under the following conditions:

e. An interim suspension has been issued (see Attachment 10), or

f. The case must be adjudicated when the Campus Hearing Board cannot convene (for example, final exam week, vacation periods, or summer school, etc.)

g. Given the sensitive nature and the unique legal issues related to cases involving sexual misconduct and sexual harassment complaints, campus disciplinary procedures have been modified to address complaints of sexual misconduct and sexual harassment. Refer to the Student Sexual Misconduct and Harassment policy for specific information.

3. Notification

a. When it is determined that a complaint will be adjudicated by the student disciplinary system, the accused student/organization will be notified of the alleged violation in writing (the “Hearing Notice”) via a tracked letter sent to the student’s Rowan email address. This is the official method of notification and students are responsible for checking their University email address daily. The Hearing notice will state what portion of the Student Code of Conduct was allegedly violated. The student will be notified of the hearing date in the Hearing Notice. The student will receive notice of a hearing at least three (3) business days prior to an Administrative Hearing and five (5) business days prior to a hearing before the Campus Hearing Board or Special Interim Hearing Board.

b. If the accused student/organization or complainant, if applicable fails to attend the hearing, except when there is a justifiable reason (serious illness or hospitalization, death of member of immediate family, serious physical emergency, arrest or incarceration, or unavoidable transportation delay), the hearing will proceed and a finding will be reached based upon the available information. No negative inference will be made from a failure of the accused student/organization or complainant to appear, participate or speak during a hearing.
c. The student will be notified of the option to request an "open" public hearing. Please Note: A request would only be granted if there is unanimous consent from all participants in the disciplinary case. The number of members of the public permitted to attend the hearing will be based on the reasonable seating space in the meeting room. No changes to the hearing date, time or location will be made in order to accommodate attendance by the public.

d. All participants have the right to select an Advisor of his or her choosing, including an attorney. Advisors are expected to talk quietly with the student or pass notes in a non-disruptive manner. Advisors may have no other role in the hearing/case and are not permitted to speak on behalf of the student, ask questions, or appear in lieu of the student/organization. Advisor availability will not be sufficient grounds for postponing a hearing. A hearing will not be cancelled or postponed in the event an Advisor does not attend. If the Advisor is not able to attend, the accused student/organization or complainant should arrange for a substitute.

e. A student who wishes to have an attorney as an Advisor must inform the Office of Community Standards in writing, by telephone, or electronic mail at least one business day prior to a hearing. If a complainant, accused student/organization or other participant informs the University that an attorney will be present at the hearing, the University will decide if legal counsel for the University should also be present.

f. Both the accused student/organization and the complainant have the right to bring witnesses to provide information at the hearing. Witnesses must have personal knowledge of the incident at issue and may serve no other role at the hearing/case. Witnesses may be present at the hearing only at the time they are called to participate. A hearing will not be cancelled or postponed if a scheduled witness does not attend.

g. Written statements of witnesses not in attendance due to extraordinary circumstances may be considered by Hearing Officer or the Campus Hearing Board. Character witnesses are considered irrelevant and will not be permitted to participate. A list of witnesses must be submitted to the Office of Community Standards at least one business day prior to the hearing. The list should include each witness' name and a summary of the information s/he is expected to provide.

4. Administrative Agreement/Hearing Waiver

a. The accused student/organization and complainant will also be informed if the disciplinary complaint can be resolved by completing an Administrative Agreement/Hearing Waiver. An Administrative Agreement/Hearing Waiver would be completed only when there is acknowledgement of responsibility on the part of the accused student/organization, and agreement, by all parties including the complainant, and/or victim that the sanction(s) imposed are reasonable and fair.

b. The sanction will reflect the severity of the current charge(s) against the student/organization, as well as any previous disciplinary All participants will also waive the rights to have the complaint adjudicated at a disciplinary hearing and appeal. Should the accused student/organization not accept responsibility for the charges, nor accept the proposed sanction(s), then appearance at the disciplinary hearing is required.

5. Administrative Hearing Officer Procedures

a. A student/organization may challenge the assignment of a specific hearing officer to his/her case for good cause. This challenge must be presented in writing to the Office of Community Standards at least one business day prior to the scheduled date of the hearing. Upon reviewing the details of the challenge, the Assistant Vice President for Civic Involvement or designee will either uphold the challenge and appoint an alternate hearing officer and arrange a new hearing or deny the challenge.

b. A hearing officer will withdraw from adjudicating any case in which he/she cannot reach a fair and objective decision.
c. The hearing officer will exercise control over the manner in which the hearing is conducted to avoid unnecessarily lengthy hearings and to prevent the harassment or intimidation of witnesses. This includes, but is not limited to, rejecting redundant or irrelevant questions and imposing reasonable limits on the number of factual witnesses that may participate. An explanation and record of any rejected question will be made. Technical legal rules of evidence, the wording of questions, hearsay and opinions will not be formally applied. Anyone who disrupts a hearing or who fails to adhere to hearing procedures may be excluded from the proceeding at the discretion of the hearing officer.

d. The hearing officer will review all materials, hear all information pertinent to the case from the complainant, the accused student/organization and witnesses, consult with other hearing officers who are assigned to hearings within the same disciplinary case, clarify issues raised, render a decision based on the information presented, and take all actions and make all determinations necessary and proper for the hearing.

e. The accused student/organization will be presumed not responsible for the allegation. The hearing officer will determine if it was “more likely than not” that the accused student/organization was responsible after considering all of the credible information provided during the disciplinary hearing process. If the student is found in violation of University rules, any submitted statement of mitigating factors, records within the student's past disciplinary file and a written victim impact statement, if appropriate, will also be used in determining an appropriate sanction(s).

f. Following all hearings in the case, the hearing officer will provide the accused student with written notification of the decision reached and information regarding the University's appeal process.

g. For cases involving a victim of "sex offenses" or "crimes of violence," the hearing officer will also provide the victim with written notification of the decision reached and information regarding the University's appeal process.
Attachment 5 - Campus Hearing Board

1. Campus Hearing Board Structure
   a. The Campus Hearing Board is chaired by a non-voting Administrative Hearing Officer, who is normally an employee of the Student Affairs Division and most likely the Assistant Vice President for Civic Involvement. For cases involving students participating in dual activities at another college (i.e. Rowan Choice program), the Campus Hearing Board will be co-chaired by the Executive Director for Student Engagement at Rowan College of South Jersey (or designee). The Campus Hearing Board is composed of nine regular members and a pool of alternates.

   i. Three members who are matriculated undergraduate or graduate students and in good standing with the University. Student members are selected through an application and selection process conducted by the Office of Community Standards. Information on membership requirements and the application is available on the Office of Community Standards website.

   ii. Three members of the University Senate who are appointed by the University Senate President.

   iii. Three members of the professional staff who are appointed by the Associate Vice President for Student Affairs and Dean of Students or designee.

   b. The Campus Hearing Board may be convened by a quorum of any five members. For complaints that are adjudicated by a Special Interim Hearing Board any three members of the Campus Hearing Board must be present.

2. Campus Hearing Board Procedures
   a. Any student appearing before the Campus Hearing Board may challenge the assignment of any member of the Board to his/her case. This challenge must be presented in writing to the Office of Community Standards at least one business day prior to the scheduled date of the hearing. Upon reviewing the details of the challenge, the Assistant Vice President for Civic Involvement will either uphold the challenge and appoint an alternate member or deny the challenge. Any challenge at the time of the hearing, will be decided by the Chair.

   b. A Campus Hearing Board member will withdraw from adjudicating any case in which s/he cannot reach a fair and objective decision.

   c. There will be an audio recording of the hearing (excluding Board deliberations and voting) for the purpose of providing assistance to the Campus Hearing Board or Appeals Board in their deliberations and to the Associate Vice President for Student Affairs and Dean of Students or designee, and accused student or complainant for use in filing an appeal. This recording remains the property of the University and constitutes an official record of the hearing. No other recording of the hearing is permitted.

   d. The Chair will make all determinations on questions of procedure and admissibility of information presented and will not be excluded from hearings or Board deliberations except that s/he will not vote. The Chair will exercise control over the manner in which the hearing is conducted to avoid unnecessarily lengthy hearings and to prevent the harassment or intimidation of witnesses. This includes, but is not limited to, rejecting redundant or irrelevant questions and imposing reasonable limits on the number of factual witnesses that may participate. An explanation and record of any rejected question will be made. Technical legal rules of evidence, the wording of questions, hearsay, and opinions will not be formally applied. Anyone who disrupts a hearing or who fails to adhere to hearing procedures may be excluded from the proceeding at the discretion of the Chair.

   e. The Board will review all materials and hear all information pertinent to the case from the complainant, the accused, and all witnesses. Members of the Board, including the Chair, will be free to ask relevant questions in order to clarify information or resulting issues.
f. The accused student/organization will be presumed not responsible for the allegation. After private deliberations and by a majority vote, the Board will determine if it was “more likely than not” that the accused student/organization was responsible. A tie vote will result in a finding of "not in violation."

g. If the student is found "in violation" the Board will determine the appropriate sanction(s) to be imposed by majority vote with the exception of an expulsion. That sanction must be supported unanimously. The past disciplinary record of the accused student will not be supplied to the Board by the Chair prior to this point. Other information from either party, including any submitted statement of mitigating factors, a written victim impact statement if appropriate, or information from the Chair which is relevant to the choice of sanction(s), may also be introduced at this point, including information concerning sanctions imposed against other students for similar offenses. No information directly related to the case in question may be introduced for the first time unless the accused student has been informed and allowed to review and comment on the information.

h. Following the hearing, the Chair will provide the accused student with written notification of the decision reached and information regarding the University's appeal process.

i. For cases involving a victim of "sex offenses" (including non-forcible ones) or "crimes of violence," the Chair will also provide the victim with written notification of the decision reached and information regarding the University's appeal process.

j. The Chair may also provide the Associate Vice President for Student Affairs and Dean of Students or designee with written notification of the decision reached and supporting case documents for the purpose of conducting a "Case Review." At the conclusion of the review, the Associate Vice President for Student Affairs and Dean of Students or designee may also file an appeal of the decision.
Attachment 6 - Rights In All Disciplinary Hearings

The University disciplinary system is not a criminal or civil law process and the technical legal rules of evidence, the wording of questions, hearsay and opinions applicable in criminal and civil cases will not apply. University disciplinary hearings will accord the following specific rights to all students/organizations:

1. To receive written notice of any disciplinary charges.

2. To have reasonable access to the case file prior to and during any hearing, provided that all reviews, prior to the hearing, take place in the Office of Community Standards. Any alternate arrangements for the case file review may be made at the discretion of the Office of Community Standards. Note: The Office of Community Standards does not maintain or release police reports. Any request for a police report associated with a disciplinary case must be made to the issuing police department.

3. To have access to advice and support by an individual of his or her choosing, including an attorney.

4. To have no negative inference made from a failure of the accused student/organization or complainant to appear, participate or speak during a hearing.

5. The accused student/organization will be presumed not responsible for any allegation. Violation is found only after a review of the credible information presented determines that it was “more likely than not” that the accused student/organization was responsible.

6. The accused student/organization and the complainant will be given the opportunity to participate in the hearing, present information on their own behalf, bring witnesses and question those who provide information at their hearing. This does not include the right to ask questions directly.

7. Disciplinary hearings will be closed to all members of the campus and outside community except those directly involved with the case (including an individual selected as an Advisor). A participant in the case does have an option to request an "open" public hearing. Please Note: A request would only be granted if there is unanimous consent from all participants in the disciplinary case. The number of members of the public permitted to attend the hearing will be based on the reasonable seating space in the meeting room. No changes to the hearing date, time or location will be made in order to accommodate attendance by the public.

8. The accused student/organization will receive written notification of the decision reached after all hearings, connected to the complaint, are The notification will also include a list of any sanctions imposed and appeal information.

9. The accused student/organization will have the right to waive any of these rights.

10. The accused student/organization may submit a written statement to the Office of Community Standards detailing the presence of any mitigating factors. This statement will be considered when determining an appropriate sanction and only if the accused student/organization is found "in violation."

11. A victim may submit a written statement to the Office of Community Standards detailing the impact the violation has had upon them and their ability to function as a student. This statement will be considered when determining an appropriate sanction and only if the accused student/organization is found "in violation."

12. Victims of "sex offenses" or "crimes of violence" will receive written notification of the decision reached. The notification will also include a list of any sanctions imposed and appeal information.

13. To be free from intimidation, harassment, bullying, or any other form of retaliation throughout and following the disciplinary process.
Attachment 7 - Sanctions

Hearing Officers, Campus Hearing Board, or Special Interim Hearing Board may impose a single or multiple sanctions for violations of the Student Code of Conduct. Factors to be considered in deciding sanctions will include: past disciplinary record of the student, monetary fine resulting from a corresponding court case, the nature of the violation, and severity of any damage, injury, or harm resulting from it as perceived by the victim, and/or appropriate University officials. The imposition of a sanction will normally be effective from the date that the incident occurred. A disciplinary suspension or expulsion will normally result in withdraws from all the registered courses in the effective term, (not to exceed one academic term) regardless of the courses still being in progress or if final grades were submitted. Any request to have the effective date of a sanction deferred to a later date must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis.

Normally there will be no refund of tuition/fees if expulsion, suspension or withdrawal from courses and/or University housing is affected because of violations of the Student Code of Conduct. Any request for a refund due to these circumstances must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis.

Sanctions, which may be imposed upon any student found to have violated the Student Code of Conduct, include the following:

1. **Official Warning**: A written statement indicating a violation of the Student Code of Conduct has occurred and warning that a subsequent violation will likely be treated more severely.

2. **Educational Task**: Completion of task(s) which benefit the individual, campus, or community.

3. **Monetary Fine**: The student is required to pay a fine that has been placed onto their student account.

4. **Suspension of Activity Privileges**: The student cannot be a member of a recognized student organization, participate in organizations' regularly scheduled activities, serve as a representative of the University, or participate in intramural, club, or intercollegiate sports. Notification of this sanction/status will be sent to appropriate University officials so they will know who may not participate in activities sponsored by their offices.

5. **Disciplinary Probation**: a designated period of time during which the student is given the opportunity to demonstrate the ability to abide by the community's expectations of behavior articulated in the Student Code of Conduct and is not considered to be in good social standing with the University. Another violation will likely result in a more severe sanction.

6. **Suspension of Residence Privileges**: The student's privilege to live in University-owned housing, and visit the residence areas of the campus, is suspended on a temporary or permanent basis. Any request to have the effective date of the Suspension of Residence Privileges deferred to a later date must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis. The student is not entitled to any refund of campus housing and/or meal plan fees. Any request for a refund must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis.

7. **Deferred Suspension**: Deferred suspension is used for offenses found serious enough to warrant suspension, but where the specific circumstances of the case mitigate the offense or for repeated offenses of a less serious nature. Deferred suspension is a designated period of time during which a student is given the opportunity to demonstrate the ability to abide by the community's expectations of behavior articulated in the Student Code of Conduct. A student on deferred suspension is not considered to be in good social standing with the University. If the student is found responsible for violating any additional University code or regulation during the period of Deferred Suspension, the student may be immediately suspended from the University. The status of Deferred Suspension may include notification to parents of dependent students.
8. **Suspension**: Effective from the date that the incident occurred, the student may no longer be a registered student, may not attend classes, nor receive grades for a specified period of time. In addition, while in this status, the student may not be present on the campus nor at a University-sponsored event for any reason whatsoever. The suspension will be noted on the student's academic transcript. A disciplinary suspension will normally result in withdrawals from all the registered courses in the effective term, (not to exceed one academic term) regardless of the courses still being in progress or if final grades were submitted. Any request to have the effective date of the Suspension deferred to a later date must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis. **The student is not entitled to any refund of any tuition/fees.** Any request for a refund must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis.

9. **Expulsion**: Effective from the date that the incident occurred, the student may never again be a registered student, may never attend classes, nor receive grades. In addition, the student may never be present on the campus nor at a University-sponsored event for any reason whatsoever. The expulsion will be noted on the student's academic transcript. A disciplinary expulsion will result in withdrawals from all the registered courses in the effective term, (not to exceed one academic term) regardless of the courses still being in progress or if final grades were submitted. Any request to have the effective date of the Expulsion deferred to a later date must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis. **The student is not entitled to any refund of any tuition/fees.** Any request for a refund must be made in writing to the Associate Vice President for Student Affairs and Dean of Students and will be decided on a case by case basis.

10. **Other sanctions**: Other sanctions may be imposed in addition to, or instead of, those described in #1 through #9 above. For example, costs associated with educational programs or damage repair fees may be charged or students may have use of University facilities limited or revoked.

    Students who are found responsible for Student Code of Conduct violations which involve alcohol/drug (ab)use, may be required to attend educational programs intended to inform them about alcohol/drug use and abuse.

    a. The Office of Community Standards may notify parents/guardians of students less than 21 years of age when a student is found responsible for a violation of the Alcohol and Other Drugs Policy. Rowan Public Safety may notify parents/legal guardians when citations have been issued by law enforcement officials, without waiting for a hearing or any other due process since citations given by the law enforcement unit of a University are not covered by FERPA.

    b. Bias motivated offenses may result in more severe sanctions. Such offenses are defined as any offense wherein the accused student(s) intentionally selects the alleged victim because of the victim's actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical, or sensory disability, or by any other distinguishing characteristic, or any other class protected under the New Jersey Law Against Discrimination, N.J.S.A. 10:5-1 et. seq.

    c. Any sanction may be put on hold or deferred (i.e. not put into effect) for a predetermined period of time by the Vice President for Student Life and Dean of Students or his/her designee. The original sanction(s) may be re-imposed immediately upon a further finding responsibility in a subsequent campus disciplinary hearing at any level.

    d. Sanctions for group or organization misconduct may include suspension, revocation or denial of recognition, partial or total de-funding, or the imposition of other appropriate sanctions.

    e. A student who fails to complete the terms of a campus disciplinary sanction by the given deadline will be charged with noncompliance under the Student Code of Conduct.
f. Under the Family Educational Rights and Privacy Act (FERPA), violators of provisions of the Student Code of Conduct pertaining to certain acts of violence and/or sexual offenses may have their names and disciplinary findings publicly revealed.

g. Students should be aware that conviction in criminal court for certain controlled substance offenses including drug possession and/or sale may have them declared ineligible for Federal financial aid for a period of time. See the Financial Aid Office for details.
Attachment 8 - Application of Standard Sanctions

1. Standard sanctions have been adopted by Rowan University to respond to disciplinary violations. Of particular concern are substance abuse-related violations, off-campus conduct violations, as well as weapon and violence violations of the Student Code of Conduct. Rowan University is deeply concerned about the extent to which some students engage in underage consumption of alcohol, unlawful use of drugs, and/or consumption of alcohol or other drugs to a degree that renders them in need of emergency medical intervention or other extraordinary assistance. In addition, Rowan University seeks to deter students from engaging in conduct that poses risks to the safety and well-being of the individual student and/or the University and Glassboro community as a whole.

2. Standard sanctions are intended to alert students and other members of the University community to the seriousness of alcohol-related and drug-related behaviors, violence, and safety violations; provide meaningful consequences for violations of the Student Code of Conduct; and, ensure that students are provided opportunities to access education, counseling, and support. Standard sanctions apply only to those offenses described below.

3. Standard sanctions listed below apply to misconduct that occurs both on-campus and off-campus, at the discretion of the Associate Vice President for Student Affairs and Dean of Students or designee. Incidents falling within the Student Code of Conduct but not described below will be handled on a case-by-case basis in light of all the circumstances.

4. Students found responsible for multiple violations will receive the cumulative sanctions associated with each violation. (Example - A student who is found responsible in a single incident for the first violations of creating loud noise, supplying alcohol to underage persons and selling alcohol should expect to receive a sanction which includes a fine of $800, completion of Alcohol and Other Drugs Education Program, mandatory participation in the Community Responsibility Program, Disciplinary Probation and Notification of Parent/Guardian). Sanctions of University Suspension and Expulsion will be noted on the student's transcript and result in withdraws from all the registered courses in the effective term, (not to exceed one academic term) regardless of the courses still being in progress or if final grades were submitted. The student is not entitled to any refund of any tuition/fees.

Level One

1. Level One violations are generally a breach of the Student Code of Conduct which adversely affects a smaller community.

2. Standard Sanctions for Residence Hall & Other Published Rules Related Violations (Examples include, but are not limited to: Noise Policy, Guest Policy, Pet Policy, Quiet Hours Policy & Posting Policy)

   a. First Violation - Reflective Assignment

   b. Second Violation - Adjudicated as "Level Two" violation (Refer to Standard Sanctions for Repeated Level One violations for additional information.)

Level Two

1. Level Two violations generally are breaches of the Student Code of Conduct which are more serious and adversely affect the Rowan community at-large (include repeated Level One violations).

2. Standard Sanctions for Repeated Level One violations, Disorderly Persons, Noncompliance, Theft and Safety-Related Violations (Examples include, but are not limited to: disorderly conduct, disruptive activity, failure to comply with directions of University officials, fire safety, forging documents, theft and vandalism.

   a. First Violation - Disciplinary probation, financial restitution, monetary fine, attendance at educational programs
b. Second Violation- Adjudicated as "Level Three" violation (Refer to Level Three violation section for additional information)

3. **Standard Sanctions for Alcohol Abuse-Related Violations**
   a. *Use or possession of alcohol under prohibited circumstances*
      i. First Violation- $150 fine, Completion of Educational assignment, Completion of Alcohol and Other Drugs Education Program, Disciplinary Probation, Notification of Parent/Guardian (Dependent student)
      ii. Second Violation - $300 fine, Completion of Substance Screening, Disciplinary Probation, Notification of Parent/Guardian (Dependent student)
      iii. Third Violation - $400 fine, Deferred Suspension, possible Suspension of Campus Housing Privileges and/or University Suspension, Notification of Parent/Guardian (Dependent student)
   b. *Supplying alcohol to underage person(s)*
      i. First Violation- $400 fine, Completion of Educational assignment, Completion of Alcohol and Other Drugs Education Program, Disciplinary Probation, Notification of Parent/ Guardian (Dependent student)
      ii. Second Violation - $500 fine, Deferred Suspension, Possible Suspension of Campus Housing Privileges and/or University Suspension, Notification of Parent/Guardian (Dependent student)
      iii. Third Violation- University Suspension or Expulsion, Notification of Parent/Guardian (Dependent student)
   c. *Sale of alcohol*
      i. First Violation- $300 fine, Completion of Educational assignment, Completion of Alcohol and Other Drugs Education Program, Disciplinary Probation, Notification of Parent/Guardian (Dependent student)
      ii. Second Violation- $400 fine, Deferred Suspension, Suspension of Campus Housing Privileges and/or University Suspension, Notification of Parent/Guardian (Dependent student)
      iii. Third Violation- University Suspension or Expulsion, Notification of Parent/Guardian (Dependent student)

4. **Standard Sanctions for Violations of Laws/University Rules off-campus**
   a. *Creating loud and unreasonable noise*
      i. First Violation- $100 fine, Completion of the Community Responsibility Program, Disciplinary Probation, Notification of Parent/Guardian (Dependent student)
      ii. Second Violation- $200 fine, Disciplinary Probation up to University Suspension (minimum of 1 semester), Notification of Parent/Guardian (Dependent student)
      iii. Third Violation- $300 fine, Deferred Suspension, University Suspension (minimum of 2 semesters), Notification of Parent/Guardian (Dependent student)
   b. *Public Disorderly Conduct*
      i. First Violation- $100 fine, Completion of the Community Responsibility Program, Disciplinary Probation, Notification of Parent/Guardian (Dependent student)
ii. Second Violation- $200 fine, Disciplinary Probation up to University Suspension (minimum of 1 semester), Notification of Parent/Guardian (Dependent student)

iii. Third Violation- $300 fine, Deferred Suspension, possible University Suspension (minimum of 2 semesters), Notification of Parent/Guardian (Dependent student)

Level Three

1. Level Three violations generally are breaches of the Student Code of Conduct which include threatening statements and/or behavior and unwanted contact that may compromise the health and safety of the Rowan University community at-large or individuals, specifically.

2. Standard Sanctions for repeated Level Two Violations
   a. First Violation- Suspension of Campus Housing Privileges, Deferred Suspension, University Suspension or Expulsion
   b. Second Violation- University Suspension or University Expulsion

   a. Use or possession of illegal drugs or drug paraphernalia
      i. First Violation- $400 fine, Completion of Substance Screening, Disciplinary Probation, Notification of Parent/Guardian (Dependent student)
      ii. Second Violation- $500 fine, Completion of Substance Screening, Deferred Suspension, Notification of Parent/Guardian (Dependent student), Suspension of Campus Housing Privileges and/or University Suspension
      iii. Third Violation- University Suspension or Expulsion, Notification of Parent/Guardian (Dependent student)
   b. Manufacture, sale, purchase, or distribution of illegal drugs or controlled substances
      i. First Violation- Expulsion, Notification of Parent/Guardian (Dependent student)

4. Standard Sanctions for Substance Abuse Resulting in Harm-Related Violations
   a. Substance abuse-related behavior posing a substantial risk to the health and well-being of self and/or others, including driving while intoxicated.
      i. First Violation- $400 fine, Completion of Substance Screening, Deferred Suspension, Suspension of Campus Housing Privileges and/or University Suspension, Notification of Parent/Guardian (Dependent student)
      ii. Second Violation- University Suspension or Expulsion, Notification of Parent/Guardian (Dependent student)
      iii. Third Violation- University Expulsion, Notification of Parent/Guardian (Dependent student)

5. Standard Sanctions for Weapons-Related Violations
   a. Possession of a prohibited weapon or other dangerous object, including, but not limited to firearms, BB guns, air rifles, paintball guns, explosive devices, fireworks, or any other dangerous, unlawful, or hazardous object or material
i. First Violation - Disciplinary Probation, Deferred Suspension, University Suspension, or Expulsion, Suspension of Campus Housing Privileges (if the student is not Suspended from the University and lives in Campus Housing) and other educational sanctions, Notification of Parent/Guardian (Dependent student)

ii. Second Violation - University Expulsion

b. Any improper use, attempted use, or threat of use of a weapon or other dangerous, illegal, or hazardous object; any improper use as a weapon of any otherwise permitted object or material

i. First Violation - University Suspension or Expulsion, Notification of Parent/Guardian (Dependent student)

ii. Second Violation - University Expulsion

6. Standard Sanctions for Bullying and Other Violence-Related Violations

a. Physical harm, bullying or threat of physical harm without a weapon resulting in little or no physical injury to involved persons

i. First Violation - Disciplinary probation, Deferred Suspension, University Suspension, or Expulsion; Suspension of Campus Housing Privileges (if the student is not Suspended from the University and lives in Campus Housing), Referral to the Wellness Center for Anger Management and other educational sanctions, Notification of Parent/Guardian

ii. Second Violation - University Suspension, University Expulsion

b. Physical harm without a weapon resulting in significant physical injury to another person

i. First Violation - Deferred Suspension, University Suspension or Expulsion, Notification of Parent/Guardian

ii. Second Violation - University Suspension, University Expulsion

7. Standard Sanctions for Sexual Misconduct and Harassment Violations

a. Any violation involving the use, attempted use; or threat of use of a weapon or other dangerous, illegal, or hazardous, object; or, the use or attempted use of a drug or intoxicant to incapacitate a person.

i. First Violation - University Suspension, University Expulsion, Notification of Parent/Guardian

ii. Second Violation - University Expulsion

b. Any form of non-consensual sexual intercourse or penetration

i. First Violation - University Suspension, University Expulsion, Notification of Parent/Guardian

ii. Second Violation - University Expulsion

c. Non-consensual Sexual Contact without use of a weapon, drug or intoxicant; Domestic Violence; Dating Violence; Stalking; Sexual Exploitation or Sexual Harassment

i. First Violation - Disciplinary probation, Deferred Suspension, University Suspension, or Expulsion; Suspension of Campus Housing Privileges (if the student is not Suspended from the University and lives in Campus Housing), educational sanctions, Notification of Parent/Guardian

ii. Second Violation - University Suspension, University Expulsion
d. Additional factors to be considered in determining sanctions will be the following, which students should expect to result in sanctions in excess of those described above:

i. where a student is found responsible for multiple violations of the Student Code of Conduct in a single incident that also involves violations not described in the Standard Sanctions above;

ii. where a student is already on a sanction status equal to or greater than the standard sanction for a subsequent offense; and/or where a specific incident presents exacerbating circumstances, an ongoing risk to persons or property, or other serious concerns.

e. In these situations, the appropriate sanctions will be determined on a case-by-case basis in light of all the circumstances. The Hearing Officer, the Campus Hearing Board or the appropriate Appeal Officer/Board will consider the presence of substantial mitigating or other appropriate circumstances when determining a sanction.
Attachment 9 - Appeals

1. Upon receiving notification of the outcome of a case, the accused student, victim (in cases of "sex offenses" or "crimes of violence) or the Associate Vice President for Student Life and Dean of Students or designee (in Campus Hearing Board cases) may file an appeal under the following circumstances:

   a. A procedural or substantive error occurred in the process that significantly impacted the outcome of the hearing (i.e. Material deviation from University policy; substantial bias; the findings and decision are contrary to the great weight of the evidence);

   b. New and significant information has become available which could not have been discovered by a properly diligent person before or during the hearing. (Please note: The outcome of a criminal or civil proceeding, related to the matter, will not constitute new and significant information.)

   c. The sanction is inappropriate in light of the violation.

2. All appeals must be made within five (5) business days of the date on the letter informing the parties of the decision. Appeals must be submitted in writing to the Office of Community Standards and should explain in detail the basis of the request, including any supporting documentation.

3. Upon receipt of the written appeal, the Assistant Vice President for Civic Involvement may defer the imposition of the sanction(s) pending the decision on the appeal. Note: Interim Suspension as well as any other prior restrictions will remain in effect during the appeal process.

4. Cases adjudicated by the Campus Hearing Board will be forwarded to the Campus Appeals Board. All other cases will be forwarded to the Associate Vice President for Student Affairs and Dean of Students or designee.

5. An appeal will be responded to in a timely manner (usually two weeks) and a final decision will be issued in writing either accepting or denying the appeal. The student will be informed of any delay by the assigned Appeal Officer.

6. The Assistant Vice President for Civic Involvement or designee is responsible for compiling the appeal documentation for review, scheduling the appeal review meeting as well as sending all correspondence to the parties involved. The Assistant Vice President for Civic Involvement or designee will have no other role during the appeal review meeting.

7. The Campus Appeals Board:

   a. The Board is comprised of a member of the University's Administration (appointed by the Office of the President), President of the University Senate, and the President of the Student Government Association. Designees may be used in any of the positions. Each member or designee must be in attendance for a quorum.

   b. The Board will review the written appeal and all documentation contained in the case file in a closed meeting. The Board by a simple majority vote will deny or uphold the appeal. If an appeal is upheld based on procedural error or new information reasons, the case will be remanded to the Campus Hearing Board for re-opening of the hearing. If an appeal is upheld based on inappropriate sanction reason, the Board will render the appropriate determination and/or sanction.

   c. Normally, all Campus Appeals Board decisions are final and will be forwarded to the Office of Community Standards for immediate implementation. For cases involving an expulsion of a student or permanent loss of recognition for a student organization, the accused student or organization, the victim (in cases of "sex offenses" or "crimes of violence), or the Associate Vice President for Student Affairs and Dean of Students or designee may request that the University President's Chief of Staff or designee of the University review the decision of the Appeals Board.
d. A request for review by the University President's Chief of Staff or designee of the University must be made within two (2) business days of the date on the letter informing the parties of the Campus Appeals Board decision. The request must be submitted in writing to the Office of Community Standards and must include clear and convincing reasons to change the decision of the Campus Appeals Board. The University President's Chief of Staff or designee of the University may or may not elect to review a decision. The request for review will be responded to in a timely manner.

e. If the University President's Chief of Staff or designee of the University elects to review the determination, the University President's Chief of Staff or designee of the University shall only overturn the decision if the facts presented demonstrate that the Appeals Board's determination was arbitrary and capricious. This means that the decision will be overturned only if the decision was invalid because it was made on unreasonable grounds or without consideration of the circumstances.

8. When it is not possible for the Campus Appeals Board to meet in a timely fashion (for example, final exam week, vacation periods, summer school, etc.), an appeal from the Campus Hearing Board may be reviewed by the Associate Vice President for Student Affairs and Dean of Students for final disposition.

9. The appeals process described will be the final step in the discipline process and constitutes final agency action.
Attachment 10 - Procedures for Interim Suspension of Course participation, presence on Campus or Residence Areas and participation in University Related Activities

1. A student may be suspended from the entire campus, residence areas, extracurricular or other University related activities (ie. Internships, work study, etc.) for an interim period pending a disciplinary hearing; the interim suspension is effective immediately and without prior notice whenever there is evidence that the continued presence of the student on the campus may pose a substantial threat to others in the University or to the stability and/or continuance of normal University functions.

2. During an interim suspension from the entire campus, a student is not permitted to continue to participate in coursework in person or online, submit academic work or correspond with instructors. Course instructors and other appropriate staff are informed. Special permission is needed for the student to conduct routine business with the University, during this time.

3. The Associate Vice President for Student Affairs and Dean of Students or designee is generally authorized to impose Interim Suspensions.

4. If a student wishes to return to classes and/or residence on campus, he or she is required to make an appointment to meet with a designated administrator within five (5) business days from the effective date of suspension. The purpose of this Interim Suspension appointment is to determine the following:
   a. The reliability of the information concerning the student's conduct, including the matter of his/her identity.
   b. Whether the conduct and surrounding circumstances reasonably indicate that the continued presence of the student on the campus or at University activities likely poses a substantial threat to others or to the stability and/or continuance of normal University functions.

5. A disciplinary hearing will be scheduled at another time to hear the substantive issues involved. This follows the Interim Suspension appointment with the designated administrator and employs the procedures outlined earlier. An Interim Suspension, in and of itself, does not become part of a student's disciplinary record.
Policies Related to Medical Education

Active Learning Group Room Policy

POLICY:
Active Learning Group Policy

PURPOSE:
To provide a policy guiding maintenance of a professional and educationally-focused atmosphere in the CMSRU Active Learning Group Rooms (ALGs).

SCOPE:
This policy applies to all Active Learning Group Rooms in the CMSRU medical education building and users of these spaces.

PROCEDURE:
The Active Learning Group rooms (ALGs) are designed as collaborative educational spaces where students, faculty, and others can hold a variety of educationally-focused activities without outside distractions. They also serve as around-the-clock study space for many students, and are also occasionally accessed for purposes of faculty and administrative recruitment and selectives. As such, the ALGs must be maintained in a professional, clean/sanitary and safe state that neither distracts nor detracts from their intended purpose.

Note: The statements included below apply specifically to “assigned” ALGs – those rooms to which a group of approximately 10 students are designated at the beginning of the academic year. All other conference room and meeting spaces are public and should not have personal items, appliances, etc., stored within them at any time. The conference and meeting rooms are used for a variety of purposes, and while they may be used temporarily by students as short-term study spaces, they should always be left in a neat, clean, and unmodified state.

Appliances

In order to augment the comfort of students studying in these spaces, a limited number of appliances are permitted in the assigned student ALG rooms. Approved appliances include equipment that does not pose a fire hazard, is unlikely to attract insects or other pests, does not detract from the overall appearance of the room, and does not consume significant energy. Appliances shall be maintained in a clean and sanitary state at all times. **Prohibited and/or unsanitary appliances will be removed immediately.**

Approved appliances:

1. Single cup coffeemakers (e.g., Keurig) that do not have a continuous heating element
2. Multiple cup coffeemakers with an auto-off feature
3. Small refrigerators (must fit under the counters). Refrigerators **may not** be stored on countertops, and may not be plugged into extension cords.

Prohibited appliances:

1. Toasters/toaster ovens
2. Microwave ovens
3. Hot plates
4. Coffee makers without an auto-off feature
5. Any appliance with damaged/altered cords

*These list of appropriate appliances may be changed at any time based on a number of factors, including need to limit electrical power usage, recurrent unsanitary conditions, or other factors.

**General Room Conditions**

Rooms should always be maintained in a clean condition, with specific avoidance of states that may attract insects and other pests. This includes:

1. Cleaning/removal of any dirty dishes, containers, and cutlery following room use
2. Disposal of any food/beverages and empty food/beverage containers in an appropriate trash receptacle
3. Storage of retained food in sealed, pest-proof containers, preferably put away in refrigerators or removed to a student’s home or apartment
4. General maintenance of a professional, non-cluttered appearance to rooms

It is not the role of CMSRU custodial staff to wash dishes or other utensils. **Evening shift staff members are directed to throw away any food and dirty dishes, containers, and cutlery left in the ALGs.**

Bicycles may not be stored in the ALGs or anywhere else inside the CMSRU medical education building (MEB). Bike racks are available immediately outside the MEB within view of the security desk; all bicycles should be stored in this location.
Student Attendance Policy

POLICY: Student Attendance
This policy outlines what constitutes an absence and the processes that apply when submitting an absence request.

PURPOSE: Students will have events occur during the course of their medical education that are unpredictable. The importance of the health and welfare of each student is paramount. It is necessary to provide unambiguous expectations for active student participation in the educational program in a manner that is respectful of and adaptable to unexpected events, and allows students to plan their schedules responsibly. This policy outlines the importance of in-person, active engagement among students and faculty.

SCOPE: This policy applies to students at CMSRU in all four years.

DEFINITIONS: “Attendance” is defined as presence during the entire scheduled activity (as appropriate)

PROCEDURE: Please note that all policies that apply to the medical education program are available in the CMSRU Student Handbook. http://www.rowan.edu/coopermed/students/files/handbook.pdf

You will be notified when there is a revision to any policy during an academic year. Please address any questions you may have about the medical education program policies to the Assistant Deans for Phase 1 or Phase 2 or the Associate Dean for Medical Education.

All absence requests are to be made using the Absence Request System in the CMSRU portal system. http://cmsruapps.rowan.edu; Login using your username and password, then from menu go to: Attendance - Create Absence Request.

Religious Observance:

The Cooper Medical School of Rowan University academic calendar specifies the days on which there are no mandatory academic activities, see the Academic Calendar for a full list. Students who wish to be excused from mandatory curricular activities for religious observance must notify the Course/Clerkship Director, Preceptor, Chief Student Affairs Officer, and Education Coordinator as soon as possible; but not less than 7 days prior to the scheduled day of observance. The student must submit an absence request through ARS system, and indicate Religious Observance in the comment field. The absence will NOT be counted against the student; however missed work must be made up.

Phase I
First and Second Year Students

Please note: CMSRU data demonstrates a significant relationship between student attendance at educational sessions and performance in the medical education program and on the USMLE Step exams.

Attendance is required for all course sessions that are mandatory.

1. Students within the Phase 1 curriculum will be allotted six (6) half (1/2) days per semester, twelve (12) half (1/2) days for the academic year that can be utilized at the student’s discretion, including to attend appointments or access health services. (Students in the PC3 program are allotted two (2) half (1/2) days during the summer session). All absences must be logged/reported by the student, and are monitored by the Office of Medical Education. (Please also see the Prolonged Absence Policy for extended absences.)
   ● No more than two half-day absences are allowed per course, per semester (including year-long courses).
   ● For absences involving Ambulatory Clerkship, WOW I & II, and Selectives, students must notify their course/clerkship director(s) for prior approval before the absence.
   ● Any date that includes an assessment will require a doctor’s note or proper documentation within two (2) days upon the student’s return. The documentation is to be sent to the Chief Student Affairs Officer (CSAO). Only full-day absences are allowed on assessment days.
• For absences occurring on assessment dates in more than three courses during an academic year, the CSAO will be notified and a meeting with the student will be required. The student may be referred to the Director of Professionalism.

• Students must contact their course/clerkship director and the Assistant Dean of Assessment and CQI so that they can reschedule the assessment. A score of zero will be assigned if a doctor’s note or proper documentation is not provided for any missed assessment.

• Exceptions:
  - Absences due to religious holiday observances will not be counted toward the 6 half-days limit, provided the student reports the absence and its reason.
  - Absences due to students accompanying their Ambulatory patients to specialist visits will not be counted toward the 6 half-days limit, provided the student reports the absence, and completes the relevant form and delivers it to the Ambulatory Clerkship coordinator. These absences are not allowed on assessment days, may not exceed 2 absences course/semester, and should be limited to a reasonable number throughout the year. The Ambulatory Clerkship directors may revoke this privilege in cases of abuse, at their discretion.
  - Student (re-)entering the curriculum after the beginning of a semester will be allowed a pro-rated number of absences for that semester. The student will be notified of the number of available absences at the time they enter the curriculum.

2. The Office of Medical Education will monitor absence records. If a student’s absences exceed the allowed numbers, or otherwise violate any of the policies above:
   a. The CSAO will be notified, and may require additional information from and/or a meeting with the student to establish the reason for the repeated absences.
   b. The CSAO will inform the Office of Medical Education and the course and/or clerkship director(s) as necessary.
   c. The student may be referred to the Director of Professionalism.
   d. Course/clerkship director(s), at their full discretion, may require make-up work of course material missed during absences, in any form that the clerkship/course director(s) chooses. Failure to submit this work may result in an Incomplete (I) grade.
   e. For medical absences for three (3) consecutive dates (six half days total) a doctor’s note will need to be provided to the Office of Student Affairs within two (2) days upon the student’s return.

Referrals may also be made to the Director of Professionalism when:
• Students are excessively tardy.
• Students sign-in or swipe-in for a session and leave.
• Students sign-in or swipe-in for someone else.
• Students leave early during a required session.

Logging, notification, and the absence system
• Students must submit the absence request as soon as possible or within the first 5 hours of their scheduled course or clerkship. Not doing so may result in a Professionalism report.
• The student MUST log all absences into the absence request system.
• Students will be notified by email of each absence recorded in the system.
• It is solely the student’s responsibility to ensure that their presence at required sessions is recorded, including to bring their ID in order to swipe into a mandatory session. Students who forget their ID should immediately notify the course director by e-mail. Recorded absences due to failure to bring ID will not be retroactively excused.

Phase II

Third Year Students
Daily attendance is required on all clerkships and electives.

The M3 Education Coordinator will monitor all absences for third year students.
Absences of 10% or more of a curricular component during the third year must be made up. All missed CLIC sessions must be made up. Transdisciplinary Sessions are Mandatory. Remediation for the missed time can take the form of clinical time/patient care, writing a report on a topic of the clerkship/elective director and/or preceptor’s choosing, or any other educational activity that the clerkship/elective director and/or preceptor chooses.

There are no unexcused absences in the M3 year. Because the M3 curriculum is heavily experiential, attendance is vital to its integrity. Therefore, students missing more than 10% of a curricular component will need to remediate the experience/time at the direction of the respective Clerkship/Elective Director and/or Preceptor.

For example: 1 day of a two-week block or 2 days of a four-week block.

Students who will be absent more than one (1) day during a two (2) week block or more than two (2) days during a four (4) week block, during any curriculum component, must email the Chief Student Affairs Officer for their reason for the prolonged absence. The Chief Student Affairs Officer will alert the M3 Director and the M3 Education Coordinator. Should the absence be excused, the student will be responsible to make up any missed time.

Absences due to illness or serious extenuating circumstances occurring on the date of scheduled exams, must be communicated to the CSAO and will require supporting documentation sent from a physician within three (3) days of the absence. Absence requests are to be made using the Absence Request System in the CMSRU portal system.

In the event of excessive absences, referral will be made to the Director of Professionalism as it involves unprofessional behavior.

A student representing CMSRU in a leadership role or presenting at a conference should submit an absence request with proper documentation.

M3 Quarantine/Isolation/Covid-19 Absence Makeup Plan and Shelf Exam Policy

Any student who misses 3 or more consecutive inpatient days in the M3 year due to illness or quarantine related to COVID-19 must make up the time at the end of the year. The exception to this is the Family Medicine Clerkship where any student missing two (2) or more consecutive days must make up time at the end of the year.

Any missed CLIC time can be made up throughout the year. Students who miss three (3) or more consecutive inpatient days or five (5) or more consecutive CLIC days related to COVID-19 illness or quarantine will have the choice to take the NBME subject examination at the end of the rotation versus end of the year. If a student decides to take the test at the end of the year, it must be taken on the date that is set by the Assessment team. No individual test date requests will be permitted.

Logging and Notification of Absences by the student:

- The student MUST log all absences into the absence request system.
- In addition, the student must notify their clerkship/elective director, preceptor, and clerkship or elective coordinator of the time they will miss. The clerkship/elective director and/or preceptor will then notify the student of the remediation for the missed time.
- Students must notify their clerkship/elective director and/or preceptor as early as possible of an impending absence. In the event of an unanticipated absence, the student must notify their clerkship/elective director and/or preceptor within the first 2 hours of their scheduled shift/activity. Not doing so may result in a Professionalism report and the possibility of failing the rotation; which is at the discretion of the clerkship/elective director and/or preceptor.
- Any date that includes an assessment (e.g. subject exam) for which a student is ill, will require notification to the Chief Student Affairs Officer (CSAO) prior to the administration of the assessment. A doctor’s note or proper
documentation should be sent to the Chief Student Affairs Officer (CSAO) within two (2) days upon the student’s return. Only full-day absences are allowed on assessment days.

- For medical absences for three (3) consecutive dates, a doctor’s note will need to be provided to the Office of Student Affairs within two (2) days upon the student’s return.

**Fourth Year Students**

Daily attendance is required on all clerkships and electives.

**Absences for any reason during a fourth year clerkship/elective, must be made up at the discretion of the clerkship/elective director.** Remediation for the missed time can take the form of clinical time/patient care, writing a report on a topic of the clerkship/elective director’s choosing, or any other educational activity that the clerkship/elective director chooses.

**Failure to complete missed time due to an absence will lead to an incomplete grade and possible failure of the clerkship/elective.**

The M4 Education Coordinator will monitor all absences for fourth year students.

The M4 Academic year consists of 40 weeks, including four (4) weeks that can be utilized for interviews and other personal time.

- These 4 weeks may be broken up into 2 weeks or 1-week time spots or can be taken as an entire 4 weeks, so long as the 36 weeks of required clerkships/electives can be completed in the time frame to graduate.
  - Students cannot use this time off during a required clerkship, elective or visiting rotation.

Students who will be absent beyond the four (4) weeks must email the Chief Student Affairs Officer for their reason for the absence. The Chief Student Affairs Officer will alert the M4 Director and the M4 Education Coordinator. Should the absence be excused, the student will be responsible to make up any missed time.

**Interviews**

- Maximum of 4 excused days for interviews AND travel to and from your interviews in a 4 week rotation.
- Maximum of 2 excused days for interviews AND travel to and from your interviews in a 2 week rotation.
- Maximum of 1 excused day for interviews AND travel to and from your interviews in a 1 week rotation.
- **Excused days for interviews don’t have to be made up, as long as they are within the limit.**

You CANNOT use excused days for interviews for any other purpose. Inappropriate use of interview days will be viewed as unprofessional behavior and will lead to a Professionalism Report and possible failure of the Clerkship/Elective Rotation. **Students may be required to present documentation of their interview.**

**Step 2 (CK & CS)**

- **Excused days for Step 2 do not have to be made up.**

**Match Week**

**Students are REQUIRED to attend all Mandatory Match Week Sessions.**

Logging and Notification of Absences by the student

- **The student MUST log all absences, interviews, and Step 2 testing dates into the absence request system.**
- In addition, the student must notify their clerkship/elective director, preceptor, and clerkship or elective coordinator of the time they will miss. The clerkship/elective director will then notify the student of the remediation for the missed time.
Students must notify their clerkship/elective director and/or preceptor as early as possible of an impending absence. In the event of an unanticipated absence, the student must notify their clerkship/elective director and/or preceptor within the first 2 hours of their scheduled shift/activity. Not doing so may result in a Professionalism report and the possibility of failing the rotation; which is at the discretion of the clerkship/elective director and/or preceptor.

All students are required to log their absences/interviews in the CMSRU on-line attendance system, failure to do so may result in a Professionalism report and the possibility of failing the rotation.

For medical absences for three (3) consecutive dates, a doctor’s note will need to be provided to the Office of Student Affairs within two (2) days upon the student’s return.
Change Preceptor Procedure

PROCEDURE:
Change in Preceptor Procedure

PURPOSE:
This procedure outlines the process to which a M3 or M4 student can change their preceptor.

SCOPE:
CSMRU M3 and M4 students.

PROCEDURE:
If the student has an issue with their preceptor, the following protocol will be followed:

It is recommended that a student allow time to pass for clerkships that span months (CLIC) as relationships take time to develop. The student should attempt to meet with the preceptor and discuss the issues directly. If after doing so both the preceptor and the student agree that a change in the assignment of the preceptor would be the best solution they will both reach out to the Office of Medical Education:

- M3s will contact the M3 Director
- M4s will contact the M4 Director

If the student is concerned that mistreatment is involved, that student should review the Mistreatment Policy in the Student Handbook.

If a student feels that there is an issue of mistreatment, is unsure, or uncomfortable addressing the preceptor directly the following options are available:

- Meet with the Assistant Dean for Student Affairs; or
- Meet with the Chief Student Affairs Officer
- Meet with any Dean or Director in the Office of Medical Education
- Meet with any Dean or Director at CSMRU
- Utilize the CSMRU Ombudsman (see Policy in Handbook)

All related Policies will be followed and FERPA honored in all such issues. Matters will be addressed in a timely fashion.

CSMRU will balance the needs of each student and the need to offer an educational atmosphere that allows our students to develop the skills and knowledge needed to care for patients.
Conflict of Interest Policy

POLICY:
Conflict of Interest Policy

PURPOSE:
To establish guidelines for interactions between Industry and faculty, staff and students of Cooper Medical School of Rowan University.

SCOPE:
This policy applies to all faculty, staff, and students of Cooper Medical School of Rowan University (CMSRU), to all healthcare professionals and staff employed and/or contracted by Rowan University at CMSRU, and to all facilities owned or controlled by Rowan University at CMSRU or in which faculty and trainees are working. In all cases where this policy is more restrictive than Rowan University conflict of interest policies, this policy shall take precedence. This policy applies to interactions with all sales, marketing, or other product-oriented personnel of Industry, including those individuals whose purpose is to provide information to clinicians about company products, even though such personnel are not classified in their company as “sales or marketing.”

DEFINITIONS: N/A

PROCEDURE:
CMSRU is committed to providing humanistic education in the art and science of medicine within an environment in which excellence in patient care, innovative teaching, research, and service to our community are valued. These goals require that faculty, students, trainees and staff of CMSRU interact with representatives of pharmaceutical, biotechnology, medical device, and hospital equipment supply industry (herein after “Industry”), in a manner that advances the use of the best available evidence so that medical advancements and new technologies become broadly and appropriately used. While the interaction with Industry can be beneficial, Industry influence can also result in unacceptable conflicts of interest that may lead to increased costs of healthcare, compromised patient safety, negative socialization of students and trainees, bias of research results, and diminished confidence and respect among patients, the general public and regulatory officials. Because provision of financial support or gifts may exert an impact on recipients’ behavior, CMSRU has adopted the following policy to govern the interactions between Industry and CMSRU personnel (defined above under Scope). This policy has been designed to reflect the best available literature on conflict of interest and is intended to provide guiding principles that members of the CMSRU community as well as representatives of Industry can use to assure that their interactions result in optimal benefit to clinical care, education, research, and maintenance of the public trust.

STATEMENT OF THE POLICY:
It is the policy of CMSRU that clinical decision-making, education, and research activities are free from influence created by improper financial relationships with, or gifts provided by Industry. These general principles should guide interactions and relationships between CMSRU personnel and Industry representatives. The following limitations and guidelines are directed to certain specific interactions. For situations not specifically addressed, CMSRU personnel should consult in advance with their deans, departmental chairs and/or their administrators to obtain further guidance and clarification.

SPECIFIC ACTIVITIES:
1. Support of Continuing Education in the Health Sciences:
   Industry support of continuing education (“CE”) in the health sciences can provide benefit to patients by ensuring that the most current, evidence-based medical information is made available to healthcare practitioners. In order to ensure that potential for bias is minimized, all CE events in which CMSRU participates as a co-sponsor must comply with
the ACCME Standards for Commercial Support of Educational Programs (or other similarly rigorous, applicable standards required by other health professions), whether or not CE credit is awarded for attendance at the event. CMSRU conducts educational events in conjunction with Cooper University Health Care (CUHC) as they have ACCME accreditation and abide by those standards. All agreements for Industry support must be negotiated through and executed by the CUHC Department of Continuing Education and must comply with all policies for such agreements. Industry funding for such programming should be used to improve the quality of the education and should not be used to support hospitality, such as meals, social activities, etc., except at a modest level.

Industry funding may not be accepted for social events that do not have an educational component. Industry funding may not be accepted to support the costs of internal department meetings or retreats (either on or off campus). At CMSRU co-sponsored Continuing Education programs, if there is an area utilized and designated for vendor displays, that area will be separate from the location assigned for the educational presentations. All vendors are required to sign a CE agreement. Any materials utilized by the industry vendors will be subject to the guidelines established in Section 3. Promotional materials shall be limited to those which do not include product brand names and logos. Additionally, no gifts or enticements such as food or snacks will be permitted at these displays.

2. Industry Sponsored Meetings or Industry Support of Off-campus Meetings:
CMSRU faculty, personnel, students or CMSRU providers or staff are discouraged from participating in or attending Industry-sponsored meetings or other off-campus meetings where Industry support is provided. However, if they do attend or participate:

a. The activity must be designed to promote evidence-based clinical care and/or advance scientific research;
b. The financial support of Industry must be prominently disclosed;
c. Industry may not pay attendees’ travel and expenses;
d. Attendees may not receive gifts or other compensation for attendance;
e. Meals provided must be modest (value comparable to Standard Meal Allowance as specified by IRS); and
f. If participating as a speaker, lecture content may not be promotional in nature but purely educational, its content determined by the speaker and not industry, reflect a balanced assessment of the current science and treatment options, and the speaker must make clear that the views expressed are the views of the speaker and not of CMSRU. Additionally, compensation must be reasonable and limited to reimbursement of reasonable travel expenses and a modest honorarium not to exceed $2,500 per event.

3. Gifts and Provision of Meals:
CMSRU personnel shall not accept or use personal gifts (including food) from representatives of Industry, regardless of the nature or dollar value of the gift. Although personal gifts of nominal value may not violate professional standards or anti-kickback laws, such gifts do not improve the quality of patient care, and research has shown they may subtly influence clinical decisions, and add unnecessary costs to the healthcare system. Gifts from Industry that incorporate a product or company logo (e.g., pens, notepads or office items such as scales or tissues) introduce a commercial, marketing presence that is not appropriate to a non-profit educational and healthcare system.

Meals or other hospitality funded directly by Industry may not be offered in any facility owned and operated by Rowan University at CMSRU. CMSRU personnel may not accept meals or other hospitality funded by Industry, whether on-campus or off-campus, or accept complimentary tickets to sporting or other events or other hospitality from Industry. Modest meals provided incidental to attendance at an off-campus event that complies with the provisions of subsection 2, above, may be accepted.

All full-time and part-time CMSRU faculty, as well as CMSRU medical students will act in accordance with CMSRU policy at all times, including during time spent in the community with CMSRU clinical faculty.
Industry wishing to make charitable contributions to CMSRU may contact the Development Office. Such contributions shall be subject to any applicable policies maintained by CMSRU.

4. Consulting Relationships:
CMSRU recognizes the obligation to make the special knowledge and intellectual competence of its faculty members available to government, business, labor, and civic organizations, as well as the potential value to the faculty member and CMSRU. However, consulting arrangements that simply pay CMSRU personnel a guaranteed amount without any associated duties (such as participation on scientific advisory boards that do not regularly meet) shall be considered gifts and are consequently prohibited. Consulting or advising relationships for purely commercial or marketing purposes are discouraged, while consulting or advising relationships for research and scientific activities are permissible.

In order to avoid gifts disguised as consulting contracts, where CMSRU personnel have been engaged by Industry to provide consulting services, the consulting contract must provide specific tasks and deliverables, with payment commensurate with the tasks assigned and at fair market value. All such arrangements between individuals or units and outside commercial interests must be reviewed and approved by the Associate Dean for Research or departmental chair prior to initiation in accordance with appropriate CMSRU policies. For employees of Rowan University at CMSRU who are not faculty, prior written approval of the appropriate supervisor within CMSRU is required for any outside consulting. CMSRU reserves the right to require faculty and employees to request changes in the terms of their consulting agreements to bring those consulting agreements into compliance with CMSRU policies.

5. Frequent Speaker Arrangements (Speakers Bureaus):
While one of the most common ways for CMSRU to disseminate new knowledge is through lectures, “speakers bureaus” sponsored by Industry may serve as little more than an extension of the marketing department of the companies that support the programming. Before committing to being a speaker at an Industry-sponsored event, careful consideration should be given to determine whether the event meets the criteria set forth in Section 2 of this policy, relating to Industry Sponsored Meetings. CMSRU personnel may not participate in, or receive compensation for, talks given through a speaker’s bureau or similar frequent speaker arrangements if any of the following are true:

a. Events do not meet the criteria of Section 2;
b. Content of the lectures given is provided by Industry or is subject to any form of prior approval by either representatives of Industry or event planners contracted by Industry;
c. Content of the presentation is not based on the best available scientific evidence;
d. Company selects the individuals who may attend or provides any honorarium or gifts to the attendees; and
e. Under no circumstances may CMSRU personnel be listed as co-authors on papers ghostwritten by Industry representatives. In addition, CMSRU personnel should always be responsible for the content of any papers or talks that they give, including the content of slides.

Speaking relationships with company or company event planners are subject to review and approval of the participant’s department chair, or dean as delineated in Section 4, Consulting Relationships.

6. Ghostwriting:
Under no circumstances may CMSRU personnel be listed as co-authors on papers ghostwritten by Industry representatives. In addition, CMSRU personnel should always be responsible for the content of any papers or talks that they give, including the content of slides.

7. Industry Support for Scholarships or Fellowships and other Educational Funds to Students and Trainees:
CMSRU may accept industry support for scholarships and discretionary funds to support trainee or student travel or non-research funding provided that the following criteria are met:
a. Industry support for scholarships and fellowships must comply with all CMSRU requirements for such funds, including a written pledge agreement through the Development Office. It will be maintained in an appropriate restricted account, managed at the school as determined by the dean. CMSRU will select the recipients of such funds with no involvement by the donor industry. Written documentation of the selection process will be maintained.

b. Industry support for other student or trainee activities, including travel expenses or attendance fees at conferences, must be accompanied by a written agreement and will only be accepted into a common pool of discretionary funds, which will be maintained under the direction of the dean. Industry cannot designate contributions to fund specific recipients or specific expenses. Departments may apply to use monies from this pool to pay for reasonable travel and tuition expenses for students, or other trainees to attend conferences or training that have legitimate educational merit. Recipients will be selected by the department based on merit and/or financial need. Proper documentation must accompany the request.

c. Final approval and possible exceptions shall be at the discretion of the dean.

8. **Samples:**
Utilization of drug or device samples at CMSRU run clinics will be judicious and cost-effective. Utilization of drug samples will be at the discretion of the appropriate medical care provider solely for the purpose of patient care (e.g., allowing patients to begin early treatment; testing a therapeutic option prior to filling a prescription; offering an alternative for individuals having difficulty affording their medicines). Utilization of equipment or device samples will be deemed appropriate when healthcare practitioners are developing a familiarity with new materials. Samples of any kind are not intended for personal use by faculty, staff or students. The sale or trade of any industry related sample is strictly prohibited.

Wherever possible, a central distribution and documentation site for medication samples should be established in each healthcare facility that maintains storage of such samples. Samples should be logged in through a designated and secure sample storage process. Logs should include the name of the medication, lot number, expiration date, date of receipt, quantity received, and the name of the individual receiving the samples, including those received on behalf of a group practice. Logs will be maintained in the healthcare facility for a specified time as designated per policy. All samples will be labeled and dispensed in accordance with federal and state laws. A Sample Medication Form will be used to document dispensing information, patient counseling and auxiliary notes. Utilization of vouchers is preferable to actual physical drug samples. The preferred method of obtaining pharmaceuticals for indigent patients would be through specific corporate plans which provide such product directly to the patient.

9. **Site Access for Industry Representatives:**
All Industry professionals wishing to gain access to CMSRU designated sites will be required to check into the facility through a centralized, appointed individual. Purposes which are appropriate for site visits include the exchange of scientific information, dissemination of materials/information regarding new therapeutic options, and training or discussions which can lead to the advancement of healthcare. Name badges are required for all Industry personnel when visiting a CMSRU site. Industry representatives are prohibited from roaming areas frequented by faculty or students. They may provide informational material, such as product literature or journal articles, only at the request of a faculty or staff member.

Prior to gaining access, the individual must have a scheduled appointment with appropriate CMSRU personnel. There may be designated times for Industry representatives to convene in a specific location as pre-determined by department heads in order for questions to be answered or for information to be distributed regarding new equipment or therapeutic options. Any marketing activities will be limited as per sections 1 and 3 of this policy.

Upon an initial visit to a CMSRU site, industry representatives will be provided a vendor policy sheet which will outline procedures that they must follow while visiting the facility.
10. Conflict of Interest Disclosure:
CMSRU faculty and staff will disclose all ties to Industry on an annual basis using either the CUHC and/or Rowan University Conflict of Interest disclosure form, depending on the employer of record. Additionally, any CMSRU faculty and staff lecture must disclose all Industry ties to trainees and/or audience that could potentially influence their clinical or educational duties.

11. Conflict of Interest Curriculum for Medical Students
CMSRU is committed to educating its medical students about the ways that Industry may attempt to influence prescribing and treatment habits of physicians. Toward that end, CMSRU has developed a conflict of interest curriculum that is integrated within our Active Learning Groups (ALG), Scholar’s Workshop, and Foundation of Medical Practice. Methods of instruction include lectures, small group discussions, and panel discussions. The curriculum will aim to educate the students on the impact that Industry marketing may have on physician practice, and how Industry may influence the regulation and marketing of drugs and devices.

11. Policy Enforcement
Faculty and Staff: Any violations of this policy should be reported to the Rowan University Hotline (855-431-9967) or http://rowan.edu/integrityline, where it will be directed to the Conflict of Interest Committee. Possible consequences of policy violation include but are not limited to: counseling, training, requiring repayment of monies acquired in violation of policies, fines or termination.

Industry personnel: Any violations of this policy may be subject to any of the following disciplinary actions: warnings issued to corporation and supervisory personnel (written &/or verbal); access to CMSRU revoked for offending representative and other company personnel; and lengthy restriction by all personnel from any access to the property for varying lengths of time.
Course/Clerkship Performance Remediation Procedure

PROCEDURE:
Course/Clerkship Performance Remediation

PURPOSE:
To achieve a passing grade in a course, a student must pass all components of the course or clerkship (Phase 1 - e.g., written exams, practical exams, and ALG; Phase 2 - e.g., clinical assessments, subject examinations, and OSCEs). A student may receive an unsatisfactory remediable grade in a course by performing unsatisfactorily in one or more components. A student who receives an unsatisfactory remediable grade in a course may be offered the opportunity to remediate his or her performance at the conclusion of the academic year. Because the path to the unsatisfactory remediable course grade is individual, each student’s remediation program must be customized to address his or her learning needs. We offer the following guidelines, however, for the process of designing a customized remediation program.

SCOPE:
Candidates for the Doctor of Medicine degree (M.D.)

PROCEDURE:
To design a course remediation program, the course/clerkship director will:

1. meet with the student to help identify his or her obstacles to achieving satisfactory performance
2. meet with course/clerkship faculty, as necessary, to discuss the student’s learning needs and plan remedial experiences
3. create a written plan for remediation, including:
   a. goals
   b. method(s) of study/practice
   c. duration of the program
   d. frequency of meetings between the student and designated faculty or course director
   e. planned assessments
4. Seek signed approval from the appropriate course/clerkship director, phase dean, and associate dean for medical education. The remediation plan should also be submitted to the CMSRU learning specialists.
5. The assistant dean for assessment and continuous quality improvement will collect the remediation plan and signature page after the proper approvals are provided by the individuals described above. A final remediation assessment will be planned between the course/clerkship directors, the student, and the assistant dean for assessment and continuous quality improvement.
6. Once the remediation assessment is delivered, the course/clerkship director will receive the final remediation assessment data from the assistant dean for assessment and continuous quality improvement.
7. The student will be informed of their remediation assessment outcome as soon as possible. If they were successful, their grade will be changed from Unsuccessful Remediable (UR) to Remediated Pass (RP) with the CMSRU registrar and in the CMSRU grade book. If they are unsuccessful in passing the remediation assessment, their grade will be change to Unsuccessful (U) with the CMSRU registrar and in the CMSRU grade book.
8. Students should refer to the Grading, Promotions, and Appeals Policy for further information on how an Unsuccessful (U) grade impacts their academic progress.
CRC Food/Beverage Consumption Policy

POLICY:
CRC Food/Beverage Consumption

PURPOSE:
To establish guidelines pertaining to the consumption of food and beverage within the CRC (Cooper Rowan Clinic).

SCOPE:
This policy applies to all CMSRU medical students.

PROCEDURE:
The consumption of food and beverage is not permitted in any direct patient care or specimen handling areas within the CRC. The consumption of acceptable items (as noted below) is permitted in all other work areas of the CRC. Students must ensure proper disposal of these items after consumption.

Examples of Acceptable Items:

• Beverage containers with lids. Lids should be kept on bottles and containers except when drinking to avoid spillage.

• Dry snack items (i.e. chips, cookies, pretzels, dried fruits, granola bars, muffins, power bars, etc.)

• As is with all NJ state educational institutions, no alcohol of any type is permitted.
Curricular Interruption Process Procedure

PROCEDURE:
Curricular Interruption Process Procedure

PURPOSE:
The purpose of this procedure is to develop a process for curricular interruptions.

SCOPE:
This procedure applies to all CMSRU medical students

PROCEDURE:
Any student who has a period of time during which they are not participating in the scheduled curriculum for any reason has the following options:

- Leave of Absence: A student must formally apply for this using the Medical Student Withdrawal/Leave of Absence Request form and adhere to the approval process. The time period and the plan for return to the curriculum will be developed on a case by case basis.
  - During this period, the student is not a student at CMSRU and will not have access to the building or the resources of the school. All possessions must be removed from the building and access cards will be inactivated.
  - The student will be subject to any rules surrounding their existing loans in place federally or locally.
  - This period of time will not be included in the time periods designated to complete a curricular phase as per the Grading and Promotions Policy

- Enroll in the Independent Study Course: 01900.
  - Approval to take this course is via the associate dean for medical education and the assistant dean for student affairs.
  - The Medical Student Independent Study Request form must be filed and fully approved before any student can begin the course.
  - A student on an approved Leave of Absence for one or more semesters is not eligible for the Prolonged Independent Study course while on a LOA.
  - The student will be a full-time student at CMSRU while enrolled in this course.
  - The transcript will indicate the student’s enrollment, the time period, and the grade.
  - There will be no course fee.
  - Each student must meet with Financial Aid to determine the process for application for loan support during this period.
  - Student Fees in addition to the course fee will be paid to the Bursar’s office.
    - The cost and term for fees will be the prevailing fee in place at the time of enrollment in the course.
  - The period of time spent in the Independent Study Course will be applied to the time period spent completing a curricular phase as per the Grading and Promotions Policy.
• Student Scholar Year: Students may enroll in a Student Scholar year in order to complete a research experience at another medical school, university, or health system. The form is available in the Office of Student Affairs. Approval is via the associate dean for medical education and the assistant dean for student affairs.
Duty Hours Limitations Policy

POLICY:
Duty Hours Limitations Policy

PURPOSE:
The faculty and academic administrators of CMSRU recognize the need to balance the learning and wellbeing of CMSRU students during their clinical clerkship education. Therefore, they have established this policy setting duty hours limitations to which students must adhere in Phase 2 of the curriculum.

SCOPE:
This policy applies to all candidates for the Doctor of Medicine Degree (M.D.)

DEFINITIONS:
Duty Hours: as defined by the Accreditation Council for Graduate Medical Education (ACGME) website October 24, 2013.

“Duty hours are defined as all clinical and academic activities related to the program; i.e., patient care (both inpatient and outpatient), administrative duties relative to patient care, the provision for transfer of patient care, time spent in-house during call activities, and scheduled activities, such as conferences. Duty hours do not include self-directed learning time.”

Duty hours are explained at CMSRU as:

- Time spent in all clinical and scheduled educational activities.
  - This includes:
    - Patient care in hospital, office, skilled nursing facility, rehabilitation center, etc.
    - Administrative activities related to the educational program
    - Scheduled conferences; advisory college meetings; meetings with administrators, learning support specialists, student affairs officers, etc.
    - Approved research-related activities
  - It excludes self-directed learning time.

A stint is defined as a continuous period of duty.

PROCEDURE:

I. PROCEDURE:

- Maximum hours of clinical and educational work per week:
  - Students are allowed to work no more than 80 hours per week, averaged over 4 weeks.
  - Students may be on-call in-house no more often than every third night.

- Maximum hours of clinical work and education per stint:
  - Students must work no more than 24 hours of continuous scheduled time (clinical plus educational) per stint.
The student may spend up to 4 hours of additional time per stint for activities related to patient safety and/or education (maximum is 28 contiguous hours).

- **Mandatory time free of clinical work and educational activities:**
  - Students must have at least 8 hours off between stints lasting less than 24 hours.
    - Students may, of their own accord, choose to shorten this interval to check on a patient, but they cannot exceed the 80 hours per week maximum.
  - Students must have at least 14 hours free of clinical work and scheduled educational activities after a 24-hour continuous stint.
  - Students must have at least one day in seven (averaged over 4 weeks) free of clinical work and scheduled educational experiences.

## II. RESPONSIBILITY

### Implementation

1. **Office of Medical Education and the Office of Student Affairs and Admissions**
   M3 and M4 students will complete a self-reported duty hour exception report, through the One45® curriculum management system, at the end of each inpatient block, listing violations of the duty hour limitations policy during that block, and the reasons for each violation. The assistant dean for assessment and CQI will report duty hour policy violations every month to the assistant dean for student affairs, and will report every three months any patterns of violation to the phase 2 subcommittee of the curriculum committee. The phase 2 subcommittee of the curriculum committee provides reports to the curriculum committee.

2. **Students**
   Students must comply with these duty hour limitations policies and procedures. Any student who repeatedly fails to comply will meet with the assistant dean for student affairs for counseling. Recalcitrant noncompliance may be taken as evidence of unprofessional behavior (see Grading, Promotions and Appeals Policy, V.B.). Students may be referred to the Director of Professionalism for review and possible remediation plan. The Director of Professionalism may refer students directly to the Academic Standing Committee.

3. **Faculty**
   Faculty members must encourage students to adhere to duty hour policies and procedures. Faculty members agree to abide by the above duty hours limitations in the design and implementation of their courses and clerkships, and in the supervision of CMSRU students. A faculty member who repeatedly encourages student noncompliance with the duty hour limitations will meet with the assistant dean for curriculum phase 2 for counseling. Faculty members responsible for a pattern of student violations of the duty hour limitations will meet with the dean, who may recommend revocation of their faculty appointment.
Elective Policy

POLICY:
Elective Policy

PURPOSE:
The purpose of this policy is to clarify the opportunities and procedures related to elective courses in the M3 and M4 years at CMSRU.

SCOPE:
CMSRU M3 and M4 students.

DEFINITIONS:
Electives are courses of the student’s choice, distinct from required courses and clerkships. Students take electives in the M3 and M4 years.

PROCEDURE:

APPROVED ELECTIVES:
Students may select elective courses from:

- elective courses at CMSRU
- visiting electives at:
  - other LCME-accredited medical schools
  - approved international (global health) sites on the AAMC Visiting Student Learning Opportunities (VSLO) program as well as the Cooper Medical trip to Ghana, Africa (see the CMSRU Fourth Year Guide for details)
  - ACGME-accredited residency programs not affiliated with a medical school
- courses required during active duty service for those students with military obligations

M3 ELECTIVES: M3 students must complete three one-week electives. Students may choose from M3 electives offered by CMSRU, or other LCME-accredited medical schools or ACGME-accredited residency programs not affiliated with a medical school. (International electives are not available to M3 students.) CMSRU M3 electives are assigned by lottery. Outside electives must be arranged by the student, and must be approved at least four weeks in advance by the Director of the M3 Curriculum.

M4 ELECTIVES: M4 students must complete 20 weeks of electives. Sixteen (16) of those weeks may be completed at outside institutions (“visiting electives,” as defined above); four (4) weeks must be completed at CMSRU. In addition, students can complete a maximum of 12 weeks in the same elective. For example, a student can complete a 4 week Orthopedics Sub-Internship at CMSRU, a 4 week Orthopedics Sub-Internship at Visiting Institution #1, and a 4 week Orthopedics Sub-Internship at Visiting Institution #2. A rotation in Orthopedic Trauma would be viewed as a separate rotation and will not be counted as the same rotation as an Orthopedics Sub-Internship. For students wanting to do more than 12 weeks of the same elective, they will need to reach out to the Director of the M4 Curriculum who will make the determination on a case-by-case basis.

Students are responsible for arranging outside electives, which must be approved by the Director of the M4 Curriculum. (Please refer to the CMSRU Fourth Year Guide for details of application for, and scheduling of, M4 electives.)
NEW ELECTIVES
The Curriculum Committee must approve any new elective before students may be enrolled. All CMSRU electives must be directed by a CMSRU faculty member.
Evaluation Compliance Policy

POLICY:
Evaluation Compliance Policy

PURPOSE:
The faculty and academic administrators of CMSRU (CMSRU, School) recognize the importance of receiving feedback from students regarding courses, clerkships and other programs. The Evaluation Compliance policy informs students of their professional responsibility to complete program evaluation surveys in a timely fashion.

SCOPE:
Candidates for the Doctor of Medicine Degree (M.D.)

PROCEDURE:

RESPONSIBILITY:
Each student is asked to complete evaluations related to courses, clerkships or other programs through the CMRSU evaluation and assessment system. These may be available through a curriculum management or survey delivery system sponsored by the Office of Medical Education. All requests are sent directly to the student through their Rowan student email addresses or via paper-based systems. Evaluation compliance is mandatory and completion of all requested evaluations is considered a component of student professionalism at CMSRU. Students who do not complete their course evaluations by their announced due date will be referred to the CMSRU Director of Professionalism for issues related to professionalism.
Formative Feedback Policy

POLICY:
Formative Feedback

PURPOSE:
In its efforts to ensure excellent medical education and to provide for appropriately timed formative feedback to medical students the following policy defines the requirements for course directors, clerkship directors and faculty to submit formative feedback at the Cooper Medical School of Rowan University (CMSRU).

SCOPE:
Candidates for the Doctor of Medicine Degree (M.D.)

PROCEDURE:

RESPONSIBILITY:
It is the responsibility of the course and clerkship directors to ensure that all students receive formative feedback early enough in each required course and clerkships to permit remediation prior to the awarding of final grades. The assessment subcommittee of the curriculum committee reviews and approves all assessment activities within courses and clerkships and ensures that formative assessment activities appropriate to the course or clerkship are provided for. Courses and clerkships less than four weeks use meetings with students to provide formative feedback.

All course and clerkship assessments are monitored by the Office of Medical Education. Course or clerkship directors who are not compliant with these assessments will be reported to the Associate Dean for Medical Education. The Associate Dean for Medical Education can ask the department chairperson to complete assessments for a course or clerkship to ensure timely compliance.
Grading, Promotions, and Appeals Policy

POLICY: Grading, Promotions, and Appeals Policy

PURPOSE:
The faculty and academic administrators of CMSRU (CMSRU, School) recognize their responsibility to maximize the probability that graduates of the School are qualified and have the maturity and emotional stability to assume the professional responsibilities implicit in the receipt of the degree of Doctor of Medicine. Therefore, they have established these policies to guide themselves and medical student colleagues in pursuing a level of academic and professional excellence required for the conferral of that degree. Specific procedures have been established to provide uniformity and equity of process in all situations requiring administrative action.

SCOPE: Candidates for the Doctor of Medicine Degree (M.D.)

DEFINITIONS:
This document deals with those students who are candidates for the MD degree.

Remediation: A defined process created by a course or clerkship director to ensure that a student who fails a course or clerkship has subsequently gained the knowledge and skills required. The process is tailored to the student and consists of activities to improve competency through reassessment.

Appeal: A petition filed by a student challenging a course or clerkship grade, a clinical assessment in the M3 year, time in program, and promotional decisions. An action in favor of a student does not imply wrongdoing by the faculty or the administration.

Promotional decisions: The Academic Standing Committee reviews students annually or on an as-needed basis to advance them in the medical education program, certify them for graduation, or consider them for dismissal.

Academic or performance improvement plan: A defined plan developed by the Office of Medical Education and/or the CMSRU Executive Deans for students whose appeal regarding a promotional decision has been upheld by the Academic Standing Committee or the Ad Hoc Committee for Student Appeals. The improvement plan is developed to ensure that a student who fails to complete the courses and/or clerkships in a medical education program year will have successfully completed the failed courses and/or clerkships and demonstrated competence in the knowledge or skills required to move to the next level in the medical education program. The process is tailored to the student and addresses academic or other deficiencies related to their academic or professional performance. A student may be required to meet special conditions or take an extra academic year as part of their plan. An academic improvement plan is not an adverse action and, therefore, not subject to appeal.

Final grade: A grade entered into the academic transcript at the end of a course or clerkship or at the resolution of a grade appeal.

I. RESPONSIBILITY

Implementation

1. Faculty

The faculty is responsible for implementing grading policies, regulations and procedures. For the courses or clerkships for which they are responsible, faculty members:

a. establish standards to be met for attaining course or clerkship credit and criteria for assigning specific grades, and

b. assign final grades for the course or clerkship within six weeks of the last day of the course or clerkship.
2. The associate dean for medical education

The associate dean for medical education administers the grading and promotion policy regulations and procedures with the support of the assistant dean for curriculum for phase 1 and the assistant dean for curriculum for phase 2, as appropriate.

3. Academic Standing Committee

The Academic Standing Committee hears student grade appeals and communicates its decision to the associate dean for medical education. The Committee reviews student progress and makes decisions regarding the placement on and removal from academic and non-academic probation. The Committee makes recommendations for certification of the graduating class to the departmental chairs, who review and approve on behalf of the faculty. The Committee also makes recommendations to the dean about student promotions and decisions regarding dismissal. Students have the right to appeal all promotional decisions made by the Academic Standing Committee. Committee members who have a significant relationship with a CMSRU student who is under review for a potential adverse action by the Academic Standing Committee, must recuse themselves from hearing that particular case.

4. Ad Hoc Committee for Student Appeals

The Ad Hoc Committee for Student Appeals is convened by the associate dean for medical education to hear appeals of promotional decisions by the Academic Standing Committee. It is composed of five members of the faculty who are not advisory college directors, members of the Academic Standing Committee, or the Curriculum Committee. This committee is advisory to the dean.

5. Executive Cabinet of Deans

The Executive Cabinet of Deans at CMSRU are composed of all the associate and assistant deans at CMSRU. This group may develop Academic Improvement or Performance Improvement Plans for students.

II. COURSE REQUIREMENTS, SEQUENCING, AND GRADUATION

All required courses of all curricular years, including the required number of elective weeks, must be completed satisfactorily in the prescribed sequence before a student can be certified for graduation. A student may not repeat a course or clerkship more than once, and no more than three distinct academic years may be utilized to fulfill the requirements of either the first and second years (Phase 1), or the third and fourth years (Phase 2) of the curriculum. Students enrolled in the Student Scholar Year opportunity or an Independent Study are considered to be enrolled in the academic program, and this year counts as completed time in Phase 1 or 2 of the curriculum. Students who perform scholarly work or enroll in dual degree programs (e.g., MD/PhD) may extend the degree completion limit from six distinct academic years to ten distinct academic years upon the recommendation of the Academic Standing Committee to the dean. Of important note, most state licensing boards require the completion of USMLE Steps 1, 2, and 3 within a seven-year period. Step 3 is usually taken during the first or second year of postgraduate training. All students should be familiar with the medical licensing requirements for the States where they intend to practice medicine, and if a waiver of the seven-year requirement is possible.

Any requests to extend the academic program beyond the time limits noted above and for any reason, must be recommended by the Academic Standing Committee and approved by the dean or designee. Appeals of these decisions may be made to the Ad Hoc Committee for Student Appeals.

All courses and academic requirements of a particular year must be completed satisfactorily before a student may begin any course or clerkship of the ensuing curricular year, or before taking one of the USMLE Step Examinations (1, 2CK, or 2CS).
Students returning from a Leave of Absence, Independent Study, or Student Scholar research experience of equal to or greater than one academic year, will need to document their ability to resume patient care within the CMSRU medical education curriculum. A student with significant degradation of clinical skills may need remediation prior to returning to the medical education curriculum.

The Academic Standing Committee reviews all students to ensure that all graduation requirements have been met. The graduation list is forwarded to the CMSRU Executive Council of departmental chairs for approval. Students are approved for graduation in May of their M4 (final) academic year. A student who will complete all of their degree requirements after the month of May can be awarded the M.D. degree at a later time in limited, special circumstances and as approved by the Academic Standing Committee and the CMSRU Dean. If granted approval, students may graduate in August or December of that same calendar year as the May graduation date. In limited circumstances, students, in their final year of matriculation, may need to extend their expected date of graduation. Students will remain active in the Rowan University system up to 18 months after their expected graduation date. No medical degree will be conferred more than 18 months past the student’s expected graduation date, determined in the student’s fourth and final year, unless the student is on a medical leave of absence. If the student does not meet all requirements for graduation within this 18 month period, the student will no longer be eligible to receive the CMSRU Medical Degree (M.D.) (See the CMSRU Graduation Policy).

III. ASSESSMENT AND STANDING OF STUDENTS

A. Grading

All courses or clerkships, whether required or elective, and all research experiences specifically approved as part of an individual student's curriculum must be graded according to the grading system for Phase 1 or Phase 2. Final grades must be submitted to the registrar within six weeks of the completion of a course or clerkship. If the final grade for a course or clerkship is a UR (unsatisfactory remediable) or a U (unsatisfactory), the assistant dean for assessment and CQI in the Office of Medical Education informs the associate dean for medical education promptly by phone or email and submits that information in writing within three weeks.

1. The CMSRU Grading System

The grading system for Phase 1 provides two levels of credit (Pass [P] and Remediated Pass [RP]) and four levels of non-credit (Unsatisfactory [U], Unsatisfactory Remediable [UR], Incomplete [I], and Withdrawn [W]). Unsatisfactory is equivalent to failure. The grading system for Phase 2 provides four levels of credit (Honors [H], High Pass [HP], Pass [P], and Remediated Pass [RP]) and four levels of non-credit (Unsatisfactory [U], Unsatisfactory Remediable [UR], Incomplete [I], and Withdrawn [W]). The grading mechanism for each course will be detailed in the syllabus of that course or clerkship.

M3 Courses/Clerkships:

- **Honors (H):** is a clearly superior performance that reflects comprehensive achievement of course/clerkship objectives. (Distribution: approximately 20% of the class may receive H.)

- **High Pass (HP):** a performance well beyond minimum achievement of course/clerkship requirements. (Distribution: after Honors grades have been determined, approximately 30% of the class may receive HP.)

- **Pass (P):** a satisfactory performance that meets basic course/clerkship requirements. (A minimum grade of 70.00 is required to pass all courses and clerkships.)

- **Remediated Pass (RP):** a satisfactory performance that meets basic course/clerkship requirements upon the successful completion of the remediation plan, following an unsatisfactory course grade (UR).

- **Unsatisfactory Remediable (UR):** a temporary grade for a performance below acceptable minimum standards (grade less than 70.00) which the student has been granted the opportunity to remediate. This grade can only be replaced by either an RP or a U (see below).
Unsatisfactory (U): a final grade for student performance below acceptable minimum standards (grade less than 70.00).

- When a student repeats a curricular year, the final grade recorded on the transcript for the repeated course/clerkship shall be the actual grade earned (H, HP, P, or U). The original U grade earned in previous academic years remains on the transcript, if the course was not remediated within that academic year.

Incomplete (I)

Grades of Incomplete are applied at the School as described below:

- A course/clerkship director, following consultation with the associate dean for medical education, may assign the grade of I to indicate that a student has been unable to complete all of the course requirements for a reason(s) beyond his/her control (e.g., death in the family, significant illness or injury, etc.).

- When the grade of I is assigned to a course/clerkship, the student must complete the course/clerkship requirement before the beginning of the next academic year unless the course/clerkship director, with the concurrence of the associate dean for medical education, shall have provided a specific alternative time period, not to exceed one year from the completion date of the course/clerkship unless there is a compelling reason that must be approved by the associate dean for medical education.

- Once the student has addressed all course/clerkship requirements, the course/clerkship director must assign a final grade (Phase 1 = P, UR, or U, Phase 2 = H, HP, P, UR or (U) in place of the I grade. If the requirements for the incomplete course/clerkship have not been met within the specified time limits, and no agreement has been made to extend the time limit, and the student has not withdrawn from school, a final grade of U will be assigned.

Withdrawn (W)

If the student has withdrawn from a course, clerkship, or the school, the associate dean for medical education will assign a W (Withdrawn) grade to the student’s record.

M4 Courses/Clerkships:

The M4 courses and clerkships provides for grades of Honors (H), High Pass (HP), Pass (P), Unsatisfactory Remediable (UR), and Unsatisfactory (U), except in the case of one and two-week electives which are graded as Pass (P), Unsatisfactory Remediable (UR), and Unsatisfactory (U).

When written confirmation of a final grade for an M4 course/clerkship has not been received within seven days prior to the student’s scheduled graduation date from the school, the course or clerkship director in consultation with the appropriate departmental chairperson, may assign and have duly recorded on the student’s academic transcript a final grade of P, if the student has met all requirements for that course/clerkship.

Leave of Absence Grading (M1 through M4):

If a student takes a leave of absence, the following policies will apply regarding grading courses/clerkships at the time of the leave:

1. The student will receive a final grade for all courses/clerkships for which they have met all requirements in the course or clerkship syllabus.

2. For courses/clerkships for which the student has not completed all requirements, the student will receive one of the following grades.

   Incomplete (I): Grades of incomplete are applied at CMSRU as described below:
a) **Incomplete (I)** if the student is assigned an I grade to a course/clerkship, the student must complete the course/clerkship requirement before the beginning of the next academic year unless the course/clerkship director, with the concurrence of the associate dean for medical education, has provided a specific alternative time period, not to exceed one year from the completion date of the course/clerkship. If here is a compelling reason that the course/clerkship can’t be completed within the timeframe above, the exception must be approved by the associate dean for medical education.

b) For year-long courses/clerkships, if the student has completed all of the requirements of the fall term at the time of the leave and has maintained a passing grade in all elements, the student will receive an **Incomplete (I)** and will not be required to start that course/clerkship over in the fall term. The student will be permitted to return to complete the second half of the year-long course/clerkship at the beginning of the spring term of the year that student returns from leave. When all course/clerkship requirements are completed, the **Incomplete (I)** will be changed to the final grade the student earns. If the course/clerkship/curriculum is changed between the time the student began their first semester and the return to the curriculum, they may be required to repeat the course/clerkship or the entire first year. This determination will be made by the course/clerkship director and the associate dean for medical education.

**Withdrawn (W):** Grades of W are applied for a course or clerkship, and remain on the student’s record. The **Withdrawn (W)** will be issued if the student will not be completing the course/clerkship requirements and had not completed enough work to determine performance at the time of the leave. The W grade remains permanently on the transcript.

3. No “credit” will be given for completion of a partial term’s work. A student who leaves in the middle of a term without completing all course/clerkship requirements will receive a **Withdrawn (W).** The W grade will remain permanently on the transcript. The student will be required to repeat and complete the course starting at the beginning of the course when the student returns from leave. The course will be listed a second time on the transcript with the final grade the student earns in that course in the academic year that it is taken.

**Grading for students changing to Independent Study after a semester commences:**

a) **Incomplete (I):** If the student is assigned an I grade to a course/clerkship, the student must complete the course/clerkship requirement before the beginning of the next academic year unless the course/clerkship director, with the concurrence of the associate dean for medical education, has provided a specific alternative time period, not to exceed one year from the completion date of the course/clerkship unless there is a compelling reason that must be approved by the associate dean for medical education.

b) For year-long courses, at the time of the change in status request and at the discretion of the course/clerkship director, following consultation with the associate dean for medical education, if the student has maintained a passing grade in all elements, the student will receive an **Incomplete (I)** and will not be required to start that course over in the term they were enrolled in. The student will be permitted to return to complete the second half of the year-long course. At the end of the spring term when all course requirements are completed, the **Incomplete (I)** will be changed to the final grade the student earns. If the curriculum is changed between the time the student initially did their first semester and the return to the curriculum, they may be required to repeat the entire first year.

c) **Withdrawn (W):** For courses that the student has started but has not completed, a **Withdrawn (W)** grade will be assigned. The W grade remains permanently on the transcript.

2. **Narrative Assessments**

   a. **Competency Assessment**

At the conclusion of each course in year one and year two lasting greater than or equal to three weeks, after all the M3 clerkships, and after the required clerkships in M4, a formal written narrative assessment of each student's performance must be submitted to the Office of Medical Education. These comments will become part of the academic record. In year
one and year two, narrative assessments are written by the active learning group (ALG) and Scholar’s Workshop (SW) facilitators and by the course faculty for the Foundations of Medical Practice Course and Ambulatory clerkship. M3 and M4 clerkship directors provide the narrative assessment in years three and four.

i. Mid-course and Mid-Clerkship Assessment

Interim formative evaluative comments from the ALG, SW, and FMP facilitators, clinical preceptors, and/or clerkship directors made directly to the student are required during all courses and clerkships, including the Cooper Longitudinal Integrated Clerkship (CLIC) in year three. Such interim assessments must be given at approximately the mid-point of each course or clerkship when faculty communicate to each student information concerning the student’s performance to date and, as appropriate, recommendations for improvement.

ii. Final Written Report

Within four weeks of the conclusion of each course in Phase 1 of the curriculum, ALG facilitators, and Ambulatory Clerkship course directors must submit to the associate dean for medical education, a written narrative report for each student assigned to their group. Scholar’s Workshop and Foundations of Medical Practice faculty members submit these reports at the mid-point and the end of the academic year. The narrative report is submitted via one45 by the facilitator and should address the CMSRU competencies. Similarly, within six weeks of the conclusion of an inpatient or ambulatory block in the third year and required clerkships in the fourth year, the clerkship director must submit to the OME a written narrative report for each student assigned to that clerkship. The associate dean for medical education will review all reports and, refer students as needed to the director of professionalism for issues of professionalism. The director of professionalism may refer the student to the Academic Standing Committee.

iii. Errors in Statements of Fact in Narratives

If any student feels that there are errors of fact in any student narratives, a request to have that narrative amended must be submitted to and reviewed by the associate dean for medical education within three days of receiving their narrative report.

B. Standing of Students

Students are placed into one of the following two categories by the Academic Standing Committee based upon their academic performance:

1. In good standing

   The status of “good standing” indicates that the student is eligible to continue at CMSRU, to return to CMSRU, or to transfer elsewhere. It implies good academic progress as well as good citizenship.

2. Not in good standing

   The status of “not in good standing” indicates that the student is not eligible to progress in the CMSRU medical education program due to an academic or citizenship issue. If a student is on probation they are “not in good standing” and must successfully complete the requirements to be removed from probation to be able to have their status changed to “in good standing”. Students who have been dismissed from CMSRU are unable to re-enroll at CMSRU.

   All decisions made by the Academic Standing Committee regarding the standing of students are final. See Satisfactory Academic Progress (SAP) policy regarding financial aid implications.
IV. THE PROMOTIONAL SYSTEM

A. Phase 1

Students are required to achieve final grades of Pass (P) or Remediated Pass (RP) in addition to a satisfactory narrative review in all Phase 1 courses/clerkships in order to be promoted to the next academic year and to take the USMLE Step 1 examination at the end of the M2 year.

- The passing grade for all courses in Phase 1 is 70.00 and minimal competency for all summative written and practical examinations in a course is set at a score of 60.00. Any score on a summative written or practical examination below 60.00 will result in an unsatisfactory grade (U or UR) in the course, regardless of the overall course score.
- In M1 and M2 Foundations of Medical Practice, students must pass each end-of-year OSCE domain with a score of greater than or equal to 60.00. A score below 60.00 will result in an unsatisfactory grade (U or UR), regardless of the overall course score.
- Students are required to pass all courses and clerkships in Year 1 to be promoted to Year 2.
- Students are required to pass all courses and clerkships in Year 2 to be promoted to Phase 2: Year 3.
- A student who receives an unsatisfactory grade in up to 3 or more courses in an academic year in Phase I will be permitted to remediate up to two of the unsatisfactory grades before being reviewed for dismissal by the Academic Standing Committee, notwithstanding their remediation.
- A student who chooses to repeat a year without having successfully completed all the academic requirements for that year will be placed on academic probation since he/she has not successfully remediated the courses and is choosing to repeat them.
  - **M1 Fundamentals special circumstances:** The M1 Fundamentals course is a 16-week course with four individual blocks. Student scores are averaged throughout the course to calculate the final grade. Given the critical nature of this course in the academic development of a CMSRU medical student, the following applies:
    - A student must achieve an average grade of 70.00 or above for the four blocks to pass the course, with a minimum score of 60.00 in each of the block examinations.
    - A student with an unsatisfactory block score in up to two block modules in this course may remediate the course at the end of the academic year if the student’s overall course average is below a 70.00.
    - A student with an unsatisfactory grade in three of the course blocks must repeat the course the following academic year and will not be allowed to progress in the remainder of the M1 curriculum regardless of course average. The student will be placed on academic probation.
- A student who fails to remediate an unsatisfactory grade in 1 course/clerkship will be placed on academic probation and must repeat the course/clerkship in the subsequent year. A student will not be permitted to advance to the next academic year until the course/clerkship has been successfully completed. If the student is unsuccessful in their repeated course/clerkship, they will not be permitted to remediate the repeated course/clerkship and they will be reviewed for dismissal by the Academic Standing Committee. A student may register for an Independent Study during this time, but is not permitted to take courses/clerkships/electives from the next academic year’s curriculum.
- A student who fails to remediate 2 courses/clerkships must repeat the year, and will be placed on academic probation. The student must retake the courses/clerkships in the academic year and pass all to move to the next academic year in the curriculum. If the student is unsuccessful in any of their repeated courses/clerkships, they will not be permitted to remediate the repeated courses/clerkships and they will be reviewed for dismissal by the Academic Standing Committee.
- A student who receives a final grade of unsatisfactory remediable (UR) grade in 3 or more courses/clerkships within the same academic year will be reviewed by the Academic Standing Committee for dismissal. This is notwithstanding any successful remediation of the courses or clerkships in which a UR grade was awarded.
A student with an identified area of concern about their professionalism in their course narratives may be referred to the director of professionalism for review and action, which may include non-academic or academic probation and/or review for dismissal.

### Phase 1

<table>
<thead>
<tr>
<th>Event</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fail 1 course/clerkship</td>
<td>Remediate the failure, if unsuccessful, placed on academic probation and repeat the course/clerkship. If unsuccessful in the repeated course/clerkship, remediation is not permitted. The student is reviewed for dismissal by the academic standing committee.</td>
</tr>
<tr>
<td>Fail 2 courses/clerkships</td>
<td>Remediate the failures, if unsuccessful, placed on academic probation and repeat the non-remediated courses. If unsuccessful in any of the repeated courses/clerkships, remediation is not permitted. The student is reviewed for dismissal by the academic standing committee.</td>
</tr>
</tbody>
</table>
| Fail 3 or more courses/clerkships | Review for dismissal  
Note: Failures in longitudinal courses will be awarded immediately when they occur in the academic year. All students are reviewed at the end of the remediation period after the M1 and M2 years, for three or more failures. Students may remediate no more than 2 of the failed courses/clerkships. Review for dismissal is notwithstanding remediation. |
| Fail 3 M1 Fundamentals Blocks | The student is placed on Independent Study or Leave of Absence for the remainder of that academic year. They must repeat the entire M1 year and are placed on academic probation pending a successful outcome. If the student is unsuccessful in their repeated Fundamentals course, remediation is not permitted. Students will be reviewed for dismissal. |

### B. Phase 2

- Students are required to pass all courses and clerkships in Year 3 to be promoted to Year 4 and take the USMLE Step 2 CK and CS examinations.
- In the M3 year, a student must successfully complete all assessment components of his/her course and clerkship requirements. A student who needs to remediate assessment components for courses or clerkships during the M3 year must do so within 21 calendar days of the close of the academic year or the awarding of the final course grade, whichever is later, unless there are extenuating circumstances. Remedial examinations held after the M3 year will delay entry in the M4 year. A student who needs to remediate any portion of an M3 course or clerkship can only receive a final grade of Remediated Pass (RP) in those courses or clerkships. A student who fails to remediate a course/clerkship will be placed on academic probation, must repeat the course/clerkship, and cannot advance in the curriculum. If the student is unsuccessful in their repeated course/clerkship, they will not be permitted to remediate the repeated course/clerkship and they will be reviewed for dismissal by the Academic Standing Committee.
In the M3 year, minimal competency for all clerkship NBME Subject examinations is set at 2 standard deviations below the national mean for the most recent published national means for each of the subject examinations. Any score below the posted pass score will result in an unsatisfactory grade (U or UR) in the clerkship regardless of the overall clerkship score.

In the M3 year, minimal competency for all clerkship summative clinical assessments is set as the mean score for all competency domains at greater than or equal to 4.00 on the CMSRU Scale of 1-9. Any mean score below the 4.00 will result in an unsatisfactory grade (U or UR) in the clerkship regardless of the overall clerkship score.

In the M3 summative OSCE, students must pass each OSCE domain with a score of greater than or equal to 60.00. A score below 60.00 will result in an unsatisfactory grade (U or UR) in the CLIC, regardless of the overall clerkship score.

Students failing the M3 Scholar’s Workshop course only will be promoted to Year 4 with contingency and must remediate that course during Year 4.

- Students are required to pass all M4 clerkships and electives, USMLE Step 2 CK and CS, and satisfactorily complete their Scholar’s Workshop capstone project to be eligible for graduation.
- A student who receives a final grade of UR in four M3 courses or clerkships or three M4 courses or clerkships in an academic year will be reviewed by the Academic Standing Committee for dismissal. They will be permitted to remediate up to two of the unsatisfactory courses or clerkships before being reviewed for dismissal by the Academic Standing Committee, notwithstanding their remediation.
- A student with an identified area of concern in their clerkship narrative assessments may be referred to the director of professionalism for review and action, which may include academic or non-academic probation and/or review for dismissal.

<table>

<tbody>
<tr>
<td>Fail 1 M3 course/elective/clerkship</td>
<td>Remediate the failed course, elective, or clerkship, if unsuccessful, placed on academic probation and repeat the course/elective/clerkship. If unsuccessful in the repeated course/elective/clerkship, remediation is not permitted. The student is reviewed for dismissal by the academic standing committee.</td>
</tr>
<tr>
<td>Fail 2 M3 courses/electives/clerkships</td>
<td>Remediate the two failed courses, electives, or clerkships, if unsuccessful, placed on academic probation and repeat the courses/electives/clerkships. If unsuccessful in the repeated courses/electives/clerkships, remediation is not permitted. The student is reviewed for dismissal by the academic standing committee.</td>
</tr>
<tr>
<td>Fail 3 M3 courses/electives/clerkships</td>
<td>Repeat entire M3 year and placed on academic probation. If unsuccessful in any of the repeated courses/electives/clerkships, remediation is not permitted. The student is reviewed for dismissal by the academic standing committee.</td>
</tr>
<tr>
<td>Fail 4 M3 courses/electives/clerkships</td>
<td>Review for dismissal. Note: Failures in longitudinal courses will be awarded immediately when they occur in the academic year. All students are reviewed immediately upon receipt of the fourth unsatisfactory grade.</td>
</tr>
</tbody>
</table>
Students may remediate no more than 2 of the failed courses/clerkships. Review for dismissal is notwithstanding remediation.

| Fail 1 M4 course/elective/clerkship | Immediately stop progression in the M4 year. Remediate the failed course, elective, or clerkship, if unsuccessful, placed on academic probation and repeat the course/elective/clerkship. If unsuccessful in the repeated course/elective/clerkship, remediation is not permitted. The student is reviewed for dismissal by the academic standing committee. |
| Fail 2 M4 courses/electives/clerkships | Immediately stop progression in the M4 year. Remediate the failed courses, electives, or clerkships, if unsuccessful, placed on academic probation and repeat the courses/electives/clerkships. If unsuccessful in the repeated courses/electives/clerkships, remediation is not permitted. The student is reviewed for dismissal by the academic standing committee. |
| Fail 3 M4 courses/electives/clerkships | Immediately stop progression in the M4 year. Review for dismissal. Note: Failures in longitudinal courses will be awarded immediately when they occur in the academic year. All students are reviewed immediately upon receipt of the third unsatisfactory grade. Students may remediate no more than 2 of the failed courses/clerkships. Review for dismissal is notwithstanding remediation. |

| Specific Fall Event | Outcome |
| Fail Scholar’s Workshop | Remedi ate within 21 days from grade posting |

C. USMLE Examinations:

- All students studying for the MD degree at CMSRU are required to pass Step 1 and Step 2 CK and Step 2 CS of the U.S. Medical Licensure Examination (USMLE) as a condition of continued matriculation and of graduation.
  - Step 1 shall be taken prior to beginning Year 3 of the medical school curriculum and no later than the Sunday before the beginning of the M3 year orientation. There will be no extensions of this deadline.
    - Students must successfully complete all academic requirements of the M2 year before they will be permitted to take the Step 1 examination and enter the M3 year. Students will receive a conditional permit to register for the Step 1 examination in October of the M2 year.
    - Rising M2 students are conditionally promoted to the M3 year pending the results of the Step 1 Examination.
    - M2 students who do not matriculate to the M3 year, for any reason (eg, students who are on Independent Study and/or Leave of Absence before taking or re-taking Step 1) are required to take the Step 1 examination prior to April 15th of the year they will matriculate to the M3 year.
  - Step 2 CK (Clinical Knowledge) shall be taken no later than October 15th and Step 2 CS (Clinical Skills) shall be taken no later than September 7th of the calendar year in which medical students are enrolled in Year 4 of the medical school curriculum. There will be no exceptions of these deadlines.
CMSRU Student Handbook

- A student who fails to pass Step 1 on the initial attempt will have two choices:

1. Complete the first block of the M3 year. The student will then enter a temporary Step 1 Prolonged Absence for up to 6 weeks in Block 2 of the M3 year and develop a Step 1 remediation plan approved by the Associate Dean for Medical Education, which must be completed during block 2 of the M3 year.
   - Take Step 1 again within 40 days after completing the first block of the M3 year.
   - Resume the third-year program following the remediation time by entering the next block in the M3 curriculum.
   - Completion of the M3 year will require an extension of time (a minimum of four weeks) to complete all requirements, thus delaying the start of the fourth year.
2. At their request, students may choose to take an Independent Study or a leave of absence for the remainder of the M3 year and begin the M3 year with the subsequent class.

- A student who fails to pass Step 1 on his/her second attempt shall:
  - Stop all activities in the M3 year and be placed on academic probation by the Academic Standing Committee.
  - Be automatically registered in an independent study program or take a leave of absence. The independent study program will be monitored by the Office of Medical Education.
  - Take Step 1 for the third time no later than May 1st of the original third academic year.
  - If the student successfully completes the Step 1 examination, the student may reenter the medical education program.

A student who fails the Step 1 examination a third time shall be reviewed for dismissal by the Academic Standing Committee.

- A student whose M3 year may have been extended for the above reasons and has met all requirements of the Year 3 program may begin his/her Year 4 program. The student will have the option of starting the M4 curriculum late, or choosing a leave of absence or independent study and re-entering the Year 4 program with the subsequent class. The amount of time extended into the M4 year may have an impact on a student’s ability to graduate on-time.

- A student who does not take Step 2 CK by October 15th and CS by September 7th of the fourth year shall not be permitted to continue clinical rotations until he/she takes the Step 2 examination(s).

- A student who fails to pass Step 2 CK or 2 CS shall:
  - Take Step 2 CS prior to December 15th or 2 CK prior to January 30th in their M4 academic year.
  - Complete the fourth-year curriculum.

- A student who fails to pass Step 2 CK or 2 CS for the second time can continue in the M4 year and will be placed on academic probation by the Academic Standing Committee. He/she must:
  - Take Step 2 CK or 2 CS for the third time, no later than March 15th and receive a passing score in time to graduate with their current class. A passing score for Step 2 CK and Step 2 CS must be reported to the Office of Medical Education no later than one week prior to graduation in order for the student to be awarded a diploma with his/her class.
  - The student may choose to take a Leave of Absence or an Independent Study to finish out the current academic year. They must take Step 2 CK or 2 CS by May 31st in order to move to the next academic year and finish with the next academic class. A passing score must be received by July 1st in order to continue their academic program. If needed, the student may be registered for an M4 independent study program at some point in the new M4 academic year, to allow for a potential May graduation date of the next year.
A student who fails the Step 2 CK or 2 CS examination three times shall be reviewed for dismissal by the Academic Standing Committee.

D. Promotional Decisions

The associate dean for medical education is responsible for assessing the academic performance of each student. The associate dean for medical education will release final grades to the registrar. The assistant dean for assessment and CQI is responsible for informing any student of his/her status if the grade is a U or UR, and will refer the student to the assistant dean for phase 1 or phase 2 for support in his/her decision-making regarding remediation and the Academic Standing Committee review process for promotional decisions.

For issues related to professionalism within the curriculum, a student’s case is referred to the director of professionalism by the associate dean for medical education. The student is entitled to a meeting with the director of professionalism prior to his/her rendering a decision. The director of professionalism determines if the case should be referred to the Academic Standing Committee for review and possible promotional decision.

Remediation of a Failing Performance

Phase 1 Remediation:

All remediation in all M1 and M2 courses/ clerkships is done after the academic year is concluded. Only one attempt is permitted to remediate by reexamination or other course assessment a UR grade in any course/clerkship. The remediation examination or other assessment will be conducted within 21 calendar days of the distribution of final grades in the M1 or M2 academic year. Remediation examinations are subject to minimal competency scores of greater than or equal to 60.00 in addition to a remediated overall score of 70.00. The final remediation plan and assessments are at the discretion of the course/clerkship directors. Students who fail remediation cannot progress in the curriculum, cannot take the USMLE Step 1 examination, and must repeat the course or clerkship in the following academic year. Students who are unsuccessful in their remediation attempts will be placed on academic probation until they have successfully repeated the failed courses or clerkships. If unsuccessful in their repeated course or clerkship in Phase 1 of the curriculum, the student will be reviewed by the Academic Standing Committee for dismissal.

Phase 2 Remediation:

Remediation for courses and clerkships in the M4 year occurs within 21 days of the posting of the final grade.

- Students will begin the remediation process for failed M3 NBME subject examination assessment components immediately upon completion of the M3 year. This will allow students to matriculate into the M4 year as soon as possible. Other unsatisfactory aspects of the M3 courses or clerkships will be handled on a case-by-case basis to complete the remediation process.
- Remediation in the M4 year is handled on a case-by-case basis and must be completed in time for graduation.
- Only one attempt is permitted to remediate by reexamination or other course assessment a UR grade in any assessment component in the M3 or M4 year. The highest grade a student can earn with successful remediation in any M3 or M4 course or clerkship is a remediated/pass (RP). A student who is unsuccessful in remediation will be placed on Academic Probation, cannot take the USMLE Step 2 CK or CS examinations, and must repeat the course/clerkship as soon as possible. If the student is successful, s/he will be removed from Academic Probation and proceed in the curriculum. If unsuccessful, the student will be reviewed by the Academic Standing Committee for dismissal. Remediation is not permitted for second course/elective/clerkship failures.
- A student who fails three courses, electives, and/or clerkships in the M3 year will be placed on Academic Probation and must repeat the entire M3 year. If the student is successful, s/he will be removed from Academic Probation and enter the medical education program for the M4 year. If the student fails one or
more courses or clerkships in the repeated year, the student will be reviewed by the Academic Standing Committee for dismissal. Remediation is not permitted for second course/elective/clerkship failures.

- Students who fail four courses, electives, and/or clerkships in the M3 year will be reviewed by the Academic Standing Committee for dismissal.
- A student who fails three courses, electives, and/or clerkships in the M4 year will be reviewed by the Academic Standing Committee for dismissal. All students are reviewed immediately upon receipt of the third unsatisfactory grade. Students may remediate no more than 2 of the failed courses/clerkships. Review for dismissal is notwithstanding remediation.

**Remediation Process:**

Students will follow a plan developed for course/clerkship/elective remediation by the course director(s)/clerkship director(s). The plan will be developed, regardless of the student’s intent to appeal the final grade, within fourteen (14) days of student notification of unsuccessful performance in a course/clerkship/elective, except in the last course, elective, or block in an academic year when the plan is developed within 3 days. The plan will be implemented after completion of the academic year. The course/clerkship/elective director(s) will:

1. Within seven (7) days of notification of unsuccessful performance, meet with the student to help identify his or her obstacles to achieving satisfactory performance
2. Meet with course/clerkship/elective faculty, as necessary, to discuss the student’s learning needs and plan remedial experiences
3. Work with the Phase 1 or Phase 2 assistant dean to create a written plan for remediation, including:
   a. goals
   b. method(s) of study/practice
   c. duration of the program
   d. frequency of meetings between the student and designated faculty or course/clerkship director
   e. planned assessments
4. Share the proposed program with the assistant dean for assessment and CQI and the associate dean for medical education for their review and written approval. In the event the student is in Year 3, the M3 director will be required to review and approve the plan. For students in Year 4, the M4 director will be required to review and approve the plan.
5. Review the plan with the student within one week of the original meeting.
6. Present the student with the written plan, which will be signed by the student.
7. Carry out the plan after completion of the academic year. If the student successfully remediates, the grade is changed from a UR to an RP. In the case of a clerkship needing remediation, the highest grade available for posting will be a RP.
8. If the student fails to remediate, the grade is converted to a U and the student is referred to the Academic Standing Committee for promotional review.

V. **PROBATION**

A. **Academic**

A student shall be placed on academic probation by the Academic Standing Committee:

- when the student has unsuccessfully completed the remediation process for a course/clerkship and/or is required to repeat a course/clerkship due to unsatisfactory academic performance;
- when a student is repeating an academic year; or
- When a student fails a USMLE Step 1, Step 2 CK, or Step 2 CS examination for the second time.
- See Satisfactory Academic Progress (SAP) Policy regarding financial aid implications.

A student shall be removed from academic probation by the Academic Standing Committee:
• when the student has successfully completed a repeated course/clerkship due to unsatisfactory academic performance;
• when a student has successfully completed all courses and clerkships in a repeated academic year; or
• when a student passes a USMLE Step 1, Step 2 CK, or Step 2 CS examination on the third attempt.

All decisions made by the Academic Standing Committee regarding the academic status of students are final.

A student who is on probation in either Phase 1 or Phase 2 of the curriculum and fails a course or clerkship for the second time shall be reviewed by the Academic Standing Committee for dismissal.

B. Non-Academic

Professionalism is a core competency of the CMSRU curriculum. All matters related to professionalism within the curriculum are reviewed by the director of professionalism. When, in narrative comments evaluating a student, or other communication such as a Professionalism Intervention Report, faculty members express concern about a student’s professionalism, the director of professionalism may, after discussion with the faculty, and/or course/clerkship director, and/or the associate dean for medical education, and/or the assistant dean for student affairs, refer the student to the Academic Standing Committee for review. If the Academic Standing Committee places a student on non-academic probation, the chair of the Academic Standing Committee will forward the decision to the director of professionalism. The Executive Cabinet of Deans at CMSRU will provide the conditions for removal from non-academic probation. The director of professionalism will notify the student of their status and will state in writing the specific duration and conditions of the probationary status. The director of professionalism is responsible for monitoring the student’s adherence to the conditions of the probation. The director of professionalism will inform the Academic Standing Committee of the student’s progress. If a student completes the requirements of their probation, they will be removed from probationary status and informed in writing by the Academic Standing Committee. If a student does not complete the requirements of their probation, they will be reviewed for dismissal by the Academic Standing Committee. All decisions made by the Academic Standing Committee regarding the academic status of students are final.

Students who are currently on academic probation, and are subsequently reviewed for and placed on non-academic probation, or vice versa, will be reviewed for dismissal.

VI. GRADE APPEALS

A grade appeal may be made only on the basis of a Procedural Irregularity: a documented error in, or divergence from, the prescribed or customary process of evaluating and grading students. Appeals will be acted upon favorably only when real, clear and convincing evidence of a procedural irregularity. Testing conditions that are not identical to prior testing conditions are not necessarily a procedural irregularity. The student should include all relevant information in the first level of the appeal, as that constitutes the basis for appeal process from the course or clerkship director through the Academic Standing Committee. The basis of the appeal cannot be modified once the appeal is submitted.

Extenuating circumstances will not be accepted as the basis for a grade appeal. Extenuating circumstances may represent the basis for a postponement of an assessment event. Students must present evidence for extenuating circumstances related to course or clerkship assessments to the Chief Student Affairs Officer before an assessment event. Excuses will not be accepted after the assessment event and are not considered procedural irregularities associated with the course or clerkship requirements or assessment activities.

Students may begin remediation during a grade appeals process for courses or clerkships with unsatisfactory grades and not involved in the appeal. A student who receives a final grade of UR in three courses or clerkships in an academic year in Phase 1 will be reviewed by the Academic Standing Committee for dismissal. A student who receives a final grade of UR in four M3 courses or clerkships or three M4 courses or clerkships in an academic year
will be reviewed by the Academic Standing Committee for dismissal. This is notwithstanding any successful remediation of the courses or clerkships in which a UR grade was awarded.

Appealing a Course or Clerkship Assessment Score or Grade

1. Appeal to the Course/Clerkship Director

A student who believes that there is a procedural irregularity with his/her course/clerkship grade including course and clerkship data (e.g., examination performance or narrative assessments) must first appeal the grade to the course/clerkship directors within three (3) working days of having been notified of the grade. For year-long courses with multiple assessments, the student may submit an appeal for a failed assessment within three (3) working days of having been notified of the failing assessment score. The student submits the Grade Appeal Form to the course/clerkship directors with a copy to the Office of Medical Education administrative assistant. The Office of Medical Education administrative assistant monitors and documents the process so that all steps in the appeal process are followed correctly. The course/clerkship directors, in consultation with the course/clerkship teaching faculty, will review the grade appeal and notify the Office of Medical Education administrative assistant of the decision within five (5) working days of the appeal. The Office of Medical Education will then notify the student of the appeal outcome.

2. Appeal to the Office of Medical Education

If the student believes that the decision reached by the course/clerkship directors is unjustified, s/he may appeal that decision, in writing, to the director of curriculum and student development in the Office of Medical Education. The written appeal must be made within three (3) working days of receiving notice upholding the original grade from the course/clerkship directors. The administrative assistant in the Office of Medical Education monitors and documents this process. The director of curriculum and student development in the Office of Medical Education reviews the appeal and offers a decision within five (5) working days. If the director of curriculum and student development in the Office of Medical Education upholds the grade as recorded by the faculty, the student may then appeal the grade to the Academic Standing Committee.

3. Appeal to the Academic Standing Committee

If the student is dissatisfied with the decision reached by the director of curriculum and student development in the Office of Medical Education, s/he may appeal that decision, in writing, to the Academic Standing Committee. The written appeal must be made within three (3) working days of receiving notice upholding the original grade and is monitored and documented by the Office of Medical Education administrative assistant. The Academic Standing Committee reviews the appeal and offers a decision within seven (7) working days. The decision of the Academic Standing Committee is final. The decision is communicated to the student, the course/clerkship directors, and the Office of Medical Education by the Academic Standing Committee. The course/clerkship directors implement the decision of the Academic Standing Committee.

4. Actions: An action in favor of a student does not imply wrongdoing by the course or clerkship directors, faculty, or the administration.

Appealing an M3 Block Clerkship Clinical Assessment

1. Appeal to the Clerkship Director

A student who believes that there is a procedural irregularity with their clerkship grade must first appeal his/her grade to the clerkship directors within five (5) working days of having received the assessment score. The student submits the M3 Block Clinical Assessment Appeal Form to the clerkship directors with a copy to the administrative assistant in the Office of Medical Education. The administrative assistant in the Office of Medical Education monitors and documents the process so that all steps in the appeal process are followed correctly. The
clerkship directors, in consultation with the clerkship teaching faculty, will review the assessment score and notify the administrative assistant in the Office of Medical Education of the decision within five (5) working days of the appeal. The Office of Medical Education will notify the student of the appeal outcome.

2. Appeal to the Office of Medical Education

If the student believes that the decision reached by the clerkship directors is unjustified, s/he may appeal that decision, in writing, to the director of curriculum and student development in the Office of Medical Education. The written appeal must be made within three (3) working days of receiving notice of upholding the original assessment score from the clerkship directors. The administrative assistant in the Office of Medical Education monitors and documents this process. The director of curriculum and student development in the Office of Medical Education reviews the appeal and offers a decision within five (5) working days. If the director of curriculum and student development in the Office of Medical Education upholds the assessment score as recorded by the faculty, the student may then appeal the score to the Academic Standing Committee.

3. Appeal to the Academic Standing Committee

If the student is dissatisfied with the decision reached by the director for curriculum and student development in the Office of Medical Education, s/he may appeal that decision, in writing, to the Academic Standing Committee. The written appeal must be made within three (3) working days of receiving notice of upholding the original assessment score and is monitored and documented by the administrative assistant in the Office of Medical Education. The Academic Standing Committee reviews the appeal and offers a decision within seven (7) working days. The decision of the Academic Standing Committee is final. The decision is communicated to the student, the clerkship director, and the Office of Medical Education by the Academic Standing Committee. The clerkship directors implement the decision of the Academic Standing Committee.

4. Actions: An action in favor of a student does not imply wrongdoing by the course or clerkship directors, faculty, or the administration.

VII. PROMOTIONAL APPEALS

Appealing Promotional Decisions

All information pertaining to a student's academic promotion and professional attributes, including that contained in departmental files, may be utilized in the appeals processes described below. Appeals may be based upon procedural irregularity or extenuating circumstances.

Extenuating Circumstances are severe and documented situations which were beyond the student's control and which prevented the student from performing in a manner truly reflective of his/her knowledge and skills.

Students may begin remediation during a promotional appeals process for up to two courses/ clerkships. A student who receives a final grade of UR in three courses or clerkships in Phase 1, or UR in four courses or clerkships in M3, or three courses or clerkships in M4 during an academic year will be reviewed by the Academic Standing Committee for dismissal. This is notwithstanding any successful remediation of the courses or clerkships in which a UR grade was awarded.

1. Academic Performance Appeals to the Ad Hoc Committee for Student Appeals

Process of Appeal

- A student may appeal the promotional decision of the Academic Standing Committee by requesting that the associate dean for medical education or his/her designee convene an Ad Hoc Committee for Student Appeals within 10 working days of the notice from the Academic Standing Committee decision. The appeal is made through the associate dean for medical education in the Office of Medical Education. The process is monitored and documented by the administrative assistant in the Office of Medical Education.
• The associate dean for medical education or designee convenes an Ad Hoc Committee for Student Appeals that shall be composed of five members of the faculty who are not advisory college directors, members of the Academic Standing Committee, or the Curriculum Committee. Potential members are queried by the associate dean for medical education regarding conflicts of interest. The chair will be elected from among the Ad Hoc Committee for Student Appeals committee members.

• The Ad Hoc Committee for Student Appeals shall hear the appeal and provide a decision within fifteen (15) working days of receiving written notice of intent to appeal.

• The student shall be given at least 72 hours’ notice of the time and place of the committee’s hearing. The student may provide a written and/or an oral statement to the committee at the hearing.

• At the discretion of the student making the appeal, one individual may accompany him/her to the hearing in the capacity of advisor and/or advocate. The advisor/advocate has no voice in the appeal process. All other advocacy efforts must be in the form of written communications to the committee, and must be received by the committee no later than 48 hours preceding the time scheduled for the start of the appeals hearing.

• The decision of the ad hoc committee shall be communicated orally and in writing to the dean or designee and will be final. The dean shall communicate this final decision to the student.

• If the appeal is successful, an Academic Improvement Plan to address the student’s academic deficiencies will be developed by the Executive Cabinet of Deans. This academic plan is not appealable and may include a repeat of all courses/clerkships in the academic year including courses/clerkships where foundational knowledge is deemed poor even if there was a passing grade.

• An action in favor of a student does not imply wrongdoing by the faculty or the administration.

2. Non-academic Performance Appeals to the Ad Hoc Committee for Student Appeals

Promotional decisions based solely on non-academic issues related to professionalism, when other competencies within the curriculum are not an issue, are made by the Academic Standing Committee. A student may appeal the decision of the Academic Standing Committee for reasons of procedural irregularity or extenuating circumstances.

Process of Appeal

• A student may appeal the non-academic performance promotional decision of the Academic Standing Committee by requesting that the associate dean for medical education or designee convene an Ad Hoc Committee for Student Appeals within 10 working days of the notice from the Academic Standing Committee decision. The appeal is made through the associate dean for medical education in the Office of Medical Education. The process is monitored and documented by the Office of Medical Education administrative assistant.

• The associate dean for medical education or designee convenes an Ad Hoc Committee for Student Appeals that shall be comprised of five members of the faculty who are not advisory college directors, members of the Academic Standing Committee, or the Curriculum Committee. Potential members are queried by the associate dean for medical education regarding conflicts of interest. The chair will be elected from among the Ad Hoc Committee for Student Appeals committee members.

• The Ad Hoc Committee for Student Appeals shall hear the appeal and provide a decision within fifteen (15) working days of receiving written notice of intent to appeal.

• The student shall be given at least 72 hours’ notice of the time and place of the committee’s hearing. The student may provide a written and/or an oral statement to the committee at the hearing.

• At the discretion of the student making the appeal, one individual may accompany him/her to the hearing in the capacity of advisor and/or advocate. The advisor/advocate has no voice in the appeal process. All other advocacy efforts must be in the form of written communications to the committee, and must be received by the committee no later than 48 hours preceding the time scheduled for the start of the appeals hearing.

• The decision of the ad hoc committee shall be communicated orally and in writing to the dean or designee and will be final. The dean shall communicate this final decision to the student. If the appeal is successful, a Performance Improvement Plan to address the student’s professionalism deficiencies will be developed by the Executive Cabinet of Deans. The performance plan is not subject to appeal.

• An action in favor of a student does not imply wrongdoing by the faculty or the administration.
ACCELERATED THREE YEAR CURRICULUM

A student in the accelerated three-year curriculum (referred to in this section as student) may change to the four-year track if it is felt to be in the student’s best interest academically or professionally.

- COURSE REQUIREMENTS AND SEQUENCING
  - The curriculum of this program is divided in three curricular years that must be completed in the prescribed sequence. Phase 1 comprises the M1 and M2 curricular years. Phase 2 comprises the M3 year and Sub-internship. All courses and academic requirements of a particular year must be completed satisfactorily before a student may begin any course or clerkship in the ensuing curricular year. All required courses of the curriculum, including the required number of elective weeks, must be completed satisfactorily before a student may be certified for graduation.

- ASSESSMENT AND STANDING OF STUDENTS
  - Identical to the applicable portions of Section III. ASSESSMENT AND STANDING OF STUDENTS

- THE PROMOTIONAL SYSTEM
  - Phase 1
    1. Identical to Section IV.A. Phase 1 with the following conditions for mandatory conversion from the three-year curriculum to the four-year curriculum:
      a. A student who receives an unsatisfactory grade in 2 courses in an academic year in Phase 1, regardless of successful remediation.
      b. A student who fails to remediate an unsatisfactory grade in one course/clerkship
      c. A student who chooses to repeat a year without having successfully completed all the academic requirements for that year
      d. In Fundamentals, a student who has an unsatisfactory score in 2 block modules
  - Phase 2
    1. Identical to Section IV.B. Phase 2 with the following conditions for mandatory conversion from the three-year curriculum to the four-year curriculum:
      a. Based on NBME subject exam performance in an accelerated three-year curriculum clerkship:
        i. A student who receives an unsatisfactory grade in 2 clerkships, or one clerkship and the Scholar’s Workshop, regardless of successful remediation.
        ii. A student who fails to remediate an unsatisfactory grade in one course/clerkship
      b. Based on global clinical assessment in an accelerated three-year curriculum clerkship:
        i. A student who fails one clerkship.
      c. A student who receives an unsatisfactory grade in the sub-internship
      d. A student who receives an average of less than 4 on any summative CLIC assessment.
      e. A student who chooses to repeat the year without having successfully completed all the academic requirements for the year
        i. This decision must be communicated to the Director of the PC3 Curriculum no later than February 1 of the M3 year.
  - USMLE Examinations
    1. Identical to Section IV.C. USMLE Examinations with the following special conditions:
      a. Students must achieve a passing score in Step 1 and both components of Step 2 before June 1st of the accelerated M3 year to begin residency training at the completion of the accelerated M3 year.
      b. Step 1:
i. A student who fails Step 1 will be allowed one other attempt:
   1. Step 1 must be retaken before September 30th of the M3 year

ii. A student who fails Step 1 on the second attempt must convert from the three-year curriculum to the four-year curriculum
   1. The student will get credit for M3 courses and clerkships successfully completed
      a. Any P grade will be converted to the H/HP/P system by interpolation with the grades of the standard M3 cohort at the end of the academic year.

   c. Step 2:
      i. Students must take USMLE Step 2 CS by January 20th of the M3 year
      ii. Students must take USMLE Step 2 CK by February 15th of the M3 year
      iii. Students who fail either component of Step 2 must convert from the three-year curriculum to the standard four-year curriculum. The student
         1. will get credit for the M3 courses and clerkships successfully completed
            a. Any P grade will be converted to the H/HP/P system by interpolation with the grades of the standard M3 cohort at the end of the academic year.
            2. will enroll in the M4 year in the following academic year
            3. will retake the failed Step 2 component(s) no later than August 31st of the M4 year.

• PROMOTIONAL DECISIONS
  • Identical to Section IV.D. Promotional Decisions, except
    1. Students will begin the remediation process for a failed M3 clerkship, based on NBME subject exam performance only, after Block 6, notwithstanding any ongoing appeal of the grade.
       a. Remediation must be completed no later than March 8th.
    2. A student who leaves the accelerated three-year curriculum during the M3 year, either by mandate or by choice, will get credit for the clerkships successfully completed (including the associated NBME subject examinations).
       a. The P grade will be converted to the H/HP/P system by interpolation with the grades of the standard M3 cohort at the end of the academic year.

• PROBATION
  • Identical to Section V. PROBATION.

• GRADE APPEALS
  • Identical to Section VI. GRADE APPEALS.

• PROMOTIONAL APPEALS
  • Identical to Section VII. PROMOTIONAL APPEALS.

*Policy Addendum – March 30, 2020

Given the situation with the COVID-19 pandemic beginning on March 18, 2020, deadlines for grade and promotional appeals may be exceeded due to the availability of staff and committee members. This will remain in place during the COVID-19 pandemic or similar situation going forward.

The medical school may change the deadlines for grades, promotional appeals, and graduation requirements as necessitated by natural disasters or other events outside of the control of the medical school. During these circumstances, the medical school will ensure that changes are reviewed by the appropriate faculty committee such as Curriculum Committee and/or Academic Standing Committee.
HIPAA Privacy Policy

POLICY:
HIPAA Privacy Policy

PURPOSE:
To insure that all students, faculty, and staff of CMSRU are compliant with the Health Insurance Portability and Accountability Act (HIPAA).

As a Covered Entity under the Health Insurance Portability and Accountability Act of 1996 (“HIPAA”), as amended by the Health Information Technology for Economic and Clinical Health Act of 2009 (the “HITECH Act”), and the implementing regulations for both statutes, Cooper University Health Care (“CUHC”) is required to take certain actions in order to protect the privacy of Protected Health Information (“PHI”). CUHC is also subject to other federal and state laws and regulations intended to protect the confidentiality and privacy of PHI. The purpose of this policy is to set forth CUHC’s responsibilities and activities regarding the privacy of PHI, and to establish the framework for the specific actions that CUHC will take to comply with all relevant requirements for the protection of PHI, and to honor individual rights regarding PHI. These policies, H-001 through H-038 are one element of CUHC’s comprehensive Privacy Compliance Program.

SCOPE:
Candidates for the Doctor of Medicine Degree, faculty, and staff of CMSRU. This policy, while being that of Cooper University Health Care, our primary academic affiliate, will be applicable to our students regardless of the site at which they interact with patients.

DEFINITIONS:
A. **Covered Entity**” means an entity that is subject to the HIPAA Privacy Rule contained in 45 CFR Part 164. A covered entity is either a health plan, a health care clearinghouse or a health care provider who transmits any health information in electronic form in connection with a transaction that is covered by HIPAA.

B. **Protected Health Information**” or “PHI” means individually identifiable health information that is:

1. Transmitted by electronic media;
2. Maintained in electronic media; or
3. Transmitted or maintained in any other form or medium. and
4. excludes individually identifiable health information in:
   a. Employment records held by a covered entity in its role as employer; And
   b. Regarding a person who has been deceased for more than 50 years.

C. **Business Associate”** means a person or entity, other than a member of CUHC’ workforce, who either: (i) on behalf of CUHC, creates, receives, maintains, or transmits PHI for a function or activity regulated by these policies, including claims processing or administration, data analysis, processing or administration, utilization review, quality assurance, patient safety activities, billing, benefit management, practice management and re-pricing; or (ii) provides legal, actuarial, accounting, consulting, data aggregation, management, administrative, accreditation, or financial services to or for CUHC, where the provision of services involves disclosure of PHI.

1. A Business Associate includes any person or company that provides data transmission services with respect to PHI and requires access on a routine basis to PHI
2. Business Associate does not include (1) a health care provider with respect to disclosures by a covered entity concerning treatment of the individual; (2) a health plan sponsor with respect to disclosures by a health plan to the sponsor; (3) a government agency with respect to determining eligibility for enrollment in a government health plan; or (4) a covered entity participating in an organized health care arrangement performing a function of that arrangement on behalf of the organized health care arrangement.

D. “Correctional Institution” means any penal or correctional facility, jail, reformatory, detention center, work farm, halfway house, or residential community program center operated by, or under contract to, the United States, a State, a territory, a political subdivision of a State or territory, or an Indian tribe, for the confinement or rehabilitation of persons charged with or convicted of a criminal offense or other persons held in lawful custody. Other persons held in lawful custody includes juvenile offenders adjudicated delinquent, aliens detained awaiting deportation, persons committed to mental institutions through the criminal justice system, witnesses, or others awaiting charges or trial.

E. “Designated Record Set” means a group of records maintained by or for a Covered Entity, including the following: (a) the medical records and billing records about individuals maintained by or for a covered health care provider; or (b) used, in whole or in part, by or for the Covered Entity to make decisions about individuals. A “record” is any item, collection or grouping of information that includes PHI and is maintained, collected, used or disseminated by or for a Covered Entity.

F. “Electronic Protected Health Information” or “EPHI” means PHI that is maintained in electronic media or transmitted by electronic media. EPHI is a subset of PHI.

G. Family Member includes any dependent and any other person who is a first, second, third or fourth degree relative of the individual and further includes relatives by affinity as well as consanguinity (by marriage and by blood)

H. Genetic Information means

1. information about:
   a. The individual’s genetic tests;
   b. The genetic tests of family members of the individual;
   c. The manifestation of a disease or disorder in family members of such individual; or
   d. Any request for, or receipt of, genetic services, or participation in clinical research which includes genetic services, by the individual or any family member of the individual.

2. The genetic information of (i) A fetus carried by the individual or family member who is a pregnant woman; and (ii) Any embryo legally held by an individual or family member utilizing an assisted reproductive technology.

3. Genetic information excludes information about the sex or age of any individual

I. Health Information means any information, including genetic information, whether oral or recorded in any form or medium, that:

1. Is created or received by a health care provider, health plan, public health authority, employer, life insurer, school or university, or health care clearinghouse; and

2. Relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual.
J. “HIPAA Privacy Rule” means the provisions of Title II of HIPAA relating to protecting the privacy of individually identifiable health information, as amended by the HITECH Act and implemented by 45 C.F.R. Parts 160, 162, & 164.

K. “HIPAA Security Rule” means the provisions of Title II of HIPAA relating to securing individually identifiable health information, as amended by the HITECH Act and implemented by 45 C.F.R. Parts 160, 162, & 164.

L. “Individually Identifiable Health Information” or “IIHI” means information provided to a Business Associate by CUHC, or provided to or created by a Business Associate on behalf of CUHC, including demographic information, which is (1) created or received by a health care provider, a health plan, employer, or health care clearinghouse; and (2) relates to the past, present or future physical or mental health or condition of an individual; the provision of health care to the individual; or the past, present or future payment for the provision of health care to an individual; and (i) that identifies the individual; or (ii) with respect to which there is a reasonable basis to believe the information can be used to identify the individual.

M. “Information System” means an interconnected set of information resources under the same direct management control that shares common functionality. A system normally includes hardware, software, information, data, applications, communications, and people.

N. “Law Enforcement Official” means an officer or employee of any agency or authority of the United States, a State, a territory, a political subdivision of a State or territory, or an Indian tribe, who is empowered by law to investigate or conduct an official inquiry into a potential violation of law or to prosecute or otherwise conduct a criminal, civil or administrative proceeding arising from an alleged violation of law.

O. “Lawful Custody” means persons held by law enforcement including juvenile offenders adjudicated delinquent, aliens detained awaiting deportation, persons committed to mental institutions through the criminal justice system, witnesses, or others awaiting charges or trial.

P. “Limited Data Set” means PHI that excludes the following direct identifiers of the individual or of relatives, employers, or household members of the individual: (1) names; (2) postal address information, other than town or city, State, and zip code; (3) telephone numbers; (4) fax numbers; (5) e-mail addresses; (6) social security numbers; (7) medical record numbers; (8) health plan beneficiary numbers; (9) account numbers; (10) certificate/license plate numbers; (11) vehicle identifiers and serial numbers; (12) device identifiers and serial numbers; (13) web URLs; (14) Internet Protocol (IP) address numbers; (15) biometric identifiers, including finger and voice prints; and (16) full face photographic images and any comparable images.

Q. “Unsecured PHI” means PHI that is not rendered unusable, unreadable, or indecipherable to unauthorized individuals through the use of a technology or methodology specified by the Secretary in the guidance issued under section 13402(h)(2) of Public Law 111-5 on the website of the U.S. Department of Health and Human Services. The current version of that guidance, which is subject to annual updates by the Secretary, can be found in hard copy at 74 F.R. 19006 (April 27, 2009) and at the following link: http://www.hhs.gov/ocr/privacy/hipaa/understanding/coveredentities/federalregisterbreachrfipdf

R. “Workforce” means employees, volunteers, trainees, and other persons whose conduct, in the performance of work for CUHC or a Business Associate of CUHC, is under the direct control of such entity, whether or not they are paid by CUHC or the Business Associate.

PROCEDURE:

A. CUHC’s Privacy Compliance Program is an organization-wide initiative intended to meet the requirements of federal and state laws and regulations regarding the confidentiality and privacy of the health information of individuals served by CUHC, including its employees. CUHC’s Privacy Compliance Program is comprised of the following elements:
1. **Policies and Procedures.** The policies and procedures included in the Privacy Compliance Program serve as a set of guidelines for CUHC’s conduct of business with respect to the privacy of PHI that CUHC receives, maintains or otherwise uses or discloses. Policies and procedures are developed to address specific areas of privacy and confidentiality, as required by state and federal laws and accreditory and regulatory requirements. Where there is conflict between such laws, regulations or standards, CUHC generally adopts the most restrictive approach—i.e., the approach that affords the maximum protection to PHI. The policies and procedures that make up CUHC’s Privacy Compliance Program may be revised as necessary, but revisions will be made only in accordance with requirements regarding notice of such revisions contained in CUHC’s Notice of Privacy Practices. This is in keeping with the underlying principle of the Privacy Compliance Program—that individuals have certain rights with respect to their PHI, and that CUHC has certain complementary duties and obligations regarding PHI.

2. **Chief Privacy Officer.** CUHC’s privacy official is its Chief Information Assurance and Privacy Officer who reports to the Chief Compliance Officer. The Chief Privacy Officer is responsible for overseeing and coordinating all aspects of CUHC’s Privacy Compliance Program. The overall success of the Privacy Compliance Program, however, ultimately depends on the participation and cooperation of the members of CUHC’s workforce and its business associates and contractors.

3. **Training and Education.** The Privacy Compliance Program represents a renewed interest in and attention to the privacy and confidentiality of health information. While many of the components of the Privacy Compliance Program are not new requirements for CUHC, HIPAA does require us to re-examine our practices and work methods to ensure compliance, and to implement changes and additional levels of protection where necessary. Training and education is the key to the success of CUHC’s Privacy Compliance Program, and CUHC is committed to providing the appropriate training to all affected employees to help ensure the success of the Privacy Compliance Program.

4. **Complaint Investigation.** In recognition of the fundamental right to privacy that individuals have regarding their health information, CUHC investigates each complaint where an individual believes his/her privacy rights have been violated. CUHC undertakes such investigations in a non-discriminatory manner, so that individuals exercising their right to lodge a complaint should not be discouraged from doing so for fear of retaliation or reprisal. Open lines of communication, whether from individual subjects of PHI, employees or others, are a key element to the success of CUHC’s Privacy Compliance Program.

5. **Disciplinary Actions.** As an indication of the seriousness with which CUHC undertakes its responsibility to protect individuals’ rights regarding the privacy of their health information, violations of or non-compliance with CUHC’s Privacy Compliance Program will be dealt with through disciplinary action. Such actions are taken as necessary only after a full investigation of the facts and circumstances surrounding a particular allegation of a violation or instance of non-compliance.

6. **Auditing and Evaluation.** Compliance with the Privacy Compliance Program is a valuable indicator of its success. Compliance is measured periodically as a part of CUHC’s quality improvement program.

7. **Corrective Action Initiatives.** Violations of or non-compliance with CUHC’s Privacy Compliance Program threaten its status as a reliable, honest and trustworthy health care provider. In addition to any individual actions taken in response to complaint investigations, the Privacy Compliance Program is evaluated periodically to identify opportunities for systematic, program-wide improvement. The Privacy Compliance Program will also be revised accordingly as laws, regulations and accreditation standards evolve. Corrective actions may also be taken in connection with external reviews, such as compliance reviews undertaken by the Department of Health and Human Services.
Academic Workload Policy for Pre-Clinical Years

POLICY:

Academic Workload Policy for Pre-Clinical Years

PURPOSE:

A primary goal of CMSRU is to provide a quality education for medical students. In doing so, CMSRU recognizes the importance of creating an atmosphere that encourages students to maintain a healthy balance between required academic activity and a lifestyle focused on wellness. Therefore, it is important to develop policies that define limitations of scheduled educational sessions within the curriculum, so as to simultaneously maximize educational benefits and limit fatigue which may impair the student's ability to learn. A current duty hour policy exists for the educational program during the clinical years at CMSRU (M3 and M4). This policy will specifically address academic workload during the pre-clinical years (M1 and M2) and will also provide for allotment of time on a weekly basis for students to engage in self-directed, independent learning. The method of oversight and monitoring of the effectiveness of this policy by the Curriculum Committee and Office of Medical education is also discussed.

SCOPE:

Candidates for the Doctor of Medicine degree (M.D.)

DEFINITIONS:

In-class activity: An in-class activity refers to an educational session that appears on the weekly academic schedule and involves presentation of curricular content through direct interaction between medical students and faculty. Although these sessions appear on the weekly academic calendar, not all sessions are considered mandatory (e.g. attendance is required).

Required out-of-class activity: A required out-of-class activity refers to an educational activity that is required to be completed outside of scheduled class time, generally in preparation for a scheduled in-class activity. Examples of required out-of-class activities include, but are not limited to, case preparation for Active Learning Group, reading of assigned literature for Scholars’ Workshop sessions, and review of material (e.g. a recorded lecture) prior to an in-class flipped lecture. Required out-of-class activities do not include time to study material presented in in-class activities.

Self-directed learning time: Self-directed learning time refers to blocks of time built into the weekly academic calendar to allow students to identify, analyze, and synthesize information relevant to their own learning needs. Self-directed learning time also allows students the time required to complete required out-of-class activities or to prepare for in-class activities. The actual activities that occur during self-directed learning time are at the discretion of the student.

Mandatory educational session: A mandatory educational session refers to an educational session that appears on the weekly academic calendar, at which student attendance is required. Some educational sessions, because of their interactive nature (e.g. Active Learning Groups, Scholars’ Workshop, Foundations of Medical Practice, Ambulatory Clerkship), are always considered mandatory. Other sessions, such as lectures, are not mandatory. Specific descriptions of which educational sessions are designated as mandatory are contained within the syllabus for each course and are at the discretion of the course directors.

PROCEDURE:

The structure of each course within the Phase 1 (pre-clinical) curriculum is developed by the faculty course directors and then approved and subsequently monitored by the Curriculum Committee. The average weekly total academic workload, which includes in-class educational sessions and required out-of-class activities, shall not exceed 40 hours. In the pre-clinical (Phase 1) curriculum at CMSRU, the weekly academic calendar consists of total of 40 hours. These 40 hours are divided between scheduled in-class sessions and self-directed learning time.
The weekly schedule includes no more than 30 hours of scheduled in-class sessions and for most weeks this ranges from 27.5 to 29.5 hours (Note: this excludes attendance to Week-On-the-Wards activities). The format for scheduled in-class sessions includes lectures, small group or team-based learning activities, laboratory or practical sessions, simulation activities, and clinical experiences. These scheduled educational sessions generally occur Monday through Friday between the hours of 8AM and 5PM, although occasionally an Ambulatory Clinic session may extend beyond this time frame, and Week-On-the-Wards activities may include night “floats”. No more than nine hours of scheduled in-class sessions will occur in a single day.

In addition to in-class educational sessions, the weekly academic calendar contains at least ten hours of designated self-directed learning time, although for most weeks this ranges from 10.5 to 12.5 hours. Self-directed learning time is present on most days and generally occurs in blocks of at least two hours. The allotted self-directed learning time will allow sufficient time for students to address their own learning needs, which may include required out-of-class activities or other activities necessary for preparation for in-class sessions. Self-directed learning time is not intended to include additional discretionary study time.

**Monitoring:** On-going central monitoring of the academic workload, including in-class sessions and required out-of-class activities for each pre-clinical course, will be performed by the Office of Medical Education to insure that the established workload guidelines are appropriate and that the actual workload prepared by faculty course directors is in compliance with this policy. The monitoring data collected by the Office of Medical Education will be forwarded to the Curriculum Committee upon the completion of each semester. If individual courses are found to be out of compliance with this policy or the overall policy guidelines are deemed to be inappropriate, the Curriculum Committee will take action to remedy the situation and re-establish compliance.
Medical Student Supervision During Required Clinical Activities Policy

POLICY:
Medical student supervision during required clinical activities

PURPOSE:
In its efforts to ensure excellent medical education and to guard patient and student safety, CMSRU has developed the following policy with the goal of providing guidance for faculty physicians when supervising medical students during clinical activities. The following policy defines the supervision of medical students during clinical activities.

SCOPE:
Candidates for the Doctor of Medicine Degree (M.D.)

PROCEDURE: (specific outline/details of the policy/procedure)

RESPONSIBILITY:
It is the responsibility of the supervising faculty member to ensure policy standards are followed for all students participating in clinical activities.

Medical students participating in patient care must be supervised at all times. The primary supervising physician is an attending physician employed by Cooper University Health Care, or a volunteer physician with a CMSRU faculty appointment, practicing within the scope of his/her discipline as delineated by the credentialing body of the health system.

When resident physicians, clinical post-doctoral fellows or other healthcare professionals are actively involved in medical student supervision during clinical activities, it is the responsibility of the supervising faculty physician to ensure all those personnel are appropriately prepared for their roles for supervision of medical students, and are acting within the scope of their practice.

When the attending physician is not physically present in the clinical area, the responsibility for supervising CMSRU medical students will be delegated to the appropriately-prepared resident physician or clinical post-doctoral fellow at the discretion of the primary attending physician. Students are provided with rapid, reliable systems for communicating with faculty and resident physicians.

Clinical supervision is designed to foster progressive responsibility as students progress through the curriculum. The intensity of medical student supervision in any given situation will depend on the medical student’s level of education and experience, demonstrated competence, and the learning objectives of the clinical experience. Course/clerkship directors will provide specific faculty members and other preceptors with guidance for each clinical experience, including the students’ level of responsibility and scope of approved activities and procedures during the rotation. Clinical faculty preceptors will be knowledgeable about CMSRU Institutional Educational Objectives, clerkship-specific objectives, supervisory recommendations, and access to educational resources, including assessment instruments. Relevant resources will be emailed to faculty prior to the start of the medical student’s clinical experience, and reviewed with them by the clerkship director. They will also be available remotely on the CMSRU Blackboard® and one45®.

First- and second-year medical students will be directly supervised, with the supervising physician present or immediately available, and prepared to take over the care of the patient if needed. Under the direct supervision of the supervising physician, first- and second-year students may participate in history taking, physical examinations and critical data analysis, performing procedures, and may have access to the medical record.

Third- and fourth-year medical students will be directly supervised, with the supervising physician available to provide direct supervision. Students may participate in the care and management of patients, including performing procedures, under the direct supervision of the supervising physician at all times, with patient permission. Clinical interventions are never to be executed by medical students without a supervising physician’s awareness and permission.
Medical student participation in invasive procedures requires direct supervision by the supervising attending physician or credentialed resident physician at all times during the procedure. The supervising physician must have the credentials to perform the procedure being supervised. A student may assist in procedures only when the supervising attending physician agrees that the student has achieved the required level of competence, maturity, and responsibility to perform the procedure.

Supervising physicians and other preceptors are expected to provide opportunities for students to demonstrate responsibility for patient care. These opportunities may be in the form of history-taking; physical examination; reporting and entering findings in the patient’s medical record with the explicit approval of the patient’s supervising attending physician. In all patient care contacts the patient shall be made aware that the individual providing the care and/or performing the procedure is a student. Patients have the right to decline to have a student participate in their care.

The supervising physician will be responsible for reviewing student chart documentation and providing constructive feedback. Medical student findings entered in the medical record of the patient will be for educational and student evaluation purposes only and cannot be used in lieu of any required attending staff or house staff documentation. Students must clearly sign all entries in the medical record, along with the designation that they are medical students. Supervising attending physicians or graduate medical trainees must review student notes. Fourth-year students may enter orders in the electronic medical record but those orders cannot, by virtue of an electronic “hard stop,” be executed until they are countersigned by the supervising attending physician or senior resident.

Note: For billing purposes, the teaching physician must personally verify and redocument the history of present illness (HPI) and personally perform and redocument the physical examination and medical decision-making activities of the service. The teaching physician may refer to the student’s documentation only with respect to Review of Systems and Fast/Family/Social History. (See Cooper Health System Policy 1.220 Teaching Physician Billing Policy.

Supervising faculty physicians or residents must provide medical students with regular, timely, and specific feedback based on their supervision. Supervising faculty will notify the clerkship or course director if there is concern for any potential academic and/or professional gaps in student performance. Should students have any concern regarding clinical, administrative, professional, educational, or safety issues during their rotation, they will be encouraged to immediately contact the supervising physician, clerkship/course director, or the Associate Dean for Student Affairs.

A CMSRU faculty physician who provides medical and/or psychiatric care, psychological counseling, or other sensitive health services to a medical student, or who has a close personal relationship with a medical student, must recuse himself/herself from the supervisory role. In such cases, the faculty physician must have no involvement in assessing or evaluating the medical student’s academic performance, or participating in decisions regarding his/her promotion and/or graduation. The faculty physician and the medical student are advised to immediately contact the appropriate clerkship/course director and/or Associate Dean for Student Affairs should the potential for these conflicts of interest arise.
MSPE Development and Update Policy

PURPOSE:
The Cooper Medical School of Rowan University (CMSRU) prepares the MSPE following the standards set forth by the Association of American Medical Colleges (AAMC) in the Guide to the Preparation of the Medical Student Performance Evaluation. The MSPE is a letter of evaluation, not a letter of recommendation, and is the property and responsibility of CMSRU to provide accurate documentation of the performance of a medical student during their matriculation in the medical education program. Students are permitted to include up to three Noteworthy Characteristics of factual information.

POLICY:
This policy outlines the process and requirements to provide each medical student with the Medical Student Performance Evaluation (MSPE) for the National Resident Matching Program (NRMP) during the M4 year of the medical education program. It includes the process for updating an MSPE by the CMSRU Office of Medical Education as necessary during the NFMP process to ensure that the student, as well as residency programs participating in the NRMP process, have an accurate representation of the student’s performance.

In addition, the NRMP requires a medical school to provide complete, timely, accurate, and up-to-date information on the Medical Student Performance Evaluation that is included in the Match application. In Section 6.7 of the Match Participation Agreement for Medical Schools, the NRMP requires medical schools to update MSPEs to include adverse actions that have been levied against a student for academic or professionalism issues, including convictions of criminal charges that may impact whether a student will be able to obtain a state medical license necessary to enter a training program. The omission of information that would reasonably be considered pertinent to a residency program’s decision to rank an applicant, ascertain circumstances that may adversely impact licensure status, visa status, or the ability to start a training program on time will be considered a violation of the Match Agreement. Prior to graduation, the NRMP requires the medical school to update or attach an addendum to an MSPE that becomes outdated as a consequence of superseding events. In Section 8.0 of the Match agreement, the NRMP is authorized to take appropriate action, including, but not limited to, reporting the violation to the dean of such school and suspending or terminating such school’s access to the R3 Match system.

SCOPE:
This policy applies to M4 students enrolled in the NRMP annual Match process and is enforced by the CMSRU Academic Standing Committee and operationalized through the Office of Medical Education.

PROCEDURE:
The MSPE is compiled by the Office of Medical Education from academic assessments that occurred in the M1, M2, and M3 academic years. Information is compiled relative to the matriculation and academic history from the Office of Medical Education, the CMSRU Registrar, and the Academic Standing Committee. Clerkship information provided in the MSPE is presented in alphabetical order. A summary paragraph is developed for each student that provides a rank statement related to the overall performance of the student: Outstanding (top 20% of the class), Excellent (30% of the class), Very Good (30% of the class), and Good (20% of the class). Memberships in the Alpha Omega Alpha Honor Medical Society, the CMSRU Chiron Honor Society for academic achievement, and the Gold Humanism Honor Society are reported in the summary paragraph, along with CMSRU Service Learning Awards. Graphs are provided representing each student’s performance in the CMSRU medical education program objectives and their categorical rank. The Dean reviews the draft MSPE before it is provided to students, and signs the final copy.

The Office of Medical Education provides each student with the opportunity to review a draft of their MSPE and correct errors of fact. Typically, this process is completed by the Associate Dean for Medical Education, however, each student may choose to have an alternate reviewer. This process for selecting an alternate reviewer is completed confidentially by the Assistant Dean for Assessment and CQI. Students are provided with a final copy of the MSPE that is uploaded on
their behalf by the CMSRU registrar to the Electronic Residency Application Service (ERAS) website on or after October 1 of the student’s final year of the medical education program. The MSPE is part of the student’s permanent academic record. Graduates may obtain a copy of the MSPE for potential employers by contacting the Registrar’s office.

The NRMP requires a medical school to maintain accurate and up-to-date MSPEs throughout the Match Process during a Match Cycle. The NRMP Board of Directors have issued the following statement on May 14, 2018: Prior to graduation, a medical school shall attach an addendum to a MSPE that becomes outdated as a consequence of superseding events.” The NRMP in Section 6.7 of the Match Participation Agreement for Medical Schools “imposes on the school a contractual obligation to evaluate the facts and circumstances related to an individual student and to determine whether they are reasonably pertinent to a program’s determination as to whether an applicant will be able to satisfy the requirements or standards for entry into the program. If so, the information must be reported unless the school is legally prohibited from doing so.” At CMSRU, any adverse action adopted by the Academic Standing Committee that results in an M4 student being placed on academic or non-academic probation for academic or professionalism reasons will be reported on an addendum to their originally submitted MSPE. Similarly, students who are removed from probation in the M4 year will have that information included on the MSPE addendum. All adverse actions and removal from probation prior to the development and upload of the original MSPE on or before October 1 of the M4 academic year will be included on the original MSPE. All students have the opportunity to review their amended MSPE prior to upload by the medical school.

Please note that all policies that apply to the medical education program are available in the CMSRU Student Handbook. http://www.rowan.edu/coopermed/students/files/handbook.pdf

Students will be notified when there is a revision to any policy during an academic year. Please address any questions you may have about the medical education program policies to the Assistant Deans for Phase 1 or Phase 2 or the Associate Dean for Medical Education. Any questions about the NRMP Match program should be directed to the Assistant Dean for Student Affairs.

COVID-19 addendum: Due to the COVID-19 pandemic, changes may be necessary to the MSPE. All guidance supplied by the AAMC will be followed to clearly delineate courses and clerkships impacted by COVID-19 on the MSPE. This same process will be followed for other catastrophic events that may impact the education of medical students and create alterations to the medical education program.
Prolonged Absence Policy

PURPOSE:
To provide a policy guiding students who are not participating in the academic program for more than ten (10) consecutive class or clerkship days. This policy outlines the consequences in terms of promotion, participation in the curriculum, use of the buildings and associated resources, and activities associated with CMSRU outside of the curriculum.

POLICY:
Prolonged Absence Policy

SCOPE:
This policy applies to all CMSRU students.

PROCEDURE:
1. Excused Absence: When a student does not participate in the educational program of CMSRU for ten (10) or more consecutive courses/clerkship days with an official excused absence their status will be reviewed by the associate dean for medical education in collaboration with the assistant dean for student affairs or designee. The Prolonged Absence Request form must be completed and signed by the student. It is the student’s responsibility to consult with all parties listed on the form. Each decision will be reviewed and acted upon individually but the following guiding principles will be followed:
   a. In courses that are more than 5 weeks, the impact on the associated year-long courses will be considered as well as the ALG portion of that course. Repeating the year may be a possibility.
   b. In courses/clerkships that are less than 5 weeks, the student may be asked to repeat the entire year or to repeat that course the following year, and that would involve taking that course in isolation while being on an approved independent study year.
   c. The financial consequences of this decision will be managed by CMSRU Financial Aid Services, as the student’s financial aid package may be affected. If the student does not return to the educational program, a Title IV federal aid calculation based on the start date of the prolonged absence will be conducted, to determine if funding is required to be returned to the student’s respective lender.
      i. These consequences may be based on the academic standing of the student at that time. The Grading Promotions and Appeals Policy will be followed with regard to a students’ academic standing.
      ii. The Grading, Promotions and Appeals Policy will be followed with respect to the number of years to complete each phase of the curriculum.
2. Unexcused Absence: When a student does not participate in the educational program of CMSRU for ten (10) or more consecutive class/clerkship days without being excused the following will occur:
   a. The ID cards for CMSRU and for Cooper University Hospital will be inactivated and must be returned to the Office of Student Affairs.
   b. Parking wafers or hangtags (if applicable) must be returned to the Office of Student Affairs.
   c. Electronic Access to Blackboard and all access to the medical library will be terminated.
   d. The Tuition and Fees Policy will be adhered to with respect to any possible refunds. As per the Tuition and Fees Policy, student fees are not refundable.
3. Dismissal: When a student is dismissed from Cooper Medical School of Rowan University for any reason, and pending their decision to appeal this decision per the Grading, Promotions, and Appeals Policy, the following will occur:

   a. The ID cards for CMSRU and for Cooper University Hospital will be inactivated and must be returned to the Office of Student Affairs.
   b. Parking wafers or hangtags (if applicable) must be returned to the Office of Student Affairs.
   c. Electronic Access including Blackboard and all access to the medical library will be terminated.
   d. The Tuition Policy will be adhered to with respect to any possible refunds. As per that Policy, student fees are not refundable.
   e. The student may return to CMSRU to remove belongings, but will be accompanied by Security staff.
   f. The student must complete a Leave of Absence/Withdrawal form and consult with the appropriate departments referenced on the form.

4. Approved Leave of Absence: A leave of absence is an interruption in the educational curriculum due to medical or personal reasons. Each request for a leave of absence will be reviewed and acted upon individually. The following shall apply to all approved leaves of absence:

   a. A leave of absence may be for either a defined or an undefined period of time, determined by the assistant dean for student affairs or designee. Except in extraordinary circumstances a student may request a leave of absence only for a period of up to one academic year. The student may request an extension to a leave of absence for extraordinary extenuating circumstances

      i. For leaves of absence taken prior to the completion of curricular year two:

         1. A two-year leave of absence shall ordinarily be the maximum allowed. At the discretion of the Academic Standing Committee (ASC), such students may re-enter the curriculum at the point where their leave of absence began.

         Should circumstances dictate that a student be granted a leave of absence that is longer than two years, the ASC may require that the student repeat some or all of the curriculum previously taken, even if all courses were passed. Students may be required to demonstrate competency in previously passed courses by a method deemed appropriate by the ASC. A leave of absence longer than three years will ordinarily require repeating the curriculum from the beginning of year one. On a case by case basis, the ASC may determine if exceptional circumstances warrant some other arrangement.

      ii. For leaves of absence taken after the successful completion of Phase I and USMLE Step 1:

         1. Ordinarily, a two-year leave of absence shall be the maximum allowed.
         2. Students who are approved for leaves of absence during the M3 year may be required to re-enter the curriculum at the beginning of the M3 curricular year.
         3. Students who are granted leaves of absence during the M4 year may be required to re-enter the curriculum at the beginning of the M4 curricular year.
4. Students may be required to prove competency in previously passed courses by a method deemed appropriate by the ASC.

5. Students granted leaves of absence that are two years or longer will re-enter the curriculum at a point determined by the Academic Standing Committee. On a case-by-case basis, the ASC may determine if exceptional circumstances warrant some other arrangement. The decision of the ASC Committee is final.

b. The time that a student spends on a leave of absence shall not count towards the maximum of time permitted to complete either the first two or the last two curricular years, as per the ASC. It is the responsibility of the student to complete the Leave of Absence request form and consult with the appropriate departments referenced on the form.

c. Access to the school building and resources will be terminated during the time period of the leave of absence. The student is required to return their CMSRU and Cooper University Hospital ID cards to the Office of Student Affairs.

d. Parking wafers or hangtags (if applicable) must be returned to the Office of Student Affairs.

e. Electronic Access to Blackboard and all access to the medical library will be terminated.

f. The financial consequences of this decision will be managed by the student through the Financial Aid Officer of CMSRU

g. Protocol for Medical Leave of Absence: A leave of absence due to medical reasons must be prescribed by the student’s treating physician.

i. It is the student’s responsibility to request a medical leave of absence and to provide all required supporting documentation.

ii. A student may request a medical leave of absence by contacting the Assistant Dean of Student Affairs or the chief student affairs officer.

iii. Each medical leave of absence request will be reviewed on an individual basis with the Assistant Dean of Student Affairs or designee.

iv. A medical leave of absence may be requested for up to one year. Additional time beyond one year will require approval by the Assistant Dean of Student Affairs or designee.

v. The following information must be provided to the Office of Student Affairs prior to the commencement of a medical leave of absence:

1. CMSRU Leave of Absence form. This form shall be completed and signed by the student. It is the responsibility of the student to consult with all parties listed on the form.

2. Contact information of the treating physician.

3. A letter from the treating physician indicating the need for a medical leave with confirmation of their role as the physician of record during the leave of absence. This person shall serve as the contact for the Office of Student Affairs. The treating physician must furnish the letter on official letterhead and must include the physician’s original signature and date.

vi. Release of information protected by the Health Insurance Portability and Accountability Act shall be at the discretion of the student.
vii. A medical leave of absence will not be approved in cases where the supporting documentation is incomplete or missing. In extraordinary or catastrophic circumstances, the supporting documentation requirements may be waived at the discretion of the assistant dean for student affairs or designee.

viii. A medical leave of absence may have financial implications. The financial consequences of this decision will be managed by the student with the asst. director of financial aid.

ix. Students are required to notify the assistant dean for student affairs or designee of their anticipated return date as early as possible to ensure successful re-entry into the curriculum and to meet enrollment registration deadlines. Students will be required to complete any necessary paperwork related to return from the medical leave of absence, including, but not limited to, enrollment, course registration and financial aid.

x. Clearance for return from a medical leave of absence is required from the designated treating physician and any consulting physicians where applicable. The clearance for return must include a statement from the treating physician indicating the student has sufficiently recovered from the medical event such that they are fit to return to the curriculum with an expected reasonable chance of success. The student may be required to supply results of neuropsychiatric testing where applicable. In cases where the student’s decision-making ability may be affected by a medical condition, the clearance for return must specifically address cognitive function. The clearance for return from medical leave of absence must be signed by the treating physician on official letterhead and furnished to the Assistant Dean of Student Affairs or designee.

xi. Students returning from medical leave must be able to meet CMSRU technical standards. CMSRU reserves the right to require fitness for duty or any other relevant testing. CMSRU may require an evaluation of the student by the Director of Student Health.

xii. The student will discuss the plan for re-entry with the Assistant Dean of Student Affairs or designee and the associate dean for medical education. The plan will be reviewed and approved by the Academic Standing Committee for all leaves over one year. Students will need to demonstrate competency to return to clinical care. This will be arranged by the Office of Medical Education.

h. Protocol for Personal Leave of Absence: A personal leave of absence may be requested by the student when an interruption in the educational curriculum is necessary for the student’s non-medical reasons.

i. A student may request a personal leave of absence by contacting the assistant dean for student affairs or the chief student affairs officer.

j. The Leave of Absence form must be completed and signed by the student. It is the student’s responsibility to consult with all parties listed on the form.

k. Each personal leave of absence will be reviewed on an individual basis with the Assistant Dean of Student Affairs or designee.

l. A personal leave of absence may be requested for up to one year. Additional time beyond one year will require approval by the Academic Standing Committee (ASC).

m. The conditions of the personal leave will be customized in consultation with the assistant dean for student affairs or designee and the associate dean for medical education. The student will discuss the plan for re-entry with the Assistant Dean of Student Affairs or designee and the associate dean for medical education. The plan will be reviewed and approved by the ASC for all leaves over one year. Students will need to
demonstrate competency to return to clinical care. This will be arranged by the Office of Medical Education.

n. If a student has already taken one personal leave of absence and is requesting an additional personal leave of absence, the Leave of Absence ad hoc committee will review the student’s request and render a decision regarding granting the leave of absence. The Leave of Absence ad hoc committee will consist of three advisory college directors (none of whom are from the student’s respective advisory college) and two representatives appointed by the Dean. A chairperson will be chosen from among the five members to communicate with the student and the Assistant Dean for Student Affairs or designee.

i. The student may appeal this decision to the Executive Cabinet. The Executive Cabinet will be convened at the request of the Assistant Dean for Student Affairs or designee.

ii. The student shall be given at least 72 hours’ notice of the time and place of the committee’s hearing.

iii. Any advocacy efforts must be in the form of written communications to the committee, and must be received by the committee no later than 24 hours preceding the time scheduled for the start of the appeals hearing.

iv. The chairperson will communicate the decision of the executive committee of deans to the Assistant Dean for Student Affairs or designee within 10 working days.

v. The Assistant Dean for Student Affairs or designee will communicate the decision to the student and carry out the conditions set forth by the executive committee of deans.

o. Disciplinary proceedings, such as academic dismissal or professionalism adjudications, will continue if the Leave of Absence was initiated during such proceedings.

p. It is the student’s responsibility to inform the Office of Student Affairs of any change in plan or status during a Leave of Absence.

q. Students must notify the Office of Student Affairs thirty (30) days prior to their expected date of return. If confirmation of return is not received by the Office of Student Affairs the student will be administratively withdrawn from CMSRU.

5. Pregnancy and Parental Leave: Cooper Medical School of Rowan University (CMSRU) is committed to supporting all students in their programs and aims to provide reasonable support and leave to all students who choose to have or adopt children during their medical education.

a. Protocol for requesting a pregnancy and parental leave of absence: When requesting a parental leave of absence, early communication and good-faith efforts among all parties involved are essential to ensure the least impact on a student’s education. Because the structure and demands of the curriculum vary throughout the four-year program, the approach to parental leave will differ depending on the year of the program in which the pregnancy and birth occur. Regardless of the timing, a detailed plan must be developed by the student in close collaboration with and written approval by the Office of Medical Education (OME) and the Office of Student Affairs (OSA).

b. Phase 1: A student who wishes to request parental leave during the first two years of medical school should consult with their Advisory College Director, Phase 1 Dean and the Assistant Dean of Student Affairs or designee to request a leave of absence. Due to the nature of the medical education program, depending on the time of year and the length of the leave, leaves of absence may require a student to take a full year of leave and return the following year. Students must complete all coursework and the USMLE Step 1 exam before M3 year.

c. Phase 2:
Year 3: A student seeking parental leave should work closely with Phase 2 Dean, M3 Director, M3 Education Coordinator, and the Assistant Dean of Student Affairs or designee to schedule the leave. The student may resume clerkships at a mutually agreed upon time. The plan for time away from clerkships should be completed and approved by all parties at least 3 months before the start of the leave.

Year 4: A student seeking parental leave should work closely with Phase 2 Dean, M4 Director, M4 Education Coordinator, and the Assistant Dean of Student Affairs or designee to schedule the leave. The plan should be completed and approved by all parties at least 3 months before the start of the leave. Students will need to demonstrate competency to return to clinical care. This will be arranged by the Office of Medical Education.

d. Pregnancy and Parental Leave complies with federal and state law regarding accommodations during and after pregnancy. Our goal is to accommodate student parents during this period and provide options for leave (if desired) and reasonable options for re-entry such that students can continue making progress toward completion of the medical degree.

c. Students are not required to take parental leave, however, if they choose to do so, CMSRU permits parental leaves up to 12 months, and an extension of 12 months, unless a longer extension is medically necessary.

6. Independent Study course: A student may choose or be required to take an Independent Study Course during their medical education program. The Independent Study course may be required if a student fails to pass the USMLE Step 1 or Step 2 and wants to attempt the examination for a third time. The Independent Study course may be taken to enrich the student’s educational experience during Phase 1 or Phase 2 of the CMSRU medical curriculum. An Independent Study course may be taken for up to one academic year.

a. The student will complete the Independent Study Course request form and consult with the appropriate departments referenced on the form.

b. This must be approved by both the associate dean for medical education in collaboration with the Assistant Dean of Student Affairs or designee.

c. Tuition will be billed as per tuition policy. Students are required to pay all student fees that are billed on a semester basis.

d. Enrollment in an Independent Study Course may result in significant reduction in financial aid funding. It is the responsibility of the student to consult with the Asst. Director of Financial Aid. Students in the Independent Study Course are ineligible for CMSRU Scholarship Funding.

e. The Independent Study Plan is filed within the Office of Student Affairs and the Office of Medical Education along with the Independent Study Request form.

f. The Associate Dean for Medical Education in collaboration with the Phase Deans will assign a course director.

g. Students are expected to meet with learning specialist and course director and meet all milestones required by the Independent Study Plan.

h. An evaluation of the student is part of this course and there will be a grade (P/U).

i. This course will appear on the student’s academic transcript.

j. Students will not participate in patient care while enrolled in an Independent Study Plan.
k. Students will need to demonstrate competency to return to clinical care. This will be arranged by the Office of Medical Education.

7. Student Scholar Research Experience: A student may spend one or more years doing full time research at CMSRU or another institution with the permission of the Associate Dean for Medical Education in collaboration with the Assistant Dean for Student Affairs or designee.

a. The Student Scholar Research Experience form must be completed including the signed approval by the research sponsor.

b. Students are not billed tuition; however, students are enrolled full time and are required to pay student fees.

c. Students will maintain enrollment to prevent entering loan repayment.

d. The Student Scholar Research Experience status will be listed on the student’s transcript as a non-credit (NC) course during the term(s) enrolled.

e. While participating in Student Scholar Research, a student is not enrolled in CMSRU for-credit curricular requirements.

f. Students will need to demonstrate competency to return to clinical care. This will be arranged by the Office of Medical Education.

8. Administrative Leave of Absence: An administrative leave of absence is an administrative measure used in situations where it is deemed in the best interest of the student and/or the school that the student’s medical education be interrupted. The conditions for administrative leave will be determined by a designated CMSRU official (see list below) and may include consultation with Rowan University. The following school officials can grant and determine conditions of an administrative leave of absence:

a. Dean of CMSRU or designee

b. Associate Dean for Medical Education or designee

c. Assistant Dean for Student Affairs or designee
Circulation of Materials in the CMSRU Library Learning Commons Reading Room

POLICY:
Circulation of Materials in the CMSRU Library Learning Commons Reading Room

PURPOSE:
In its efforts to ensure access to the resources necessary to meet the educational goals of the Cooper Medical School of Rowan University curriculum the following policy defines the use of materials located in the Reading Room

SCOPE:
All faculty, staff, and students

PROCEDURE:
A. Books in the Reserve Collection are to be used in the Reading Room. These books cannot be checked out or removed from the Reading Room. These books are marked with a ‘Reserve’ sticker and are maintained in an area of shelving separate from the Circulating Collection. The purpose of the Reserve Collection is to ensure that all faculty, staff and students have continuous access to a print copy of each required textbook for years M1 and M2.

B. Books in the Circulating Collection can be checked out for 72 hours. There is no mechanism to renew a book from the Circulating Collection. Patrons wishing to use a book for longer than 72 hours must return the book and allow the book to be made available for 24 hours on the Reading Room shelf, at which time if it is still available the patron may check the book out. The purpose of the Circulating Collection is to ensure that all faculty, staff and students have the opportunity to use a print copy of each required textbook for years M1 and M2 outside of the Reading Room environment.

   a. The CMSRU Library Learning Commons Reading Room uses a computerized self-checkout system to document the check-out (borrowing) and check-in (return) of materials.

   b. The goal of the computerized self-checkout system is to ensure 24 hour access to the print collection.

C. Bone Boxes may be checked out of the Reading Room for up to two hours. Individual bones may not be removed/checked out separately. Bone Boxes are for onsite use only and may not leave the CMSRU building. Patrons are to use the posted Check-Out and Check-In Sheet due to the fact that the Bone Boxes are not cataloged in the computerized self-checkout system.
Satisfactory Academic Progress (SAP) Policy

PURPOSE:
To outline the relationship of financial aid awards and academic performance

SCOPE:
Candidates for the Doctor of Medicine Degree (M.D.)

DEFINITION:
In order to receive federal financial aid, per federal regulations, students must demonstrate Satisfactory Academic Progress (SAP) toward the attainment of their medical degree.

Satisfactory Academic Progress (SAP) is defined as the successful progression through the curriculum to obtain degree requirements within the maximum degree completion timeframe/pace of six distinct academic years (150% requirement). The degree completion limit and curriculum pace/requirements are set forth within the Grading, Promotions and Appeals policy within the CMSRU Student Handbook.

A student who is placed on Academic Probation will be automatically placed on Financial Aid Probation.

All students (whether they receive financial aid or not) during all periods of enrollment are placed into one of the two categories listed below based upon their academic performance:

1. A student is meeting Satisfactory Academic Progress (SAP) requirements:
   - when a student has successfully completed all courses/clerkships and passes a USMLE Step 1, Step 2 CK, or Step 2 CS examination on the first attempt; or
   - when the student has successfully completed repeating an academic year and/or has completed the successful remediation of a repeated course (s) and/or clerkship (s) due to unsatisfactory academic performance; or
   - when a student passes USMLE Step 1, Step 2 CK, or Step 2 CS examination on the second and/or third attempt

2. A student is not meeting Satisfactory Academic Progress (SAP) requirements:
   - when the student has unsuccessfully completed the remediation process for a course/clerkship and/or is required to repeat a course/clerkship due to unsatisfactory academic performance;
   - when a student has an unsatisfactory in two courses and/or clerkships and must repeat the courses and/or clerkships in the next academic year; or
   - when a student fails a USMLE Step 1, Step 2 CK, or Step 2 CS examination on the second and/or third attempt

From the CMSRU Grading, Promotions and Appeals policy: All required courses of all curricular years, including the required number of elective weeks [and USMLE Step examinations], must be completed satisfactorily in the prescribed sequence [as detailed within the Grading, Promotions and Appeals policy within the Student Handbook] before a student can be certified for graduation. A student may not repeat a course or clerkship more than once, and no more than three distinct academic years may be utilized to fulfill the requirements of either the first and second years (Phase 1), or the third and fourth years (Phase 2) of the curriculum. Students who perform scholarly work or enroll in dual degree programs (e.g., MD/PhD) may extend the degree completion limit from six distinct academic years to ten distinct academic years upon the recommendation of the Academic Standing Committee to the Dean.
Of important note, most medical licensing authorities require the completion of USMLE Steps 1, 2 and 3 within a seven-year period. Step 3 is taken during the first or second year of postgraduate training. All students should be familiar with the medical licensing requirements for the states where they intend to practice medicine, and if a waiver of the seven-year requirement is possible.

PROCEDURE:
SAP will be reviewed at the end of every academic year by the CMSRU Financial Aid Office. The CMSRU Financial Aid Office will notify students via email about SAP. Additionally, students will be notified about the SAP Appeal process if they are still within the maximum degree completion limit.

- If a student does not have SAP at the end of the academic year, federal aid will be revoked going forward until the student attains SAP. Or, the student can appeal, and if approved, the student can be placed on financial aid PROBATION for the upcoming academic year.

- The CMSRU Financial Aid Office will determine whether or not the student is granted PROBATION with another academic year of federal aid. If the student is placed on an academic plan by the Academic Standing Committee or Executive Committee of Deans, the student can continue to receive federal aid as long as the student follows the academic plan set forth by the Academic Standing Committee* or Executive Committee of Deans. The academic plan option is determined on a case by case basis.

- The CMSRU Financial Aid Office must follow all SAP guidelines as set forth by federal regulations.

NOTE: If a student does not have SAP at the end of the academic year, institutional scholarships from CMSRU will be revoked and decisions regarding academic standing (for institutional scholarship purposes) cannot be appealed.

RESPONSIBILITY:
If a student is not attaining Satisfactory Academic Progress (SAP), the Academic Standing Committee will inform the Financial Aid Office about the student’s standing. Federal regulations mandate that institutions have a SAP policy to monitor academic progress.

*The Academic Standing Committee considers matters of academic standing, promotion and graduation of medical students. This committee has the responsibility of ensuring that each student meets the grading and promotions standards established for CMSRU (see the Student Handbook for the Grading, Promotions and Appeals policy). This committee will ensure that students are assessed against defined learning objectives and that specific competencies have been achieved. The Academic Standing Committee has the responsibility to determine that students have satisfactorily met the requirements of each academic year in the M.D. curriculum; recommend to the faculty the candidates for the M.D. degree; consider individual requests for exceptions; determine whether students are to be placed on an academic plan or academic probation and the conditions for suspension. The committee may recommend the dismissal of a medical student to the dean in accordance with the policy.
Student Clinical Assignment Policy

POLICY:
Student Clinical Assignment

PURPOSE:
The faculty and academic administrators of CMSRU recognize their responsibility to maximize the fair and equitable assignment of CMSRU students during their clinical clerkship education. This policy guides the assignment and as needed, the reassignment, of clinical supervisors to third and fourth year medical students.

SCOPE:
Candidates for the Doctor of Medicine Degree (M.D.)

DEFINITIONS:
Clinical assignment: Students are assigned preceptors and supervising physicians who are responsible for teaching and assessing students in the clinical clerkship education program.

PROCEDURE:

1. RESPONSIBILITY

   Student Clinical Assignment: A medical student will have clinical preceptors and supervising physicians assigned as part of their clinical clerkship education program. Assignments will be carried out by clerkship directors in conjunction with the office of medical education staff. Whenever possible, a lottery system will be used to provide for fair and equitable assignment of CMSRU medical students to their clinical clerkships. Students may request a change in their clinical assignment location, preceptor, or supervising physician. These requests are reviewed on a case-by-case basis.

1. M3 Block courses
   The Office of Medical Education assigns each student to a block schedule for the M3 year based upon a lottery held prior to the M3 orientation. M3 students are assigned to preceptors and supervising physicians on duty in the inpatient setting during their assigned M3 block. A student may request a change in preceptor or supervising physician for extenuating circumstances. The clerkship director, in conjunction with the M3 director and the assistant dean for phase 2, reviews the request and makes the change, if appropriate, within 48 hours. If the request for change is denied, the assistant dean for phase 2 meets with the student to explain the rationale for not making the change. The student may appeal the decision to the associate dean for medical education, who reviews the request and makes the final decision within 48 hours.

2. M3 Cooper Longitudinal Integrated Clerkship (CLIC) placements
   Similarly, M3 students are randomly assigned to outpatient based Cooper Longitudinal Integrated Clerkship clinical offices in the M3 year. A student may request a change in preceptor or clinical learning site with the Cooper Health System for extenuating circumstances. The clerkship director, in conjunction with the M3 director and the assistant dean for phase 2, reviews the request and makes the change, if appropriate, within 48 hours. If the request for change is denied, the assistant dean for phase 2 meets with the student to explain the rationale for not making the change. The student may appeal the decision to the associate dean for medical education, who reviews the request and makes the final decision within 48 hours.

3. M4 Clinical education placements
   Students have considerable control over the sequence of required clerkships and elective courses in their M4 year. The preceptors to whom they are assigned for a particular rotation are largely determined by
their schedule. Some rotations may have alternative assignment options in a given block (e.g., internal medicine sub-internship), but others may not. M4 students may request a change in preceptor or clinical learning site in the M4 clinical education program for extenuating circumstances. The clerkship director, in conjunction with the M4 director and the assistant dean for phase 2, will review the request and make the change, if appropriate and available, within 48 hours. If there is no alternative preceptor or site during that block, the student may have to schedule the rotation at a different time during the year. If an alternative site/preceptor is available, but the change request is denied, the assistant dean for phase 2 will meet with the student to explain the rational for not making the change. The student may appeal the decision to the associate dean for medical education, who will review the case and make the final decision within 48 hours.
Teacher-Learner Interaction Policy

POLICY:
Teacher-Learner Interaction

CMSRU acknowledges that the profession of medicine is a moral enterprise in which practicing physicians engender the development of virtues, integrity, sense of duty, and ethical framework in medical students. CMSRU faculty, residents, fellows, teaching staff and students will abide by the following compact which serves both as a pledge and as a reminder to teachers and learners that their conduct in fulfilling their mutual obligations is the medium through which the profession inculcates its ethical values.

PURPOSE:
To establish guidelines for interactions between medical students and CMSRU faculty and instructors.

SCOPE:
Candidates for the Doctor of Medicine Degree and all those who act in the role of teacher for these students at CMSRU.

DEFINITIONS:
Teacher - any individual serving in a capacity as teacher or mentor that a student will interact with in a classroom, small group or clinical setting over all four years.

PROCEDURE:

GUIDING PRINCIPLES: (AAMC’s Compact Between Teachers and Learners of Medicine)

DUTY - Medical educators have a duty, not only to convey the knowledge and skills required for delivering the profession's contemporary standard of care, but also to inculcate the values and attitudes required for preserving the medical profession's social contract across generations.

INTEGRITY - The learning environments conducive to conveying professional values must be suffused with integrity. Students learn enduring lessons of professionalism by observing and emulating role models who epitomize authentic professional values and attitudes.

RESPECT - Fundamental to the ethic of medicine is respect for every individual. Mutual respect between learners, as novice members of the medical profession, and their teachers, as experienced and esteemed professionals, is essential for nurturing that ethic. Given the inherently hierarchical nature of the teacher/learner relationship, teachers have a special obligation to ensure that students and residents are always treated respectfully.

COMMITMENTS OF FACULTY

- “We pledge our utmost effort to ensure that all components of the educational program for students and residents are of high quality.
- As mentors for our student and resident colleagues, we maintain high professional standards in all of our interactions with patients, colleagues, and staff.
- We respect all students and residents as individuals, without regard to gender, race, national origin, religion, or sexual orientation; we will not tolerate anyone who manifests disrespect or who expresses biased attitudes towards any student or resident.
- We pledge that students and residents will have sufficient time to fulfill personal and family obligations, to enjoy recreational activities, and to obtain adequate rest; we monitor and, when necessary, reduce the time
required to fulfill educational objectives, including time required for "call" on clinical rotations, to ensure students' and residents' wellbeing.

- In nurturing both the intellectual and the personal development of students and residents, we celebrate expressions of professional attitudes and behaviors, as well as achievement of academic excellence. We do not tolerate any abuse or exploitation of students or residents.

- We encourage any student or resident who experiences mistreatment or who witnesses unprofessional behavior to report the facts immediately to appropriate faculty or staff; we treat all such reports as confidential and do not tolerate reprisals or retaliations of any kind.”

**COMMITMENTS OF STUDENTS AND RESIDENTS**

- “We pledge our utmost effort to acquire the knowledge, skills, attitudes, and behaviors required to fulfill all educational objectives established by the faculty.

- We cherish the professional virtues of honesty, compassion, integrity, fidelity, and dependability.

- We pledge to respect all faculty members and all students and residents as individuals, without regard to gender, race, national origin, religion, or sexual orientation.

- As physicians in training, we embrace the highest standards of the medical profession and pledge to conduct ourselves accordingly in all of our interactions with patients, colleagues, and staff.

- In fulfilling our own obligations as professionals, we pledge to assist our fellow students and residents in meeting their professional obligations, as well.”
Temporary Visiting Students Policy (CMSRU students away rotations related to COVID-19)

POLICY:
Temporary Visiting Students Policy (CMSRU students away rotations related to COVID-19)

PURPOSE:
The purpose of this temporary policy is to provide guidance related to visiting student away rotations for CMSRU students during the COVID-19 pandemic and to ensure an equitable residency selection process based upon the Coalition for Physician Accountability guidance issued on January 25, 2021. (See attached Updated Recommendations on Away Rotations for Medical Education Institutions of LCME®- Accredited, U.S. Osteopathic, and Non-U.S. Medical School Applicants.)

SCOPE:
CMSRU medical students

DEFINITIONS:
Medical student: A CMSRU student in their fourth year of medical school
In-person away rotations: an in-person clinical clerkship that is offered to CMSRU medical students at another medical school or institution through VSLO or non-VSLO institutions.
Online away rotations: an online course or clerkship that is offered to CMSRU medical students at another medical school or institution.

PROCEDURE:
COVID-19 has interrupted the clinical education of most medical students in the United States. It is a medical school’s responsibility to regulate visiting or away rotations for their medical students to ensure a safe environment, a valuable experience, promote equity in the residency application process, and promote the overall health and well-being of their medical students.

• Effective January 27, 2021, CMSRU medical students are permitted to attend one in-person away rotation per specialty
  for at other medical schools or institutions through VSLO or other application process for the 2021-22 academic year.
• All CMSRU students may apply for and schedule one visiting rotation per specialty beginning April 15, 2021, for visiting rotations that begin after August 1, 2021.
• All CMSRU students may register for online away rotations as they become available with other medical schools and institutions.
• Students will need permission to register through the AAMC Visiting Student Learning Opportunities (VSLO) system for both in-person away rotations and online away rotations.

1Students are permitted to do one in-person away rotation per specialty. For example, if a student is considering matching in general surgery or obstetrics/gynecology, they may do one in-person rotation in each specialty.
Final Report and Recommendations for Medical Education Institutions of LCME-Accredited, U.S. Osteopathic, and Non-U.S. Medical School Applicants

Submitted by The Coalition for Physician Accountability’s Work Group on Medical Students in the Class of 2021 Moving Across Institutions for Post Graduate Training

This guidance document was created in response to urgent requests for a consistent approach to medical student away rotations and in-person interviews for the 2020-2021 residency cycle. The organizations supporting the Final Report and Recommendations include the major national medical education organizations, whose representatives worked together to balance the complex needs of the medical education community. These recommendations reflect our collective sense of how to proceed, and we urge each medical school, sponsoring institution, and residency program to carefully consider them and commit to working together to create an equitable, transparent, and successful residency selection cycle.

This guidance is intended to add to, but not supersede, the independent judgment of a medical school, sponsoring institution, or residency program regarding the immediate needs of its patients and the preparation of its learners: Medical school deans have the authority and responsibility to make decisions regarding their medical students, and designated institutional officer (DIOs) and program directors have the authority to make decisions regarding residents in their sponsoring institution and programs. Because students rely on predictable, common practices across schools and programs as they prepare to transition to residency, a shared response to disruptions caused by the COVID-19 pandemic will greatly reduce unnecessary confusion, stress, and inequity among students, while promoting a more successful residency selection process for all.

Introduction

The Coalition for Physician Accountability (Coalition), a cross-organizational group composed of AACOM, AAMC, ACCME, ACGME, AMA, AOGME, AOA, CMSS (OPDA), ECFMG, FSMB, LCME, NBME, and NBOME, was established in 2009 to promote professional accountability by improving the quality, efficiency, and continuity of the education, training, and assessment of physicians. The Coalition has created several work groups to rapidly develop a shared approach to several urgent COVID-19-related education and training issues affecting learners and training programs.

The Coalition established this Work Group on Medical Students in the Class of 2021 Moving Across Institutions for Post Graduate Training (WG) to consider and make recommendations about three major issues facing applicants and training programs as they prepare for the 2020-2021 residency application cycle: (1) away rotations, (2) in-person interviews for residency, and (3) the ERAS® timeline. While there are other important issues to be addressed, the WG was careful to restrict its deliberations to its original charge. WG participants include representatives from AACOM, AAMC, ACGME, AMA, AOGME, ECFMG, NRMP, and OPDA. NBME and NBOME participated for the ERAS timeline discussions.

The COVID-19 pandemic has interrupted the clinical education of most, if not all, medical students. This work group was tasked with considering the impact on current M3/rising senior students, particularly as applicants prepare for the residency selection process. Limitations placed on learners’ ability to work in the clinical learning environment, restrictions on individual travel and personal spacing, and inability to complete assessments and educational requirements will render the traditional selection process impossible to replicate this year. Nonetheless, the WG believes a meaningful and effective selection process can be achieved for both applicants and residency programs.

Strengths of the WG include its diversity of thought and representation from the full spectrum of stakeholders across medical education and the public. The WG established guiding principles as a framework for considering the important issues under its charge:

- Patient care and the safety of the community, patients, and learners are most important.
- Medical schools must prioritize meeting core competencies anchored in accreditation and graduation requirements for their own students. Likewise, residency programs must prioritize fulfilling current residents’ competencies and meeting accreditation and specialty board certification requirements.
The residency selection process should be as equitable as possible for applicants, recognizing the diversity of learners and educational programs and the differing missions and priorities of schools, training programs, and institutions.

A concerted effort to reduce anxiety and promote well-being of students, program staff, and institutions (home and host) in an already stressed system is critical.

We anticipate stakeholders will commit to policies that prioritize these guiding principles yet recognize the necessity for innovation and flexibility in this new COVID-19 environment.

Recommendations at the national level are intended to facilitate transparency, promote fairness across the country, and reinforce our commitment to an equitable process for all.

The WG also considered current data and forecasts about the COVID-19 pandemic. While the temporal progression of the pandemic remains uncertain, estimates indicate there may be an abatement with continued endemicity over the summer and a second surge with geographic variation in the fall or winter. Therefore, periodic limitations on geographic and individual travel will likely persist. The WG recommendations were influenced by concerns that initiating a process only to have it discontinued due to a resurgence of coronavirus would create potential inequities among applicants and increase disruption and stress for both applicants and programs.

The Process

From the outset, the WG sought to be comprehensive, inclusive, and timely in delivering its recommendations, recognizing the urgent need for a common approach to support decision-making around the residency application process. The WG met twice per week over a four-week period, April 14-May 8, to consider the issues within its charge. As the WG deliberated, broader feedback on the guiding principles, away rotations, and in-person interviews was sought from across the constituency and was considered heavily in the WG’s deliberations and recommendations. Subject matter experts were invited to discuss the relevant issues and shared feedback and recommendations as appropriate. As final recommendations were drafted, the WG shared them with constituents, member organizations, and the Coalition. The final report has been endorsed by the Coalition organizations. This final report, including recommendations and resources, was released to the public May 11, 2020.

The Deliverables

This document includes:

- An overview of the WG’s work, including recommendations for the WG’s three assigned issues: (1) medical student away rotations, (2) in-person interviews, and (3) the ERAS timeline.

- An initial compendium of resources to support the implementation of the recommendations.

- General communications guidance for disseminating this report and implementing the recommendations.

As these recommendations are released, the WG recognizes the inherent complexities of the residency selection process (particularly considering COVID-19’s impact), the varied circumstances presented by geography, the diversity of applicant and institution type, and the varied missions and strategies of the stakeholders. While there can be no “one size fits all” solution, the WG believes these recommendations can promote consistency and fairness for all applicants.

Recommendation 1 — Away Rotations for Medical Students

Background: As mentioned in the Compendium of Resources, away rotations serve multiple important roles for applicants and residency programs. Applicants use them for career exploration, for support in the residency application
process, and for prioritizing geographic preferences. Residency programs use away rotations to assess applicants’ capabilities, showcase the benefits of their program and facilities, and preview potential applicants to their programs (which is particularly important to those programs not affiliated with a medical school). Challenges associated with away rotations include the expense to learners (both financial and educational, in lost opportunities at the home institution), competition for rotations that prevents access to some applicants who might be well suited for the specialty or program, the fact that completing an away rotation does not ensure the applicant a residency position at the program or within the specialty, and the burden of onboarding learners into a new clinical environment (the latter is particularly applicable given current stressors on the health systems from the COVID-19 pandemic).

For the 2020-2021 cycle, the COVID-19 pandemic has already created multiple, serious disruptions of core educational experiences and of travel. Limitations placed on students’ ability to work in the clinical learning environment, the anticipated surge in students needing clinical experiences created by deferral of core clerkship activities (described as an impending “clinical bulge”), delayed completion of core educational requirements, and restrictions on individual travel and personal spacing (both now and in the eventuality of geographic outbreaks or a national resurgence in the fall or winter) will likely greatly reduce the number of away rotation opportunities available this year. As a result, for most applicants, away rotations may be entirely inaccessible. A shared, altered approach to away rotations may help level the applicant playing field for the upcoming application cycle.

Recommendation: The WG recommends that for the 2020-2021 academic year, away rotations be discouraged, except under the following circumstances:

- Learners who have a specialty interest and do not have access to a clinical experience with a residency program in that specialty in their school’s system.
- Learners for whom an away rotation is required for graduation or accreditation requirements.

Individuals meeting these exceptions should limit the number of away rotations as much as possible. Students should consider geographically proximate programs, when appropriate, to meet learning needs.

Programs and specialty societies are encouraged to develop alternate approaches to meeting goals of away rotations, as described in the Compendium of Resources.

Recommendation 2 — Virtual Interviews

Background: Applicants value in-person interviews for gaining a realistic introduction to and experience of the residency program, including the culture and fit. Similarly, programs value the ability to observe and assess applicants’ capabilities and fit in the program environment. While forecasts predict the COVID-19 pandemic will diminish over the summer, there will likely be intermittent geographic hotspots and a projected widespread resurgence in late fall or early winter, just as the residency interview season would typically be ramping up. In addition, it is widely anticipated that ongoing “track and trace” programs will limit individual travel conducted on relatively short notice (i.e., if an applicant is identified to have had contact with a new COVID-19 individual, the applicant may be required to quarantine) and that domestic and international travel bans for quarantine rules will exist.

Recommendation: The WG recommends that all programs commit to online interviews and virtual visits for all applicants, including local students, rather than in-person interviews for the entire cycle and that the medical education community commit to creating a robust digital environment and set of tools that will yield the best experiences for programs and applicants.

Even as we adjust to the inevitability of this new normal of virtual interactions, replacing the benefits applicants and programs derive from in-person interviews will require adjustments on both sides. As more medical schools turn to virtual curricula as stopgap measures to keep advancing the third-year curricula, and the clinical environment looks to telemedicine to provide patient care in a COVID-19 environment, we must also consider how technology can be used to
support the upcoming residency application cycle. The Compendium documents well the perceived benefits of in-person interviews. While not all benefits can be replicated in a virtual environment, a thoughtful and dedicated approach can maximize the value of remote interactions.

**Recommendation 3 — The ERAS Opening for Programs and the Overall Residency Timeline**

**Background:** The COVID-19 pandemic’s impact on the medical education curriculum will ensure that practically every applicant for residency during the ERAS 2020-2021 cycle will face obstacles completing activities usually included in their application. Some will be delayed in completing their clerkship curriculum and early senior rotations, which will delay the collection of letters of evaluation and recommendation. Others will be unable to secure timely dates to complete their COMLEX-USA or USMLE exams. This year, programs face making selection decisions with differing amounts and types of data than they have ever had in the past. These changes necessitate evaluating the ERAS opening date for programs and the medical student performance evaluation (MSPE) release date. It is also critically important that programs have the tools they need to use the data they receive to evaluate the applications holistically.

The traditional ERAS opening for programs on Sept. 15 and MSPE release date of Oct. 1 may not allow sufficient time for learners and medical schools to upload the most complete ERAS applications for programs to review and evaluate. Multiple conversations with medical schools, applicants, AAMC affinity groups, specialty organizations, and the ERAS Advisory Committee reached consensus that an ERAS opening for residency programs could occur in mid-to-late October.

**Recommendation:** The WG recommends a delayed opening of ERAS for residency programs and a delayed release of the MSPE and that the opening and release happen on the same day.

**Recommendation 4 — General Communications**

Implementation of these recommendations will require transparency and regular, clear communications among all stakeholders. The WG encourages the medical education community to work together to provide consistency and equity for applicants across the country.

- Specialty organizations should work with the individual programs to develop and communicate to applicants and schools clear, consistent plans and practice around both away rotations and interviews as soon as possible.
- Medical schools should develop clear, consistent policies around any limitations of students’ participation in away rotations and in acceptance of visiting students, and the schools should communicate these as soon as possible.
- With a goal of decreasing stress and increasing a sense of fairness, we suggest programs and schools commit to a consistent policy for the entire upcoming residency application and selection cycle.
- Both programs and schools should include statements about COVID-19-related training, testing, and quarantine requirements for any away rotations that are allowed.

**Conclusion**

Since the arrival of COVID-19, the medical education community has experienced many challenges and has shown great courage, resilience, flexibility, and creativity in facing those challenges. As we look to the next 12-18 months, the response can be no less. Both applicants and residency programs have been thrust into an environment not of their choosing. There is great anxiety about the upcoming residency selection process and the effect changes resulting from COVID-19 will have on the Class of 2021. In developing the recommendations provided herein, the WG considered the
current environment, future forecasts, the subject matter expertise, and the perspectives of those closest to the issues the WG sought to address.

Acknowledging that these recommendations cannot address every eventuality, they are offered to provide the best path forward to promote consistency and fairness across the country and to reinforce our commitment to an equitable process for all.

Respectfully submitted,

Policies Related to Health and Safety

Alcohol and Other Drugs Policy

CMSRU adheres to the Rowan University Alcohol and Other Drugs Policy

POLICY:
Alcohol and Other Drugs Policy

PURPOSE:
The policy states the University's (CMSRU’s) expectations regarding the use of alcohol and other drugs by students, student organizations, faculty and staff. The policy also serves to articulate compliance and obligations with local, state and federal laws which includes the Drug-Free Schools and Communities Act.

ACCOUNTABILITY:
Under the direction of the Rowan University President, the Rowan University Vice President for Student Affairs, the Cooper Medical School of Rowan University Assistant Dean for Student Affairs and Chief Student Affairs Officer or designee shall implement and ensure compliance with this policy.

SCOPE:
This policy applies to all students, faculty and staff of Rowan University and Cooper Medical School of Rowan University.

REFERENCES
Rowan University Student Code of Conduct

POLICY:

1. Rowan University (CMSRU) is committed to the pursuit of a quality education by providing an environment which promotes respect, safety, and optimal health and well-being to all members of the campus community. This includes students, faculty, staff, administration, alumni, and Rowan University (CMSRU) guests. Alcohol and illicit drug use can pose many safety and health risks. Such use may result in impaired judgment and coordination, physical and psychological dependence, damage to vital organs, inability to learn and retain information, psychosis and severe anxiety, unwanted or unprotected sex, injury, and death. In light of this, the Rowan University (CMSRU) Alcohol and Other Drugs Policy prohibits all use of illegal drugs and only permits the consumption of alcoholic beverages in a manner that is responsible and adheres to restrictions imposed by law and University (CMSRU) standards of conduct. Rowan University (CMSRU) does not accept misuse of illicit drugs or alcoholic beverages as an excuse for violations of any University (CMSRU) policies. Emphasis is placed on responsible and legal use of alcohol. Responsible drinking is the use of alcohol in ways that do not have negative effects on either the individual or the community and do not violate the law. The preparation, sale, service, and consumption of alcoholic beverages must comply with the limitations established by University (CMSRU) policies, local ordinances, state laws, and federal laws. As an institution of higher education and an employer, Rowan University (CMSRU) is obligated to abide by and enforce provisions in the Drug-Free Workplace Act of 1988 and Drug-Free Schools and Communities Act.

2. Behavior at off-campus events, which are not sponsored or funded by Rowan University (CMSRU) or a University (CMSRU) recognized organization, will be subject to the University (CMSRU) discipline system if the conduct violates local, state, or federal law or when the University (CMSRU) determines that the conduct has a direct impact on the educational mission and interests of the University (CMSRU) and/or the safety and welfare of the University (CMSRU) community.
3. Violations will result in disciplinary sanctions as specified in sections entitled "Consequences for Non-Compliance" and "Parental Notification for Student Violations of the Alcohol and Other Drugs Policy."

4. Rowan University (CMSRU) Regulations
   a. In compliance with the Drug Free Schools and Communities Act and the Drug-free Workplace Act, Rowan University (CMSRU) prohibits the unlawful possession, sale, use, or distribution of alcohol and illicit drugs on campus or as part of any of its sponsored events.
   b. In addition to the legal requirements from the New Jersey Statute, Title 2C, the following University (CMSRU) regulations must be observed whenever alcoholic beverages are served, sold, or consumed in approved facilities on campus, in University (CMSRU)-owned or operated residential facilities, or at university (CMSRU) sponsored events.
   c. The Office of the Associate Vice President for Student Affairs and Dean of Students has been charged with overall responsibility to administer, support, and enforce the Alcohol and Other Drugs Policy. This office also reserves the right to suspend alcohol privileges temporarily when it is in the best interest of the University (CMSRU) community. Additional personnel involved in the administration, support, and/or enforcement of the policy include, but are not limited to, Greek Affairs, Community Standards, Athletics, Student Affairs, Residential Learning and University Housing, Public Safety, Dining Services, Faculty, Staff, Human Resources, and Counseling and Psychological Services. The Associate Vice President for Student Affairs and Dean of Students may convene an ad hoc board to review policy details of process and educational approach.

5. Illegal Drugs
   a. The intent of, actual distribution of, sale of or manufacturing of drugs, narcotics, barbiturates, hallucinogens, marijuana, steroids, amphetamines, or any other controlled substance is prohibited.
   b. The possession or use of controlled dangerous substances, marijuana, steroids, or narcotics, including, but not limited to: opium (morphine, codeine, heroin), prescription drugs in possession of someone other than the prescribed individual, misuse of prescribed drugs, and every other substance not chemically distinguishable from them (i.e. imitation products, such as bath salts and/or K2) as well as any drug paraphernalia, on campus or in any University (CMSRU)-related premises is prohibited.

6. Medical Marijuana
   a. Medical marijuana, while legally permitted in New Jersey under the “New Jersey Compassionate Use Medical Marijuana Act,” is prohibited on Rowan (CMSRU) campuses.
   b. Rowan (CMSRU) is subject to the Controlled Substances Act, which classifies marijuana as a Schedule I drug. Accordingly, the use, possession, cultivation, or sale of marijuana violates federal policy. Importantly, Federal grants are subject to Rowan’s (CMSRU’s) compliance with the Drug Free Communities and Schools Act, and the Drug Free Workplace Act, which also prohibit the university (CMSRU) from allowing any form of marijuana use on campus.
   c. Thus, although students, staff, and faculty who legally obtain a medical marijuana “ID card” from the New Jersey Department of Health and Senior Services are allowed to possess and consume certain quantities of marijuana, doing so is not permitted on Rowan’s (CMSRU’s) property or at university (CMSRU)-sponsored events (either on or off campus).
   d. Sharing medical marijuana with individuals who do not have a medical marijuana prescription is prohibited. Given that the use and/or possession of medical marijuana is prohibited on Rowan (CMSRU) property, any student, staff or faculty member who legally obtains a medical marijuana ID card should contact the Academic Success Center – Disability Resources (students) or the Office of Employee Equity and Labor Relations (staff/faculty) to discuss any possible on-campus accommodations (excluding the ability to use or possess medical marijuana on Rowan (CMSRU) property).

7. Alcohol at Campus Events
   a. Rowan University (CMSRU) students, faculty, staff, guests, and facilities users, who are 21 years and older, may only possess, purchase, and consume alcoholic beverages at locations which are licensed to sell alcohol or where consuming it is legal and authorized.
b. The University (CMSRU) and/or management of the facility in use have the right to request identification and proof of age from all persons seeking admission to an event on campus at which alcohol will be served.

c. Intoxication is prohibited, regardless of age. Behavioral symptoms frequently associated with intoxication will be considered in determining intoxication. These symptoms may include, but are not limited to, the following: impaired motor skill coordination, difficulty communicating, vomiting, glazed/red eyes, the smell of alcohol on one's breath, verbal and/or physical aggressiveness, destructive and/or disruptive behavior, and engaging in any behavior which may endanger oneself or others.

d. Carrying open containers of alcohol is strictly forbidden in public areas of the University (CMSRU), i.e. academic buildings, the Chamberlain Student Center, parking lots, and common grounds, regardless of age.

e. Any marketing, advertising, and promotion of alcoholic beverages on campus is prohibited. All advertisements for social events at which alcohol is served will not make reference to the amount of alcohol available. There will be no publicity distributed or posted indicating the availability of alcoholic beverages, except to indicate legal age requirements for admission.

f. Non-alcoholic beverages must also be served whenever alcohol is served/sold, and must be displayed as openly as the alcohol. Food must be served in adequate amounts when alcoholic beverages are served or sold.

g. Except in authorized designated areas, alcohol is strictly prohibited in athletic facilities, at athletic events and at any "tailgating."

h. No event will include any kind of a "drinking contest" or "drinking game," or feature any inducements to consume excessive amounts of alcohol.

i. For a listing of consequences for noncompliance, please refer to Sections VI. – "Consequences for Non-Compliance" and VII. – "Parental Notification for Student Violations of the Alcohol and Other Drugs Policy.

8. Alcohol in University Housing (Living Units)

a. Designated "Dry" Living Units

i. Alcohol is not permitted within undergraduate living units serving predominately underage students (Chestnut, Evergreen, Holly Pointe Commons, Magnolia, Mimosa, Mullica, or Willow halls- excluding graduate and professional staff living units). These areas are designated "dry" living units. No one, regardless of age, is permitted to possess, consume or be in the presence of alcohol in these areas.

ii. All other living areas (Edgewood Park, International House, Nexus Apartments, Rowan Blvd., Triad, Townhouses, Whitney Center or any temporary University housing such as a hotel) in which any assigned resident is under the age of twenty-one is a designated "dry" living unit. No one, regardless of age, is permitted to possess, consume or be in the presence of alcohol in these areas. It is the responsibility of each resident to know if alcohol is permitted within their living unit.

b. "Wet" Living Units

i. Alcohol is permitted only in living units in which all assigned residents are of legal drinking age. These are considered "wet" living units. It is the responsibility of each resident to know if alcohol is permitted within their living unit.

c. Presence in any living unit (room, apartment or townhouse) where an alcohol policy violation is taking place, even if not actually in possession of or consuming alcoholic beverages may result in disciplinary action.

d. Residents holding a gathering in their living unit where an alcohol violation is taking place will be considered the hosts. Hosts may be held responsible for injury or damage occurring to any person or property in which the consumption of alcohol was a contributing Hosts will be subject to disciplinary action and may receive harsher sanctions.
e. At the time of an alcohol violation, all alcohol and containers will be confiscated and properly disposed of regardless of the age of the occupant(s) or the designation of the living unit as "wet" or "dry."

f. Kegs and beer balls are prohibited in all living units at all times.

g. Possession of grain alcohol is prohibited at all times.

h. Students of legal drinking age may transport an alcoholic beverage as long as it is in its original closed container.

i. Consumption of any form of alcohol in an open container, including but not limited to cups, cans, plastic containers, or bottles, is prohibited outside a student's living unit and/or any outside campus area.

j. Games or activities that encourage excessive drinking of alcohol (e.g. beer pong, flip cup, beer funnels, etc.) or the serving of alcohol that leads to the endangerment of an individual's well-being or property damage will not be tolerated.

k. Consumption of alcohol to the point of intoxication, regardless of age, is prohibited. Behavioral symptoms frequently associated with intoxication will be considered in determining intoxication. These symptoms may include, but are not limited to, the following: impaired motor skill coordination, difficulty communicating, vomiting, glazed/red eyes, the smell of alcohol on one's breath, verbal and/or physical aggressiveness, destructive and/or disruptive behavior, and engaging in any behavior which may endanger oneself or others. A person in this condition may be asked to leave the campus. If the person is a student, the student's family or emergency contact may be called to assist. Other guests may have a taxi/ride called (at the intoxicated person's expense) to take them to their permanent residence.

l. Alcoholic beverage containers and paraphernalia, including but not limited to empty cans and bottles, are not permitted as room decorations in any living unit.

9. Alcohol in University Housing Regulations state:

a. Persons under the age of twenty-one MAY NOT:
   i. Be in possession of or in the presence of alcohol in any living unit.
   ii. Permit persons to bring in or consume alcohol in their living unit.
   iii. Carry opened or unopened alcoholic beverage containers any place on campus.
   iv. Provide alcohol to any persons on campus.
   v. Possess alcohol displays made up of empty alcoholic beverage containers.

b. Persons twenty-one and older MAY NOT:
   i. Consume alcohol outside of a living unit (lobby, hallways, stairwells, grounds, etc.).
   ii. Possess/Consume alcohol in a "dry" living unit.
   iii. Permit underage persons to possess or be in the presence of alcohol in their living unit.
   iv. Provide alcohol to others under the age of twenty-one.
   v. Charge in any way for alcohol consumption by others.
   vi. Possess kegs, beer balls, or paraphernalia that promotes excessive consumption of alcohol.
   vii. Possess alcohol displays made up of empty alcoholic beverage containers.

c. Persons twenty-one and older MAY:
   i. Possess/Consume alcohol in their living unit if it is designated "wet" and all those present are of legal drinking age.
   ii. Possess/Consume alcohol in another living unit if it is designated "wet" and all those present are of legal drinking age.
   iii. Transport unopened alcoholic beverage containers within University housing areas that are packaged and out of plain view.
   iv. Provide alcohol in their living unit to others of legal drinking age.

d. Persons who are present, within University housing, where alcohol is being consumed by those over or under the legal drinking age will be presumed to have been drinking or in possession of alcohol if Public Safety, RAs, RDs, or other University officials are called to the scene. This is because it is not possible to distinguish who is actually consuming or possessing alcohol on an individual basis where a number of persons are present.
e. Off-Campus Events
   
i. University-affiliated events are covered by this policy, even though they may take place off campus. A University affiliated event is defined as an off-campus gathering of members of the Rowan University (CMSRU) community (and/or their guests) which is sponsored or funded in whole or in part by Rowan University (CMSRU). This includes Study Abroad, field trips and professional meetings attended by employees. Private off-campus events which are not sponsored or funded by Rowan University (CMSRU) will also be subject to the University discipline system if the conduct violates University regulations or local, state, or federal law, or when the University determines that the conduct has a direct impact on the educational mission and interests of the University and/or the safety and welfare of the University community. Please be aware that the University reserves the right to hold a student responsible for actions at their residence even if they were not present at the time of the incident. In such a case, the student would be required to produce confirming evidence that s/he was not involved.

   
ii. Sponsors, coaches, and/or organization advisers are expected to ensure that their respective student organizations/groups take reasonable precautions in their activities in order that policies and laws governing alcohol/illegal drugs are not violated and that the welfare of their members is not endangered. The Associate Vice President for Student Affairs and Dean of Students in conjunction with the sponsors, advisers, or coaches may designate an event as non-alcoholic and/or determine the conditions under which the consumption of alcohol may be permitted by students of legal drinking age. Therefore, a sponsor, adviser, or coach may prohibit the service, possession, or consumption of alcohol by any person, regardless of age, at University-affiliated or University-funded activities (e.g., retreats, conferences, intercollegiate athletic events, etc.). Sponsors, advisers, or coaches will inform the student organizations of their decision(s) regarding the nature of the event prior to the scheduled date of the activity.

   
iii. The University expects that the existing state, local, or premises regulations which prohibit illegal drugs or regulate the service, sale, possession, or consumption of alcohol will be supported and enforced at University-sponsored events.

   
iv. Under New Jersey Statute, it is unlawful for any operator or passenger in a motor vehicle to possess an open container of an alcoholic beverage, regardless of age. In addition, the University prohibits the service, sale, or consumption of alcoholic beverages while in transit in any motor vehicle, to or from any University-affiliated event. This applies to all students, faculty, staff, alumni, and their guests, regardless of legal drinking age.

   
v. Alcoholic beverages will not be permitted at intercollegiate athletic events.

CONSEQUENCES FOR NON-COMPLIANCE

1. The University (CMSRU) is concerned that individuals make responsible decisions regarding the use of legal and illegal substances. All members of the campus community found in violation of the Rowan University (CMSRU) Alcohol and Other Drugs Policy will be subject to disciplinary action.

2. A student found violating the Alcohol and Other Drugs Policy will be considered to have violated the Student Code of Conduct and be subject to sanctions commensurate with the offense consistent with local, State, and Federal law, up to and including expulsion from the university (CMSRU), as well as the possibility of revocation of the privilege to consume alcohol on campus and/or to attend University (CMSRU) affiliated events at which alcohol will be served or consumed. Referrals to educational and other sanctioned programs sponsored by the Wellness Center at Winans or CMSRU may be required.

3. Organizational sanctions for violations of the Alcohol and Other Drugs Policy by campus groups may include written reprimand, restriction or loss of privileges, and loss of official recognition. In addition, the campus group may be mandated to participate in educational programs. Individual members of the group may also be individually sanctioned for their involvement in the violations pursuant to this section.
4. Violations of the University (CMSRU) Alcohol and Other Drugs Policy by a University (CMSRU) employee will be referred to the individual's supervisor for the appropriate administrative action consistent with the state regulations and applicable agreements between the state and employee bargaining units. An employee may be disciplined for violation of this policy consistent with local, State, and Federal law up to and including termination of employment and referral for prosecution.

5. Violations of the University (CMSRU) Alcohol and Other Drugs Policy by persons who are not members of the University (CMSRU) community may result in their being banned from the Rowan University (CMSRU) campus or from specific facilities and/or subject to arrest for trespass. Contractors are subject to all University (CMSRU) rules and regulations.

6. Any violation which occurs while an event is in progress may subject the violator to immediate removal from the area.

7. When violations or other circumstances occur at events which, in the judgment of University (CMSRU) officials, constitute a threat to life or property or which create a substantial risk thereof, the event may be terminated. It is expected that such authority will be exercised only in extraordinary and/or emergency circumstances.

8. This policy does not supplant or supersede statutory or administrative law at the federal, state, county, or municipal level. Strict compliance with such laws will be the responsibility of all organizations and individuals. Violators of the law may be subject to penalties imposed by a court or other empowered board, agency, or commission, in addition to any action taken by Rowan University (CMSRU).

PARENTAL NOTIFICATION FOR STUDENT VIOLATIONS OF THE ALCOHOL AND OTHER DRUGS POLICY

Rowan University (CMSRU)'s Alcohol and Other Drugs Policy outlines the University's (CMSRU’s) position regarding the unauthorized possession, use, or distribution of alcohol and controlled substances on campus. A 1998 amendment to The Family Education Rights and Privacy Act of 1974 authorizes higher education institutions to inform a parent or guardian of any student under age 21, who has been found in violation of any federal, state, or local law or any rule or policy of the institution governing the use or possession of alcohol or controlled substances. The Office of Community Standards may notify parents/guardians of students under 21 years of age when a student is found responsible for a violation of the Alcohol and Other Drugs Policy. Please note: Citations given by the law enforcement unit of a university are not covered by FERPA. Therefore, Rowan Public Safety may notify parents/legal guardians when citations have been issued by law enforcement officials, without waiting for a hearing or any other due process.

Attachment 1 - Summary of Applicable State and Local Laws Regarding Alcohol Offenses and Penalties

As of January 1, 1983 New Jersey state law prohibited the sale, possession, or consumption of alcohol by individuals under 21 years of age. Rowan University (CMSRU) is a public institution governed by Federal, State, and local laws, and by University (CMSRU) policies and procedures. The University complies with municipal and other law enforcement authorities in enforcing these laws as stated below:

State of New Jersey

1. The purchase and consumption of alcohol is a right extended by the State of New Jersey. The legal age to purchase and consume alcoholic beverages in the State of New Jersey is twenty-one (N.J.S.A. 9:17b-1).

2. Possession or Consumption of Alcohol in Public Places by persons under legal age (NJ.S.A. 2C:33-15)
   Any person under the legal age to purchase alcoholic beverages who knowingly possesses without legal authority or who knowingly consumes any alcoholic beverage in any school, public conveyance, public place, place of public assembly, or motor vehicle is guilty of a disorderly persons offense and shall be fined not less than $500.

3. Purchase of Alcohol by/for the Under-aged (N.J.S.A. 2C:33:1-81) An under-aged person who purchases or attempts to purchase alcohol, or who misstates his/her age, or a person of legal age who purchases alcohol for an under aged person faces a conviction of a disorderly persons offense, which incurs a fine of not less than $500 and loss of license for six months. In addition, under aged persons may be required to participate in a state-sponsored alcohol education program.

4. Offering Alcoholic Beverages to Underage Person (N.J.S.A. 2C:33-17) Anyone who purposely or knowingly offers or serves or makes available an alcoholic beverage to a person under the legal age for consuming alcoholic beverages or entices that person to drink an alcoholic beverage is a disorderly person. This provision does not apply to certain close relatives, certain activities confined to the home, or if the consumption is part of a religious observance.

5. Transfer of ID (N.J.S.A. 33:1-81.7) Someone who is under aged and uses another person's ID card to obtain alcohol, or someone of legal age who gives his/her ID card to an under aged person so that he/she can obtain alcohol, faces a fine of up to $300 or up to 60 days in jail.

6. False ID (N.J.S.A. 2C:21) A person who knowingly possesses a document or other writing which falsely purports to be a driver's license or other document issued by a governmental agency and which could be used as a means of verifying a person's identity or age or any other personal identifying information is guilty of a crime in the fourth degree.

7. Social Host Liability (N.J.S.A. 2A:15-5.6.) A social host who willingly and knowingly provides alcoholic beverages to a person who the host should reasonably foresee will soon be driving, may be held liable for injuries suffered by a third party as a result of a motor vehicle accident caused by that person.

8. Driving While Intoxicated
   a. Operating Motor Vehicles While under the Influence of Intoxicants (N.J.S.A. 39:4-50) A person is said to be legally drunk in New Jersey if his/her blood alcohol concentration is at or above .08%
   b. PENALTIES: All persons convicted of DWI must pay an insurance surcharge. In addition:
      i. For the first offense, there are additional fines and charges of at least $470 (bringing the total minimum charges for a first offense to $3,470); loss of license for 7-12 months; and a requirement to spend 12-48 hours in an Intoxicated Driver Resource A first-time offender also faces a possible 30- day jail term;
ii. For a second offense, there are additional fines and charges of at least $720; loss of license for 2 years; a requirement to perform 30 days of community service and to spend 48 hours in an Intoxicated Driver Resource Center or jail. Also, there is a possible 90-day jail term; and

iii. For a third offense, additional fines and charges of at least $1,220; loss of license for 10 years; and a 180-day jail term. The insurance surcharge for a third-time offender is $1,500 per year for three years. These fines and charges do not include court and legal fees.

9. Driving While License Is Suspended Due to DWI (N.J.S.A. 39.3-40). If a person is found driving while his/her license is suspended due to a conviction for Driving While Intoxicated, that person upon conviction again shall be fined $500, shall have his license to operate a motor vehicle suspended for an additional period of not less than one year nor more than two years, and may be imprisoned in the county jail for not more than 90 days.

10. Refusal to Take the Breathalyzer Test (N.J.S.A. 39:4-50.4a). Refusal to take the breathalyzer test where there is probable cause for arrest for DWI will result in up to 10 year loss of license, a fine of $300-$1000, and an obligation to satisfy the requirements of an alcohol education or rehabilitation program. A person can also be convicted of DWI without the results of a breathalyzer test. In that case, he/she will suffer all the additional fines and penalties specified for the DWI conviction.

Local Ordinances

Glassboro Ordinances (http://ecode360.com/GL0316)

1. 150-26 Unlawful acts for underage persons.
    [Added 12-8-1998 by Ord. No. 98-26]
    It shall be unlawful for a person under the legal age to consume, to have consumed, to purchase, attempt to purchase or have purchased for him or her or have in his or her possession any alcoholic beverage. For purposes of this section, "consume" or "consumed" excludes those instances where a person under the legal age, in the home, apartment or rental unit of his or her own parent or parents, or an adult in loco parentis, under the supervision and control of his or her own parent or parents, consumes or has consumed any alcoholic beverage.[1]

2. 150-27 Violations and penalties.
    [Amended 12-8-1998 by Ord. No. 98-26; 8-23-2011 by Ord. No. 11-34; 12-29-2016 by Ord. No. 16-60]
    Each and every person violating any of the provisions of this chapter, may, in addition to other penalties noted, upon the conviction thereof, be punished by one or more of the following: a fine not less than $400 and not more than $2,000; or by imprisonment not exceeding 90 days or by a period of community service not to exceed 90 days, or both, in the discretion of the Court.

3. 150-29 Underage drinking.
    It shall be unlawful for any person under the legal age who, without legal authority, knowingly possesses or knowingly consumes an alcoholic beverage on private property.

4. 150-30 Violations and penalties.

5. Any person violating the provisions of this article shall, in accordance with the provisions of N.J.S.A. 40:48-1, as amended, be punished by a fine of $250 for a first offense and $350 for any subsequent offense.

6. 354-5 Consumption of alcoholic beverages in public and quasi-public places.
    [Added 8-26-1975 by Ord. No. 75-20]
    a. It shall be unlawful for any person to consume any alcoholic beverage or to possess any alcoholic beverage in an open container with intent to consume the same on any sidewalk, street, avenue, highway, public parking lot or other public place, or in any motor vehicle not on private property, within the Borough of Glassboro at any time.
b. It shall be unlawful for any person to consume any alcoholic beverage or to possess any alcoholic beverage in an open container with intent to consume the same on any parking lot, yard or other open area which is open to the public or to which the public is invited at any time.

c. It shall be unlawful for the owner or any other person in control of any such parking lot, yard or other open area which is open to the public or to which the public is invited as described in Subsection B above to knowingly permit or suffer the consumption or possession in an open container with intent to consume of any alcoholic beverage on said premises by any person at any time.

d. Violations and penalties. Any person violating any of the provisions of this section shall, upon conviction, be punished by one or more of the following, in the discretion of the Court:

[Added 8-23-2011 by Ord. No. 11-35; amended 6-26-2018 by Ord. No. 18-30]

i. A mandatory fine of not less than $150 and not more than $2,000;

ii. Imprisonment not to exceed 90 days;

iii. A period of community service not to exceed 90 days.

Stratford Ordinances

1. 9.04.010 - Prohibited acts generally.

a. No person shall consume any liquor, wine, beer or any other alcoholic beverage, or have access to or in his or her possession, any open bottle, can, jar or any other vessel containing liquor, wine, beer or any alcoholic beverage:

b. While in or on a public street, lane, sidewalk, public parking lot or quasi-public parking lot or any other public or quasi-public place, or in any public conveyance; or

c. In a private conveyance while such conveyance is in motion, stopped or parked in or on a public street, lane, public parking lot or quasi-public parking lot; or

d. While in or upon private property, not his or her own, without having the express permission of the owner or any person authorized to grant such permission; or

e. In a private conveyance while such conveyance is in motion, stopped or parked in or on private property without having the express permission of the owner or any person authorized to grant such permission.

f. No person shall discard any bottle, can, jar or other vessel used to contain liquor, wine, beer or any other alcoholic beverage upon any public street, lane, sidewalk, public parking lot, quasi-public place, or upon any private property not his or her own, without the express permission of the owner or any person having authority to grant such permission.

g. The prohibitions contained in subsection A. shall not apply to any conveyance or place specifically licensed for the consumption of alcoholic beverages in accordance with the provisions of N.J.S.A. 33:1-1 et seq.

h. Any individual, firm or corporation, who or which suffers, aids, abets or permits any person to violate any provision of this section shall also be deemed in violation of this section.

i. Any individual, firm or corporation, which or who shall violate this section upon conviction thereof, shall pay a fine not exceeding five hundred dollars ($500.00), or be imprisoned in the county jail for a term not exceeding ninety (90) days or both, for each offense in the discretion of the court. (Ord. No. 98:13, §§ 1—4, 7, 1998)

2. City of Camden Ordinances

a. 129-22Places restricted. Any person who shall consume an alcoholic beverage or possess an alcoholic beverage with intent to consume in the following places shall be in violation of this article:
i. While in or on a public street, lane, sidewalk, public parking lot, public or quasi-public place, public park or in any public conveyance.
   [Amended 10-13-2005 by Ord. No. MC-4111]

ii. While in a private motor vehicle, while the same is in motion or parked in any public street, lane or public parking lot.

iii. While upon any private property not his own without the express permission of the owner or other person having authority to grant such permission.

b. 129-23 Determination of intent to consume. For the purposes of § 129-22, any person who has possession of an open container, of any kind whatsoever, containing an alcoholic beverage in any place or location set forth in § 129-22 shall be presumed to have possession of an alcoholic beverage with intent to consume in violation of § 129-22 hereof.

c. 129-24 Violations and penalties.
   [Amended 4-9-1987 by Ord. No. MC-2289] The violation of any such provisions shall be punishable by a fine not to exceed $1,000 or by imprisonment for a term not to exceed 90 days, or both.

d. 129-31 Prohibitions. It shall be unlawful for any underage person to, without legal authority, knowingly possesses or knowingly consume an alcoholic beverage on any private property within the City of Camden.

e. 129-33 Violations and penalties.

   i. Any violation under this article shall be punishable by a fine of $250 for a first offense and $350 for any subsequent offense.
State of New Jersey

1. J.S.A. 2C:35-3, Leader of Narcotics Trafficking Network, provides penalties for a person found to have acted as an organizer, supervisor, manager or financier of a scheme distributing any Schedule I or II drug.

2. J.S.A. 2C:35-4, Maintaining or Operating a Controlled Dangerous Substance (CDS) Production Facility, provides that such conduct is a first degree crime punishable by imprisonment and fines.

3. S.A. 2C:35-5, Manufacturing, Distributing, or Dispensing, provides that such conduct results in imprisonment and fines.

4. J.S.A. 2C:35-6, Using a Juvenile in a Drug Distribution Scheme, provides that such conduct is a second degree crime punishable by imprisonment and fines.

5. J.S.A. 2C:35-7, Drug-Free School Zones, provides that any person who distributes, dispenses, or possesses with intent to distribute a controlled dangerous substance within 1,000 feet of school property is guilty of a crime of the third degree.

6. S.A. 2C:35-8, Distribution to Persons Under Eighteen or Pregnant Females, provides that such conduct carries a penalty of imprisonment and fines.

7. J.S.A. 2C:35-9, Strict Liability for Drug-Induced Death, provides that such a situation is a first degree crime, same as murder, but no intent need be shown, only that death resulted as a result of the use of a drug supplied by the defendant.

8. J.S.A. 2C:35-10, Possession, Use, Being Under the Influence, or Failure to Make Lawful Disposition, provides that such conduct carries penalties of imprisonment and fines. Possession of anabolic steroids is a third degree crime. N.J.S.A. 2C:35-11, Imitation Controlled Dangerous Substance (CDS), provides that dispensing or distributing a substance falsely purported to be a CDS is a third degree crime, and can carry a fine up to $200,000. Drug paraphernalia is defined "...all equipment, products, and materials of any kind which are used or intended for use in planting, propagating, cultivating, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, ingesting, inhaling, or otherwise introducing into the human body a controlled dangerous substance... including... roach clips... bongs... pipes..."

9. J.S.A. 2C:36-2, Use or Possession with Intent to Use, Narcotic Paraphernalia, provides that such conduct carries a disorderly persons offense.

10. J.S.A. 2C:36-3, Distribute, Dispense, Possess with Intent to, Narcotics Paraphernalia, provides that such conduct is a fourth degree crime.

11. J.S.A. 2C:36-4, Advertise to Promote Sale of Narcotics Paraphernalia, provides that such conduct is a fourth degree crime.

12. J.S.A. 2C:36-5, Delivering Paraphernalia to Person Under Eighteen Years, provides that such conduct constitutes a third degree crime.

13. J.S.A. 2C:36-6, Possession or Distribution of Hypodermic Syringe, provides that such conduct constitutes a disorderly persons offense.

Federal Drug Offenses
Federal Trafficking Penalties

An up to date list of federal drug trafficking penalties (by schedule) can be found online. See http://www.dea.gov/druginfo/ftp3.shtml for a complete listing of drugs by schedule.

Federal Penalties and Sanctions for the Illegal Possession of Controlled Substances:

1. First Conviction – Up to one year’s imprisonment and fine of at least $1,000, or both.

2. After one prior drug conviction – At least 15 days in prison, not to exceed two years and fine of at least $2,500, or both.

3. After two or more prior drug convictions – at least 90 days in prison, not to exceed three years and a fine of at least $5,000, or both.

4. In addition, the offender may be forced to relinquish personal and real property used to possess or facilitate possession of a controlled substance if the violation is punishable by more than one year in prison. Any vehicle used to transport or conceal a controlled substance must be forfeited and a civil fine may be imposed. For first-time offenders, federal benefits, such as student loans, grants, contracts, and professional and commercial licenses, can be denied for up to one year. For the second and subsequent offenses, federal benefits can be denied for up to five years.
Attachment 3 - State of New Jersey Drug-Free Workplace Act - Executive Order No. 204

The Governor of the State of New Jersey issued Executive Order 204, on March 14, 1989, in compliance with federal law. This order, the Drug-Free Workplace Act, is a condition of continued employment by all public employees, including Rowan University (CMSRU) employees. This policy prohibits the unlawful possession, use, distribution, dispensation, sale, or manufacture of controlled substances on University (CMSRU) premises. Violation of this policy may result in the imposition of employment discipline up to and including termination as defined for specific employee categories by existing college policies, statutes, rules, regulations, employment contracts, and labor agreements. In addition to campus rules, faculty and staff must obey applicable Federal, State, and local laws concerning drugs and alcohol and are subject to criminal and civil penalties. The University (CMSRU) cooperates with municipal and other law enforcement authorities in enforcing these laws.

EXECUTIVE ORDER NO. 204

WHEREAS, the problem of drug abuse is adversely affecting the lives and safety of our citizens; and

WHEREAS, the abuse of drugs in the workplace, among other things, reduces job efficiency, increases absenteeism and sick leave, and, most importantly, jeopardizes the lives and safety of fellow employees and citizens; and

WHEREAS, the State of New Jersey has a vital interest in promoting a safe and drug-free workplace and in ensuring our citizens that public safety employees do not threaten life and limb due to the abuse of drugs; and

WHEREAS, the Federal Drug-Free Workplace Act of 1988, Public Law 100-690, Title V, Subtitle D, conditions receipt of Federal grant funds upon the grantee's agreement to provide a drug free workplace; and

WHEREAS, the Federal Drug-Free Workplace Act requires a grantee to prohibit the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance, to specify actions that may be taken against employees who violate the prohibition, to establish a drug free awareness program for employees, to require employees and employers to give notice of any conviction for a drug offense committed in the workplace; and

WHEREAS, the citizens of the State greatly benefit from the State government's participation in federally funded programs;

NOW, THEREFORE, I, THOMAS H. KEAN, Governor of the State of New Jersey, by virtue of the authority vested in me by the Constitution and by the Statutes of this State, do hereby ORDER and DIRECT:

1. The following "Policy for a Drug-Free Workplace in New Jersey State Government" shall apply to all principal executive departments in New Jersey State Government, the Office of the Governor, and all agencies that are in, but not of, principal executive departments. This policy establishes minimum standards for the imposition of discipline and for participation in drug abuse treatment programs in the limited context of convictions for drug offenses committed in the workplace. Nothing in this Policy precludes the application of other more comprehensive or more stringent provisions governing drug offenses committed by State employees. In fact, the Cabinet Task Force on Drug Testing in the Workplace, which was created in Executive Order No. 191, will formulate a more comprehensive State policy regarding drug abuse and the workplace in the near future.

2. The State of New Jersey is committed to maintaining a drug-free workplace for all State employees in order to protect the health and safety of State employees and the public.

3. The unlawful manufacture, distribution, dispensation, possession, or use of a drug in the workplace is prohibited.

4. In addition to any other applicable civil or criminal penalty, any employee convicted of illegal manufacture, distribution, dispensation, possession, or use of a drug in the workplace shall be subject to the following consequences
a. The State Forfeiture of Public Office Statute (N.J.S.A. 2C:51-2) requires forfeiture of public office or employment upon conviction of a crime of the third degree or higher. All convictions of crimes of the third degree or higher listed in the Comprehensive Drug Enforcement Act of 1987, and all convictions for equivalent Federal and out-of-state drug offenses, require forfeiture of public office or employment.

b. The Forfeiture of Public Office Statute also requires forfeiture of public office or employment upon conviction for an offense involving dishonesty or upon conviction for an offense involving or touching upon the convicted person's public employment irrespective of the degree of the offense. Consequently, convictions for any drug offense occurring in the workplace (including fourth degree, disorderly persons, and petty disorderly persons offenses) which are determined to involve or touch upon the office or employment of an individual may result in the statutory forfeiture of public office or employment.

c. In the case of a drug conviction for an offense occurring in the workplace that does not result in statutory forfeiture of public office or employment, disciplinary action shall be taken. The extent of disciplinary action shall be determined by the appointing authority. In addition, in the case of any disciplinary action other than removal, an employee shall be required to satisfactorily participate in a program for the treatment of drug abuse approved by both the appointing authority and any Federal or State agency responsible for the approval or licensure of such programs.

d. Each department head, agency head, or their designee who receives notice of a drug offense conviction shall, within 30 days of receipt of notice, take the administrative action necessary for removal where statutory forfeiture is required, and where statutory forfeiture is not required, take the administrative action necessary to impose discipline and require satisfactory participation in an approved program for drug abuse where appropriate.

5. An employee who is convicted of a drug offense committed in the workplace must, within five days, report the conviction to his or her supervisor.

6. Each supervisor who receives a report of a conviction for a drug offense in the workplace must immediately report the conviction, according to departmental or agency procedures, to the department head, agency head, or their designee.

7. Within 10 days of the supervisor's receipt of notice of a conviction for a drug offense, the department head, agency head, or their designee shall ensure that notification of such conviction is provided to any Federal agency providing funds for a program in which the convicted employee is employed.

8. Each department head, agency head, or their designee must develop and implement procedures to ensure that reports, which are received by supervisors concerning convictions for drug offenses in the workplace, are reported promptly to the department head, agency head, or their designee.

9. Each department head, agency head, or their designee must maintain records that contain the following information on each conviction for a drug offense committed in the workplace by an employee:
   a. Date of conviction
   b. Disciplinary action taken
   c. Whether the employee is one whose duties involve the performance of a Federal grant
   d. Date Federal grantor was notified of the conviction, if applicable.

10. Each department head, agency head, or their designee will distribute an Employee Notice, and this Executive Order to each current employee. Each department head, agency head, or their designee shall distribute these documents to any employee who joins the work force after the initial A program entitled, "Drug-Free Awareness" is being developed, and upon completion will be provided to all employees.
11. Definitions for purpose of this policy:

a. **Conviction** - means a finding of guilt, or a plea of guilty, before a court of competent jurisdiction, and, where applicable, a plea of nolo contendere. A conviction is deemed to occur at the time the plea is accepted or verdict returned. It does not include entry into and successful completion of a pre-trial intervention program, pursuant to N.J.S.A. 2C:43-12, et seq., or a conditional discharge, pursuant to N.J.S.A. 2C:36A-1.

b. **Drug** - means a controlled dangerous substance, analog, or immediate precursor as listed in Schedules I through V in the New Jersey Controlled Dangerous Substances Act, N.J.S.A. 24:21-1, et seq., and as modified in any regulation issued by the Commissioner of the Department of Health. It also includes controlled substances in Schedules I through V of Section 202 of the Federal Controlled Substance Act of 21 U.S.C. 812. The term shall not include tobacco or tobacco products or distilled spirits, wine, or malt beverages as they are defined or used in N.J.S.A. 33:1-1, et seq.

c. **Employee** - means all employees of the Office of the Governor or a department or agency within the scope of this Policy, whether full- or part-time and whether in the career, senior executive, or unclassified service.

d. **Workplace** - for the purposes of this Policy only, means the physical area of operations of a department or agency including buildings, grounds, and parking facilities provided by the State. It includes any field location or site at which an employee is engaged, or authorized to engage, in work activity, and includes any travel between such sites.

e. This policy is effective March 18, 1989 and shall remain in effect until superseded by statute, regulation, or Executive Order. (signed) Thomas H. Kean, GOVERNOR

Attachment 5 - Education and Prevention - Important Telephone Numbers

Rowan University (CMSRU) acknowledges the importance of communicating information concerning alcohol and other drugs, and the effects and consequences of illegal use, misuse, and abuse.

1. The Wellness Center at Winans provides specialized programs for students, faculty and staff, on issues related to alcohol, tobacco, and other drug use, misuse, and abuse. Aftercare and programs for recovering students are also provided on campus. The Wellness Center at Winans offers books, pamphlets, videos, and other pertinent information regarding alcohol, tobacco, and other drug issues for use by the campus community. The office also serves as a confidential referral location for drug and alcohol assessment and evaluation.

2. Human Resources offers direction to any Rowan employee who may have questions and/or concerns related to alcohol and other drug use, misuse, and abuse. The Wellness Center at Winans offers help and information to directors and supervisors of departments in identifying an employee in need of assistance.

Drug and Alcohol Treatment

This is a partial list only and not intended as an endorsement of facilities. Please consult Yellow Pages under Alcoholism or Drug Abuse and Addiction for additional resources.

On-Campus Resources

1. The Wellness Center at Winans: 856-256-4222

Off-Campus Resources

1. Addictions Hotline of NJ: 1-800-238-2333
2. Camden County Council on Alcoholism and Drug Abuse, Inc: 856-427-6553
4. Danielle Counseling and Wellness Center, Glassboro, NJ: 856-863-0006
5. The Southwest Council, Inc and the Cumberland County Intoxicated Driver Resource Center Vineland, NJ: 856-794-1011
7. Sodat (outpatient) 124 N. Broad St., Woodbury, NJ: 856-845-6363
Attachment 6 - Biennial Review of Policy and the Alcohol and Drugs Education Program

A notification regarding the availability of this policy will be distributed, via the Rowan email system, annually to each employee and student who is taking one or more classes for any type of academic credit except for continuing education units, regardless of the length of the student's program of study.

Rowan University (CMSRU) will conduct a biennial review of this policy and Alcohol and Other Drug Education programs to determine their effectiveness and implement changes to the policy if they are needed and to ensure that the disciplinary sanctions are consistently enforced. A committee of faculty, staff, and students will review the policy and programs in consultation with Student Affairs and the Office of Human Resources.
Anti-Violence Policy

POLICY:
Anti-Violence Policy

PURPOSE:
To ensure an environment of respect and safety that is free from intimidation, threats, and acts of violence.

SCOPE:
All individuals and activities on CMSRU property or on any property used for CMSRU activities or by CMSRU student groups.

DEFINITIONS:
Inappropriate behaviors covered by this policy include but are not limited to:

- Name calling
- Profanity
- Sexual comments
- Obscene language or gestures
- Blatantly disregarding university and/or CMSRU policies and procedures
- Ethnic, racial, religious or gender epithets
- Stealing
- Making verbal threats or conveying threats by note/letter and/or electronically
- Physical abuse or attack
- Inappropriate touching
- Destroying property or any vandalism, arson, or sabotage
- Throwing objects
- Possession of a weapon

➢ Weapons: An instrument of offensive or defensive combat or something that is used to cause injury to an individual. Under New Jersey statutes, "Weapons" are defined as "Anything readily capable of lethal use or of inflicting serious bodily injury." The term includes, but is not limited to air guns, spring guns or pistols or weapons of a similar nature in which the propelling force is from an elastic band, carbon dioxide, compressed or other gas or vapor, air or compressed air or ignited by compressed air and ejecting a bullet or missile, knives, clubs, night sticks, metal knuckles, firearm silencers, armor piercing ammunition, zip guns, chemical substances, i.e. pepper spray over ¾ oz and Tasers. (See N.J.S.A.2C:39-6 setting out permissible conditions for carrying chemical substances for personal self-defense.)

PROCEDURE:
Cooper Medical School of Rowan University (CMSRU) does not tolerate threatening or violent behavior of any kind. Identification of early indicators of a potentially violent behavior as well as other behaviors that are clearly violent will be acted on as necessary.
Any individual, who believes they have been subjected to, has observed or has knowledge of actual or potential violence should immediately notify Public Safety, the Assistant Dean for Student Affairs or designee and/or local police. Incident reports should be completed with CMSRU Security or local police as required. If any imminent physical threat or danger exists, students should contact CMSRU Security (856-361-2880), or dial the emergency number 911. CMSRU will respond promptly to threats or acts of violence. This response may include local law enforcement agencies, if appropriate.

CMSRU students who commit threats or acts of violence will be subject to strong disciplinary action, up to and including academic dismissal. Qualifying events will be reported as required by Clery Act compliance. For more information on the Clery Act, please refer to: https://sites.rowan.edu/publicsafety/clery/

Rowan University will support criminal prosecution of those who threaten or commit violence against its employees, students, or visitors within its facilities, programs, and activities.

CMSRU will attempt to reduce the potential for internal violence through student wellness and educational programs. Individual counseling will be utilized as needed. CMSRU will work to positively affect the attitudes and the behavior of its students and faculty.

Possession, use or display of weapons, or ammunition is prohibited on property owned by or under the control of CMSRU. For more information, please refer to Rowan University’s Weapons and Prohibition on Campus Policy. (https://confluence.rowan.edu/display/POLICY/Weapons+Prohibition+on+Campus)

For more information, please refer to Rowan University’s General and Safety and Security Policy. (https://confluence.rowan.edu/display/POLICY/General+Safety+and+Security)
COVID-19 Exposures and Testing Policy

POLICY:  
This policy addresses known or suspected COVID-19 exposures and testing.

PURPOSE:  
To create procedural guidelines for students who have experienced COVID-19 exposure or have symptoms consistent with COVID-19 (fever, cough, and/or sore throat, loss of taste/smell, GI symptoms etc.).

SCOPE:  
This policy applies to all CMSRU students and visiting students.

DEFINITIONS:  
**SARS-COV-2** is a virus that infects humans and spreads primarily through droplets of saliva or discharge from the nose or mouth when an infected person coughs or sneezes.

**COVID-19** is an infectious disease caused by a new strain of coronavirus that may cause mild to severe illness, including death.

**Quarantine:** defines the process of keeping someone who might have been exposed to COVID-19 away from others. People in quarantine should stay home, separate themselves from others, monitor their health, and follow directions from their state or local health department. The duration of quarantine is 14 days from last exposure to index case.

**Self-isolation:** is used to separate people infected with COVID-19 from people who are not infected.

A person in isolation should stay home until it’s safe for them to be around others. In the home, anyone who is sick or infected should separate themselves from others by staying in a specific “sick room” or area and using a separate bathroom (if available). The duration of self-isolation must be at least 10 days from positive test result, but can be longer depending on symptoms.

**Low risk exposure:** represents brief (< 10 min) exposure to a confirmed case of COVID-19 while both the exposer and exposee were wearing face covering and maintaining physical distancing of 6 feet. In the health care setting, this consists of a brief interaction with patients with COVID-19 while maintaining physical distancing and wearing a facemask OR prolonged close contact with patients who were wearing a facemask/intubated for source control while student was wearing a facemask or respirator and eye protection.

**Medium risk exposure:** generally includes students who had prolonged close contact with patients/colleagues/household members with COVID-19 who were wearing a facemask/intubated while student’s eyes, nose and mouth were exposed to material potentially infectious with the virus causing COVID-19 OR student was wearing facemask/respirator and no eye protection while COVID-19 index case was not wearing a facemask.

**High risk exposure:** refers to students who have had prolonged (more than 10 minutes) close contact with patients/colleague/household members with COVID-19 who were not wearing a facemask while the student’s eyes, nose and mouth were exposed to material potentially infectious with the virus causing COVID-19.

PROCEDURE:  
Students should wear appropriate personal protective equipment (PPE) as directed by policy at the CMSRU educational building or at the clinical site and as guided by their preceptor and clinical rotation. At minimum, students should wear a surgical loop mask at all times and face shield when in clinical areas while in the hospital. When in ambulatory offices, students should wear a surgical loop mask at all times and eye protection (goggles or face shield)

*Note: This policy is subject to change pending guidance from governing bodies.*
when in clinical areas. When in the Medical Education Building, students must wear a face mask at all times. For aerosolizing generating procedures, students should wear indirect ventilated goggles or face shield, with a fitted respirator. Following Cooper University Health Care’s (CUHC) COVID-19 Policy, and in accordance with related Rowan University policies, students should not report to class or the clinical environment if they have:

- Respiratory symptoms alone (cough, shortness of breath or difficulty breathing)
- OR
- Fever (100.0 degrees F or higher)
- Chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell
- GI symptoms such as vomiting and diarrhea

Students should report illness to their Primary Care Provider (PCP) (either the CMSRU student health physician or their private PCP) immediately.

If PCP is not a CMSRU Student Health provider, the student must utilize the Absence from School/Clinical Environment Form by Primary Care Provider posted on Blackboard and attached below. It is the student’s responsibility to provide the forms to their primary care provider and ensure return of the forms to CMSRU Student Health.

**Hospital or Ambulatory Office:**

CMSRU students are restricted from the care of known or suspected COVID-19 patients. In cases where the patient is subsequently diagnosed with COVID-19, a risk assessment for the level of exposure will define the next steps as per CUHC COVID-19 Policy.

**Classroom Exposures:**

If a classmate or faculty member tests positive for SARS-COV-2, the level of exposure of the exposee will determine subsequent steps.

**Household Exposures:**

If a medical student’s household member develops an illness consistent with COVID-19 and is awaiting test results, the student will quarantine at home, at least until the test results are finalized and additionally as indicated. The duration of quarantine will depend on the household member’s test results. The exposure risk is considered a high-risk exposure if the household contact tests positive for COVID-19. The PCP must be notified if absence is required while awaiting the household contact’s test results. The absence form is available on Blackboard.

**Steps to be taken depending on level of exposure to Confirmed COVID-19 cases:**

**Low risk exposure:** If exposed students are asymptomatic, they may continue to go to class and must utilize monitor log for two weeks.

1. Asymptomatic: Students may continue clinical rotations/school maintaining face PPE at all times and must monitor for symptoms for 2 weeks. Students should utilize the monitor log (attached) with the date and temperature reading taken twice daily along with any other symptoms noted (e.g. cough, headache, GI symptoms or shortness of breath). If symptoms develop, the student should contact their PCP immediately for testing and self-isolate at home.
2. Symptomatic: Students must self-isolate and contact their PCP immediately.

**Note: This policy is subject to change pending guidance from governing bodies.**
**Moderate /high-risk exposure:** The exposed student must quarantine or self-isolate at home.

1) Asymptomatic students must quarantine for 14 days AFTER their last contact with the COVID-19 index case. In the case of a household member with a known diagnosis of COVID-19, the student will start counting the 14 days from the first day the sick household member was removed from isolation. Symptoms may take 2-14 days to appear. Students should use the log to monitor symptoms for 14 days. The PCP should be notified for required absence and return to school/clinical environment forms. Forms are available on Blackboard.

2) Symptomatic, the student must self-isolate and contact their PCP for testing.
   - If the student tests positive for COVID-19, the student must self-isolate for at least 10 days from the positive test date and 24 hours since the last fever without the use of fever-reducing medications AND improvement of symptoms. Notify the PCP for required absence and return to school/clinical environment forms.
   - If the result is negative, the student should remain in isolation for 14 days from exposure to index case (to fully complete the required quarantine) and at least 24 hours from resolution of symptoms without use of antipyretic, whichever is longer. The required forms are available on Blackboard.

**Testing:**

Students with symptoms who have had close contact with persons with COVID-19 (defined by the NJDOH as being within 6 feet for at least 10 minutes), will be ordered PCR testing based upon the CUH COVID-19 Policy and NJDOH guidelines. Symptoms include but are not limited to: fever, cough, shortness of breath, chills, muscle pain, new loss of taste or smell, vomiting or diarrhea and/or sore throat.

CUHC is not testing employees with exposure and no symptoms at this time per CDC and IDSA guidelines.

**Refusal of Testing:**

- If a student refuses testing and is symptomatic, the student must self-isolate for at least 10 days from when symptoms first started AND for 24 hours after fever has resolved without the use of fever-reducing medications and with a significant improvement in symptoms (whichever period is longer).

**Calling Student Health:**

Students who are concerned for exposure or have compatible symptoms should immediately self-isolate at home and contact their PCP.

Students who call Student Health must identify themselves as a CMSRU student and should ask to speak with a LPN (licensed practical nurse). The LPN will inform the student to contact their PCP.

1) If the PCP is the student health physician, the student will be triaged and/or given an appointment. If the student qualifies for testing based upon the guidelines above, Student Health will contact the testing site. CUHC nurses will arrange for testing and contact the student directly. Testing results will be communicated by CUHC nurses and/or Student Health.

2) If the PCP is not the CMSRU student health physician, the student will be asked to contact their PCP. If the student prefers to utilize the services of Student Health, the student will be offered to change the PCP to for the evaluation and testing of COVID-19.

If the student contacts a PCP other CMSRU student health, their PCP will be responsible to order testing, treat symptoms, complete all forms and return the student back to school/clinical environment.

**Weekends/After hours:**

A CUHC PCP is on call to speak with any student. The student should identify themselves as a CMSRU student and ask the message be routed to the appropriate PCP if within CUHC. The on call physician may be reached by calling the CMSRU Student Health office number at 856-968-8695. Students who contact the on call physician should contact their

Note: This policy is subject to change pending guidance from governing bodies.

200
PCP the next business day to ensure proper evaluation and ask their PCP to utilize the Absence from School/Clinical Environment Form by Primary Care Provider for COVID-19.

Any student experiencing acute distress should proceed to the nearest emergency department or call 911. Students may always contact Student Health with any concerns or questions.

**Housing for Isolation or Quarantine**

Housing is available to students who are unable to fully self-isolate when symptomatic or COVID-19 positive or if quarantine is necessary and they can’t quarantine in their own accommodations. They should contact the Office of Student Affairs to arrange housing.
Absence from School/Clinical Environment Form by Primary Care Provider

COVID-19 Absence from School/Clinical Environment
Request from Primary Care Provider

Student/Patient’s Name: ______________________________
Student/Patient’s DOB: ______________________________
Student/Patient’s Phone Number: ______________________

Please excuse the above student from school/clinical environment starting ____________ (MM/DD/YYYY).

For guidance to return your patient/student to school/clinical environment in accordance with CMSRU COVID-19 policy, please utilize the COVID-19 CMSRU Return to School/Clinical Environment Form.

Please return this form by faxing it to 856-968-8697. Call Dr. Kimberly Rozengarten with questions at 855-968-8695.

This form will be scanned into the student’s EPIC medical chart by Student Health, who will then notify the Office of Student Affairs.

COVID-19 Required Notifications and Contact Tracing Policy

POLICY:
This policy addresses known or suspected COVID-19 exposures, required notifications and contact tracing.

PURPOSE:
To create procedural guidelines for students and university notification of known or suspected COVID-19 exposures and establish guidelines for contact tracing and student travel.

SCOPE:
This policy applies to all CMSRU students and visiting students.

DEFINITIONS:
Coronavirus is a virus that infects humans and spreads primarily through droplets of saliva or discharge from the nose or mouth when an infected person coughs or sneezes.

COVID-19 is an infectious disease caused by a new strain of coronavirus that may cause mild to severe illness, including death.

PROCEDURE:
Daily Attestation:
To aid in the monitoring of the health of the Rowan University population, students must submit answers to a daily screening regarding their wellness. When logging into Rowan University platforms, the student will be asked to complete questions regarding COVID-19 symptoms and exposures. If the student answers positively to any of the questions, the student must self-isolate at home and contact Student Health for further guidance. Students should report illness to their Primary Care Physician (PCP)(either the CMSRU student health physician or their private PCP) immediately.

Notification to CMSRU Students of potential household exposure:
If a student has been advised by their PCP to isolate, quarantine and/or undergo testing, the student must disclose the potential exposure to any household members. If the student resides with other CMSRU students, these students will be contacted by Student Health for further guidance. Students who undergo COVID-19 testing will be asked to quarantine or isolate until test results are finalized. Return to regular activity will depend on results and reason for testing as delineated in the COVID-19 exposures and testing policy.

Rowan University Notification and Contact Tracing:
Notification to the Rowan University Wellness Center will be made for all students who test positive for COVID-19 by CMSRU student health. If a student has a private PCP, their PCP must notify CMSRU student health of a COVID-19 positive test. If a student tests positive for COVID-19 and has had exposure to other students, healthcare providers, faculty, staff, and patients, the Office of Student Affairs and Cooper University Healthcare will be notified by Student Health for contact tracing purposes. CMSRU has two trained contact tracers on staff.

Travel:
Students who travel to states identified on the New Jersey Department of Health Travel Advisory list are required to self-quarantine for 14 days and monitor their symptoms using the monitor log attached. Students should contact their PCP immediately with symptoms. Students who decide to travel to these areas should notify the CMSRU Office of Student Affairs as soon as they are aware of their travel plans.

This policy is subject to change pending guidance from governing bodies.

Note: This policy is subject to change pending guidance from governing bodies.
COVID-19 Return to School Policy

POLICY:
This policy addresses the process of approval for students to return to the school/clinical environment after known or suspected COVID-19 exposures.

PURPOSE:
To create procedural guidelines for return to school/clinical environment for students who have experienced COVID-19 exposure or have symptoms consistent with COVID-19 (fever, cough, and/or sore throat, loss of taste/smell, GI symptoms etc.).

SCOPE:
This policy applies to all CMSRU students and visiting students.

DEFINITIONS:
SARS-COV-2 is a virus that infects humans and spreads primarily through droplets of saliva or discharge from the nose or mouth when an infected person coughs or sneezes.

COVID-19 is an infectious disease caused by a new strain of coronavirus that may cause mild to severe illness, including death.

Quarantine: defines the process of keeping someone who might have been exposed to COVID-19 away from others. People in quarantine should stay home, separate themselves from others, monitor their health, and follow directions from their state or local health department. The duration of quarantine is 14 days from last exposure to index case.

Self-isolation: is used to separate people infected with COVID-19 from people who are not infected.

A person in isolation should stay home until it’s safe for them to be around others. In the home, anyone who is sick or infected should separate themselves from others by staying in a specific “sick room” or area and using a separate bathroom (if available). The duration of self-isolation must be at least 10 days from the last positive test result, but can be longer depending on symptoms.

Low risk exposure: represents brief (< 10 min) exposure to a confirmed case of COVID-19 while both the exposer and exposee were wearing face covering and maintaining physical distancing of 6 feet. In the health care setting, this consists of a brief interaction with patients with COVID-19 while maintaining physical distancing and wearing a facemask OR prolonged close contact with patients who were wearing a facemask/intubated for source control while student was wearing a facemask or respirator and eye protection.

Medium risk exposure generally includes students who had prolonged close contact with patients/colleagues/household members with COVID-19 who were wearing a facemask/intubated while student’s eyes, nose and mouth were exposed to material potentially infectious with the virus causing COVID-19 OR student was wearing facemask or respirator no eye protection while COVID-19 index case was not wearing a facemask.

High risk exposure refers to students who have had prolonged (more than 10 minutes) close contact with patients/colleague/household members with COVID-19 who were not wearing a facemask while the student’s eyes, nose and mouth were exposed to material potentially infectious with the virus causing COVID-19.

PROCEDURE:

Note: This policy is subject to change pending guidance from governing bodies.
Return to School/Clinical Environment:

In accordance with Rowan University and Cooper University Health Care policy, the primary clinical affiliate of CMSRU, return to class or the clinical environment will be based on a symptom-based strategy (rather than test-based strategy).

COVID-19 Positive Student:
1) Asymptomatic Student with Positive COVID-19 Test: As it is not possible to determine where these individuals are in the course of their illness, asymptomatic students who tested positive for COVID-19 may return to school/clinical environment 10 days after their first positive COVID-19 test if they are asymptomatic. If symptoms develop, refer to the Symptomatic Student with Positive COVID-19 Test criteria.

2) Symptomatic Student with Positive COVID-19 Test: Students may return to school/clinical environment 10 days after first positive test AND at least 24 hours after fever has resolved without the use of fever-reducing medications and with a significant improvement in symptoms (whichever period is longer).

Upon returning to school/clinical environment, all students who tested positive for COVID-19 should remember the following:

1) Per CMSRU policy students in the educational environment (medical education building (MEB) and any other affiliated buildings) are required to wear non-medical grade facemasks at all times when in the presence of others and maintain proper social distancing (at least 6 feet).

In the hospital clinical environment, CUHC policy is that of universal masking in addition to face shields. In the ambulatory clinical environment, CUHC policy is that of universal masking in addition to face shields or goggles.

Students must wear facemasks even when in non-patient care areas such as breakrooms and hallways, as they may also expose other students, faculty, and staff. Students must socially distance themselves from others by at least 6 feet if they remove their facemask (e.g. to eat).

2) Students who are diagnosed with COVID-19 are restricted from caring for severely immunocompromised patients (e.g. transplant, hematological malignancy) until 14 days after illness onset/positive test (whichever is longer).

3) Students should self-monitor for symptoms and seek re-evaluation from their primary care physician (PCP) if symptoms of COVID-19 (re)occur or worsen.

COVID-19 Negative Student with low risk exposure or no known exposure:

1) Symptomatic Students Tested Negative for COVID-19: Symptomatic students who test negative for COVID-19 may have another respiratory virus. Similar guidance on infection prevention and control should be followed (e.g. minimize contact with others, practice good hand hygiene, clean and disinfect environmental surfaces, etc.). If the student has an alternate diagnosis (e.g. tested positive for influenza), criteria for return to school or clinical environment should be based on that diagnosis. At a minimum, students should be excluded from school/clinical environment for at least 24 hours after symptoms resolve including fever, if applicable.

2) Asymptomatic Student Tested Negative for COVID-19: No restrictions based on COVID-19 test results. Students may return to school/clinical environment. Students should continue to report recognized exposures, regularly monitor themselves for fever and symptoms of COVID-19, use facemasks for source control, and should not report to school/clinical environment when ill.

COVID-19 Negative Student with moderate/high risk exposure:

1) Asymptomatic students may return to school/clinical environment after they have self-quarantined for 14 days AFTER their last contact with the COVID-19 index case AND remained symptom-free. In the case of a household member, the student will start counting the 14 days from the first day the sick household member was removed from isolation.

2) Symptomatic students may return to school after they have remained in isolation for 14 days from their exposure to the index case (to complete quarantine) and at least 24 hrs from resolution of symptoms without use of antipyretic, whichever is longer.

Note: This policy is subject to change pending guidance from governing bodies.
Required Forms:
All students with known or suspected COVID-19 exposure will be required to submit appropriate documentation in order to return to the CMSRU learning environment. The “COVID 19 Return to School/Clinical Environment Clearance” form is posted to Blackboard and must be completed by the student’s PCP. It is the responsibility of the student to ensure all forms are completed and submitted as directed. CMSRU reserves the right to require additional information as necessary.

This policy is subject to change pending guidance from governing bodies.

Note: This policy is subject to change pending guidance from governing bodies.
COVID-19 Return to School/Clinical Environment Clearance

Access the COVID-19 Return to School/Clinical Environment Clearance form online.

COVID-19 Return to School/Clinical Environment Clearance by Primary Care Provider

Student/Patient’s Name: __________________________

Student/Patient’s DOB: __________________________

Student/Patient’s Phone Number: __________________________

In accordance with Cooper Medical School of Rowan University’s Policy on COVID-19, please complete the following form for your patient’s return to school/clinical environment. This form may only be completed by the students’ Primary Care Provider and will not be accepted without signature.

Please utilize the following definitions for low vs moderate/high risk exposures:

**Low risk exposure:** represents brief (< 10 min) exposure to a confirmed case of COVID-19 while both the exposer and exposee were wearing face covering and maintaining physical distancing of 6 feet. In the health care setting, this consists of a brief interaction with patients with COVID-19 while maintaining physical distancing and face covering OR prolonged close contact with patients who were wearing a facemask/intubated for source control while student was wearing a facemask or respirator and eye protection.

**Medium risk exposure:** generally includes students who had prolonged close contact with patients/colleagues/household members with COVID-19 who were wearing a facemask/intubated while student’s eyes, nose and mouth were exposed to material potentially infectious with the virus causing COVID-19 or student was wearing facemask/respirator and no eye protection while COVID-19 index case was not wearing a facemask.

**High risk exposure:** refers to students who have had prolonged (more than 10 minutes) close contact with patients/colleague/household members with COVID-19 who were not wearing a facemask while the student’s eyes, nose and mouth were exposed to material potentially infectious with the virus causing COVID-19.

Check one of the following for Low Risk Hospital/Ambulatory Office/Classroom Exposure or no known Exposure:

☐ **Tested COVID-19 Negative, Asymptomatic:** Student tested negative for COVID-19 on ________ (MM/DD/YYYY) and may return to school/clinical environment at this time.

☐ **Tested COVID-19 Negative, Symptomatic:** Student may return to school/clinical environment as they tested negative for COVID-19 on ________ (MM/DD/YYYY) AND have an alternate diagnosis for their symptoms. Based on such diagnosis, they may return to

Page 1 of 3

Revision Date 08/17/2020

Note: This policy is subject to change pending guidance from governing bodies.
school/clinical environment at this time as the symptoms have resolved for at least 24 hours (including fever, if applicable).

☐ **Tested COVID-19 Positive, Asymptomatic:** Student may return to school/clinical environment as they tested positive for COVID-19 on _______ (MM/DD/YYYY), have had no symptoms AND it has been 10 days since their positive test date.

☐ **Tested COVID-19 Positive, Symptomatic:** Student may return to school/clinical environment as they tested positive for COVID-19 on _______ (MM/DD/YYYY) AND it has been 10 days since their positive test date AND the student has gone at least 24 hours without a fever (without the use of fever-reducing medications) AND has had a significant improvement in symptoms, whichever is longer.

*Check one of the following for Moderate/ High Risk for Hospital/Ambulatory Office/Classroom Exposure:*

☐ **NO Testing, Asymptomatic:** Student may return to school/clinical environment as they have quarantined for 14 days AFTER their last contact with COVID-19 index case and have remained free of symptoms.

☐ **Tested COVID-19 Positive, Symptomatic:** Student may return to school/clinical environment as they tested positive for COVID-19 on _______ (MM/DD/YYYY) AND it has been 10 days since their positive test date AND the student has gone at least 24 hours without a fever (without the use of fever-reducing medications) AND has had a significant improvement in symptoms, whichever is longer.

☐ **Tested COVID-19 Negative, Symptomatic:** Student may return to school/clinical environment as they tested negative for COVID-19 on _______ (MM/DD/YYYY) AND have remained in isolation for 14 days from exposure to index case (to complete quarantine) and at least 24 hrs from resolution of symptoms without use of antipyretic whichever is longer.

*Check one of the following for Household Exposure:*

☐ **Household Contact Tested COVID-19 Negative, Student Asymptomatic:** Household contact tested negative on _______ (MM/DD/YYYY). Student may return to school/clinical environment immediately.

☐ **Household Contact Tested COVID-19 Negative, Student Symptomatic, Student Tested COVID Positive:** Household contact tested negative on _______ (MM/DD/YYYY). Student may return to school/clinical environment as they tested positive for COVID-19 on _______ (MM/DD/YYYY) AND it has been 10 days since their positive test date AND the student has gone at least 24 hours without a fever (without the use of fever-reducing medications) AND has had a significant improvement in symptoms, whichever is longer.

☐ **Household Contact Tested COVID-19 Negative, Student Symptomatic, Student Tested COVID Negative:** Household contact tested negative on _______ (MM/DD/YYYY). Student

---

**Note:** This policy is subject to change pending guidance from governing bodies.
may return to school/clinical environment as they tested negative for COVID-19 on ________ (MM/DD/YYYY) AND have an alternate diagnosis for their symptoms. Based on such diagnosis, they may return to school/clinical environment at this time as the symptoms have resolved for at least 24 hours (including fever, if applicable).

☐ Household Contact Tested COVID-19 Positive, Student Asymptomatic: Student may return to work/clinical environment as the household contact tested positive for COVID-19 on ________ (MM/DD/YYYY), and the student has self-quarantined for 14 days AFTER their last contact with the sick household member. If the student had remained in contact with the household member, the student will start counting the 14 days from the first day the sick household member was removed from isolation.

☐ Household Contact Tested COVID-19 Positive, Student Symptomatic, Student Tested Positive: Student tested positive for COVID-19 on ________ (MM/DD/YYYY), at least 10 days have passed from positive test date AND has self-isolated for 24 hours without fever and without the use of fever-reducing medications AND other symptoms are greatly improved. The student has remained in quarantine for 14 days from the last unmasked exposure. If the student had remained in contact with the household member, the student will start counting the 14 days from the first day the sick household member was removed from isolation.

☐ Household Contact Tested COVID-19 Positive, Student Symptomatic, Student Tested Negative: Household contact tested positive on ________ (MM/DD/YYYY). Student tested negative for COVID-19 on ________ (MM/DD/YYYY). The student should have repeat testing in 3-5 days from the initial test, remain in self-isolation for at least 14 days from last exposure to the sick household member AND the fever has resolved for 24 hours without use of an antipyretic. If the student had remained in contact with the household member, the student will start counting the 14 days from the first day the sick household member was removed from isolation.

Attach the students COVID-19 Test Results with their name and DOB if applicable.

This form will be scanned into the student’s EPIC medical chart by Student Health, who will then notify the Office of Student Affairs of approval to return to the learning environment.

Please return this form by faxing it to 856-968-8697 with attention to Dr. Rozengarten. Call Dr. Kimberly Rozengarten with questions at 855-968-8695.

Emergency Preparedness Policy

CMSRU Adheres to the Rowan University Emergency Preparedness Policy

POLICY:
Emergency Preparedness

PURPOSE:
The distinctive organizational design of Rowan's (CMSRU) campuses is serviced through a centralized system of support from the Office of Emergency Management that allows all the campuses to maintain independent day-to-day operational control while ensuring accountability, consistency and internal jurisdictional control over operational and emergency personnel when it is most important to do so. This policy outlines the responsibilities under the Emergency Operations Plan to address this unique situation by defining what support and oversight is provided centrally while ensuring the campuses’ day-to-day operations remain flexible, autonomous, and independent.

ACCOUNTABILITY:
Under the direction of the President, the Assistant Vice President for Public Safety, Office of Emergency Management, and CMSRU Chief Security Officer Department of Public Safety in collaboration with the Office of Administration, Finance, and Operations shall implement this policy and ensure compliance.

SCOPE:
This policy applies to University (CMSRU) faculty, staff, students, employees, and visitors to all Rowan campuses.

POLICY – EMERGENCY MANAGEMENT:
1. General Information
   a. The Office of Emergency Management coordinates all campus emergency planning, activities, mitigation, response, and recovery efforts. This includes the development, maintenance, and approval of an Emergency Operations Plan and all training, preparation, and development of an Executive Management Team (EMT) and the Emergency Operations Team (EOT). This department is also responsible for being the primary liaison between the University (CMSRU) and other outside municipal, state and federal agencies related to, or directly responsible for, emergency management.
   b. The Office of Emergency Management develops and maintains the Emergency Operations Plan for the University (CMSRU), ensures regular tests of emergency management systems are conducted and makes sure the necessary emergency services, police and security services and other support personnel are available when requested.
   c. Department heads are responsible to prepare their department emergency plans, and will coordinate with the Office of Emergency Management who will oversee all campus-wide emergency/disaster plans, training, and exercises. The Office of Emergency Management will ensure the department emergency plans are in line with the overall University (CMSRU) Emergency Operations Plan.

Note: This policy is subject to change pending guidance from governing bodies.
d. The Director of Emergency Management will obtain the formal adoption of the Emergency Operations Plan by the University Board of Trustees. The Office of Emergency Management manages all of the Emergency Annexes, outlined in the Emergency Operations Plan to aid in the mitigation of a University (CMSRU) crisis.

e. An emergency is defined as an event, expected or unexpected, involving shortages of time and resources, that places life, property, or the environment in danger and that includes and exceeds the regular 911 Police/Fire/Medical response.

2. Emergency Management Chain of Command

a. The University President has the authority for the University’s (CMSRU’s) overall response to emergencies and incidents which may affect the University (CMSRU) and its operations.

b. The University President or his/her designees, in times of emergency or threat to the University (CMSRU) community, may declare a campus emergency which may modify the University’s (CMSRU’s) or an individual campus’ operational status as well as make available University (CMSRU) resources and direct University (CMSRU) operations to the incident. The size and scope of the emergency will be conveyed at the time of the declaration in accordance with the Emergency Operations Plan. Campus resources may be directed and made available to be utilized to prepare for the threat, to mitigate the incident and/or restore the University (CMSRU) to an operational status.

c. The Assistant Vice President of the Department of Public Safety and the Office of Emergency Management serves as the University's Emergency Management Coordinator, and as such, functions as the President's direct representative during public safety emergency operations. The Assistant Vice President of the Department of Public Safety and the Office of Emergency Management also has delegated authority to engage in mutual aid agreements and partnerships with responders and services to provide additional resources beyond the campus' capabilities to assist during an incident.

d. The Office of Emergency Management Director shall maintain, review, and ensure compliance of the Emergency Operations Plan. The Emergency Operations Center Annex Manager reports to the Director of the Office of Emergency Management and provides assistance and support during any major, declared disaster or event, specifically if outside resources are required and requested.

e. During an incident or heightened periods of increased risk, the Assistant Vice President of the Department of Public Safety and the Office of Emergency Management, in consultation with the Incident Commanders, Executive Management Team members, Emergency Operations Team members, and the President, if warranted, has the authority to take the necessary steps to maintain or restore normal University (CMSRU) operations.

f. Normal day-to-day public safety duties provided on the Rowan campuses shall be the responsibility of the respective departments, after consultation with the University (CMSRU) President, and the Assistant Vice President of the Department of Public Safety and the Office of Emergency Management.

g. Should a public safety emergency arise that requires a significant multi-department, or jurisdictional response, the Emergency Management Coordinator will activate the University Emergency Operations Team (EOT) to handle any operational component of a localized, or departmental emergency, and advise the Executive Management Team (EMT) if, and when key executive decisions are required. The EOT is comprised of key departmental heads and senior managers that have the authority to make decisions at the operational level to mitigate minor incidents or emergencies. The EMT is comprised of the Executive Cabinet, which makes University-wide
decisions that affect the entire University (CMSRU). The Emergency Management Coordinator coordinates the efforts of the various team members. The Director of the Office of Emergency Management will manage resources, planning and the maintenance of the University (CMSRU) Emergency Operations Plan and lead the support from the Emergency Operations Team.

h. During Emergencies requiring the activation of the Emergency Operations Team, department heads shall remain in charge of their respective departments, and communicate their efforts with the EOC.

3. Compliance Procedures

   a. Emergency Reporting and Response-Normal Operations:

   i. During normal operations, Rowan's Department of Public Safety coordinates and responds to emergencies on and around all University (CMSRU) campuses. Rowan's Department of Public Safety also coordinates response to fire and medical emergencies. Municipal partners will assist in rendering additional support and/or resources, if deemed necessary to mitigate an emergency response outside of the scope if the capabilities of University (CMSRU) responders. The National Incident Management System (NIMS) protocols will be used to manage the incident or event when outside resources are needed, and requested by University (CMSRU) officials.

   For emergencies at all Rowan University campuses:

   1. From any University phone, dial direct at 4911/4922. If calling from an outside line dial 856-256-4911/4922; and

   2. Any emergency where someone at Rowan dials 9-1-1, the call will immediately be redirected to a Rowan Communications Center.

b. Emergency Reporting and Response-Large Scale Event/Incident

   During an emergency impacting the entire campus or region, normal reporting and response services may not be available. Rowan's Office of Emergency Management uses an Emergency Operations Center and the incident Command System to manage hour-by-hour decisions during and after a major event. Depending on the location of the emergency, the Emergency Operations Centers for Rowan are located at the following:

   Glassboro Campus
   Primary EOC:
   Bole Annex, Conference Room #26, 601 Whitney Ave., Glassboro, NJ 08028
   Seats approximately 10

   CMSRU and Camden Campus
   Primary EOC:
   CMSRU – Conference Room #522, 401 S. Broadway, Camden, NJ 08103
   Seats 50 and has video conferencing capabilities

   RowanSOM
   Primary EOC:
   Deans Large Conference Room #310 Academic Center
   Stratford, NJ 08084
   Seats approximately 30
The EOC's are structured and equipped to provide:

i. Direction and control;

ii. Communications with the President and Administration, and other Rowan departments, as well as with city, county, state and federal official;

iii. Coordination with other government agencies; and

iv. Information Management.

The Emergency Operations Center is supported by all University (CMSRU) departments, upon request. Departments must transmit emergency impact reports to the Emergency Operations Center, and in some cases, provide emergency response services and relay emergency information and instruction to their constituents. As requested by the Emergency Management Coordinator, departments may be required to provide direct representation to the Emergency Operations Center during an emergency, or disaster. The EOC may be required to be located in another location based on the nature of the emergency.

c. Recovery

All University (CMSRU) Departments shall have a Continuity of Operations Plan to identify core operational functions, and the facilities and personnel needed to continue the mission of the University (CMSRU). The Emergency Operations Center will be utilized to manage large recovery operations and support department specific emergency plans. Department heads are required to maintain accurate records to record personnel and equipment costs for any potential insurance, or FEMA recovery claims. This information must be made available upon request, and submitted in a timely manner to the Assistant Vice of the Department of Public Safety and the Office of Emergency Management.

All cost recovery efforts are coordinated through the Office of Risk Management, Facilities and Operations, the Office of Finance, and the Office of Emergency Management.

4. Actions Implemented during Periods of Increased Risk

During periods of heightened risk, initial emergency information, direction and control will originate from the Rowan University Department of Public Safety and Office of Emergency Management. If it becomes necessary to activate the Emergency Operations Team, an Emergency Operations Center will be established. The Emergency Operations Center will be activated at the discretion of the Emergency Management Coordinator or, in his/her absence, by his/her designee for any emergency that exceeds the capabilities and resources of the University’s (CMSRU’s) regular emergency services and routine mutual aid. This would include incidents that may require an extensive and coordinated response.

5. Requests for Resources and Information

During times of emergency all University (CMSRU) department heads shall direct and coordinate all resource requests, and report efforts through the Emergency Operations Center. The Emergency Operations Center Annex Manager shall prioritize all University resource requests and direct them to the impacted area.

The University (CMSRU) will cooperate with all other local and appropriate agencies that have responsibilities relating to disaster preparedness, response, and control. The University (CMSRU) will also take required and prudent steps to assure the continuity of operations and restoration of normal processes as quickly as possible following an emergency.

All procedures and regulations are subject to amendment.
Free Speech and Peaceful Assembly Policy

CMSRU Adheres to the Rowan University Free Speech and Peaceful Assembly Policy

POLICY:
Free Speech and Peaceful Assembly Policy

PURPOSE:
This policy sets forth policies and procedures that are established in order to facilitate effective expression of free speech and peaceful assembly.

ACCOUNTABILITY:
Under the direction of the President, the Assistant Vice President of Public Safety, CMSRU Chief Security Officer Department of Public Safety, and the Office of Emergency Management, shall implement this policy and ensure compliance.

SCOPE:
This policy applies to all Rowan University (CMSRU) faculty, staff, students, and visitors to all Rowan University campuses.

POLICY:
1. GENERAL INFORMATION
   a. Rowan University (CMSRU) is committed to providing an educational climate that is conducive to the personal and professional development of each individual. The University (CMSRU) recognizes the right of all individuals to engage in peaceful and orderly assembly and/or demonstrations which do not disrupt the functions of the University (CMSRU) or interfere with the rights of others. The University (CMSRU) will protect the rights of freedom of speech, expression, petition, and peaceful assembly as set forth in the United States Constitution and the Constitution of the State of New Jersey. The University (CMSRU) maintains its right to implement reasonable time, place, and manner restrictions concerning acts of expression. The Supreme Court of the Unites States has adopted a forum analysis framework to assess whether, and to what extent, a government entity such as Rowan University (CMSRU) must permit expressive activity on its property.
   b. The Court has established three categories of forums:
      i. quintessential public forums;
      ii. designated public forums; and
      iii. nonpublic forums; this forum analysis is highly fact dependent and the examples which follow are intended to serve as illustrative and not definitive.
         1. Quintessential public forums, including public streets, sidewalks, parks, and similar common areas are generally available for expressive activity, planned or spontaneous, for an individual or small groups (generally where a crowd of 10 or less will be present, and/or where an event is not promoted in advance, and/or when an event is not sponsored by a student organization) at any time without the need for reservation, or prior approval.
         2. Designated public forums are created by the University (CMSRU) when it deliberately opens property to the public. These forums may be so designated for only limited uses or for only limited class of speakers.
         3. Non public forums are areas that are not traditional public forums or designated public forums. These forums will be restricted to use for their intended purpose.
Examples include, but are not limited to, classrooms, residence hall rooms, faculty and staff offices, academic buildings, administration buildings, medical treatment facilities, libraries, research and computer laboratories and facilities, and locations where University (CMSRU) events, ceremonies, commencement activities and other similar events and activities are held.

2. ADVANCE RESERVATION REQUIREMENTS
   a. In an effort to ensure safety and to promote an environment conducive to study, advance reservation for expressive activity is required for assembly and/or demonstrations that are promoted in advance, and/or sponsored by student organizations, and/or expected to draw a crowd of more than 10 people. Advance reservation is required for assembly and/or demonstrations at a University (CMSRU) ceremony, event and/or activity held on University (CMSRU) property or at any place in use for an authorized University (CMSRU) purpose.
   b. Any individual or group, either required by this Section to make an advance reservation, or desiring to make an advance reservation, shall complete and submit, to the Office of the Assistant Vice President for Public Safety and Emergency Management (Bole Annex) the reservation request form attached hereto at least 72 hours in advance of the assembly and/or demonstration. CMSRU students shall complete and submit the Rowan University (CMSRU) Reservation Request form to CMSRU Chief Security Officer Department of Public Safety for reservation requests.
   c. The decision to confirm or deny a reservation request will be based on proper and timely completion and submission of the reservation. The request form must be in compliance with the applicable sound and sign requirements and availability of space. If the assembly and/or demonstration is proposed to be held in either a quintessential or designated public forum, then under no circumstance will the decision to grant or deny a reservation request be based on the content or viewpoint of the expressive activity unless there exists a compelling interest of the University (CMSRU) to do so. If a reservation request is denied, the rationale for that decision shall be provided in writing. The denial of a reservation request can be appealed to the President of the University (CMSRU) or his/her designee. In addition, because locations within buildings are frequently booked well in advance, those wishing to engage in assembly and/or demonstration activities in a particular room or building should reserve that space through the established procedures for the particular facility. Contact the Office of the Assistant Vice President for Campus Recreation & Student Activities for assistance in determining the appropriate individual or office to contact to reserve the building space.
   d. Participants in the assembly and/or demonstration are expected to assist in cleaning up any litter that might result from leafleting or other activity.
   e. Individuals or groups wishing to use University-owned sound amplification equipment may request to rent equipment by contacting the Student University Programmers (“SUP”). If equipment is available at the time of the assembly and/or demonstration, the Office of the Assistant Vice President for Campus Recreation & Student Activities shall designate a location where sound amplification may reasonably be used.
   f. The University (CMSRU) recognizes that spontaneous assembly and/or demonstrations may occur. In such situations, the University (CMSRU) expects the persons involved to act responsibly and peacefully and reserves the right for an appropriate University (CMSRU) official, such as the Assistant Vice President for Campus Recreation & Student Activities, CMSRU Chief Security Officer Department of Public Safety, or any Public Safety Officer or security personnel, to ask persons to relocate the assembly and/or demonstration if it proves disruptive at the particular locations.

3. DISRUPTIVE ACTIVITY
a. As the above principles illustrate, and subject to compliance with this Policy, the University (CMSRU) recognizes the right of all individuals on University (CMSRU) property or at any place in use for an authorized University (CMSRU) purpose to engage in peaceful and orderly assembly and/or demonstration, which does not disrupt functions of the University (CMSRU) or interfere with the rights of others.

b. The University (CMSRU) will not allow disruptive or disorderly conduct on its premises to interrupt its proper operation or to interfere with the rights of others. Persons engaging in disruptive action or speech and/or disorderly conduct shall be subject to disciplinary action, including, but not limited to, removal from the premises and/or charges of violations of the law, and in case of students, expulsion and/or separation. Disruptive actions, speeches or demonstrations on University (CMSRU) property or at any place in use for an authorized University (CMSRU) purpose are strictly prohibited.

c. Listed below are examples of activities that will be considered disruptive and will result in discipline and/or removal, arrest, and/or prosecution.

i. Interference with scheduled University (CMSRU) ceremonies, events and/or activities held on University (CMSRU) property or at any place in use for an authorized University (CMSRU) purpose is prohibited. During a University (CMSRU) ceremony, event and/or activity, assembling and/or demonstrating noiselessly, such as by wearing clothing, gesturing, standing or distributing literature, is acceptable, provided it does not impede access to the University (CMSRU) ceremony, event and/or activity, disrupt the University (CMSRU) ceremony, event and/or activity or interfere with the attendees' ability to see or hear the University (CMSRU) ceremony, event and/or activity.

ii. Any use of signs, prolonged standing, or other activity likely to block the view of any of the attendees is prohibited, unless it is confined to the last row of the crowd, if the University (CMSRU) ceremony, event and/or activity is held outdoors, or to the back of the room, if the University (CMSRU) ceremony, event and/or activity is held indoors.

iii. Chanting or making other sustained or repeated noise or displaying or utilizing objects such as kites, balloons, banners or similar objects in a manner which interferes with the communication of any speaker at a University (CMSRU) ceremony, event and/or activity, or the attendees' ability to see or hear the speaker, ceremony, event and/or activity, is prohibited.

iv. Activities with a noise level that disrupts or poses a tenable threat of disrupting the proper operation of the University (CMSRU) are prohibited.

v. Obstruction, disruption or interference with classes, research, administrative functions or other University (CMSRU) activities is prohibited.

vi. Actions that endanger the safety of any individual, the University (CMSRU) community, or the academic process are prohibited.

vii. Failure to comply with directives of authorized University (CMSRU) Officials in the performance of their duties, including failure to identify oneself when properly requested to do so, is prohibited.

viii. Unauthorized entry, use, or occupancy of University (CMSRU) facilities, or refusal to vacate a University (CMSRU) facility or property when directed to do so by an authorized official is prohibited.

ix. The use of sound amplification equipment within a building without prior authorization is prohibited.

x. Damage to or destruction of University (CMSRU) property or of property on University (CMSRU) premises belonging to others is prohibited.
xi. Unauthorized setting of fires on University (CMSRU) property, or unauthorized use of or interference with fire equipment, is prohibited.

xii. Actions which threaten or incite immediate property damage, assault, or injury to self or other persons are prohibited.

xiii. Verbally provoking immediate physical assault, personal injury or property damage through the use of harassment, intimidation, bullying, threats, or fighting words is prohibited.

xiv. Violation of published University (CMSRU) regulations, policies or rules, or violation of any New Jersey state law or federal law is prohibited.

xv. Obstruction of vehicular and/or pedestrian traffic and/or obstruction of access to, and exit from, any University (CMSRU) ceremony, office, classroom, laboratory or building is prohibited.

xvi. Infringement on the rights of others is prohibited.

General Safety and Security Policy

CMSRU Adheres to the Rowan University General Safety and Security Policy

POLICY:
General Safety and Security

PURPOSE:
The policy sets forth policies and procedures that will assist in preventing personal injuries and losses when possible and providing support where such incidents occur. This policy also sets forth policies and procedures associated with campus law enforcement and security.

ACCOUNTABILITY:
Under the direction of the President, the Assistant Vice President of the Department of Public Safety, CMSRU Chief Security Officer Department of Public Safety, and Office of Emergency Management, shall implement this policy and ensure compliance.

SCOPE:
This policy applies to all Rowan University (CMSRU) faculty, staff, students, and visitors to all Rowan University (CMSRU) campuses.

REFERENCE:
1. Rowan University (CMSRU) Department of Public Safety Mission and Values Statement is available on Public Safety's website.

POLICY:
1. The mission of Rowan University (CMSRU) Department of Public Safety is to enhance the quality of life by providing a secure and safe environment through professional service to the University (CMSRU) community.

2. The Rowan University (CMSRU) Department of Public Safety is a professional law enforcement agency, dedicated and privileged to serve the University (CMSRU) community with efficient, fair, and high quality law enforcement response. The Department's mission focuses on:
   a. Protecting life and property.
   b. Preventing crime, reducing the fear of crime, and apprehending those who violate the law.
   c. Providing the Rowan community with public service in the form of citizen education, career days, volunteer-in-community programs, supporting charitable organizations, fingerprint programs and other programs that benefit the community.
   d. Working cooperatively with the public, other law enforcement agencies and governmental agencies, officers should strive to improve the quality of life for all residents and visitors to Rowan University (CMSRU).

3. Department Organization
   The Assistant Vice President of Public Safety and Office of Emergency Management manages the Public Safety Department. The day to day operations are under the direction of the Senior Director of Public Safety. The Department provides services to the University (CMSRU) community through its six service sections, which include:
a. The University's police officers provide law enforcement, investigative, and victim assistance services.

b. The University’s (CMSRU's) uniformed security officers provide 24-hour patrol services using vehicle, bicycle, and foot patrols. The Operation Lieutenants of Public Safety manage patrol services and special events on the Glassboro and Stratford campus and the Chief of Security manages Camden campuses.

c. The Lieutenants manage the Crime Prevention & Communications Section which provides crime prevention programs, presentations, and related services.

d. The Department also manages the campus parking program and assigns space for special events parking.

e. The Director of Emergency Management is responsible for emergency management and section operations.

f. The Chief of Security manages the volunteer student Emergency Medical Services ambulance squad on the Glassboro campus.

4. Calling for Assistance

a. The Public Safety services can be requested at any time by calling the Rowan University Department of Public Safety Communications Center. For emergencies, call 856-256-4911. For non-emergencies, call 856-256-4922. For CMSRU emergencies and non-emergencies, CMSRU students call 856-361-2880. The Rowan University community is also encouraged to use the Code Blue Emergency Telephones to report emergencies, suspicious conditions, or for a walking safety escort.

b. Anyone who witnesses or is victim of a crime should report the incident immediately to any officer, by calling the Public Safety Communications Center at 856-256-4911 or using a Code Blue Emergency phone. CMSRU students call 856-361-2880. When a crime is reported, the officer to whom you are reporting the crime will need to obtain your name, address, telephone number, and any information that you have about the crime. A written statement may be needed.

c. The responding officer will investigate or a detective if applicable for every crime that is reported. Officers will make every attempt to identify and apprehend a suspect. Copies of investigations may be shared with the Glassboro Police Department or other law enforcement agencies.

d. If you have been the victim of a crime and a suspect has been identified, you have the right to sign a criminal complaint. Complaints may be signed at the Department of Public Safety Department and/or the appropriate law enforcement agency.

5. Bomb Threats

a. The University (CMSRU) takes all threats seriously. Each threat is evaluated by appropriate members of the University’s (CMSRU's) administration and appropriate action initiated. Any person or department that receives a threat or suspicious item should call Public Safety's Emergency Line 856-256-4911 (CMSRU 856-361-2880)immediately to report the situation.

b. The person who receives the call or item should try to make note of:
i. The time the call or item is received.

ii. The telephone number the call is received from, if shown on the phone display or known.

iii. The exact message given by the caller, including any location, or times that an event might occur.

iv. Any distinctive characteristics about the caller's voice, background noises, etc. that might aid in identifying the caller.

v. In the case of an item, the way it was received, and any identifying information from the sender or its source.

6. The Department of Public Safety offers many services to the campus community, including:

a. Escorts, opening of doors, and opening of vehicles.

b. Parking event assistance, building security, and security for special events.

c. Operating a Lost and Found.

d. Responding immediately to fire alarms, requests for emergency medical services, reports of motor vehicle accidents, and to all emergency service calls.

e. Delivering emergency messages.

f. Requests for emergency maintenance repairs.

g. For Faculty, staff or administration needing to gain access to buildings after hours.

7. Crime Prevention

Rowan University (CMSRU) seeks to maintain a safe campus environment through the establishment of Crime Prevention Through Environmental Design (CPTED) standards. New campus construction must comply with these standards, and existing areas of the campus are addressed each year. The University's major CPTED initiatives have included lighting improvements, landscape adjustments, security fencing, and establishment of Code Blue Emergency Phones.

   e. In the case of an item, the way it was received, and any identifying information from the sender or its source.

2. If or when evacuation of a building is necessary, uniformed Public Safety Officers, or command/staff with appropriate identification badges will initiate evacuation by text alerts, voice message, public address system or by use of a fire alarm. If a fire alarm is used, everyone is to follow the University’s (CMSRU’s) fire emergency plan/decal instructions.

3. When evacuation is ordered, everyone should take any small, necessary personal items with him or her. For example: coats or outer garments to deal with inclement weather conditions that may exist; keys; wallets; ID and driver's licenses; purses; briefcases; back packs; laptops, cell phones, medications, etc. since they will not be allowed back into the building for an extended period of time. Please remember that action should not delay a prompt evacuation of the building/facility.
Attachment 2, Crime Prevention

1. Our Public Safety department can function effectively with the assistance and cooperation of concerned and responsible members of the academic community. The department depends upon the community to call and alert the department whenever they observe suspicious persons or activities. The department encourages the entire community to practice crime prevention every day. To request crime prevention services call 856-256-4922.

2. Each fall, the Crime Prevention section conducts an evening tour of the campus to identify areas needing improvement. The University community is encouraged to participate by calling Crime Prevention at 856-256-4922.

3. Crime Prevention Services
   Upon request, the Crime Prevention Officer will come to your location and engrave property such as computers, printers, typewriters and answering machines. It is our experience that property, which is visibly engraved, is less a target of theft and, if stolen, more easily recovered and returned to you. Crime Prevention also has security programs designed to help you protect cars, bicycles, motorcycles, textbooks, computers, and other possessions. Crime Prevention strongly encourages special education presentations for students, faculty and staff. These presentations can be delivered at any time of the day or night by calling 856-256-4922.

4. Crime Prevention Surveys
   Upon request, the Crime Prevention Officer will conduct security surveys to identify potential compromises to the security of the surveyed area. A written evaluation, with recommendations for improvement will be provided to the person who made the request. Should the recommendation indicate the need for services from other on-campus departments to rectify concerns, that request must emanate from the individual for whom the survey was done.

5. Student Patrol Program
   The Departments of Public Safety and Law and Justice co-sponsor the Student Patrol Program. This innovative program provides trained students to patrol the campus on a nightly basis during the academic year. They oversee their assigned sections and help to ensure they are safe and secure. Student Patrol also promotes good crime prevention practice, and they deliver peer programming to their assigned buildings and areas if applicable. A team of two students provides walking safety escorts to the University community each evening during the Fall and Spring semester. Student Patrol services can be requested for an evening safety escort, call the Communications Center at 856-256-4922.
Attachment 3, Security Services

The Department of Public Safety offers many services to the campus community. A description of each is as follows:

1. Escorts
   Should you feel the need for a safety escort, call Public Safety at 856-256-4922. An officer will be dispatched either in a patrol vehicle or on foot to your location. The officer will escort you to any location on campus.

2. Opening of Doors
   Doors to campus buildings will be opened each working day by 8:00 am. Should a particular outer door need to be opened earlier because of a special event, send a letter of request or an email at least five (5) days in advance to the Senior Director of Public Safety.

3. Opening of Vehicles – Vehicle, Bicycle, Motorcycle Security
   Requests to open vehicles in which keys have been locked may be directed to Public Safety at 856-256-4922. Public Safety does not open vehicles, but will assist the owner by calling an automobile service provider. The requestor will be responsible for any costs. The Crime Prevention section also sponsors an anti-theft program for your car, bike, or motorcycle. Special high quality CLUB devices may be purchased at a reduced price. Call Crime Prevention at 856-256-4922.

4. Parking Event Assistance
   On occasion large numbers of guests attend events on campus. These events may require parking assistance, directions, and decals. Requests for such service should be made to the Senior Director of Public Safety or the Parking Services Office, in writing or via email, at least five (5) days in advance.

5. Building Security
   Officers patrol the interior of buildings during the evening hours. Immediate concerns about building security should be reported to Public Safety at 856-256-4911. In addition, Student Patrols are assigned to buildings in the evening if needed. They are usually located at the lobby area. They are present to help supervise the building, to contact a public safety officer when necessary, to provide safety evening escorts, or to promote crime prevention programs.

6. Special Events
   a. Special events that occur on campus may need an officer assigned for control, parking and general assistance. The number of officers assigned will be determined in collaboration with the individual responsible for the event. Should officers be necessary, the individual department or organization may be charged the amount paid to the officer while assigned to the event. Notice of all special events must be made to the Senior Director of Public Safety in writing at least ten (10) days in advance. The following information is required
      i. Name, address and telephone number of applicant
      ii. Organization or Department sponsoring event
      iii. Type of event
      iv. Estimated number of participants
      v. Date, location, and hours of event
vi. If tickets sold, in advance or at the door
vii. Attendance limited to members of campus community
viii. Outside advertising concerning event
ix. Attendance by individuals not directly connected with the campus community
x. Special security needs or concerns

b. Student organizations hosting special events are coordinated by Lieutenants and must reference the University (CMSRU) Event Policy.

7. Lost and Found
a. Individuals losing items on campus should report such losses to the Public Safety Communications Center at 856-256-4922.
b. Any found property is to be turned over to Public Safety in Bole Annex. A Lost & Found form will be completed.
c. There is a list of lost items on the Public Safety website. The list is updated regularly.

8. Fire Alarm
a. Immediately notify Public Safety at 856-256-4911 of any fire alarm. It is required that all occupants of a building in which an alarm is sounding immediately exit the building. Do not use elevators during a fire alarm. Exit via stairwells. Be familiar with exit routes from your building.
b. The alarm will remain sounding and the building must remain empty until Public Safety personnel determine that the building is safe to re-enter.
c. When it is safe to re-enter the building, officers will silence the alarm.

9. Emergency Medical Services
Medical emergencies are to be reported to the Public Safety Communications Center at 856-256-4911. Indicate to the Dispatcher your name, telephone number, and location of the emergency. It is important to indicate as much as you know about the emergency. An officer will be dispatched to the scene. The Communications Center will also dispatch an ambulance if necessary.

10. Emergency Messages/RAVE Alerts
Communications Operators receiving notice of an emergency message will coordinate and implement a RAVE Alert text and email message to the campus community.

11. Emergency Maintenance Repairs
a. Requests for emergency maintenance repairs such as no heat, flooding and power losses occurring during the evening or weekend hours should be reported to the Communications Center at 856-256-4911.
b. An officer will evaluate whether or not immediate emergency services are needed and, if so, notify Maintenance personnel.
c. The individual reporting the problem will be notified of the actions to be taken.
12. Money Escorts

Requests for an escort while transporting money are to be made to the Communications Center at 856-256-4922. An officer will be dispatched to your location to escort you to the depository.

13. Motor Vehicle Accidents

a. Motor vehicle accidents occurring on campus are to be immediately reported to Public Safety at 856-256-4911. An officer will be dispatched to the scene to complete an accident investigation report. If there are injuries, an ambulance will also be dispatched.

b. It will be necessary for those involved in an accident to produce their driver's license, motor vehicle registration and insurance card.

c. To obtain a copy of the accident report for your records please contact Public Safety Records at 856-256-4524. Reports are ready after five (5) days. There is no fee for obtaining this record.

d. Insurance companies must write to the Department of Public Safety to request a copy of the accident report.

14. Building Usage, After Hours and Card Access

a. Students are not permitted to utilize academic or administrative buildings after closing hours. Students found in buildings after hours must present identification and will be asked to vacate the premises.

b. Faculty, staff or administration needing to gain access to buildings after hours must first contact Public Safety. Upon the presentation of identification, access will be allowed. When leaving the building, notify Public Safety. It is the responsibility of the individual leaving the building to ensure that all doors are locked behind him/her.

c. Most academic buildings now have a door card access system located at the handicapped exterior door. If assistance is needed for card access for your building. Call 856-256-4922.
Inclement Weather Policy

POLICY:
Inclement Weather Policy

PURPOSE:
The purpose of this policy is to develop a plan of operation should there be a weather emergency causing a closure of the Cooper Medical School of Rowan University.

SCOPE:
This policy applies to all CMSRU medical students, visiting medical students, staff members.

PROCEDURE:
CMSRU will remain open, and classes will be held during inclement weather whenever possible, safety permitting. The decision to close Rowan University (including CMSRU) is reserved to the President of Rowan University or their designee. The CMSRU dean or individual supervisors are not permitted to make this decision.

Rowan University will notify the students, faculty, and staff of a university closing through the following ways:

- Rowan Alert Message System (register)
  - Email (Rowan Advisory email)
  - Voicemail
  - Text message

The Rowan University President will make decisions for closure by 6 AM.

Instructions for M1 and M2 students:
1. Follow the Rowan Alert Message System for information on closures and/or delays.
2. Log into your Learning Management System (BB or Canvas) and closely monitor your Rowan email for information on adjustments to the daily/weekly schedule and other information from your course directors and the Office of Medical Education.
3. Virtual teaching sessions will be held as scheduled.
4. Announcements related to assessment delivery (i.e., examinations, OSCEs, etc.) that coincide with inclement weather days will be made in advance of the assessment's scheduled delivery. Be sure to monitor your Rowan email accounts for important scheduling information.

Instructions for M3 and M4 students:
1. Follow the Rowan Alert Message System for information on closures and/or delays. If you see a Rowan Advisory email or text message that states the following - Rowan Advisory: Due to the weather conditions throughout the region, the majority of Rowan University's campuses and facilities are closed TODAY, that indicates that students do not have to report to inpatient / outpatient clinical activities at Cooper University Healthcare. As a courtesy, please contact your preceptors or clerkship directors.
2. If there is a delay, contact your CLIC preceptors to determine if their offices will be open and if you can travel safely.
3. If you determine that you cannot travel safely (even if CMSRU is open), alert your preceptor if on CLIC and request an excused absence from the CMSRU attendance system. If you are on an inpatient service, contact your clerkship director and departmental education coordinator to inform them of your inability to travel to your clerkship site and request an excused absence from the CMSRU attendance system. Missed clinical time will be made-up at the discretion of the CLIC preceptor or clerkship director as appropriate.

4. Log into your Learning Management System (BB or Canvas) for information on adjustments to the M3 transdisciplinary schedule and other information from your course and clerkship directors and the Office of Medical Education.

5. Virtual teaching sessions and orientations will be held as scheduled.

6. Announcements related to assessment delivery (i.e., examinations, OSCEs, etc.) that coincide with inclement weather days will be made in advance of the assessment's scheduled delivery. Be sure to monitor your Rowan email accounts for important scheduling information.
Infectious and Environmental Hazards, Needlesticks and Bloodborne Pathogens Exposure Policy

POLICY:
Infectious and Environmental Hazards, Needlesticks and Bloodborne Pathogens Exposure and Protection of Patients from Blood Borne Pathogens and other Communicable Diseases

PURPOSE:
This policy is instituted to ensure appropriate education is facilitated to prevent, prepare and protect CMSRU students from potential infectious and environmental hazards, needlesticks and bloodborne pathogens exposure and to provide protocols to follow in the event of these exposures. It is also to protect patients from students who are infected with blood borne pathogens or other communicable diseases.

SCOPE:
This policy applies to all CMSRU medical students and visiting students.

DEFINITIONS:
The Cooper Learning Network (CLN) provides online training modules to students regarding safety measures surrounding environmental risks and exposure to hazards and infectious materials. Infectious materials include anything coming from someone’s body other than your own (for example, blood and bodily fluids) and all lab cultures.

PROCEDURE:
All CMSRU students receive annual training on infectious and environmental hazard methods of prevention and safety, including protocols surrounding access to care and treatment after exposure. The protocols included in this policy must be followed whenever there is the potential for exposure. Students are expected to comply with recommended infection prevention precautions and procedures at the point of patient care at each clinical site.

1. Each student is responsible for their own safety throughout their education at CMSRU.
   a. CMSRU will provide students with education and information regarding appropriate policies and procedures to follow to protect themselves during their educational experience and when they are potentially exposed to blood-borne pathogens, communicable diseases, and other environmental hazards. CMSRU students are expected to comply with all infection prevention policies and procedures.

2. Education and Training
   a. All students receive annual online training surrounding infection prevention and procedures to follow in the event of an exposure.
   b. All students receive annual Occupational Safety and Health Administration online training and education regarding needle sticks, sharps, and body fluid procedures and the prevention of blood-borne pathogen transmission.
   c. All students receive annual hazard communication online training with respect to environmental hazards and appropriate protective measures.
   d. All students receive annual online safety instruction to better protect patients, members of the healthcare team and themselves in the clinical environment.
   e. Prior to their first clinical experience, students receive online and in-person instruction regarding the prevention and understanding of all infectious diseases they may encounter in a clinical setting.
f. An exposures checklist (laminated card) detailing the steps to follow in the event of an exposure is provided to all CMSRU students.

3. **Standard Precautions**
   a. Consider blood, body fluids and tissue from ALL PATIENTS to be potentially infectious.
   b. Perform hand hygiene before/after all patient contacts.
   c. Wear gloves when exposure to blood and body fluids may occur, e.g., during phlebotomy. Change your gloves and perform hand hygiene after each procedure and before contact with another patient.
   d. Wear a gown, mask and goggles when blood or body fluids splashes may occur (e.g. during surgery, placing nasogastric tubes, etc.).
   e. Report immediately all incidents of blood and body fluid exposure of the following types:
   f. Parenteral: needle stick, puncture or cut.
   g. Mucous membrane: splash to eyes, nose, mouth.
   h. Cutaneous: contact with blood and body fluids on ungloved hands or other skin surfaces that may be cut, chapped, abraded, or affected by active dermatitis.

4. **Immediate Response - Time Matters!**
   a. Clean wounds or punctures with soap and water.
   b. Flush mucous membranes or skin copiously with water or saline;
   c. DO NOT “force bleed” the wound.
   d. DO NOT apply caustics (e.g. bleach, organic solvents, hard surface disinfectants, etc.).
   e. When HIV post-exposure prophylaxis (PEP) is indicated, early treatment (within hours) is recommended.
   f. Proceed Directly to Worknet Occupational Health Services or the Cooper University Health Care Emergency Department (CUHC ED).
   g. Please proceed directly to Worknet Occupational Health Services (856-338-0350) as soon as possible and identify yourself as a CMSRU student. Worknet is located at 300 Broadway, Suite #101, Camden, NJ, located across the street from the MEB. Worknet hours of operation are Monday-Friday, 7:30 AM to 5:00 PM. If the exposure occurs outside of Worknet’s hours of operation, please go directly to the Emergency Department at CUHC. *Due to COVID-19, Worknet is operating under the adjusted office hours of 8:00 AM to 3:00 PM.

5. **After First Aid**
   a. Notify the staff and supervising resident and/attending physician and the Office of Student Affairs.
   b. Carefully note the type of exposure, type of fluid/tissue involved and appropriate information about the source patient. (risk factors, lab data)
   c. Blood tests will be performed as appropriate.
   d. Worknet will provide a schedule for follow up counseling and treatment, as necessary.
   e. All initial costs of laboratory tests for properly reported occupational exposures or injuries are covered by CUHC.
   f. Treatment required post-exposure or for a clinical condition that develops as a result of the exposure or injury should be covered by the student’s health insurance policy.
   g. If a student is unsure whether they should participate in patient care, the student should contact the Student Health Center or their treating PCP or specialist.

6. **Learning Environment**
   a. Students who are potentially exposed to a patient with a communicable illness (e.g. meningitis, hepatitis, HIV) are to be evaluated by Worknet or the CUHC ED, offered preventive medication if indicated, and monitored for the development of illness by Worknet.
b. If a student has infection with a blood borne pathogen they are required to confidentially discuss the matter with the director of student health services. The goals are to protect infected students from discrimination, protect student confidentiality, and protect patients during exposure prone procedures. The director will assess risk to patients, educate the student about their condition, review practices, and provide clinical care if the student doesn’t want care from their own physician. The director may consult an ad hoc committee including an advisory dean, the director or a designee from Worknet, an infectious disease expert on the relevant pathogen, and a course director for whose course the student may have restricted activities. The student may request participation from the physician overseeing their care. The committee may recommend the student should not be in the clinical setting due to risk to self/patients/coworkers, can be in the clinical setting with limited activities, or can be in the clinical setting without restrictions. The committee may require a fitness for duty assessment prior to rendering a recommendation. They may make recommendations about specific accommodations. All recommendations will be made to the disability services provider.

c. In order to allow a student to return to the clinical setting following contraction of a communicable disease or disability due to an exposure, the ad hoc committee will make its recommendation based on the safety of all involved. If the disease or disability of the student can be accommodated, the student should apply to disability services to request appropriate accommodations. If approved, the accommodations would be reviewed and implemented by the Office of Medical Education. All information will be strictly confidential.

d. CMSRU is dedicated to ensuring that students with chronic conditions are not discriminated against and can continue in the educational program, despite the presence of a chronic condition, if at all possible with or without accommodations.

7. Visiting Students

   a. All students completing an away elective at CMSRU are required to complete OSHA training or comparable environmental hazard training from their home institution.
   
   b. In the event of an exposure, Visiting Students follow the same protocol as outlined in this policy and should be directed to the Office of Student Affairs at studentaffairs@coopermed.rowan.edu
   
   c. Visiting students are informed of this policy by email prior to commencing their rotations at CMSRU. In addition, the policy is included the CMSRU Visiting Student Webpage and uploaded to the VSAS/VSL0 website. As part of the VSLO application process for visiting students who request rotations at Cooper University Health Care, (CUHC) students must sign and attest they have read, understood and will abide by the Infectious and Environmental Hazards, Needlesticks and Bloodborne Pathogens Exposure Policy.
   
   d. An exposures checklist (laminated card) detailing the steps to follow in the event of an exposure is provided to all visiting students.

Please also refer to the Student Healthcare Services Policy

Immunization Requirements Policy

POLICY:

Immunization Requirements Policy

PURPOSE:

CMSRU requires immunization to protect the health and well-being of all students, faculty, staff, patients, and the general public against vaccine preventable communicable diseases.

SCOPE:

All medical students

DEFINITIONS:

Immunity-serologic presence of a given antibody (in a sufficient titer) to react with a specific antigen and prevent disease; BCG – Bacille Calmette-Guerin vaccination

PROCEDURE:

Students are required to show proof of appropriate immunity and documented immunization prior to matriculation and/or the onset of actual patient contact.

1. All students are required to have a pre-entrance physical examination performed by the student’s physician within one year prior to enrollment. Students must complete the CMSRU Health History Form and submit this form and immunization documentation prior to the first day of class. Any student failing to submit this documentation will not be able to attend classes or clinical rotations until this information is complete.

2. In accordance with the Centers for Disease Control and Prevention (CDC) guidelines for health care workers, and the applicable State of New Jersey immunization requirements, CMSRU students are required to provide proof of immunity via adequate documentation of appropriate vaccine administration or proof of serologic immunity for the following:

a. Rubeola, Mumps, and Rubella – All students must provide documentation of immunization. Students born after 1957 must have proof of vaccination of the two doses of live, attenuated measles and rubella vaccines. The first dose must have been given on or after the first birthday and in 1969 or later. The second dose must have been given at age 4-6 years or later, but at least 28 days after the first dose. If a student does not have appropriate documentation, serology testing may be conducted (rubella IgG, rubeola IgG, and mumps IgG) to document immunity.

b. Varicella - Students who have a negative or uncertain history of chicken pox are required to receive the varivax vaccine. Dosages are two doses administered eight weeks apart. Exceptions to this policy, such as medical contraindications or religious belief, can be discussed on a case by case basis with Worknet Occupational Health, CMSRU contracted service provider. Students may also document immunity with varicella IgG titers. In the event of a local measles or varicella epidemic, these exempted students will be excluded from group activity, including classes and patient care, until it is determined safe for the students to return.

c. Hepatitis B - Proof of immunity must be in the form of a “quantitative” Hepatitis B surface antibody titer consistent with immunity. If the student is found not to be immune to Hepatitis B,
whether due to non-vaccination or to the lack of response to the vaccine, the student will be offered the vaccine series.

d. Prior to matriculation, students will also be required to show proof of tetanus/diphtheria/pertussis (TDAP) booster shot.

e. Prior to matriculation, students (including those with prior BCG vaccination) will be required to have screening for tuberculosis with a tuberculin skin test, also known as a PPD. PPD testing will be performed by Worknet. If a student develops a positive PPD, appropriate evaluation and testing will be performed. This would include assessment of symptoms, as well as a chest x-ray. If indicated, appropriate therapy will be offered.

3. Students are required to be vaccinated annually for influenza unless there is a medical or religious contraindication, in which case they will be required to complete a flu declination form.

4. Proof of Immunity for all CMSRU students is required and reviewed by Worknet prior to matriculation. Failure to comply with immunization requirements prior to matriculation may delay entry into the CMSRU curriculum and cases will be reviewed individually by the Chief Student Affairs Officer (CSAO). Worknet will contact students to ensure proper immunization, as necessary. Any student having absent or low titers will receive the appropriate vaccine. Record keeping and periodic reports to the Office of Student Affairs regarding immunizations will be provided by Worknet, in accordance with HIPAA guidelines.

Exceptions:

Students who have a documented history of a positive TB test and proof of appropriate treatment may be exempt from further TB testing unless they develop signs or symptoms of infection. Documentation of prior treatment must be included in the student health record.

Students may also be exempt from a given vaccination if they have a medical contraindication for that particular vaccine. Students must present documentation from a physician regarding the contraindication and this must be included in the immunization record. Exemption from any given vaccination must not prevent fulfillment of the core essential curriculum.

Impaired Student Process

POLICY:
Impaired Student Process

PURPOSE:
To identify and discourage all drug and alcohol use that can adversely affect academic or clinical performance and has the potential to negatively impact the health and safety of peers, faculty, staff, or patients for which an impaired student may have interaction. Cooper Medical School of Rowan University (CMSRU), in collaboration with Cooper University Health Care (CUHC), will maintain an environment to ensure the safety of students, faculty, staff and patients will not be compromised.

SCOPE:
Any impairment and/or related treatment efforts apply to all CMSRU students. CMSRU complies with the Rowan University Policies General Safety and Security and Alcohol and Other Drugs Policies.

DEFINITIONS:
The term “drug” means a controlled dangerous substance, analog, or immediate precursor as listed in Schedules I through V in the New Jersey Controlled Dangerous Substances Act, N.J.S.A. 24:21-1 and as modified in any regulation issued by the Commissioner of the Department of Health. It also includes controlled substances in Schedules I through V of Section 202 of the Federal Controlled Substance Act of 21 U.S.C. 812. This policy applies to the use, possession or distribution of such items which is unlawful under the Controlled Substances Act. Such term does not include the use of a drug taken under supervision by a licensed health care professional, or other uses authorized by the Controlled Substances Act or other provisions of Federal law.

Impairment is defined as any physical, mental or behavioral disorder that interferes with the ability to engage safely in professional activities.

Impairment, and the effects of the impairment on academic or clinical performance, can be acute or chronic.

- Examples of acute impairment can include, but are not limited to, the following: hallucinations, increased agitation, paranoia, decreased level of consciousness, disorientation, loss of coordination, reduced capacity to communicate, combative without provocation, unusual flare-ups or outbreaks of temper, verbal threats, use of excessive profanity, and odor of alcohol on the breath.

- Examples of chronic impairment can include, but are not limited to: absenteeism, tardiness, an increase in errors made in the academic or clinical environment, a significant decrease in productivity, significant peer problems, poor personal hygiene, sleepiness, and poor judgment.

PROCEDURES:
Identifying an Acutely or Chronically Impaired Student; Returning the Student to Academic Responsibilities; and Drug Testing

Impairment, whether acute or chronic, will be determined by the Assistant Dean for Student Affairs or designee, in collaboration with the Associate Dean for Medical Education or designee, Student Support Services Specialist and other medical consultants as necessary, based on a student's ability to adequately perform their academic or clinical responsibilities. The process ensures an objective basis for documenting inadequate or deteriorating performance. The respective deans and/or designees will not attempt to diagnose the cause of the student's impairment. Based on a student’s performance, behavior, or condition, the
respective deans or designees may consult with the Student Support Services Specialist, Student Wellness Program (SWP), Student Health Services, and/or contracted psychiatry services, as needed.

*If a student observes impaired behavior in another student colleague, a report should be made to the Assistant Dean for Student Affairs or Chief Student Affairs Officer or designee, who will take appropriate action.

**Acute Impaired Student**

- If the Assistant Dean of Student Affairs or designee and/or the Associate Dean of Medical Education and/or designee determines a student to be unfit or unsafe to continue performing their academic or clinical responsibilities, they should immediately relieve the student of their academic or clinical responsibilities.

- The respective deans/designees will inform the student, based on their condition/behavior/performance.

- The student based on their condition/behavior/performance, will be medically evaluated to determine their “fitness” to perform academic and/or clinical responsibilities.

- A student experiencing acute issue of impairment will be directed to Worknet, Occupational Health Services, between the hours of 7:30 am and 5:00 pm, Monday through Friday. Due to COVID-19 Worknet is operating under the adjusted office hours of 8:00 AM to 3:00 PM temporarily. The Emergency Department (ED) will be used outside of Worknet hours of operation.

- The Assistant Dean for Student Affairs and/or a designee will alert Worknet or the ED that a student will be presenting for an evaluation. The Assistant Dean or designee will arrange for an escort for the impaired student.

- In the event a student refuses to be escorted to Worknet or the ED and/or refuses to be evaluated according to policy, no attempt should be made to force the student to do so. The Assistant Dean of Student Affairs or a designee will document the student’s refusal.

- In the event a student refuses the recommendations of the Assistant Dean of Student Affairs and/or designee and Associate Dean of Medical Education and/or designee, to be evaluated at Worknet or the ED, the student will not permitted to return to the CMSRU academic or clinical environment until documentation regarding impairment is provided by a treating physician or provider.

- If a student demonstrates a threat to themselves or others, the CMSRU Security Office, where applicable, will be called to provide assistance.

- If at all possible, no student will be allowed to leave the premises unsupervised. Family and friends should be contacted to provide transportation arrangements.

- The student should not be permitted to operate a vehicle. If the student insists or intends on driving a vehicle, the student will be advised of police notification.

- A student consent for drug/alcohol analysis must be completed by the student prior to testing. A chain-of-custody procedures will be followed and the test will be performed at a certified lab.

- If the drug or alcohol test is positive or the student self discloses substance usage, Worknet will refer the student to the Student Wellness Program (SWP). The SWP will conduct an evaluation and make a referral for appropriate treatment. The SWP will maintain contact with the treatment
provider to assure compliance with treatment recommendations. The SWP will receive all documentation for students who are referred to them for impairment.

**Chronically Impaired Student**

If based on a student’s academic performance or professional conduct, the Assistant Dean of Student Affairs and/or a designee and the Associate Dean of Medical Education and/or designee determines a student may be chronically impaired, the following steps should be taken:

- Signs of impairment reflecting a decline in a student’s academic/clinical performance or failure to meet academic standards will be documented.

- If academic or clinical performance problems persist and the Assistant Dean of Student Affairs and/or designee and Associate Dean of Medical Education and/or a designee believes professional intervention is necessary, the following steps may be taken at any time:
  - Refer the student to the student support services specialist for assessment. The student support services specialist will refer the student, if determined as necessary, to the SWP for free and confidential counseling, and document the referral.
  - Invoke disciplinary procedures.

- If the student’s performance impacts patient/public safety, the Assistant Dean for Student Affairs and/or designee and Associate Dean of Medical Education and/or designee, in consultation with the Student Support Services Specialist, and/or other aforementioned providers of care, may recommend immediate evaluation by Worknet.

**Returning the Student to Academic Responsibilities**

- Any acutely impaired student (or chronically impaired student, as required) must have a Worknet or ED physician's approval in order to return to CMSRU.

- The student cannot resume academic or clinical responsibilities until such time as the student is cleared by Worknet and alcohol and/or drug tests prove negative.

- The Assistant Dean of Student Affairs and Associate Dean of Medical Education and/or designee, should meet with the student to discuss their return to academic responsibilities. The Assistant Dean of Student Affairs or designee and Associate Dean for Medical Education or designee will remind the student that the academic standards/professional conduct remain unchanged.

- CMSRU will continue to monitor the student’s academic and clinical performance in accordance with CMSRU standards.

- In addition, CMSRU will monitor the student’s compliance with treatment recommendations with the SWP, and will determine a treatment plan.

- Follow-up testing will be determined as required on a case-by-case basis.

**Drug Testing**

- CMSRU reserves the right to require screening students for inappropriate drug and alcohol use as defined in this policy if reasonable suspicion is established.
• Reasonable cause is defined by inappropriate behavior, appearance, or academic performance as determined by those teaching or mentoring students, or any representative of the school.

• A standard reasonable suspicion record will be established for uniform and objective assessment necessitating the need for drug and alcohol testing.

• CMSRU reserves the right to require random and follow-up drug screenings for students who have participated in a Drug and Alcohol Treatment program while matriculating at CMSRU.

• All drug testing will be reviewed by Worknet prior to a student’s participation in direct patient contact. Worknet reserves the right to review and determine whether alternative medical explanations could account for positive findings.

• CMSRU adheres to the provisions of the Alcohol and Other Drugs Policy. A student’s participation in prohibited conduct constitutes grounds for disciplinary proceedings and such conduct may be brought to the attention of the appropriate criminal authorities.

• Students will have access to providers who are not faculty members of the medical school, thus assuring the provision of services with privacy and confidentiality. In case of an emergency, students will have 24-hour a-day access to crisis counseling.

• Each student agrees, as a condition of CMSRU enrollment, to notify the Assistant Dean of Student Affairs within five (5) days of any conviction of DUI or under a criminal drug statute for a violation that occurs during their tenure at the CMSRU.
Smoking Policy

CMSRU Adheres to the Rowan University Policy on Smoking

POLICY:
Smoking Policy

PURPOSE:
This policy provides guidelines regarding the prohibition of smoking in university (CMSRU) buildings in compliance with New Jersey state law and applicable regulations and in compliance with University (CMSRU) policy. To establish rules which prohibit tobacco smoking in the workplace. CMSRU, in compliance with New Jersey Administrative Code PL 1981, Chapter 320, and consistent with the policy of Rowan University, bans smoking inside and within 50 feet of all academic, residential, service and administrative buildings on campus.

SCOPE:
This policy applies to all Rowan University (CMSRU) medical students, visiting medical students, faculty and staff.

DEFINITIONS:
1. Electronic smoking device - An electronic device that can be used to deliver nicotine or other substances to the person inhaling from the device, including, but not limited to, an electronic cigarette, cigar, cigarillo, hookah or pipe.

2. Smoking - The burning of, inhaling from, exhaling the smoke from, or the possession of a lighted cigar, cigarette, pipe or any other matter or substance which contains tobacco or any other matter that can be smoked, or the inhaling or exhaling of smoke or vapor from an electronic smoking device.

PROCEDURE:
Rowan University (CMSRU) has adopted a policy to ban smoking inside and within 50 feet of all academic, residential, service and administrative buildings on campus. New Jersey statutes state that the right of the non-smoker to breathe clean air supersedes the right of the smoker to smoke.

1. New Jersey statutes state that the right of the non-smoker to breathe clean air supersedes the right of the smoker to smoke.

2. On the Glassboro Campus smoking of tobacco products and the use of electronic smoking devices is prohibited inside and within 50 feet of all academic, residential, service, and administrative buildings.

3. The Stratford Campus became smoke free on July 1, 2012. Smoking is prohibited in all University owned or leased facilities and vehicles.
Student Health Provider Policy

POLICY:
Student Health Provider Policy

PURPOSE:
This policy mandates a mechanism whereby anyone who provides medical or psychological care to a student of CMSRU will not be in a position to assess or grade that student or be involved in decisions about the promotion of that student.

SCOPE:
Candidates for the Doctor of Medicine degree

DEFINITIONS:
Student Health Provider: Anyone in the healthcare field who interfaces with a CMSRU student in the role of care giver, including those who provide psychological/psychiatric counseling or services.

PROCEDURE:
These rules must be followed at all times by all who provide health care to our students.

• A physician treating a CMSRU student as a patient in any health care setting will have no role in the assessment of that student or make decisions about the promotion of that student.
• All mental health service providers will not have CMSRU faculty appointments and thereby will have no role in student assessment.
• An advisory college director is not permitted to be a health care provider to an assigned student advisee.
• Should a faculty member serve on the Academic Standing Committee or the Hearing Body for Student Rights, and a student they have provided care for at any time during the student’s matriculation be reviewed by the respective group, the faculty member will recuse themselves from the meeting.
• Those who care for students in the Student Health Center may lecture in a large group setting at CMSRU, but will not have a role in the assessment of any student. They cannot be appointed as a small group facilitator, an advisory college director, a course director, or a clerkship director.
• Inpatient psychiatric care for CMSRU students will be delivered at a facility removed from the CMSRU campus and the providers will not be faculty of CMSRU.
• Reports of care regarding CMSRU students via the Student Wellness Program, Student Health Center, or other contracted services will be provided to the Office of Student Affairs in aggregate by numbers and events and not include student names or other protected health information.
• Required reporting to the Office of Student Affairs in cases of immunizations and exposure related events will be provided in accordance with HIPAA regulations.
Student Healthcare Services Policy

POLICY:
Student Healthcare Services Policy

PURPOSE:
To establish the range of healthcare services provided by CMSRU for students and to outline student responsibility for these services.

SCOPE:
This policy applies to all CMSRU medical students.

PROCEDURE:
CMSRU provides primary medical student healthcare services to all CMSRU students in a confidential, professional and sensitive manner. Students receive health education for prevention of illness, and services for diagnosis and treatment of routine illness and injuries. All students are required to maintain health and disability insurance.

The Student Health Center (SHC) provides students with access to diagnostic, preventive, and therapeutic health services on campus. The SHC is located on the Camden Health Sciences campus at Three Cooper Plaza, Sheridan Pavilion, Suite 104, a short walk from the CMSRU Medical Education Building (MEB).

The SHC is open Monday–Friday, 8:30 am-4:30 pm. CMSRU students may contact the SHC reception area at 856-968-8695 for routine appointments, sick visits, and nurse visits.

The SHC is a full-service ambulatory facility, led by the SHC director, a board-certified Internist, and is staffed by licensed practical nurses, medical assistants, and a part-time pharmacist. The SHC oversees all health services provided to CMSRU students, except immunizations and titers, which are offered to the students by Worknet, Occupational Health Services.

The SHC promotes optimal wellness coverage, enables medical students to make informed decisions about health issues, and empowers students to be self-motivated and well-informed health care consumers. The SHC focuses on preventative care and the treatment of acute and chronic illnesses and injuries. Students are able to access laboratory and radiology services and a variety of specialists in the same building. Students with more serious disorders requiring hospitalization and those who require immediate medical attention outside the hours of the SHC are directed to the CUHC Emergency Department, located at One Cooper Plaza in Camden, NJ, for evaluation.

The SHC physician director is not involved in the assessment, grading or promotion of students in the academic setting. The coverage group for this individual is also comprised of physicians who are not involved in the assessment, grading or promotion of students in the academic setting.

1) Co-pays, deductibles, labs, and diagnostic studies are the responsibility of the student. Students are also responsible for laboratory, radiology, or specialty referrals and treatments.

2) Each student will pay a yearly student fee that will be used to cover the annual PPD, and other immunizations as required by CMSRU and facilitated by contracted service provider, Worknet, Occupational Health Services. The Worknet facility is located adjacent to Cooper University Hospital, 300 Broadway, Suite #101, Camden, New Jersey.
The following services are available for CMSRU students through Worknet:

a. Annual PPD testing, immunizations, FIT testing, and appropriate follow-up care;
b. Record keeping and periodic reports to the Chief Student Affairs Officer (CSAO) regarding immunizations will be provided as required; and
c. Management of exposures, such as blood borne pathogens*: medical students will undergo initial counseling and will be given initial therapy at the Worknet facility or in the CUHC Emergency Department through a fast-track process, as required. After an exposure, students are to immediately notify their attending physician and/or resident. They are to immediately go to Worknet during their hours of operations or the ER after hours.

*Other counseling and management will be provided by Worknet as is outlined by the Infectious Disease, Environmental Hazards, Needlestick and Bloodborne Pathogens policy.

Proof of Immunity for all CMSRU students will be required and reviewed by Worknet prior to matriculation. Failure to comply with immunization requirements prior to matriculation may delay entry into the CMSRU curriculum and cases will be reviewed individually by the Assistant Dean for Student Affairs or designee. Worknet will contact students as necessary to ensure proper immunization. Any student having absent or low titers will receive the appropriate vaccine. Record keeping and periodic reports to the Office of Student Affairs regarding immunizations will be provided by Worknet, in accordance with HIPAA regulations.

CMSRU Students may contact Worknet with any questions by telephone 856-338-0350, email at worknetcamcmsru@selectmedical.com or by visiting the facility located adjacent to Cooper University Hospital at 300 Broadway, Suite #101, Camden, New Jersey.

*See policy on Immunization Requirements

*See policy on Infectious Disease, Environmental Hazards, Needlestick and Bloodborne Pathogens policy.
**CMSRU Visitor Policy**

**POLICY:**
CMSRU Visitor Policy

**PURPOSE:**
To provide protocol for individuals who are interested in visiting and/or touring the CMSRU Medical Education Building (MEB).

**SCOPE:**
All individuals who are not current CMSRU students, faculty, and staff.

**PROCEDURE:**
Any individual, including a student visitor(s), who is not a current student, faculty, or staff at CMSRU is not permitted into the medical education building without an approved reason or circumstance.

- Visits to CMSRU should be carefully planned to minimize disruption to school operations and didactics. If there is interest from outside parties in visiting CMSRU, the host must contact the following departments, providing advanced notice of at least 24 hours:
  - Individuals/groups-Dean’s Office
  - External visitors-Marketing and Public Relations
  - Prospective students-Admissions
  - Visitors of current students-Office of Student Affairs

- If any of the aforementioned departments approve a visit/tour of the CMSRU Medical Education Building (MEB), a Rowan University Department of Public Safety officer assigned to CMSRU must be notified by the department approving the visit/tour request.

- If a visitor wishes to attend/audit any didactic sessions due to special or exceptional circumstances, the host must obtain prior permission from the Dean or Associate Dean for Medical Education, as well as the respective course directors/teaching faculty.

- The host/tour guide must fall under the category of current student, staff, or faculty member possessing a valid and current CMSRU ID badge and will provide the approved guests the tour of the MEB.

- The host/tour guide is required to meet the visitor(s) at the CMSRU main entrance, Security Desk. The visitor(s) must sign the security log and follow any required security procedures to officially enter into the MEB.

- The host/tour guide is required to escort the visitor(s) for the entire time the visitor is touring the MEB.

- Tours conducted in the CMSRU MEB are not to exceed 30 minutes.

- Tours of the Simulation and Clinical Skills Center must be pre-approved by the Simulation Center Director of Operations or designee or the Dean; tours of the Simulation and Clinical Skills Center are not permitted during previously scheduled formative or summative OSCE events.
• Tours of the CMSRU MEB are not permitted on examination dates without permission of the Dean.

• Visitors, not to exceed six persons, (**exception-approved formal group tours, per Dean’s office/Marketing/PR) including the tour guide, are permitted on the 1st through 5th floors of the MEB, but are not allowed in any faculty or staff offices or specifically assigned faculty/staff areas.

• Visitors are not permitted in any CMSRU lab/research or other restricted areas, including the Gross Anatomy Lab, without special permission of the Assistant or Associate Dean for Research, Assistant Dean for Phase 1 of the Curriculum or the Dean.

• Visitors are not permitted in the Vivarium.

• Visitors who are not scheduled for an MEB tour or are unattended, will remain in the CMSRU Lobby, pending consultation with CMSRU Public Safety and the Chief Student Affairs Officer or designee.
Weapons Prohibition on Campus

CMSRU Adheres to the Rowan University Policy Regarding Weapons Prohibition on Campus

POLICY:
Weapons Prohibition on Campus

PURPOSE:
This policy sets forth policies and procedures associated with the "No Weapons" or "Weapons Prohibition" policy on the campus.

ACCOUNTABILITY:
Under the direction of the President, the Assistant Vice President for Public Safety, CMSRU Chief Security Officer Department of Public Safety, and the Office of Emergency Management, shall implement this policy and ensure compliance.

SCOPE:
This policy applies to Rowan University (CMSRU) faculty, staff, students, employees, and visitors to all Rowan campuses, including those who have a valid permit to carry a concealed weapon.

REFERENCES

POLICY:
1. Rowan University (CMSRU) prohibits the use or possession of any weapons as defined in N.J.S.A. 2C:39-1, in all campus buildings, on all Rowan University (CMSRU) properties, in all Rowan University (CMSRU) facilities, and at all Rowan University (CMSRU) sponsored events. Violators of this policy may be removed from campus, arrested, expelled, suspended, placed on probation, or will be subject to discipline, up to and including termination. Individuals shall be held accountable through the criminal justice system and/or the Campus Hearing Board.

2. This prohibition may not apply to authorized law enforcement personnel pursuant to N.J.S.A. 2C:39-6, if an exemption applies to carry a weapon on campus.

3. All state and federal statutes and local ordinances regarding the possession of firearms and weapons, including imitation firearms, both legal and illegal, apply on all Rowan University (CMSRU) property and Rowan University (CMSRU) sponsored events and any applicable statutes, laws, regulations, and ordinances are hereby incorporated by reference as if set forth here at length.

4. Under New Jersey statutes, "Weapons" are defined as "Anything readily capable of lethal use or of inflicting serious bodily injury." The term includes, but is not limited to air guns, spring guns or pistols or weapons of a similar nature in which the propelling force is from an elastic band, carbon dioxide, compressed or other gas or vapor, air or compressed air or ignited by compressed air and ejecting a bullet or missile, knives, clubs, night sticks, metal knuckles, firearm silencers, armor piercing ammunition, zip guns, chemical substances, i.e. pepper spray over ¾ oz, and Tasers. (See
N.J.S.A.2C:39-6 setting out permissible conditions for carrying chemical substances for personal self-defense.

Please refer to the *Student Handbook* or contact Campus Police for more details regarding the Rowan University (CMSRU) "No Weapons" or "Weapons Prohibition" policy.
Policies Related to Tuition:

Emergency Loan Policy

POLICY:
Emergency Loan Policy

PURPOSE:
To establish a fund for students in need.

SCOPE:
This policy affects all students of CMSRU and commits CMSRU to providing support through the Office of the Dean.

PROCEDURE:
Total Planned tuition and fees, the undergraduate debt, and the daily costs of living are a challenge for all medical students in the nation. There are circumstances that arise outside of the budget created by the student and the Office of Student Affairs (OSA). The Emergency Loan Policy, formerly known as the Dean’s Fund Policy, will provide money for unexpected emergencies and unexpected events for our students. This policy provides a guideline for how these funds can be accessed and when they are to be repaid.

A student in need of short-term financial assistance will meet with the Assistant Director of Financial Aid to discuss the need. Conditions of repayment will also be explained at that time. The Assistant Director of Financial Aid will contact the Office of the Dean or designee to obtain approval of an emergency loan. If approved, an emergency loan application and loan repayment agreement must be completed by the student. A check or wire transfer will be initiated by the Rowan Foundation. The maximum amount available per student per year is $1000.00. Funding for this opportunity is via the CMSRU Dean’s Fund through the Rowan Foundation.

The fund must be repaid within twelve (12) months without interest. The circumstances under which the funding need not be repaid include student withdrawal, student dismissal, or any other reason the student ceases to be a student at CMSRU, excluding graduation.

NOTE: CMSRU has made this fund available to help students in extreme need. Some circumstances where WE WOULD EXPECT TO USE THIS FUND INCLUDE:

- Emergency travel expenses, such as those related to a family tragedy;
- Expenses, such as a repair needed to a car, for transportation purposes; and
- Any similar expenses that are due to unforeseen circumstances

This fund is not for use in paying student fees or tuition. The Assistant Director of Financial Aid meets with every student regularly to be certain that the costs of tuition and fees, living expenses, and other expenses are budgeted and are covered through grants, loans, and scholarship.
Refund Policy

POLICY:
Refund Policy

PURPOSE:
This policy delineates the schedule for refunds in the event a student is unable to complete the semester. In the event a student withdraws from CMSRU, requests an official Leave of Absence, or enrolls in an Independent Study Plan or Student Scholar Research after the semester has begun, tuition charges may be prorated. CMSRU will determine the student’s last date of attendance.

SCOPE:
The refund policy applies when a student:

- withdraws from school; or
- fails to complete a period of enrollment.

DEFINITIONS: N/A

PROCEDURE:

1. Students who withdraw, take an official Leave of Absence, enroll in an Independent Study Plan or Student Scholar Research after a semester commences, may be issued a refund as outlined in the CMSRU refund schedule.

   Tuition refunds will be applied as follows:

<table>
<thead>
<tr>
<th>Withdrawal during</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>First five class days, including Orientation</td>
<td>100%</td>
</tr>
<tr>
<td>Day 6 through less than one third (&lt;1/3) of a semester</td>
<td>75%</td>
</tr>
<tr>
<td>More than one third (&gt;1/3) of a semester</td>
<td>No Refund</td>
</tr>
</tbody>
</table>

   Tuition refunds will not be issued after more than one third of a semester has been completed.

   With the exception of military leave, CMSRU students who withdraw, take an official Leave of Absence (LOA), enroll in an Independent Study Plan (ISP), enroll in Student Scholar Research (SSR), or are dismissed from CMSRU during the first third of a semester, will be granted a 75% tuition refund.

   Students enrolled in one course will be charged 25% tuition. Students enrolled in two courses will be charged 50% tuition. Students enrolled in three or more courses will be charged 100% tuition. All enrolled students are charged student fees. Student fees are non-refundable.

   *A course is defined as one block or clerkship and one longitudinal course or clerkship.

2. All students receiving financial aid should consult with financial aid services in the CMSRU Office of Student Affairs, to determine the manner in which their financial aid account will be affected based
on their last date of enrollment. Change of status request forms, federal loan funding return to lender calculations, and exit loan counseling may need to be completed.

3. If the student’s award package included any federal funds other than Federal Work-Study and the leave of absence or withdrawal occurs in the first 60% of the semester, federal regulations require that a portion of the student’s federal aid be returned to the aid programs. The portion of aid to be returned is determined by a federally-mandated calculation based on the number of days remaining in the semester, and the refund due to the aid programs is credited in the following order:

1. Outstanding balances on Federal Unsubsidized Direct Loans;
2. Outstanding balances on Federal Subsidized Direct Loans;
3. Outstanding balances on Federal Perkins Loans;
4. Outstanding balances on Federal Graduate PLUS Loans;
5. Other Title IV aid programs, if applicable; and
Student Residence and In-State Tuition Policy

POLICY:
Student Residence and In-State Tuition Policy

PURPOSE:
This policy defines the criteria for New Jersey residency to qualify students for in-state tuition at Rowan University and its associated colleges and professional schools.

SCOPE:
Candidates for the Doctor of Medicine Degree (M.D.) at CMSRU

DEFINITION:
Domicile is a legal concept defined by New Jersey Administrative Code as (in general terms) the place where a student has his or her true, fixed permanent home and principal living establishment, and to which, whenever they are absent, they have the intention of returning.

PROCEDURE:
A. Eligibility for In-State Tuition
   1. An individual from a state other than New Jersey who has enrolled at CMSRU will be presumed to be in New Jersey primarily for educational purposes and will be presumed not to have established domicile in New Jersey.
   2. Proof of domicile.
      a. Students residing in New Jersey for a period of twelve (12) months before first enrolling at CMSRU are presumed to be domiciled in this State for tuition purposes.*
      b. Students providing a non-New Jersey permanent address on their applications to CMSRU, or who indicate a state other than New Jersey as their State of Legal Residence (SLR) through the common application service American Medical College Admission Service (AMCAS) are presumed not to be domiciled in New Jersey unless evidence of establishment of domicile in New Jersey is provided. In the case where both a permanent address and a SLR are provided, the SLR will determine domicile. The evidence of establishment of domicile must include all of the following:**
         i. copies of a self-supporting student’s New Jersey resident income tax return (bearing a New Jersey address) for the most recent tax year or a parent’s** or legal guardian’s New Jersey resident income tax return (bearing a New Jersey address) for the most recent tax year;
         ii. evidence of ownership of or a current long-term (at least one year) lease on a permanent residence in New Jersey by the student or their parent(s)* or legal guardian(s), which ownership or lease commenced no less than 12 months prior to first enrollment at CMSRU or 12 months prior to any application for change in residence classification;
         iii. electronic or hard copy of cancelled mortgage or rent check or receipt for cash payments; and
iv. sworn and notarized affidavit from the student and/or parent(s) or legal guardian(s) setting forth domicile in New Jersey.

3. If the evidence described in Section 2.b.i. above (i.e., New Jersey resident income tax returns) cannot be produced, then the following may be substituted (in addition to the evidence described in Section 2.b.ii. and 2.b.iii. above, i.e., ownership or lease of a permanent residence):

a.

i. current driver’s license from New Jersey. Driver’s licenses from other states must be replaced by one from New Jersey; and

ii. New Jersey vehicle registration if the student owns or leases an automobile.

b. If the student will not be operating a vehicle in New Jersey, he or she must submit all of the following in place of a New Jersey driver’s license and vehicle registration:

i. a sworn, notarized affidavit that the student will not be operating a vehicle in New Jersey nor will be purchasing a CMSRU/Rowan University parking sticker; plus

ii. a sworn, notarized statement from the student and/or his or her parent(s) or legal guardian(s) declaring domicile in New Jersey; plus

iii. if a U.S. citizen, the student’s New Jersey voter registration card (application for voter registration card is not sufficient); or if a permanent resident alien, a copy of the student’s permanent residency card and at least three (3) of the following: the student’s banking documents; utility bills; documents from the previous institution of higher education indicating that institution’s recognition of the student’s New Jersey domicile; New Jersey employment documents; any other documents identifying a social or economic relationship with New Jersey.

4. Students who are U.S. military personnel on active duty and living in New Jersey, or who are spouses of active-duty U.S. military personnel living in New Jersey must present official documentation of active-duty military status and residence in the State for the student or their spouse or parent, and documentation of the spousal/parental relationship (e.g., marriage license, birth certificate) if applicable.

5. The University may require student to submit any additional supplementary information that it deems necessary to support the student’s claim of domicile in New Jersey.

* N.J.A.C. 9A:5-1.1 provides that persons residing in New Jersey for a period of 12 months before first enrolling at a public institution in the State are presumed to be domiciled in the State for tuition purposes.

** N.J.A.C. 9A:5-1.2 provides guidelines for what primary evidence an institution may require to show that a student is domiciled in New Jersey.
Tuition and Fees Policy

POLICY:
Tuition and Fees Policy

PURPOSE:
To establish the tuition and fee schedules for CMSRU students.

SCOPE:
This policy applies to all CMSRU students.

PROCEDURE:
Total planned tuition and fees for entering in-state and out-of-state students will be determined yearly, approved by the Rowan University Board of Trustees and posted on the CMSRU website as well as in printed materials that are distributed to prospective and continuing students.

A student may be viewed as a New Jersey resident for tuition purposes if they fulfill the criteria set forth in the CMSRU Proof of New Jersey Residency Policy.

In addition to tuition, each student will be responsible for CMSRU fees as follows:

DISABILITY INSURANCE FEE
A disability, as it applies to a medical student, is a sickness or injury that prevents a student from attending classes and performing the normal duties of a medical student, and requires the regular care and attendance of a physician other than by the student or a family member.

Disability insurance coverage for all medical students is provided by CMSRU on the first day of enrollment and throughout the duration of medical school, with an option for students to continue the plan into residency.

STUDENT HEALTH AND WELLNESS FEE
CMSRU provides access to contracted services which provide for psychiatric, counseling, and occupational health related services.

Confidential psychiatric services are available to assist CMSRU students with medication evaluation, medication management, and performance coaching related to medical school. These confidential services are offered through RowanSOM.

Confidential counseling services are offered, including multiple individual sessions to students and their family members, to receive counseling for a variety of issues. The services also include psychoeducational workshops and 24/7 access/crisis response.

CMSRU contracts with a 3rd party provider for occupational health services. Comprehensive treatment is provided to CSMRU students who sustain work-related non-life threatening or non-limb threatening injuries or illnesses, administration of required immunizations, mask fit testing, and storage/maintenance of student health records.

STUDENT ACTIVITIES FEE
The Student Activities Fee is used primarily to cover the costs of CMSRU’s student leadership group, wellness activities, student-centered events, and support of special interest clubs/organizations which supplement the students’ classroom experiences and promotes physical, social, and emotional wellness.
Costs associated with CSMRU’s unique Advisory Colleges/Learning Communities model are also covered by the Student Activities Fee. The Advisory College/Learning Communities encompass faculty guidance, career exploration, professional identity formation, and offers shared learning through various activities to deepen collective knowledge of identified subject matters.

**GENERAL SERVICES FEE**
The General Service Fee is used to primarily cover fixed costs of providing educational services that may not be directly related to specific programs, groups, or services. The fee helps defray the cost related to debt service and Operating and Maintenance costs related to construction projects, preventive and deferred maintenance, as well as utility and lease related costs.

**TECHNOLOGY FEE**
The Technology Fee covers the cost of general Information Technology services provided to CSMRU students. The fee also covers the costs of exam delivery and assessment tools, extensive electronic library resources, and costs associated with CSMRU’s state of the art Simulation and Clinical Skills Center.

**Secondary Application Fee (non-refundable):** $100.00

Applicants who qualify for an AMCAS fee waiver will automatically receive a waiver for CMSRU application processing fee.

**Acceptance deposit (refundable on or before April 30):** $100.00

*Health Insurance is required for all CMSRU students. Students are responsible for all health plan associated fees. Student parking is available via the Walter Rand Transportation Center (WRTC). Students who elect to park in WRTC are required to pay an additional parking fee.*
Policies Related to Matriculation

Admission Deferral Policy

POLICY:
Deferral of admission to CMSRU

PURPOSE:
This policy outlines the circumstances, under which a student can request a deferral of admission and the mechanism through which a deferral request is acted upon.

SCOPE:
Accepted students to CMSRU for the Doctor of Medicine degree

DEFINITIONS:
A deferral is a request made by an applicant to CMSRU, after notification of acceptance, to delay matriculation into a class year other than that, for which the student was initially accepted.

PROCEDURE:
Accepted students who would like to apply for deferral must communicate this request in writing (email is acceptable) to the associate dean for admissions and to the assistant dean for student affairs, indicating the reason for requesting deferral and the expected duration of the deferral. The basis for a deferral requests should generally be participation in a time-limited (usually one year), “once-in-a-lifetime” academic opportunities that will significantly enhance their medical education and training. Military service will also be considered as a reason for admission deferral.

While we understand that students may wish to spend a year between undergraduate college and the rigors of medical school for financial reasons, personal development, or family needs, it is less likely that deferrals will be granted for these reasons. All requests will be considered on an individual basis.

Admissions Deferment

- Written requests for deferral must be received by May 1 or within two weeks of notification of acceptance (if acceptance occurs after May 1) of the year of expected entry.
- If approved, the deferral is granted for one year.
- Each request will be reviewed by the associate dean for admissions and the assistant dean for student affairs. Additional documentation that substantiates the request for deferral request is strongly encouraged.
- The deferment must be used for the purpose requested.
- Candidates granted a deferral must provide the associate dean for admissions and the assistant dean for student affairs by March 1 of the deferral year with written notification, reaffirming their intent to matriculate in August.
- All personal information that was provided in the original application must remain true and valid.
• All of the conditions in the acceptance letter must be met, including the ability to meet our technical standards upon matriculation to CMSRU.

• The applicant must re-submit an application to CMSRU through the AMCAS system by November 15 of the deferral year (to allow for internal processing) and undergo another criminal background check as per CMSRU policy.
Criminal Background Policy

POLICY:
Criminal background checks will be conducted on all students conditionally accepted for admission to Cooper Medical School of Rowan University.

PURPOSE:
Cooper Medical School of Rowan University follows the recommendation of the Association of American Medical Colleges (AAMC) and obtains a criminal background check on applicants upon their conditional acceptance to our medical school, through participation in American Medical College Application Service® (AMCAS®). The purpose of conducting a criminal record check prior to admission is to ensure the health, welfare and safety of patients and others at CMSRU.

SCOPE:
This policy applies to all students accepted to CMSRU.

PROCESS FOR CONDUCTING AND REVIEWING BACKGROUND CHECKS
• Failure to submit to the background check will disqualify the student from acceptance to the CMSRU.
• This policy applies to all accepted applicants to the first-year medical school class.
• All applicants are asked to self-report military service dishonorable discharges, felony convictions, and misdemeanor convictions on the AMCAS application.
• Offers of admission are conditional, pending the applicant’s submission to, and CMSRU’s review of the results of a background check.
• For applicants to the first year class, the results of the background check will be made available to CMSRU after an initial, conditional offer of admission has been made.
• The check will be conducted by an AAMC-designated vendor through the AMCAS Background Check Process.
• CMSRU may request that the AAMC vendor conduct background checks on a limited number of applicants in a select pool, who have not yet been offered admission, but may be offered conditional admission just prior to the start of classes.
• The results of the background checks on applicants in the select pool are not released to CMSRU unless and until a conditional offer of acceptance is issued.
• In the event that the applicant is not accepted, CMSRU will neither receive nor review his/her background check.
• Deferred applicants will be required to undergo two background checks. The first will be conducted after the initial, conditional offer of admission. This check MUST be successfully completed and the admission offer finalized prior to the admissions committee considering a request for deferment. Assuming the deferment request is granted, the student will be required to undergo a second background check as part of the application cycle for the class in which the applicant intends to matriculate.
The background check reported to CMSRU will include information about all convictions and conviction-equivalent adjudications for both felonies and misdemeanors. Additionally, it will include military service and discharge information for those who have served in the military. The Director of Admissions or their designee will conduct a preliminary review of all background checks.

An ad hoc committee will be formed in the event of a finding from the review. Applicants will have the opportunity to submit written comments to the office of admissions regarding the incident reported on the background check within five (5) calendar days of the date the office notifies the applicant that his/her file is being referred to the committee. The ad hoc committee will be established by the dean of the CMSRU, and will include the chair of the admissions committee, the associate dean for admissions, the assistant dean for student affairs, and any others deemed appropriate by the dean. An attorney appointed by Rowan University may serve as counsel to the committee. The committee shall meet on an as-needed basis to review applications referred by the office of admissions. As necessary, members may participate in committee meetings by telephone. The committee will review the background check report, any additional information provided by the applicant, and any other information it considers relevant. CMSRU may independently seek additional information about the incident that is the subject of the report. If it does so, it will share any additional information obtained with the committee and the applicant.

Each case will be considered individually and a decision regarding final acceptance will be made only after careful review. The committee members shall vote either to finalize or withdraw the conditional offer of acceptance extended to the applicant. The office of admissions shall advise the applicant of the committee’s decision within ten (10) business days of the date of the decision. All decisions are final.

For students who matriculate at CMSRU, the portion of the admissions file that is forwarded to the Registrar’s Office to begin the student’s academic file will include a notation that a pre-admission background check was conducted and reviewed, and that a final offer of admissions was made after that review. Records related to background reports for applicants who do not successfully matriculate, but for whom a background check is released to CMSRU, shall be maintained with the applicant’s admissions file for one (1) year in the office of admissions.
Family Educational Rights and Privacy Act (FERPA)

POLICY:
The Family Educational Rights and Privacy Act (FERPA)

PURPOSE:
FERPA protects the privacy of student education records.

SCOPE:
FERPA applies to all educational agencies and institutions that receive funding under any program administered by the Department of Education. FERPA (20 U.S.C. § 1232g; 34 CFR Part 99) is a federal law that protects the privacy of student education records.

In compliance with FERPA, Cooper Medical School of Rowan University (CMSRU) does not disclose personally identifiable information contained in student education records, except as authorized by law. This policy applies to the educational records of all students who currently attend or have attended CMSRU.

DEFINITIONS:

**Educational Records**: any records (with limited exceptions), maintained by the institution that are directly related to a student or students. The records can contain a student’s name(s) or information from which an individual student can be personally (individually) identified. Education Records do not include: sole procession notes; law enforcement unit records; records maintained exclusively for individuals in their capacity as employees (individuals who are employed as a result of their status as students, medical & treatment records; and alumni records.)

**School Officials**: persons employed by the institution in an administrative, supervisory, academic research or support position including law enforcement, health staff personnel, a trustee, outside contractors and persons servicing as a student representative on an official committee (such as disciplinary or grievances committee), or assisting another school official in performing his or her tasks. School officials may obtain information from a student education record without prior written consent for legitimate educational interest. Legitimate educational interests must demonstrate: need to know by those officials of the institution who act in the student’s educational interest (faculty, administrators, clerical and professional employees, and other persons who manage student information). A school official has a legitimate educational interest if the official need to review is in order to fulfill his or her professional responsibility.

**Directory Information**: CMSRU reserves the right to disclose directory information without prior written consent, unless notified in writing to the contrary by a student by the deadline date established by CMSRU. CMSRU has designated the following items as Directory Information: student name, CMSRU- issued identification number, addresses (including electronic), telephone number, date and place of birth, field(s) of study or program(s), participation in officially recognized activities, photographs, enrollment status, dates of attendance, degrees, awards and honors received, previous schools attended, and graduate medical/education placements.

**POLICY**:
Cooper Medical School of Rowan University will comply with the Family Educational Rights and Privacy Act of 1974 and all subsequent amendments (FERPA) providing students with the right to inspect and review their education record. CMSRU will respond to student requests to review records within five (5)
days of the day that CMSRU receives the request and provide guidelines for the correction of records, rather than the forty-five (45) day statement within the FERPA Act of 1974.

**STUDENT RIGHTS AND PROCEDURES:**

A. In accordance with the Family Educational Rights and Privacy Act of 1974 and its subsequent amendments (FERPA) current and former CMSRU students have the right to review and inspect their education records within forty-five (45) days of the date that CMSRU receives the request for access. CMSRU will respond to requests within five (5) business days of the date that CMSRU receives the request for education records review.

B. CMSRU is required by FERPA regulations to provide students with annual notification of their FERPA rights. CMSRU may promulgate, electronically or in a hard copy format, an annual notification in such publications as school bulletins or student handbooks, or in separate statements in registration or orientation packets, or on a web site.

C. Access to Education Records

1. Procedure to Inspect Education Records

   a. Students may inspect and review their educational records upon request to CMSRU. Students shall submit to CMSRU a written request to the registrar that identifies as precisely as possible the record or records s/he wishes to inspect.

   b. CMSRU will make the needed arrangements for timely access and notify the student of the time and place where the records may be inspected. Per Rowan University policy, access must be given within forty-five (45) days from the receipt of the request. CMSRU will provide a response to a request for educational records review within five (5) business days following receipt of the request.

   c. When a record contains information about more than one student, the student may inspect and review only the records that relate to the respective student making the request. Review of records may take place only under the supervision of the CMSRU registrar and/or a CMSRU school official with a legitimate educational interest.

2. Right of CMSRU to Refuse Access. CMSRU reserves the right to refuse to permit a student to inspect the following records:

   a. The financial statement of the student’s parents;

   b. Letters and statements of recommendation for which the student has waived his or her right of access, or which were placed in a student file before January 1, 1975;

   c. Records which are part of a previous application to CMSRU if that application was unsuccessful and the student subsequently applies and is admitted;

   d. Those records that are excluded from the FERPA definition of education records.

3. Right to Obtain Copies of Education Records

   a. With the exceptions listed below, a student may obtain copies of their education records from the CMSRU registrar upon submission of a written request and payment of a standard fee to cover duplication, reasonable labor costs and postage, if applicable.
b. CMSRU reserves the right to deny copies of transcripts or education records in the following situations:
   i. The student has an unpaid financial obligation to CMSRU; or
   ii. There is an unresolved disciplinary action against the student.

D. Disclosure of Education Records
CMSRU may disclose information from a student’s educational record only with the original, written and signed consent of the student, except:

1. To those CMSRU officials who have a legitimate educational interest in the records;
2. Upon request, to officials of non-CMSRU schools in which a student is enrolled or seeks or intends to enroll, or with which CMSRU has an academic or clinical affiliation. Such officials must have a legitimate educational interest;
3. To the comptroller of the United States, the secretary of the U.S. Department of Education, state and local educational authorities or to the attorney general of the United States, when the attorney general of the United States seeks disclosures in connection with the investigation or enforcement of federal legal requirements applicable to federally supported education programs;
4. In connection with a student’s request for or receipt of financial aid, as necessary to determine the eligibility, amount or condition of the financial aid or scholarship, or to enforce the terms and conditions of the aid or scholarship; if required by a state law requiring disclosure that was adopted before November 19, 1974;
5. To organizations conducting certain studies for or on behalf of CMSRU;
6. To accrediting organizations to carry out their functions;
7. At the discretion of CMSRU officials, to parents of an eligible student who claim the student as a dependent for income tax purposes;
8. To comply with a judicial order or a lawfully issued subpoena, provided that CMSRU makes a reasonable effort to notify the student of the order or subpoena in advance of compliance, when the order or subpoena does not prohibit such notification;
9. To appropriate parties in a health or safety emergency;
10. To an alleged victim of any crime of violence or sex offense, the results (if the results were reached on or after October 7, 1998) of any University disciplinary proceeding against the alleged perpetrator with respect to that offense. Disclosure under this section shall include only final results of disciplinary proceedings within CMSRU, limited to the student’s name, the violation committed and the sanction imposed. Disclosure of final results pursuant to this section may be made regardless of whether CMSRU determined that a violation has occurred. CMSRU may not disclose the name of any other student, including a victim or witness, without the prior written consent of the other student;
11. To parents of students aged 18-21 who have been determined by CMSRU to have violated any CMSRU policy governing the use or possession of alcohol or a controlled substance, or who have violated federal, state or local law governing such use or possession;
12. To a court, with or without a court order or subpoena, education records that are relevant for the University to defend itself in legal action brought by a parent or student, or education records that are relevant for CMSRU to proceed with a legal action CMSRU initiated against a parent or student; and

13. To a court when relevant for CMSRU to proceed with legal action which involves CMSRU and the student as parties.

E. Record of Requests for Disclosure of Education Records

1. The registrar at CMSRU will maintain a record of all requests for and/or disclosures of information from a student's education records made by individuals not associated with CMSRU.

2. The record of requests for educational records will indicate the name of the party making the request and the legitimate interest the party had in requesting or obtaining the information. Such listing of those given access to a student's record may be reviewed by the eligible student.

F. Corrections/Challenges to Content of Education Records

1. A student has a right to a hearing to challenge education records which the student believes are inaccurate, incomplete, misleading or otherwise in violation of the privacy or other rights of the student, but a student does not have a right to a hearing on matters of academic judgment.

2. Following are the procedures for the correction of education records:
   a. The student clearly identifies the part of the education record they want changed and specifies their reasons why it is inaccurate or misleading.
   b. If a satisfactory solution of an issue cannot be reached informally, CMSRU must hold a hearing within sixty (60) days after receiving a student's written request for such a hearing. The hearing shall be before a University official, designated by the assistant dean for student affairs or designee.
   c. A CMSRU official will prepare a written decision based solely on the evidence presented at the hearing within twenty-one (21) days of such hearing. The decision will include a summary of the evidence presented and the reasons for the decision.
   d. If CMSRU decides that the challenged information is inaccurate, misleading, or in violation of the student's right of privacy, it will amend the record and notify the student, in writing that the record has been amended.

3. If CMSRU decides that the challenged information is not inaccurate, misleading, or in violation of the student's right of privacy, it will notify the student that they have a right to place in their education record a statement commenting on the challenged information and/or a statement setting forth reasons for disagreeing with the decision; the student's statement will be maintained as part of the student's education records as long as the contested portion is maintained. If CMSRU discloses the contested portion of the record, it must also disclose the student’s statement.

G. Questions about FERPA and this policy concerning the release of student information should be directed to the Office of the Registrar:
H. Students have a right to file a complaint with the U.S. Department of Education concerning alleged failures by CMSRU to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
US Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

I. Crisis situations/Emergencies

If non-directory information is needed to resolve a crisis or emergency situation, CMSRU may release that information if CMSRU determines the information is "necessary to protect the health or safety of the student or other individuals." Factors to be considered or questions to be asked in determining to release such information in these situations include the following:

1. Severity of the threat to the health or safety of those involved;
2. Need for the information;
3. Time required to deal with the emergency; and
4. Ability of the parties to whom the information is to be given to deal with the emergency.
Graduation Policy

POLICY:
Graduation at Cooper Medical School of Rowan University (CMSRU) is considered to be the successful completion of all academic requirements of the medical education program and compliance with the professional standards of CMSRU.

PURPOSE:
This policy outlines requirements for students to graduate.

SCOPE:
This policy applies to students in their final year of matriculation at CMSRU who are in good standing as certified by the Academic Standing Committee (ASC).

PROCEDURE:
Course Requirements and Sequencing
- Standard Four Year Curriculum
  - All required courses of all curricular years, including the required number of elective weeks, must be completed satisfactorily in the prescribed sequence before a student can be certified for graduation. Students who perform scholarly work or enroll in dual degree programs (e.g., MD/PhD) may extend the degree completion limit from six distinct academic years to ten distinct academic years upon the recommendation of the Academic Standing Committee to the Dean. Any requests to extend the academic program beyond the time limits noted above and for any reason, must be recommended by the Academic Standing Committee and approved by the Dean or designee. Appeals of these decisions may be made to the Ad Hoc Committee for Student Appeals.

- Accelerated Three Year Curriculum (PC3)
  - The curriculum of this program is divided in three curricular years that must be completed in the prescribed sequence. All required courses of this curricular track must be completed satisfactorily before a student may be certified for graduation.

- Students must be in good standing to graduate. If a student is in the probationary process or on probation they are not qualified to graduate.

- If a student is on probation they will not be permitted to graduate until:
  - All the probationary conditions are satisfactorily met and
  - The student is removed from probation and
  - The student is approved to graduate by the ASC and the executive council of chairs

Application Requirements
Students must complete the Rowan University online graduation application by the prescribed deadline in order to be reviewed for graduation and, if approved, awarded a medical degree. The application can be accessed through Self-Service Banner (SSB) (via www.rowan.edu/selfservice) and then by selecting “Apply to Graduate.” Submitting an online application will trigger a graduation application fee to be billed to a respective student’s Rowan University account shortly after submission.
**Commencement Participation**
At Rowan, the meaning of “commencement” is different from graduation. Commencement is facilitated as individual program/college ceremonies to honor students completing graduation requirements, occurring annually in May. Students who have completed their degree/program are invited to participate.

Students will be permitted to participate in the Convocation and Commencement ceremonies in May if it is anticipated that they will complete their degree requirements by May 30th. Students who are participating in the PC3 curriculum and expected to graduate in mid-June may participate in the Convocation and Commencement.

Graduating fourth year medical students are required to return their Cooper University Health Care and CMSRU badges, as well as their rented Commencement Regalia. If these items are not returned as requested, a restriction (hold) will be placed on the student’s account which would delay receipt of the Doctor of Medicine (M.D.) diploma and transcript until these requirements are satisfied.

**Graduation Dates**
The Doctor of Medicine (M.D.) degree is typically awarded in May after completion of the final curricular year. CMSRU confers degrees in May of every academic year. Under the egis of Rowan University, CMSRU abides by the Rowan University standard graduation dates, which include:

- May 30
- August 30
- December 30

All students enrolled in the PC3 program will follow all guidelines above for course requirements and sequencing and will graduate in mid-June.

**Alternate Graduation Dates**
A student who will complete all of their degree requirements after the month of May can be awarded the M.D. degree at a later time in limited, special circumstances and as approved by the ASC and the CMSRU Dean. If granted approval, students may graduate in August or December.

In limited circumstances, students, in their final year of matriculation, may need to extend their expected date of graduation. Students will remain active in the Rowan University system up to 18 months after their expected graduation date. No medical degree will be conferred more than 18 months past the student’s expected graduation date, determined in the student’s fourth and final year, unless the student is on a medical leave of absence. If the student does not meet all requirements for graduation within this 18 month period, the student will no longer be eligible to receive the CMSRU Medical Degree (M.D.)

**Awarding a Medical Degree Posthumously**
Cooper Medical School of Rowan University seeks to recognize the academic achievements of its students. This policy establishes guidelines for the posthumous awarding of a M.D. degree in the event a student dies before completing all of the requirements for the M.D. degree.

Consideration is given to academic and institutional integrity according to the following criteria:

- The student was enrolled in the second half of their final year of study at CMSRU at the time of death.
- The student successfully completed the core clinical rotations.
• The student was in good standing and would likely have completed all of the degree requirements had they not died.
Letters of Recommendation Policy

PURPOSE:
This policy outlines the expectations of the Office of Admissions regarding applications submitted by candidates with respect to the accompanying letters of recommendation.

POLICY:
Letters of Recommendation

SCOPE:
Candidates for the Doctor of Medicine Degree

DEFINITIONS:
This policy refers only to those letters submitted at the time a student applies for admission to CMSRU.

PROCEDURE:
Note: AMCAS accepts Letters of Evaluation/Recommendation and attaches them to an applicant’s file. This service enables CMSRU to receive all letters electronically via AMCAS, and enables the authors to send all letters to be considered by schools participating in this service to AMCAS. AMCAS will receive letters from users of VirtualEvals, Interfolio, and via the mail. In addition, letter writers who currently mail letters can opt to upload letters directly to AMCAS through the AMCAS Letter Writer Application. Letters of recommendation present an opportunity for people who know the applicant to evaluate the applicant’s candidacy for medical school. Only letters submitted through the AMCAS system will be considered for evaluation of candidates.

A “good” letter will offer information about the applicant which is different from the information provided by the AMCAS application or the secondary application. The applicant should request letters only from people who know the applicant well and can provide substantive information about the applicant. Some of the applicant’s letters should be from the applicant’s former professors attesting to problem-solving skills, laboratory technique, writing skills, oral communication skills, interpersonal skills, etc. Other letters may be from former or present employers, associates, or physicians whom the applicant has shadowed, worked, and/or volunteered. No single individual is likely to be able to address all of the applicant’s qualities, so letters from multiple individuals are recommended.

CMSRU prefers, whenever possible, to receive a committee letter, which is authored by a pre-health committee or pre-health advisor and is intended to represent the institution's overall evaluation of the applicant. Letters of recommendation obtained from faculty members may be included with the committee letter, accompanied by a signed document indicating the applicant's decision to preserve or waive the applicant’s right to see the letter. If the applicant’s undergraduate institution does not have a Pre-Health Professional Advisory Committee, individual letters from faculty may alternatively be submitted. Recommendations for the number and type of letters submitted are as follows:

- At least two letters from Science Faculty who have taught the applicant
- At least one letter from other faculty or an individual who can provide an in-depth evaluation and recommendation
- One or more letters from other individuals who have worked with or observed the candidate and can provide an additional assessment
Letters submitted to CMSRU via other means (email, regular mail, etc.) will not be considered in evaluation of the candidate. Candidates should consult the AMCAS Instruction Book for Applicants for further details on letter of recommendation submission.
Readmission Policy

PURPOSE:
This policy outlines the process by which a student may apply for readmission to CMSRU.

POLICY:
Readmission Policy

SCOPE:
This policy applies to all CMSRU medical students

DEFINITIONS:
Readmission applies only to students previously enrolled in and attending CMSRU for any period of time.

PROCEDURE:
- A student who has withdrawn (but subsequently wishes to return to school) must apply for readmission in writing and submit the required materials, as stipulated below, to the Assistant Dean for Student Affairs and the Associate dean for Admissions.
- The reason for requesting readmission must be compelling. To be considered for readmission, the student must have been in good academic standing at the time of withdrawal from CMSRU and have had no prior actions by the Academic Standing Committee, including, but not limited to, professionalism violations.
- Official transcripts from any post-secondary institutions attended in the interval must be submitted.
- Three additional letters of recommendation are required and these will be sent directly to the CMSRU Office of Admissions.
- A $100 reapplication fee is required.
- A criminal background check is required.
- An ad hoc committee consisting of the Assistant Dean for Student Affairs, the Associate Dean for Medical Education, and the Associate Dean for Admissions will review the student’s written application for readmission in light of their entire record, including supporting documents. This committee may recommend: 1) readmission without conditions; 2) readmission with conditions, 3) denial of readmission until further proof of readiness to return to school can be demonstrated; or 4) denial of readmission. The recommendation of the ad hoc committee will be forwarded to the Dean for consideration. If the recommendation is “readmission with or without conditions”, the request for readmission will be forwarded to the Admissions Committee for consideration and vote. The vote of the Admissions Committee is final and no appeals are allowed.
Student Selection Policy

POLICY:
Cooper Medical School of Rowan University (CMSRU) seeks students who demonstrate academic readiness, who resonate with our mission, and who possess the special personal attributes required of physicians. More specifically, CMSRU is committed to selecting students who demonstrate a record of academic excellence, the potential to deliver competent and compassionate care, a passion for lifelong learning, intellectual curiosity, personal and professional integrity and ethical conduct, inclusivity and tolerance, and community-oriented service. Student selection is based on a holistic review of a candidate’s application and is not influenced by political or financial factors. To be eligible for admission, an applicant must be a citizen or permanent resident of the United States of America. Verifying documents of residency status must be provided at time of application. All applicants are required to complete a bachelor’s degree from an accredited four-year college or university in the United States or Canada prior to enrollment in the MD Program.

PURPOSE:
This policy outlines guidance for selecting students for admission to Cooper Medical School of Rowan University.

SCOPE:
This policy applies to all prospective students of CMSRU.

DEFINITIONS:
AMCAS – The American Medical College Application Service (AMCAS ®) is a non-profit, centralized application processing service for applicants to the first-year entering classes at participating U.S. medical schools.

MCAT – The Medical College Admission Test (MCAT) is a standardized, multiple-choice exam designed to assess problem solving, critical thinking, writing skills, and knowledge of science concepts and principles prerequisite to the study of medicine. The MCAT exam scores are part of the admission process.

PROCEDURE:
1. The final responsibility for selection of students for admission resides with the admissions committee, a standing committee of the faculty.
2. The office of admissions is responsible for support of student recruitment, annual education and training of the admissions committee members, interviewers, and application screeners, and processing of admission documents and organization of interviews. The office of diversity and community affairs assists in student recruitment.
3. Admission Process: All regular applicants follow the process delineated below for admission to CMSRU:
   a. AMCAS application: Candidates for admission to CMSRU are required to complete an application through the online American Medical College Application Service (AMCAS) at www.aamc.org. Applicants are required to complete this application and submit an application fee. This initial process requires letters of recommendation submitted through the candidate’s AMCAS application. Letters of recommendation may be obtained from, 1) undergraduate pre-medical committees (preferred); and/or 2) individual from faculty and
supervisors, who are well-acquainted with the candidate. At least two letters should be from academic faculty. Additional information about this service can be found on the AAMC website (www.aamc.org/students/amcas/faq/amcasletters.htm). CMSRU will not consider incomplete AMCAS applications and only students with verified AMCAS applications will be considered for secondary applications and interviews. No transcripts or supplementary materials should be forwarded directly to CMSRU, as admission decisions are based only on the candidate’s verified AMCAS file.

b. **Secondary Application**: Upon receipt of verified AMCAS applications, the office of admissions invites selected applicants, based on a preliminary screening rubric developed and approved by the admissions committee, to complete a CMSRU-specific secondary application. Preliminary screening of applicants includes an evaluation of academic readiness. Indicators of academic readiness are determined by data analysis from assessment personnel from the office of medical education, which is annually presented to and approved by the admissions committee. Secondary applications are sent only to applicants who demonstrate a high likelihood of success at CMSRU. This screening step ensures that applicants who fail to meet academic qualifications can be notified of rejection prior to remitting additional application fees. The secondary application includes responses to short-answer questions to help further determine a candidate's match to the CMSRU mission and community. The secondary application also includes several attestations from the candidate, indicating that they meet the educational and residency requirements described below. The secondary application fee is $100, which is waived upon submission of the AMCAS Fee Assistance Program (FAP) waiver documents. Applicants not selected to receive a secondary application are notified of this decision.

c. **Screening for Interview**: All candidates who submit a completed secondary application will have their entire application screened manually, by specially-trained individuals, including faculty and staff from the office of admissions, using criteria developed and approved by the admissions committee. Under authority granted by the admissions committee, screeners decide which applicants are invited for an interview. This screening includes a holistic review of the primary and secondary applications to determine academic readiness and mission match. The holistic review includes an assessment of personal qualities, activities, and experiences that positively contribute to the culture and diversity of CMSRU. In this regard, there are no absolute criteria and each applicant is considered individually. Interview selection criteria are annually reviewed and approved by the admissions committee. Each year, individuals involved in screening of applications are formally charged by the dean, so that a consistent approach to screening is ensured. Because of the volume of applications received, this process may take several weeks to months to complete. Applications are screened in the chronological order in which they are received.

d. **Interview**: Interviews are scheduled on an invitation-only basis. Following screening of their primary and secondary applications, selected students are invited for an in-person interview at CMSRU in Camden, New Jersey (note that remote interviews will be conducted in response to an event that precludes in-person interviews). The admissions process is highly competitive and the likelihood of being invited to interview depends on the overall size and qualifications of the applicant pool. Upon completion of the interview cycle for the current application year, unsuccessful applicants are notified that they will not to be offered an interview (rejection). Once invited, candidates schedule their own
interview date, but must receive authorization from the admissions office to reschedule their interview date. Applicants interviewing are responsible for making their own travel arrangements.

The interview day consists of an introductory orientation session with the dean, informational sessions presented by the offices of medical education and student affairs, a traditional interview jointly conducted by a member of the admissions committee and a “blinded” faculty or student member. The interview day also includes a student-led tour of CMSRU and a demonstration of our simulation center. Upon completion of the formal interview day program, applicants have an opportunity to informally meet with CMSRU students.

e. Admission Committee Presentation and Voting: Generally, in the week following each interview date, all interviewed applicants are presented to the admissions committee for consideration and vote. The presentation to the admissions committee is made by the committee member who interviewed the applicant. Following presentation of the applicant, there is an opportunity for further discussion of the candidate by all members of the admissions committee. Performance during the actual interview, in conjunction with the candidate’s overall application, are significant factors considered by committee members in the evaluation of each applicant. Following any discussion, an anonymous vote is taken by the full voting membership of the admissions committee. Based on the results of this vote, one of the following decisions is applied: 1) immediate acceptance, 2) priority waitlist, 3) regular waitlist, or 4) ejection. All interviewed applicants are notified of their updated status, either via telephone call or email, in a timely fashion. As specified by Liaison Committee on Medical Education (LCME) standards, the authority for selection of prospective students rests in the hands of the faculty, under the auspices of the admissions committee. All decisions of the admissions committee are final.

f. Acceptance Offers: Selected applicants are offered admission by the admissions committee, based on committee vote, on a rolling basis. Possible admissions actions, as described above, are defined and approved annually by the admissions committee. A vote of “immediate acceptance” indicates that the candidate receives immediate notification of acceptance to CMSRU. A vote of “priority or regular waitlist” indicates that the candidate is approved for admission and receives notice of acceptance only if a seat in the class becomes available due to withdrawals from the candidates accepted previously (i.e. delayed acceptance). As indicated, applicants with priority waitlist status are considered first among those candidates eligible for delayed acceptance. Guidelines for ranking of waitlisted candidates are developed annually by the waitlist subcommittee (see below) of the admissions committee. A vote of “rejection” indicates that a student receives immediate notification that the admission committee will not offer them a seat in the class. The dean is notified of the decision of the admission committee on each candidate, but the dean has no role in admissions decisions.

The waitlist subcommittee of the admissions committee is composed of faculty members selected from the full admissions committee and is chaired by the vice chair of the admissions committee. Up to one-third of the membership of the admissions committee serves on the waitlist subcommittee. The waitlist subcommittee is responsible for development of criteria for ranking of waitlisted applicants. These criteria are developed and presented to the full admissions committee annually for approval. The full admissions committee grants authority to the office of admissions to extend all new offers of
acceptance in accordance with approved criteria. The full committee receives a final report at the close of the admissions cycle to inform them of the outcome of the waitlist process.

Admitted students must submit an acceptance deposit within two weeks of receipt of an acceptance offer. The deposit is applied to first semester tuition and is refundable prior to May 1st, if the applicant chooses to withdraw their acceptance. A decision to withdraw after May 1st may result in forfeiture of the $100 deposit. Deposit requirements are waived in cases of extreme financial disadvantage. Failure to submit an acceptance deposit in a timely fashion may result in rescindment of the original acceptance offer.

4. Admission Requirements:

To be eligible for admission, an applicant must be a citizen or permanent resident of the United States of America. Verifying documents of residency status must be provided at time of application.

A verified AMCAS application is required for consideration of an applicant.

Applicants must take the MCAT and MCAT scores must be submitted through AMCAS. Test scores may not be more than 3 years old (at the time of application) and only MCAT 2015 results are accepted. The “highest” MCAT score is based on the aggregate best performance on an individual examination. The Admissions Committee does not compile a composite “highest” score by considering best performance on individual subsections from multiple examinations.

CMSRU welcomes applicants with a wide-range of academic interests. Students from all majors are invited to apply to CMSRU, as long as minimum academic requirements are met. All applicants are required to complete a bachelor’s degree from an accredited four-year college or university in the United States or Canada prior to enrollment in the MD Program. Applicants to CMSRU must take the following required courses from an accredited four-year college or university in the United States or Canada. Advanced Placement (AP) credit or on-line courses do not satisfy these basic requirements. For applicants with credits obtained by advanced placement or through a community or junior college, it is acceptable to satisfy this requirement by taking advanced level courses, in the disciplines specified, at their degree-granting institution. In addition to the required course work, several recommended courses are listed below. These recommended (but not required) courses have been identified as being beneficial to students enrolled at CMSRU. Students are encouraged to take a broad array of courses as undergraduates.

Required Courses:

- Biology (any two courses with lab), 8 credits total
- Chemistry (any two courses with lab), 8 credits total
- English or Composition, 3 credits total

Recommended Courses:

- Physics (any two courses with lab)
- Organic Chemistry (any two courses with lab)
- Biochemistry
- Behavioral Sciences (e.g. Psychology, Sociology)
- Ethics
- Biostatistics
CMSRU is seeking to recruit a diverse student body that will add value to our school and contribute to the education of all students. This diversity may include, but is not limited to, groups under-represented in medicine, first-generation college graduates, current or former members of the military, students raised in Camden, individuals with unique service or professional experiences, and those who may be financially disadvantaged.
Policies Related to Communications; and Information Technology and Resources

Acceptable Use Policy

CMSRU adheres to the Rowan University Acceptable Use Policy

POLICY:
Acceptable Use Policy

PURPOSE:
To establish rules of responsible electronics use in the classroom. This policy sets forth the acceptable uses regarding the access and use of Rowan University’s (CMSRU’s) electronic information and information systems.

SCOPE:
This policy applies to all members of the Rowan Community (CMSRU) who access and use the University's electronic information and information systems.

DEFINITIONS:
Refer to the Rowan University Technology Terms and Definitions for terms and definitions that are used in this policy.

PROCEDURE:
CMSRU recognizes the ubiquitous nature of electronic devices in universities. Ultimately the course director and teaching faculty members determine if the use of electronic devices is disruptive to the classroom environment, and may require the removal of such devices during instruction.

Cellular Phone Policy: The use of cell phones is prohibited during CMSRU classroom instruction, unless directed otherwise by the instructor. All cellular phones must be placed in silent mode before a student enters the classroom.

Laptop Computer Policy: Generally, the use of laptop computers to take notes during lectures, or perform other authorized tasks, is permitted in instructional settings. The instructor does retain the right to limit or refuse laptop use if the practice interferes with instruction. At no time should a laptop be used for entertainment purposes in classrooms. Entertainment purposes may include instant messaging, playing games, emailing, using social networking sites, online shopping, or any other activity deemed inappropriate by the instructor.

Electronic Academic Integrity Policy: At no time will CMSRU students be allowed access to electronic devices during didactic exams, except as approved accommodations for students with disabilities. Proctors who observe the use of electronics during exams shall confiscate the device as evidence of cheating, and report the incident as outlined in the Student Handbook.

1. The University (CMSRU) expects users will access and use the University's (CMSRU’s) electronic information and information systems in a manner that:
   a. Does not compromise the confidentiality, integrity, or availability of those assets; and
Reflects the University's (CMSRU’s) standards as defined in the Code of Conduct and Statement of Principles and its body of policies, and in accordance with all applicable federal, state, and local laws governing the use of computers and the Internet.

2. These obligations apply regardless of where access and use originate: Rowan (CMSRU) office, classroom, public space, lab, at home, or elsewhere outside the University (CMSRU).

3. The rules stated in this policy also govern the use of information assets provided by the State of New Jersey, other state and federal agencies, and other entities that have contracted with Rowan to provide services to their constituents and/or clients.

4. Schools, units, and departments may produce more restrictive policies. Therefore, users should consult with their department if there are any other restrictions in place that supplement this policy.

5. This policy and Rowan's (CMSRU’s) Code of Conduct/Statement of Principles also govern access and use of the University's (CMSRU’s) electronic information and information systems originating from non-Rowan (non-CMSRU) computers, including personal computers and other electronic devices. The access and use of electronic information provided by research and funding partners to Rowan (CMSRU) are also governed by this policy.

6. The use of information systems acquired or created through the use of University (CMSRU) funds, including grant funds from contracts between the University (CMSRU) and external funding sources (public and private), are covered by this policy. This includes University (CMSRU) information systems that are leased or licensed for use by members of the Rowan (CMSRU) Community. Users are given access to Rowan's electronic information and information systems specifically to assist them in the performance of their jobs and education. They are not provided for personal use. They are responsible for all activity conducted using their computer accounts. Access and use of the University's (CMSRU’s) electronic information and information systems is a revocable privilege.

7. Rowan (CMSRU) recognizes that all members of the Rowan (CMSRU) Community have an expectation of privacy for information in which they have a substantial personal interest. However, this expectation is limited by Rowan's (CMSRU’s) need to comply with applicable laws, protect the integrity of its resources, and protect the rights of all users and the property and operations of Rowan University (CMSRU). As such, Rowan (CMSRU) reserves the right to access, quarantine, or hold for further review any files or computing devices on Rowan's (CMSRU’s) network or its information technology resources if there is just cause to believe that university (CMSRU) policies or laws are being violated or if such access is necessary to comply with applicable law or conduct university (CMSRU) business operations.

8. Information created, stored, or accessed using Rowan (CMSRU) information systems may be accessed and reviewed by Rowan (CMSRU) personnel for legitimate systems purposes, including but not limited to the following:

   a. Emergency Problem Resolution

   b. To measure, monitor, and address the use, performance, or health of the University's (CMSRU’s) information systems, or to respond to information security issues. Internet usage may also be monitored when using the University's (CMSRU’s) network, including when using Rowan's (CMSRU’s) remote access services.
c. To create data backups of electronic information stored on Rowan's (CMSRU’s) information systems.

d. To respond to User Requests approved by the Office of General Counsel.

9. Information may be accessed, reviewed, and provided to an external party at the University's (CMSRU’s) discretion without prior notification with adequate cause and subject to review of the Office of General Counsel to comply with applicable law and to conduct normal university (CMSRU) operations. Examples include, but are not limited to the following:

   a. Compliance with the New Jersey Open Public Records Act ("OPRA") which requires disclosure of electronic records and other data on the Rowan system subject to exemptions under OPRA. Requests will be reviewed by the Records Custodian/OPRA officer in conjunction with the Office of General Counsel.

   b. Compliance with a valid subpoena, court order, or discovery request. Requests will be reviewed by the Office of General Counsel.

   c. Audits, investigations, or inquiries undertaken by governmental entities or appropriate internal investigators or units. Requests will be reviewed by the Office of General Counsel.

   d. To conduct necessary business operations.

10. All electronic information created, stored, or transmitted by use of Rowan's (CMSRU’s) information systems is the property of the University (CMSRU), unless otherwise explicitly noted.

11. Technicians and System Administrators have greater ability to access information stored on and transmitted through Rowan's information systems. As such, Technicians, System Administrators, and others with privileged access shall not access such information unless such access is necessary for the purposes outlined above, for systems purposes, or unless such access is supported by adequate cause and reviewed by the Office of General Counsel.

12. Prohibited Actions

   a. The list of prohibited actions is not intended to be comprehensive. The evolution of technology precludes the University (CMSRU) from anticipating all potential means of capturing and transmitting information. Therefore, users must take care when handling sensitive information. Refer to Rowan's Information Classification and Data Governance policies for types of information that are considered sensitive and/or contact Rowan's (CMSRU) Information Security Office for guidance.

   b. Users, at minimum, will ensure that they do not:

      i. Distribute information classified as Confidential or Private, or otherwise considered or treated as privileged or sensitive information, unless they are an authoritative University (CMSRU) source for, and an authorized University (CMSRU) distributor of that information and the recipient is authorized to receive that information.

      ii. Share their passwords with other individuals or institutions (regardless if they are affiliated with Rowan or not) or otherwise leave them unprotected.
iii. Attempt to uninstall, bypass, or disable security settings or software protecting the University's (CMSRU's) electronic information, information systems, or computer hardware.

iv. Engage in unauthorized attempts to gain access or use the University's (CMSRU’s) electronic information, information systems, or another user's account. Users with privileged access, such as Technicians and Systems Administrators, shall not engage in unauthorized access, use, or review of information or data, without appropriate approvals.

v. Use third-party email services to conduct sensitive University (CMSRU) business or to send or receive Rowan information classified as Confidential, Private or Internal or otherwise considered privileged or sensitive information.

vi. Use email auto-forwarding to send University (CMSRU) information (regardless of classification) to non-Rowan email accounts (see Restricted Services).

vii. Distribute or collect copyrighted material without the expressed and written consent of the copyright owner or without lawful right to do so, such as in the case of fair use.

viii. User understands the HIPAA Privacy Security rules, especially with regard to Sensitive Electronic Information (SEI), Private Health Information (PHI), and Personally Identifiable Information (PII) and will abide by these rules, including understanding that they will be held accountable for the use of personal devices for conducting University (CMSRU) business. (Refer to HIPAA policies located at www.rowan.edu/compliance).

13. Restricted Services

a. This list of restricted services is not intended to be comprehensive. The evolution of technology precludes the University (CMSRU) from anticipating all potential means of storing, capturing and transmitting information. Therefore, when using third-party technology services not explicitly restricted in this policy, users must exercise care to not compromise sensitive Rowan information, particularly when confirmation of receipt or the identity of the recipient is required for business or legal purposes. Refer to Rowan's Information Classification and Data Governance policies for types of information that are considered sensitive and/or contact Rowan's Information Security Office for guidance.

b. Restricted services include the following:

   i. Social Media

      1. Social media tools or web content platforms cannot be used to communicate or store University (CMSRU) information classified as Confidential or Private or otherwise considered privileged or sensitive by Rowan. Social media tools include, but are not limited to: Facebook, Twitter, LinkedIn, Instagram, Medium, Reddit, YouTube and Flickr.

      2. For additional requirements on the use of social media, see the Social Media Policy.
ii. Professional Social Media

1. Professional social media cannot be used to communicate or store University (CMSRU) information classified as Confidential or Private or otherwise considered privileged or sensitive by Rowan (CMSRU).

2. The use of professional social media tools, such as Doximity and Sermo, cannot be used:
   a. To discuss patient cases in a manner that compromises patient identity or privacy, or otherwise represents a violation of HIPAA's Privacy or Security rules, state or local privacy laws, or University (CMSRU) policies.
   b. To communicate or post information that could potentially reveal information classified as Confidential or Private or otherwise considered privileged or sensitive by Rowan, or which compromises the privacy of a member of the University (CMSRU) community or its clients.
   c. For additional requirements on the use of social media, see the Social Media Policy.

iii. Cloud Services, Collaboration and Storage

1. Third-party cloud storage services cannot be used to store University (CMSRU) information classified as Confidential.

2. Google Drive is approved for Private, Internal and Public data. For additional information on the use of Google Drive, see Google Apps: Appropriate Data Use.

3. The use of non-approved third-party cloud storage services cannot be used to store University (CMSRU) information classified as Confidential or Private or otherwise considered privileged or sensitive by Rowan. Cloud storage tools include, but are not limited to: iCloud, Carbonite, OneDrive, Box, Dropbox, Evernote, OpenDrive and SugarSync.

iv. Third Party Email Services

1. Third party email services cannot be used to communicate or store University (CMSRU) information classified as Confidential or Private or otherwise considered privileged or sensitive.

v. Email Auto-Forwarding

1. With the exception of current undergraduate and other non-medical students, members of the Rowan (CMSRU) Community are not permitted to automatically forward or redirect messages from a Rowan email address to a non-Rowan email address.

vi. Texting
1. Texting cannot be used to communicate or store University (CMSRU) information classified as Confidential.

vii. Video Conferencing

1. Video conferencing services are limited to Rowan business-use only and must be conducted using Rowan equipment. They are to be used strictly for business collaboration between members of the Rowan Community or outside entities, or for educational purposes. Users must ensure that video communications are done in a setting or configured to restrict the possibility of non-authorized individuals from viewing or listening to sensitive information.

viii. Chat

1. The use of non-approved chat services cannot be used to communicate or store University (CMSRU) information classified as Confidential or Private or otherwise considered privileged or sensitive by Rowan. Chat tools include, but are not limited to: Slack and HipChat.

2. Jabber is approved for Private, Internal and Public data.

ix. BitTorrent Software

1. BitTorrent software (or other file sharing software) used to download and share movies, music, and other copyrighted media is strictly forbidden unless it is used for Rowan (CMSRU) business or academic purposes. The use of this software must be approved by the Dean or Department Head/Chair, and the Information Security Office.

POLICY COMPLIANCE:

1. Violations of this policy may subject the violator to disciplinary actions up to or including termination of employment or dismissal from school, subject to applicable collective bargaining agreements and may subject the violator to penalties stipulated in applicable state and federal statutes. Students who fail to adhere to this Policy or the Procedures and Standards will be referred to the Office of Student Affairs and may be expelled. Affiliates, contractors and vendors who fail to adhere to this Policy and the Procedures and Standards may face termination of their business relationships with the University (CMSRU). Sanctions shall be applied consistently to all violators regardless of job titles or level in the organization.

2. University (CMSRU) sanctions, penalties, fines and discipline for employees will be based on the severity of the incident per below:

a. Low – retraining and to be reviewed with the employee during annual appraisal. Also, any cost shall be borne by the Department. The Department Chair or VP will determine how these funds will be assigned;

b. Medium – retraining and to be reviewed with the employee during annual appraisal. Discipline will be considered up to and including dismissal from the University (CMSRU). Also, all costs will be borne by the Department. The Department Chair or VP will determine how these funds will be assigned; and
c. **High** – retraining and to be reviewed with employee during annual appraisal. Discipline will be unpaid suspension for a minimum of three (3) days with a consideration of up to and including dismissal from the University (CMSRU). Civil and criminal penalties may apply. Also, all costs will be borne by the Department. The Department Chair or VP will determine how these funds will be assigned. The Deans of each College, Vice Presidents, and University President, with the assistance of the Department of Human Resources, will enforce the sanctions appropriately and consistently to all violators regardless of job titles or level within the University (CMSRU) and in accordance with bargaining agreements for represented employees.

The general use of computers and campus technology is governed by the [Rowan University Acceptable Use Policy](#).

Administration of Surveys to CMSRU Students

POLICY:
Administration of Surveys to CMSRU Students

PURPOSE:
The purpose of this policy is to outline procedures to reduce the survey burden on students, maintain the effectiveness of surveys required of our student body, and ensure the integrity of survey data collection.

SCOPE:
This policy applies to all CMSRU medical students and those who serve as teacher, mentor or other CMSRU community members with whom students interact throughout all years and areas of the educational experience.

PROCEDURE:
CMSRU employs consistent procedures for notification and processing of surveys administered to medical students. Any member of the CMSRU community who intends to send surveys to medical students must do so in accordance with the procedures outlined in this policy.

Requests for survey approvals must be submitted in writing at least three weeks in advance of the proposed distribution date, and must include purpose and list of survey questions.

- Surveys require approval from the CMSRU Dean or designee. All surveys that require approval should be sent to the managing administrative assistants in the Office of the Dean.

- Surveys for research purposes require approval from the Rowan IRB. https://research.rowan.edu/officeofresearch/compliance/irb/index.html

Survey Participation: A professional expectation of students includes the provision of constructive input toward the ongoing improvement and development of programs. However, investigators who are part of the CMSRU community and are conducting surveys of CMSRU medical students may not force or compel users to participate. The survey requestor is responsible for initiating all publicity for their respective surveys.

Association of American Medical College (AAMC) Surveys: As a participating member of the AAMC, CMSRU allows students to participate in AAMC surveys. All survey guidelines as indicated by AAMC will be followed. Students are encouraged to participate in these surveys, the results of which are used to improve processes and programming at CMSRU.

Non-sanctioned Surveys: Any member of the CMSRU community who administers a survey to students without obtaining the appropriate permission(s) may have their right to survey revoked or be subject to further disciplinary action.
Copyright Infringement Policy

POLICY:
Copyright Infringement

PURPOSE:
CMSRU respects intellectual property and has made it a priority to ensure that all faculty, students and staff respect the copyrights of others. CMSRU faculty, students and staff are required to comply with copyright law and to adhere to the CMSRU copyright policy and guidelines. Copyright infringement through inappropriate copying or distribution of copyrighted content is a personal as well as medical school liability and will result in disciplinary action.

SCOPE:
All CMSRU medical students, faculty and staff.

DEFINITIONS:
Essential definitions and key terms are outlined within the policy.

PROCEDURE:
Important Information about Copyright

What is Copyright?
The purpose of copyright law is to provide authors and other creators with an incentive to create and share creative works by granting them exclusive rights to control how their works may be used. Among the exclusive rights granted to those authors are the rights to reproduce, distribute, publicly perform and publicly display a work. These rights provide copyright holders control over the use of their creations, and an ability to benefit, monetarily and otherwise, from the exploitation of their work. Copyright also protects the right to “make a derivative work,” such as a movie from a book; the right to include a piece in a collective work, such as publishing an article in a book or journal; and the rights of attribution and integrity for "authors" of certain works of visual art. If you are not the copyright holder, you must ordinarily obtain permission prior to re-using or reproducing someone else’s copyrighted work. Acknowledging the source of a work is not a substitute for obtaining permission. However, permission generally is not necessary for actions that do not implicate the exclusive rights of the copyright holder, such as reviewing, reading or borrowing a book or photograph.

What is Protected by Copyright?
The rights granted under the U.S. Copyright Act (embodied in Title 17 of the U.S. Code) are intended to benefit “authors” of “original works of authorship,” including literary, dramatic, musical, architectural, cartographic, choreographic, pantomimic, pictorial, graphic, sculptural and audiovisual creations. This means that virtually any creative work that you may come across in readable or viewable format, including books, magazines, journals, newsletters, maps, charts, photographs, graphic materials; unpublished materials, such as analysts’ reports and consultants’ advice; and non-print materials, including websites, computer programs and other software databases, sound recordings, motion pictures, video files, sculptures and other artistic works are almost certainly protected by copyright.

What is NOT Protected by Copyright?
Not everything is protected by copyright. This includes works published by the federal government and works for which copyright protection has expired. This also includes: works that are not fixed; titles, names, slogans; ideas, facts and data; listings of ingredients or contents; natural or self-evident facts; and public
domain works (more on that below). Some of these things may, however, be protected under other areas of law, such as patent or trademark law, or by contract. It is important to be sure that no other form of protection restricts the use of such materials before using them.

**How Long Does Copyright Protection Last?**
In the U.S., a work created on or after January 1, 1978 is ordinarily protected for a term equal to the author’s life span plus 70 years after the author’s death. Works created by companies or other types of organizations have a copyright term of 95 years. For works created before 1978, the duration of protection depends on a number of factors.

**Fair Use**
Fair use is a defense under U.S. law that may be raised by the defendant in a copyright infringement case. Fair use recognizes that certain types of use of other people’s copyright protected works do not require the copyright holder’s authorization. The fair use doctrine is codified in Section 107 of the U.S. Copyright Act. Although there are no absolute rules around fair use, generally the reproduction (photocopy or digital) or use of someone’s copyright-protected work is more likely to be found to be fair use if it is for one of the following purposes: criticism, comment, news reporting, teaching, scholarship or academic research. To determine whether a particular use qualifies as fair use, the statute requires a fact specific analysis of the use based upon four factors:

1. The purpose and character of the use (e.g., whether for commercial or nonprofit educational use)
2. The nature of the copyright-protected work (is it primarily factual or highly creative?)
3. The amount and substantiality of the portion used
4. The effect of the use upon the potential market for or value of the copyright-protected work

All four factors must be considered and balanced against the other factors as part of each fair use analysis.

Fair use requires an appropriate risk assessment as to whether re-use under certain circumstances may be considered fair use. Permission procedures as set out in this policy should be followed and the advice of the CMSRU Library should be sought in instances where fair use determination may be necessary. Please be aware that all educational use is not automatically fair use.

**Copyright and Digital Works**
Any non-digital content that is protected by copyright is also protected in a digital form. For example, print books are protected by copyright law, as are electronic books. A print letter is protected by copyright law, as is an email letter. In both cases, the copyright is generally owned by the author, regardless of who has received the letter. Whenever you wish to use material found on a website, it is always important to review and understand the terms of use for that site because those terms will tell you what use, if any, you can make of the materials you find there.

**Fact Finding Questions**
Once you have identified the materials you want to use, ask yourself the following questions: is the work the type of work protected by copyright? If so, are you using the work in a manner that implicates the exclusive rights of the copyright holder? Is it likely the work is still protected? If the answer is YES to these questions, then you must locate the copyright holder. Is the name of the copyright holder on the materials? Does the Copyright Clearance Center represent that work? Locating the copyright holder may take some investigative and creative work. Consult with the CMSRU Library to see if they can offer any guidance. The U.S. Copyright Office at the Library of Congress (www.loc.gov) may be of assistance in locating a copyright owner.
Requesting Permission

Permission to use copyright-protected materials should be obtained prior to using those materials. It is best to obtain permission in writing, which may be by email. The time needed to obtain permission may vary. When possible, it is recommended to start the permission procedure well in advance of the time that you wish to use the materials. If you need a fast turnaround on a permission request, let the copyright owner know this and they may get back to you faster. The information you will need:

- ISBN or ISSN, if applicable
- Date of publication, if applicable
- Purpose for which you wish to reproduce the item (research, commercial, educational)
- How the material is to be reproduced (e.g., photocopied, digitized)
- Where the reproduced material will appear (including internal vs. external use) and for how long

Guidelines for the Appropriate Use of Copyrighted Materials

CMSRU Faculty, Student and Staff Obligations Under Copyright Law

No student, faculty member or staff may reproduce any copyrighted work in print, video or digital form in violation of the law. Works are considered protected even if they are not registered with the U.S. Copyright Office and are assumed to be copyrighted until proven otherwise. When a work is copyrighted, you must seek out and receive through a license or the express written permission of the copyright holder, the right to reuse the copyrighted work in order to avoid an infringement of copyright, unless it is determined in consultation with the CMSRU Library and, if appropriate, legal counsel that the use would constitute a fair use.

CMSRU has negotiated licenses with publishers and other copyright holders that allow employees to use and share their materials. Faculty can point students to these materials or link to them. These licenses have restrictions and specific terms of use. As a result, it is critical that an employee investigate what the permitted uses are before copying or sharing any copyrighted materials. Similarly, students must investigate the permitted uses for a copyrighted material before distributing or sharing for any purpose. Please consult and implement the procedures outlined in this policy. Any employee or student who violates CMSRU copyright policy may be subject to disciplinary action. All questions should be directed to Susan Cavanaugh, MS, Director of the CMSRU Medical Library at 856-342-2523.
Data Governance Policy

CMSRU Adheres to the Rowan University Data Governance Policy

POLICY:
Data Governance Policy

PURPOSE:
To set policy for assigning and detailing responsibilities for managing different classifications of university (CMSRU) data and to set forth a standard for custodianship of university (CMSRU) data. This policy establishes the framework for standards and guidelines to be followed in creation of data storage, destruction, and access mechanisms including data architectures.

ACCOUNTABILITY:
Under the President, the Vice President for Information Resources and Chief Information Officer (CIO) shall ensure compliance with this policy. The Provost, Executive Vice President for Administration and Strategic Advancement, Vice Presidents, Deans, IR Directors, and individual managers shall implement the policy.

SCOPE:
1. This policy applies to all individuals accessing University (CMSRU) data, including students, faculty, visiting faculty, staff, volunteers, alumni, persons hired or retained to perform University (CMSRU) work, external individuals and organizations, and any other person extended access and use privileges by the University (CMSRU) under contractual agreements and obligations or otherwise.

2. Data and records stored on University (CMSRU) systems are presumed to be the property of Rowan University (CMSRU). Proper stewardship and custodianship of University (CMSRU) data will facilitate access to data that supports the work of those with official educational or administrative responsibilities within the institution that is consistent with legal, ethical, competitive, and practical considerations, and will inform users of data of their responsibilities.

3. Nothing in this policy precludes or addresses the release of University (CMSRU) Data to external organizations, governmental agencies, or authorized individuals as required by legislation, regulation, or other legal vehicle.

DEFINITIONS:
1. Access – the right to read, copy, or query data.

2. Data – the representation of discrete facts; any information in electronic or audio-visual format, or any hardware or software that enables the storage and use of such information.

3. Data Administration – the function of applying formal guidelines and tools to manage the University's (CMSRU’s) data resources

4. Data Consumers – employees or agents of the University (CMSRU) who access University (CMSRU) Data in performance of their assigned duties.

5. Data Custodians – University (CMSRU) officials and their staff who have operational-level responsibility for data capture, data maintenance, and data dissemination.
6. **Data Dictionary** – a comprehensive repository that defines and categorizes University (CMSRU) Data.

7. **Data Stewards** – University (CMSRU) officials who have policy-level responsibility for managing a segment of the University's (CMSRU’s) data resource.

8. **Information** – wherever possible, this document refers to data rather than information; Information is defined as a collection of data, ideas, thoughts, or memories.

9. **University Data** – data that is created, acquired or maintained by University (CMSRU) employees in performance of official administrative job duties.

10. **University Data Governance Committee (DGC)** – the committee that establishes overall policy and guidelines for the management of and access to the University's University Data in accordance with existing University policies.

11. **University Data Model** – a framework that documents the data entities that comprise the University Database and the relationships among those entities.

12. **Metadata** – data about data that allows for the systematic definition of data and its elements.

13. **Metadata Management** – the process of updating and utilizing the Meta Data to control data related processes and define data in an ever-changing environment.

14. **Record** – data or information in a fixed form that is created or received in the course of individual or University (CMSRU) activity and set aside (preserved) as evidence of that activity for future reference.

15. **Shared data** – a subset of University (CMSRU) Data; data that is maintained by more than one organizational unit.

**POLICY:**

1. **Regulations, Statuses and Policies**
   Responsibility for and access to correspondence and documents created or received by University (CMSRU) personnel are governed by the following over-arching policies and legal statutes:
   
   a. NJ Public Records Law General Statutes
   b. Family Educational Rights and Privacy Act (FERPA)
   c. Health Insurance Portability and Accountability Act (HIPAA) Security Rule
   d. NJ Records Retention Schedule for Four Year College
   e. Americans with Disabilities Act of 1990
   f. The Electronic Communications Privacy Act of 1986 (ECPA)?
   g. FTC Red Flags Rules
   h. Gramm Leach Bliley Act (GLBA)
   i. Payment Card Industry (PCI) Data Security Standard
   j. Policy and Procedures on Ethics in Research
k. Rowan University Information Security Policy and Standards

l. Rowan University Policy on the Privacy of Electronic Information

2. University Data

a. University (CMSRU) Data is a valuable asset at the Rowan University (CMSRU). It involves all University (CMSRU) constituencies (students, faculty, staff, etc.) and resources (funds, space, technology, etc.) that are captured and used in the operations of the University (CMSRU). It serves as the basis for internal and external reports.

b. University Data enables administrators to assess the needs of the University community and modify services accordingly. It is vital not only in the day-to-day operations of the University but to short-term and long-term planning as well.

c. Rowan University (CMSRU) exercises control over and access to data even when it is technically open under the public records statutes and even though it requires effort and cost to create and maintain access controls. University (CMSRU) data is available only on a need-to-know-basis and requires those individuals seeking access to submit a public records request.

d. To support all aspects of University (CMSRU) operations, University (CMSRU) data in print and electronic form will be managed as a strategic asset according to “data governance” policies and procedures. University (CMSRU) data is a subset of the university's (CMSRU’s) information resources and administrative records, and includes any information in print, electronic or audio-visual format. This definition includes, but is not limited to, machine-readable data and data in electronic communication systems. It also includes back-up and archived data on all media, and any University (CMSRU) data that resides on internal systems or systems hosted outside the control of the University (CMSRU).

e. University (CMSRU) data includes data, in any of the forms described above, that is:
   
   i. Acquired and/or maintained by university (CMSRU) employees in performance of official administrative job duties;
   
   ii. A public record according to the definition included in Federal and State laws;
   
   iii. Relevant to planning, managing, operating, or auditing a major function at the University (CMSRU);
   
   iv. Referenced or required for use by more than one organizational unit; and
   
   v. Included in official university (CMSRU) administrative reports.

f. Access to University (CMSRU) data needs to be controlled by defining criteria for its governance and creating mechanisms for enforcing policies related to it. Rowan’s Data Governance Committee (DGC), chaired by Rowan’s Chief Information Officer (CIO), has policy oversight. Distribution of these and related policies, once approved, will be via the Rowan University Policies page on the RU website. This policy establishes the framework for standards and guidelines to be followed in creation of data storage, destruction, and access mechanisms including data architectures.
g. These data architectures will drive physical implementation of databases and be governed according to the provisions of this document.

h. Data and records stored on University (CMSRU) systems may include data from one or more the following areas within Rowan University (CMSRU) and are described in Exhibit 1.

3. Governance Roles

   a. No one person, department, division, school, or group “owns” the data used by the University (CMSRU), even though specific units bear the primary responsibility for some data. The University as an organization owns the data (or in some cases, such as with Social Security numbers, is the custodian of data), but a specific person in the role of the “Data Steward”, will be designated with the ultimate responsibility to define how the assigned data is managed within the scope of the legal and regulatory obligations.

   b. The roles and responsibilities assigned to the Data Governance Committee (DGC), Data Stewards, and Data Custodians are included in Exhibits X2, X3, and X4.

4. Responsibilities of Users

   a. Controlling access to University (CMSRU) Data is important to protecting the University (CMSRU) and its constituency from liability and acts of malice. All public records requests are routed through University Counsel. University (CMSRU) employees, faculty, students, and/or agents will be able to access data only after being granted access according to the procedures specified by the Data Steward.

   b. Permission to access University (CMSRU) Data will be granted for legitimate University (CMSRU) purposes according to the classification of the data being requested and person making the request. Method of delivery, including email and fax, should be carefully considered to ensure data security and compliance. Requests for University (CMSRU) Data from an external source or a University (CMSRU) employee for non-University (non-CMSRU) purposes will be handled according to the appropriate Federal and New Jersey Public Records Request statues and case law. Users shall respect the confidentiality and privacy of individuals whose records they may access, observe the ethical restrictions that apply to data to which they have access and abide by applicable laws and University policies with respect to access, use, protection, proper disposal, and disclosure of data.

   c. To the extent that the law permits, as determined by the Office of University Counsel, the University (CMSRU) reserves the right to deny University (CMSRU) Data access to any person or organization that has demonstrated malicious intent or has violated any aspect of the Data Governance Policy.

5. Data Retention and Disposition

   a. Rowan University (CMSRU) is a state agency, and its offices and departments are obligated to follow the requirements of the Federal and New Jersey Public Records Law for retention and disposition of records. It should be noted here that University (CMSRU) Data might not be destroyed without an approved records retention and disposition schedule that authorizes destruction.
b. Decisions governing data retention are made based on the content of the data and in conjunction with the department’s approved records retention and disposition schedule. Some types of data may be retained for a long period of time by approved schedules, by policy, or by law. Other types must be purged or destroyed after a certain period of time, again for reasons of preference, policy, or statute. For any circumstance in which data retention is an issue, specific requirements should be clearly documented and should include, at a minimum, the following:

i. The rationale for the retention rule;

ii. The timeframe of the retention rule; and

iii. The method of either saving or disposing of the data according to the retention rule.

Attachment 1, Data Classification Matrix

All University Data requires classification with respect to the sensitivity of the data. It is also important to track who is the Steward and the Custodian of the data.

*Note that this table is an example and currently defines only a portion of the University Data. A data classification must always take into account the most sensitive data in the collection. Since the data is currently described in such broad groupings, the risk classification is usually the least common denominator of all data elements within a given Area. As the components of each sub area are further detailed, the classification of the data will be adjusted to reflect the appropriate sensitivity of the data subset.*

Attachment 2, Rowan University Data and Records

Data and records stored on University systems may include data from one or more the following areas within Rowan University:

1. **Alumni Affairs and Development Data**—supports all aspects of alumni and development data. This includes personal data, demographic data, income, and giving data.

2. **Clinical or Medical Data**—supports the management of personal medical information within the University. This data includes patient medical records, benefits, and other related clinical information. Note that HIPAA applies to all personal medical data and patient records of students, faculty, employees, or patients regardless where it is collected or stored. This includes the University’s student wellness center(s), health clinics, or related research activities.

3. **Facilities Data**—supports the facilities and services resource of the University including space planning data, construction, maintenance and operational data, reservations, energy consumption data, and physical descriptive data.

4. **Financial Data**—supports the management of fiscal resources of the University and includes accounting, accounts payable, accounts receivable, budgeting, capital assets, investments, inventory, loans, payroll information purchasing, risk management, and treasury.

5. **Human Resources Data**—supports the management of employee resources of the University. This data includes employee demographics, benefits, retirement and EEO data, vitae, employee evaluations, promotion and disciplinary data. Note that FERPA applies to the HR records of students whose enrollment is a contingency of their employment (TA’s, work study awards, etc.) While student data is always student data; Human Resources Data can be both part of the student record and the Human Resources record.

6. **Information Technology Data**—supports the provisioning and management of the technology infrastructure provided by Information Technology Services.

7. **Library and Information Resource Data**—supports the management activities and information resource collection activities of the University libraries, including databases of purchased and locally produced information and digitized files of University archives and other special collections.

8. **Personal Registry Data**—supports the management of identity and authentication for individuals associated with the University, including the creation of unique data elements (such as Banner ID and Student Cards) that provide unambiguous identification and resolution for merging of identity records. Personal registry data can be used to provision other applications that are managing privileges to authorized individuals or groups.

9. **Student Data**—supports all phases of a student’s relationship with the University from application through alumni status except as noted elsewhere. This includes, but is not restricted to, demographic data, academic records, disciplinary and medical records, course information, admissions data, housing, and financial aid, as well as employment with the University, which is dependent on student status. Storage, retrieval, destruction, back-up, and data access, among others, to student records are an important part of this policy.
Attachment 3, Data Governance Committee

The Data Governance Committee (DGC) is an official University committee that reports to the President of the University and is chaired by the University CIO. The DGC will advise the President on the development and enforcement of the University’s Data Governance Policy. While the DGC will operate in an advisory role, only the CIO retains the authority to approve and enforce data governance policies, procedures, and standards.

The CIO appoints Committee members. The Committee may include representatives from University Counsel, University Relations, Health Sciences, Strategic Enrollment, Facilities, Provost Office, Labor Relations, Government Relations, Student Life, University Advancement and Foundation, Finance, Information Resources and Technology, the Director of Information Security, and other relevant Senior University Management.

The DGC members or CIO may create subcommittees and task forces as needed to carry out its responsibilities.

Other Committee responsibilities include:

1. **Access** – Defining a single set of procedures for requesting permission to access data elements in University databases, and, in cooperation with Data Stewards, documenting these common data access request procedures.

2. **Conflict Resolution** – Resolving conflicts in the definition of centrally-used administrative data attributes, data policy, and levels of access.

3. **Data Governance** – Establishing policies that manage University Data as a University resource and communicating the policy to the University community.
   - Overseeing the administration and management of all University Data.
   - Resolving issues with regard to standard definitions for data elements that cross stewardship boundaries.
   - Establishing specific goals, objectives, and action plans to implement the policy and monitor progress in its implementation.
   - Identifying data entities and data sources that comprise University Data. As this is an ongoing process, the committee will add data entities and sources to the scope of University Data, as circumstances require.
   - Prioritizing the management of University Data. This includes identifying which data is most critical and assigning management priorities to all data entities and sources.
   - Consideration of delivery modes for transmitting University data.

The DGC, in consultation with University Counsel and the Information Security Office, will also advise on policies related to contracts with vendors whose products or services may process, store, or exchange data with University systems, including third party contracts for secondary systems that share data housed in the University’s primary systems such as Banner.

4. **University Data Model** – Overseeing the establishment and maintenance of the University Data Model and Data Architecture, which includes defining the standards for documentation of data elements.
5. **Shared Data Management** – Defining attributes and assigning maintenance responsibilities for data accuracy, retention, disposition, and preservation. Note that oversight of University data, which is a public record, should be managed according to the Public Records Law and the approved records retention and disposition schedules that are created in University Archives and Records Management Services.
Attachment 4, Data Stewards

University staffs designated as “Data Stewards” have the primary administrative and management responsibilities for University Data within their functional area. Data Stewards have that role by virtue of their positions. For example, the Sr. Vice President for Human Resources has stewardship responsibility for HR data.

Data Stewards interpret policy, define procedures pertaining to the use and release of the data for which they are responsible, and ensure the feasibility of acting on those procedures. Data Stewards are responsible for defining procedures and policy interpretations for their business; any such business-unit specific items must, at minimum, meet University policy standards. They are responsible for coordinating their work with other University offices associated with management and security of data, such as University Counsel, the Director of Information Security, and the Division of Information Resources and Technology (IRT). Specific responsibilities include:

1. **Access** – Approving requests for access to data, specifying the appropriate access procedure, ensuring appropriate access rights and permissions according to classification of data.

2. **Communication** – Ensuring that consumers of the data for which the Data Stewards are responsible are aware of information handling procedures.

3. **Compliance** – The Data Steward is ultimately responsible for compliance with applicable University policies, legal and regulatory requirements. Stewards must be knowledgeable about applicable laws and regulations to the extent necessary to carry out the stewardship role. Furthermore, Stewards must take appropriate action if incidents violating any of the above policies or requirements occur.

4. **Consultation** – Providing consulting services as needed to assist data users in the interpretation and use of data elements for which they are responsible, including the Data Custodian.

5. **Coordination** – Ensuring that, where required, Information Security Liaisons are designated for their respective business unit; specifying data management and protections requirements to Data Custodians.

6. **Data Classification** – Classifying each data element according to University definition: Highly Sensitive (high risk), Sensitive (medium risk) and Public (low risk).

7. **Documentation** – Ensuring that documentation exists for each data element to include, at a minimum, the following: data source, data provenance, data element business name, and data element definition.

8. **Data manipulation, extracting, and reporting** – Ensuring proper use of Data and recommending appropriate policies regarding the manipulation or reporting of University Data elements and implementing business unit procedures to carry out these policies.

9. **Data quality, integrity, and correction** – Ensuring the accuracy and quality of data (access and logging controls, backup, etc.) and implementing programs for data quality improvement.
   - Developing procedures for standardizing code values and coordinating maintenance of look-up tables used for University Data.
   - Determining update precedence when multiple sources for data exist.
   - Determining the most reliable source for data.
10. **Data lifecycle and retention** – Ensuring appropriate generation, use, retention and disposal, etc. of data and information consistent with University Policies, among them Information Security Policy and standards for disposal.

11. **Data stewardship** – Other responsibilities as necessary, including exercise of due care in the selection of Data Custodians to ensure these responsibilities are adequately and consistently executed.

12. **Data storage** – Documenting official storage locations and determining archiving and retention requirements for data elements.

13. **Education** – Ensuring that education to employees responsible for managing the data is provided in data retention, data handling and data security.

14. **Policy implementation** – Establishing specific goals, objectives, and procedures to implement the policy and monitor progress toward implementation
Attachment 5, Data Custodians

Data Stewards may appoint Data Custodians who will assist Stewards with data administration activities. The Data Custodian is given specified responsibilities and receives guidance for appropriate and secure data handling from the Data Stewards. A Data Custodian has the responsibility for the day-to-day maintenance and protection of data.

Specific responsibilities also include:

1. **Access** – Implementing procedures as defined by the DGC and Data Stewards to grant access for Consumers.

2. **Coordination** – With guidance from the respective Data Stewards and in collaboration with technical support staff, Data Custodians recommend appropriate IT procedures that satisfy specified information security requirements, including legal and compliance obligations as well as applicable University policies.

3. **Data collection and maintenance** – Collecting and maintaining complete, accurate, valid and timely data for which they are responsible.

4. **Data security** – Administering and monitoring access and, in collaboration with technical support staff, defining mitigation and recovery procedures; reporting any breaches of University information in a timely manner according to procedures defined in the Incident Management policy; coordinating data protection with the Information Security Office as necessary.

5. **Documentation** – Writing the documentation for each data element base upon stewardship requirements, policy, and best practices. This documentation will include, at a minimum, the following: data source, data provenance, data element business name, and data element definition.

6. **Education** – At the direction of the Data Steward, providing education in data retention, data handling and data security to employees responsible for managing the data.
Information Security Policy

CMSRU Adheres to the Rowan University Information Security Policy

POLICY:
Information Security Policy

PURPOSE:
The purpose of this policy is to establish a framework for the protection of University (CMSRU) information resources from accidental or intentional unauthorized access, modification, or damage in order to meet applicable federal, state, regulatory, and contractual requirements.

ACCOUNTABILITY:
Under the direction of the President, the Chief Information Officer and Director of Information Security shall ensure compliance with this policy. The Vice Presidents, Deans, and other members of management will implement this policy in their respective areas.

SCOPE:
This policy applies to all members of the Rowan Community (CMSRU) who access and use the University (CMSRU)'s electronic information and information systems.

DEFINITIONS:
Refer to Rowan University Technology Terms and Definitions for terms and definitions that are used in this policy.

POLICY:
1. Information security is the protection of information from threats to ensure business continuity, minimize risks, and maximize University (CMSRU) opportunities.
2. The Information Security Office (ISO) will manage the information security program at Rowan University (CMSRU) and is responsible for developing strategies for managing the processes, tools, and policies necessary to prevent, detect, document and counter threats to information.
3. The information security program will be advised by the Information Technology Security Board (ITSB) which serves as the advisory board for information security governance at the University (CMSRU). The ITSB represents and advocates for the interest of the Rowan (CMSRU) Community during decisions that impact information security at the University (CMSRU).
4. Information security requires a combination of policies and standards to manage information resources throughout its lifecycle.
   a. Policy Development: Policies and standards are crucial to establishing, maintaining and monitoring proper information security practice and define responsibilities, shape processes and allow for oversight of critical information-related operations. At a minimum, the Information Security policies developed and enforced should include:
      i. Acceptable Use;
      ii. Access Control;
      iii. Business Continuity Management;
iv. Change Management;
v. Data Backup;
vi. Electronic Media Disposal;
vii. Encryption;
viii. Information Classification;
ix. Incident Management Policy;
x. Mobile Computing and Removable Media;
xi. Physical Security for IT Network Resources;
xi. Privileged Account Management;
xi. Remote Access;
xiv. Security Awareness and Training;
 xv. Security Incident Management;
 xvi. Security Monitoring;
 xvii. Transmission of Sensitive Information;
 xviii. User Password; and
b. Policy Approval - The Information Security Office will follow the documented process for creating, reviewing and updating policies with final approval from the ITSB.
c. Policy Exceptions - While exceptions to an information security policy or standard may weaken the protection of University (CMSRU) information resources, they are occasionally necessary and standard procedures and documents should be in place to manage the exception as well as review the need for the exception periodically.
d. Policy Sanctions - The ISO is responsible for coordinating and enforcing sanctions against Rowan Community members who fail to comply with the University (CMSRU)’s information security policies.

5. The Information Security Office (ISO) will develop and maintain an information security risk management program to frame, assess, analyze, respond, and monitor risk. Guidance for this program will be based on the NIST 800-37 framework and security regulations such as HIPAA, PCI-DSS, FERPA, GLBA etc. Specific requirements under this program will include:

a. Risk Analysis - In accordance with the Security Risk Analysis requirement under the Security Management Process of the HIPAA Security Rule (§164.308(a)(1)(ii)(A), Rowan University must conduct an accurate and thorough assessment of the potential risks and vulnerabilities to the confidentiality, integrity, and availability of Electronic Protected Health Information (E PHI) held by the University via its role as a covered entity for Rowan Medicine. Based on guidance from Health and Human Service’s (HHS) Office of Civil Rights (OCR), the risk analysis must at a minimum include the following nine elements:
i. Scope of the Analysis;
ii. Data Collection;
iii. Identification and Documentation of Potential Threats and Vulnerabilities;
iv. Assessment of Current Security Measures;
v. Determination of the Likelihood of Threat Occurrence;
vi. Determination of the Potential Impact of Threat Occurrence;
vii. Determination of the Level of Risk;
viii. Final Documentation; and
ix. Periodic Review and Updates to the Risk Assessment.

b. Risk Management Program - In accordance with the Risk Management requirement under the Security Management Process of the HIPAA Security Rule (§164.308(a)(1)(ii)(B), Rowan University must implement security measures sufficient to reduce risks and vulnerabilities to a reasonable and appropriate level. Accordingly, Rowan University should:

i. Ensure a thorough review of the risk analysis results are performed, and associated risk management plans are documented in the University risk register; and
ii. Appropriate risk owners and key stakeholders are involved in this process in order to ensure adequate prioritization of risk and implementation of security measures to reduce those risks identified are addressed within an established timeline.

6. Roles and Responsibilities - In addition to knowing the classification of each piece of University (CMSRU) information to which they have access as either “Sensitive Information” or “Public Information,” users must be aware of whether, with respect to that information, they serve as an Owner/Steward, a Custodian, a Consumer/User or a User Manager as described within this Policy.

a. Data Steward or Owner - is accountable for data assets from a business perspective and is the University (CMSRU) employee responsible for the approval of the creation of a collection of information or data or the primary user of that information or data. For example, the Registrar is the Steward for much of the University’s (CMSRU’s) student information. The Vice President for Human Resources is the Steward for much of the University’s (CMSRU’s) employee information.

b. Data Custodian - is accountable for data assets from a technical perspective and is the University (CMSRU) employee responsible for the processing and storage of information or data on behalf of the Steward or Owner of that information or data.

c. Consumer or User - A Consumer/User is any person authorized to read, enter, copy, query, download, or update information.

d. User Managers - A User Manager is any University (CMSRU) administrator, faculty member, or staff member who supervises or sponsors consumer/users or who handles University (CMSRU) business unit administrative responsibilities. User Managers are
responsible for overseeing their Consumer/Users’ access to Sensitive Information, including:

i. Reviewing and approving all requests for access authorizations and ensuring it accurately reflect each Consumer/User’s role and required access;

ii. Ensuring that the approved procedures are followed for employee suspensions, terminations, and transfers, and that appropriate measures are taken to revoke access privileges;

iii. Revoking access privileges from students, vendors, consultants, and others when access is no longer necessary or appropriate;

iv. Providing the opportunity for training needed to properly use computer systems;

v. Reporting promptly to the Director of Information Security any potential or actual unauthorized access of University (CMSRU) Sensitive Information in accordance with the University’s Protocol for Responding to Security Breaches of Certain Identifying Information;

vi. Initiating appropriate actions when Information Security Incidents are identified in accordance with the Incident Management Policy; and

vii. Ensuring that any Information Security requirements are followed for any acquisitions, transfers, and surplus of equipment that processes or stores electronic information, including but not limited to computers, servers, smartphones, mobile devices, fax machines, and copiers.

e. Information Security Office - The Director of Information Security overseeing the staff of the Information Security Office is responsible for:

i. Developing an Information Security Strategy approved by the Chief Information Officer and the Information Technology Security Board (ITSB).

ii. Developing and maintaining the University Information Security Program to provide University services for:

1. Security Governance and Oversight
2. Information Security Policies, Procedures, and Standards
3. Network Security Protection and Monitoring
4. Endpoint Security Protection and Monitoring
5. Vulnerability Management
6. Information Security Incident Management
7. Annual Security Risk Assessments
8. Information Security Consulting
9. Information Security Awareness
10. Information Security Design and Architecture
11. Technology Risk Management

12. Third Party Security Reviews

iii. Serving as the University Security Officer for HIPAA, FERBA, GLBA, and PCI.

iv. Serving as the University Security Liaison to all Local, State, and Federal Government Agencies and Law Enforcement.

POLICY COMPLIANCE:
Violations of this policy may subject the violator to disciplinary actions up to or including termination of employment or dismissal from school, subject to applicable collective bargaining agreements and may subject the violator to penalties stipulated in applicable state and federal statutes. Students who fail to adhere to this Policy or the Procedures and Standards will be referred to the Office of Student Affairs and may be expelled. Affiliates, contractors and vendors who fail to adhere to this Policy and the Procedures and Standards may face termination of their business relationships with the University (CMSRU). Sanctions shall be applied consistently to all violators regardless of job titles or level in the organization per the Acceptable Use Policy.
Recording Room Policy (Room 419)

POLICY:
Recording Room Policy (Room 419)

PURPOSE:
Cooper Medical School of Rowan University (CMSRU) offers a wide array of computing, networking, and instructional resources and services designed to enable high-quality services and maximize productivity while protecting the rights of all members of the community. The recording room, located in CMSRU MEB 419, supports teaching and learning at the Cooper Medical School of Rowan University.

SCOPE:
This policy applies to all CMSRU faculty (and staff, where appropriate). The policy outlines procedures and responsibilities of those faculty and staff use computing and instructional facilities or support in room 419 at CMSRU. Direct implementation of the policy will be enforced by the CMSRU Manager of Information and Technology Services or designee.

PROCEDURE:
1. The recording room is reserved for CMSRU faculty/academic use only.
2. No food or beverages are permitted in the recording room.
3. Room reservations will be given priority to course related requests such as lecture recordings.
4. Room reservation requests must be made with CMSRU IT.
5. Technical support is provided by CMSRU IT.
6. Replacement and upkeep of all IT/AV equipment will be facilitated by CMSRU IT.
Social Media Policy

CMSRU Adheres to the Rowan University Social Media Policy

POLICY:
Social Media Policy

PURPOSE:
This policy sets forth the acceptable uses regarding the access and use of social media for University-affiliated communications. It also includes professionalism requirements for University’s medical students who, as medical professionals in training, must uphold the highest standards of the medical profession and protect the privacy and confidentiality of patients.

SCOPE:
This policy applies to all members of the University (CMSRU) community who use social media for University-affiliated communication and those who use the University (CMSRU) name in association with social media accounts.

DEFINITIONS:
See Attachment 1 - Definitions

REFERENCES:
See Attachment 2 - References

PROCEDURE:
1. The University (CMSRU) expects members of the University (CMSRU) community will access and use social media in a manner that:
   A. Does not compromise the confidentiality, integrity, or accessibility of those assets; and
   B. Complies with all applicable University (CMSRU) policies, procedures, and guidelines and is in accordance with all applicable federal, state, and local laws and regulations governing the use of computers and the Internet; and
   C. Protects the University’s (CMSRU’s) reputation and promotes its educational mission; and
   D. Conforms to all policies and procedures set forth by the University (CMSRU). Nothing in this policy supersedes standards set forth by Information Resources & Technology, the Department of Public Safety, the Office of Emergency Management, and Student Life/Student Affairs; and
   E. Recognizes the rights of the members of the University (CMRU) community guaranteed by the Constitution of the United States and the State of New Jersey, including but not limited to freedom of speech, inquiry, and expression; and
   F. Complies with all Terms set forth by each respective social media network.

2. These obligations apply regardless of where access and use originate.
3. All University (CMSRU)-affiliated social media, including but not limited to the account itself, content and audiences, are the property of the University (CMSRU). Account creators and administrators have no ownership rights whatsoever.

4. The content contained herein is not intended to be comprehensive, as the evolution of technology precludes the University (CMSRU) from anticipating all potential means of storing, capturing and transmitting information. This policy will be monitored and revised as deemed necessary.

5. Requirements

   A. University (CMSRU) affiliated social media account administration.

      1. Any member of the University (CMSRU) community engaging in University (CMSRU)-affiliated social media must do so using an administrative or resource University email address to which more than one member of the University community has access.

         a. A unique email must be created expressly for this purpose by submitting a request at support.rowan.edu.

         b. No member of the University (CMSRU) community should be required, asked, or permitted to use a private, personal account for the purpose of creating social media account(s) on behalf of the University (CMSRU).

         c. If, for any reason, a social media account is presently linked to an individual person’s email account, that person relinquishes all rights to the account.

      2. Social media contacts shall acknowledge that:

         a. They have obtained permission from their supervisor/management to use social media in an official capacity for their unit; and

         b. They must maintain access to and security of all social media usernames and passwords; and

         c. They must monitor and maintain the account(s) on a weekly basis. Inactive accounts may be subject to deactivation or deletion; and

         d. Resources will be made available for their reference at www.rowan.edu/socialmedia; and

         e. Other social media users may have different interests, attitudes, and opinions than those of the University (CMSRU). Social media contacts reserve the right to remove content, block users, or refrain from interacting with anyone for content deemed to be unlawful. Social media contacts do not reserve the right to remove content deemed to be a difference of opinion; and

         f. Social mediial contacts’ administrative access to social media accounts will be terminated upon exit from the University (CMSRU) or assignment to another job.
3. All University (CMSRU)-affiliated social media should be explicit regarding the relationship of the platform to the University (CMSRU).

4. All social media graphics and naming conventions must abide by the University’s (CMSRU’s) Graphic Standards policy.
   a. University (CMSRU) trademarks and logos, including but not limited to the University (CMSRU) seal, torch, and athletics logo, may not be used without approval.
   b. ‘Rowan University (CMSRU)’ or ‘Rowan’ should be used within the social media username and prepend any qualifiers. ‘RU’ and other acronyms should not be used within the username unless the expanded versions do not adhere to unique platform restrictions.
   c. Units that have multiple social media accounts should use the same photo and name across all platforms.

B. Personal Use of Social Media

1. Members of the University (CMSRU) community may not use the University (CMSRU) name, email addresses, or University (CMSRU) logos/trademarks on social media to post information in a manner that may be interpreted as representing an official position of the University (CMSRU), or which may misrepresent the University's viewpoint. All accounts and posts in which a user identifies him/herself as a member of the University (CMSRU) community should clearly communicate: "The views and opinions expressed are strictly those of the author. The contents have not been reviewed or approved by Rowan University (CMSRU)" or “Views/opinions are my own.”

2. Members of the University (CMSRU) community may not access social media in a manner that interferes with or delays completion of their professional responsibilities.

3. The University (CMSRU) name and University (CMSRU) email addresses may not be used on social media sites and online forums for personal communication.

4. Members of the University (CMSRU) community may be held legally liable for what they post on their personal social media site(s) and should therefore refrain from any communications considered punishable under state or federal law.

5. Individual students and student organizations are expected to abide by the Student Code of Conduct. Students may be accountable to the University (CMSRU) for acts on personal social media site(s) that violate the Student Code of Conduct.

6. Any attempt by a member of the University (CMSRU) community to obscure his/her identity as a means to circumvent the prohibitions listed herein by representing himself/herself as another person, real or fictitious, is strictly prohibited.
C. All University (CMSRU)-affiliated social media may not be used for any commercial business, financial transactions, or interactions that would otherwise be considered irrelevant.

D. Rights and permissions must be secured before posting, sharing or distributing copyrighted materials, including but not limited to music, art, photographs, texts, portions of video, or information considered proprietary by a University (CMSRU) partner, vendor, affiliate or contractor. This does not include archives from University Relations, photos taken in a public venue, and photos in which individuals are not clearly identifiable.

E. Social media tools may not be used to communicate or store information classified as confidential or private or otherwise considered privileged or sensitive by the University (CMSRU); which compromises the privacy of a member of the University (CMSRU) community or its clients; or is considered confidential under applicable federal and state laws including HIPAA and FERPA.

F. Social media does not replace or otherwise eliminate the need to use the University’s (CMSRU’s) existing recruitment systems and processes for posting positions, collecting applications, conducting background checks, making offers of employment and other related activities.

6. Crisis Management

A. The catch-phrase, “If you see something, say something” should be a standard rule in social media monitoring. In the event that information surfaces on social media sites that is deemed as harassing or threatening in nature, or helpful in a crisis or investigation, it must be immediately reported to 911 and/or Public Safety at 856-256-4911 with the following if available:
   1. Screenshot(s) of and link to the communication.
   2. Username(s) of the person(s) involved in the communication.
   3. As much information about the incident as possible.

B. In the event of a crisis on campus, emergency messaging will be issued through the Department of Public Safety, the Office of Emergency Management, and/or the Office of the President, and distributed according to the University’s Emergency Response Team Communication Protocol. These messages will also be distributed on official University (CMSRU) social media accounts as needed.
   1. Rowan University:
      a. Facebook: https://www.facebook.com/RowanUniversity/
      b. Instagram: https://www.instagram.com/rowanuniversity/
      c. Twitter: https://twitter.com/rowanuniversity
   2. CMSRU:
      a. Facebook: https://www.facebook.com/coopermedschool
3. RowanSOM:
   a. Facebook: https://www.facebook.com/RowanSOM/
   b. Instagram: https://www.instagram.com/rowan_som/
   c. Twitter: https://twitter.com/rowansom

4. Share verbatim only the messaging provided by the aforementioned accounts to ensure only the correct information is disseminated. Do not share any information that does not come from any of the aforementioned University (CMSRU) sources.

5. Postpone/delete any previously scheduled social media content and refrain from posting unrelated information on social media until after the crisis.

6. If any social media messages could be used to help in a crisis, alert 911 or the Department of Public Safety immediately.

7. Additional Requirements for Medical School Communities
   
   A. Misrepresentation in any social media by any member of the CMSRU or RowanSOM communities, regarding the status of his/her credentials as a medical student or medical professional, is strictly prohibited.

   B. Specific Restrictions under HIPAA and FERPA for Medical Students

   1. Posting PHI on social media by any individual within the CMSRU or RowanSOM communities is strictly prohibited under the HIPAA regulations, which apply to any information related to patients.

      a. Never post a photograph or image of a patient to any electronic media, other than the patient’s electronic medical record unless directly requested by a CUHC attending physician. Use of cameras or cell phone cameras in the patient care setting shall be for the sole purpose of assisting in the care and education of the patient for educational purposes. Any photographs taken in the patient care setting must be posted to the patient’s electronic medical record.

      b. Removal of an individual’s name does not constitute proper de-identification of PHI. Inclusion of data such as age, gender, race, diagnosis, date of evaluation, type of treatment, or the use of a highly specific medical photograph (such as a before/after photograph of a patient having surgery or a photograph of a patient from medical outreach trips) may still allow the reader to recognize the identity of a specific individual.

      c. Never post derogatory or defamatory remarks about any patient (either current or past) to any social media, including any social media deemed to be “private.”
2. Posting of any student records on social media by any individual within the CMSRU or RowanSOM community is strictly prohibited under the FERPA regulations.

   a. FERPA-protected academic information of another medical student or trainee might include, but is not limited to, course or clerkship grades, narrative evaluations, examination scores, or adverse academic actions.

3. All individuals within the CMSRU and RowanSOM communities must take steps to ensure compliance with all federal and state laws and regulations, including HIPAA and FERPA, by ensuring that their social media has the appropriate privacy settings to avoid the inadvertent dissemination of confidential information, with the understanding that even if they limit the number of people who can see their personal information, others who have access to this information may share it more broadly.

4. Medical students may not “friend/follow,” engage or connect on social media with any patients they come in contact with in a clinical context, unless a friendship predates the clinical encounter. If a student has a friendship that predates the clinical encounter or thinks they may know the patient socially, they must recuse themselves from patient care. At all times, the disclosure of protected health information about patients on social media is strictly prohibited, including posts in the secure section of social media accounts that are accessible by approved friends, only.

5. The public disclosure or negative information about CMSRU, RowanSOM, or affiliated clinical rotation sites on social media increases the risk of liability to the University (CMSRU) and is clearly unprofessional. There are legitimate and confidential mechanisms for improving quality at a medical facility.

6. The specific sanctions to be imposed for non-compliance with HIPAA or FERPA laws and regulations, illegal activities, or violation of University/CMSRU/RowanSOM policies and procedures, will depend upon the severity and legal implications of the activity under review. Action will be initiated as appropriate in accordance with the classification of an individual (i.e., faculty, staff, medical student, resident, house staff, etc.) and, if necessary, the requirements of the individual’s licensing boards, as set forth in the applicable disciplinary procedures within the medical schools’ student handbooks. Discipline may range from simple counseling/guidance up to the risk of civil and/or criminal liability under applicable federal and state laws and regulations.

8. Non-Compliance and Sanctions

   A. Violations of this policy may result in the revocation of social media contact and account privileges.

   B. A disciplinary or other review may be initiated if any member of the University (CMSRU) community’s social media activity violates law or University (CMSRU) policy or otherwise subjects the University (CMSRU) to potential liability for such acts.
C. The purpose of this section is not intended to provide for the investigation of, or disciplinary action against, members of the University (CMSRU) community for the legal exercise of their First Amendment rights.

ATTACHMENTS
1. Attachment 1 - Definitions
2. Attachment 2 - References
Attachment 1 - Definitions

1. *Accessibility* refers to hardware and software technologies that help visually or physically impaired people to use the computer.

2. *CMSRU* means Cooper Medical School of Rowan University (CMSRU).

3. *Confidentiality* is the expectation that only authorized individuals, processes, and systems will have access to the University’s (CMSRU’s) information.

4. *Confidential Information* refers to the most sensitive information, which requires the strongest safeguards to reduce the risk of unauthorized access or loss. Unauthorized disclosure or access may: 1) subject University (CMSRU) to the risk of liability (for example, for violation of HIPAA and FERPA laws); 2) adversely affect its reputation; and 3) jeopardize its mission. See the Information Classification policy for additional information.

5. *Crisis* refers broadly to any real or perceived emergency, imminent threat, or timely warning which: 1) can negatively impact or seriously endanger members of the University (CMSRU) community; 2) requires immediate attention to minimize impact; 3) has significant impact on the operation or reputation of the University (CMSRU); and 4) results in extensive news coverage and public scrutiny. Examples include but are not limited to serious threats to life/property, hostage situations, weather, disease or health threat, natural disaster, assault, and civil unrest.

6. *HIPAA* refers to the Health Insurance Portability and Accountability Act, the federal law passed by Congress in 1996 that requires the protection and confidential handling of Protected Health Information (“PHI”).

7. *Faculty Member* means any person hired by the University (CMSRU) to conduct classroom or teaching activities or who is otherwise considered by the University (CMSRU) to be a full- or part-time or adjunct member of its faculty.

8. *FERPA* refers to the Family Education Rights and Privacy Act, a federal law that protects students’ privacy by prohibiting disclosure of students’ personally identifiable information (“PII”) within their education records, without the student’s consent.

9. *Integrity* is the expectation that the University’s (CMSRU’s) information will be protected from improper, unauthorized, destructive, or accidental changes.

10. *Medical Schools* means CMSRU and RowanSOM

11. *Medical Student* includes all persons pursuing medical studies at CMSRU or RowanSOM. Medical students who are not officially enrolled for a particular term but who have a continuing relationship with CMSRU or RowanSOM, such as medical students who were previously enrolled, withdraw/take a leave of absence, medical students participating in CMSRU or RowanSOM sponsored academic programs, and medical students who are serving a period of suspension, are considered “medical students.”

12. *Member of the University (CMSRU) Community* includes any person who is a student, faculty member, organization, alumni, volunteer, trustee, University (CMSRU) official, or any other person employed by the University (CMSRU).

13. *Organization* means any number of persons who have complied with the formal requirements for University (CMSRU) recognition. This term also applies to persons involved in petitioning for
recognition. (Greek Letter Organizations are also subject to the disciplinary procedures outlined in the Greek Handbook.)

14. **Personally Identifiable Information** (“PII”) means data or information which includes, but is not limited to: 1) the name of the medical student, the medical student’s parent, or other family members; 2) the address of the medical student or the medical student’s family; 3) a personal identifier such as a social security number or student number; or 4) a list of personal characteristics or other information which would make the medical student’s identity easily traceable.

15. **Private Information** refers to sensitive information that is restricted to authorized personnel and requires safeguards, but which does not require the same level of safeguards as confidential information protected from disclosure under federal and state laws such as FERPA and HIPAA. Unauthorized disclosure or access may present legal and reputational risks to the University (CMSRU). See the University's Information Classification policy for additional clarification.

16. **Professionalism** is a formal requirement for the education and training of both undergraduate and graduate medical students. CMSRU and RowanSOM expect individuals within the CMSRU and RowanSOM communities to strive to uphold the highest standards and personal behaviors, consistent with a respect for the medical profession, commencing with the first day of medical school. The Accreditation Council for Graduate Medical Education (“ACGME”) defines and outlines professionalism as one of the six ACGME Core Competencies as follows: commitment to carrying out professional responsibilities, adherence to ethical principles, and sensitivity to a diverse patient population. “Professionalism is the enactment of the values and ideals of individuals who are called, as physicians, to serve individuals and populations whose care is entrusted to them, prioritizing the interests of those they service above their own.” AAMC Professionalism Task Force.

17. **Protected Health Information** (“PHI”) means information that: 1) is created or received by a health care provider; and 2) relates to the past, present, or future physical or mental health or condition of an individual; the provision of health care to an individual; or the past, present, or future payment for the provision of health care to an individual; and (i) that identifies the individual; or (ii) with respect to which there is a reasonable basis to believe the information can be used to identify the individual. This guideline applies even if the patient’s information has been de-identified, so that the only person who may be able to identify the individual is the patient himself/herself.

18. RowanSOM means Rowan University (CMSRU) School of Osteopathic Medicine.

19. **Social Media** refer to any online tools and services that allow Internet users to create and publish content, or any facility for web- and mobile-based publication and commentary, including but not limited to blogs, wikis, RSS feeds, content-sharing services, interactive geo-location platforms and networking sites including but not limited to Facebook, Twitter, YouTube, Instagram, LinkedIn, Snapchat, Pinterest, Google+, Periscope, Flickr, and Wordpress.

20. **Social Media Contact** refers to any member of the University (CMSRU) community whose responsibilities include managing and/or maintaining a social media presence on behalf of the University (CMSRU) and/or who uses social media to engage in University (CMSRU)-affiliated communications.

21. **Social Media Officials** refer to people at the University (CMSRU) who delegate responsibilities to Social Media Contacts.

22. **Student** includes all persons enrolled in courses at Rowan University (CMSRU), both full-time and part-time, pursuing undergraduate or graduate studies, and those who live in campus living units. Persons
who are not officially enrolled for a particular term but who have a continuing relationship with the University (CMSRU), such as students who were previously enrolled, withdraw/take a leave of absence, persons participating in University (CMSRU) sponsored academic programs and students who are serving a period of suspension, are considered "students."

23. *University* means Rowan University and its Medical Schools.

24. *University-affiliated Social Media* refers to any social media presence intended to represent Rowan University (CMSRU) in any official or unofficial capacity.

25. *University Official* includes any person employed by Rowan University (CMSRU) to perform assigned administrative or professional responsibilities.

Facebook – an online social utility that connects people and organizations with friends and others who work, study, live and engage around them.

Flickr – a photo sharing website on which users can view, upload and share photos.

Google+ – integrated social platform that merges with other Google services including YouTube, Gmail and Google Search.

Instagram – a photo- and video-sharing network owned by Facebook that allows users to upload photos taken with a mobile device, apply special filters and share with their friends.

LinkedIn – a business-oriented online social utility that allows users to strengthen and extend their existing network of trusted professional contacts.

Periscope – a streaming service that lets users broadcast and explore the world through live video.

Pinterest – a website that allows users to “pin,” or bookmark, content they find interesting from around the web to categorized “boards” on their profiles.

Snapchat – a mobile app that allows users to capture videos and pictures and send messages that self-destruct.

Twitter – a real-time, micro-blogging and social utility service that allows users to send and read messages known as “tweets,” which are text-based posts containing no more than 140 characters.

Wordpress – an online, open source content management system, blogging platform, and website creation tool.

YouTube – a video-sharing website that makes it easy to search for and watch online videos.

Transmission of Sensitive Information Policy

CMSRU Adheres to the Rowan University Policy on the Transmission of Sensitive Information

POLICY:
Transmission of Sensitive Information Policy

PURPOSE:
This policy is required to comply with legal requirements regarding the protection of sensitive information in transit including, but not limited to Protected Health Information (PHI) and Personal Identifying Information (PII) from unauthorized access and to protect against data breaches. This policy sets forth requirements for the transmission or receipt of sensitive information on the Rowan University (CMSRU) network.

ACCOUNTABILITY:
Under the direction of the Vice President for Information Resources and Chief Information Officer, the Chief Information Officer and the Director of Information Security shall implement and ensure compliance with this policy. The Vice Presidents, Deans, and other members of management will also implement this policy in their respective areas.

SCOPE:
This policy applies to all Users accessing the Rowan (CMSRU) network or University (CMSRU) information through computing devices owned or managed the University (CMSRU). All University (CMSRU) faculty, students, staff, temporary employees, contractors, outside vendors and visitors to campus who have access to University (CMSRU)-owned or managed information through computing systems or devices are "Users."

DEFINITIONS:
1. "Encryption" – the process of transforming information using an algorithm to make it unreadable to anyone except those possessing special knowledge, usually referred to as a key.
2. "Personal Identifying Information" (PII) – Personal Identifying Information includes employer tax ID numbers, drivers' license numbers, passport numbers, SSNs, state identification card numbers, credit/debit card numbers, banking account numbers, PIN codes, digital signatures, biometric data, fingerprints, passwords, and any other numbers or info that can be used to access a person's financial resources.
3. "Protected Health Information" (PHI) – Information covered by the Health Insurance Portability and Accountability Act (HIPAA).
4. "Public Network" – Any network outside the Rowan University (CMSRU) network.
5. "Secure Backup" (Encryption Recommended) – The process of making a backup copy of information for the purpose of data recovery with security safeguards present to ensure the backup copy of the data remains protected from unauthorized access at all times. This may include physical protections as well as encryption to safeguard the backup information.

REFERENCES
1. HIPAA http://www.hhs.gov/ocr/privacy/hipaa/understanding/summary/
POLICY:

1. All sensitive information including Protected Health Information (PHI) and Personal Identifying Information (PII) (as defined below) that is transmitted or received by Rowan University’s (CMSRU’s) computer systems, including mobile devices, must be encrypted when transmitted over wireless or Public Networks, including when transmitted via FTP and electronic mail.

2. Examples of when encryption is required include, but are not limited to:
   a. A University (CMSRU) employee, student, contractor, or vendor sending or receiving the University’s (CMSRU's) PHI or PII using his/her home's Internet Service Provider (ISP) connection (e.g. cable company or DSL), unless both (a) using a VPN connection, and (b) transmitting only to a destination within the campus network;
   b. Any transmission of PHI or PII sent over any home, public, hotel, or the unsecured campus wireless network, unless both (a) using a VPN connection, and (b) transmitting only to a destination within the campus network. Use of the UNC-Secure campus wireless network does not require VPN as long as one is transmitting to a destination within the campus;
   c. A University (CMSRU) employee, student, contractor, or vendor sending or receiving the University’s (CMSRU's) PHI or PII to a destination address outside the campus network. (Encryption is required in this case, even if a VPN connection is used.);
   d. Any vendor transmissions of PHI or PII sent over the Internet; and
   e. Use of a PDA to transmit PHI or PII over a Public Network.

3. Encryption is not required for a University (CMSRU) employee who uses an on-campus workstation, with a wired connection to the University (CMSRU) network, to transmit a document to another University (CMSRU) User or to save a document containing PHI or PII to his/her University (CMSRU)-managed network folder.

NON-COMPLIANCE AND SANCTIONS
Violations of this policy may subject the violator to disciplinary actions, up to or including termination of employment or dismissal from a school, and may subject the violator to penalties stipulated in applicable state and federal statutes.
University Mass Notification Systems Policy

CMSRU Adheres to the Rowan University Policy on Mass Notifications

POLICY:
University Mass Notification Systems

PURPOSE:
The purpose of this policy is to define and limit when administrative and academic officials at Rowan University (CMSRU) can use Rowan Alert and Rowan Connect to send SMS text messages, voice over phone, and email.

ACCOUNTABILITY:
Under direction of the President, the Associate Vice President of Information Resources & Technology, the Vice President of University Relations and the Assistant Vice President for the Department of Public Safety, shall implement and ensure compliance with this policy. The Assistant Vice President for the Department of Public Safety and the Vice President of University Relations shall be responsible for utilization of Rowan Alert. The Rowan Connect Committee, chaired by the Associate VP of Information Resources & Technology, and consisting of management-level representatives from the Bursar's Office, IRT, Residential Learning & Inclusion, Strategic Enrollment Management, and Student Health Services, will be responsible for utilization of Rowan Connect.

SCOPE:
This policy is applicable to all Rowan Alert and Rowan Connect communications utilizing the Rowan University (CMSRU) network.

DEFINITIONS:
SMS - Short Message Service. SMS is a message system designed for cellular phones. Unlike email, SMS messages, commonly referred to as text messages, are sent to phone numbers, not addresses. They are routed through a gateway, which connects directly to the carrier's network. SMS is also identified as SMPP - Short Message Peer to Peer Protocol.

REFERENCES
1. IRT Rowan Connect website: https://confluence.rowan.edu/x/PAN0Aw
2. Rowan Emergency Information website: http://www.rowan.edu/emergency/

POLICY:
1. Rowan University (CMSRU) recognizes that communication to students and employees is critical to the success of the University (CMSRU), and that additional mediums of communication are needed to supplement electronic mail in situations that require rapid notification and response. Based on the increasing reach of mobile phones, Rowan Alert is utilized by the Department of Public Safety, Office of Emergency Management and University Relations solely for use in emergent situations, and Rowan Connect is utilized when an important deadline requiring action is approaching.

2. Subscriptions
   a. Rowan Alert and Rowan Connect are both subscription services that allow users to opt out of the system. Initially, all students and employees with mobile numbers in Banner are
opted-in to both services. All individuals are asked to update their mobile contact information via id.rowan.edu on a periodic basis as per user password reset guidelines.

b. All contact data is maintained in Banner, and transferred to Rowan Connect on a periodic basis. As new mobile numbers are transferred, a welcome text is sent to the subscriber, providing them with an option to remove themselves from Rowan Connect or stay connected. In the event that a person who is not affiliated with Rowan University (CMSRU) is contacted via SMS or voice over phone, the person or department responsible for the communication shall immediately inactivate the mobile or telephone record in Banner.

c. Rowan Alert is the University's (CMSRU’s) primary emergency alert notification system, maintaining a separate subscription process managed by the Department of Public Safety (DPS), Office of Emergency Management and University Relations. All faculty, staff, administrators and students will be required to provide their cell numbers to be used only by the DPS and only for Immediate and Emergency Notifications as set forth in Section C, following. Students will not be allowed to opt out of Rowan Alert. Faculty will be allowed to opt out of Rowan Alert only with the approval of the Provost. Staff will be allowed to opt out of Rowan Alert only with the approval of the Executive Vice President for Administration.

3. Acceptable Use Policy:

a. All communications to be sent via Rowan Alert or Rowan Connect will meet the following criteria:

   i. SMS should not be used for information the user will need to reference later, such as receipts or confirmation codes, and any information sent by SMS should be readily actionable in a short timeframe.

   ii. SMS is designed to supplement the communication methods currently used, and should not be used as the sole source of messaging.

   iii. All SMS messages will be targeted to the appropriate subset(s) of these populations for effectiveness, based on the content and applicability to the target audience(s).

   iv. The Department of Public Safety uses a number of message systems to deliver information to the Rowan Community, i.e. Short Message System (SMS), email, or a Daily Announcer. Selection of the message delivery used is dependent on whether the incident is currently occurring and poses an imminent threat to the Rowan community, or an incident that has already occurred, but requires timely notification.

1. Immediate and Emergency Notification - Rowan Alert (SMS) shall be used only by the Department of Public Safety, the Office of Emergency Management and University Relations for an event that is currently occurring when there is an emergency or significant threat to campus safety. All Immediate and Emergency Notifications using SMS, must be prefaced with "ROWAN ALERT" to clearly identify the emergency message. Rowan Alert is used for incidents that pose an immediate threat to the campus community, or in the event of an unscheduled and immediate university (CMSRU) closure, or evacuation of the campus. It is only for
this kind of notification that cell phone information required by the University (CMSRU) will be used.

2. Timely Warnings are sent through the University's mass notification system using the email feature, or through the Daily Announcer for events that have already occurred but still require notification to the Rowan community in a reasonable period of time. All Timely Warning messages sent must be prefaced with "TIMELY WARNING" to distinguish them. Timely warnings are required by applicable law to the campus community for any crime that "represents a serious or continuing threat to the students and employees" of the university (CMSRU). The incidents that require a timely warning according to the Clery Act are murder/non-negligent manslaughter, forcible sex offenses, robbery, aggravated assault, burglary, motor vehicle theft, major arson incidents or if the crime represents a serious or continuing threat to the university (CMSRU). Additionally, any hate crimes involving bodily injury or any of the previously listed crimes, that represent a continuing threat to the university (CMSRU) community require a timely warning. Any other crimes that represent a serious or continuing threat to the community may also have a timely warning issued for them and they will be assessed on a case-by-case basis, including consideration for Non-Stranger Sexual Assaults.

3. Rowan Advisory messages are sent through the University's mass notification system, using the email feature, the Daily Announcer, or SMS. All Rowan Advisory messages sent must be prefaced with "ROWAN ADVISORY" to distinguish them. This covers all other events, etc. that DO NOT fall under the previous titles and involve non-emergency situations. Examples include but not limited to:
   - Power Outage;
   - Traffic Advisory;
   - Building closures, etc.; and
   - Non-emergency closures, such as a closures due to weather events.

4. Rowan Connect shall be used only for urgent messages that require a timely action by the receiver, as there is an issue that may impact their status at the University (CMSRU) or have financial or negative consequences if not acted upon. Rowan Connect will not be used for emergency communications, but can be used if there could be a financial impact to the University (CMSRU), and/or when there is a belief that students or employees are at risk, to mitigate individual and institutional risk. All Rowan Alert messages sent must be prefaced with "ROWAN ADVISORY" to distinguish them.

5. All SMS messages will begin with "ROWAN ADVISORY", "ROWAN ALERT", "ROWAN CONNECT", or "TIMELY WARNING" to identify the service provider and avoid confusion.
4. Due Diligence and Compliance of University (CMSRU) Offices and Personnel: Rowan Connect features can be used to support any University (CMSRU) Office Personnel that can demonstrate an acceptable use to the Rowan Connect Committee. Personnel are expected to comply with communication submission requirements as provided by the Rowan Connect Administrators, including by not limited to the content, recipients, and department contact information. Offices should consult appropriate Administrator and IRT personnel for assistance as needed.

5. Non-compliance and Complaints – Rowan Connect: When a student or employee believes that Rowan Connect has not been used in accordance with this policy, he/she is encouraged to seek to resolve that concern informally by communicating their concern directly to the personnel or office which has sent the communication.

   a. In cases where an individual feels he/she would benefit from additional support or advocacy, or to initiate a formal complaint about non-compliance, he/she may contact the following offices:
      
      i. Dean of Students (students); and

      ii. Human Resources (employees).

6. Non-compliance and Complaints – Rowan Alert: When a student or employee believes that Rowan Alert has not been used in accordance with this policy, he/she is encouraged to seek to resolve that concern informally by communicating their concern directly to the office which has sent the communication, e.g.: The Department of Public Safety, Office of Emergency Management or University Relations.

   a. In cases where an individual feels he/she would benefit from additional support or advocacy, or to initiate a formal complaint about non-compliance, he/she may contact the following offices:
      
      i. The Vice President for University Relations; and

      ii. The Assistant Vice President for the Department of Public Safety.

RESPONSIBILITIES

1. Rowan Connect Committee

   a. The Rowan Connect Committee team is responsible to review and approve communication types to be sent by each department, to ensure that they meet the Acceptable Use Policy as defined below. The Committee members will also have the authorization to approve ad-hoc urgent message types that have not been reviewed and approved by the Committee. This will ensure that urgent messages can be delivered in a timely fashion, instead of waiting for the next regularly scheduled Committee meeting.

   b. The Committee will meet on a quarterly basis to do the following:
      
      • Review any modifications needed to the policy;

      • Review additional acceptable communication types and criteria for use by various departments across the university (CMSRU), including post-mortems for previous message types approved on an ad-hoc basis by committee members;
• Review usage of Rowan Connect for university (CMSRU) reporting, future licensing needs, and to address any concerns brought to the team's attention; and

• Review of summary of usage data to be presented to the Administrative Cabinet.

2. Rowan Connect Administrators

   a. Each department will identify two to three staff members who can serve as "Administrators", responsible for compiling and sending out messages as defined by the Acceptable Use Policy (above). These Administrators will also be responsible for sending out urgent messages for other departments, as approved by the Rowan Connect Committee.
Policies Related to Diversity, Equity, and Inclusion

Anti-Discrimination Policy

CMSRU Adheres to the Rowan University Policy for Anti-Discrimination

I. Purpose
Rowan University (CMSRU) is committed to providing every Rowan University (CMSRU) employee, prospective Rowan (CMSRU) employee, and student with a work and educational environment free from prohibited discrimination or harassment. This policy has been developed to reaffirm these principles and to provide recourse for those individuals whose rights have been violated.

II. Accountability
Supervisors and Managers are responsible for maintaining a discrimination and harassment-free work and educational environment. The Office of Employee Equity in Human Resources and the Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion are responsible for the promotion and implementation of this policy, as well as responding to any and all complaints of violations of this policy.

III. Applicability
As a New Jersey state institution, Rowan University (CMSRU) is subject to state legislation prohibiting discrimination, described more fully at N.J.A.C. 4A:7-3. This Policy, modeled after the New Jersey State Policy Prohibiting Discrimination in the Workplace, is applicable to all Rowan University (CMSRU) employees, prospective employees and students bringing forth complaints against university employees for alleged discrimination.

As a recipient of Federal financial assistance, Rowan University (CMSRU) is also subject to Title IX of the Education Amendments of 1972. Title IX is a federal law that prohibits sex discrimination in the University’s (CMSRU’s) programs and activities. It reads: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.” Student complaints of sexual misconduct against students and University (CMSRU) employees raise Title IX concerns and are therefore governed by the University’s (CMSRU’s) Policy Prohibiting Sexual Misconduct and Harassment. (https://confluence.rowan.edu/display/POLICY/Student+Sexual+Misconduct+and+Harassment+Policy).

Student Discrimination Complaints Against Other Students: Complaints by students against other students for all forms of discrimination based on protected classifications should be reported to the Associate Vice President of Diversity, Equity and Inclusion, who retains discretion to determine the most appropriate avenue of response, including but not limited to, coordination with other University (CMSRU) resources such as Residential Learning, the Office of Community Standards, or the Dean of Students/CMSRU Office of Student Affairs. (See: Office of Student Equity and Compliance, Complaint Form: https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16). Not all such allegations will warrant a full investigation, but the University (CMSRU) reserves the right to investigate any matter in which discrimination based on a protected class is asserted.

323
IV. Definitions

1. *Discrimination/Harassment in the Workplace or Educational Environment* means any employment or educational practice or procedure that treats an individual less favorably based upon any of the protected categories referred to below or as provided under applicable law. It is also a violation of this policy to use derogatory or demeaning references regarding the protected categories listed below or as provided under applicable law.

2. *Sexual Harassment in the Workplace* means unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when, for example:
   a. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment; or
   b. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
   c. Such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile or offensive working environment.

3. *Sexual Misconduct in the Educational Environment* means the forms of sexual misconduct set forth in the Policy Prohibiting Sexual Misconduct and Harassment. ([https://confluence.rowan.edu/display/POLICY/Student+Sexual+Misconduct+and+Harassment+Policy](https://confluence.rowan.edu/display/POLICY/Student+Sexual+Misconduct+and+Harassment+Policy)). All of the definitions and procedures set forth in that policy apply to such complaints. Prohibited conduct includes Non-Consensual Sexual Intercourse or Penetration (Rape), Non-Consensual Sexual Contact (Fondling), Sexual Exploitation, Intimate Partner Violence, Stalking, and Sexual/Gender-Based Harassment.

4. *Third Party Harassment* means unwelcome behavior involving any of the protected categories referred to in the policy below that is not directed at an individual but exists in the workplace and interferes with an individual’s ability to do his or her job.

5. *Retaliation* means adverse employment or educational consequences based upon that employee or student bringing forth a complaint, providing information for an investigation, testifying in any proceeding under this policy, or engaging in any other protected activity under this policy or under applicable law.

V. Standard of Evidence

A finding under this policy will be based on the preponderance of the evidence standard. In other words, a finding will be made if the evidence as a whole shows that is more likely than not that a violation of the policy occurred.

VI. Policy Statement

1. Protected Categories

Rowan University (CMSRU) is committed to providing every employee, prospective employee and student with a work and educational environment free from prohibited discrimination or harassment. Under this policy, forms of discrimination or harassment based upon the following protected categories are prohibited and will not be tolerated: race, creed, color, national origin, nationality, ancestry, age, sex/gender (including pregnancy), marital status, civil union status, domestic partnership status, familial status, religion, affectional or sexual orientation, gender
identity or expression, atypical hereditary cellular or blood trait, genetic information, liability for service in the Armed Forces of the United States, disability or any other protected classification (N.J.A.C. 4A:7-3.1).

To achieve the goal of maintaining a work and educational environment free from discrimination and harassment, Rowan University (CMSRU) strictly prohibits the conduct that is described in this policy. This is a zero tolerance policy. This means that the University (CMSRU) reserves the right to take either disciplinary action, if appropriate, or other corrective action, to address any unacceptable conduct that violates this policy, regardless of whether the conduct satisfies the legal definition of discrimination or harassment.

2. Applicability
Prohibited discrimination/harassment undermines the integrity of the employment relationship, compromises equal employment opportunity, debilitates morale and interferes with work productivity. Thus, this policy applies to all employees and applicants for employment at Rowan University (CMSRU). Similarly, discrimination/harassment undermines the integrity of the educational relationship and compromises a student’s ability to participate in and enjoy the benefits of the University’s (CMSRU’s) education program. Thus, this policy applies to student complaints alleging discrimination against University (CMSRU) employees, with the exception of sexual misconduct allegations, which are governed by the Policy Prohibiting Sexual Misconduct and Harassment.

The University (CMSRU) will not tolerate harassment or discrimination by anyone in the workplace or educational environment, including supervisors, co-workers, professors, adjunct faculty or persons doing business with the University (CMSRU), including vendors and third party consultants. This policy also applies to both conduct that occurs in the workplace or educational environment and conduct that occurs at any location which can be reasonably regarded as an extension of the workplace or educational environment (any field location, any off-site business-related social function, or any facility where Rowan University (CMSRU) business is being conducted and discussed).

This policy also applies to third party harassment. Third party harassment, or hostile environment harassment, is unwelcome behavior involving any of the protected categories referred to in section above that is not directed at an individual but exists in the workplace or educational environment and interferes with an individual’s ability to do his or her job or to participate in and enjoy the benefits of the education program. Third party harassment based upon any of the aforementioned protected categories is prohibited by this policy.

3. Prohibited Conduct
It is a violation of this policy to engage in any employment or educational practice or procedure that treats an individual less favorably based upon any of the protected categories referred to above. This policy pertains to all employment practices such as recruitment, selection, hiring, training, promotion, transfer, assignment, layoff, return from layoff, termination, demotion, discipline, compensation, fringe benefits, working conditions, and career development and to all educational practices such as grading student work, providing educational opportunities, and discipline.

It is also a violation of this policy to use derogatory or demeaning references regarding a person’s race, gender, age, religion, disability, affectional or sexual orientation, ethnic
background, or any other protected category set forth above. A violation of this policy can occur even if there was no intent on the part of an individual to harass or demean another.

a. Examples of behaviors that may constitute a violation of this policy include, but are not limited to:

i. Discriminating against an individual with regard to terms and conditions of employment or education because of being in one or more of the protected categories referred to above;

ii. Treating an individual differently because of the individual’s race, color, national origin or other protected category, or because an individual has the physical, cultural or linguistic characteristics of a racial, religious, or other protected category;

iii. Treating an individual differently because of marriage to, civil union to, domestic partnership with, or association with persons of a racial, religious or other protected category; or due to the individual’s membership in or association with an organization identified with the interests of a certain racial, religious or other protected category; or because an individual’s name, domestic partner’s name, or spouse’s name is associated with a certain racial, religious or other protected category;

iv. Calling an individual by an unwanted nickname that refers to one or more of the above protected categories, or telling jokes pertaining to one or more protected categories;

v. Using derogatory references with regard to any of the protected categories in any communication;

vi. Engaging in threatening, intimidating, or hostile acts toward another individual in the workplace or educational environment because that individual belongs to, or is associated with, any of the protected categories; or

vii. Displaying or distributing material (including electronic communications) in the workplace or educational environment that contains derogatory or demeaning language or images pertaining to any of the protected categories.

4. **Romantic Relationships with University (CMSRU) Employees**

a. Romantic/sexual relationships that occur in the context of employment supervision or evaluation present special problems. These types of romantic/sexual relationships are especially vulnerable to exploitation due to the difference in power and the respect and trust that are often present between a supervisor and a subordinate, or a senior and junior colleague in the same unit. Therefore, the University (CMSRU) strongly discourages romantic/sexual relationships between individuals where there is an imbalance of power where one individual is in a position to make decisions, which may affect the standing or employment or career of the other. A subordinate’s “voluntary” participation in a romantic/sexual relationship with an individual in a position of power or authority does not alone demonstrate that the conduct was welcome. A supervisor’s display of a romantic interest in a subordinate may constitute sexual harassment. Employees in romantic/sexual relationships must recuse
themselves from decision making when the decisions at issue may have an impact, either direct or indirect, on the employee with whom they are romantically involved. Those in a position of power who engage in a romantic or sexual relationship deemed unwelcome at any time by the other party may be in violation of this Policy and subject to investigation and possible disciplinary action.

b. Romantic/sexual relationships that occur in the student-professor context present special problems. These types of romantic/sexual relationships are especially vulnerable to exploitation due to the difference in power and the respect and trust that are often present between a professor and a student. Therefore, the University (CMSRU) strongly discourages romantic/sexual relationships between individuals where there is an imbalance of power where one individual is in a position to make decisions, which may affect the educational opportunities or standing of the other. A student's “voluntary” participation in a romantic/sexual relationship with an individual in a position of power or authority does not alone demonstrate that the conduct was welcome. Therefore, the attempts of a professor to show a romantic interest in a student may constitute sexual harassment. University (CMSRU) employees in romantic/sexual relationships must recuse themselves from decision making when the decisions at issue may have an impact, either direct or indirect, on the student with whom they are romantically/sexually involved. Those who abuse their power in such circumstances may be found to have violated this Policy. An abuse of power may be, but is not limited to, inflating a student's grade, or providing preferential academic opportunities to an individual based on a romantic or sexual relationship.

c. Any individual who engages in a consensual romantic or sexual relationship with someone over whom he or she has supervisory responsibility in the employment context, or educational responsibility in the educational context, must inform his or her immediate supervisor of the consensual relationship, so that the University (CMSRU) can take appropriate action to make changes that eliminate the conflict of interest. Failure to give proper notice to the appropriate supervisor may result in the denial of legal representation and indemnification in the event that a lawsuit based on the relationship is filed. In addition, failure to give proper notice to the appropriate supervisor may result in disciplinary action.

5. Sexual Harassment in the Workplace

a. It is a violation of this policy to engage in sexual (or gender-based) harassment of any kind, including hostile work environment harassment, quid pro quo harassment, or same-sex harassment. For the purposes of this policy, sexual harassment is defined, as in the Equal Employment Opportunity Commission Guidelines, as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when, for example:

i. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment;

ii. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
iii. Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

b. Examples of prohibited behaviors that may constitute sexual harassment and are therefore a violation of this policy include, but are not limited to

i. Generalized gender-based remarks and comments;

ii. Unwanted physical contact such as intentional touching, grabbing, pinching, brushing against another's body or impeding or blocking movement;

iii. Verbal, written or electronic sexually suggestive or obscene comments, jokes or propositions including letters, notes, e-mail, text messages, invitations, gestures or inappropriate comments about a person's clothing;

iv. Visual contact, such as leering or staring at another's body; gesturing; displaying sexually suggestive objects, cartoons, posters, magazines or pictures of scantily-clad individuals; or displaying sexually suggestive material on a bulletin board, on a locker room wall, or on a screen saver;

v. Explicit or implicit suggestions of sex by a supervisor or manager in return for a favorable employment action such as hiring, compensation, promotion, or retention;

vi. Suggesting or implying that failure to accept a request for a date or sex would result in an adverse employment consequence with respect to any employment practice such as performance evaluation or promotional opportunity; or

vii. Continuing to engage in certain behaviors of a sexual nature after an objection has been raised by the target of such inappropriate behavior.

6. Student Responsibilities

Any student who believes that she or he has been subjected to any form of prohibited discrimination/harassment by an employee, or who witnesses other students being subjected to such discrimination/harassment, is encouraged to promptly report the incident(s) to the Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion. (Complaint Form: https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16).

7. Employee Responsibilities

Any employee who believes that she or he has been subjected to any form of prohibited discrimination/harassment, or who witnesses others being subjected to such discrimination/harassment, is encouraged to promptly report the incident(s) to a supervisor or directly to the Office of Employee Equity in Human Resources. (Complaint Form: Civil Service Employees – https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf; non-Civil Service Employees – https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf).

Any employee who receives a complaint from a student that she or he has been subjected to any form of prohibited discrimination/harassment by an employee, or who witnesses students being subjected to such discrimination/harassment, is encouraged to promptly report the incident(s) to the Office of Student Equity & Compliance in the Division of Diversity, Equity

All employees are expected to cooperate with investigations undertaken pursuant to the Procedures for Internal Discrimination/Harassment Complaints below. Failure to cooperate in an investigation may result in administrative and/or disciplinary action, up to and including termination of employment.

8. **Supervisor Responsibilities**

Supervisors shall make every effort to maintain a work or educational environment that is free from any form of prohibited discrimination/harassment. Supervisors shall immediately refer allegations of prohibited discrimination/harassment made by employees to the Office of Employee Equity in Human Resources and allegations made by students to the Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion.

A supervisor’s failure to comply with these requirements may result in administrative and/or disciplinary action, up to and including termination of employment. For purposes of this Policy, a supervisor is defined broadly to include any manager or other individual who has authority to control the work environment of any other staff member (for example, a project leader).

9. **Dissemination**

The University (CMSRU) shall annually distribute the policy described in this section, or a summarized notice of it, to all of its employees and students, including part-time and seasonal employees. The policy can be accessed on the Rowan University website [https://sites.rowan.edu/equity/policies.html](https://sites.rowan.edu/equity/policies.html) or a hardcopy can be obtained from the Office of Employee Equity in Human Resources. Rowan University (CMSRU) will distribute the policy to vendors/contractors with whom it has a direct relationship.

10. **Complaint Process**

Rowan University (CMSRU) follows the Model Procedures for Processing Internal Discrimination Complaints with regard to reporting, investigating, and where appropriate, remediating claims of discrimination/harassment (See Procedures for Internal Discrimination / Harassment Complaints, below, and N.J.A.C. 4A:7-3.2).

The Office of Employee Equity in Human Resources is responsible for receiving and investigating complaints of discrimination/harassment made by employees against employees and third parties. The Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion is responsible for receiving and investigating complaints of discrimination/harassment made by students against employees and third parties.

All investigations of discrimination/harassment claims shall be conducted in a way that respects, to the extent possible, the privacy of all the persons involved. The investigations shall be conducted in a prompt, thorough and impartial manner. The results of the investigations of complaints against employees shall be forwarded to the Rowan University Vice President of Human Resources (or his/her authorized designee) to make a final decision as to whether a violation of the policy has been substantiated.

Where a violation of this policy is found to have occurred, Rowan University (CMSRU) shall take prompt and appropriate remedial action to stop the behavior and deter its reoccurrence. The University (CMSRU) shall also have the authority to take prompt and appropriate
remedial action, such as moving two employees or employees and students apart, before a final determination has been made regarding whether a violation of this policy has occurred.

The remedial action taken may include counseling, training, intervention, mediation, and/or the initiation of disciplinary action up to and including termination of employment.

Rowan University (CMSRU) shall maintain a written record of the discrimination/harassment complaints received. Written records shall be maintained as confidential records to the extent practicable and appropriate.

11. Prohibition Against Retaliation

a. Retaliation against any employee or student who alleges that she or he was the victim of discrimination/harassment, provides information in the course of an investigation into claims of discrimination/harassment in the workplace or educational environment, or opposes a discriminatory practice, is prohibited by this policy. No employee or student bringing a complaint, providing information for an investigation, or testifying in any proceeding under this policy shall be subjected to adverse employment or other consequences based upon such involvement or be the subject of other retaliation.

b. Following are examples of prohibited actions taken against an employee or student because the employee or student has engaged in activity protected by this subsection:

   i. Termination of an employee;

   ii. Failing to promote an employee;

   iii. Altering an employee’s work or a student’s course assignment for reasons other than legitimate business or educational reasons;

   iv. Imposing or threatening to impose disciplinary action on an employee or student for reasons other than legitimate business or educational reasons;

   v. Ostracizing an employee or student (for example, excluding an employee or student from an activity or privilege offered or provided to all other employees or students); or

   vi. Imposing a poor grade or evaluation of a student for other than legitimate educational reasons.

12. False Accusations and Information:

An employee who knowingly makes a false accusation of prohibited discrimination/harassment or knowingly provides false information in the course of an investigation of a complaint, may be subjected to administrative and/or disciplinary action, up to and including termination of employment. Similarly, a student who knowingly makes a false accusation of prohibited discrimination/harassment or knowingly provides false information in the course of an investigation of a complaint, may be subjected to discipline under the Student Code of Conduct. Complaints made in good faith, however, even if found to be unsubstantiated, shall not be considered a false accusation.

13. Confidentiality:

All complaints and investigations shall be handled, to the extent possible, in a manner that will protect the privacy interests of those involved, and the University (CMSRU) will strive to
prevent any unnecessary disruption to the work or educational environment. To the extent practical and appropriate under the circumstances, confidentiality shall be maintained throughout the investigatory process. In the course of an investigation, it may be necessary to discuss the claims with the person(s) against whom the complaint was filed and other persons who may have relevant knowledge or who have a legitimate need to know about the matter. All persons interviewed, including witnesses, shall be directed not to discuss any aspect of the investigation with others in light of the important privacy interests of all concerned. Failure to comply with this confidentiality directive may result in administrative and/or disciplinary action, up to and including termination of employment or student discipline in accord with the Student Code of Conduct.

14. **Administrative and/or Disciplinary Action:**
   Any employee found to have violated any portion or portions of this policy may be subject to appropriate administrative and/or disciplinary action which may include, but which shall not be limited to – referral for training, referral for counseling, written or verbal reprimand, suspension, reassignment, demotion or termination of employment. Referral to another appropriate authority for review for possible violation of State and Federal statutes may also be appropriate.

15. **Training:**
   Rowan University (CMSRU) shall provide all new employees with training on the policy and procedures set forth in this section within a reasonable period of time after each new employee’s appointment date. Refresher training shall be provided to all employees, including supervisors, within a reasonable period of time. The University (CMSRU) shall also provide supervisors with training on a regular basis regarding their obligations and duties under the policy and regarding procedures set forth in this section.

**VII. Procedures for Internal Discrimination/Harassment Complaints**

The following procedures are adapted from the New Jersey Model Procedures for Internal Complaints Alleging Discrimination in the Workplace, N.J.A.C. 4A:7-3.2. Rowan University (CMSRU) will follow the procedures below in the receipt and investigation of discrimination complaints.

a. All employees, applicants for employment, and students have the right and are encouraged to immediately report suspected violations of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment (as adapted from N.J.A.C. 4A:7-3.1).

b. Complaints of prohibited discrimination/harassment made by employees against employees should be reported to the Assistant Vice President of Employee Equity & Labor Relations and/or HR Investigation Manager in Human Resources, or to any supervisory employee of Rowan University (CMSRU). (Complaint Form: Civil Service Employees – [https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf](https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf); non-Civil Service Employees – [https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf](https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf)). Complaints of prohibited discrimination/harassment made by students against employees should be reported to the Associate Vice President of Diversity, Equity and Inclusion or the DEI Investigation Manager in the Division of Diversity, Equity and Inclusion. (Complaint Form: [https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16](https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16)).
c. Every effort should be made to report complaints promptly. Delays in reporting may not only hinder a proper investigation, but may also unnecessarily subject the victim to continued prohibited conduct.

d. Supervisory employees shall immediately report all alleged violations of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment. Complaints made by employees shall be reported to the Assistant Vice President of Employee Equity & Labor Relations and/or HR Investigation Manager in Human Resources. Complaints made by students shall be reported to the Associate Vice President of Diversity, Equity and Inclusion or DEI Investigation Manager in the Division of Diversity, Equity and Inclusion. Such a report shall include both alleged violations reported to a supervisor, and those alleged violations directly observed by the supervisor.

e. If reporting a complaint to any of the persons set forth in paragraphs b. or d. above presents a conflict of interest, Civil Service employees can file the complaint directly with the Division of EEO/AA, P.O. Box 315, Trenton, NJ 08625, and non-Civil Service employees can file a complaint directly with the Associate Vice President of Human Resources. An example of such a conflict would be where the individual against whom the complaint is made is involved in the intake, investigative or decision-making process.

f. In order to facilitate a prompt, thorough and impartial investigation, all employee complainants are encouraged to submit a Complaint Form, which can be found at: Civil Service Employees – [https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf](https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf); non-Civil Service Employees – [https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf](https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf). Student complainants are encouraged to submit a Complaint Form, which can be found at [https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16](https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16). An investigation may be conducted whether or not the form is completed.

g. To the extent required, Rowan University (CMSRU) shall maintain a written record of the discrimination/harassment complaints received. Written records shall be maintained as confidential records to the extent practicable and appropriate. A copy of all complaints (regardless of the format in which submitted) must be submitted to the Civil Service Commission, Division of EEO/AA, by the University’s Office of Employee Equity, along with a copy of the acknowledgement letter(s) sent to the person(s) who filed the complaint and, if applicable, the complaint notification letter sent to the person(s) against whom the complaint has been filed. If a written complaint has not been filed, the Office of Employee Equity must submit to the Division of EEO/AA a brief summary of the allegations that have been made. Copies of complaints filed with the New Jersey Division on Civil Rights, the U.S. Equal Employment Opportunity Commission, or in court also must be submitted to the Division of EEO/AA.

h. During the initial intake of a complaint, the representative of the Office of Employee Equity or representative from the Office of Student Equity & Compliance, or an authorized designee, will obtain information regarding the complaint, and determine if interim corrective measures are necessary to prevent continued violations of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment.
i. At the discretion of the Assistant Vice President of Employee Equity & Labor Relations or Associate Vice President of Diversity, Equity and Inclusion, whichever is applicable, a prompt, thorough, and impartial investigation into the alleged harassment or discrimination will take place.

j. An investigatory report will be prepared by the Assistant Vice President of Employee Equity & Labor Relations or the Associate Vice President of Diversity, Equity and Inclusion, whichever is applicable, or his or her designee, when the investigation is completed. The report will include, at a minimum:

   i. A summary of the complaint;
   
   ii. A summary of the parties’ positions;
   
   iii. A summary of the facts developed through the investigation; and
   
   iv. An analysis of the allegations and the facts

   The investigatory report will be submitted to the President’s designee, the Vice President of Human Resources (or his/her authorized designee), who will issue a final letter of determination to the parties.

k. The President’s designee (or his/her authorized designee) will review the investigatory report issued by the Assistant Vice President of Employee Equity & Labor Relations or the Associate Vice President of Diversity, Equity and Inclusion, whichever is applicable, or his or her authorized designee, and make a determination as to whether the allegation of a violation of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment has been substantiated. If a violation has occurred, the President’s designee (or his/her authorized designee) will refer the matter to the Assistant Vice President of Employee Equity & Labor Relations to determine the appropriate corrective measures necessary to immediately remedy the violation.

l. The President’s designee (or his/her authorized designee) will issue a final letter of determination to both the complainant(s) and the person(s) against whom the complaint was filed, setting forth the results of the investigation and the right of appeal as set forth in the Paragraphs below. To the extent possible, the privacy of all parties involved in the process shall be maintained in the final letter of determination. The Civil Service Commission, Division of EEO/AA shall be furnished with a copy of the final letter of determination.

   i. The letter shall include, at a minimum:

      1. A brief summary of the parties’ positions;
      
      2. A brief summary of the facts developed during the investigation; and
      
      3. An explanation of the determination, which shall include whether:

         a. The allegations were either substantiated or not substantiated; and
         
         b. A violation of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment did or did not occur.
ii. The investigation of a complaint shall be completed and a final letter of determination shall be issued no later than 120 days after the initial intake of the complaint is completed.

iii. The time for completion of the investigation and issuance of the final letter of determination may be extended by Rowan University (CMSRU) for up to 60 additional days in cases involving exceptional circumstances. When applicable, the Office of Employee Equity shall provide the Division of EEO/AA and all parties with written notice of any extension and shall include in the notice an explanation of the exceptional circumstances supporting the extension.

m. A complainant who is in the career, unclassified or senior executive service, or who is an applicant for employment, who disagrees with the determination of the President’s designee (or his/her authorized designee), may submit a written appeal to the New Jersey Civil Service Commission (“NJCSC”), Division of Merit System Practices and Labor Relations, Written Record Appeals Unit, P.O. Box 312, Trenton, NJ 08625-0312, postmarked or delivered within 20 days of the receipt of the determination from the President’s designee (or his/her authorized designee). The appeal shall be in writing and include all materials presented by the complainant at the University (CMSRU) level, the final letter of determination, the reason for the appeal and the specific relief requested. Please be advised that there is a fee for appeals. Please include a check or money order along with the appeal, payable to NJCSC. Persons receiving public assistance and those qualifying for NJCSC Veterans Preference are exempt from this fee.

i. Civil Service employees filing appeals which raise issues for which there is another specific appeal procedure must utilize those procedures. The Civil Service Commission may require any appeal, which raises issues of alleged discrimination and other issues, such as examination appeals, to be processed using the procedures set forth in this section or a combination of procedures as the Commission deems appropriate. See N.J.A.C. 4A:2-1.7.

ii. If an appeal under this policy raises issues concerning the employee not receiving an advancement appointment, the Commission shall decide those issues in the course of its determination.

iii. The Civil Service Commission shall decide the appeal on a review of the written record or such other proceeding as it deems appropriate. See N.J.A.C. 4A:2-1.1(d).

iv. The appellant shall have the burden of proof in all discrimination appeals brought before the Civil Service Commission.

n. In a case where a violation has been substantiated, and no disciplinary action recommended, the party(ies) against whom the complaint was filed, and who are in the career, unclassified or senior executive service, may appeal the determination to the Civil Service Commission at the address indicated above, within 20 days of receipt of the final letter of determination by the President’s designee (or his/her authorized designee).

i. The burden of proof shall be on the appellant.

ii. The appeal shall be in writing and include the final letter of determination, the reason for the appeal, and the specific relief requested.
iii. If disciplinary action has been recommended in the final letter of determination, the party(ies) charged, who are in the career, unclassified or senior executive service may appeal using the procedures set forth in N.J.A.C. 4A:2-2 (Major Discipline) and 3 (Minor Discipline and Grievances).

o. A complainant or respondent (an individual against whom the complaint was filed) who is NOT in the career, unclassified or senior executive service, or who is NOT an applicant for employment, or who is a student of Rowan University (CMSRU), who disagrees with the determination of the President’s designee (or his/her authorized designee), may submit a written appeal to the Chief of Staff, postmarked or delivered within 20 days of the receipt of the determination from the President's designee (or his/her authorized designee). The appeal shall be in writing, presented by the complainant or respondent to the Chief of Staff, with a copy to the Assistant Vice President of Employee Equity & Labor Relations in Human Resources, as set forth below. The Chief of Staff (or his/her authorized designee) may or may not elect to review a decision. The Chief of Staff (or his/her authorized designee) shall respond to a request for review within 15 days.

i. The complainant or respondent may request an appeal of the determination only if the complainant or respondent is able to produce new information not previously submitted or can produce information demonstrating that the determination was arbitrary and capricious. This means that the determination will be considered for review only if new information exists or if information exists demonstrating that the determination was invalid because it was made on unreasonable grounds or without consideration of the circumstances.

ii. The complainant or respondent should send either the new information or a brief explanation of why they believe the finding is arbitrary and capricious based upon the facts presented to the Chief of Staff (with a copy to the Assistant Vice President of Employee Equity & Labor Relations in Human Resources) within 20 days of receipt of the determination letter. The appeal shall be in writing and shall include only those materials supporting the request for review and the specific relief requested. You need not include the original materials submitted with the complaint or in response to the complaint as these documents will be provided by the original office to whom the complaint was submitted. The Chief of Staff (or his/her authorized designee) may elect to review the materials only if it is believed the determination is arbitrary and capricious, or if the new materials were not previously considered in the original determination.

iii. The appellant shall have the burden of proof in all discrimination appeals brought before the Chief of Staff (or his/her authorized designee).

p. When required, the Division of EEO/AA shall be placed on notice of, and given the opportunity to submit comments on, appeals filed with the Civil Service Commission of decisions on discrimination complaints, regardless of whether or not the complaint was initially filed directly with the Division of EEO/AA.

VIII. **External Agencies**

Any employee or applicant for employment can file a complaint directly with external agencies that investigate discrimination/harassment charges in addition to utilizing this internal procedure. The timeframes for filing complaints with external agencies indicated below are provided for
informational purposes only. An individual should contact the specific agency to obtain exact timeframes for filing a complaint. The deadlines run from the date of the last incident of alleged discrimination/harassment, not from the date that the final letter of determination is issued by the President’s designee (or his/her authorized designee).

Diversity Policy

DIVERSITY STATEMENT

Cooper Medical School of Rowan University (CMSRU) is committed to providing an academic and work environment that respects the contributions, talent, and diverse experiences of all of our students, faculty, and staff. Our core values include a commitment to diversity and inclusion, patient advocacy and the underserved. We embrace the philosophy that excellence in medical education, research, and clinical practice is best achieved through promoting diversity in its broadest definition and maintaining an academic and work environment free of discrimination. We pledge to build and sustain a learning community where diversity is celebrated, and to foster access to medical education to learners from all segments of society. We consider inclusivity to be a responsibility of everyone in our learning environment.

It is the goal of CMSRU to increase the number of students and faculty members from those groups underrepresented in medicine (URM), as well as in women in positions of leadership and in the higher academic ranks. It is also our goal to create an academic environment that is welcoming and respectful of diversity of all.

DIVERSITY POLICY

PURPOSE:
Diversity is essential to fulfilling the CMSRU mission of improving the health of our community and in achieving our vision of being a leader in medical education, research, and clinical practice with an emphasis on healthcare for underserved populations. CMSRU is committed to recruiting students, staff and faculty from diverse backgrounds with experiences that best match our mission to serve the needs of our community. Furthermore, CMSRU is invested in providing a learning environment that is enhanced by the exchange of varied viewpoints that increase awareness of health care disparities and increase interest in service and civic responsibility.

POLICY:
CMSRU provides opportunities for learners from disadvantaged backgrounds and those who are underrepresented in medicine to gain information about health careers and programming to advance their knowledge/skillset to pursue those professions; these educational programs are inclusive in nature, and extend beyond CMSRU. Included are “pipeline” programs that span elementary school through undergraduate years. In addition to traditional entry pathways to medical school, CMSRU provides alternate routes for individuals from underrepresented in medicine/disadvantaged backgrounds (see definition below) to gain acceptance to CMRSU through partnering institutions and pipeline programs. CMSRU is equally committed to the recruitment, development and retention of qualified faculty/staff from underrepresented backgrounds.

CMSRU is dedicated to providing an academic and work environment that respects the contributions, talent, and diverse experiences of all of our students, faculty and staff. Our core values include a commitment to: mentorship, diversity and inclusion, professionalism, patient advocacy, personal wellness, the underserved and scholarship.

SCOPE:
This policy applies to all applicants, students, faculty and staff of CMSRU.

DEFINITIONS:
The following groups who are underrepresented in medicine are the focus of CMSRU’s recruitment and retention efforts to achieve mission-appropriate diversity outcomes among students, faculty, and senior administrative staff.

- Students: Hispanic/Latino, Black/African American, women and financially disadvantaged. Although not underrepresented in medicine, an additional focus group for CMSRU is Asian/Asian Indian. This reflects the changing demographics in New Jersey and the United States in general.

- Faculty/Staff: Hispanic/Latino, Black/African American, and women

- Senior Administrative Staff: deans, departmental chairs, directors, and managers Hispanic/Latino, Black/African American, and women

PROCEDURE:
CMSRU incorporates social justice and diversity in all of its functions including admissions, student affairs, faculty affairs, academic affairs, clinical practices, curriculum, research, and community service.

The CMSRU Office of Diversity and Community Affairs (ODCA) engages faculty, students, and staff to develop and maintain an environment which embraces and respects the diverse educational and larger community. It creates partnerships to establish priorities and ensures that social justice, inclusion, and cultural competence are promoted within the institution and our larger community. The ODCA collaborates with hospitals, physician practices, universities, community colleges, elementary, middle and secondary schools, nongovernmental organizations, regional and community organizations to develop initiatives that will further improve the healthcare experience for disadvantaged communities, such as the creation of a pipeline to medical professions and community service programs. In addition, collaborations are sought to further our commitment to diversity and decrease health disparities in the community and surrounding region. The ODCA works with the Office of Faculty Affairs to broaden recruitment and retention efforts of diverse faculty members. The Committee for Diversity in the Learning Environment supports the efforts of the ODCA in monitoring achievement of diversity initiatives and contributes information and programming recommendations to guide the diversity strategic planning process.

To ensure diversity, the following are monitored on a regular basis as part of the CMSRU strategic planning process and continuous quality improvement:

- Progress of pipeline participants to graduation/health professions
- Recruitment, acceptances and retention of URM students/staff/faculty as defined above
- Support for diversity programs
- Faculty engagement in diversity and mentoring programs
- Diversity efforts of departmental chairs (URM - resident recruitment, faculty recruitment and retention, faculty promotions)
- Cultural content in curriculum
Student Mistreatment Policy

POLICY:
Cooper Medical School of Rowan University (CMSRU) is committed to promoting student success in an atmosphere dependent upon mutual respect, collegiality, fairness, trust, and accountability within its respective community. The Liaison Committee on Medical Education (LCME) states, “Mistreatment, either intentional or unintentional, occurs when behavior shows disrespect for the dignity of others and unreasonably interferes with the learning process.” Student mistreatment, abuse, harassment, intimidation or bullying will not be tolerated. If a student alleges mistreatment or becomes aware of an incident of mistreatment by a member of the CMSRU community, they are encouraged to follow this policy. CMSRU adheres to the standards described in the AAMC Teacher-Learner Compact (See Teacher-Learner Interaction Policy). Students are expected to abide by the tenets of the Professional Conduct Policy.

PURPOSE:
To establish procedural guidelines for faculty, staff and students in the event of alleged mistreatment in the course of the teacher-learner relationship or other relationships facilitated within the CMSRU community.

SCOPE:
This policy applies to all CMSRU medical students and those who serve as teacher, mentor or other CMSRU community member with whom students interact throughout all years and areas of the educational experience.

DEFINITIONS:
Inappropriate behavior or situations CMSRU deems unacceptable include:

- Unwelcome physical contact, including any physical mistreatment or assaults such as hitting, slapping, kicking, or threats of the same nature;
- Verbal abuse (to attack in words, or to publicly speak insultingly, or unjustly, of a student);
- Inappropriate or unprofessional criticism that belittles, or causes embarrassment or humiliation to a student;
- Requiring a student to perform menial tasks intended to humiliate, control, or intimidate the student;
- Unreasonable requests for a student to perform personal services;
- Retaliatory behavior such as grading or assigning tasks to punish a student rather than evaluating or assessing a student’s performance;
- Sexual assault and harassment (Policy on Sexual Harassment and Misconduct); and
- Discrimination based on race, religion, ethnicity, sex, age, sexual orientation, gender identity or expression, or disability.
- Harassment, intimidation, or bullying is defined as any written or verbal gesture or physical act and is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability or by any other distinguishing characteristic, that occurs on school property or Cooper University Health Care (CUHC), at any CMSRU sponsored function or in a Rowan University Public Safety vehicle, and,
- a). Will have the effect of harming a student or damaging the student's property, or placing a student in reasonable fear of harm to his person or damage to his property; or

340
STUDENT COMPLAINT PROCEDURE

REPORTING: An allegation of mistreatment is considered as confidential and will be handled as such. It is strongly suggested students submit an electronic Mistreatment Report in real-time for all mistreatment related events to ensure proper follow-up and resolution. A student can confidentially report an incident by using any of the following methods of reporting:

Online/Anonymous Reporting Student Mistreatment Reporting Form

- Office of Student Affairs
  - Erin Pukenas, MD; Assistant Dean for Student Affairs, pukenas@rowan.edu
  - Marion Lombardi, EdD; Chief Student Affairs Officer, lombardim@rowan.edu
- Office of Diversity and Community Affairs
  - Jocelyn Mitchell-Williams, MD; Associated Dean for Diversity and Community Affairs, williamsjo@rowan.edu
- CMSRU Ombuds Office
  - Debrah Meislich, MD, Ombudsperson, http://cmsru.rowan.edu/students/ombuds/
- Title IX Coordinator
  - Marion Lombardi, EdD; Chief Student Affairs Officer, lombardim@rowan.edu
- Disabilities/Accommodations
  - Marion Lombardi, EdD; Chief Student Affairs Officer, lombardim@rowan.edu
- Course and Clerkship Evaluations
  - Issues of mistreatment can be voiced through the course and clerkship evaluations at the end of the course
- Deans and Directors
  - To provide easier reporting, students may report an incident to any Dean or Director they feel comfortable in approaching
  - The Dean or Director will then disseminate the complaint to the Assistant Dean for Student Affairs or designee

COMPLAINT INVESTIGATION AND RESOLUTION: The Office of Student Affairs and The Office of Medical Education are responsible for the oversight of mistreatment of students. After a mistreatment report is filed, the appropriate parties will review the complaint and determine the course of action based on the severity and circumstances of the incident. If the event is reported via a course or clerkship evaluation, it will be addressed with the respective departments and faculty. In the event of an electronic mistreatment submission, the student where identified, will be contacted within three (3) business days confirming receipt of the complaint. The student, where self-identified, will participate in the investigatory process. An action plan will be formulated as soon as possible and within ten (10) days of completion of the investigational report.

RETAIATION: Threats, other forms of intimidation, and retaliation against a student for bringing a complaint of mistreatment or for assisting another in bringing a complaint are prohibited. Reporting mistreatment will have no impact on a student’s performance evaluation and retaliation against those reporting mistreatment or participating in an investigation of mistreatment is regarded as a form of
mistreatment. Complaints of retaliation will be handled in accordance with the complaint resolution procedures in this policy or, if applicable, may be forwarded to the appropriate CMSRU administrator for handling.

**MALICIOUS ACCUSATIONS:** A complainant or witness found to have been dishonest or malicious in making allegations at any point during the investigation process may be subject to disciplinary action.

**ADDITIONAL NOTES:**

1. This process does not apply to the students' personal preferences regarding the faculty/professional staff members' physical appearance, personal values, sexual orientation, or the right to academic freedom or the freedom of expression.
2. In all grievance matters, to the extent possible, the student will be responsible for documentation of their allegations.
3. To ensure the protection of the parties' privacy, the process and all documentation will be completely confidential.
4. All students, faculty, professional staff, department chairs, supervisors, deans and directors are expected to follow the steps outlined in this policy.

**ANTI-BULLYING BILL OF RIGHTS ACT**

Policy Prohibiting Discrimination in the Workplace and Educational Environment

CMSRU Adheres to the Rowan University Policy Prohibiting Discrimination in the Workplace and Educational Environment

POLICY:
Policy Prohibiting Discrimination in the Workplace and Educational Environment (formerly: Policy Prohibiting Discrimination in the Workplace)

PURPOSE:
Rowan University (CMSRU) is committed to providing every Rowan University (CMSRU) employee, prospective Rowan employee, and student with a work and educational environment free from prohibited discrimination or harassment. This policy has been developed to reaffirm these principles and to provide recourse for those individuals whose rights have been violated.
ACCOUNTABILITY:
Supervisors and Managers are responsible for maintaining a discrimination and harassment-free work and educational environment. The Office of Employee Equity in Human Resources and the Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion are responsible for the promotion and implementation of this policy, as well as responding to any and all complaints of violations of this policy.

SCOPE:
As a New Jersey state institution, Rowan University (CMSRU) is subject to state legislation prohibiting discrimination, described more fully at N.J.A.C. 4A:7-3. This Policy, modeled after the New Jersey State Policy Prohibiting Discrimination in the Workplace, is applicable to all Rowan University (CMSRU) employees, prospective employees and students bringing forth complaints against university (CMSRU) employees for alleged discrimination.

As a recipient of Federal financial assistance, Rowan University (CMSRU) is also subject to Title IX of the Education Amendments of 1972. Title IX is a federal law that prohibits sex discrimination in the University’s (CMSRU’s) programs and activities. It reads: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.” Student complaints of sexual misconduct against students and University (CMSRU) employees raise Title IX concerns and are therefore governed by the University’s (CMSRU’s) Policy Prohibiting Sexual Misconduct and Harassment. (https://confluence.rowan.edu/display/POLICY/Student+Sexual+Misconduct+and+Harassment+Policy).

Student Discrimination Complaints Against Other Students: Complaints by students against other students for all forms of discrimination based on protected classifications should be reported to the Associate Vice President of Diversity, Equity and Inclusion, who retains discretion to determine the most appropriate avenue of response, including but not limited to, coordination with other University resources such as Residential Learning, the Office of Community Standards, or the Dean of Students/CMSRU Office of Student Affairs. (See: Office of Student Equity and Compliance, Complaint Form: https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16). Not all such allegations will warrant a full investigation, but the University (CMSRU) reserves the right to investigate any matter in which discrimination based on a protected class is asserted.

DEFINITIONS:
1. *Discrimination/Harassment in the Workplace or Educational Environment* means any employment or educational practice or procedure that treats an individual less favorably based upon any of the protected categories referred to below or as provided under applicable law. It is also a violation of this policy to use derogatory or demeaning references regarding the protected categories listed below or as provided under applicable law.

2. *Sexual Harassment in the Workplace* means unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when, for example:
   a. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment; or
   b. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
   c. Such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile or offensive working environment.
3. **Sexual Misconduct in the Educational Environment** means the forms of sexual misconduct set forth in the Policy Prohibiting Sexual Misconduct and Harassment. ([https://confluence.rowan.edu/display/POLICY/Student+Sexual+Misconduct+and+Harassment+Policy](https://confluence.rowan.edu/display/POLICY/Student+Sexual+Misconduct+and+Harassment+Policy)). All of the definitions and procedures set forth in that policy apply to such complaints. Prohibited conduct includes Non-Consensual Sexual Intercourse or Penetration (Rape), Non-Consensual Sexual Contact (Fondling), Sexual Exploitation, Intimate Partner Violence, Stalking, and Sexual/Gender-Based Harassment.

4. **Third Party Harassment** means unwelcome behavior involving any of the protected categories referred to in the policy below that is not directed at an individual but exists in the workplace and interferes with an individual’s ability to do his or her job.

5. **Retaliation** means adverse employment or educational consequences based upon that employee or student bringing forth a complaint, providing information for an investigation, testifying in any proceeding under this policy, or engaging in any other protected activity under this policy or under applicable law.

**STANDARD OF EVIDENCE:**
A finding under this policy will be based on the preponderance of the evidence standard. In other words, a finding will be made if the evidence as a whole shows that is more likely than not that a violation of the policy occurred.

**POLICY STATEMENT:**
1. **Protected Categories**
   Rowan University (CMSRU) is committed to providing every employee, prospective employee and student with a work and educational environment free from prohibited discrimination or harassment. Under this policy, forms of discrimination or harassment based upon the following protected categories are prohibited and will not be tolerated: race, creed, color, national origin, nationality, ancestry, age, sex/gender (including pregnancy), marital status, civil union status, domestic partnership status, familial status, religion, affectional or sexual orientation, gender identity or expression, atypical hereditary cellular or blood trait, genetic information, liability for service in the Armed Forces of the United States, disability or any other protected classification (N.J.A.C. 4A:7-3.1).

   To achieve the goal of maintaining a work and educational environment free from discrimination and harassment, Rowan University (CMSRU) strictly prohibits the conduct that is described in this policy. This is a zero tolerance policy. This means that the University (CMSRU) reserves the right to take either disciplinary action, if appropriate, or other corrective action, to address any unacceptable conduct that violates this policy, regardless of whether the conduct satisfies the legal definition of discrimination or harassment.

2. **Applicability**
   Prohibited discrimination/harassment undermines the integrity of the employment relationship, compromises equal employment opportunity, debilitates morale and interferes with work productivity. Thus, this policy applies to all employees and applicants for employment at Rowan University (CMSRU). Similarly, discrimination/harassment undermines the integrity of the educational relationship and compromises a student’s ability to participate in and enjoy the benefits of the University’s (CMSRU’s) education program. Thus, this policy applies to student complaints alleging discrimination against University (CMSRU) employees, with the exception of sexual
misconduct allegations, which are governed by the Policy Prohibiting Sexual Misconduct and Harassment.

The University (CMSRU) will not tolerate harassment or discrimination by anyone in the workplace or educational environment, including supervisors, co-workers, professors, adjunct faculty or persons doing business with the University (CMSRU), including vendors and third party consultants. This policy also applies to both conduct that occurs in the workplace or educational environment and conduct that occurs at any location which can be reasonably regarded as an extension of the workplace or educational environment (any field location, any off-site business-related social function, or any facility where Rowan University (CMSRU) business is being conducted and discussed).

This policy also applies to third party harassment. Third party harassment, or hostile environment harassment, is unwelcome behavior involving any of the protected categories referred to in section above that is not directed at an individual but exists in the workplace or educational environment and interferes with an individual’s ability to do his or her job or to participate in and enjoy the benefits of the education program. Third party harassment based upon any of the aforementioned protected categories is prohibited by this policy.

3. **Prohibited Conduct**

   a. It is a violation of this policy to engage in any employment or educational practice or procedure that treats an individual less favorably based upon any of the protected categories referred to above. This policy pertains to all employment practices such as recruitment, selection, hiring, training, promotion, transfer, assignment, layoff, return from layoff, termination, demotion, discipline, compensation, fringe benefits, working conditions, and career development and to all educational practices such as grading student work, providing educational opportunities, and discipline.

   It is also a violation of this policy to use derogatory or demeaning references regarding a person’s race, gender, age, religion, disability, affectional or sexual orientation, ethnic background, or any other protected category set forth above. A violation of this policy can occur even if there was no intent on the part of an individual to harass or demean another.

   b. Examples of behaviors that may constitute a violation of this policy include, but are not limited to:

      i. Discriminating against an individual with regard to terms and conditions of employment or education because of being in one or more of the protected categories referred to above;

      ii. Treating an individual differently because of the individual’s race, color, national origin or other protected category, or because an individual has the physical, cultural or linguistic characteristics of a racial, religious, or other protected category;

      iii. Treating an individual differently because of marriage to, civil union to, domestic partnership with, or association with persons of a racial, religious or other protected category; or due to the individual’s membership in or association with an organization identified with the interests of a certain racial, religious or other
protected category; or because an individual’s name, domestic partner’s name, or spouse’s name is associated with a certain racial, religious or other protected category;

iv. Calling an individual by an unwanted nickname that refers to one or more of the above protected categories, or telling jokes pertaining to one or more protected categories;

v. Using derogatory references with regard to any of the protected categories in any communication;

vi. Engaging in threatening, intimidating, or hostile acts toward another individual in the workplace or educational environment because that individual belongs to, or is associated with, any of the protected categories; or

vii. Displaying or distributing material (including electronic communications) in the workplace or educational environment that contains derogatory or demeaning language or images pertaining to any of the protected categories.

4. Romantic Relationships with University (CMSRU) Employees

a. Romantic/sexual relationships that occur in the context of employment supervision or evaluation present special problems. These types of romantic/sexual relationships are especially vulnerable to exploitation due to the difference in power and the respect and trust that are often present between a supervisor and a subordinate, or a senior and junior colleague in the same unit. Therefore, the University (CMSRU) strongly discourages romantic/sexual relationships between individuals where there is an imbalance of power where one individual is in a position to make decisions, which may affect the standing or employment or career of the other. A subordinate’s “voluntary” participation in a romantic/sexual relationship with an individual in a position of power or authority does not alone demonstrate that the conduct was welcome. A supervisor’s display of a romantic interest in a subordinate may constitute sexual harassment. Employees in romantic/sexual relationships must recuse themselves from decision making when the decisions at issue may have an impact, either direct or indirect, on the employee with whom they are romantically involved. Those in a position of power who engage in a romantic or sexual relationship deemed unwelcome at any time by the other party may be in violation of this Policy and subject to investigation and possible disciplinary action.

b. Romantic/sexual relationships that occur in the student-professor context present special problems. These types of romantic/sexual relationships are especially vulnerable to exploitation due to the difference in power and the respect and trust that are often present between a professor and a student. Therefore, the University (CMSRU) strongly discourages romantic/sexual relationships between individuals where there is an imbalance of power where one individual is in a position to make decisions, which may affect the educational opportunities or standing of the other. A student's “voluntary” participation in a romantic/sexual relationship with an individual in a position of power or authority does not alone demonstrate that the conduct was welcome. Therefore, the attempts of a professor to show a romantic interest in a student may constitute sexual harassment. University (CMSRU) employees in romantic/sexual relationships must recuse themselves from decision making when the decisions at issue may have an impact, either direct or indirect, on the student with whom they are romantically/sexually involved. Those who abuse their
power in such circumstances may be found to have violated this Policy. An abuse of power may be, but is not limited to, inflating a student's grade, or providing preferential academic opportunities to an individual based on a romantic or sexual relationship.

c. Any individual who engages in a consensual romantic or sexual relationship with someone over whom he or she has supervisory responsibility in the employment context, or educational responsibility in the educational context, must inform his or her immediate supervisor of the consensual relationship, so that the University (CMSRU) can take appropriate action to make changes that eliminate the conflict of interest. Failure to give proper notice to the appropriate supervisor may result in the denial of legal representation and indemnification in the event that a lawsuit based on the relationship is filed. In addition, failure to give proper notice to the appropriate supervisor may result in disciplinary action.

5. Sexual Harassment in the Workplace

a. It is a violation of this policy to engage in sexual (or gender-based) harassment of any kind, including hostile work environment harassment, quid pro quo harassment, or same-sex harassment. For the purposes of this policy, sexual harassment is defined, as in the Equal Employment Opportunity Commission Guidelines, as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when, for example:

   i. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual’s employment;

   ii. Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or

   iii. Such conduct has the purpose or effect of unreasonably interfering with an individual’s work performance or creating an intimidating, hostile or offensive working environment.

b. Examples of prohibited behaviors that may constitute sexual harassment and are therefore a violation of this policy include, but are not limited to:

   i. Generalized gender-based remarks and comments;

   ii. Unwanted physical contact such as intentional touching, grabbing, pinching, brushing against another's body or impeding or blocking movement;

   iii. Verbal, written or electronic sexually suggestive or obscene comments, jokes or propositions including letters, notes, e-mail, text messages, invitations, gestures or inappropriate comments about a person's clothing;

   iv. Visual contact, such as leering or staring at another's body; gesturing; displaying sexually suggestive objects, cartoons, posters, magazines or pictures of scantily-clad individuals; or displaying sexually suggestive material on a bulletin board, on a locker room wall, or on a screen saver;

   v. Explicit or implicit suggestions of sex by a supervisor or manager in return for a favorable employment action such as hiring, compensation, promotion, or retention;
vi. Suggesting or implying that failure to accept a request for a date or sex would result in an adverse employment consequence with respect to any employment practice such as performance evaluation or promotional opportunity; or

vii. Continuing to engage in certain behaviors of a sexual nature after an objection has been raised by the target of such inappropriate behavior.

6. **Student Responsibilities**

Any student who believes that she or he has been subjected to any form of prohibited discrimination/harassment by an employee, or who witnesses other students being subjected to such discrimination/harassment, is encouraged to promptly report the incident(s) to the Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion. (Complaint Form: https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16).

7. **Employee Responsibilities**

Any employee who believes that she or he has been subjected to any form of prohibited discrimination/harassment, or who witnesses others being subjected to such discrimination/harassment, is encouraged to promptly report the incident(s) to a supervisor or directly to the Office of Employee Equity in Human Resources. (Complaint Form: Civil Service Employees – https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf; non-Civil Service Employees – https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf).

Any employee who receives a complaint from a student that she or he has been subjected to any form of prohibited discrimination/harassment by an employee, or who witnesses students being subjected to such discrimination/harassment, is encouraged to promptly report the incident(s) to the Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion. (Complaint Form: https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16).

All employees are expected to cooperate with investigations undertaken pursuant to the Procedures for Internal Discrimination/Harassment Complaints below. Failure to cooperate in an investigation may result in administrative and/or disciplinary action, up to and including termination of employment.

8. **Supervisor Responsibilities**

Supervisors shall make every effort to maintain a work or educational environment that is free from any form of prohibited discrimination/harassment. Supervisors shall immediately refer allegations of prohibited discrimination/harassment made by employees to the Office of Employee Equity in Human Resources and allegations made by students to the Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion.

A supervisor’s failure to comply with these requirements may result in administrative and/or disciplinary action, up to and including termination of employment. For purposes of this Policy, a supervisor is defined broadly to include any manager or other individual who has authority to control the work environment of any other staff member (for example, a project leader).

9. **Dissemination**

The University (CMSRU) shall annually distribute the policy described in this section, or a summarized notice of it, to all of its employees and students, including part-time and seasonal employees. The policy can be accessed on the Rowan University
website [https://sites.rowan.edu/equity/policies.html](https://sites.rowan.edu/equity/policies.html) or a hardcopy can be obtained from the Office of Employee Equity in Human Resources. Rowan University (CMSRU) will distribute the policy to vendors/contractors with whom it has a direct relationship.

10. **Complaint Process**
Rowan University (CMSRU) follows the Model Procedures for Processing Internal Discrimination Complaints with regard to reporting, investigating, and where appropriate, remediating claims of discrimination/harassment (See Procedures for Internal Discrimination / Harassment Complaints, below, and N.J.A.C. 4A:7-3.2).

The Office of Employee Equity in Human Resources is responsible for receiving and investigating complaints of discrimination/harassment made by employees against employees and third parties. The Office of Student Equity & Compliance in the Division of Diversity, Equity and Inclusion is responsible for receiving and investigating complaints of discrimination/harassment made by students against employees and third parties.

All investigations of discrimination/harassment claims shall be conducted in a way that respects, to the extent possible, the privacy of all the persons involved. The investigations shall be conducted in a prompt, thorough and impartial manner. The results of the investigations of complaints against employees shall be forwarded to the Rowan University Vice President of Human Resources (or his/her authorized designee) to make a final decision as to whether a violation of the policy has been substantiated.

Where a violation of this policy is found to have occurred, Rowan University (CMSRU) shall take prompt and appropriate remedial action to stop the behavior and deter its reoccurrence. The University (CMSRU) shall also have the authority to take prompt and appropriate remedial action, such as moving two employees or employees and students apart, before a final determination has been made regarding whether a violation of this policy has occurred.

The remedial action taken may include counseling, training, intervention, mediation, and/or the initiation of disciplinary action up to and including termination of employment.

Rowan University (CMSRU) shall maintain a written record of the discrimination/harassment complaints received. Written records shall be maintained as confidential records to the extent practicable and appropriate.

11. **Prohibition Against Retaliation**

   a. Retaliation against any employee or student who alleges that she or he was the victim of discrimination/harassment, provides information in the course of an investigation into claims of discrimination/harassment in the workplace or educational environment, or opposes a discriminatory practice, is prohibited by this policy. No employee or student bringing a complaint, providing information for an investigation, or testifying in any proceeding under this policy shall be subjected to adverse employment or other consequences based upon such involvement or be the subject of other retaliation.

   b. Following are examples of prohibited actions taken against an employee or student because the employee or student has engaged in activity protected by this subsection:

      i. Termination of an employee;
ii. Failing to promote an employee;

iii. Altering an employee’s work or a student’s course assignment for reasons other than legitimate business or educational reasons;

iv. Imposing or threatening to impose disciplinary action on an employee or student for reasons other than legitimate business or educational reasons;

v. Ostracizing an employee or student (for example, excluding an employee or student from an activity or privilege offered or provided to all other employees or students); or

vi. Imposing a poor grade or evaluation of a student for other than legitimate educational reasons.

12. False Accusations and Information: An employee who knowingly makes a false accusation of prohibited discrimination/harassment or knowingly provides false information in the course of an investigation of a complaint, may be subjected to administrative and/or disciplinary action, up to and including termination of employment. Similarly, a student who knowingly makes a false accusation of prohibited discrimination/harassment or knowingly provides false information in the course of an investigation of a complaint, may be subjected to discipline under the Student Code of Conduct. Complaints made in good faith, however, even if found to be unsubstantiated, shall not be considered a false accusation.

13. Confidentiality: All complaints and investigations shall be handled, to the extent possible, in a manner that will protect the privacy interests of those involved, and the University (CMSRU) will strive to prevent any unnecessary disruption to the work or educational environment. To the extent practical and appropriate under the circumstances, confidentiality shall be maintained throughout the investigatory process. In the course of an investigation, it may be necessary to discuss the claims with the person(s) against whom the complaint was filed and other persons who may have relevant knowledge or who have a legitimate need to know about the matter. All persons interviewed, including witnesses, shall be directed not to discuss any aspect of the investigation with others in light of the important privacy interests of all concerned. Failure to comply with this confidentiality directive may result in administrative and/or disciplinary action, up to and including termination of employment or student discipline in accord with the Student Code of Conduct.

14. Administrative and/or Disciplinary Action: Any employee found to have violated any portion or portions of this policy may be subject to appropriate administrative and/or disciplinary action which may include, but which shall not be limited to – referral for training, referral for counseling, written or verbal reprimand, suspension, reassignment, demotion or termination of employment. Referral to another appropriate authority for review for possible violation of State and Federal statutes may also be appropriate.

15. Training: Rowan University (CMSRU) shall provide all new employees with training on the policy and procedures set forth in this section within a reasonable period of time after each new employee’s appointment date. Refresher training shall be provided to all employees, including supervisors, within a reasonable period of time. The University (CMSRU) shall also provide supervisors with training on a regular basis regarding their obligations and duties under the policy and regarding procedures set forth in this section.

PROCEDURES FOR INTERNAL DISCRIMINATION/HARASSMENT COMPLAINTS:
The following procedures are adapted from the New Jersey Model Procedures for Internal Complaints Alleging Discrimination in the Workplace, N.J.A.C. 4A:7-3.2. Rowan University (CMSRU) will follow the procedures below in the receipt and investigation of discrimination complaints.

a. All employees, applicants for employment, and students have the right and are encouraged to immediately report suspected violations of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment (as adapted from N.J.A.C. 4A:7-3.1).

b. Complaints of prohibited discrimination/harassment made by employees against employees should be reported to the Assistant Vice President of Employee Equity & Labor Relations and/or HR Investigation Manager in Human Resources, or to any supervisory employee of Rowan University (CMSRU). (Complaint Form: Civil Service Employees – https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf; non-Civil Service Employees – https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf). Complaints of prohibited discrimination/harassment made by students against employees should be reported to the Associate Vice President of Diversity, Equity and Inclusion or the DEI Investigation Manager in the Division of Diversity, Equity and Inclusion. (Complaint Form: https://cm.maxient.com/reportingform.php?RowanUniv&layout_id=16).

c. Every effort should be made to report complaints promptly. Delays in reporting may not only hinder a proper investigation, but may also unnecessarily subject the victim to continued prohibited conduct.

d. Supervisory employees shall immediately report all alleged violations of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment. Complaints made by employees shall be reported to the Assistant Vice President of Employee Equity & Labor Relations and/or HR Investigation Manager in Human Resources. Complaints made by students shall be reported to the Associate Vice President of Diversity, Equity and Inclusion or DEI Investigation Manager in the Division of Diversity, Equity and Inclusion. Such a report shall include both alleged violations reported to a supervisor, and those alleged violations directly observed by the supervisor.

e. If reporting a complaint to any of the persons set forth in paragraphs b. or d. above presents a conflict of interest, Civil Service employees can file the complaint directly with the Division of EEO/AA, P.O. Box 315, Trenton, NJ 08625, and non-Civil Service employees can file a complaint directly with the Associate Vice President of Human Resources. An example of such a conflict would be where the individual against whom the complaint is made is involved in the intake, investigative or decision-making process.

f. In order to facilitate a prompt, thorough and impartial investigation, all employee complainants are encouraged to submit a Complaint Form, which can be found at: Civil Service Employees – https://sites.rowan.edu/equity/_docs/discrimination_complaint_form.pdf; non-Civil Service Employees – https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf, https://sites.rowan.edu/equity/_docs/policies/non-discrimination-complaint-form.pdf. Student complainants are encouraged to submit a Complaint Form, which can be found
An investigation may be conducted whether or not the form is completed.

g. To the extent required, Rowan University (CMSRU) shall maintain a written record of the discrimination/harassment complaints received. Written records shall be maintained as confidential records to the extent practicable and appropriate. A copy of all complaints (regardless of the format in which submitted) must be submitted to the Civil Service Commission, Division of EEO/AA, by the University’s Office of Employee Equity, along with a copy of the acknowledgement letter(s) sent to the person(s) who filed the complaint and, if applicable, the complaint notification letter sent to the person(s) against whom the complaint has been filed. If a written complaint has not been filed, the Office of Employee Equity must submit to the Division of EEO/AA a brief summary of the allegations that have been made. Copies of complaints filed with the New Jersey Division on Civil Rights, the U.S. Equal Employment Opportunity Commission, or in court also must be submitted to the Division of EEO/AA.

h. During the initial intake of a complaint, the representative of the Office of Employee Equity or representative from the Office of Student Equity & Compliance, or an authorized designee, will obtain information regarding the complaint, and determine if interim corrective measures are necessary to prevent continued violations of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment.

i. At the discretion of the Assistant Vice President of Employee Equity & Labor Relations or Associate Vice President of Diversity, Equity and Inclusion, whichever is applicable, a prompt, thorough, and impartial investigation into the alleged harassment or discrimination will take place.

j. An investigatory report will be prepared by the Assistant Vice President of Employee Equity & Labor Relations or the Associate Vice President of Diversity, Equity and Inclusion, whichever is applicable, or his or her designee, when the investigation is completed. The report will include, at a minimum:

   i. A summary of the complaint;
   ii. A summary of the parties’ positions;
   iii. A summary of the facts developed through the investigation; and
   iv. An analysis of the allegations and the facts

   The investigatory report will be submitted to the President’s designee, the Vice President of Human Resources (or his/her authorized designee), who will issue a final letter of determination to the parties.

k. The President’s designee (or his/her authorized designee) will review the investigatory report issued by the Assistant Vice President of Employee Equity & Labor Relations or the Associate Vice President of Diversity, Equity and Inclusion, whichever is applicable, or his or her authorized designee, and make a determination as to whether the allegation of a violation of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment has been substantiated. If a violation has occurred, the President’s designee (or his/her authorized designee) will refer the matter to
the Assistant Vice President of Employee Equity & Labor Relations to determine the appropriate corrective measures necessary to immediately remedy the violation.

l. The President’s designee (or his/her authorized designee) will issue a final letter of determination to both the complainant(s) and the person(s) against whom the complaint was filed, setting forth the results of the investigation and the right of appeal as set forth in the Paragraphs below. To the extent possible, the privacy of all parties involved in the process shall be maintained in the final letter of determination. The Civil Service Commission, Division of EEO/AA shall be furnished with a copy of the final letter of determination.

i. The letter shall include, at a minimum:

1. A brief summary of the parties’ positions;
2. A brief summary of the facts developed during the investigation; and
3. An explanation of the determination, which shall include whether:
   a. The allegations were either substantiated or not substantiated; and
   b. A violation of the Rowan University (CMSRU) Policy Prohibiting Discrimination in the Workplace and Educational Environment did or did not occur.

ii. The investigation of a complaint shall be completed and a final letter of determination shall be issued no later than 120 days after the initial intake of the complaint is completed.

iii. The time for completion of the investigation and issuance of the final letter of determination may be extended by Rowan University (CMSRU) for up to 60 additional days in cases involving exceptional circumstances. When applicable, the Office of Employee Equity shall provide the Division of EEO/AA and all parties with written notice of any extension and shall include in the notice an explanation of the exceptional circumstances supporting the extension.

m. A complainant who is in the career, unclassified or senior executive service, or who is an applicant for employment, who disagrees with the determination of the President’s designee (or his/her authorized designee), may submit a written appeal to the New Jersey Civil Service Commission ("NJCSC"), Division of Merit System Practices and Labor Relations, Written Record Appeals Unit, P.O. Box 312, Trenton, NJ 08625-0312, postmarked or delivered within 20 days of the receipt of the determination from the President’s designee (or his/her authorized designee). The appeal shall be in writing and include all materials presented by the complainant at the University level, the final letter of determination, the reason for the appeal and the specific relief requested. Please be advised that there is a fee for appeals. Please include a check or money order along with the appeal, payable to NJCSC. Persons receiving public assistance and those qualifying for NJCSC Veterans Preference are exempt from this fee.

i. Civil Service employees filing appeals which raise issues for which there is another specific appeal procedure must utilize those procedures. The Civil Service Commission may require any appeal, which raises issues of alleged discrimination and other issues, such as examination appeals, to be processed using the procedures
set forth in this section or a combination of procedures as the Commission deems appropriate. See N.J.A.C. 4A:2-1.7.

ii. If an appeal under this policy raises issues concerning the employee not receiving an advancement appointment, the Commission shall decide those issues in the course of its determination.

iii. The Civil Service Commission shall decide the appeal on a review of the written record or such other proceeding as it deems appropriate. See N.J.A.C. 4A:2-1.1(d).

iv. The appellant shall have the burden of proof in all discrimination appeals brought before the Civil Service Commission.

n. In a case where a violation has been substantiated, and no disciplinary action recommended, the party(ies) against whom the complaint was filed, and who are in the career, unclassified or senior executive service, may appeal the determination to the Civil Service Commission at the address indicated above, within 20 days of receipt of the final letter of determination by the President’s designee (or his/her authorized designee).

i. The burden of proof shall be on the appellant.

ii. The appeal shall be in writing and include the final letter of determination, the reason for the appeal, and the specific relief requested.

iii. If disciplinary action has been recommended in the final letter of determination, the party(ies) charged, who are in the career, unclassified or senior executive service may appeal using the procedures set forth in N.J.A.C. 4A:2-2 (Major Discipline) and 3 (Minor Discipline and Grievances)

o. A complainant or respondent (an individual against whom the complaint was filed) who is NOT in the career, unclassified or senior executive service, or who is NOT an applicant for employment, or who is a student of Rowan University (CMSRU), who disagrees with the determination of the President’s designee (or his/her authorized designee), may submit a written appeal to the Chief of Staff, postmarked or delivered within 20 days of the receipt of the determination from the President's designee (or his/her authorized designee). The appeal shall be in writing, presented by the complainant or respondent to the Chief of Staff, with a copy to the Assistant Vice President of Employee Equity & Labor Relations in Human Resources, as set forth below. The Chief of Staff (or his/her authorized designee) may or may not elect to review a decision. The Chief of Staff (or his/her authorized designee) shall respond to a request for review within 15 days.

i. The complainant or respondent may request an appeal of the determination only if the complainant or respondent is able to produce new information not previously submitted or can produce information demonstrating that the determination was arbitrary and capricious. This means that the determination will be considered for review only if new information exists or if information exists demonstrating that the determination was invalid because it was made on unreasonable grounds or without consideration of the circumstances.

ii. The complainant or respondent should send either the new information or a brief explanation of why they believe the finding is arbitrary and capricious based upon the facts presented to the Chief of Staff (with a copy to the Assistant Vice President
of Employee Equity & Labor Relations in Human Resources) within 20 days of receipt of the determination letter. The appeal shall be in writing and shall include only those materials supporting the request for review and the specific relief requested. You need not include the original materials submitted with the complaint or in response to the complaint as these documents will be provided by the original office to whom the complaint was submitted. The Chief of Staff (or his/her authorized designee) may elect to review the materials only if it is believed the determination is arbitrary and capricious, or if the new materials were not previously considered in the original determination.

iii. The appellant shall have the burden of proof in all discrimination appeals brought before the Chief of Staff (or his/her authorized designee).

p. When required, the Division of EEO/AA shall be placed on notice of, and given the opportunity to submit comments on, appeals filed with the Civil Service Commission of decisions on discrimination complaints, regardless of whether or not the complaint was initially filed directly with the Division of EEO/AA.

EXTERNAL AGENCIES

Any employee or applicant for employment can file a complaint directly with external agencies that investigate discrimination/harassment charges in addition to utilizing this internal procedure. The timeframes for filing complaints with external agencies indicated below are provided for informational purposes only. An individual should contact the specific agency to obtain exact timeframes for filing a complaint. The deadlines run from the date of the last incident of alleged discrimination/harassment, not from the date that the final letter of determination is issued by the President’s designee (or his/her authorized designee).

Preferred Name Policy

CMSRU adheres to the Rowan University Preferred Name Policy

POLICY:
Preferred Name Policy

PURPOSE:
The purpose of this policy is to enable members of the campus community including students, faculty and staff to use and be known by a preferred name that affirms, reflects, and/or expresses their gender, culture, and/or other aspects of their social identity in the classroom and to conduct general business at the University (CMSRU).

ACCOUNTABILITY:
The Assistant Dean of Student Affairs and the Chief Student Affairs Officer/Title IX Coordinator, and Registrar shall ensure compliance with this policy.

SCOPE:
This policy is applicable to all students, faculty and staff at the University (CMSRU).

DEFINITIONS:
1. Preferred Name – The name by which a person wishes to be known and to have appear in University (CMSRU) systems and when conducting day-to-day University (CMSRU) business because it affirms that individual's gender, culture and other aspects of social identity. The preferred name will consist of a preferred first name, and preferred middle name when provided. The preferred name does not affect the individual's last name, which must remain the person's legal name.

2. Legal Name – The name that is recorded on an individual's legal identification and used on formal legal records at the University (CMSRU).

POLICY:
1. Rowan University (CMSRU) recognizes that many individuals use and are known by a name other than their legal name due to their gender identity, cultural background or other aspects of their social or personal identity.

2. To the maximum possible extent, faculty, staff, and students of Rowan University (CMSRU) should be allowed to use, be known by, and be called by the name that affirms that person's gender, culture and social identity. All University (CMSRU) offices and personnel are expected to respect a person's request to be known by their preferred name and to use that name when interacting with individuals who have followed the process outlined in this policy. This expectation covers all areas of the University (CMSRU) including academic instruction, advising, student life and other University (CMSRU) business.

3. Rowan University (CMSRU) will make good faith efforts to display preferred names to the University (CMSRU) community where feasible and appropriate, and to update the reports, documents and systems designated to use preferred names. The University (CMSRU) will not guarantee that the preferred name will appear in all locations or in all circumstances.

4. Use of Legal Name:
a. The University (CMSRU) will not use the preferred name on documents or in systems that require the use of the legal name for legal or business related reasons. The individual's legal name will continue to be used for these records, which include but are not limited to the following:
   i. Admissions records;
   ii. Official transcripts;
   iii. Enrollment verifications;
   iv. Employment and personnel records;
   v. Paychecks and tax documents;
   vi. Financial aid records;
   vii. Medical records;
   viii. Disciplinary records; and
   ix. Law enforcement records.

b. In order for an individual to change the name used for these records, they will be required to submit appropriate documentation of a legal name change. The process for changing a legal name varies by state and country of residence and the reason for the change. The University (CMSRU) cannot change a legal name.
   i. Individuals must pursue a legal name change with appropriate state and/or federal authorities and then submit a legal name change document (typically a court order) to the Office of the University (CMSRU) Registrar.
   ii. Employees must also submit the document to Human Resources along with a new Social Security card showing the new legal name, and complete an updated I-9 form.
   iii. U.S. residents must change their legal name with the Social Security Administration as well.

5. Diploma: The University (CMSRU) considers the diploma to be a ceremonial document, and students may request to use either a legal name or a preferred name on a diploma using the intent to graduate form. However, please be advised that in some situations the diploma may need to be used as a legal document, and the name appearing on the diploma may need to match other legal documents to be accepted as valid. Students who request a preferred name to appear on the diploma who later wish to have a diploma issued in their legal name or any other name will be charged the appropriate fee for that service.

6. Background Checks and Legal Processes:
   a. Individuals who request and use a preferred name must be aware that the preferred name will constitute an alias which they may be required to disclose in some circumstances including during background checks and other legal processes. This responsibility may be life long, and may cover each preferred name used even if they later change or discontinue the use of the preferred name.
b. Individuals are encouraged to candidly disclose the existence of this alias when appropriate to avoid discrepancies or the appearance that they are attempting to conceal the information. Individuals must also be aware that the existence of an alias may trigger heightened scrutiny during certain federal or state security clearances or background checks, especially in cases where the individual does not disclose the information to authorities.

c. The University (CMSRU) will disclose and/or confirm the preferred name(s) used by the individual in accordance with any lawful request for this information, and/or upon request by the individual.

7. Due Diligence and Compliance of University (CMSRU) Offices and Personnel:

a. Offices and personnel should adapt their business processes to accommodate the use of the preferred name wherever feasible and when the use of the legal name is not required to comply with laws or regulations. Offices should consult appropriate IRT personnel for assistance as needed.

8. Non-compliance and Complaints:

a. When an individual believes that the individual's approved preferred name has not been used in accordance with this policy, the individual is encouraged to seek to resolve that concern informally by communicating the concern directly to the personnel or office which has not properly used the preferred name.

b. In cases where a student feels that the student would benefit from additional support or advocacy, or to initiate a formal complaint about non-compliance, students may contact the following offices:
   i. Dean of Students (CMSRU Assistant Dean of Student Affairs or designee);
   ii. Office of Social Justice, Inclusion and Conflict Resolution; and
   iii. Office of Equity and Diversity.

c. In cases where a member of the faculty or staff feels that the member would benefit from additional support or advocacy, or to initiate a formal complaint about non-compliance, that member may contact the following offices:
   i. Office of Equity and Diversity;
   ii. Office of Human Resources; and
   iii. Vice President for Academic Affairs (for faculty employees).

9. Use, Abuse or Misuse:

a. The RowanCard/CMSRU ID with the preferred name imprinted on it may be used as a valid identification card (ID) within the University (CMSRU)). However, the RowanCard/CMSRU ID with a preferred name imprinted may not be used as an alternate to a legal ID. Use of the RowanCard/CMSRU ID to misrepresent the individual's legal identity in any circumstance will be considered misuse and may result in disciplinary or adverse employment action.

b. Inappropriate use of the preferred name policy may be cause for disciplinary action and/or denial of the use of a preferred name.
c. Failure to comply with an approved preferred name by refusing to use that preferred name may constitute grounds for disciplinary action.

ATTACHMENT
Attachment A - Procedures for Requesting a Preferred Name

https://sites.rowan.edu/sjicr/centers-programs/lgbtq/transatrowan/preferredname.html
Attachment A - Procedures for Requesting a Preferred Name

Requesting a Preferred Name:

Individuals who wish to use a preferred name may enter that name through the personal information section in Banner Self Service.

Approval and Prohibited Use:

When an individual enters a preferred name, the individual's records will be updated to display the preferred name in a timely manner, typically within five (5) business days, except in in the following circumstances:

1. The name is intended to misrepresent the person's identity and/or misappropriate the identity of another person or organization;
2. The use of the name is an attempt to avoid a legal obligation;
3. The appearance of the requested name on the University (CMSRU) ID or other records would be harmful to the reputation or interests of the University (CMSRU); and/or
4. The name is derogatory, obscene, conveys an offensive message, or otherwise inappropriate.

If the preferred name could be prohibited for one of these four reasons, the appropriate Responsible Official will be contacted. If the Responsible Official decides that the preferred name is prohibited, the requesting individual shall be so notified, given the reason(s) for the denial, and offered the opportunity to appeal. An appeal must be in writing (including email), be addressed to the Responsible Official, and address any specific concerns related to the reason(s) for the denial. A committee comprising representatives from Human Resources, Academic Affairs, and Student Life will review the appeal, consult with the Chief Equity Compliance Officer, and provide a final determination within ten (10) business days of the date the appeal was received by the Responsible Official. The Committee will conduct a de novo review of the request. Decisions by the Committee will be final and not subject to further appeal.

In cases where misuse of a preferred name results in disciplinary or employment actions, the normal policies and procedures as well as related appeal processes will apply.

Appearance of the Preferred Name:

The approved preferred name will appear and be used in the following University (CMSRU) documents, systems, and processes:

1. Rowan/CMSRU Card(ID)
2. Campus Directory
3. Email search/auto fill functions
4. Class Lists and Grade Reports
5. Advising Lists
6. Blackboard
7. Canvas
8. Rowan Success Network
9. ProfLink
10. Housing Rosters

**Rowan/CMSRU ID:**

Once approved, individuals may obtain a RowanCard with the preferred name imprinted on the card in place of the legal name. The first card issued with a preferred name imprinted will be provided at no charge. When subsequent replacement cards are requested, the individual will be charged the normal fee for issuance of a replacement card.
Procedure for Resolving Student v. Student Discrimination Complaints

CMSRU Adheres to Rowan University Procedure on Student v. Student Discrimination Complaints

POLICY:
Procedure for Resolving Student v. Student Discrimination Complaints

PURPOSE:
Rowan University (CMSRU) is committed to creating and maintaining an educational and living environment free from discrimination. If a student feels they have been the victim of discrimination caused by a faculty or staff member, please refer to the Rowan University Policy Prohibiting Discrimination in the Workplace and Educational Environment.

SCOPE:
This policy applies to all CMSRU medical students.

DEFINITIONS:
Title VI of the Civil Rights Act of 1964 provides that “no person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” As an institution receiving Federal Funding, in accordance with Title VI, Rowan University (CMSRU) prohibits discrimination, whether verbal, written, physical or psychological, based not only on a person or group’s actual or perceived race, color, or national origin, but also based on their religion, sex, age, sexual orientation, gender identity or expression, ancestry, disability, marital status, civil union status, domestic partnership status, atypical heredity or cellular blood trait, military service or veteran status, or any other characteristic protected under the New Jersey Law Against Discrimination, N.J.S.A. § 10:5-12.

PROCEDURE:
Reporting:
If a student believes they are a victim of discrimination caused by another student, the individual is strongly encouraged to promptly file a complaint by contacting one of the following resources:

- Marion Lombardi, EdD; Chief Student Affairs Officer lombardim@rowan.edu
- The Office of Student Equity and Compliance and/or by filling out the Student Complaint Form for Discrimination/Harassment/Retaliation Complaints (Report here)
- Individuals may also file complaints directly with the Office for Civil Rights, United States Department of Education:
  
  New Jersey, New York, Puerto Rico, Virgin Islands Office for Civil Rights
  New York Office U.S. Department of Education
  32 Old Slip, 26th Floor
  New York, NY 10005-2500
  Telephone: 646-428-3800 Fax: 646-428-3843 E-mail: OCR.NewYork@ed.gov

Post Reporting:
Once a complaint of alleged discrimination by another student is received, the following resolution procedures will be initiated:

- When a complaint is filed, prompt action will be taken to review the matter to determine if there is sufficient information to initiate formal resolution measures. The Associate Vice President of Diversity, Equity and Inclusion in the Office of Student Equity and Compliance retains the discretion to determine the most appropriate avenue of response, including but not limited to, coordination with other University resources such as Residential Learning, the Office of Community Standards, or the Dean of Students (CMSRU Assistant Dean of Student Affairs or designee). Where appropriate, the use of voluntary and informal resolution measures, such as mediation, may be used. Voluntary and informal resolution measures will never be applied in cases where the alleged discrimination involves violence.

Note: If a report is deemed to be a potential violation of the Student Sexual Misconduct and Harassment Policy, the matter will be referred to the Title IX Coordinator in the Office of Student Equity and Compliance.

- At the Associate Vice President’s discretion, where deemed necessary, a formal resolution procedure will be initiated by the Division of Diversity, Equity and Inclusion (DEI) Investigation Manager, or designee. The DEI Investigation Manager, or designee, will conduct an impartial, reliable and thorough investigation. The investigation may include interviewing the parties involved, including witnesses, review of written statements, and the gathering of other relevant information. Put in order of occurrence: Confidentiality; Notice; Advisors; Length of Investigation; Standard of Evidence;
  
  - **CONFIDENTIALITY:** The University (CMSRU) will endeavor to maintain the confidentiality of reported matters and of individuals involved, except to the extent necessary to carry out the purposes of this policy, including conducting investigations, and where required by law.
  
  - **NOTICE:** Once a formal resolution procedure has been started, the Complainant(s) and Respondent(s) will be notified in writing.
  
  - **ADVISORS:** The Complainant(s) and Respondent(s) have the right to an advisor of their choice during this investigation process. An advisor may be a family member, attorney or other third party. Advisors may be present to support the parties; however, advisors are not permitted to speak on behalf of any party during this process.
  
  - **LENGTH OF INVESTIGATION:** While the length of the process may vary based on the facts, circumstances, and witness availability in each case, every effort will be made to conclude the investigation within sixty (60) days provided doing so does not compromise the University’s (CMSRU’s) ability to conduct a fair, impartial, and thorough investigation and adjudicative process.
  
  - **STANDARD OF EVIDENCE:** A finding under this policy will be based on the preponderance of the evidence standard, in other words, a finding will be made if the evidence as a whole shows that is more likely than not that a violation of this policy occurred.

- Upon completion of an investigation, the investigator will prepare a written investigation report. This report will include a comprehensive description of the evidence gathered during the
investigation, the investigator’s findings of fact, credibility determinations and whether a policy violation has occurred.

- The investigation report will then be forwarded to the Associate Vice President for review.
- The Associate Vice President, or designee, will issue a determination letter to the Complainant(s) and Respondent(s) stating whether the allegations of discrimination are substantiated or not substantiated.
  - If the allegations are substantiated, i.e. upheld or proven to be true, the matter will be sent to the Office of Community Standards for the imposition of sanctions and/or disciplinary action, in accordance with the Student Code of Conduct.
  - If a party wish(es) to appeal the determination, they may request an appeal under the following circumstances:
    - A procedural or substantive error occurred in the process that significantly impacted the outcome of the hearing (e.g. material deviation from university (CMSRU) policy; substantial bias; the findings and decision are contrary to the great weight of the evidence);
    - New and significant information has become available which could not have been discovered by a properly diligent person before or during the hearing; or
    - The sanction/disciplinary action imposed is inappropriate in light of the violation.
  - Appeal requests should be made to the Senior Vice President of the Division of Diversity, Equity and Inclusion, or designee, in writing, within five (5) business days of receiving the decision letter. All appeal requests will be reviewed within fifteen (15) business days, and the decision of the Senior Vice President of DEI will be final.
Protection of Minors on Campus

CMSRU Adheres to Rowan University’s Protection of Minor’s Policy

POLICY:
Protection of Minors

PURPOSE:
To provide guidelines for all Rowan University (CMSRU) employees, faculty, staff, student employees, contractors, representatives, agents and volunteers of the appropriate protection and supervision of Minors participating in Rowan University (CMSRU)-sponsored Programs, or in Programs operated by external entities that are held in or at Rowan University (CMSRU) facilities/locations, and to ensure compliance with New Jersey’s mandatory reporting obligations under N.J.S.A. 9:6-8.10, which requires any person having reasonable cause to believe that a minor child has been subjected to child abuse, including sexual abuse, or acts of child abuse to report the same immediately to the New Jersey Division of Child Protection and Permanency.

SCOPE:
This policy applies to all Rowan University (CMSRU) employees, faculty, staff, student employees, contractors, representatives, volunteers, and agents, all of whom have a duty to follow this policy to ensure appropriate protection and supervision of Minors participating in Rowan University (CMSRU)-sponsored programs.

DEFINITIONS:
This policy is subject to the following definitions:

1. **Abuse** – the physical, sexual or emotional harm or risk of harm to a child under the age of eighteen (18) caused by a parent or other person who acts as a caregiver for the child.

2. **Neglect** – when a parent or caregiver fails to provide proper supervision for a child or adequate food, clothing, shelter, education or medical care although financially able or assisted to do so.

3. **Minor** – A person under the age of eighteen (18) participating in a Rowan University (CMSRU)-sponsored Program or a Program operated in or at Rowan University (CMSRU) facilities/locations. While all suspected instances of Abuse or Neglect of a Minor must be reported under the State of New Jersey’s Mandatory Reporting Requirements and Rowan University’s (CMSRU’s) Protection of Minors Policy, other policy requirements are not applicable to Rowan students under the age of 18 who are enrolled in the Rowan University undergraduate program, including Summer/Winter Session courses.

4. **Authorized Adult** – Individual(s), paid or unpaid, who is (are) authorized to supervise or regularly chaperone Minors. An Authorized Adult must be at least eighteen (18) years of age.

5. **Direct Contact Position or Job Title** – Position or job title that includes responsibility to exercise direct supervision, guidance, or control of Minors, which may include, but is not limited to, counselors or volunteers.

6. **Mandatory Reporting Requirements** – New Jersey is a mandatory reporting state. This means that any person having reasonable cause to believe that a Minor has been subjected to Abuse or Neglect, must report the same immediately to the New Jersey Division of Child Protection and Permanency (“DCP&P”).
7. **One-on-one Contact** – Interaction between any Authorized Adult and a Minor without at least one other Authorized Adult, parent or legal guardian present.

8. **Programs** – Programs, events and activities offered by any Rowan University (CMSRU) academic, administrative or athletic unit, or by external entities using Rowan University (CMSRU) facilities/locations.

9. **Rowan University (CMSRU)-sponsored Program** – Any Program that (a) involves the use of Rowan University (CMSRU) funds to pay (or reimburse) expenses for all or part of the Program; (b) is being led in whole or in part by a Rowan University (CMSRU) employee; and/or (c) is sponsored by (not just arranged through) a Rowan University college, school, or department.

10. **Sponsoring Unit** – The Rowan University (CMSRU) academic, administrative or athletic unit that is offering or sponsoring a Program.

**PROCEDURE:**

1. Rowan University (CMSRU) is committed to the appropriate supervision and protection for all Minors participating in Rowan University (CMSRU)-sponsored Programs on its campus and all Minors participating in Programs operated in or at Rowan University (CMSRU) facilities/locations. As a New Jersey State entity, Rowan University (CMSRU) adopts the policies and procedures mandated by New Jersey state law to protect minor children and the Mandatory Reporting Requirements of Abuse and Neglect.

2. At the very minimum, and regardless of whether or not Rowan University (CMSRU) is sponsoring the Program at which the observation is made, New Jersey’s Mandatory Reporting Requirements require all Rowan University (CMSRU) employees, student employees, contractors, representatives, agents, and volunteers having reasonable cause to believe that a Minor has been subjected to Abuse or Neglect, to report the same immediately to the New Jersey Division of Child Protection and Permanency (“DCP&P”). Rowan University (CMSRU) has the responsibility to ensure that all reports can be submitted without fear of retaliation or reprisal. Reports of Abuse or Neglect must be submitted immediately pursuant to the process set forth below in Section VI.7 (Mandatory Reporting Requirements).

3. Other than the Mandatory Reporting Requirements under this policy, the remaining requirements under this policy shall not apply to Rowan University's traditional academic activities involving enrolled students who are under the age of eighteen (18).

4. Other than the Mandatory Reporting Requirements under this policy, and the requirement to register the Program with University Events, the remaining requirements under this policy shall not be applicable to Programs that are open to the public, nor to Programs where Minors will be chaperoned by their parent(s)/guardian(s), or an adult chaperone who is not affiliated with Rowan University (CMSRU) (i.e., school teacher), during their presence in or at Rowan University (CMSRU) facilities/locations.

5. Rowan University (CMSRU) shall make its best efforts to ensure that external entities sponsoring Programs in or at Rowan University (CMSRU) facilities/locations are aware of the requirements to protect Minors under this policy. However, Rowan University (CMSRU) is not responsible for ensuring that external entities comply with this policy or applicable law. It is Rowan University (CMSRU)’s expectation that external entities shall make reasonable efforts to implement best practices similar to those set forth in this policy if Minors will be present at their events in or on Rowan University (CMSRU)’s facilities/locations. The external entity is solely responsible for all
individuals the external entity retains to staff or supervise the Program, to include but not be limited to all employees, volunteers, independent contractors, and agents of the external entity. Nothing in this paragraph shall be construed as discharging Rowan University (CMSRU) employees, student employees, contractors, representatives, agents, or volunteers from their legal duty to submit a report to DCP&P when they have reasonable cause to believe that a Minor has been subjected to Abuse or Neglect.

6. Rowan University operates an early childhood educational program which is subject to additional statutory and regulatory requirements for the provision of childcare and education. Nothing stated herein is intended to limit Rowan University's ability to implement additional policies for its early childhood educational program.

7. **Mandatory Reporting Requirements**

   a. All Rowan University (CMSRU) employees, student employees, contractors, representatives, volunteers, and agents having reasonable cause to believe that a Minor has been subjected to Abuse or Neglect, are required by law to report the same immediately to the Division of Child Protection and Permanency (“DCP&P”) (formerly the Division of Youth and Family Services (“DYFS”)). DCP&P operates a statewide child abuse hotline 24 hours per day, every day of the year. The telephone number is 1-877-NJ ABUSE (1-877-652-2873). A concerned caller does not need proof to report an allegation of Abuse or Neglect and can make the report anonymously. Any person who, in good faith, makes a report of Abuse or Neglect is immune from any criminal or civil liability as a result of such action. The report should include whatever information may be helpful, such as the identity of the alleged perpetrator, the names and addresses of the Minor and his/her parent or other guardian or caretaker, the Minor’s age and the nature and extent of the Minor’s injury, abuse or mistreatment.

   In addition to making a report to DCP&P, the following internal Rowan University (CMSRU) procedures must be followed by an individual having reasonable cause to believe that a Minor has been subjected to Abuse or Neglect, and their supervisor:

   i. The individual should immediately notify their supervisor of the situation. An initial verbal report to their supervisor is acceptable, with written documentation of the report to follow within 24 hours. For Athletics staff, a copy of this report must also be made provided to the Director of Athletics within the same period.

   ii. The individual and their supervisor should immediately notify the Rowan University Department of Public Safety and Emergency Management at (856) 256-4922. Anonymous reports can be made using this number or via the 24 hour/7 days per week Integrity Hotline at (855) 431-9967, or via the web at https://rowan.alertline.com.

   iii. The individual and their supervisor should notify the Dean of Students at (856) 256-4283/Associate Dean for Diversity and Community Affairs or designee at 856-361-2808 within 24 hours.

   iv. Within forty-eight (48) hours of submitting report to DCP&P, documentation of the report to DCP&P must be submitted to the Department of Public Safety Assistant Vice President/Emergency Management Coordinator and the Dean of Students for recordkeeping. In cases where Rowan University’s Department of Public Safety
and Emergency Management cannot or is not involved, the Dean of Students/Associate Dean for Diversity and Community Affairs or designee shall be the designated Rowan University (CMSRU) official for purposes of the reporting and recordkeeping obligations hereunder.

b. When a report made to DCP&P indicates that a Minor may be at risk, an investigator from DCP&P will promptly investigate the allegations of child abuse or neglect within twenty-four (24) hours of receipt of the report.

c. Pursuant to N.J.S.A. 9:6-8.14(a), any person who knowingly fails to report an act of child abuse, having reasonable cause to believe that an act of child abuse has been committed, is a disorderly person. Penalties for disorderly persons can include fines not to exceed $1,000 and/or imprisonment not to exceed six months.

d. Pursuant to N.J.S.A. 9:6-8.14(b), any person who knowingly fails to report an act of sexual abuse against a child, who has reasonable cause to believe that an act of sexual abuse has been committed, is guilty of a crime of the fourth degree. Penalties for fourth degree crimes can include fines not to exceed $10,000 and/or imprisonment not to exceed 18 months.

e. All Rowan University (CMSRU) employees, student employees, contractors, representatives, volunteers, and agents who may come into contact with Minors through any Rowan University (CMSRU)-sponsored Program and/or become aware of a Minor participating in any Program that is engaging in self-injurious behavior, expressing suicidal ideation, plan or intent or homicidal ideation, plan or intent, or any other behavior that puts their own or other individual’s health and safety at risk must contact the Police immediately at 911. Rowan University’s Department of Public Safety & Emergency Management will be contacted for emergency response and/or transport to the nearest emergency room.

i. The immediate supervisor should then contact the Dean of Students, in consultation with the Director for Student Health Services, to develop an appropriate plan of action.

ii. At a minimum, the Minor’s legal guardian(s) will be notified by the Dean of Students, or his/her designee, and the identified concern over health and safety will be communicated to the legal guardian.

iii. The Division Leader of the Sponsoring Unit and/or the individual responsible for running the Rowan (CMSRU)-sponsored Program will consult with the Dean of Students to determine whether it would be appropriate for the Minor to continue participation in the Rowan (CMSRU)-sponsored Program.

f. Rowan University (CMSRU) shall not retaliate or engage in adverse employment action against any individual who reports a reasonable belief that a Minor has been subjected to Abuse or Neglect, or is engaging in self-injurious behavior or homicidal ideation. Rowan University (CMSRU) prohibits retaliation against any individual who in good faith files a report in accordance with this section of the policy or participates in any investigation related to same. Retaliation is a serious violation of this policy and, like a policy violation itself, will be subject to disciplinary action.

8. Procedures for Rowan (CMSRU)-sponsored Programs Involving Minors – Sponsoring Units operating a Rowan (CMSRU)-sponsored Program involving Minors (not including minors
matriculated as undergraduate students) must operate the Rowan (CMSRU)-sponsored Program in accordance with the following guidelines.

a. Registration / Compliance

i. Sponsoring Units holding a Rowan (CMSRU)-sponsored Program involving Minors must register that Program with University Events. To register the Program, Sponsoring Units shall complete the Form at http://go.rowan.edu/eventform at least thirty (30) days before the Program.

ii. Following submission of the Event Registration Form, the Sponsoring Unit will be informed as to whether or not the “Compliance Requirements” below (i.e., sex offender registry checks, criminal background checks, training) apply to the Program. For some programs involving Minors, the Compliance Requirements may not apply, such as those open to the public or where the Minors will be chaperoned by a parent/guardian, or other adult not affiliated with Rowan (CMSRU) (i.e., teacher). However, if the Compliance Requirements apply, the Sponsoring Unit must then submit a Compliance Form with University Events (via email at universityevents@rowan.edu), confirming compliance with the Compliance Requirements and this policy, by no later than fifteen (15) days prior to the Program.

iii. Please note, even if it is determined that the Compliance Requirements in this policy do not apply to the Program, the Mandatory Reporting Requirements will always be applicable.

iv. If the Compliance Requirements apply, Sponsoring Units should have parents/guardians execute a Rowan University (CMSRU) Release and Waiver – Parent/Guardian Approval for Child to Participate in Rowan Event Form for all Minors participating in the Program. A link to the form can be found here: https://sites.rowan.edu/generalcounsel/forms-templates.html. Questions regarding waivers can be directed to the Office of General Counsel at legalreview@rowan.edu or 856-256-5110.

b. Compliance Requirements

i. All Rowan University (CMSRU) Authorized Adults and those in a Direct Contact Position or Job Title who will participate in a Rowan University (CMSRU)-sponsored Program involving Minors must undergo the following:

1. Sex offender registry check must be completed within the twelve (12) month period preceding the start of the Program, conducted by the Sponsoring Unit via the Dru Sjodin National Sex Offender Public Website at http://www.nsopw.gov/en-US. The Sponsoring Unit is also responsible for maintaining these records.

2. Criminal Background Check within at least the last four (4) years preceding the start of the Program, administered by Human Resources. Any inquiries can be directed to Stephanie Cozzone at cozzone@rowan.edu or 856-256-4135. NOTE: Rowan student volunteers who participate in the Rowan University (CMSRU)-sponsored Program under the supervision of a Rowan
University (CMSRU) faculty or staff member are not required to have a Criminal Background Check performed.

3. Training on the conduct requirements of this policy, on protecting Minors from abuse, and on required reporting of incidents of improper conduct to the proper authorities. Training must have been completed within the twelve (12) month period preceding the start of the Program. Training will be administered by the Department of Risk Management and Insurance, and all related training needs and questions should be directed to Risk Management at (856) 256-4370 or (856) 256-4128. Risk Management will work with the Sponsoring Unit to enroll individuals into the training program, but it is the responsibility of each Sponsoring Unit to ensure training is completed in compliance with this policy.

ii. Criminal Background Checks will be administered and records maintained by Human Resources, but it is the responsibility of each Sponsoring Unit to ensure Criminal Background Checks are conducted in compliance with this policy. The cost of Criminal Background Checks is the responsibility of the Sponsoring Unit.

iii. If a sex offender registry check or Criminal Background Check indicates a record of sexually based offenses or crimes against Minors, that individual may not participate in the Program. If other offenses are revealed by such checks, a copy of the report shall be given to the individual and the Dean of Students. If the Dean of Students determines that the individual should still participate in the Program, then the report must be provided to the committee specified in Section IV.4. of the University's Policy on Background Checks for Candidates for Employment for its review and final decision in accordance with the terms of that policy. Human Resources personnel, in collaboration with the Dean of Students as applicable, will convey the decision to the individual.

iv. All records related to Criminal Background Checks are confidential and will be treated as such. These records will be maintained in accordance with applicable law.

c. Measures to Prevent Abuse of Minors

i. All persons must make all reasonable efforts to remove Minors from dangerous or potentially dangerous situations.

ii. All persons subject to this policy are required to notify Rowan University (through the Department of Human Resources) immediately upon conviction of any crime. Failure to do so may result in the imposition of sanctions up to and including termination for cause.

iii. Authorized Adults and individuals in Direct Contact Positions or Job Titles participating in Programs covered by this policy must not, unless required by exigent circumstances:

1. Have contact with Minors in one-on-one situations. When feasible, there should be two or more Authorized Adults and/or individuals in Direct Contact Positions or Job Titles present during activities when Minors are present. Where not feasible, an Authorized Adult may supervise a group of
Minors.
Private one-on-one instruction is the accepted standard in limited educational settings, such as music lessons. In those situations, the Program shall take reasonable and appropriate measures to ensure the safety of Minors. Such measures shall include at a minimum, notification to the parents or guardians of the Minors of the intended educational setting and a signed acknowledgment of same.

2. Enter a Minor’s bedroom, bathroom facility, or similar area when that Minor is staying overnight in Rowan University housing without another Authorized Adult or individual in Direct Contact Positions or Job Titles in attendance.

3. Share accommodations with Minors, with the exception of a Minor’s parents or guardians sharing accommodations with their own children.

4. Engage in abusive conduct of any kind toward, or in the presence of, a Minor.

5. Strike, hit, administer corporal punishment to, or touch in an inappropriate or illegal manner any Minor.

6. Provide vehicular transportation to Minors at any location, other than the driver's child(ren), except as specifically authorized in writing by the Minors’ parent or legal guardian.

7. Provide alcohol or illegal drugs to any Minor. Authorized Adults or individuals in Direct Contact Positions or Job Titles must not provide prescription drugs or any medication to a Minor unless specifically authorized in writing by the parent or legal guardian as being required for the Minor's care or the Minor's emergency treatment.

iv. If an allegation of inappropriate conduct has been made against an Authorized Adult or person in a Direct Contact Position or Job Title participating in a Program, that person shall not be permitted to participate in the Program until such allegation has been satisfactorily resolved by Rowan University.

d. Measures to Maintain Adequate Supervision of Minors

i. Whenever feasible, all activities involving Minors should be supervised by at least two or more Authorized Adults or individuals in Direct Contact Positions or Job Titles, or by the Minor's parent(s) or legal guardian(s) at all times.

1. "Adequate supervision" will depend upon the number and age of Minor participants; the activity(ies) involved; the type of housing, if applicable; and age and experience of the supervisors.

ii. Students who are at minimum 18-years-old and are participating in the Program as either employees or volunteers may supervise Minor participants, subject to the same policy requirements provided herein.
iii. Where Rowan University Housing is provided, Programs must adopt and implement rules and regulations for proper supervision of Minors while in housing. The following minimum standards must be included:

1. All Programs involving housing of minors must register with University Events and receive advance permission of the Program.

2. Guidelines on adequate number of staff for supervision of Minors in particular activities.

3. Written permission signed by the parent/guardian for the Minor to reside in University housing, including contact information for parents and emergency medical authorization. This permission form should be maintained by University Events and a copy shall be provided to the Office of Risk Management.

4. Guests of participants, if allowed (other than a parent/legal guardian and other Program participants), are restricted to visitation in common areas only of the building, and only during approved hours specified by the Program.

5. The Program must comply with all security measures and procedures specified by Residential Learning.

6. Pre-enrollment visit programs for High School students housed overnight in residence halls must be registered with the Office of Residence Life.

e. Measures to Address Medical and Emergency Situations involving Minors

i. Authorization of and Access to Emergency Medical Services

1. An authorization for medical treatment, release of medical information (HIPAA), emergency treatment and general medical liability waiver form must be completed, as applicable, by the parent or guardian of each participant. University Events will notify the Sponsoring Unit which forms are necessary.

2. Programs must arrange for access to emergency medical services at all locations. Medical care appropriate for the nature of the Programs, expected attendance and other variables should be taken into consideration. In case of emergency, individuals must call 9-1-1.

ii. Distribution or Administration of Medications

1. Medication may be distributed to the Minor by Program staff only in accordance with written authorization from the Minor’s parent or legal guardian, as applicable. University Events will notify the Sponsoring Unit when authorization is necessary. All such medication must be provided in its original pharmacy container labeled with the Minor’s name, name of the medication, dosage and timing of consumption. Over-the-counter medications must be provided in the manufacturers' original container.
2. Staff shall keep medication in a secure location, and at the appropriate time for distribution shall meet with the Minor, as appropriate given the nature of the Program.

3. Any medication which the Minor cannot self-administer must be stored and administered in accordance with the fully executed medication permission form signed by the parent or guardian.

   iii. Safety Measures for Laboratory or Research Activities - All programs which include laboratory or research activities must follow appropriate safety measures approved by the Rowan University (CMSRU) Office of Environmental Health & Safety.

   iv. Notification Provided to Parents/Guardians in an Emergency - Programs must establish a procedure for the notification of the Minor's parent/legal guardian in case of an emergency, including medical or behavioral problems, natural disasters, or other significant Program disruptions.

9. Minors Not Participating in a Rowan University (CMSRU)-sponsored Program - Rowan University (CMSRU) is a university campus and is generally not a proper environment for Minors who are not directly accompanied by a parent or guardian unless they are registered in a Program planned for Minors, and adequately supervised by adults who have the appropriate training and credentials. Accordingly, the following rules shall apply:

   a. Rowan University (CMSRU) students who have a Minor relative, friend or other guest visiting them and/or staying overnight in Rowan University housing must comply with all applicable policies and procedures in the Student Handbook.

   b. Rowan University students may not babysit Minors in their campus housing, including but not limited to dormitory rooms. This prohibition applies even if the student is not being paid for babysitting.

   c. Pursuant to other Rowan University (CMSRU) policies and/or Federal and/or State laws and regulations, Minors should not be present in certain facilities/locations and environments. If a parent or guardian brings his or her Minor child to work, the parent or guardian is responsible for the Minor's welfare and must ensure that the Minor does not visit such restricted facilities/locations or environments.

   d. Minors must not be left unsupervised on Rowan University’s (CMSRU's) campus. It is the responsibility of those who bring Minors to campus to ensure appropriate and continuous supervision.
Religious Observance Policy

POLICY:
Religious Observance Policy

PURPOSE:
CMSRU respects the diversity of faiths and spiritual practices in its community and recognizes the right for students to observe religious holidays.

SCOPE:
This policy applies to all CMSRU medical students and visiting medical students.

DEFINITIONS:
Observance in this policy means a student being absent from a CMSRU class/activity in order to observe a religious holiday.

PROCEDURE:
CMSRU recognizes and respects the religious beliefs and practices of its students and seeks to accommodate them reasonably within the requirements of the academic schedule. As a result, CMSRU will not penalize a student who must be absent from a class, examination, study or work requirement for a religious observance. Students who anticipate being absent because of a religious observance must, as early as possible and in advance of an anticipated absence of a day, days or portion of a day, inform their course/clerkship director, preceptor, education coordinator and Chief Student Affairs Officer as soon as possible, but not less than seven days prior to the scheduled day of observance. CMSRU recognizes that travel intended for religious observances may be required in limited circumstances. Excused absences for travel related to a religious observance will be evaluated on a case by case basis by the Chief Student Affairs Officer or designee.

Whenever feasible, faculty should avoid scheduling examinations and assignment deadlines on religious holidays. A student absent from a class because of religious observance shall not be penalized for any class, examination, or assignment deadline missed on that day or days and a reasonable accommodation shall be made. In the event an examination or assignment deadline is scheduled on a day of religious observance, a student unable to attend class shall be permitted to make up an examination or to extend any assignment deadline missed. No adverse or prejudicial effect shall result to any student who takes advantage of the provisions of this policy.

If a student believes they are not being granted the full benefits of the policy, and has not been successful resolving the matter with the course director, the student may confer with the Assistant Dean of Student Affairs. For your convenience, please follow the link to an interfaith calendar of religious holidays.

http://www.interfaith-calendar.org/
Student Sexual Misconduct and Harassment Policy

CMSRU Adheres to the Rowan University Student Sexual Misconduct and Harassment Policy

PURPOSE
Students of the Rowan University community have the right to access and benefit from the University’s educational and other programs, activities or services, free from any form of Sexual Misconduct. The University does not tolerate Sexual Misconduct of any kind. This policy has been developed to reaffirm these principles and to provide recourse for those individuals whose rights have been violated.

APPLICABILITY
This policy applies to all students of Rowan University from the time of their acceptance and admission into the University until the date of their graduation or formal withdrawal. This policy shall not apply to allegations of conduct that do not constitute Sexual Misconduct as defined herein. Notwithstanding, such behavior may be addressed by the University under other policies such as the Title IX Sexual Harassment/Sexual Assault Policy, Student Code of Conduct, or Procedure for Resolving Student v. Student Discrimination Complaints. In addition, this policy shall not apply to allegations of Sexual Misconduct against Rowan employees and vendors – such complaints may be handled under the Policy Prohibiting Discrimination in the Workplace and Educational Environment, Disruptive Behavior and Workplace Violence Policy, or other applicable policy.

INTRODUCTION: This Student Sexual Misconduct and Harassment Policy applies to forms of Sexual Misconduct as defined herein, when alleged against a student Respondent. Specifically, this policy applies to forms of Sexual Misconduct that do not fall under the scope of the Title IX Sexual Harassment/Sexual Assault Policy, including Sexual Exploitation. This policy also applies to complaints against student Respondents alleging certain conduct that would otherwise be prohibited under the Title IX Sexual Harassment/Sexual Assault Policy (e.g., Dating Violence, Domestic Violence, Sexual Assault, and Stalking), but which must be dismissed under the Title IX Sexual Harassment/Sexual Assault Policy because they do not meet the jurisdictional requirements.

The University will respond to Reports or Formal Complaints (as defined below) of conduct prohibited under this policy with measures designed to stop the prohibited conduct, prevent its recurrence, and remediate any adverse effects of such conduct on campus or in University-related programs or activities.

The University will not deprive an individual of rights guaranteed under federal and state law (or federal and state anti-discrimination provisions; or federal and state law prohibiting discrimination on the basis of sex) when responding to any claim of Sexual Misconduct.

Conduct that is prohibited under this policy may also constitute a violation of federal, state or local law and a student may be charged in the criminal justice system, as well as under this policy. Alternatively, charges can occur for violations of this policy which may not be violations of the law. The criminal justice system is different from this Sexual Misconduct process. The University reserves the right to reach its own determination on violations of this policy, independently of the outcome of any civil or criminal proceeding. The University retains the right to hear a Sexual Misconduct matter before, after, or during the pendency of a civil or criminal matter related to the same incident/conduct. If a matter is going through the criminal justice system, and a Report or Formal Complaint has also been made to the University, the Sexual Misconduct process at the University may proceed normally during the pendency of the criminal proceedings. As the Sexual Misconduct process is an educational disciplinary process, the legal rules related to evidence, criminal procedure, civil procedure and administrative procedure do not apply to this process.
STANDARD OF EVIDENCE
A finding under this policy will be based on the preponderance of the evidence standard. In other words, a
finding will be made if the evidence as a whole show that it is more likely than not that a violation of the
Student Sexual Misconduct and Harassment Policy occurred. Under this policy, there is a presumption that
the Respondent is not responsible for the alleged conduct until a determination regarding responsibility is
made at the conclusion of the Grievance Process, or the Respondent admits responsibility.

DEFINITIONS/TERMINOLOGY
- **Actual Knowledge** – Notice of Sexual Misconduct or allegations of Sexual Misconduct made to the
University’s the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity
and Compliance, or any official of the University who has authority to institute corrective measures
on behalf of the University (such as the DEI Investigator, or Dean of Students). This standard is not
met when the only official of the University with Actual Knowledge is also the Respondent. In
addition, the mere fact that a third party who works for the University (such as a Responsible
Employee) may become aware of allegations of Sexual Misconduct, or that such individuals have
the ability or obligation to report Sexual Misconduct, or to inform another about how to report
Sexual Misconduct, or having been trained to do so, does not qualify an individual as one who has
authority to institute corrective measures on behalf of the University.

- **Complainant** - An individual who is alleged to be the victim of conduct that could constitute
Sexual Misconduct, or on whose behalf the AVP of the Division of Diversity, Equity and Inclusion,
Office of Student Equity and Compliance has filed a Formal Complaint.

- **Consent** – Consent is informed, knowing, voluntarily and freely given permission to engage in
mutually agreed upon sexual activity. The University will apply a reasonable person standard in
determining whether or not consent was given, unless otherwise required by law.

  - The person giving consent must be capable of doing so freely, with the ability to understand
    what they are doing and the specific details (who, what, when, where, and how) of the sexual
    contact to which they are consenting.
  - Consent may be given by words or actions, as long as those words or actions create mutually
    understandable permission regarding the conditions of sexual activity.
  - It is the obligation of the person initiating sexual contact to obtain clear consent for the specific
    type of sexual contact sought. A person’s use of alcohol and/or drugs shall not diminish such
    person’s responsibility to obtain consent.
  - Lack of protest does not constitute consent. Silence or passivity without words or actions that
    communicate mutually understandable permission cannot be assumed to convey consent.
  - Use of violence, threats, coercion or intimidation invalidates any consent given.
  - A verbal “no,” even if it may sound indecisive or insincere, constitutes lack of consent.
  - Consent for one form of sexual contact does not imply consent to other forms. For example,
    consent to oral sex does not imply consent to vaginal/anal sex.
  - It is expected that once consent has been established, a person who changes their mind during
    the sexual act or sexual contact will communicate through words or overt actions their decision
to no longer proceed.
Past consent does not constitute consent for future sexual contact/activity.

Persons who are unable to give valid consent under New Jersey law, (i.e. minors, individuals with mental health disabilities) are considered unable to give consent under NJ State Policy N.J.S.A.2C:4-2.

Consent cannot be given by a person who is unconscious or sleeping. If consent has been given while a person is conscious or awake, and then that person becomes unconscious or falls asleep, consent terminates at that point.

Persons who are incapacitated due to the use of drugs or alcohol cannot give consent.

**Disciplinary sanctions** - Disciplinary Sanction(s) shall be imposed upon a Respondent where a determination of responsibility for Sexual Misconduct has been made against the Respondent. Disciplinary Sanctions for Respondents may range from a warning to expulsion. Respondents will also be referred to appropriate authorities for criminal prosecution when appropriate, regardless of any Disciplinary Sanctions under this policy.

**False report** – Intentionally making a report of Sexual Misconduct, to a University official knowing, at the time the report was made, that the prohibited conduct did not occur and the report was false. A determination regarding responsibility, alone, will not be sufficient to conclude that any party made a materially false report in bad faith.

**False statement** – Intentionally making a statement during the Grievance Process or Appeals Process to a University official knowing, at the time the statement was made, that it was false. A determination regarding responsibility, alone, will not be sufficient to conclude that any party or witness made a materially false statement in bad faith.

**Formal complaint** – A document filed and signed by a Complainant, or signed by the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, alleging Sexual Misconduct against a Respondent, and requesting that the University investigate the allegations of Sexual Misconduct. The Formal Complaint should include in detail the nature of the complaint, dates and locations of particular events, names/contact information of witnesses (if any), the name of the individual(s) against whom the complaint is being made, and any other relevant information. A Report of Sexual Misconduct may be filed with the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance in person, by mail, by electronic mail, or by filling out the report form found HERE. Upon receipt of a Report of possible Sexual Misconduct, the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, or Designee, will reach out the Complainant to discuss the Complainant’s options, including the ability to file a Formal Complaint.

**Incapacitation** – The physical and/or mental inability to make informed, rational judgements and decisions. States of incapacitation include sleep, unconsciousness, and blackouts.

Where alcohol or drugs are involved, incapacitation is determined by how the substance impacts a person’s decision-making capacity, awareness of consequences, and ability to make informed judgements. In evaluating whether a person was incapacitated for purposes of evaluating effective Consent, the University considers two questions:

- Did the person initiating sexual activity know that their partner was incapacitated?
Should a sober, reasonable person in the same situation have known that their partner was incapacitated?

If the answer to either of these questions is “yes,” effective Consent was absent.

- For purposes of this policy, incapacitation is a state beyond drunkenness or intoxication. A person is not incapacitated merely because they have been drinking or using drugs. The standard for incapacitation does not turn on technical or medical definitions, but instead focuses on whether a person has the physical and/or mental ability to make informed, rational judgments and decisions.

- A person who initiates sexual activity must look for the common and obvious warning signs that show that a person may be incapacitated or approaching incapacitation. Although every individual may manifest signs of incapacitation differently, typical signs include slurred or incomprehensible speech, unsteady gait, combativeness, emotional volatility, vomiting, or incontinence. A person who is incapacitated may not be able to understand some or all of the following questions: “Do you know where you are?” “Do you know how you got here?,” “Do you know what is happening?,” or “Do you know whom you are with?”

- Because the impact of alcohol and other drugs varies from person to person, one should be cautious before engaging in sexual contact or intercourse when either party has been drinking alcohol or using drugs. The introduction of alcohol or other drugs may create ambiguity for either party as to whether effective Consent has been sought or given. If one has doubt about either party’s level of intoxication, the safe thing to do is to forgo all sexual activity.

**Remedies** - Remedies may be provided to a Complainant where a determination of responsibility for Sexual Misconduct has been made against the Respondent. Remedies are designed to restore or preserve the Complainant’s equal access to the University’s education program or activity. Remedies may include the same individualized services described in the Supportive/Interim Measures section below; however, unlike Supportive/Interim Measures, Remedies need not be non-disciplinary or non-punitive, and need not avoid burdening the Respondent. Remedies provided may include, but not be limited to, a one-way no contact directive; changes to housing/work arrangements; or a leave of absence.

**Report** - Anyone may file a Report alleging an incident of Sexual Misconduct of which they become aware. The Report should include as much information possible, such as details (if known) of the nature of the incident, dates of particular events, names/contact information of any Complainant, Respondent, witnesses (if any), and any other relevant information. A Report may be filed with the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, in person, by mail, by electronic mail, or by filling out the report form found [HERE](#).

**Respondent** – An individual who has been reported to be the perpetrator of conduct that could constitute Sexual Misconduct.

**Responsible employees** – Certain employees, who under this policy, are required, after receiving information regarding Sexual Misconduct, to report it to the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance. These employees include, but are not limited to, Public Safety Police and Security Officers, managers and supervisors, coaches, club and organization advisors, faculty, Deans, and Residential Learning staff (Resident Assistants, Community Safety Assistants, Resident Directors, and Residential Learning Coordinators). Notwithstanding, knowledge of an incident of Sexual Misconduct by a Responsible Employee
(other than those who also have authority to institute corrective measures on behalf of the University) does not constitute Actual Knowledge by the University.

- **Sanctions** – See Disciplinary Sanctions.

- **Supportive/interim measures** – See Section X below.

**PROHIBITED CONDUCT**

This policy addresses allegations of Sexual Misconduct, against student Respondents, that occur on the basis of sex that do not fall within the definitional or jurisdictional requirements of the federal regulations underlying the Title IX Sexual Harassment/Sexual Assault Policy. To the extent allegations of inappropriate behavior/misconduct against a student may not be covered by this policy or the Title IX Sexual Harassment/Sexual Assault Policy, they may still be addressed under the Student Code of Conduct, Procedure for Resolving Student v. Student Discrimination Complaints or other applicable policy/procedure. Allegations against employees that do not fall under the Title IX Sexual Harassment/Sexual Assault Policy, may be addressed under the Policy Prohibiting Discrimination in the Workplace and Educational Environment, Disruptive Behavior and Workplace Violence Policy, or other applicable policy.

Examples of prohibited conduct under this policy, when alleged against a student, may include conduct: (i) that occurs in the local vicinity (i.e., local restaurant) but outside a University program or activity; (ii) occurs outside the United States when the conduct is associated with a University-sponsored program or activity; or (iii) conduct that involves the University’s computing and network resources from a remote location, including but not limited to accessing email accounts.

Prohibited conduct (referred to collectively as “Sexual Misconduct” throughout the policy) is the following behaviors if they fall outside the jurisdictional requirements of the Title IX Sexual Harassment/Sexual Assault Policy.

- **Sexual harassment** – Unwelcome sexual or gender based verbal or physical behavior, through any medium, determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person of equal access to the University’s education program or activity.

- **Sexual assault** – Any sexual act directed against another person, without their consent or where they are incapable of giving consent. An offense that meets the definition of rape, fondling, incest or statutory rape:
  - **Rape**: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.
  - **Fondling**: The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental incapacity.
  - **Incest**: Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
  - **Statutory Rape**: Sexual intercourse with a person who is under the statutory age of consent.
- **Stalking** – Engaging in a course of conduct, through any medium, directed at a specific person that would cause a reasonable person to: (a) fear for the person's own safety or the safety of others; or (b) suffer substantial emotional distress. For the purposes of this definition:
  - Course of conduct means two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property;
  - Reasonable person means a reasonable person under similar circumstances and with similar identities to the Complainant;
  - Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

- **Dating violence** – Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with another person. The existence of such a relationship shall be determined based on a consideration of the following factors: (a) the length of the relationship; (b) the type of relationship; and (c) the frequency of interaction between the persons involved in the relationship.

- **Domestic violence** – A felony or misdemeanor crime of violence committed by: (a) a current or former spouse or intimate partner; (b) a person with whom an individual shares a child in common; (c) a person who is cohabitating with, or has cohabitated with, the other person as a spouse or intimate partner; (d) a person similarly situated to a spouse of the other person under the domestic or family violence laws in which the crime of violence occurred; or (e) any other person against an adult or youth who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

In addition, prohibited conduct (Sexual Misconduct), shall include the following conduct which would not otherwise fall under the Title IX Sexual Harassment/Sexual Assault Policy:

- **Sexual exploitation** – Any act whereby one individual violates the sexual privacy of another or takes unjust or abusive sexual advantage of another who has not provided consent, and that does not constitute non-consensual sexual penetration or non-consensual sexual contact. Examples may include: prostituting another person; recording, photographing, transmitting, viewing, or distributing intimate or sexual images or sexual information without the knowledge and consent of all parties involved; voyeurism (i.e., spying on others who are in intimate or sexual situations); allowing third parties to observe private sexual activity from a hidden location (e.g., closet) or through electronic means (e.g., Skype or live-streaming of images); or knowingly transmitting a sexually transmitted infection to another person without the other’s knowledge.

**REPORTING OPTIONS – HOW TO FILE A REPORT/COMPLAINT**

Students who have experienced Sexual Misconduct and those who have knowledge of Sexual Misconduct are strongly encouraged to report this information as soon as possible. Prompt reporting of incidents greatly improves the ability of the University and law enforcement to provide support resources to students and to address the violations effectively. Although there is no time limit for reporting Sexual Misconduct, delays in reporting may reduce the ability of the University and law enforcement to investigate and respond to incidents. After an incident of Sexual Misconduct, the student should consider seeking medical attention as soon as possible. In New Jersey, evidence may be collected even if you chose not to make a report to law enforcement.
It is a violation of this policy for anyone to make a False Report of Sexual Misconduct, or for anyone to make a False Statement. Disciplinary Sanctions may be imposed for intentionally making a False Report or False Statement.

REPORTING TO LAW ENFORCEMENT

- Where criminal behavior is involved, the University encourages, and will assist students with, reporting to law enforcement. However, students have the right to decline notifying law enforcement. For criminal offenses that occur on the University campus, students should immediately contact Rowan Public Safety, 856-256-4911. Rowan Public Safety can assist students in contacting and filing a report/complaint with any other agency when the incident did not occur on campus.
  - Glassboro campus – Glassboro Police Department, 1 South Main Street, Glassboro, NJ 856-881-1500; [http://www.glassboropd.org/](http://www.glassboropd.org/)
  - RowanSOM campus – Stratford Police Department, 315 Union Ave., Stratford, NJ 856-783-8616; [https://som.rowan.edu/oursom/campus/safety.html](https://som.rowan.edu/oursom/campus/safety.html)
- LGBTQIA+ (Lesbian, Gay, Bisexual, Transgender, Queer/Questioning, Intersex, or Agender/Asexual) students should know that every Rowan Public Safety Officer will assist them should they choose to report Sexual Misconduct. However, if an LGBTQIA+ student would prefer, they can ask to speak directly with the Rowan University LGBTQIA+ police liaison.
- Behavior that constitutes a violation of this policy may also be a crime under the laws of the State of New Jersey.

REPORTING TO THE UNIVERSITY

- A student may choose to report an incident of Sexual Misconduct to the University before they have made a decision about whether or not to report to law enforcement. A student has the right to file a criminal complaint and a Formal Complaint simultaneously.
- Once a Report of Sexual Misconduct has been received, whether or not a Formal Complaint has been filed, the University will provide written notification to the Complainant about existing counseling, health, mental health, student advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services that are available at Rowan and in the surrounding communities. For more information on these services please visit [OSEC’s website](http://www.rowan.edu).
- Reports of incidents alleging to involve Sexual Misconduct or sex discrimination in a University program or activity should be made to the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance in person, by mail, by electronic mail, or by filling out the report found [HERE](http://www.rowan.edu).

**Office of Student Equity and Compliance**
Monise Princilus, Ed.S.
Associate Vice President and Title IX Coordinator of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance
203 Savitz Hall
In addition, prior to filing a Report or Formal Complaint, a person may reach out to the following individuals to discuss their reporting options. The below individuals are Responsible Employees under this policy and, therefore, should report the incident to the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance. However, their knowledge of any incident does not constitute Actual Knowledge by the University. Thus, if a student wishes to ensure a Report/Formal Complaint has been made, the individual should also reach out to the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance.

856-566-2742, seddonsm@rowan.edu

**POLICY OF IMMUNITY**
The University will grant immunity for using alcohol and drugs to both a Complainant and/or Respondent, unless the alcohol or drug was used knowingly to perpetrate violence. No one should be fearful of obtaining resources or remedies from a violent crime because they were intoxicated. In addition, the University will not pursue disciplinary action for drug or alcohol violations, or most other violations of the Student Code of Conduct, against a party or witness who comes forward in good faith to Report Sexual Misconduct. See [Rowan University Good Samaritan Policy](#)

**OTHER REPORTING OPTIONS**
Student may also file a complaint with the U.S. Department of Education, Office of Civil Rights.

[Office of Civil Rights, U.S. Department of Education](#)
New Jersey, New York, Puerto Rico, Virgin Islands OCR
CONFIDENTIALITY

When the University is made aware of a report or allegation of Sexual Misconduct, the University will endeavor to maintain the confidentiality of the matter and of all individuals involved to the extent permitted by law. The University will balance the needs of the individuals involved (Complainant and Respondent) with its obligation to fully investigate allegations and to protect the safety and wellbeing of the community at large. In all cases, the University and its employees will respect the dignity and rights of all individuals involved.

- **Responsible Employees:** When consulting campus resources, students should be aware that certain employees are Responsible Employees who under this policy are required, after receiving information regarding Sexual Misconduct, to report it to the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance. These include, but are not limited to, Public Safety Police and Security Officers, managers and supervisors, coaches, club and organization advisors, faculty, Deans, and Residential Learning staff (Resident Assistants, Community Safety Assistants, Resident Directors, and Residential Learning Coordinators). Knowledge of an incident of Sexual Misconduct by a Responsible Employee (other than those who also have authority to institute corrective measures on behalf of the University) does not constitute Actual Knowledge by the University.

If an individual has reported information to a Responsible Employee, but the individual would like for the report to remain confidential, the student should contact the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, who will evaluate the individual’s request for confidentiality. The Grievance Process will only be initiated when a Formal Complaint has been filed with or by the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance.

- **Confidential Resources:** Students who desire that details of an incident be kept confidential can receive confidential services through the Counseling & Psychological Services Center (856-256-4333), which is located in the Wellness Center at Winans Hall. Counselors with specialized training are available to support students who report Sexual Misconduct. Counselors are available to help you free of charge, and can be seen on an emergency basis. The Student Health Center (856-256-4222) can also provide confidential consultation with students and may offer treatment to prevent sexually transmitted infections or pregnancy. In circumstances where the Health Center is unable to offer these services, they will provide a referral to an appropriate medical resource. In addition, you may speak with members of the clergy, who will also keep reports made to them confidential. LGBTQIA+ students who would like to speak with a confidential resource should know that every counselor at the Wellness Center is committed to supporting students of all gender identities, gender expressions, and sexual orientations. When speaking with these resources, a student’s right to confidentiality is legally protected. However, there are limits to this protection in specific situations. For example, if a student discloses that the incident involved the use of a weapon or other contraband as defined by New Jersey law, or there is an ongoing threat or danger to the safety of
another person (particularly children or the elderly), these resources may be required to report the incident to police.

- **Federal Statistical Reporting and Federal Timely Warning Obligations:** Certain campus officials have a duty to report Sexual Misconduct for federal statistical reporting purposes. All personally identifiable information is kept confidential, but statistical information must be passed along to campus law enforcement regarding the type of incident and its general location (on or off-campus, in the surrounding area, etc. – with addresses withheld), for publication in the annual Campus Security Report. This report helps to provide the community with a clear picture of the extent and nature of campus crime to ensure greater community safety.

Individuals who report Sexual Misconduct should also be aware that University administrators may be required to issue timely warnings for certain incidents reported to them that pose a substantial threat of bodily harm or danger to members of the community, to aid in the prevention of similar occurrences. The University will withhold the names and other personally identifiable information of individuals as confidential, while still providing enough information for community members to make decisions related to their safety in light of the danger.

**SUPPORTIVE/INTERIM MEASURES**
Non-disciplinary, non-punitive individualized services will be offered to the Complainant and/or Respondent, as appropriate and as reasonably available, without fee or charge, where no Formal Complaint has been filed, or before or after the filing of a Formal Complaint. Such measures are designed to restore or preserve equal access to the University’s education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties, the University’s educational environment, and/or to deter Sexual Misconduct.

Supportive/Interim Measures may include, but are not limited to, the provision of information related to counseling, academic support, mental health services; extensions of deadlines or other course-related adjustments; modifications of work or class schedules; campus escort services; mutual restrictions on contact between the parties (no contact directives); changes in work or housing locations; leaves of absence; increased security; and other similar measures.

In addition, the University may place a student on an Interim Suspension, pending the outcome of the Grievance Process. This decision will be made in accordance with the University’s Student Code of Conduct.

The University will maintain as confidential any Supportive/Interim Measures provided to the Complainant or Respondent, to the extent that maintaining such confidentiality would not impair the University’s ability to provide the Supportive/Interim Measure(s).

**ADVISORS**
A Complainant and Respondent each have the right to an Advisor of their choice during the Grievance Process (discussed below). An Advisor may be a family member, a friend, an attorney, or any third party (i.e., a trusted employee). However, an Advisor may not otherwise be involved in the Grievance Process (i.e., a witness, co-Complainant or co-Respondent). Advisors are present to support the parties and to provide advice on procedural matters; but may not speak on behalf of the party.

Advisors must adhere to all conditions and obligations under this policy and as required by the University’s process.
The Advisor has the right to accompany the Complainant or Respondent to any meetings with the AVP of
the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, DEI Investigator
(or their Designee), or University administrators, and the party has the right to communicate with their
Advisor during any meeting. The Advisor may also assist the Complainant or Respondent during the
investigation, preparing/submitting a response to the investigation report, attend the live hearing, or assist
with the filing of an appeal.

The Advisor does not have speaking privileges during the investigation/investigatory interviews. The AVP
of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance or designee
will exercise control over the investigation. Anyone who disrupts an investigatory interview or who fails to
adhere to University policies may be asked to leave an investigatory interview.

With respect to the Hearing, an Advisor may attend the Hearing, but may not actively participate in the
Hearing.

Regardless of whether a party has an Advisor, the AVP of the Division of Diversity, Equity and Inclusion,
Office of Student Equity and Compliance, DEI Investigator or Designee will correspond and communicate
directly with the parties. If a party wishes for their Advisor to be copied on any correspondence or
communications, the party should advise the AVP of the Division of Diversity, Equity and Inclusion, Office
of Student Equity and Compliance or DEI Investigator.

**GRIEVANCE PROCESS/PROCEDURES**

Upon receipt of a Report of Sexual Misconduct, the AVP of the Division of Diversity, Equity and Inclusion,
Office of Student Equity and Compliance or Designee, will contact the Complainant to: (i) discuss available
Supportive/Interim Measures, while taking into consideration the Complainant’s wishes; (ii) inform the
Complainant that the Supportive/Interim Measures are available with or without a Formal Complaint; and
(iii) explain the process for filing of a Formal Complaint.

Upon receipt of a Formal Complaint, the University will initiate the Grievance Process.

The University will treat Complainants and Respondents equitably by providing Remedies to a Complainant
where a determination of responsibility for Sexual Misconduct has been made against the Respondent, and
by following the Grievance Process before the imposition of any Disciplinary Sanctions or other actions,
that are not Supportive/Interim Measures, are taken against a Respondent.

Throughout the Grievance Process, there will be an objective evaluation of all relevant evidence, including
both inculpatory (evidence implying or imputing responsibility) and exculpatory (evidence exonerating
responsibility) evidence. In addition, credibility determinations will not be based on an individual’s status as
a Complainant, Respondent, or witness.

Individuals involved in the Grievance Process (AVP of the Division of Diversity, Equity and Inclusion,
Office of Student Equity and Compliance, investigator, decision-maker, or any person designated by the
University to facilitate an informal resolution process) shall not have a conflict of interest or bias for or
against Complainants or Respondents generally, or an individual Complainant or Respondent. Such
individuals shall also have the appropriate training as set forth in the Training Section of this policy.

It is presumed that a Respondent is not responsible for the alleged conduct until a determination regarding
responsibility is made at the conclusion of the Grievance Process, or if a Respondent admits to
responsibility.
It is a violation of this policy for anyone to make a False Report of Sexual Misconduct, or for anyone to make a False Statement during the Grievance Process. Disciplinary Sanctions may be imposed for intentionally making a False Report or False Statement.

- **Dismissal of a Formal Complaint**
  
  o The AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance must dismiss the Formal Complaint, or allegations therein, at any time, if it is determined that the conduct alleged would not constitute Sexual Misconduct, even if proved. **Such a dismissal does not preclude the University from taking action under another provision of the University’s policies.**

  o The AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, in his/her discretion, may also dismiss the Formal Complaint, or allegations therein, if at any time during the Grievance Process, the following occurs: (1) the Complainant notifies the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, in writing, that the Complainant would like to withdraw the Formal Complaint, or any allegations therein; (ii) the Respondent is no longer enrolled by the University; or (iii) specific circumstances prevent the University from gathering evidence sufficient to reach a determination as to the Formal Complaint or allegations therein.

  o Written notice of any required or permitted dismissal, including any reason(s) therefore, shall be promptly sent to the parties simultaneously. This notice will also advise the parties of their appeal rights in accordance with this policy.

- **Consolidation of Formal Complaints** – Formal Complaints as to allegations of Sexual Misconduct against more than one Respondent, or by more than one Complainant against one or more Respondents, or by one party against the other party, may be consolidated where the allegations of Sexual Misconduct arise out of the same facts or circumstances.

- **Notice of Allegations** – Upon receipt of a Formal Complaint, the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, or Designee, will provide written notice to the known parties, which includes:

  o A link to the University’s Student Sexual Misconduct and Harassment Policy, so the parties can review the University’s Grievance Process, including the Informal Resolution Process;

  o Sufficient detail, of what is known at the time, related to the allegations of Sexual Misconduct, including details such as the identities of the parties involved, the conduct allegedly constituting Sexual Misconduct, and the date(s) and location(s) of the alleged incident(s);

  o A statement that the Respondent is presumed not responsible for the alleged conduct, and that a determination regarding responsibility will be made at the conclusion of the Grievance Process;

  o Information that the parties may have an Advisor of their choice, who may be, but is not required to be, an attorney;

  o A statement that the parties and their Advisors will have the right to inspect and review evidence during the investigation of a Formal Complaint; and

  o Reference to the provisions within the Student Sexual Misconduct and Harassment Policy that prohibits knowingly making False Reports or False Statements.
Such notice will be provided to the parties within a reasonable period of time prior to conducting any investigatory interview, so that the parties have time to prepare and meaningfully respond.

If, in the course of an investigation, the University decides to investigate allegations about the Complainant or Respondent that were not included in the initial notice, the University will provide notice of the additional allegations to be investigated, to the known parties.

FORMAL RESOLUTION PROCESS

- **Written Notice of Meetings, Interviews, Hearings** – Written notice of the date, time, location, participants, and purpose of all investigative interviews, hearings, or any other meetings, will be provided to any party whose participation is invited or expected, with sufficient time for the party to prepare to participate.

- **Investigation of a Formal Complaint** – After notification of the allegations in the Formal Complaint has been sent, the DEI Investigator, or Designee, will promptly initiate an investigation within seven (7) calendar days. The investigation shall be completed in a reasonably prompt manner, and should be completed within ninety (90) calendar days from the time the Formal Complaint is filed.
  
  o The investigation will include interviews of the Complainant(s), Respondent(s) and any witnesses/individuals believed to have information relevant to the allegations, as well as the collection of any relevant evidence.
  
  o Each party is permitted to have their Advisor present during any investigatory interview, or other meeting. However, while the party has the right to communicate with their Advisor during any meeting, the Advisor does not have speaking privileges during the investigation/investigatory interviews.
  
  o The investigator will not access, consider, disclose, or otherwise use a party’s records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional/paraprofessional acting in the professional/paraprofessional’s capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless the investigator obtains that party’s voluntary, written consent to do so for a Grievance Process.
  
  o The parties and their Advisors are not restricted from discussing the allegations under investigation for the purpose of gathering and presenting evidence to the investigator.
  
  o During the investigation, the parties will be provided the opportunity to present witnesses, including fact and expert witnesses, and other inculpatory (evidence implying or imputing responsibility) and exculpatory (evidence exonerating responsibility) evidence.

- **Investigation Report** – The DEI Investigator or Designee will prepare an Investigation Report that fairly summarizes relevant evidence and preliminary findings of fact.
  
  o An initial Investigation Report, along with all of the evidence gathered by the investigator (any evidence obtained as part of the investigation, that is related to the allegations in the Formal Complaint, including information that will not be relied upon in reaching a determination and without regard to the source of the information), will be shared with the parties and their Advisors (if any) simultaneously. Names and other identifying information of individuals in the report/evidence may be redacted if required by the Family Educational Rights and Privacy Act
("FERPA"). The parties and their Advisors must keep the evidence confidential and not share it with anyone, except for the purpose of gathering and presenting relevant evidence to provide to the investigator within the 10-day period. Failure to abide by this confidentiality obligation may subject a party or Advisor to disciplinary action by the University.

- Each party may respond to the investigator in writing, within ten (10) calendar days of receipt of the initial report/evidence.
- After reviewing any timely submitted responses by the parties, within fourteen (14) calendar days, the investigator will prepare a final Investigation Report. The final Investigation Report will fairly summarize the relevant evidence and findings of fact.
- The parties and their Advisors (if any) will be simultaneously provided with an electronic or hard copy of the final Investigation Report. A copy of the final Investigation Report will also be forwarded at the same time to the Office of Community Standards, for the scheduling of a Hearing.

**Hearing** – A Hearing should be scheduled by the Office of Community Standards no later than thirty (30) calendar days after receipt of the final Investigation Report.

- Each party may have one Advisor attend the Hearing. While a party may communicate with their Advisor, the Advisor may not actively participate in the Hearing. Prior to the scheduled Hearing, each party will be asked to identify their Advisor, if any, who will be present for the Hearing.
- Prior to the scheduled Hearing, the parties will be provided an opportunity to make a request for witnesses to participate in the Hearing on their behalf. The parties must notify the AVP of Civic Involvement, or Designee, of any witnesses at least seven (7) calendar days prior to the Hearing. The parties will also be advised of potential Hearing panelists, and provided the opportunity to object to a panelist based on a conflict of interest.
- If the matter to be heard had originally attempted, but was unsuccessful at, the Informal Resolution Process, any information related to the Informal Resolution Process will not be admissible during the Hearing. In addition, the individual who facilitated the Informal Resolution Process may not be called as a witness at the Hearing.
- A matter will be heard by a Hearing Panel consisting of three (3) voting members, one of whom will be the Hearing Chair. The Hearing Chair will exercise control over the manner in which the Hearing is conducted, including being responsible for managing the questioning process. The decisions regarding responsibility and any Disciplinary Sanctions, if applicable, will be determined by a majority vote.
- Hearings may be conducted with all parties physically present in the same geographic location or, at the University’s discretion, any or all parties, witnesses, and other participants may appear at the Hearing virtually, with technology enabling participants simultaneously to see and hear each other. For Hearings occurring in-person, at the request of a party, the University will provide for the Hearing to occur with the parties located in separate rooms with technology enabling the Hearing Panel, parties and their Advisors to simultaneously see and hear the party or the witness answering questions.
- Both/all parties shall be permitted to be present during testimony of all witnesses and presentation of the evidence throughout the Hearing.
Hearing Panel members will be provided access to the final Investigation Report and evidence at least twenty-four (24) hours prior to the Hearing. However, while the Hearing Panel members may consider the final Investigation Report as evidence, the Hearing Panel will function as an independent adjudicating body and will not be bound by any findings made by the investigator.

At the beginning of the Hearing, the Hearing Chair, along with the other members of the Hearing Panel, will enter their names into the recording. The parties and their Advisors (if applicable) will also enter their names into the recording.

The Hearing Chair will ask if the Respondent has received the original notice of allegation(s) letter, and understands the nature of the charges.

The Hearing Chair will then confirm that the Hearing Panel members and the parties have received copies of the Formal Complaint, notice of allegation(s) letter, list of witnesses, along with the final Investigation Report.

The remainder of the Hearing will customarily proceed in the following order:

- Opening statement from the Complainant;
- Opening statement from the Respondent;
- Questioning of the investigator;
- Questioning of Complainant;
- Questioning of Respondent;
- Questioning of witnesses – each witness will be called one at a time, questioned separately, and dismissed at the conclusion of their testimony;
- Final questions of the Complainant(s)/Respondent(s) from the Hearing Panel;
- Respondent’s final statement; and
- Complainant's final statement.

Each party will have the opportunity to cross examine the other party (and relevant witnesses, if any) by submitting cross-examination questions to the Hearing Chair for consideration. Only relevant cross-examination questions may be asked of a party or witness. The Hearing Chair has the sole discretion to determine what questions are relevant.

Questions and evidence about the Complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence: (1) are offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or (2) concern specific incidents of the Complainant's prior sexual behavior with respect to the Respondent, and are offered to prove Consent.

The presentation of evidence by a party (including opening statements), cross-examination questions proposed, and final statements may be constrained to specified time periods when cumulative or as otherwise deemed appropriate by the Hearing Chair.

The Hearing Panel may not draw an inference about the determination regarding responsibility based solely on a party or witness's absence from the Hearing, or refusal to answer cross-examination or other questions.
Formal rules of evidence that are applicable to civil and criminal trials are not applicable to the Hearing.

All Hearings will be closed to the public, and the only individuals who are permitted to attend are the Complainant(s), Respondent(s), their Advisors, the Hearing Panel, and any witnesses called to provide testimony. In addition, University administrators (i.e., legal counsel) may also attend the Hearing with prior approval from the Hearing Chair.

All Hearings will be audio and/or video recorded. Upon request, a digital file will be made available to the parties for inspection and review.

- **Written Determination Regarding Responsibility/Disciplinary Sanctions** – Within fourteen (14) calendar days following the Hearing, the decision-maker(s) will issue a written determination regarding responsibility, and Disciplinary Sanctions and/or Remedies (if applicable).

  - If a Respondent has a record of prior disciplinary violations by the University, unless otherwise permissible, this information will not be considered by the Hearing Panel until after a determination of responsibility has been made, to assist the Hearing Panel in determining appropriate Disciplinary Sanctions.

  - The written determination will include:
    - A summary of the allegations of Sexual Misconduct;
    - A description of the procedural steps taken from the receipt of the Formal Complaint through the determination, including any notices to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, evidence considered, and hearings held;
    - Findings of fact supporting the determination;
    - Conclusions regarding the application of the University’s Student Sexual Misconduct and Harassment Policy to the facts;
    - A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any Disciplinary Sanction(s) the University will impose on the Respondent, and whether Remedies designed to restore or preserve equal access to the University’s education programs or activities will be provided by the University to the Complainant; and
    - Information regarding the University’s process and permissible bases for the Complainant and Respondent to appeal.

  - The University will provide the written determination to the parties simultaneously.

  - The determination regarding responsibility becomes final either on the date that the University provides the parties with the written determination of the result of an appeal, if any appeal is filed; or if an appeal is not filed, the date on which an appeal would no longer be considered timely.
INFORMAL RESOLUTION PROCESS

At any point after a Formal Complaint has been filed, but before a determination of responsibility has been made, the University offers the opportunity for the parties to take part in an Informal Resolution Process, as an alternative to the Formal Resolution Process.

Informal Resolution is an opportunity for the parties to settle their matter, without going through the entire Formal Resolution Process, and without a finding by the University related to responsibility. The University will not pursue disciplinary action against a Respondent during the Informal Resolution Process. And, if the parties seek an Informal Resolution after an investigation has already begun, the investigation will be suspended, pending the outcome of the Informal Resolution.

Any party interested in pursuing an Informal Resolution should advise the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance. Engagement in the Informal Resolution Process is completely voluntary, and each party must provide their written consent prior to beginning the process. If both/all parties do not agree to the Informal Resolution Process, the Formal Complaint will be addressed through the Formal Resolution Process. Most matters will be eligible for the Informal Resolution Process; however, the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, in his/her discretion, may determine, based on the allegations in the Formal Complaint, that a matter is not appropriate for Informal Resolution.

The Informal Resolution Process will be facilitated by the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance or Designee. The Informal Resolution Process will be initiated within ten (10) calendar days of the receipt of the written consent of both/all parties. The AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, or Designee, will work with the parties to complete the Informal Resolution Process within thirty (30) days.

Prior to engaging in the Informal Resolution Process, the parties will receive written notice providing the following information: (i) disclosure of the allegations, (ii) the requirements of the informal resolution process, including the circumstances under which it precludes the parties from resuming a Formal Complaint arising from the same allegations; (iii) notice that prior to agreeing to a resolution, any party has the right to withdraw from the Informal Resolution Process and resume the Formal Resolution Process; and (iv) the consequences resulting from participating in the Informal Resolution Process, including the records that will be maintained or could be shared.

If the parties reach an Informal Resolution of a Formal Complaint, an agreement that outlines the terms agreed upon by the parties will be prepared and signed by all parties. Each/all parties will be provided with a copy of the signed agreement, and the University will retain a copy in accordance with applicable law and its recordkeeping requirements. Agreements reached via the Informal Resolution Process shall be final and cannot be appealed. Any agreement reached through the Informal Resolution Process will provide that a student’s failure to comply with the terms of the signed agreement may result in disciplinary action in accordance with the Student Code of Conduct.

If the Informal Resolution Process is unsuccessful, or a party requests to end the process before a resolution is reached, or if at any time the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, or Designee, determines an Informal Resolution is no longer appropriate, the matter will be addressed through the Formal Resolution Process.

If a matter is unsuccessful in reaching an informal resolution, and is to be addressed through the Formal Resolution Process, any information related to the Informal Resolution Process may not be called as a witness at a Hearing.
APPEALS PROCESS
Complainants or Respondents may appeal the University’s dismissal of a Formal Complaint (or any allegations therein); or a determination regarding responsibility, including any Disciplinary Sanction(s) imposed.

- **Time to File an Appeal** – An appeal must be in writing, and filed within seven (7) calendar days of the date of the letter informing the parties of the dismissal decision; or the determination regarding responsibility, including any imposition of Disciplinary Sanctions, if applicable. If an appeal is not filed within seven (7) calendar days, the dismissal decision or determination regarding responsibility (including Disciplinary Sanctions, if applicable) will be deemed final.

- **Bases for Appeal** – Review of an appeal will be limited to the following bases:
  
  o Procedural irregularity or substantive error that affected the outcome of the matter. Deviations from the University’s policy/procedures will not be a basis for sustaining an appeal unless significant prejudice resulted;
  
  o New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;
  
  o The AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual Complainant or Respondent that affected the outcome of the matter; or
  
  o The Disciplinary Sanction(s) imposed were substantially disproportionate or not appropriate in light of the violation(s).

- **Procedure for Appeal of Dismissal of Formal Complaint or Allegations** – A party who wishes to appeal the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance’s decision to dismiss the Formal Complaint or an allegation therein, must submit the appeal in writing to the Vice President for Student Affairs and Dean of Students (“VP for Student Affairs”), explaining in detail the basis of the request, and including any supporting documentation. The VP for Student Affairs, or Designee, will review the appeal, any submission from the other party, Formal Complaint and the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance’s decision to dismiss, and then issue a written decision resolving the appeal, that includes the rationale for the decision, within fourteen (14) calendar days of receipt of the appeal. The appeal decision will be issued simultaneously to both/all parties. An assigned Designee shall not be the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, DEI Investigator (or Designee), or anyone who would be involved in the determination regarding responsibility.

- **Procedure for Appeal of Determination Regarding Responsibility/Sanctions** – A party who wishes to appeal a determination of responsibility, including any Disciplinary Sanction(s) imposed, if applicable, must submit the appeal in writing to the Vice President for Student Affairs and Dean of Students (“VP for Student Affairs”), explaining in detail the basis of the request, and including any supporting documentation. The VP for Student Affairs, or Designee, will review the written appeal, any submission from the other party, and all documentation contained in the case file. The VP for Student Affairs, or Designee, will issue a written decision resolving the appeal, that includes the rationale for the decision, within twenty-one (21) calendar days of receipt of the appeal. The written appeal decision will be issued simultaneously to both/all parties. An assigned Designee shall
not be the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, DEI Investigator (or Designee), or anyone who would be involved in the determination regarding responsibility.

- **Notification of Appeal** – If a party files an appeal, the other party(ies) will be notified and may make their own written submission in support of or challenging the decision of dismissal/determination of responsibility, to the VP for Student Affairs/Designee, no later than seven (7) calendar days after receipt of such notice.

- **Effect of Appeal** – If there is an appeal of a determination regarding responsibility, including any Disciplinary Sanction(s) imposed, the imposition of the Disciplinary Sanction(s), if applicable, will be deferred pending the decision of the appeal. However, any Interim Suspension, no contact directive or other appropriate Supportive/Interim Measure will remain in effect during the appeal process.

- **Final Decision** – An appeal may be resolved in the following manner:
  - A dismissal or determination regarding responsibility, including any Disciplinary Sanctions (if applicable), is affirmed;
  - A determination regarding responsibility is affirmed, but the Disciplinary Sanction(s)/Remedies is/are modified;
  - A dismissal is reversed, and the matter is returned to the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance to address in accordance with the policy; or
  - A determination of responsibility is reversed, and a new outcome is determined, which may include imposition of Disciplinary Sanctions/Remedies or dismissal of the charges.

The decision made on appeal shall be the final action of the University.

**TIMELINES**

All time frames set forth in this policy may be extended by the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, DEI Investigator, Hearing Panel Chair, or their Designee for good cause, with written notice to the Complainant(s) and Respondent(s) of the delay and the reason for the delay. Good cause may include, but is not limited to, considerations such as the absence of a party/Advisor, or a witness; the need for language assistance or an interpreter; or a person with disabilities requests a reasonable accommodation.

**RETLATION**

Any harassment, intimidation, coercion, discrimination or adverse action taken against an individual for the purpose of interfering with their rights under this policy, or because of that individual’s participation in a complaint or investigation of Sexual Misconduct, will be treated as a separate violation of this policy and will result in immediate action by the University to stop the retaliatory behavior, prevent further violations by the perpetrator, and remedy any adverse impact of the violation.

The University seeking appropriate disciplinary action against any individual who makes a False Report or False Statement does not constitute retaliation.

**RECORDKEEPING**
The University will retain for a period of at least seven (7) years, the records related to complaints, supportive/interim measures provided, investigations, transcripts or recordings of hearings, determinations of responsibility, informal resolutions, disciplinary sanctions, remedies provided, appeals and training.

TRAINING
The University will provide appropriate training to University officials with responsibilities under this policy, including the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance, investigator(s), decision-makers, and any person who will facilitate an informal resolution process.

REASONABLE ACCOMMODATIONS
Any student with a disability who needs a reasonable accommodation to assist with reporting Sexual Misconduct, responding to claims made against them, participating in the investigation and/or adjudication process, and/or determining Supportive/Interim Measures, should advise the AVP of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance as soon as possible.

Technical Standards required for admission to and completion of the MD Degree

POLICY: Technical Standards required for admission to and completion of the MD Degree

PURPOSE: To delineate the technical and behavioral requirements essential to the successful completion of the MD program at CMSRU.

SCOPE: This policy applies to all applicants and medical students at CMSRU.

PROCEDURE:
1. TECHNICAL STANDARDS
   Technical Standards delineate the essential abilities and characteristics required for completion of the MD degree and are not intended to deter any students for whom reasonable accommodation will allow them to fulfill the requirements of the program. They consist of
certain minimum physical and cognitive abilities and emotional characteristics to assure candidates for admission, promotion, and graduation are able to participate fully in all aspects of medical training with or without reasonable accommodation. The technical standards are annually approved by the Executive Council acting on behalf of the faculty. Each year students, by signing the CMSRU Student Handbook attestation, will review and attest to their continued ability to meet the technical standards with or without reasonable accommodations.

CMSRU applicants and students shall have the following abilities and skills:

a. **Observation:**
   Students should be able to obtain information from demonstrations and experiments in the basic sciences. Students should be able to assess a patient and evaluate findings accurately. These skills require the use of vision, hearing, and touch or the functional equivalent.

b. **Communication:**
   Students should be able to communicate with patients in order to elicit information, detect changes in mood, activity, and to establish a therapeutic relationship. Students should be able to communicate effectively and sensitively with patients and all members of the health care team both in person and in writing.

c. **Motor:**
   Students should, after a reasonable period of time, possess the capacity to perform a physical examination and perform diagnostic maneuvers. Students should be able to execute some motor movements required to provide general care to patients and provide or direct the provision of emergency treatment of patients. Such actions require some coordination of both gross and fine muscular movements, balance, and equilibrium.

d. **Intellectual-Conceptual, Integrative and Quantitative Abilities:**
   Students should be able to assimilate detailed and complex information presented in both didactic and clinical coursework and engage in problem solving. Candidates are expected to possess the ability to measure, calculate, reason, analyze, synthesize, and transmit information. In addition, students should be able to comprehend three-dimensional relationships and to understand the spatial relationships of structures and to adapt to different learning environments and modalities.

e. **Behavioral and Social Attributes:**
   Students should possess the emotional health required for full utilization of their intellectual abilities, the exercise of good judgment, the prompt completion of all responsibilities attendant to the diagnosis and care of patients, and the development of mature, sensitive, and effective relationships with patients, fellow students, faculty, and staff. Students should be able to tolerate physically taxing workloads and to function effectively under stress. They should be able to adapt to changing environments, to display flexibility, and learn to function in the face of uncertainties inherent in the clinical problems of many patients. Compassion, integrity, concern for others, interpersonal skills, professionalism, interest, and motivation are all personal qualities that are expected during the education processes.

f. **Ethics and Professionalism:**
   Students should maintain and display ethical and moral behaviors commensurate with the role of a future physician in all interactions with patients, faculty, staff, students and the public. The candidate is expected to understand the legal and ethical aspects of the practice of medicine and function within the law and ethical standards of the medical profession.

2. **COMMITMENT TO EQUAL ACCESS:**
CMSRU is committed to diversity and to attracting and educating students who will make the population of health care professionals’ representative of the national population, including those with disabilities. As such, CMSRU actively collaborates with students to develop innovative ways to ensure accessibility and creates a respectful and
accountable culture through our confidential and specialized disability support. Admitted students with disabilities are accommodated individually, on a case-by-case basis. We are committed to excellence in accessibility; we encourage students with disabilities to disclose and seek accommodations.

3. **REASONABLE ACCOMMODATIONS**
   a. CMSRU is committed to making reasonable accommodations for qualified students with disabilities who are able to fulfill the essential requirements and technical standards of CMSRU’s program. We wish to ensure that access to our facilities, programs, and services are available to students with disabilities. CMSRU provides reasonable accommodations to students on a non-discriminatory basis consistent with legal requirements as outlined in the Americans with Disabilities Act (ADA) of 1990, the Americans with Disabilities Act Amendments ACT (ADAAA) of 2008, and the Rehabilitation Act of 1973.

   b. Admitted candidates with disabilities are confidentially reviewed by the Office of Student Affairs to determine whether there are any reasonable accommodations or alternative mechanisms that would permit the candidate to satisfy the standards. This process is informed by the knowledge that students with varied types of disability have the ability to become successful health professionals. If you are an applicant with a disability who may require accommodations in our program we encourage you to contact Dr. Marion Lombardi at lombardim@rowan.edu or (856) 361-2805 for a confidential consultation.
Title IX Student Sexual Harassment /Sexual Assault Policy

CMSRU Adheres to the Rowan University Title IX Sexual Harassment/Sexual Assault Policy

PURPOSE

Students/Employees of the Rowan University community have the right to access and benefit from the University’s Education Programs or Activities, free from any form of Sexual Harassment/Sexual Assault. The University does not tolerate Sexual Harassment/Sexual Assault of any kind. This policy has been developed to reaffirm these principles and to provide recourse for those individuals whose rights have been violated.

APPLICABILITY

This policy applies to all students of Rowan University from the time of their acceptance and admission into the University until the date of their graduation or formal withdrawal. This policy also applies to all employees of the University. This policy shall not apply to allegations of sexual misconduct which do not constitute Sexual Harassment/Sexual Assault as defined herein. Notwithstanding, such behavior may be addressed by the University under other policies such as the Student Sexual Misconduct and Harassment Policy, Student Code of Conduct, or Procedure for Resolving Student v. Student Discrimination Complaints (for student Respondents); or the Policy Prohibiting Discrimination in the Workplace and Educational Environment, Disruptive Behavior and Workplace Violence Policy, or other applicable policy (for employee Respondents).

INTRODUCTION

Title IX of the Education Amendments of 1972 is a federal law that prohibits sex discrimination in the University's programs and activities. It reads: “No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance.” As a recipient of Federal financial assistance, Rowan University has jurisdiction over complaints alleging sex discrimination, including Sexual Harassment/Sexual Assault.

The University will respond to Reports or Formal Complaints (as defined below) of conduct prohibited under this policy with measures designed to stop the prohibited conduct, prevent its recurrence, and remediate any adverse effects of such conduct on campus or in University-related programs or activities.

The University will not deprive an individual of rights guaranteed under federal and state law (or federal and state anti-discrimination provisions; or federal and state law prohibiting discrimination on the basis of sex) when responding to any claim of Title IX Sexual Harassment/Sexual Assault.

Conduct that is prohibited under this policy may also constitute a violation of federal, state or local law and a student/employee may be charged in the criminal justice system, as well as under this policy. Alternatively, charges can occur for violations of this policy which may not be violations of the law. The criminal justice system is different from this Title IX process. The University reserves the right to reach its own determination on violations of this policy, independently of the outcome of any civil or criminal proceeding. The University retains the right to hear a Sexual Harassment/Sexual Assault matter before, after, or during the pendency of a civil or criminal matter related to the same incident/conduct. If a matter is going through the criminal justice system, and a Report or Formal Complaint has also been made to the University, the Title IX process at the University may proceed normally during the pendency of the criminal proceedings. As the Title IX process is an educational disciplinary process, the legal rules related to evidence, criminal procedure, civil procedure and administrative procedure do not apply to this process.

STANDARD OF EVIDENCE

A finding under this policy will be based on the preponderance of the evidence standard. In other words, a finding will be made if the evidence as a whole show that it is more likely than not that a violation of the Title IX Sexual Harassment/Sexual Assault Policy occurred. Under this policy, there is a presumption that the Respondent is not
responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the Grievance Process, or the Respondent admits responsibility.

DEFINITIONS/TERMINOLOGY

- **Actual knowledge** – Notice of Sexual Harassment/Sexual Assault or allegations of Sexual Harassment/Sexual Assault made to the University’s Title IX Coordinator or any official of the University who has authority to institute corrective measures on behalf of the University (such as the DEI Investigator, or Dean of Students). This standard is not met when the only official of the University with Actual Knowledge is also the Respondent. In addition, the mere fact that a third party who works for the University (such as a Responsible Employee) may become aware of allegations of Sexual Harassment/Sexual Assault, or that such individuals have the ability or obligation to report Sexual Harassment/Sexual Assault, or to inform another about how to report Sexual Harassment/Sexual Assault, or having been trained to do so, does not qualify an individual as one who has authority to institute corrective measures on behalf of the University.

- **Complainant** – An individual who is alleged to be the victim of conduct that could constitute Sexual Harassment/Sexual Assault, or on whose behalf the Title IX Coordinator has filed a Formal Complaint.

- **Consent** – Consent is informed, knowing, voluntarily and freely given permission to engage in mutually agreed upon sexual activity. The University will apply a reasonable person standard in determining whether or not consent was given, unless otherwise required by law.
  
  - The person giving consent must be capable of doing so freely, with the ability to understand what they are doing and the specific details (who, what, when, where, and how) of the sexual contact to which they are consenting.
  
  - Consent may be given by words or actions, as long as those words or actions create mutually understandable permission regarding the conditions of sexual activity.
  
  - It is the obligation of the person initiating sexual contact to obtain clear consent for the specific type of sexual contact sought. A person’s use of alcohol and/or drugs shall not diminish such person’s responsibility to obtain consent.
  
  - Lack of protest does not constitute consent. Silence or passivity without words or actions that communicate mutually understandable permission cannot be assumed to convey consent.
  
  - Use of violence, threats, coercion or intimidation invalidates any consent given.
  
  - A verbal “no,” even if it may sound indecisive or insincere, constitutes lack of consent.
  
  - Consent for one form of sexual contact does not imply consent to other forms. For example, consent to oral sex does not imply consent to vaginal/anal sex.
  
  - It is expected that once consent has been established, a person who changes their mind during the sexual act or sexual contact will communicate through words or overt actions their decision to no longer proceed.
  
  - Past consent does not constitute consent for future sexual contact/activity.
  
  - Persons who are unable to give valid consent under New Jersey law, (i.e. minors, individuals with mental health disabilities) are considered unable to give consent under NJ State Policy N.J.S.A.2C:4-2.
  
  - Consent cannot be given by a person who is unconscious or sleeping. If consent has been given while a person is conscious or awake, and then that person becomes unconscious or falls asleep, consent terminates at that point.
 Persons who are incapacitated due to the use of drugs or alcohol cannot give consent.

- **Disciplinary sanctions** – Disciplinary Sanction(s) shall be imposed upon a Respondent where a determination of responsibility for Sexual Harassment/Sexual Assault has been made against the Respondent. Disciplinary Sanctions for student Respondents may range from a warning to expulsion. Disciplinary Sanctions for employee Respondents may range from an oral reprimand, to initiation of detenuring proceedings and termination of employment, subject to applicable laws and collective bargaining agreements. Student/employee Respondents will also be referred to appropriate authorities for criminal prosecution when appropriate, regardless of any Disciplinary Sanctions under this policy.

- **Education program or activity** – Includes any location, event, or circumstance over which the University exercises substantial control over both the Respondent and the context in which the alleged Sexual Harassment/Sexual Assault occurs. This includes all of the University’s education programs or activities, whether occurring on or off-campus, and any building owned or controlled by a student organization that is officially recognized by the University (i.e., a house owned or controlled by a University-recognized fraternity or sorority).

- **False report** – Intentionally making a report of Sexual Harassment/Sexual Assault, to a University official knowing, at the time the report was made, that the prohibited conduct did not occur and the report was false. A determination regarding responsibility, alone, will not be sufficient to conclude that any party made a materially false report in bad faith.

- **False statement** – Intentionally making a statement during the Grievance Process or Appeals Process to a University official knowing, at the time the statement was made, that it was false. A determination regarding responsibility, alone, will not be sufficient to conclude that any party or witness made a materially false statement in bad faith.

- **Formal complaint** – A document filed and signed by a Complainant, or signed by the Title IX Coordinator, alleging Sexual Harassment/Sexual Assault against a Respondent, and requesting that the University investigate the allegations of Sexual Harassment/Sexual Assault. The Formal Complaint should include in detail the nature of the complaint, dates and locations of particular events, names/contact information of witnesses (if any), the name of the individual(s) against whom the complaint is being made, and any other relevant information. At the time of filing a Formal Complaint, a Complainant must be either participating in or attempting to participate in the Education Program or Activity of the University. A Report of Sexual Harassment/Sexual Assault may be filed with the Title IX Coordinator in person, by mail, by electronic mail, or by filling out the report form found [HERE](#). Upon receipt of a Report of possible Sexual Harassment/Sexual Assault, the Title IX Coordinator, or Designee, will reach out the Complainant to discuss the Complainant’s options, including the ability to file a Formal Complaint.

- **Incapacitation** – The physical and/or mental inability to make informed, rational judgements and decisions. States of incapacitation include sleep, unconsciousness, and blackouts.
  - Where alcohol or drugs are involved, incapacitation is determined by how the substance impacts a person’s decision-making capacity, awareness of consequences, and ability to make informed judgements. In evaluating whether a person was incapacitated for purposes of evaluating effective Consent, the University considers two questions:
    - Did the person initiating sexual activity know that their partner was incapacitated?
    - Should a sober, reasonable person in the same situation have known that their partner was incapacitated? If the answer to either of these questions is “yes,” effective Consent was absent.
For purposes of this policy, incapacitation is a state beyond drunkenness or intoxication. A person is not incapacitated merely because they have been drinking or using drugs. The standard for incapacitation does not turn on technical or medical definitions, but instead focuses on whether a person has the physical and/or mental ability to make informed, rational judgments and decisions.

A person who initiates sexual activity must look for the common and obvious warning signs that show that a person may be incapacitated or approaching incapacitation. Although every individual may manifest signs of incapacitation differently, typical signs include slurred or incomprehensible speech, unsteady gait, combativeness, emotional volatility, vomiting, or incontinence. A person who is incapacitated may not be able to understand some or all of the following questions: “Do you know where you are?” “Do you know how you got here?,” “Do you know what is happening?,” or “Do you know whom you are with?”

Because the impact of alcohol and other drugs varies from person to person, one should be cautious before engaging in sexual contact or intercourse when either party has been drinking alcohol or using drugs. The introduction of alcohol or other drugs may create ambiguity for either party as to whether effective Consent has been sought or given. If one has doubt about either party’s level of intoxication, the safe thing to do is to forgo all sexual activity.

- **Remedies** – Remedies may be provided to a Complainant where a determination of responsibility for Sexual Harassment/Sexual Assault has been made against the Respondent. Remedies are designed to restore or preserve the Complainant’s equal access to the University’s Education Program or Activity. Remedies may include the same individualized services described in the Supportive/Interim Measures section below; however, unlike Supportive/Interim Measures, Remedies need not be non-disciplinary or non-punitive, and need not avoid burdening the Respondent. Remedies provided may include, but not be limited to, a one-way no contact directive; changes to housing/work arrangements; or a leave of absence.

- **Report** – Anyone may file a Report alleging an incident of Sexual Harassment/Sexual Assault of which they become aware. The Report should include as much information possible, such as details (if known) of the nature of the incident, dates of particular events, names/contact information of any Complainant, Respondent, witnesses (if any), and any other relevant information. A Report may be filed with the Title IX Coordinator in person, by mail, by electronic mail, or by filling out the report form found HERE.

- **Respondent** – An individual who has been reported to be the perpetrator of conduct that could constitute Sexual Harassment/Sexual Assault.

- **Responsible employees** – Certain employees, who under this policy, are required, after receiving information regarding Sexual Harassment/Sexual Assault, to report it to the Title IX Coordinator. These employees include, but are not limited to, Public Safety Police and Security Officers, managers and supervisors, coaches, club and organization advisors, faculty, Deans, and Residential Learning staff (Resident Assistants, Community Safety Assistants, Resident Directors, and Residential Learning Coordinators). Notwithstanding, knowledge of an incident of Sexual Harassment/Sexual Assault by a Responsible Employee (other than those who also have authority to institute corrective measures on behalf of the University) does not constitute Actual Knowledge by the University.

- **Sanctions** – See Disciplinary Sanctions.

- **Supportive/interim measures** – See Section X below.

**PROHIBITED CONDUCT**
This policy addresses allegations of sexual misconduct that meet the definition of Title IX Sexual Harassment/Sexual Assault, which encompasses all of the prohibited conduct defined below that occurs on the basis of sex and meets the
following requirements: (i) occurs within the United States; (ii) occurs within the University’s Education Program or Activity; and (iii) at the time of the filing of the Formal Complaint, the Complainant was participating in, or attempting to participate in, the Education Program or Activity.

Allegations of sexual misconduct that do not fall under this policy because they do not constitute prohibited conduct as defined in this section, may be addressed under the Student Sexual Misconduct and Harassment Policy, Student Code of Conduct, or Procedure for Resolving Student v. Student Discrimination Complaints (for student Respondents); or the Policy Prohibiting Discrimination in the Workplace and Educational Environment, Disruptive Behavior and Workplace Violence Policy, or other applicable policy (for employee Respondents).

Prohibited conduct (referred to collectively as “Sexual Harassment/Sexual Assault” throughout the policy) is:

- **Sexual harassment** – Conduct on the basis of sex, through any medium, that satisfies one or more of the following:
  - An employee of the University conditions the provision of aid, benefit or service of the University on an individual’s participation in unwelcome sexual conduct; or
  - Unwelcome conduct determined by a reasonable person to be so severe, pervasive and objectively offensive that it effectively denies a person of equal access to the University’s Education Program or Activity.

- **Sexual assault** – Any sexual act directed against another person, without their consent or where they are incapable of giving consent. An offense that meets the definition of rape, fondling, incest or statutory rape:
  - *Rape*: The penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.
  - *Fondling*: The touching of the private body parts of another person for the purpose of sexual gratification, without the consent of the victim, including instances where the victim is incapable of giving consent because of his/her age or because of his/her temporary or permanent mental incapacity.
  - *Incest*: Sexual intercourse between persons who are related to each other within the degrees wherein marriage is prohibited by law.
  - *Statutory Rape*: Sexual intercourse with a person who is under the statutory age of consent.

- **Stalking** – Engaging in a course of conduct, through any medium, directed at a specific person that would cause a reasonable person to: (a) fear for the person’s own safety or the safety of others; or (b) suffer substantial emotional distress. For the purposes of this definition:
  - Course of conduct means two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property;
  - Reasonable person means a reasonable person under similar circumstances and with similar identities to the Complainant;
  - Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

- **Dating violence** – Violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with another person. The existence of such a relationship shall be determined based on a consideration of the following factors: (a) the length of the relationship; (b) the type of relationship; and (c) the frequency of interaction between the persons involved in the relationship.
• **Domestic violence** – A felony or misdemeanor crime of violence committed by: (a) a current or former spouse or intimate partner; (b) a person with whom an individual shares a child in common; (c) a person who is cohabitating with, or has cohabitated with, the other person as a spouse or intimate partner; (d) a person similarly situated to a spouse of the other person under the domestic or family violence laws in which the crime of violence occurred; or (e) any other person against an adult or youth who is protected from that person's acts under the domestic or family violence laws of the jurisdiction in which the crime of violence occurred.

**REPORTING OPTIONS – HOW TO FILE A REPORT/COMPLAINT**

Students/Employees who have experienced Sexual Harassment/Sexual Assault or sex discrimination in the University's programs and activities, and those who have knowledge of Sexual Harassment/Sexual Assault or sex discrimination in the University's programs and activities, are strongly encouraged to report this information as soon as possible. Prompt reporting of incidents greatly improves the ability of the University and law enforcement to provide support resources to students/employees and to address the violations effectively. Although there is no time limit for reporting Sexual Harassment/Sexual Assault, delays in reporting may reduce the ability of the University and law enforcement to investigate and respond to incidents. After an incident of Sexual Harassment/Sexual Assault, the student/employee should consider seeking medical attention as soon as possible. In New Jersey, evidence may be collected even if you chose not to make a report to law enforcement.

It is a violation of this policy for anyone to make a False Report of Sexual Harassment/Sexual Assault, or for anyone to make a False Statement. Disciplinary Sanctions may be imposed for intentionally making a False Report or False Statement.

**REPORTING TO LAW ENFORCEMENT**

- Where criminal behavior is involved, the University encourages, and will assist students/employees with, reporting to law enforcement. However, students/employees have the right to decline notifying law enforcement. For criminal offenses that occur on the University campus, students/employees should immediately contact Rowan Public Safety, 856-256-4911. Rowan Public Safety can assist students/employees in contacting and filing a report/complaint with any other agency when the incident did not occur on campus.
  - Glassboro campus – Glassboro Police Department, 1 South Main Street, Glassboro, NJ 856-881-1500; [http://www.glassboropd.org/](http://www.glassboropd.org/)
  - RowanSOM campus – Stratford Police Department, 315 Union Ave., Stratford, NJ 856-783-8616; [https://som.rowan.edu/oursom/campus/safety.html](https://som.rowan.edu/oursom/campus/safety.html)
- LGBTQIA+ (Lesbian, Gay, Bisexual, Transgender, Queer/Questioning, Intersex, or Agender/Asexual) students/employees should know that every Rowan Public Safety Officer will assist them should they choose to report Sexual Harassment/Sexual Assault. However, if an LGBTQIA+ student/employee would prefer, they can ask to speak directly with the Rowan University LGBTQIA+ police liaison.
- Behavior that constitutes a violation of this policy may also be a crime under the laws of the State of New Jersey.

**REPORTING TO THE UNIVERSITY**

- A student/employee may choose to report an incident of Sexual Harassment/Sexual Assault to the University before they have made a decision about whether or not to report to law enforcement. A student/employee has the right to file a criminal complaint and a Title IX Formal Complaint simultaneously.
• Once a Report of Sexual Harassment/Sexual Assault has been received, whether or not a Formal Complaint has been filed, the University will provide written notification to the Complainant about existing counseling, health, mental health, student advocacy, employee advocacy, legal assistance, visa and immigration assistance, student financial aid, and other services that are available at Rowan and in the surrounding communities. For more information on these services please visit OSEC’s website.

• Reports of incidents alleging to involve Sexual Harassment/Sexual Assault or sex discrimination in a University program or activity should be made to the Title IX Coordinator in person, by mail, by electronic mail, or by filling out the report found HERE.

**Title IX Coordinator**
Monise Princilus, Ed.S.
Associate Vice President and Title IX Coordinator of the Division of Diversity, Equity and Inclusion, Office of Student Equity and Compliance
203 Savitz Hall
856-256-5440
princilus@rowan.edu

In addition, prior to filing a Report or Formal Complaint, a person may reach out to the following individuals to discuss their reporting options. The below individuals are Responsible Employees under this policy and, therefore, should report the incident to the Title IX Coordinator. However, their knowledge of any incident does not constitute Actual Knowledge by the University. Thus, if a student/employee wishes to ensure a Report/ Formal Complaint has been made, the individual should also reach out to the Title IX Coordinator.

**Athletics / LGBTQIA+**

**Graduate Medical Education**
Sheila Seddon, Assistant Director
Academic Center Stratford, NJ
856-566-2742, seddonsm@rowan.edu
POLICY OF IMMUNITY
The University will grant immunity for using alcohol and drugs to both a Complainant and/or Respondent, unless the alcohol or drug was used knowingly to perpetrate violence. No one should be fearful of obtaining resources or remedies from a violent crime because they were intoxicated. In addition, the University will not pursue disciplinary action for drug or alcohol violations, or most other violations of the Student Code of Conduct, against a party or witness who comes forward in good faith to Report Sexual Harassment/Sexual Assault. See Rowan University Good Samaritan Policy.

OTHER REPORTING OPTIONS
Individuals also have the right to file a complaint with federal/state agencies that investigate Sexual Harassment, Sexual Assault and discrimination. An external complaint must be filed directly with the agency, and each agency should be consulted to determine proper deadlines for filing.

CONFIDENTIALITY
When the University is made aware of a report or allegation of Sexual Harassment/Sexual Assault, the University will endeavor to maintain the confidentiality of the matter and of all individuals involved to the extent permitted by law. The University will balance the needs of the individuals involved (Complainant and Respondent) with its obligation to fully investigate allegations and to protect the safety and wellbeing of the community at large. In all cases, the University and its employees will respect the dignity and rights of all individuals involved.

- Responsible Employees: When consulting campus resources, individuals should be aware that certain employees are Responsible Employees who under this policy are required, after receiving information regarding Sexual Harassment/Sexual Assault, to report it to the Title IX Coordinator. These include, but are not limited to, Public Safety Police and Security Officers, managers and supervisors, coaches, club and organization advisors, faculty, Deans, and Residential Learning staff (Resident Assistants, Community Safety Assistants, Resident Directors, and Residential Learning Coordinators). Knowledge of an incident of Sexual Harassment/Sexual Assault by a Responsible Employee (other than those who also have authority to institute corrective measures on behalf of the
University) does not constitute Actual Knowledge by the University.

If an individual has reported information to a Responsible Employee, but the individual would like for the report to remain confidential, the student should contact the Title IX Coordinator, who will evaluate the individual’s request for confidentiality. The Grievance Process will only be initiated when a Formal Complaint has been filed with or by the Title IX Coordinator.

- **Confidential Resources – Students:** Students who desire that details of an incident be kept confidential can receive confidential services through the Counseling & Psychological Services Center (856-256-4333), which is located in the Wellness Center at Winans Hall. Counselors with specialized training are available to support students who report Sexual Harassment/Sexual Assault. Counselors are available to help you free of charge, and can be seen on an emergency basis. The Student Health Center (856-256-4222) can also provide confidential consultation with students and may offer treatment to prevent sexually transmitted infections or pregnancy. In circumstances where the Health Center is unable to offer these services, they will provide a referral to an appropriate medical resource. In addition, you may speak with members of the clergy, who will also keep reports made to them confidential. LGBTQIA+ students who would like to speak with a confidential resource should know that every counselor at the Wellness Center is committed to supporting students of all gender identities, gender expressions, and sexual orientations. When speaking with these resources, a student’s right to confidentiality is legally protected. However, there are limits to this protection in specific situations. For example, if a student discloses that the incident involved the use of a weapon or other contraband as defined by New Jersey law, or there is an ongoing threat or danger to the safety of another person (particularly children or the elderly), these resources may be required to report the incident to police.

- **Confidential Resources – Employees:** Employees who desire that details of an incident be kept confidential can receive confidential services through the New Jersey Employee Advisory Service (1-866-327-9133).

- **Federal Statistical Reporting and Federal Timely Warning Obligations:** Certain campus officials have a duty to report Sexual Harassment/Sexual Assault for federal statistical reporting purposes. All personally identifiable information is kept confidential, but statistical information must be passed along to campus law enforcement regarding the type of incident and its general location (on or off-campus, in the surrounding area, etc. – with addresses withheld), for publication in the annual Campus Security Report. This report helps to provide the community with a clear picture of the extent and nature of campus crime to ensure greater community safety.

  Individuals who report Sexual Harassment/Sexual Assault should also be aware that University administrators may be required to issue timely warnings for certain incidents reported to them that pose a substantial threat of bodily harm or danger to members of the community, to aid in the prevention of similar occurrences. The University will withhold the names and other personally identifiable information of individuals as confidential, while still providing enough information for community members to make decisions related to their safety in light of the danger.

**SUPPORTIVE/INTERIM MEASURES**
Non-disciplinary, non-punitive individualized services will be offered to the Complainant and/or Respondent, as appropriate and as reasonably available, without fee or charge, where no Formal Complaint has been filed, or before or after the filing of a Formal Complaint. Such measures are designed to restore or preserve equal access to the University’s Education Program or Activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties, the University’s educational environment, and/or to deter Sexual Harassment/Sexual Assault.

Supportive/Interim Measures may include, but are not limited to, the provision of information related to counseling, academic support, mental health services; extensions of deadlines or other course-related adjustments; modifications of
work or class schedules; campus escort services; mutual restrictions on contact between the parties (no contact directives); changes in work or housing locations; leaves of absence; increased security; and other similar measures.

In addition, the University may place a student on an Interim Suspension, pending the outcome of the Grievance Process. This decision will be made in accordance with the University’s Student Code of Conduct. And, an employee may be placed on an Administrative leave (paid or unpaid), pending the outcome of the Grievance Process.

The University will maintain as confidential any Supportive/Interim Measures provided to the Complainant or Respondent, to the extent that maintaining such confidentiality would not impair the University’s ability to provide the Supportive/Interim Measure(s).

ADVISORS
A Complainant and Respondent each have the right to an Advisor of their choice during the Grievance Process (discussed below). An Advisor may be a family member, a friend, an attorney, or any third party (i.e., a trusted employee for a student; or a union representative for an employee). However, an Advisor may not otherwise be involved in the Grievance Process (i.e., a witness, co-Complainant or co-Respondent). Advisors are present to support the parties and to provide advice on procedural matters, as well as conduct cross-examination during any Hearing.

Other than as provided in this policy, Advisors may not speak on behalf of the party.

Advisors must adhere to all conditions and obligations under this policy and as required by the University’s process.

The Advisor has the right to accompany the Complainant or Respondent to any meetings with the Title IX Coordinator, DEI Investigator (or their Designee), or University administrators, and the party has the right to communicate with their Advisor during any meeting. The Advisor may also assist the Complainant or Respondent during the investigation, preparing/submitting a response to the investigation report, attend the live hearing, or assist with the filing of an appeal.

The Advisor does not have speaking privileges during the investigation/investigatory interviews. The Title IX Coordinator or designee will exercise control over the investigation. Anyone who disrupts an investigatory interview or who fails to adhere to University policies may be asked to leave an investigatory interview.

With respect to the Hearing, if a Complainant or Respondent does not have an Advisor, one will be provided by the University. The Advisor is to conduct cross examination on behalf of the party at the Hearing, as the parties may not conduct cross-examination on their own behalf.

Regardless of whether a party has an Advisor, the Title IX Coordinator, DEI Investigator or Designee will correspond and communicate directly with the parties. If a party wishes for their Advisor to be copied on any correspondence or communications, the party should advise the Title IX Coordinator or DEI Investigator.

GRIEVANCE PROCESS/PROCEDURES
Upon receipt of a Report of Sexual Harassment/Sexual Assault, the Title IX Coordinator or Designee, will contact the Complainant to: (i) discuss available Supportive/Interim Measures, while taking into consideration the Complainant’s wishes; (ii) inform the Complainant that the Supportive/Interim Measures are available with or without a Formal Complaint; and (iii) explain the process for filing of a Formal Complaint.

Upon receipt of a Formal Complaint, the University will initiate the Grievance Process.

The University will treat Complainants and Respondents equitably by providing Remedies to a Complainant where a determination of responsibility for Sexual Harassment/Sexual Assault has been made against the Respondent, and by following the Grievance Process before the imposition of any Disciplinary Sanctions or other actions, that are not Supportive/Interim Measures, are taken against a Respondent.
Throughout the Grievance Process, there will be an objective evaluation of all relevant evidence, including both inculpatory (evidence implying or imputing responsibility) and exculpatory (evidence exonerating responsibility) evidence. In addition, credibility determinations will not be based on an individual’s status as a Complainant, Respondent, or witness.

Individuals involved in the Grievance Process (Title IX Coordinator, investigator, decision-maker, or any person designated by the University to facilitate an informal resolution process) shall not have a conflict of interest or bias for or against Complainants or Respondents generally, or an individual Complainant or Respondent. Such individuals shall also have the appropriate training as set forth in the Training Section of this policy.

It is presumed that a Respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the Grievance Process, or if a Respondent admits to responsibility.

It is a violation of this policy for anyone to make a False Report of Sexual Harassment/Sexual Assault, or for anyone to make a False Statement during the Grievance Process. Disciplinary Sanctions may be imposed for intentionally making a False Report or False Statement.

**DISMISSAL OF A FORMAL COMPLAINT**

- The Title IX Coordinator must dismiss the Formal Complaint, or allegations therein, at any time, if it is determined that the conduct alleged: (i) would not constitute Sexual Harassment/Sexual Assault, even if proved; (ii) did not occur while the Complainant was participating in, or attempting to participate in, the University’s Education Program or Activity; or (iii) did not occur against a person in the United States. Such a dismissal does not preclude the University from taking action under another provision of the University’s policies.

- The Title IX Coordinator, in his/her discretion, may also dismiss the Formal Complaint, or allegations therein, if at any time during the Grievance Process, the following occurs: (1) the Complainant notifies the Title IX Coordinator in writing that the Complainant would like to withdraw the Formal Complaint, or any allegations therein; (ii) the Respondent is no longer enrolled or employed by the University; or (iii) specific circumstances prevent the University from gathering evidence sufficient to reach a determination as to the Formal Complaint or allegations therein.

- Written notice of any required or permitted dismissal, including any reason(s) therefore, shall be promptly sent to the parties simultaneously. This notice will also advise the parties of their appeal rights in accordance with this policy.

**Consolidation of Formal Complaints** – Formal Complaints as to allegations of Sexual Harassment/Sexual Assault against more than one Respondent, or by more than one Complainant against one or more Respondents, or by one party against the other party, may be consolidated where the allegations of Sexual Harassment/Sexual Assault arise out of the same facts or circumstances.

**Notice of Allegations** – Upon receipt of a Formal Complaint, the Title IX Coordinator, or Designee, will provide written notice to the known parties, which includes:

- A link to the University’s Title IX Sexual Harassment/Sexual Assault Policy, so the parties can review the University’s Grievance Process, including the Informal Resolution Process;

- Sufficient detail, of what is known at the time, related to the allegations of Sexual Harassment/Sexual Assault, including details such as the identities of the parties involved, the conduct allegedly constituting Sexual Harassment/Sexual Assault, and the date(s) and location(s) of the alleged incident(s);

- A statement that the Respondent is presumed not responsible for the alleged conduct, and that a determination regarding responsibility will be made at the conclusion of the Grievance Process;
• Information that the parties may have an Advisor of their choice, who may be, but is not required to be, an attorney;
• A statement that the parties and their Advisors will have the right to inspect and review evidence during the investigation of a Formal Complaint; and
• Reference to the provisions within the Title IX Sexual Harassment/Sexual Assault Policy that prohibits knowingly making False Reports or False Statements.

Such notice will be provided to the parties within a reasonable period of time prior to conducting any investigatory interview, so that the parties have time to prepare and meaningfully respond.

If, in the course of an investigation, the University decides to investigate allegations about the Complainant or Respondent that were not included in the initial notice, the University will provide notice of the additional allegations to be investigated, to the known parties.

FORMAL RESOLUTION PROCESS

• **Written Notice of Meetings, Interviews, Hearings** – Written notice of the date, time, location, participants, and purpose of all investigative interviews, hearings, or any other meetings, will be provided to any party whose participation is invited or expected, with sufficient time for the party to prepare to participate.

• **Investigation of a Formal Complaint** – After notification of the allegations in the Formal Complaint has been sent, the DEI Investigator, or Designee, will promptly initiate an investigation within seven (7) calendar days. The investigation shall be completed in a reasonably prompt manner, and should be completed within ninety (90) calendar days from the time the Formal Complaint is filed.
  
  o The investigation will include interviews of the Complainant(s), Respondent(s) and any witnesses/individuals believed to have information relevant to the allegations, as well as the collection of any relevant evidence.
  
  o Each party is permitted to have their Advisor present during any investigatory interview, or other meeting. However, while the party has the right to communicate with their Advisor during any meeting, the Advisor does not have speaking privileges during the investigation/investigatory interviews.

  o The investigator will not access, consider, disclose, or otherwise use a party’s records that are made or maintained by a physician, psychiatrist, psychologist, or other recognized professional/paraprofessional acting in the professional/paraprofessional’s capacity, or assisting in that capacity, and which are made and maintained in connection with the provision of treatment to the party, unless the investigator obtains that party’s voluntary, written consent to do so for a Grievance Process.

  o The parties and their Advisors are not restricted from discussing the allegations under investigation for the purpose of gathering and presenting evidence to the investigator.

  o During the investigation, the parties will be provided the opportunity to present witnesses, including fact and expert witnesses, and other inculpatory (evidence implying or imputing responsibility) and exculpatory (evidence exonerating responsibility) evidence.

• **Investigation Report** – The DEI Investigator or Designee will prepare an Investigation Report that fairly summarizes relevant evidence and preliminary findings of fact.

  o An initial Investigation Report, along with all of the evidence gathered by the investigator (any evidence obtained as part of the investigation, that is related to the allegations in the Formal Complaint, including information that will not be relied upon in reaching a determination and without regard to the source of the information), will be shared with the parties and their Advisors (if any) simultaneously. Names and other
identifying information of individuals in the report/evidence may be redacted if required by the Family Educational Rights and Privacy Act ("FERPA"). The parties and their Advisors must keep the evidence confidential and not share it with anyone, except for the purpose of gathering and presenting relevant evidence to provide to the investigator within the 10-day period. Failure to abide by this confidentiality obligation may subject a party or Advisor to disciplinary action by the University.

- Each party may respond to the investigator in writing, within ten (10) calendar days of receipt of the initial report/evidence.

- After reviewing any timely submitted responses by the parties, within fourteen (14) calendar days, the investigator will prepare a final Investigation Report. The final Investigation Report will fairly summarize the relevant evidence and findings of fact.

- The parties and their Advisors (if any) will be simultaneously provided with an electronic or hard copy of the final Investigation Report. A copy of the final Investigation Report will also be forwarded at the same time to the Office of Community Standards, for the scheduling of a Hearing.

- **Hearing** – A Hearing should be scheduled by the Office of Community Standards no later than thirty (30) calendar days after receipt of the final Investigation Report.

  - Each party may have one Advisor attend the Hearing, who will be responsible for conducting cross-examination and questioning on behalf of the party. Prior to the scheduled Hearing, each party will be asked to identify their Advisor who will be present for the Hearing. If a party does not have an Advisor, the University will provide one to them.

  - Prior to the scheduled Hearing, the parties will be provided an opportunity to make a request for witnesses to participate in the Hearing on their behalf. The parties must notify the AVP of Civic Involvement, or Designee, of any witnesses at least seven (7) calendar days prior to the Hearing. The parties will also be advised of potential Hearing panelists, and provided the opportunity to object to a panelist based on a conflict of interest.

  - If the matter to be heard had originally attempted, but was unsuccessful at, the Informal Resolution Process, any information related to the Informal Resolution Process will not be admissible during the Hearing. In addition, the individual who facilitated the Informal Resolution Process may not be called as a witness at the Hearing.

  - A matter will be heard by a Hearing Panel consisting of three (3) voting members, one of whom will be the Hearing Chair. The Hearing Chair will exercise control over the manner in which the Hearing is conducted, including being responsible for managing the cross-examination and questioning process in accordance with applicable law/policy. The decisions regarding responsibility and any Disciplinary Sanctions, if applicable, will be determined by a majority vote.

  - Hearings may be conducted with all parties physically present in the same geographic location or, at the University’s discretion, any or all parties, witnesses, and other participants may appear at the Hearing virtually, with technology enabling participants simultaneously to see and hear each other. For Hearings occurring in-person, at the request of a party, the University will provide for the Hearing to occur with the parties located in separate rooms with technology enabling the Hearing Panel, parties and their Advisors to simultaneously see and hear the party or the witness answering questions.

  - Both/all parties shall be permitted to be present during testimony of all witnesses and presentation of the evidence throughout the Hearing.

  - Hearing Panel members will be provided access to the final Investigation Report and evidence at least twenty-four (24) hours prior to the Hearing. However, while the Hearing Panel members may consider the final
Investigation Report as evidence, the Hearing Panel will function as an independent adjudicating body and will not be bound by any findings made by the investigator.

- At the beginning of the Hearing, the Hearing Chair, along with the other members of the Hearing Panel, will enter their names into the recording. The parties and their Advisors will also enter their names into the recording.
- The Hearing Chair will ask if the Respondent has received the original notice of allegation(s) letter, and understands the nature of the charges.
- The Hearing Chair will then confirm that the Hearing Panel members and the parties have received copies of the Formal Complaint, notice of allegation(s) letter, list of witnesses, along with the final Investigation Report.
- The remainder of the Hearing will customarily proceed in the following order:
  - Opening statement from the Complainant;
  - Opening statement from the Respondent;
  - Questioning of the investigator – the Hearing Panel and parties’ Advisors will have the opportunity to question the investigator;
  - Questioning of Complainant by Hearing Panel;
  - Cross-examination of Complainant by Respondent’s Advisor;
  - Questioning of Respondent by Hearing Panel;
  - Cross-examination of Respondent by Complainant’s Advisor;
  - Questioning of witnesses – each witness will be called one at a time, questioned separately, and dismissed at the conclusion of their testimony. Each witness may be questioned by the Hearing Panel, as well as the parties’ Advisors;
  - Final questions of the Complainant(s)/Respondent(s) from the Hearing Panel;
  - Respondent’s final statement; and
  - Complainant's final statement.
- Each party’s Advisor will be permitted to ask the other party and any witnesses all relevant questions and follow-up questions, including those challenging credibility. Cross-examination conducted by the Advisors must be done directly, orally and in real time.
- Only relevant cross-examination and other questions may be asked of a party or witness. Before a Complainant, Respondent, or witness answers a cross-examination or other question, the Hearing Chair will first determine whether the question is relevant, and explain any decision to exclude a question as not relevant.
- Questions and evidence about the Complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence: (1) are offered to prove that someone other than the Respondent committed the conduct alleged by the Complainant, or (2) concern specific incidents of the Complainant's prior sexual behavior with respect to the Respondent, and are offered to prove Consent.
• The presentation of evidence by a party (including opening statements), questions directed to participants, and final statements may be constrained to specified time periods when cumulative or as otherwise deemed appropriate by the Hearing Chair.

• If a party or witness does not submit to cross-examination at the Hearing, the Hearing Panel may not rely on any statement of that party or witness in reaching a determination regarding responsibility. In addition, the Hearing Panel may not draw an inference about the determination regarding responsibility based solely on a party or witness's absence from the Hearing, or refusal to answer cross-examination or other questions.

• Formal rules of evidence that are applicable to civil and criminal trials are not applicable to the Hearing.

• All Hearings will be closed to the public, and the only individuals who are permitted to attend are the Complainant(s), Respondent(s), their Advisors, the Hearing Panel, and any witnesses called to provide testimony. In addition, University administrators (i.e., legal counsel) may also attend the Hearing with prior approval from the Hearing Chair.

• All Hearings will be audio and/or video recorded. Upon request, a digital file will be made available to the parties for inspection and review.

• **Written Determination Regarding Responsibility/Disciplinary Sanctions** – Within fourteen (14) calendar days following the Hearing, the decision-maker(s) will issue a written determination regarding responsibility, and Disciplinary Sanctions and/or Remedies (if applicable).

  • If a Respondent has a record of prior disciplinary violations by the University, unless otherwise permissible, this information will not be considered by the Hearing Panel until after a determination of responsibility has been made, to assist the Hearing Panel in determining appropriate Disciplinary Sanctions.

  • The written determination will include:
    ▪ A summary of the allegations of Sexual Harassment/Sexual Assault;
    ▪ A description of the procedural steps taken from the receipt of the Formal Complaint through the determination, including any notices to the parties, interviews with parties and witnesses, site visits, methods used to gather other evidence, evidence considered, and hearings held;
    ▪ Findings of fact supporting the determination;
    ▪ Conclusions regarding the application of the University’s Title IX Sexual Harassment/Sexual Assault Policy to the facts;
    ▪ A statement of, and rationale for, the result as to each allegation, including a determination regarding responsibility, any Disciplinary Sanction(s) the University will impose on the Respondent, and whether Remedies designed to restore or preserve equal access to the University’s Education Program or Activity will be provided by the University to the Complainant; and
    ▪ Information regarding the University’s process and permissible bases for the Complainant and Respondent to appeal.

  • The University will provide the written determination to the parties simultaneously.

  • The determination regarding responsibility becomes final either on the date that the University provides the parties with the written determination of the result of an appeal, if any appeal is filed; or if an appeal is not filed, the date on which an appeal would no longer be considered timely.
INFORMAL RESOLUTION PROCESS
At any point after a Formal Complaint has been filed, but before a determination of responsibility has been made, the University offers the opportunity for the parties to take part in an Informal Resolution Process, as an alternative to the Formal Resolution Process. Allegations of Sexual Harassment/Sexual Assault made by a student against an employee may not be resolved through Informal Resolution.

Informal Resolution is an opportunity for the parties to settle their matter, without going through the entire Formal Resolution Process, and without a finding by the University related to responsibility. The University will not pursue disciplinary action against a Respondent during the Informal Resolution Process. And, if the parties seek an Informal Resolution after an investigation has already begun, the investigation will be suspended, pending the outcome of the Informal Resolution.

Any party interested in pursuing an Informal Resolution should advise the Title IX Coordinator. Engagement in the Informal Resolution Process is completely voluntary, and each party must provide their written consent prior to beginning the process. If both/all parties do not agree to the Informal Resolution Process, the Formal Complaint will be addressed through the Formal Resolution Process. Most matters will be eligible for the Informal Resolution Process; however, the Title IX Coordinator, in his/her discretion, may determine, based on the allegations in the Formal Complaint, that a matter is not appropriate for Informal Resolution.

The Informal Resolution Process will be facilitated by the Title IX Coordinator or Designee. The Informal Resolution Process will be initiated within ten (10) calendar days of the receipt of the written consent of both/all parties. The Title IX Coordinator, or Designee, will work with the parties to complete the Informal Resolution Process within thirty (30) days.

Prior to engaging in the Informal Resolution Process, the parties will receive written notice providing the following information: (i) disclosure of the allegations, (ii) the requirements of the informal resolution process, including the circumstances under which it precludes the parties from resuming a Formal Complaint arising from the same allegations; (iii) notice that prior to agreeing to a resolution, any party has the right to withdraw from the Informal Resolution Process and resume the Formal Resolution Process; and (iv) the consequences resulting from participating in the Informal Resolution Process, including the records that will be maintained or could be shared.

If the parties reach an Informal Resolution of a Formal Complaint, an agreement that outlines the terms agreed upon by the parties will be prepared and signed by all parties. Each/all parties will be provided with a copy of the signed agreement, and the University will retain a copy in accordance with applicable law and its recordkeeping requirements. Agreements reached via the Informal Resolution Process shall be final and cannot be appealed. Any agreement reached through the Informal Resolution Process will provide that a student’s failure to comply with the terms of the signed agreement may result in disciplinary action in accordance with the Student Code of Conduct; and an employee’s failure to comply with the terms of a signed agreement may result in disciplinary action, up to and including termination.

If the Informal Resolution Process is unsuccessful, or a party requests to end the process before a resolution is reached, or if at any time the Title IX Coordinator, or Designee, determines an Informal Resolution is no longer appropriate, the matter will be addressed through the Formal Resolution Process.

If a matter is unsuccessful in reaching an informal resolution, and is to be addressed through the Formal Resolution Process, any information related to the Informal Resolution Process will not be admissible during a Hearing. In addition, the individual who facilitated the Informal Resolution Process may not be called as a witness at a Hearing.

APPEALS PROCESS
Complainants or Respondents may appeal the University’s dismissal of a Formal Complaint (or any allegations therein); or a determination regarding responsibility, including any Disciplinary Sanction(s) imposed.

- Time to File an Appeal – An appeal must be in writing, and filed within seven (7) calendar days of the date of the letter informing the parties of the dismissal decision; or the determination regarding responsibility, including
any imposition of Disciplinary Sanctions, if applicable. If an appeal is not filed within seven (7) calendar days, the dismissal decision or determination regarding responsibility (including Disciplinary Sanctions, if applicable) will be deemed final.

- **Bases for Appeal** – Review of an appeal will be limited to the following bases:
  - Procedural irregularity or substantive error that affected the outcome of the matter. Deviations from the University’s policy/procedures will not be a basis for sustaining an appeal unless significant prejudice resulted;
  - New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;
  - The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual Complainant or Respondent that affected the outcome of the matter; or
  - The Disciplinary Sanction(s) imposed were substantially disproportionate or not appropriate in light of the violation(s).

- **Procedure for Appeal of Dismissal of Formal Complaint or Allegations** – A party who wishes to appeal the Title IX Coordinator’s decision to dismiss the Formal Complaint or an allegation therein, must submit the appeal in writing to the Vice President for Student Affairs and Dean of Students (“VP for Student Affairs”), explaining in detail the basis of the request, and including any supporting documentation. The VP for Student Affairs, or Designee, will review the appeal, any submission from the other party, Formal Complaint and the Title IX Coordinator’s decision to dismiss, and then issue a written decision resolving the appeal, that includes the rationale for the decision, within fourteen (14) calendar days of receipt of the appeal. The appeal decision will be issued simultaneously to both/all parties. An assigned Designee shall not be the Title IX Coordinator, DEI Investigator (or Designee), or anyone who would be involved in the determination regarding responsibility.

- **Procedure for Appeal of Determination Regarding Responsibility/Sanctions** – A party who wishes to appeal a determination of responsibility, including any Disciplinary Sanction(s) imposed, if applicable, must submit the appeal in writing to the Vice President for Student Affairs and Dean of Students (“VP for Student Affairs”), explaining in detail the basis of the request, and including any supporting documentation. The VP for Student Affairs, or Designee, will review the written appeal, any submission from the other party, and all documentation contained in the case file. The VP for Student Affairs, or Designee, will issue a written decision resolving the appeal, that includes the rationale for the decision, within twenty-one (21) calendar days of receipt of the appeal. The written appeal decision will be issued simultaneously to both/all parties. An assigned Designee shall not be the Title IX Coordinator, DEI Investigator (or Designee), or anyone who would be involved in the determination regarding responsibility.

- **Notification of Appeal** – If a party files an appeal, the other party(ies) will be notified and may make their own written submission in support of or challenging the decision of dismissal/determination of responsibility, to the VP for Student Affairs/Designee, no later than seven (7) calendar days after receipt of such notice.

- **Effect of Appeal** – If there is an appeal of a determination regarding responsibility, including any Disciplinary Sanction(s) imposed, the imposition of the Disciplinary Sanction(s), if applicable, will be deferred pending the decision of the appeal. However, any Interim Suspension, no contact directive or other appropriate Supportive/Interim Measure will remain in effect during the appeal process.

- **Final Decision** – An appeal may be resolved in the following manner:
A dismissal or determination regarding responsibility, including any Disciplinary Sanctions (if applicable), is affirmed;

- A determination regarding responsibility is affirmed, but the Disciplinary Sanction(s)/Remedies is/are modified;
- A dismissal is reversed, and the matter is returned to the Title IX Coordinator to address in accordance with the policy; or
- A determination of responsibility is reversed, and a new outcome is determined, which may include imposition of Disciplinary Sanctions/Remedies or dismissal of the charges.

The decision made on appeal shall be the final action of the University.

**TIMELINES**

All time frames set forth in this policy may be extended by the Title IX Coordinator, DEI Investigator, Hearing Panel Chair, or their Designee for good cause, with written notice to the Complainant(s) and Respondent(s) of the delay and the reason for the delay. Good cause may include, but is not limited to, considerations such as the absence of a party/Advisor, or a witness; the need for language assistance or an interpreter; or a person with disabilities requests a reasonable accommodation.

**RETAIATION**

Any harassment, intimidation, coercion, discrimination or adverse action taken against an individual for the purpose of interfering with their rights under this policy, or because of that individual’s participation in a complaint or investigation of Sexual Harassment/Sexual Assault, will be treated as a separate violation of this policy and will result in immediate action by the University to stop the retaliatory behavior, prevent further violations by the perpetrator, and remedy any adverse impact of the violation.

The University seeking appropriate disciplinary action against any individual who makes a False Report or False Statement does not constitute retaliation.

**RECORDKEEPING**

The University will retain for a period of at least seven (7) years, the records related to complaints, supportive/interim measures provided, investigations, transcripts or recordings of hearings, determinations of responsibility, informal resolutions, disciplinary sanctions, remedies provided, appeals and training.

**TRAINING**

The University’s Title IX Coordinator, investigator(s), decision-makers, and any person who will facilitate an informal resolution process, shall receive training, as applicable, on the definition of Sexual Harassment/Sexual Assault, the scope of the University’s Title IX Sexual Harassment/Sexual Assault Policy, the University’s Education Program or Activity, how to conduct an investigation, how to conduct a hearing, the appeal process, and informal resolution process. They will also receive training on how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias.

Individuals who will investigate Title IX matters under this policy shall also receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence.

In addition, any decision-makers shall receive training on the technology to be used at a live hearing, as well as on issues of relevance of questions and evidence, including when questions and evidence about the Complainant’s sexual predisposition or prior sexual behavior are not relevant.
The University will use materials to train the Title IX Coordinator, investigator(s), decision-makers, and any person who will facilitate an informal resolution process, which do not rely on sex stereotypes and promote impartial investigations and adjudications of Formal Complaints of Sexual Harassment. These training materials will be made available on the University’s website.

**REASONABLE ACCOMMODATIONS**

Any student or employee with a disability who needs a reasonable accommodation to assist with reporting Sexual Harassment/Sexual Assault, responding to claims made against them, participating in the investigation and/or adjudication process, and/or determining Supportive/Interim Measures, should advise the Title IX Coordinator as soon as possible.

**Attestation**

Please click on the web link below to acknowledge that you have read, understand and agree to comply with the policies included in the CMSRU Student Handbook. I certify that I meet the CMSRU Technical Standards with or without reasonable accommodations. I pledge to abide by the CMSRU Principles of Engagement (Appendix A.)

http://www.rowan.edu/coopermed/students/handbookesign/
Appendices

Appendix A: Principles of Engagement for Students

- We always interact with others with civility and respect
- We speak openly and without fear of retribution
- We welcome healthy disagreement and conflict which is not personal and is always in the best interest of our colleagues, our patients, the CMSRU community, and the wider community
- We foster open communication across and between all sectors of CMSRU
- We readily acknowledge errors and take appropriate action to rectify them
- We value the input of all participants in meetings and discussions
- As members of the CMSRU community, we value each other and embrace peer to peer resolution of conflict
- We assume the good intentions of all members of the CMSRU community and employ a “clear lens” in all interactions
- We work to lift each other up and reject negative comments about individuals, groups, and institutions
- We respect our faculty, staff, and administration and display professionalism in our interactions with them
- We are passionate in our pursuit of excellence
- At all times, our actions are focused on becoming competent, confident, and compassionate physicians
- We abide by the slogan: “Discuss, Debate, but don’t Debase!”
